DEPOSITS

...A Word With You...

**T**HIS is the oldest National Bank in Roosevelt County and its success in the past is the best guarantee of its future. But three or four years ago the combined deposits of all the banks in the county amounted to less than one hundred thousand dollars, at present we, alone, have deposits in excess of a quarter of a million. We believe that, in connection with the general prosperity of this section of the country, our uniformly fair and conservative methods have gone far toward attaining this splendid result. We solicit your business, whether it is great or small, and promise the same careful, courteous consideration that is accorded the largest accounts. We invite you to call in and get acquainted with our people and our methods.

*Our Statement Tells Its Own Story  
Our Success Proves Our Methods*

**Capt. Curry Passes Through Portales.**  
 Captain George Curry passed through Portales Friday and took dinner here, being a passenger on the north bound train, on his way to Washington, D. C. Judge Lindsey met him and had the pleasure of shaking hands with him and holding a short conversation. The formal reception which was intended to be given Captain Curry at Roswell, did not take place because he got a telegram summoning him to Washington at once. He promises to return from Washington to Roswell this way. The inauguration of Captain Curry as governor of New Mexico, will occur some time early in August, at Santa Fe, the historical old capital of this territory.

**Lecture Course.**

Arrangements have been made for a lecture course for Portales during the coming winter. There are to be five numbers and each one will be a first class entertainment. The first number will probably be in October and then there will be one each month till the five are given. These lecture courses are popular everywhere, because they furnish a very high class and desirable entertainment. To secure this series it was necessary for some of the public spirited citizens to guarantee the amount necessary to secure them. So, when those who sell tickets approach you, remember to make a success of this lecture course, it is necessary to sell enough tickets to meet this obligation. If there is any surplus it will be devoted to some worthy cause. Season tickets will be sold for \$2.00 each, or a season ticket can be bought admitting a lady and gentleman or two ladies for \$3.00. Admission for single entertainment 50 cents. Children between ages of 5 and 12 half regular rates. The following is the list of entertainments:

Edward Reno, magician.  
 Dr. Charles E. Varney, lecturer.  
 Fulcher Concert company, musical.  
 Geo. A. Landrum, tell stories.  
 Manessa Thompson, impersonator.

There will be a meeting for the children at the home of Mrs. W. O. Oldham, on Friday, August 2, from 4 to 6 p. m. There will be games and refreshments, and all children are invited to attend. Admission 5 cents.

**Local and Personal.**

 George Eads, who has been helping in the First National bank a few weeks, went to Lakewood last week to help B. F. Pearman in the Lakewood National bank.  
 The church of Christ in Portales, which has lately been built, though not entirely completed, is now ready for use. It is a building 24x36 feet and is seated with chairs, making a very comfortable place for holding meetings.  
 The Times has this week installed a gasoline engine with which to run its press. The engine was bought from J. B. Jones, who has been using it to run a feed mill out on his claim near Bethel. This is something we have been needing for quite a while and expect to find it a great help in our work.

The Times has received a copy of "The Great Lakes and East" folder, issued by the Santa Fe railroad, which illustrates and describes the grand summer resorts near Chicago. It is a fine folder and to peruse it one can not help wishing to visit these places. Those interested can procure a copy by addressing D. L. Myers, general passenger agent, Amarillo, Texas.

A case was heard before Squire C. W. Morris, Thursday, in which C. M. Myers was plaintiff and Messrs. Plumber and Goodwin were defendants. These parties live about forty miles west of here and the charge was for driving cattle off the range. On account of the defendants being misinformed of the law in relative to the matter, the case was dismissed.

TELEPHONE NO. 83.

A large number of people lost their lives in a steamship accident off the coast of California Sunday morning. The accident was caused by the steamer Columbia colliding with a lumber schooner.

Taking evidence in the Haywood case at Boise, Idaho, was concluded last week, and Friday arguments by the attorneys were commenced and they expected to consume most of this week in argument. What will the verdict be?

Trouble is brewing over in the little peninsula of Korea, on the eastern coast of Asia. Japan has claimed and assumed a certain control over Korea since the Russian-Japanese war, on account of which the Korean people are highly indignant. The Korean emperor abdicated the throne July 19th, which has brought about a crisis among the people, and the Koreans are organizing to resist the encroachments of Japan by force of arms.

The Roosevelt administration believes in the maxim in time of peace prepare for war, and while there is not any probability and hardly the least possibility of trouble with Japan, nevertheless, the presence of a powerful American fleet in the Pacific ocean and on Pacific naval stations cannot but have a good effect in many directions. The maneuvers of the fleet will demonstrate to the world powers that the United States of America means to look out for its own best interests and is prepared so to do.—New Mexican.

Captain George Curry, New Mexico's new governor, who arrived at San Francisco, Wednesday last week, left there Thursday evening for New Mexico. He stopped over between trains at Albuquerque, Sunday, where he was cordially welcomed by friends. He arrived at Roswell Tuesday morning, where he was royally received and a grand reception given him. Captain Curry's eldest son, who was with him in the Philippines accompanied him as far as Bakersfield, California, where he stopped to visit relatives.

A libel suit was filed in the district court of Santa Fe county, last Saturday, in behalf of Attorney General George W. Prichard against the Albuquerque Journal, claiming damages in the sum of \$50,000. This is a result of a list of articles published by the Albuquerque Journal, slandering the Attorney General on account of his investigation of Arthur Trelford, late superintendent of the penitentiary. It seems from the evidence produced in the investigation of Superintendent Trelford, that the Attorney General did the right thing, and such being the case, the Journal will find it a hard matter to make its defense in this libel suit.

## FOR GOVERNMENT CONTROL.

The Dallas News of a recent date, published a dispatch from Washington, D. C., which contains some pertinent news on the question of the government control of railroads. The dispatch is as follows:

"President Roosevelt is considering recommending to Congress a form of modified Governmental ownership of railroads. The scheme he is now studying at Oyster Bay is that adopted by the German Government as a step to the complete ownership of all railway lines.

"The plan which President Roosevelt is now considering recommending to Congress proposes to have the Government purchase stock in a number of the chief railway systems of the country so as to give it representation on the boards of directors. These Government directors would be in a position to know the most closely guarded secrets of the management of the respective roads and there would be no further need of the inquisitorial methods which have come into use since the active regulation of roads by the Federal power has been undertaken. In fact, it is claimed that there would be no more railroad secrets, since at all the meetings of directors there would be present the representatives of the Government, whose chief duty it would be to see that publicity was given all official acts of the respective directors.

"This system in Germany was the stepping stone to absolute ownership by the Government. Having gotten this foothold, the Government proceeded to purchase a trunk line outright, cut down rates and forced other roads to sell out.

"It is not precisely clear how the Government would proceed in the matter of compelling the roads in which it owned stock to allow it representation on the boards of directors, but the power of the United States Government has quite recently come to be a thing greatly feared by the average railway corporation, and the exercise of this power would probably produce the result desired.

"President Roosevelt stands as the pre-eminent champion of Government control of railways. He has thus far left to Mr. Bryan the advocacy of Governmental ownership of railways under certain contingencies.

"Indeed, it is asserted that this is about all he has left the Nebraska statesman. Should the President take this much of the doctrine of Government ownership, which, it is believed, would eventuate in the absolute ownership which Mr. Bryan predicted first in his Madison Square Garden speech last fall was bound to come, the latter would be left with little more than the doctrine of the initiative and referendum as a distinctive belief.

"The proposed scheme of modified ownership is in perfect accord with Mr. Bryan's doctrine that the Government should exercise full and close control over the roads until the time arrives for ownership by the Government, and it is practically certain that if the President does not recommend modified Governmental ownership, certain Democrats in Congress will propose the scheme.

"It is known to but few people that the President some months ago sought legal advice as to the powers of the Federal Government to own and operate railroads. He was advised, it is understood, that the general Government, under the Constitution, could construct or buy and operate a railway for use in carrying the mails, and for military and other Governmental purposes; that it could carry freight and passengers from a point in one State to a point in another State, but that it could not do intrastate passenger or freight business.

"There was much speculation at the time this advice was sought and given as to the drift of the President's mind when he asked for the information. It seems all

clear now. But the question as to the Constitutional authority for Governmental ownership of even a small block of stock in a railroad doing a general interstate and intrastate freight and passenger business is not settled."

It seems as though Tom Sanders

Mexico as possible. He built his house  
on the east side and then moved to the  
south side and is now preparing to  
move to the west side of his claim.

Mr. and Mrs. John Haddock have se-

start back to their old home in Has-

A great deal of work is being done  
nowadays, improving farms, drilling  
wells, grubbing, breaking sod, fencing  
and building houses through our com-  
munity.

The Manes community contemplates  
building a church in the near future.  
Mr. Little, of that place, was in our  
community Saturday, soliciting the  
help of our people.

Visitors and prospectors seem con-  
tinually pouring in. Mr. and Mrs. John  
Williamson are daily expecting the ar-  
rival of a jolly crew of young folks  
from Temple, Oklahoma.

Crops are budding, blooming and  
growing and our good people are in the  
best of spirits. We are glad to say the  
majority of our people came to this  
country with the steadfast intention of  
making it their future home.

TELEPHONE NO. 83.

A large number of people lost their lives in a steamship accident off the coast of California Sunday morning. The accident was caused by the steamer Columbia colliding with a lumber schooner.

Taking evidence in the Haywood case at Boise, Idaho, was concluded last week, and Friday arguments by the attorneys were commenced and they expected to consume most of this week in argument. What will the verdict be?

Trouble is brewing over in the little peninsula of Korea, on the eastern coast of Asia. Japan has claimed and assumed a certain control over Korea since the Russian-Japanese war, on account of which the Korean people are highly indignant. The Korean emperor abdicated the throne July 19th, which has brought about a crisis among the people, and the Koreans are organizing to resist the encroachments of Japan by force of arms.

The Roosevelt administration believes in the maxim in time of peace prepare for war, and while there is not any probability and hardly the least possibility of trouble with Japan, nevertheless, the presence of a powerful American fleet in the Pacific ocean and on Pacific naval stations cannot but have a good effect in many directions. The maneuvers of the fleet will demonstrate to the world powers that the United States of America means to look out for its own best interests and is prepared so to do.—New Mexican.

Captain George Curry, New Mexico's new governor, who arrived at San Francisco, Wednesday of last week, left there Thursday evening for New Mexico. He stopped over between trains at Albuquerque, Sunday, where he was cordially welcomed by friends. He arrived at Roswell Tuesday morning, where he was royally received and a grand reception given him. Captain Curry's eldest son, who was with him in the Philippines accompanied him as far as Bakersfield, California, where he stopped to visit relatives.

A libel suit was filed in the district court of Santa Fe county, last Saturday, in behalf of Attorney General George W. Prichard against the Albuquerque Journal, claiming damages in the sum of \$50,000. This is a result of a list of articles published by the Albuquerque Journal, slandering the Attorney General on account of his investigation of Arthur Trelford, late superintendent of the penitentiary. It seems from the evidence produced in the investigation of Superintendent Trelford, that the Attorney General did the right thing, and such being the case, the Journal will find it a hard matter to make its defense in this libel suit.

## FOR GOVERNMENT CONTROL.

The Dallas News of a recent date, published a dispatch from Washington, D. C., which contains some pertinent news on the question of the government control of railroads. The dispatch is as follows:

"President Roosevelt is considering recommending to Congress a form of modified Governmental ownership of railroads. The scheme he is now studying at Oyster Bay is that adopted by the German Government as a step to the complete ownership of all railway lines.

"The plan which President Roosevelt is now considering recommending to Congress proposes to have the Government purchase stock in a number of the chief railway systems of the country so as to give it representation on the boards of directors. These Government directors would be in a position to know the most closely guarded secrets of the management of the respective roads and there would be no further need of the inquisitorial methods which have come into use since the active regulation of roads by the Federal power has been undertaken. In fact, it is claimed that there would be no more railroad secrets, since at all the meetings of directors there would be present the representatives of the Government, whose chief duty it would be to see that publicity was given all official acts of the respective directors.

"This system in Germany was the stepping stone to absolute ownership by the Government. Having gotten this foothold, the Government proceeded to purchase a trunk line outright, cut down rates and forced other roads to sell out.

"It is not precisely clear how the Government would proceed in the matter of compelling the roads in which it owned stock to allow it representation on the boards of directors, but the power of the United States Government has quite recently come to be a thing greatly feared by the average railway corporation, and the exercise of this power would probably produce the result desired.

"President Roosevelt stands as the pre-eminent champion of Government control of railways. He has thus far left to Mr. Bryan the advocacy of Governmental ownership of railways under certain contingencies.

"Indeed, it is asserted that this is about all he has left the Nebraska statesman. Should the President take this much of the doctrine of Government ownership, which, it is believed, would eventuate in the absolute ownership which Mr. Bryan predicted first in his Madison Square Garden speech last fall was bound to come, the latter would be left with little more than the doctrine of the initiative and referendum as a distinctive belief.

"The proposed scheme of modified ownership is in perfect accord with Mr. Bryan's doctrine that the Government should exercise full and close control over the roads until the time arrives for ownership by the Government, and it is practically certain that if the President does not recommend modified Governmental ownership, certain Democrats in Congress will propose the scheme.

"It is known to but few people that the President some months ago sought legal advice as to the powers of the Federal Government to own and operate railroads. He was advised, it is understood, that the general Government, under the Constitution, could construct or buy and operate a railway for use in carrying the mails, and for military and other Governmental purposes; that it could carry freight and passengers from a point in one State to a point in another State, but that it could not do intrastate passenger or freight business.

"There was much speculation at the time this advice was sought and given as to the drift of the President's mind when he asked for the information. It seems all

clear now. But the question as to the Constitutional authority for Governmental ownership of even a small block of stock in a railroad doing a general interstate and intrastate freight and passenger business is not settled."

BY CARTERET

Ollie Powell has returned home.  
O. B. Carter is visiting friends in  
Polk county, Missouri.

The Sunday school at Carter has an  
excellent attendance.

Roscoe Kendall has returned after  
an absence of a few months.

Miss Anna Leab, who has been at  
Portales for awhile, has returned home.

W. R. Bray has added much to the  
appearance of his place by fencing.

Mr. Hendrix and wife are enjoying a  
visit of several of their Texas friends.

Mr. Capps had the misfortune of get-  
ting one of his horses badly cut on the  
wire.

Mrs. Lucy Kendal and Sol Jones  
have returned after an extended visit  
in the east.

We understand the Carter and Em-  
minence schools have formed districts  
of their own.

Corn is in tassel and is needing rain  
very much, as the showers of the past  
few weeks have all gone around us.

We think Ed Mitchell has decided  
that his house is not large enough for  
two, as he has sold it and is preparing  
to erect another one.

The Hoover brothers, of Kansas,  
were the guests of F. P. Prater and  
family last week. While here they  
purchased the Charlie Jones and Jim  
Creek claims.

It seems as though Tom Sanders  
wants to live in as many places in New  
Mexico as possible. He built his house  
on the east side and then moved to the  
south side and is now preparing to  
move to the west side of his claim.

An ice cream social was given at the  
home of W. E. Marsh, Monday even-  
ing. Those present were Misses Ivy  
Prater, Bertha Mitchell, Hepsie Car-  
ter, Leona Alford, Maud Thompson,

BY COUNTRY GIRL

Mr. Thurman has purchased two  
new cows.

Olive Bedford was a pleasant visitor  
at the home of J. A. Williamson this  
week.

Several of our people are making ar-  
rangements to put in big wheat crops  
for another year.

John Haddock went to Portales  
Thursday for the purpose of proving  
up on his claim.

The Thurman boys have moved their  
well drill on their own farms and are  
going to drill wells for themselves.

Mr. Long is painting his residence  
and contemplates several improve-  
ments on his farm in the near future.

We have been blessed with a mubh  
needed rain throughout this part of  
the country and crops are looking fine.

Hurrah for New Mexico, the Land of  
Sunshine, the garden spot of the United  
States. This is the popular sentiment  
of our goodly people.

Mr. and Mrs. John Haddock have se-  
cured a deed to their claim and will  
start back to their old home in Has-  
tings, Oklahoma, Sunday.

A great deal of work is being done  
nowadays, improving farms, drilling  
wells, grubbing, breaking sod, fencing  
and building houses through our com-  
munity.

The Manes community contemplates  
building a church in the near future.  
Mr. Little, of that place, was in our  
community Saturday, soliciting the  
help of our people.

Visitors and prospectors seem con-  
tinually pouring in. Mr. and Mrs. John  
Williamson are daily expecting the ar-  
rival of a jolly crew of young folks  
from Temple, Oklahoma.

Crops are budding, blooming and  
growing and our good people are in the  
best of spirits. We are glad to say the  
majority of our people came to this

**Do Not Suffer**

No use suffering from Itching Piles when one box of Hunt's Cure is absolutely guaranteed to cure any case. One application will convince you of its merits.

**Jesse James Show**

The Little Rock, Arkansas, Daily Democrat has this to say about the W. I. Swain Jesse James show that is to appear here Monday, July 29:

"The citizens of Little Rock were royally entertained with a new form of amusement last night.

"The W. I. Swain Jesse James company presented a three hours show last night and it is safe to say that never in the history of Little Rock did so many people gather together to see a show except to the biggest of big circuses.

"The entertainment was of the western character, portraying the James boys during their famous career covering the time from the war to the death of Jesse. The show was moral and of a much different character than one led to believe before seeing the show. Instead of all shooting and dime novel play, it teaches a grand lesson, showing the hardships and deprivations of an outlaw, and the sufferings of a man after becoming an outcast.

"Perhaps the happiest character in the production is Lige, the old negro, who follows "Marse Jesse" through thick and thin. However, the sleeping Indian caused Lige no little concern, until he succeeded in dispatching Mr. Injun to his happy hunting ground with the ever trusty razor.

"The tent, which is a huge one, was tested to its utmost capacity, many being turned away. The Swain company give a good show and if they ever return to Little Rock they will be greeted to a big crowd."

**No Need of Scratching**

Other afflictions may be more painful, but none more annoying than many forms of itching trouble. The quickest and most reliable remedy for itching diseases of any character is Hunt's Cure. One application relieves—one box guaranteed to cure.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, on my book on either dyspepsia, the heart or the kidneys, troubles of the stomach, heart or kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment and not the cause. Weak stomach nerves—the inside nerves—mean stomach weakness, always. And the heart, and kidneys as well, have their controlling or inside nerves. Weaken these nerves and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free book. Dr. Shoop, Racine, Wis. The Restorative is sold by Pearce & Dobbs.

**Rheumatism**

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pang of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made perfect. Dependable prescription, without that last ingredient, I successfully treated many cases of Rheumatism; but now, at last, I uniformly cure all curable cases of this heretofore much dreaded disease. These said-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend
