

'RACETRACK' OXIDATION POND
... Heart of the city's new sewage treatment plant

CLARIFIER TANK, WITH REVOLVING SCRAPER
... Water drained into lake from here is 98 percent pure

New sanitation plant yields usable water

In the name of ecology, efficiency and service, the City of Dimmitt has created a swift oval river northeast of town.

IT'S THE city's new "racetrack" sewage treatment plant, which takes in the city's sewage and turns out safe, usable water.

The plant, which is the most modern, efficient type available, can accommodate a city more than twice Dimmitt's size, depending on industrial usage.

The \$168,000 plant was completed last week by Wes-Tex Construction Co., Inc., of Borger. It was built with money from a \$200,000 municipal bond issue approved by Dimmitt's voters last year.

THE PROJECT also included \$47,500 worth of new sewer lines to connect existing lines to the new plant and extend city sewage service to the Parkway and Kirkham Heights Additions near the "Y" intersection of US 385 and State 196.

Helping pay for the ambitious project is \$68,000 in federal matching funds—30 percent of the total cost. The first payment of \$17,300 in matching funds has been promised within 30 days by the Federal Water Pollution Control Administration. Leftover funds will go to buy sewage-service equipment and machinery.

The heart of the new treatment plant is the "racetrack," technically known as the rotor oxidation ditch. This is a divided oval pond fitted across each side with a long, spiked, horizontal rotor.

LIKE A pair of spinning logs, the two rotors whip up the water and keep it moving counter-clockwise, at fast-river speed, around the "racetrack."

This whipping action feeds oxygen

into the water and keeps all solid particles in suspension. The aeration process keeps the sewage from becoming septic and allows natural bacterial action to purify the tainted waste-water. In effect, it speeds up nature's own purification process, with no chemical additives needed.

Before the city's sewage flows into the racetrack pond, it goes through a "comminutor," or grinder, which starts the breaking-down process by grinding up all paper and other solids in the water.

AS THE water enters the racetrack pond, the flow is measured by instruments and recorded on charts to give the exact flow at any given time. At present,

the plant is receiving 250,000 gallons per day. From the racetrack, processed water is constantly drawn off by an uplift water auger to a clarifier, a circular concrete pond with a "scraper" that goes around like a big clock-hand. Here, solids are settled out and recirculated back to the "racetrack" oxidation ditch.

As the solids settle out in the clarifier, clear water is drained off into the city lake nearby. The water coming out of the clarifier is odorless and nearly pure.

NEARBY farmers pump water from the city lake for irrigation. After the lake cleans itself up, processed water from the new plant will be virtually pure when it reaches their fields.

Eventually, solids build up in the racetrack water. Three or four times a year these solids will be drawn off into nearby drying beds, where oxygen and sunshine dry them to a harmless form. These drying beds are the only part of the old sewage plant still being used.

Most of the solids, though—including paper and cloth—simply disappear in the decomposition process as a result of bacterial action. The hardest things to decompose are cigarette filters and hair.

ALTHOUGH the new plant efficiently recycles 80 percent of the water that flows into it and makes this water about 98 percent pure, it can't return he water to its original purity. The reason: detergent phosphates.

"These phosphates are a big problem here, the same as they are in rivers and lakes all over the United States," City Manager E. B. Noble said. "No treatment method has yet been devised that will break down and filter out these phosphates."

In fact, new sewage treatment processes are so efficient that sewage water could now be reclaimed completely—pure, clear and drinkable—if it weren't for detergent phosphates. Reclaimed water is flowing through industries all over the US, but because of the phosphate content in "used" water, it isn't being utilized anywhere for drinking.

C'mon, rain!

Annual chamber banquet on tap Saturday

Four highlights are on tap Saturday night for those attending the annual banquet of the Castro County Chamber of Commerce: —THE "Citizen of the Year" will be announced and awarded a beautiful plaque.

—Miss Grain Sorghum of the Nation, Charlotte Smith of Throckmorton, will perform.

—Dr. James Granberry, young mayor of Lubbock and one of the state's former "Five Outstanding Young Texans," will deliver the keynote speech.

—Reeford Burrous will take over the reins as president of the Chamber of Commerce.

BOB DOWELL, Amarillo caterer, will start serving a feast of roast beef, turkey, baked ham and strawberry shortcake at 8 p.m.

Beta Sigma Phi sorority's banquet decoration committee, headed by Mrs. Roy Ellis, will have the Dimmitt High School gym-

nasium decorated in a rainbow theme with springtime colors.

Tickets at \$5 each may be purchased at the chamber office in the city hall or from any chamber director.

BURROUS, who is the plant manager for West Texas Telephone Co., was elected the new president of the chamber March 8 in a called meeting of next year's board of directors. He succeeds Bo Bryant to the chamber presidency.

Others who will take office Saturday night are Robert Benton, first vice-president; George Sides, second vice-president; and Dr. David Bechtol, secretary-treasurer.

NEW MEMBERS of the 12-man chamber board are Dr. Bechtol, Sid Stewart, Carroll Webb and Bill Dannevik. They succeed Bryant, Elvon DeVaney, J. R. Brown and Walt Hansen, whose terms are expiring.

These directors and officers will serve during the coming year with five other carry-over board members—Nick Gonzales, Jack Flynt, Ike Moore, Stanley Schaeffer and Harley Dodd.

The chamber's official welcoming committee Saturday night will be Mr. and Mrs. Stanley Schaeffer, Mr. and Mrs. Jack Flynt, Mr. and Mrs. Ike Moore and Mr. and Mrs. George Sides.

DR. GRANBERRY, the keynote speaker, is the youngest man ever to serve as the top elected officer of Lubbock. At the age of 38, he ran against four opponents in 1970—including the incumbent mayor—and received 67.7 percent of the votes.

During his first year in office, he and his city were faced with an awesome challenge after the Lubbock tornado, which was one of the most devastating in man's history.

As the city dug out of the wreckage, Dr. Granberry helped organize a rebuilding program with a central civic complex that required a record bond issue. The bond election carried, and the Hub City is now on its way toward setting a model example of community determination and progress.

AS A result of his work as mayor of the tornado-stricken city, Dr. Granberry was appointed by President Nixon to the international Peruvian Earthquake Voluntary Assistance Group earlier this year.

An honor graduate of Tyler Junior College, North Texas State University and Baylor University College of Dentistry, Dr. Granberry has already compiled a long list of credits for service to his profession, his city, his church, civic organizations, colleges and international associations.

City to be 'music capital'

Dimmitt will become the music capital of the South Plains Tuesday and Wednesday when more than 2,000 high school bandsmen gather here for the Region II spring concert band contest.

THE colorfully uniformed young musicians will represent 33 Class A and AA bands of the area. Class AA bands will perform Tuesday and Class A groups Wednesday.

Area law officers take course here

Twenty-six Panhandle area lawmen gathered at the Castro County Courthouse Tuesday for an all-day seminar in basic narcotics identification and enforcement.

HOSTED by the Castro County Sheriff's Office, the seminar was sponsored by the Panhandle Regional Police Academy in cooperation with Amarillo College.

Attending the seminar were sheriffs, deputies, city policemen, marshals and highway patrolmen from Tulla, Pampa, Friona, Clarendon, Hedley, Hereford, Dalhart, Canyon, Hart and Dimmitt.

Instructor of the course was Carl Williams, Amarillo narcotics officer.

THROUGH films, lectures and demonstrations, the lawmen learned how to identify all dangerous drugs and narcotics, how to interpret physical symptoms of suspected drug users, and how to trace users and pushers. They also brushed up on the technicalities of current drug laws and methods of collecting evidence.

Library funding allows new hours

The Castro County Library established longer daily hours this week at its new location at 105 E. Bedford St., as the result of new appropriations by the county and city.

THE LIBRARY is now open from 10 a.m. to 6 p.m. Tuesday through Friday and from 10 a.m. to 4 p.m. Saturday. The library closes during the lunch hour and is closed all day Monday.

To pay the extra salary required by the longer hours, the county commissioners' court has increased its library allocation by \$100 per month, and last week the Dimmitt City Commission followed suit with a like amount.

In their meetings with members of the library board, Friends of the Library and Dimmitt Book Club, the city and county commissioners expressed a desire to establish a legal working agreement with each other on the library's operation and funding.

IN THE past, the public library has been restricted to short service hours because of limited funds, and to a 5 o'clock closing to coincide with working hours at the courthouse, where it was located.

MR. AND MRS. JAMES SLOUGH
... With their son's medals and citations

Parents receive medals

Capt. Russell Slough, Dimmitt's fifth Vietnam War victim was awarded three of the nation's highest medals posthumously Sunday afternoon.

THE SILVER Star, Purple Heart, and Bronze Star with Combat V and Oak Leaf Cluster were presented to Capt. Slough's parents, Mr. and Mrs. James Slough of Dimmitt, in ceremonies at the National Guard Armory in Amarillo.

The medals were presented in a framed shadow-box that also contained three other medals that had been awarded earlier to Capt. Slough—the Republic of Vietnam Serve Medal, the National Defense Medal and the Vietnam Campaign Medal.

Presenting the medals to Mr. and Mrs. Slough was Maj. Gen. Selden Simpson of Amarillo, president of the National Guard Association of Texas.

ALSO in hand for the ceremony were Capt. Slough's brother, Jimmy Slough and family of Dimmitt; his sister and brother-in-law, Mr. and Mrs. Bill Rice; an aunt and uncle, Mr. and Mrs. Elmer Teetzten of Darrouzet; his grandfather, Fred Huston of Perryton; an uncle, Ray Huston of Perry-

ton; Mr. and Mrs. Curtis Downs of Amarillo, whose son escorted Capt. Slough's body home for burial; and 45 of Capt. Slough's fraternity brothers from Lambda Chi Alpha fraternity at West Texas State University.

Capt. Slough was mortally wounded May 23, 1970, in a Viet Cong mortar attack on Fire Support Base Kathryn, near Da Nang. He died June 24 in a military hospital in Japan.

The Bronze Star citation was representative of those that accompanied all the medals. It read:

"FOR HEROISM in ground combat against a hostile force in the Republic of Vietnam on 23 May 1970. Capt. Slough distinguished himself while serving as a forward observer for Headquarters, Headquarters & Service Battery, 2nd Battalion (Airmobile), 319th Artillery, during a hostile mortar attack at Fire Support Base Kathryn, Republic of Vietnam.

"As soon as the first round impacted, Capt. Slough maneuvered through the hostile fire to conduct a crater analysis. Relaying the information he obtained to the fire direction center, he enabled the artillery section

to initiate effective counter-mortar fire.

"Capt. Slough remained in the exposed area locating the hostile mortar emplacements until seriously wounded by an incoming round. His actions were responsible for silencing the enemy mortar, keeping casualties to friendly forces at a minimum.

"CAPT. SLOUGH'S personal bravery and devotion to duty were in keeping with the highest traditions of the military service and reflect great credit upon himself, his unit and the US Army."

Also receiving medals at Sunday's ceremonies were the parents of Sgt. Steven Jessco of Hereford. Sgt. Jessco was killed in action at Fire Support Base Kathryn last Oct. 6.

JILL BRAAFLADT, 17, was named this week as the 1971 Queen of the Dimmitt Lions Club. The DHS senior, daughter of Mr. and Mrs. Chet Braafladt, has been a cheerleader four years and is a member of the Bobcat Band, Future Teachers and Future Homemakers. She will represent the Dimmitt club in the District 2T-1 queen contest at Borger in April.

Revenue-sharing plan would net county \$49,118, Dimmitt \$26,612

If President Nixon's federal revenue sharing proposal is adopted by Congress, it would mean income boosts of \$49,118 per year for Castro County and \$26,612 for the City of Dimmitt, according to Congressman Bob Price.

PRICE said these figures would be the local shares of what city and county residents pay to the federal government, mainly, through taxes.

Castro County provided the federal government with \$347,000 in revenue last year, and Dimmitt residents paid in \$188,000. Price reported.

The state also would receive shares of the federal revenue under the Nixon proposal. State shares would be determined by a population and tax-yield formula,

while local shares would be based on a straight percentage of the local tax contribution.

IF ENACTED, the President's general revenue sharing plan would mean that \$116,413,215 in federal tax dollars would be returned to the 18th Congressional District, Price said.

In proposing the revenue sharing program, President Nixon said he felt local governments could spend the tax money to better advantage in attacking such nationwide problems as crime, pollution, urban renewal and community development, with less federal participation or control.

A breakdown of local shares for all counties and the major cities and towns of the 18th District appears elsewhere in this issue.

Residents have a lively week of parties and dinners

By MYRTLE SHEFFY

The people of Dimmitt were party-minded this past week. I have heard of several get together.

FRIDAY evening Leola Haberer was hostess at dinner and "42" in her home with Vera Webb as co-hostess. They served ham and a good asparagus dish and all the trimmings to the Edgar Rameys, the R. E. Wilsons, the Carllies, the Sid Sheffys, the Wes Anthonys, the Goodwin Millers, Ann Singer and Cletha George, Jeannie Miller and Horace were High Score Winners with Raymond Wilson getting the good hands.

Another party was at my house (Myrtles) Thursday when bridge guests were Ceal Carlile, Jereene Parks, Ann Singer, Dee Williams, Retta Cluck, Maggie Boren, Adilene Rush, and Josie Bradford, who won high score.

They tell me the ladies golf membership drive supper was much fun. Mrs. Garnett Holland is president of this group. Mrs. Ralph Glover was the star in a Minnie Pearl skit. They had many guests. If you would like to play the game, call some of the ladies, Bobby Vilas or Mrs. Al Forrester.

RAY AND Edna Riley were hosts to a group of friends with dinner at the Colonial Inn Restaurant Thursday night with bridge at home. Guests were Mr. and Mrs. Edgar Ramey, Mr. and Mrs. Horace Carlile, Mr. and Mrs. Swain Burkett, Mr. and Mrs. R. E. Wilson, and Mr. and Mrs. Goodwin Miller.

I saw Nancy Jackson and Shelley George of WTSU home for the spring week vacation. They say the girls at school are having a lingerie shower this week.

for Kathy Markley who will be married soon to Joe Paetzold of Hereford.

Delores Golden will be hostess with helpers Vicki Golden, Shelly George, Nancy Jackson, Judy White, Marilyn McLeroy, Judy Paetzold and Suzanne Merritt.

Joe and Martha Hastings of Dallas are visiting a few days with sister Bettye Boothe, and brother Odus Hasting and families. Mrs. Boothes new house on West Cleveland Street is showing up pretty and interesting with its small pane English-type windows. She should get moved into the house in May. And another new house is Mr. and Mrs. Bedford on Western Circle near the Christian Church.

FRANK and Shirley Wise have recently bought the pretty house on Cemetery Road, from former owners, Judge and Mary Baldrige. This is a big split level home, and the Wises and children plan to get moved in a couple of weeks.

Francis and Ivy Jackson and her brother Homer Newton went out to Truth or Consequences, N. M., for a stay. They have a brother there who has a motel. E. M. and Joy Jones and girls Sondra and Suzan were Sunday guests of his mother Mrs. E. M. Jones Sr. in Abernathy.

Mr. and Mrs. George Brix of Vici, Okla., came over here Sunday for a visit with her sister Maria and Curtis Tate. They will take mother, Mrs. J. L. Kay, back to her home on Tuesday.

PERRY Graham, a WTSU stu-

dent came home for the week for a visit with his parents Bill and Katy Graham. His friend Gary Fernimore who lived with the Grahams for a year or two is now with the Clovis Radio Station and he is with his dad.

Mr. and Mrs. Mike Nino and children visited their relatives in San Antonio this week.

The FHA girls were hostess to a "Papa Pie Supper" Thursday evening. More than a hundred people were there. The teachers are Mrs. Charles Hottel, Mrs. Bill Strider and Mrs. Pat Bagley. There were sack races, games and contests. Slim Vargell, father of Nancy, received the award for having the largest foot. Mr. Elliot, father of Theresa had the smallest foot. Sebastian Acevedo, his daughter is Minerva, had the largest head size and Cowboy Johnson (daughter is Jackie) had the smallest head size. They had much fun.

BILL and Judy Burlin of Northfield, Minn. were guests of her sister Jean and Cowboy Johnson this week. The Burlins will move soon to Abilene. He is an architect—if you need one.

The Tops Club had installation of officers and a queen elected on Monday evening. Mrs. Johnson says they will tell us about that on another page.

Raymond and Mary King of Lubbock were Sunday guests at church and of the Morars, Bensons, Cleavingers and other friends.

Margie (Mrs. Earl Harrison) had a few friends in for coffee and games of Canasta Thursday. Guests were Jeannie Miller, Oleta Golden, Marnie Birdwell, the other member, Jo Gregory, went to Daming with her husband Jack. Others have moved away. This was a needlework club in 1936.

RODNEY and Cindy Patton and little daughter J. J. of Texas Tech at Lubbock were spring week visitors of his parents Jack and Clara Patton and great aunt and uncle Horace and Ceal Carlile.

Nettie Graham is visiting for a while with daughter Jaan and A. J. Kemp and girls in Fort Worth.

Ceal Carlile fixed up an Italian dinner one day for great nephew Tim Patton and a few of his friends in the Tom Sawyer cast. They were Tommy Killough, Johnny Webb, Brad Sanders.

Saturday Rick Bell and James Patton went to Abilene to visit brother Mike Bell and Mrs. Bell who are in school at ACC. Think they were doing some car swapping.

Suzan Benson a student at TWU in Denton came home to talk her dad, Joe, into getting her a car. People do need cars as we don't have horses.

Charlie and Nancy Hays were hosts at a fresh fish dinner with all the trimmings at the Hereford Country Club on Thursday. Guests were the Ted Sheffys, the Russell Morans, Aural Davis, the Goldman Dyers, the Harold Stephens, Suzie Ellis, the John Merritts, the Jack R. Millers, and the Hayeses.

MR. AND MRS. Richard Wooten and Mr. and Mrs. Jesse Wooten took the campers and went to Lake Arrowhead southeast of Wichita Falls. They planned to fish but the wind blew the waters too high so they drove on to Waurika, Okla., and visited a brother of the men, then on to Fredrick and Altus for a visit with friends.

Ron and Susan Hance of Lubbock are visiting a few days

with grandparents Charlie and Nancy Hays, while their parents Kent and Carol Hance attend the wedding of friends in Marfa. You know that Kent is a lawyer and teacher too, at Tech.

Mrs. Jay Lee Touchstone is in High Plains Baptist Hospital in Amarillo, recuperating from surgery on rib and vertebra bone.

Mrs. Nannie Ginn of Earth is in Amarillo also ill. Mr. and Mrs. Cecil Ginn have been with her and they also visited relatives there too.

Mr. and Mrs. Clyde Shuford of El Paso were weekend visitors of his sister, Mrs. Leola Haberer.

FLORA Ruiz went to Gainesville for a two-week visit with her sister Rosa Gonzales. Flora is with the Colonial Inn Restaurant.

The 4-H students were hosts at the open house of Max and Irene Keating Sunday afternoon. The Keatings have a new home cut in the Huggins addition. Many people called to wish them well. The girls served lime fruit punch and cookies from a pretty table. Mrs. Keating is the home demonstration agent in this county.

The Jack Cowsets and the George Blentons went to Amarillo to visit Dee Neumayer, who had eye surgery last week. They went on to visit the Mrs. Fred Galle family, who are Dick, Edna, Madeline and Gene, former residents of Sunnyside community. Fannie Blanton was a special friend of Mrs. Galle who was buried Monday. You remember Gene Galle was a well known ballet dancer and teacher in Amarillo for many years and a friend of Cyd Charisse.

MR. AND MRS. Sam Lane had a surprise gathering at their home over the weekend. All their children

and their grandchildren were home for the first time in eight years, also a new granddaughter they had not seen. Those visiting were Mr. and Mrs. Ray Young and children from Bethany, Okla., Mr. and Mrs. R. T. Rains and children from Monahans, Mr. and Mrs. Jim Lane and children from Wilcox, Mr. and Mrs. Jerry Don Lance from Summerfield, Mr. and Mrs. Bill Lane and children from Lubbock. The family were hosts at a dinner at the Colonial Inn Restaurant for the Lanes.

Mr. and Mrs. Frank Latimer and daughter Ann attended the funeral of an aunt Mrs. Dora Watien in Higgins at the Methodist Church. She was an early day pioneer of that area.

MRS. Addeline Erskine and Mrs. Erma McLaughlin of California are here to see about their farm interests and to visit with friends Swain and Katy Burkett and the Cluck families. Jerry Cluck farms some of the Erskine land.

Loyd Lust and family of Littlefield, Mr. and Mrs. Mac Vann and daughter, Mr. and Mrs. Mac Steffy were all dinner guests of the Earl Luts of Bethel. Leona Siles of Big Square and the

James Bradfords were there also. George and Josie Bradford went to Lubbock to be with her sister Martha Griffith who had surgery Monday morning.

THE CAPROCK Dental Assistants Society met in their monthly meeting last Tuesday night with Dr. Charles Vandiver as guest speaker. Assistants from Lockney, Olton, Floydada, Plainview,

Hereford and Dimmitt attended. A very informative and inspirational program was presented in the form of slides and poems taken from his collection. The theme was "Tensions in the Dentists Office." We know about that, don't we?

Enrique Romero, an engineer at the corn mill, is back from a week's vacation in Mexico City with his wife and two children.

FLIGHT... of Faith

The faith of a boy that a slender string shall hold high his kite - that when he extends a little more string his kite will go a little higher - shows that this flight is a flight of faith.

As the boy has faith in the string so must we have faith in our Lord, and the more faith we extend, the higher and more abundant our lives will be. It is written in Romans 1:17, "The just shall live by faith." Attend Church this Sunday and receive inspiration from those who share your faith, that you may, as the Apostle Paul said, "be comforted together by the mutual faith of you both."

Coleman Adv. Ser.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

FIRST CENSUS REPORTS—Mrs. Mary Jo Birdwell, chief Census enumerator for Castro County, shows the first two statistical reports on Texas that are available from the 1970 Census. They are "General Housing Characteristics" HC (VI), and "General Population Characteristics" PC (V2). Both are advance reports, and will be followed by final, more extensive reports on Texas within the next two months. The two books, which break down the latest Census figures into statistical categories, provide valuable information for business and professional people, students and public officials. What would federal tax-sharing mean to Price's 18th District?

Congressman Bob Price has analyzed the President's general revenue sharing proposal in terms of what it means in dollars and cents to the 18th Congressional District.

UNDER THE Nixon proposal, state shares are determined by a population and tax yield formula; local shares are based on a local tax contribution percentage.

If enacted, the President's general revenue sharing plan would mean that \$116,413,215 in federal tax dollars would be returned to the 18th Congressional District.

In the following breakdown, local shares (first figure) represent dollars to be returned by the federal government; general revenues (second, larger figure) equal the course or city income tax contribution to the federal income:

Did you know the Morgan type silver dollar contains the initial of its designer twice?

A capital M appears at the truncation of the neck, at the last tress, of the liberty head on the obverse. It's found the second time on the reverse on the left hand loop of the ribbon. In both cases the skillfully interwoven initial is very difficult to detect.

George T. Morgan was a pupil of Wyon in the Royal Mint in London before he came to America. He designed the new liberty head type silver dollar in 1878.

The Morgan type dollar was used until 1904 when silver dollar minting was suspended. When re-authorized in 1921, the silver dollar bore Morgan's work for about six months. At this time

the peace dollar was introduced.

Until his new appointment, he served three years as manager of Continental's southwest division. His new offices are in the Continental System's headquarters at Bak-ersfield, Calif.

Many taxpayers failing to sign

So far this year 2,075 North Texas taxpayers have not received their expected tax refunds simply because they failed to sign their federal income tax returns before filing them.

SINCE an income tax return is a legal document, it must be

signed before the Internal Revenue Service can process it and issue a refund, Ellis Campbell Jr., district director of Internal Revenue for North Texas, said this week. Signatures of both husband and wife are required on joint returns, he added.

To help reduce the number of missing signatures, Form 1040 shows the signature line—and other error-prone information areas—highlighted in red ink.

Other causes of delayed refunds are missing Social Security numbers, arithmetic mistakes, and failure to follow instructions accompanying the tax forms.

CAMPBELL asked taxpayers to use the blue pre-addressed name label that came on the cover of the package containing their blank Forms 1040. The top part of the label should be removed from

Four new textile labeling laws now in effect to protect buyer

Consumers have four national laws to help them do a better job when buying textile products, reminds Miss Joanne Thurber, Extension consumer education specialist in clothing at Texas A&M University.

AND consumers play a vital part in insuring that they receive the benefits of the legislation, Miss Thurber adds. The manufacturer must provide accurate labels, the retailer must keep the labels attached to the merchandise, but only the consumer can read and use the label information.

The labeling acts, enforced by the Federal Trade Commission,

cover wool, fur, flammable fabrics and all other textile fibers used for apparel and household accessories.

The Wool Products Labeling Act requires that all products containing wool be labeled with the true English name of the animal plus the country the animal is from. If the product is composed of artificially colored fur, or a substantial part is composed of paws, tails or bellies, the tag must indicate it.

The Flammable Fabrics Act covers all wearing apparel and household textiles, making it unlawful to manufacture or sell products that are dangerously flammable.

Currently, Miss Thurber says, only one fabric flammability test has been established as a government standard, but more extensive test methods and standards are being developed.

Lindsey, Alvin's cleaning plants will consolidate

As of April 1, Lindsey Cleaners on West Bedford Street will be consolidated with Alvin's Drive-In Cleaners, 104 NW Third St.

ALVIN FRAZIER owns both cleaning plants, having bought Lindsey Cleaners from Bob Lindsey in November. He said he is consolidating the two plants to provide better service to the customers of both.

Mrs. Hristeen Moke of Lindsey Cleaners will become a full-time staffer of Alvin's Drive-In Cleaners, and Mrs. Irene McElroy plans to help on a part-time basis, Frazier said. The two ladies will join the regular employees of Alvin's Cleaners—Ralph Ramos, Mrs. June Brock, Mrs. E. V. Hargrove and Mrs. Mary Lou Frazier.

Frazier has been in the dry-cleaning business in Dimmitt since 1959, and has operated Alvin's Drive-In Cleaners since 1962.

Many retirees missing benefits

The Internal Revenue Service people are concerned about retired taxpayers. Congress has provided a number of tax benefits for taxpayers who have retired, but IRS finds that many taxpayers that are eligible don't claim the benefits.

QUITE a few taxpayers forget to claim their extra exemption when they pass age 65. Many don't claim the very important retirement income credit, which can reduce a retired couple's taxes by as much as \$457.20.

If you qualify for the older Americans' tax benefits, take them, IRS advises. You may even want to mark your return "RIC" and let the IRS Service Center compute your tax.

the package and placed on the tax return. If the return is prepared by someone other than the taxpayer, we urge the taxpayer to give the label to the preparer and ask him to use it on the return to be filed with IRS. Use of the label allows the IRS to process the return faster without verifying the taxpayer's identification.

So far this year, the IRS Service Center in Austin has processed 149,075 refunds worth \$32,786,915.08, Campbell reported.

Droughty conditions bring on beef cattle nutrition problems

By UEL D. THOMPSON
Extension Beef Cattle Specialist

Beef cattle which have been on dry ranges for the past six months are faced with serious nutritional deficiencies.

THE FIRST deficiency is a lack of sufficient range grass or forage. It is further complicated by the low quality or absence of sufficient total digestible nutrients. This kind of roughage contains little or no protein, energy, phosphorus or Vitamin A. Decisions are difficult to make

during such stress periods. One management practice is to attempt to get animal units corrected to forage supply. Calves may be weaned earlier than usual or creep fed to help relieve grazing pressure and thus improve cow condition. Less replacement cattle should be kept and herd culling is always in order. Non-breeders, slow breeders, irregular breeders, and cows which have consistently produced lower grade, light weight calves need to be marketed. Palpate cows to determine pregnancy and sell those which are not pregnant.

There is no cheap way out when pasture forage is gone. However, there are some ways to reduce losses.

UNDER extreme droughty conditions it may be advisable to confine the foundation herd to small acreages. High energy feeds such as grains and protein supplement may be fed in limited amounts for maintenance. Forage is the critical feed and is usually high in cost for total digestible nutrients.

Phosphorus is the mineral most likely to be deficient under these conditions. A mineral supplement with a 1:1 ratio of calcium to phosphorus should be fed free choice. Salt should also be fed free choice.

Vitamin A may or may not be deficient, depending upon the forage. Feeds fortified with Vitamin A should be considered. Synthetic Vitamin A is available for use in drinking water, injections and may be fed by hand through feeds.

More detailed information may be obtained through the county agent's office. Ask for publications on "Supplemental Feeding of Beef Cattle."

Claire Tenailon talks Wednesday to Garden Club

Claire Tenailon of France, Dimmitt High School's American Field Service exchange student who lives with the J. E. Parish family, was the guest speaker at the Dimmitt Garden Club's March luncheon meeting last Wednesday at the Colonial Inn.

MISS Tenailon, who was presented by Mrs. Robert Benton, explained that her home town is in the northwest part of France. Her family lives on a farm, and her father—a retired colonel in the French Army—raises sheep.

She showed pictures of her family and home. Miss Tenailon has five brothers older than she, plus a younger sister and brother. The Tenailon family home is an attractive old villa with towers and turrets.

France's public schools, she said, do not have school athletic teams as American schools have; instead, there are city teams. Spanish and English are required courses in French schools because Spain and England are so near.

Wines are served with meals throughout France, she said, and children have it weakened with water. Milk is not served at mealtime but as an afternoon drink. Milk also is served with hot coffee and toasted French bread in a typical French breakfast.

Youths in France are not allowed to start dating as young as American youths are, she said, and girls never take the initiative or "chase" the boys. Instead, the boys do the choosing, chasing and courting.

Also, French youths do not drive cars at such an early age as American youths, she said. Instead, the tradition is to walk for the sake of strength and health.

MOST French people typically are style conscious, she added. During the club's business meeting, conducted by Mrs. Jimmy Butler, it was announced that the annual state convention will be held the week of April 27 in El Paso.

The club has planted four more trees, but this time at Plains Memorial Hospital instead of at the Country Club.

HOSTESSES for last week's meeting were Mrs. Sid Sheffy and Mrs. Robert Benton. The central floral arrangement was a decorative piece of curved wood with jonquils and yellow mums. Fifteen members and three guests attended last week's meeting.

Next meeting will be at the home of Mrs. Charles Vandiver.

On the Go
DIMMITT High School Principal Ike Moore took part this week in an evaluation of Seagraves Public Schools, as a member of an evaluation team representing the Southern Association of Colleges and Secondary Schools.

'FHA Cares' is theme of national observance

"FHA Cares" is the theme of National Future Homemakers of America Week, March 28-April 3. DURING this week 600,000 members in over 12,000 local FHA chapters throughout the US and its territories will carry out special projects and activities to show that FHA members do care.

National President Ruth Ann Hockenbroch, a high school senior at Middleburg, Pa., put it this way:

"Future Homemakers of America do care. We care about what's happening to our country today, and we care about preparing ourselves for the future. Today we are teenagers, tomorrow we become The Establishment. Through our FHA activities and oriented learning experiences we are preparing to take our place in that establishment."

"In this, our 25th anniversary year as a national organization, we want National FHA Week to be a showcase for what 600,000 teenagers are doing constructively to find solutions to some of the problems confronting today's society in preparation for a better life tomorrow," she said.

THIS national organization of high school home economics students provides opportunities for developing individual and group initiative in planning and carrying out activities related to the home and the community.

Throughout the country, FHA members are learning by doing. They contribute to the community by working as volunteers. They assist in local head start programs or with the mentally retarded and handicapped through county health and welfare departments.

They organize reading classes and tutorial programs for migrant or underprivileged children. They visit and assist the elderly or work with other groups on community service projects. They serve as hospital candy strippers, hold career seminars, survey for job opportunities for youth, conduct sessions on preparation for marriage, hold morals discussions, and carry out many other projects which give practical application to their classroom learning.

Future Homemakers of America was founded June 11, 1945 as an incorporated, nonprofit organization supported by membership dues. Nationwide in membership and effort, it is co-sponsored by the US Office of Education and the American Home Economics Association and was developed to

provide experiences that broaden the home economics education program in the high school.

HIGH SCHOOL home economics teachers, members of the state home economics education staff, and leading home economists serve as advisors to chapter, state, and national youth officers, giving guidance and counseling to the program.

Activities at all levels—national, state, and local—are youth directed.

Twelve national youth officers elected yearly help develop and promote the national program of work and plan and preside over the annual national meetings. The FHA members themselves decide

'This Is Your Wife'

MRS. AMY GLOVER as "Minnie Pearl" was the lead-off comic in a "Crazy Fashion Show" at a salad supper hosted by the Castro County Ladies' Golf Association last Thursday night at the Country Club.

MRS. OLA MAE TRIMBLE shows the modern housewife wears for the shank of the evening—a raggy bed-gown and a dangling hairnet, along with a heavy coat of face cream. She drew big laughs with her costume.

MRS. JANIE WALKER has just the get-up: hubby's cowboy boots and service jacket, an old-fashioned bonnet, a pair of old ped-al-pushers and a clothespin scarf.

JOAN BAKER pads up to in-waiting should wear to lift her spirits—jewelry for adornment, rolled-down hose for necessity's sake, and a hot-water bottle for ultimate comfort.

10 from here attend dedication of new Carson County Library

Ten patrons of the Castro County Library attended the dedication and open house of the new Callaghan Memorial Carson County Library in Panhandle recently.

THEY WERE Library Board Chairman and Mrs. Jack Miller, Judge and Mrs. Raymond E. Wilson, Mrs. Mary Edna Hendrix, county librarian, Mrs. Beral Hance, Mrs. Mary Lou Frazier and Miss Hazel Merritt.

Plans for the new library in Carson County started three years ago, when the late H. J. "Friday" Hughes donated \$75,000 toward a library building to be named in honor of his father-in-law, Arbery A. Callaghan, pioneer Panhandle judge, and the Callaghan family.

Another donation of \$10,000 was received later for the purchase of a building site, and Carson County library planners started planning to qualify for additional

funds from the Texas State Library Association, a goal they were eventually able to attain.

THE proposed memorial library for Carson County will be built by the same method, starting with a \$95,000 donation received last year from Mrs. Tylen Perry of Plainview.

Mrs. Reba King, Carson County librarian, explained to those attending the dedication service that the Callaghan Library has 25,000 volumes on its shelves and helps to serve three branch libraries in the county—at Skellytown, White Deer and Groom—through a book exchange service. Each of the branch libraries contains about 6,000 volumes.

Charles Baker, field consultant for the Texas State Library, was the main speaker at the dedication ceremony.

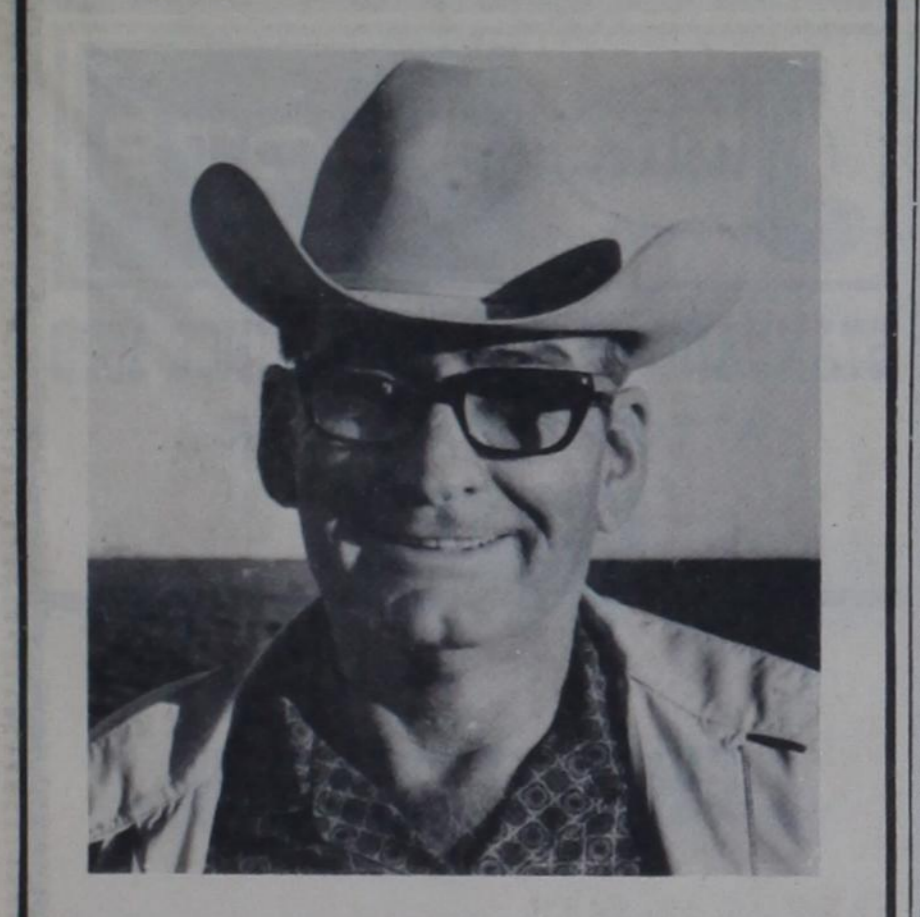

citizens of a democratic country cannot be free," Baker said. "A library provides citizens with a means of learning. The more books on the shelves, the wider the doors of the library will open, and the wider the range of information will be to local citizens."

Here's why:
ALLEN WEBB, Dimmitt, produced 178.8 bushels of corn this past year from 162 acres of Pioneer brand 3306. He also had a 25-acre field of 3306 that produced over 180 bushels per acre. Mr. Webb is an outstanding farmer who knows how to get the most from good management programs. That's why he's particular about the seed he plants. Naturally, we're proud that good farmers like Allen Webb plant Pioneer year after year.

Cats run well at Abernathy

The Dimmitt Bobcats had a fine showing from all the boys who placed in the finals of the recent Abernathy Relays.

JOE FINCH had a 10.4 time in the 100-yard dash; which put him in fifth place there.

Rich Davila had a third place in the 440-yard run, and was timed in 59.4 seconds.

Jerry Matthews, who had only worked out two days, ran his specialty, the 880, in a time of 2:09.4.

The mile relay team, which had not practiced together previously, had a third place finish with a time of 3:43.

FLOYDADA, for the second time in a row, won our division with 173 points.

Head track mentor **Roy Blair**, who, unfortunately for us, is leaving to become the head football coach at Whiteface, had these comments:

"The boys still have much room for improvement. However, they had better performances than before."

"I thought **Jerry Matthews** did a real fine job in view of the fact that he had only worked out twice with our team before the meet. In our next track meets, we hope that **Dave Nink** will be of a great help to us."

THE BOBCATS were in action March 16 at Friona, and ran Saturday at Hereford. We will have the results of these two track meets next week.

See you at the track meets.

On sports

Shouldn't DHS have baseball?

By **PAXTON**
Why not baseball?

THIS IS a familiar question that is asked about this time every year. Many of the boys in high school, along with some girls, would like to have a baseball team.

Dimmitt High School offers all kinds of sports, but not baseball. In the spring, golf, tennis and volleyball are offered. But many students would like to know why Dimmitt hasn't acquired a baseball team.

When questioned, the coaches answered that Dimmitt isn't big enough and there are no other schools within our district that have baseball. Though this may be true, it has to be started somewhere and sometime.

THOSE WHO kept a close tab on the Frazier-Clay fight know that Frazier is now the real champion. Although Frazier won the 15-round decision over Muhammad Ali, it seems that Frazier took quite a beating for his prize, as well as Ali. Frazier, who stated that he was thinking of hanging his gloves up, has offered Ali a return bout. Ali, who said he could have taken Frazier earlier in the bout, feels that he will take Frazier in the next one. The date has not yet been set.

Schools to have classes April 2

Students in Dimmitt Public Schools will not get a day off from classes Friday, April 2, as originally scheduled.

THE DAY was scheduled for in-service training for teachers in the original school calendar. However, classes will be held that day to make up for school days lost because of the snowstorm and basketball tournaments earlier this month.

To make up their scheduled in-service training time, teachers worked Saturday and will go back to school again this Saturday.

Counselor's Corner

By **KENNETH RINGO**

The counselor's office recently sent out letters to parents of seniors inquiring whether they would be interested in meeting with a college financial aid officer some evening at the high school.

OF THE 95 letters that were supposed to be carried home by the students to their parents, we received only 25 responses. Of these, 15 parents indicated that they would be interested in such a meeting.

Due to this lack of interest, we are a little reluctant to ask a college representative to drive down here. However, we are trying to work something out on this. Parents, if you have a senior student and did not receive a letter, please call the counselors and let us know if you are interested.

THE Attorney General of Texas, Crawford Martin, recently sent a letter concerning trade schools to all school superintendents in Texas.

He lays down some guidelines that graduating seniors should be advised to follow when considering a trade school. They are:

1. Avoid any school requiring immediate enrollment. Legitimate schools always allow sufficient time for investigation of their facilities and do not use high pressure.
2. Prospective students should check carefully the terms of the contract. Many such agreements carry no provisions for cancellation by the student. Some that do have such provisions provide for forfeiture by the student of a large portion of the money paid. It should be remembered that the written provisions of the contract take precedence over oral representations made by the salesman.
3. A **PLACEMENT** service by the school does not guarantee a job.
4. Check with Better Business Bureau in the town in which the school is located. The extra

Student of week

Rex Allsup

Rex Allsup, DHS senior, is this week's student of the week.

Rex who has attended Dimmitt schools for six years, came to Dimmitt from Hart.

Rex has been active in football during his Jr. High and High School years.

He feels that DHS has many fine activities for the student. He enjoys sports such as football and basketball. His favorite subject is journalism. His pastime after school is working. Another pastime for **Rex** is eating Italian food. As his favorite car, he admires the new look of the "Super-Bee."

After graduation, **Rex** plans to attend Wayland Baptist School or Clarendon Junior College and study liberal arts.

Rex commented, "DHS is really a nice school; it has many good points."

I guess from now on **Roger Allison** had better check the brakes on his motorcycle. Seems like somebody enjoys disconnecting his brakes.

While **Mr. Moore** was absent, "Slick" **Robertson** took it upon himself to patrol the lunch line. He sent anybody who tried to cut to the back of the line, unless he was bigger than "Slick."

AFTER the months of looking for it, we still haven't found our beloved camera. If somebody sees or has it, would you please return it?

If you think that the only "Hole in the Wall" is in Lubbock, you're wrong. There is one in DHS. It is between the science and English rooms.

FHA pie supper honors fathers

"Pops" were the honorary guests at the **FHA "Papa Pie Supper"** last Thursday night at the high school cafeteria.

MRS. SNIDER stated, "We had to have it early, due to the band contest on the day it was originally planned."

Prizes were given to **Mr. Acevedo** for the biggest head, **Cowboy Johnson** for the smallest head, **Mr. Vardell** for the biggest foot, and **Mr. Elliott** for the smallest foot.

After playing games, the **FHA** girls and their fathers were served homemade pies, coffee and tea. Eighty-five to 95 people attended the supper.

Tennis bunnies search in vain for Tulia foes

Coach **Don Parker** and his tennis "bunnies" went to **Tulia** Thursday for a set of matches, but as it turned out, the **Tulia** girls didn't show up.

THE GIRLS making the trip were **Shawnee Burrus**, **Debbie Underwood**, **Vicki Winters**, **Nancy Tidale**, **Karen Baldrige** and **Beverly Hill** in the senior division; and **Alce Rush**, **Rhena Baker**, **Sherry Burrous** and **Becki Carpenter** in the freshman division.

The boys were left behind to carry on their own tournament. As of deadline time, **Bo Myers** and **Paul Askey** were playing in the finals in the winners' bracket and **Jeff Myers** and **Max Newman** were playing in the losers' bracket. Both of these games are finals. Other boys involved are **Norman Hays**, **Darrel Buckley**, **Calvin Jackson** and **Dean Summers**.

These tournaments are to pick the tennis team and to get ready for the tournament with **Friona**. The winners will go on to the district tournament at a later date.

FHA girls plan for Twirp Week

March 28 through April 2 is **National FHA Week**, or better known around **Dimmitt High School** as "Twirp Week."

DURING Twirp Week the girls are required to ask the boys for dates and pay for them.

Because of band contests that same week, the **Future Homemakers** will hold some of their activities earlier. For example, the "Papa Pie Supper" was held last Thursday night.

To start the week off, all members of **FHA** are asked to attend church as a group Sunday morning, March 28, at the **First Baptist Church**. Monday they will sell privilege books and licenses giving the girls permission to talk to boys. Also, Monday is red and white day.

Wednesday is band contest day, so no **Twirp Week** activities will be held that day.

NEXT Thursday there will be an appreciation coffee for the teachers during second period. The **Future Homemakers** will supervise classes while the teachers have coffee. That night, the girls will prepare a southern supper and invite their mothers to attend.

Friday is "Courtesy Day."

THERE ARE 600,000 members of **Future Homemakers of America** in 12,000 local high school chapters.

Cats fourth at Hereford

Dimmitt High School's track stars won three events and placed in three others Saturday to capture fourth place in the big Hereford Invitational Track Meet. **"OVERALL, this is the best** any Dimmitt team has done in any track meet since I've been

here," Bobcat Coach Roy Blair said. David Nino, Jerry Matthews and Richard Davila were the biggest point collectors for Dimmitt, while Daniel Frierson, Joseph Finch and Brent Sanders also helped build the Bobcats' team point total.

Vega won the meet with 120 points, followed by Friona with 73, Amarillo High School Junior Varsity with 63 and Dimmitt with 62. A dozen teams braved the dust and 35-mph winds to compete in the meet's A-AA division. **DAVILA ran away from a** big field of contestants in the 440-yard dash, finishing 10 yards ahead of his closest competitor to win the event with a time of 54.4 seconds. A headwind on the stretch slowed all the runners.

Matthews, in his second contest of the season, won the blue ribbon in the 880-yard run with a time of 2:07, two seconds faster than his season opener the previous week.

Dimmitt's biggest victory was in the mile relay, with Matthews, Frierson, Davila and Nino each running a 440-yard leg. The team captured first place with a fine early-season time of 3:37.9, shaving six seconds off their previous week's clocking in the Abernethy Relays.

THE BOBCATS' 440-yard sprint relay team of Frierson, Nino, Finch and Davila finished third with a time of 46.7 seconds.

In the gruelling mile run, Sanders kicked home in third place with a time of 5:09.

Nino was the only Bobcat to place in a field event, finishing fourth in the high jump with a leap of 5 ft., 10 in.

FINCH qualified for the finals in the 100 and 220-yard dashes but finished out of the money in the final heats.

Frank Rodriguez and David Matthews was winning the event, Schaeffer qualified for the final heat of the 880-yard run. While Rodriguez finished ninth and Schaeffer 12th in the 20-man race.

Can you pass this food test?

Do you know if these statements about foods are true or false? Older people need less protein than young adults.

Fried foods are difficult to digest.

Whole grain breads are more nutritious than enriched white breads.

Butter has more calories than margarine.

Toast has fewer calories than bread.

THEY ARE all false, says Miss Sally Springer, Extension foods and nutrition specialist at Texas A&M University. And here are the reasons:

Our body's requirements for protein continue throughout life, so an older person needs the same amount as a young adult of the same body size.

Digestion of fried foods is as complete as that of other foods, but fat takes longer to digest than carbohydrates or proteins. Because fat coats food when fried, it remains in the stomach for a longer period of time.

ENRICHED white breads are just as nutritious as whole grain breads. Be sure to watch labels for the word "enriched", as un-enriched white breads have less vitamins B and iron.

One hundred calories—that's the amount both butter and margarine contain. The price is different, but the caloric content is the same.

A slice of bread loses moisture when toasted, making toast lighter in weight than bread. But the number of calories in a slice of bread does not change with toasting.
