ROOSEVELT COUNTY WINS MANY PRIZES

On Its Exhibition of Irrigated and Dry Farmed Products at the State Fair in Albuquerque

Only Two Counties in the State Receive More Ribbons on Their Exhibits Than Roosevelt County

Roosevelt county did at the state fair as she always does, she went in on the home stretch for the premiums and ribbons and you bet she got them.

The record made by this county at the fair this year was the best record made by any county at the fair and with the exception of fruit, which held us back, we took first prizes in nearly everything. The only counties there which beat us in the number of blue ribbons were Los Lunas and Dona Ana counties, and they are, as we all know, old, in fact, very old established counties, and their principal exhibits consisted of fruits. They have good stuff besides fruits but it would not compare with the products of this county. Another thing that Roosevelt county must not look beyond another year is the fact that wheat and oats will grow here to perfection and we must cultivate more of them. Of course we were held back at Albuquerque on account of not having any wheat and oats at all from irrigated farms and very little from dry land farms. That from dry land farms which took first premium at the fair was raised in this county by Shannon Clark, of Inez, and was classed as the very best by the judges. In dry land kafir, maize of all kinds, broom corn and canes we took all of the first or blue ribbons, and all of the thousands of people who passed through the exhibit hall and saw the exhibits many of them did not know what this class of stuff was good for and many who did know what it was good for and had seen it in other places would say as they passed: "That's just like the kind of stuff we used to raise in Oklahoma on dry farms and where I made my first stake, that must be a fine country in Roosevelt county."

Our exhibit booths were made into two booths and if there was any difference the dry land booth attracted more attention than the irrigated though there were more inquiries for land in the irrigated district.

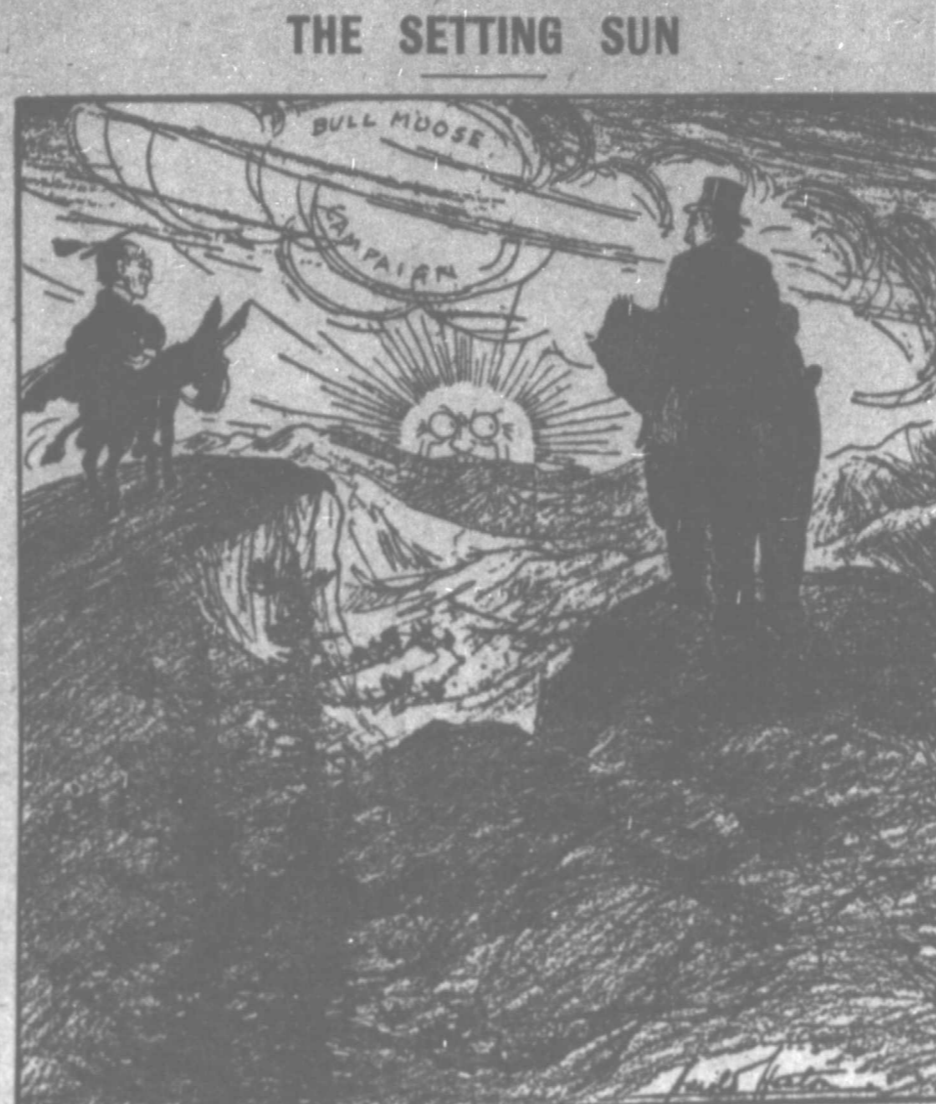

In the irrigated exhibits and in the dry land as well the vine crops were especially noticeable and beans, peas, etc., from this county all took first prizes. One of the beans that is raised in every county in the state, the Mexican or as the judges called it, the Pinto, was awarded first prize and more than honorable mention as well from this county. Professor Hubert, the agronomist at the agricultural college of New Mexico, asked as a favor that W. T. Jackson, who raised these beans, would send him enough of them to start a pure seed into bean at the agricultural

school. Axel Blomquist took first ribbon on his Valentine beans which came off the notorious small patch worked by him. Mr. Jackson also took first money on the old time eastern bean and was highly commended for the fine strain of seed he had of it. Both our dry land and irrigated watermelons took first easily, outclassing all melons except those sent by our friend and neighbor, Mr. Nesbit, of Guadalupe county. The peppers sent over by Mr. Ryther were easily the best ever seen in this state and they were not the best he had by any means. This is a great pepper raising state and though every county had an exhibit Mr. Ryther's peppers easily took the first money. Some of the dry land onions sent over by us took first money. This county is not supposed to be a corn county but she took first prize on white dent irrigated corn and first prize on dry land June corn. Watch your corn and let's have more of it planted and cared for next year. When corn takes the first premiums at a state fair it looks to me as though it were worth raising. Our alfalfa, though there was not a fair sample and it had to compete with about one solid car load of alfalfa sent and baled especially for the purpose, took second prize, and all on account of the quality of the plant and not for the good looks of the bale. We carried one bale while some of the counties took as high as twenty. On cabbage and sweet potatoes of all varieties we took all of the first ribbons and deserved them as well as took them.

Now let all of us get together and go over next year with a fit fruit exhibit as well as first premium truck exhibits and take all of the first prizes. I forgot to state that the cantaloupes sent over took three first ribbons and also that the town of Portales was the best advertised town at the fair on account of the two thousand buttons floating around on coat lapels and the six hundred mirrors taken home by six hundred ladies.

Training Camp at Portales for the Clovis Boxing Match

A boxing contest of no little importance will be staged in Clovis Thursday, October 31st. Pete Shaughnessy, of Fort Worth, Texas, middleweight champion of the southwest, will defend his title against Rube Smith, of Denver. Both of these boys are well known to followers of the fight game throughout the entire country and are recognized as high class battlers, clever, young, strong and ready and willing mixers. Shaughnessy has met some of the best men in the bus-

—From the Chicago Inter Ocean.

WHY ROOSEVELT IS LOSING GROUND

Lifelong and loyal Republicans will not follow him out of the Republican party.

The American people will not gratify the disappointed ambition of a man who, in a spirit of revenge, would wreck the Republican party because it refused him a presidential nomination.

The country does not want for president a man who eagerly grasps at every wild and radical theory merely to gain votes.

Honest men will not support a candidate who instituted dishonest contests to help his nomination and who accepts money for his campaign from the Harvester and Steel trust directors.

Thousands of Republicans do not believe that men of unblemished character, who disagree with Roosevelt are thieves and liars. Right-thinking people cannot trust a candidate who violates his solemn pledges.

Republicans are beginning to realize that the only possible effect of his candidacy may be the election of Wilson, and they are not willing to bring upon the country the disaster of a Democratic administration merely to gratify one man's hatred or ambition.

The people will not Mexicanize the United States by electing to the presidency a man who declares that he sees no objection to any number of terms provided there is a recall. That is, if again made president he would expect to remain in that office until the people drove him out. What Washington would not take, what Grant could not get, Roosevelt shall not have.

ness and has never been knocked out, his nearest defeat being a decision. Smith is even now touted for the middleweight title, and also claims the distinction of never having taken the count. This is indeed a remarkable record for both of these boys considering the fact that they have battled with some of the toughest men in their class.

Shaughnessy is now in Clovis and will have his training quarters at that place. He started active training yesterday. Rube Smith will arrive in Portales Saturday and will do his training here. He will be accompanied by his trainer and manager, Professor Jacobs, of Denver, who conducts one of the biggest gymnasiums in the west at that place. Smith and Jacobs come well recommended as perfect gentlemen. Smith will work out each afternoon at his training quarters and visitors are welcome at all times. Portales was able to turn out a winner in the last contest, perhaps they will again back a winner.

V. R. Marichal, who promoted the Higgins-McDonald bout and the Higgins-Shaughnessy bouts in Roswell recently, will have personal charge of this show. He has the reputation of staging clean fights and promises that this one will be no exception. Both of these men have fought

for him before, and he assures the fight fans that they will be treated to a good clean exhibition of fighting on the 31st.

Mr. Roosevelt Shot

Mr. Roosevelt was shot by a demented person by the name of Shrank, while on a crowded street in Milwaukee, Wisconsin. The bullet entered the left breast, inflicting a painful but not dangerous wound, in fact the wound was so slight that Mr. Roosevelt made an extended speech shortly afterward. The Progressives are attempting to make much capital out of the attempted murder, but so far, without success. There is not a man in the nation, regardless of politics, but what is sorry this incident occurred, but likewise, it is difficult to see why the fact that a man was shot by a crank should render him any better fitted or any more capable for the presidency. Mr. Roosevelt has always devoted his talents to the spectacular rather than to the graver affairs of life, and this episode in his career will, naturally add lustre to this phase of his character. It is understood that all the presidential possibilities wired condolence to the wounded man, also it is announced that all speaking dates he had arranged for have been cancelled.

VISIT TO THE STATE FAIR AT ALBUQUERQUE

Enjoyed by Many of the Leading Citizens of the Pump City and of Roosevelt County Generally

Portales Well Represented at the Duke City This Year by Boosters and Knockers Stayed at Home

Naturally the first visit of any one from Portales was to the Roosevelt county exhibit, which, although small in comparison to Fort Sumner, Dona Ana, and other counties, showed up comparatively as well. Our cantaloupes, alfalfa, peppers, onions, carrots, pumpkins, grapes, apples, and many other things were ornamented with the much desired blue ribbon.

We all found our way to the grand stand on Monday to witness the baseball game between Albuquerque and Silver City and there was much enthusiasm, especially by the Silver City people demonstrating for their boys, as they won slowly over Albuquerque, which victory was confirmed later on Friday and Saturday, Silver City taking the \$1000 purse, Albuquerque coming second and Santa Fe third. Only the three towns were represented.

The most interesting feature of all was the aeroplane flight on Monday at 3:30 by Lincoln Beachey in a Curtis biplane. The machine ran lightly on wheels across the field, slowly rising as it neared the opposite side, and gradually ascended, making much noise all the time as the fans revolved. Mr. Beachey seemed to have perfect control of the machine, lowering or raising it to any height or depth he desired, going for several miles in circuit and over the city. Tuesday an accident occurred and there were no more ascents until Friday, when Roy M. Francis, in his own model biplane, made good. It was a complete success Friday and Saturday but the crowd was not nearly as enthusiastic as the first of the week over the flights.

Albuquerque has demonstrated that its city is reaping the reward of a careless city government. The streets were blocked with the Campbell street shows, all along main street, also several of the side streets off Central avenue were filled with shows and a merry-go-round, so that when the fire department was called out one night it was some time delayed in reaching its destination by having to stop and go a roundabout way to reach the fire.

The poultry and machinery exhibits were all good. Our Mr. Harley Thompson received special mention on his white orpingtons which made a good showing. The auto parade was about the most pleasing feature of the fair. The ship of state easily won first premium, while the little Mexican house with chili peppers strung around the roof and children in the door, carried off the second prize, although the handsomest cars were the full trimmed chrisanthemum in harmonious designs of yellow and

orange, pink, white, etc. The Elks had a unique design of trees with an elk head looking out of the front, also the product car of grains was very beautiful.

The social features were not among the least attractions, as the Odd Fellows and Rebeccahs the first of the week were represented by Mr. Twiggs and Mrs. Maud Smith from Portales. The federated clubs were represented by Mrs. S. J. Nixon and Mrs. W. E. Lindsey, also Mrs. Smith. Mr. and Mrs. Arthur Jones were celebrating their fourth wedding anniversary by taking this most enjoyable trip. Messrs. Regan Connally and Coe Howard were busy looking after the exhibits.

The prizes awarded Portales were as follows: For irrigation and dry farming combined, third prize Roosevelt county, \$50.00; dry farming, second prize Portales, \$75.00; community exhibits, fourth prize Portales, \$25.00.

Benevolent Society Meeting

The Benevolent society held its monthly meeting at the Baptist church Monday at 2 p. m.

Reports from the different committees were heard. The matter of whether this society would co-operate with people who went on the streets asking aid was brought to the attention of the society and it was decided that this organization must have full control of the cases which it helped, as far as the economical disposition of the funds were concerned.

Headquarters for the distribution of clothing is at Judge Lindsey's office. Also anyone desiring to buy second hand clothing can find it there.

The employment bureau is at Ed J. Neer's drug store. Anyone desiring work, whether men or women, will register with the price per day or hour and where he or she may be found.

All having clothing for this society will bring it or report it to Mrs. Lindsey, at the office.

A vote of appreciation was given to Mr. H. B. Ryther for the printing of posters, cards, etc., which he has so generously supplied.

Judge Colin Nebblitt, of Silver City, is here holding a term of the district court in behalf of the regular judge. Judge Nebblitt is a good lawyer, an energetic and hard working judge and one who is thorough and rapid in his judicial duties. Under his supervision the work of the court is progressing rapidly. His demeanor on the bench is dignified and his rulings, while made promptly, are uniformly accurate and acceptable to the bar. He has made many warm personal friends during his brief stay who will be glad to welcome him at any time he can make it convenient to come to Portales, either in his official capacity or as a visitor.

School Fund Question

In the matter of the funds of school district No. 1, there appears to be more or less misunderstanding on the part of the school patrons and the public, generally. The facts in the case are as follows:

When the town acquired the school section joining the town site from the state, it was deeded to the town to be sold and the proceeds to be held in trust for the public schools of Portales. Now Portales has not, at this time any public schools, consequently, this money which has been derived from the sale of this land must be held in trust until such time as the town of Portales acquires public schools. The schools now being conducted in Portales are a part of school district No. 1, and must be maintained by the school revenues for the said district. This being true, any money that may have been disbursed for the benefit of this district has been so disbursed without authority of law, and is, consequently, unlawfully appropriated. At this time the town holds school vouchers in the sum of several thousand dollars, payment of which has been ordered stopped by the school board. The county treasurer has so far honored that order and further, has refused to pay out any of the district school funds until such a time as he has ascertained to whom he can lawfully pay the same. There is no question but what the treasurer is right in this matter. Next comes the question of funds with which to conduct the school and the responsibility of the various parties. The school board, when it stopped the payment of the vouchers that had been given the teachers, which vouchers had been paid by the previous town boards, were valid and subsisting claims against the school fund and, so far as this district is concerned, had never been paid, practically cut themselves off from any part of the school revenues until the question of who was entitled to this money had been settled. The town board has taken no hand, one way or another, in this transaction, and there is not a member of the town board but what is willing and anxious to get this matter settled up and the responsibility off their shoulders. Also they are, to a man, willing to let the schools have every cent of it if they can do so lawfully. It really seems that the whole mat-

ter is up to the school board for action.

Following is the order delivered to the county treasurer:

Portales, New Mexico, 8-12. Mr. M. B. Jones,

Treasurer Roosevelt County: You are hereby instructed not to pay any school warrants for school district number one until further notice.

WILL SMITH,
Chairman School Board.
W. M. COX.

I hereby approve above order as given by school directors.
8-8-12 COUNTY SUPT.

Roosevelt at Chicago.

When it became evident that Roosevelt could not be nominated Senator Borah, of Idaho, made the colonel the following proposition as coming from Taft leaders whom he stated were able to deliver the goods:

"The roll will be purged of the seventy-eight delegates we claim are tainted, a progressive platform acceptable to us will be adopted, Taft and Roosevelt both to withdraw and we will name Hadley by acclamation."

Colonel Roosevelt was seated under a glass chandelier when he received the proposal from Borah. He sprang to his feet and raised his fist smashing the chandelier, then bringing his fist down on the table with a whack, he said: "By God, I will never do it! Let them purge the roll and then come to me and I will tell them what I will do." There was a silence and a drawing away for a few seconds, and then Borah, white faced, said: "Well, colonel, in the future you and your friends can do as you please, but you can't make a jackass out of me any longer." Borah immediately left the room and never returned.

Shortly afterward Roosevelt issued his famous statement: "I can only serve the progressive cause by bearing the brunt of the fight myself."

The above statement was personally given to the editor of this paper by one of the Roosevelt delegates from Kansas City, who was high enough in the councils of all the Roosevelt delegates of the United States. His name is Homer B. Mann, the original Roosevelt man of Kansas City. His office is in the Dwight building, Tenth and Baltimore, if you care to verify this statement.—Olathe, (Kan.) Mirror.

Oh, yes, "Terrible Ted" was interested wholly and solely in the "square deal" and the unsophisticated voter, in the purity of the ballot and the downfall of the bosses. This hermaphrodite politician would have been willing to wallow in the depths of that torrid clime where blankets are unknown and ice would be worth a million dollars a pound, could he by so doing have connected himself with the presidential nomination and hung President Taft's scalp in his political wigwag. If Roosevelt is the only available great "white hope" of the "Bull Moose" mania, then, indeed, has the progressive movement but a sorry staff on which to lean.

Just a Straight Business Talk

After election day next November, New Mexico will have one representative in congress. He will be either H. B. Fergusson, Democrat, or Nathan Jaffa, Republican. The Roosevelt third term movement has become a hilarious joke as far as New Mexico is concerned and need no longer be considered.

Now personally Mr. Fergusson and Mr. Jaffa are both clean men. Neither has been besmirched with the mire of questionable politics. The question at issue as far as this state is

concerned is not one of mere politics; it is one of cold, straight business.

New Mexico is one of the leading wool states of the union. The wool-business reaches into every county in the state. Tens of thousands of citizens are directly or indirectly engaged in the industry. It is the foundation of the prosperity of hundreds of towns and villages. For a vast number of our population it is the direct means of livelihood. For thousands of men it means daily wages; comfortable homes; a satisfactory living; a bank account; in short, prosperity. For thousands of merchants it means good, steady trade. A blow at the sheep and wool business, anything which will depress the industry and make it unprofitable, is a blow at every line of business in the state. No intelligent business man denies this.

H. B. Fergusson, by party fealty, is pledged to vote in congress against the protection of the wool industry by the tariff and against the protection of New Mexico's wool market.

Nath Jaffa is pledged to vote and work for the tariff policy which means the fostering and upbuilding of the New Mexico wool business. You can not escape the issue.

How he shall vote is not a matter to be decided by the hereditary political affiliations of the New Mexico voter, but by his sane, everyday business sense. No sensible man interested in his own bread and butter would vote deliberately to discourage the farming industry, or the mining industry or to close up the dry goods stores or the flour mills. We do not believe he will do so in the matter of the wool industry.

Business men, forget your politics this year and vote as business men. The man who allows political inclinations to influence his vote this year on the side of H. B. Fergusson is deliberately blinding himself to his own welfare, his own property and the happiness of his family.

A vote for Fergusson is a vote for hard times.

A vote for Jaffa is a vote for good business.

Business men, which do you want?

His Name Is Anathema

Just why some people are so anxious to give their town a black eye is not altogether clear, but such appears to be the case. There is scarcely a town or village in the state but what has to put up with some certain individual, or set of individuals, whose chief aim in life seems to be to hand a package to his town and to the citizens of his town. This character of citizens are the worst asset any community can have. They are a constant reproach to the municipality, a detriment to their families and a misery to themselves. The public agitator occupies no enviable position in the public esteem, no really good thing ever comes from his efforts, no one is ever benefitted by reason of his activities, no moral or religious wrong is ever righted as a consequence of his meddling. He is a parasite on the body politic, a cankering, festering sore in the community in which he resides, and no one is immune from his irresponsible tongue, neither can he be associated with without contamination. Sometimes you find this individual in positions that have been made respectable and responsible by his predecessors, sometimes you will find him in positions that should have been held sacred, both from tradition and associations, and sometimes you find him with nothing else under

The Printing Center in the NEW MODEL FIVE L. C. Smith & Bros. Typewriter (Ball Bearing—Long Wearing)

The Printing Center is the point where all the mechanical operations become resolved into one unit of effort.

All the energy of this machine is concentrated on the type face the moment it touches the paper.

Smoothness and harmony of working parts are achieved through a wonderful system of ball-bearings. Vibration and jamming of the typebars are made impossible by the Typebar Guide. Other new features are the Geared Carriage-Ball Controller and the Ribbon Color-Switch.

Model Five has a certain crispness and vitality of key-operation that is a delight and a help to the operator.

Write for the FREE Book of Model Five.

L. C. Smith & Bros. Typewriter Company
Head Office for Domestic and Foreign Business—Syracuse, N.Y., U.S.A.
Branches in All Principal Cities.
DENVER BRANCH—
1647 Champa Street, Denver, Colorado

In this little bottle are 30,000 steel balls, every one of which has been tested and found to vary not one ten-thousandth of an inch. Fifteen balls are used in the bearings of every typebar. This attention to minute detail means efficiency for the finished product.

God's heaven's to do but wallow in filth and deal misery to mankind. May his presence on earth be of short duration and his days of repentance in sheol be as long as the eternal. May the fires never get so low that he will ever experience a chill or ask for a blanket.

The New Mexico wool growers' association has appealed to the people of New Mexico to vote for Jaffa and protection. The secretary of the national wool growers' association declares the question on election day will be whether we wish to retain or destroy the wool industry. The wool men know which side their bread is buttered on; and the butter goes on the same side for every citizen of New Mexico.

"The days of the boss is gone," says Teddy, as he calmly pocketed another \$100,000.00 campaign contribution secured from the predatory interests. "The people of this great republic must be relieved from the trusts" he reiterates and then proceeds to hand a little boquet to the steel trust in the form of a fifty or sixty million dollar amalgamation proposition.

During the reign of "Terrible Ted" the "Teddy Bears" sold at from \$2.00 to \$10.00 each and found ready buyers at those prices. In the present days of general prosperity, circus barkers find extreme difficulty in disposing of them at a nickle each, and in the same ratio has this once popular mountebank fallen from grace.

The election of "Terrible Ted" to the presidency of the nation would mean a radical change in form of government. We would soon have a monarchy instead of a republic, with "His Nob's" as dictator. In fact, it is already currently reported that the crown has been ordered from Tiffany's and the work of modeling and making is actually in progress.

Warm Floors and Healthy Children Make Happy Homes

There is no better way for you to avoid worry and expense than by insuring your children's health.

Warm floors in the home, which is the children's play house in winter, are assured when using Cole's Original Hot Blast Heater.

The steel base and body construction allows the heat to be radiated to the floor keeping it warm during the coldest weather.

Cole's Original Hot Blast Heater The Cleanest-Easiest to Care For Burns Soft Coal, Lignite, Hard Coal, Crushed Coke, Wood and Cobs.

Users of coal must remember that the ordinary heater is a big care to operate. That its smoke and ashes entail dusting, curtain washing and carpet sweeping.

Cole's Hot Blast has a guaranteed smoke-proof feed door-open the feed door and the current of air draws the smoke directly across the top of stove to the stove pipe-away from the opening.

The steel base and body construction allows the heat to be radiated to the floor keeping it warm during the coldest weather.

No fires to build-the fire is never out in this remarkable heater from fall until taken down in the spring.

Better select one today-surely it is the heater you need.

Philathea-Baraca Meeting

Last Monday evening at the home of Miss Frank Hill the has-been Philathea-Baracas of the Methodist Sunday school met in solemn convocation once more and started off the class with spirit and vim again. The class has been doing fine work since its organization but has, as any other class would have done, gradually lost some of the first members and the meeting was arranged in order that these backsliders could get in line once more and go to going to Sunday school whether they went to work or not.

Miss Hill entertained as she has the reputation for doing and with the assistance of the charming Miss Lucile Moore an elaborate evening's entertainment was planned, and from the time the crowd arrived until their departure they were kept busy with "States."

The house was decorated very tastefully with autumn leaves and showed much planning and foresight.

The "eat-in's" were simply beyond description and all that the writer can say is that there was an awful crowd that wanted to wash the dishes and some of them could hardly keep out of the kitchen even when they were told that their assistance was neither needed nor wanted.

Woman's Club Notes

In the absence of the president Mrs. Oldham presided at the Woman's club Wednesday, October 9th. No important action being on hand the Domestic Science department had the afternoon for their program, and it was left for this department to prove what real enthusiasm, combined with a thorough knowledge of the subject, can do, as demonstrated in the work presented under Mrs. George Reese's leadership. Mrs. Reese opened the program with a few remarks, expressing her appreciation of the importance of the subjects under consideration, and suggesting that the work outlined would require much more time than seemed to have been given.

A. V. Spalding, a widely known contracting engineer of Portland, Ore., while on his way east from Portland, reports that the Roosevelt tour through Washington, Oregon and the Pacific coast states was a frost.

A letter received at the Taft headquarters from Edward D. Baldwin, secretary of the Oregon state central committee, says:

"Things are looking better here every day for Taft. The lukewarm reception given Roosevelt in Portland the other day has given courage to our people."

Decreasing in Iowa.
Odar Rapids, Ia., Sept. 29.—James H. Tremlin and Luther A. Brewer of this state, officers of the Iowa League of Taft Clubs, who have been assisting in the organization of Republicans in the state, have received reports from every county showing the decrease of Roosevelt sentiment, and report that the Republican strength of the state is crystallizing around President Taft.

For Quick Sale

All kinds of household goods, including furniture, dishes, lamps, pictures, fine rugs, etc. Also a gasoline range (good as new), heating stoves, new washing machine, tubs, wringer and bench, harness, buggy, saddle, and a lot of kindling wood.

C. C. REEVES.

J. A. Saylor has opened a restaurant in U. N. Hall's pool room and is now prepared to serve the public with any delicacy that can be procured on the market. Ad is a first class cook and is one of the cleanest chefs in the country. Call on him when you are hungry.

Now is the time, Joyce-Pruit's the place, for ladies', misses', and children's coats.

THRASHING—We will do your threshing for 3c and 6c per bushel.—Wiley & Hastings.

To My Friends and Customers

I have decided to continue in the Grocery Business in Portales and take this method of inviting the public to call when in need of anything usually carried in a First Class Grocery Store.

Your Patronage Will Be Appreciated

T. M. LITTLEJOHN

Washington Republicans Outnumber Democrats and Third Termers Combined.

Seattle, Wash., Sept. 28.—In the recent primaries in this state the Progressives cast about 25,000 votes out of a total vote exceeding 300,000, or about eight in every hundred. The Republican vote was greater than that of the Democrats and the Third Termers combined.

S. W. Perkins, Republican national committeeman for Washington, who has been engaged in making a canvass of the political situation in this state, says that he is in receipt of letters from every section indicating a remarkable falling off of Roosevelt's strength. The figures of the primary demonstrate that these letters accurately present popular sentiment.

Mr. Roosevelt claimed the Washington delegation in the Republican National convention in Chicago. The absurdity, not to say dishonesty, of his claim, is proven by the poor showing made by his followers in the recent primary.

Why the Roosevelt Movement Has Failed to Materialize.

"The Roosevelt movement is a failure in Colorado," said David Heaton of Salda, Colo., during a recent visit to Chicago, while discussing the political situation in his state. He is president and general manager of the Federal Consolidated Monumental Granite company, and is also identified with large mining interests.

"We are tired of industrial and political protechnics in Colorado," he continued. "We have been through all sorts of disturbances in our state. We have seen what were called 'dynamite days.' We have had our wild and woolly experiences and we have known what it is to deal with strikes and strikers. Mr. Roosevelt is now a dangerous type of political striker, doing nothing but raising trouble. We do not want a man of his temperament in the White House. We prefer to support President Taft."

Roosevelt a Frost in Oregon.
A. V. Spalding, a widely known contracting engineer of Portland, Ore., while on his way east from Portland, reports that the Roosevelt tour through Washington, Oregon and the Pacific coast states was a frost.

A letter received at the Taft headquarters from Edward D. Baldwin, secretary of the Oregon state central committee, says:

"Things are looking better here every day for Taft. The lukewarm reception given Roosevelt in Portland the other day has given courage to our people."

Decreasing in Iowa.
Odar Rapids, Ia., Sept. 29.—James H. Tremlin and Luther A. Brewer of this state, officers of the Iowa League of Taft Clubs, who have been assisting in the organization of Republicans in the state, have received reports from every county showing the decrease of Roosevelt sentiment, and report that the Republican strength of the state is crystallizing around President Taft.

Hungry men are always welcome at Ad Saylor's restaurant, U. N. Hall's pool room.

LOST—An overcoat, light color, funder please return to C. M. Dobbs.

ONE PRICE TO EVERYBODY WE WANT YOUR TRADE

ALVAH GREEN.

To those who have already had the pleasure of seeing Alvah Green in his work, no words of introduction are necessary, but for those who have not been so favored, just a few words may not be out of place. Essentially an actor, and by turns a comedian, character portrayer and entertainer, he has ranged the whole gamut of emotions during his career, and in that time has erected for himself a solid structure of dramatic worth, and a following of which any exponent of the platform might justly feel proud.

A Real Humorous Entertainer. Such an entertainment as Alvah Green's is a positive tonic to old and young. It is just bubbling over with wit and things bright and entertaining. It drives care and worry to the winds. There are many good stories, and mingled with the humor are bits of pathos that will bring warmth to the heart.

Cosy Theater, Thursday Night, October the 24th, Auspices of the Woman's Club. Don't Miss It.
