WE call your attention to this statement, and upon its merits solicit your business. We have the disposition and ability to handle any legitimate banking business coming to us through our friends. Our efforts to build up a strong financial institution along conservative lines, have, we believe, been successful. We pledge a continuation of our usual conservative principles, and solicit the accounts of individuals and firms desiring the services of a carefully managed bank. Our steady growth tells its own story.

WE CAN FIT ANYBODY

in our

Schloss Special Sizes

DON'T think that because you happen to possess an unusual figure you can't be accurately fitted in handsome, stylish "Ready" Clothes. We can fit anybody. We buy from one of the best makers, the "Special Sizes" particularly designed and correctly tailored for the "hard-to-fit." Each model is cut and made up first, to exactly fit the wearer and, secondly, to give the normal proportions. The result is a handsomely setting garment that gives its owner a stylish figure.

Ordinary tailors can't do that—it takes extraordinary skill and experience and study to get such a result. That is why our store has become known as headquarters for "Good Clothes that Fit." It doesn't matter whether you're tall or short, stout or slim—we have models especially designed for your build; stylish, well-cut Suits that are unquestionably "Correct Clothes for Gentlemen."

Of course if you're of regular build, the problem is so much the easier, and we'll venture to say that whatever your dimensions we can satisfy you better on these all important questions of *Fit, Style and Quality*—and at a lower price—than any Clothing House in the Pecos Valley.

One of the latest political news items is to the effect that Billy Bryan will decline the democratic nomination next year and throw his powerful influence to Gov. Hoke Smith, of Georgia.

Colonel Henry Watterson, the gifted editor of the Louisville Courier-Journal, makes bold to say that only a "cataclysm" could bring about the election of Colonel William Jennings Bryan to the Presidency next year. He might have gone further and added truthfully "or any other Democrat." 1908 will again be a Republican year.—New Mexican.

The Union Pacific Coal company, which is virtually the Union Pacific Railroad company, has returned to the government 2,668 acres of coal land in Wyoming to avoid prosecution. The land was acquired as agricultural land by the use of soldier's script. These are getting to be precarious times for the land grangers under the Roosevelt administration.

A Missouri editor, who evidently must be an aged man, remarks: "We wonder if this year will be like the year 1815, which was known as 'the year without a summer,' there being frost, ice and snow throughout the summer. Only the extreme southern states and countries produced foodstuffs and grain, and seed corn the following year sold from five to ten dollars per bushel."

A Mexican woman and a negro girl were sentenced at the session of court in Sierra county last week, to hang on June 7th. They were convicted of the murder of the Mexican woman's husband, who was poisoned with rat poison. Reports indicate there is very little sympathy for the convicted women, also that the two women are not worrying much about the fate that awaits them.

In the Oklahoma constitutional convention, which was overwhelmingly democratic, the democrats have gerrymandered the congressional and legislative districts to give their party everything in sight. Under this state of affairs, and for other defects, there may be trouble in getting the constitution approved and submitted to the people. A report was sent out from Washington that the Governor of Oklahoma would be enjoined from issuing a proclamation calling for an election for the adoption of the constitution.

A report has been widely circulated during the last week, which indicates that President Roosevelt is in favor of government ownership of railroads. The report originated from B. S. Grosscup, general western counsel of the Northern Pacific railroad, who said: "President Roosevelt told me he was considering advocating the appointment of a commission by congress to

appraise the value of railroad property in the United States. He added that conversation with U. S. Senator Daniels and others revealed the fact that government control of railroads would be the big issue of the day, and showed surprising abandonment of party lines. He said that either the states must abandon the attempt to regulate railroads by legislation and turn the matter over to the National government or there would be government ownership." A great many of President Roosevelt's friends will be glad to see him take this position.

He says there is a government irrigation project now in course of construction which will irrigate the land in the neighborhood of the new town.

✓We hear that the people at Elida are going to test the herd law question. About sixty head of cattle have been taken up there for trespassing on crops, and the matter is being taken into court. The law in this territory does not seem to be very explicit as to whether people shall keep up their cattle or whether the crops must be fenced and, if fenced, what is a legal fence. If this gets into court it will, probably, go to the supreme court for final judgment.

White's Soda Opening.

The people of Portales are cordially invited to call at the Red Cross drug store, Wednesday, May 29, between the hours of two and six o'clock, for the purpose of enjoying a soda treat.

We have just installed a new Twentieth Century fount, manufactured by the L. A. Becker company, and we are desirous that all our friends and patrons shall see and test its products. It has a perpetual carbonizer and filter arrangement that renders it strictly sanitary. Not a drop of water passes that is not thoroughly filtered and purified. The arrangement is such that the customer can see for himself that no impurities are possible. We will at all times have the standard fruits and concentrated syrups made from choice fruits to serve in connection with the soda and cream. It is a fact that there is not, in the Pecos Valley, another fount the equal of this one. Please remember that you are all invited to partake of our hospitality on the date and at the time stated above.

Very truly,
DR. T. C. WHITE, JR.

Young Lady Kills Two Bob Cats.

Lakewood Progress.

Last Tuesday morning two big hun-
gry bob cats came to the home of Mr.
M. W. Fanning, five miles southwest
of town and essayed to breakfast on
Mrs. Fanning's chickens, but they met
with a very determined resistance in
the person of Miss Hettie, Mr. Fan-
ning's sixteen year old daughter. Miss
Hettie secured a winchester rifle, but
at first could only find one cartridge;
with this she deliberately and coolly
dispatched one of the cats. By the time
this was accomplished, another cart-
rifle had been found, which Miss Het-
tie placed in the gun and very soon had
the other big spotted feline stretched
out on the ground.

We admire Miss Hettie for her cool-
ness and bravery, and warn all the cats
in the hills to stay away from that
barnyard.

J. P. Stone has been laid up a few days the latter part of last week and the first of this week.

The church of Christ or Christian church have commenced this week the erection of a church building west of the railroad.

G. W. Beavers has been putting up a small building on the north side of Main street, near the depot, in which he will start a shoe repair shop.

R. C. Hicks, of Roswell, auditor of the Kemp Lumber company, was in Portales Tuesday, inspecting the condition and business of their yard here.

E. A. Burdell and family arrived here the first of the week from Foss, Oklahoma. He took charge of the Herald this week, succeeding Miss Nichols, of Texico.

R. R. Edwards, drug clerk at Pearce & Dobbs', returned Tuesday from Roswell where he has been taking an examination before the territorial board of pharmacy.

A. W. Hatfield, who formerly did boot and shoe work in R. M. Sanders' harness shop and who has been working at Roswell the past few months, has returned to Portales and is again working at his old place.

Mrs. Ole Holverson, of Cedar Vale, Kansas, and her son, Herman Holverson, of Blacktower, drove over to Portales from Blacktower Tuesday, to visit Rush and Ed Stewart, who live east of Portales. Mrs. Holverson came out from Kansas to visit her son and other acquaintances and to see the country.

The company which manufactures stone in Portales, have been moving their plant to the lots on which the Jones lumber yard formerly stood, the company having lately bought these lots. They only had a lease on the lots where they formerly had their stone yard. They are now working quite a force of men manufacturing stone.

Ed O'Connell has moved his office building out on the front of his lot, just east of Neer's drug store. The building is occupied by Nash & Anderson with their tailoring, cleaning and pressing business. T. E. Nash also has a desk in the building and will push his real estate business. C. F. Copeland will also do an insurance business in the same place.

George W. Rowell, of Portales, has recently received a patent on a wrench he has invented. It is a wrench built on an entirely new principle. It has a pair of jaws on each end, one pair having teeth to be used as a pipe wrench. The opening and closing of the jaws is done by a shifting bar, having notches in the side that fit into another set of notches. It is quite an ingenious arrangement, yet simple, and is undoubtedly a valuable invention.

G. M. Williamson shipped six hundred cows and Charles Hart shipped five hundred cows from Portales the first of last week to Kansas to go on the grass this summer. On Monday of this week, L. F. Woods, of Kansas City, shipped out fifteen hundred cows from Kenna that were bought from the L F D ranch. Also, Chase & Huddleston, of Emporia, Kansas, shipped five hundred big four and five year old steers from Kenna, which they had bought from the L F D ranch for \$35 per head. Both of these bunches also went to Kansas to go on the grass.

We hear that the railroad company is pushing the work on their round house at Clovis and that the walls are up now about as high as a man's head. The company, we are told, has two wells there and two water tanks and keeps water in both the tanks for use. The railroad owns 640 acres of land there, but so far has not sold any, but at last reports they were surveying it out into lots. There is a quarter section adjoining, owned by a private individual, that has been cut up in lots which are being sold and buildings are going up. Two lumber yards are in, a hotel started and some stores. There is also a report that a man owning another quarter section adjacent, has been offered \$15,000 for it and refused to sell.
