ROOSEVELT COUNTY FAIR A GREAT SUCCESS

WILL PUT ROOSEVELT COUNTY ON THE MAP AT DALLAS FAIR

C. S. Turner left Sunday morning for Dallas, Texas, to arrange for the Roosevelt county agricultural exhibit which will be placed at the Dallas Fair in connection with the Curry county exhibit.

Mr. Turner is a thorough booster for Roosevelt county and you can depend on the Roosevelt county products being well displayed. This display will open the eyes of the people of other states as to the agricultural possibilities of Roosevelt county, and will bring many prospectors to this part of the state.

PORTALES SQUARE WILL BE PAVED

On last Thursday evening after the Portales Valley News had gone to press the councilmen of the town of Portales met and ordered the square and a block in each direction leading therefrom paved.

Portales has become a city of progress and is now doing things. With the paving of the square, others will fall in line and ere many moons we hope to report that several streets will be paved from the square to the edge of town.

IN WORLD SERIES YANKEES WIN FIRST GAME BY 3 TO 0

NEW YORK, Oct. 5.—Carl Mays, with one of his masterful exhibitions of box work, pitched the Yankees to a well-earned victory over the Giants in the first of the 1921 World Series at the Polo Grounds today. The blond American league twirler of the underhand delivery held the National leaguers runless, the final score being New York Americans 3; New York Nationals 0.

It was not without some fine fielding behind Mays, some pretty work with the stick and clever running on the bases that the Yankees were able to get the jump in the first all-New York series ever played for world baseball honors. Babe Ruth, king of the long distance clouters, although he didn't make any home-runs, was there with a timely hit and some inspiring and heady coaching on the lines. Mike McNally, the Yankee's third baseman, rated as one of their weakest hitters, contributed a double, which blossomed into a run and jumped into a niche in the world series hal of fame by tearing off a neat steal of home in the fifth inning for the second run of the game.

The Yankee victory was won against a determined Giant defense, the sterling feature of which was a well-pitched game by Phil Douglas, the National's spit ball star. Douglas had the slugging Ruth at his mercy after the fourth inning, striking the Babe out twice amid roars of approval from Giant rosters.

Douglas left the game in the eighth inning when Earl Smith, pinch hitter, went to bat for him and flied out to Ruth. Barnes pitched the ninth inning for the Giants and was clouted for two hits.

Courtesy of Amarillo News. AMARILLO, Texas, Oct. 6, 1:50 p. m.—In the second game being played today, at the beginning of the eighth inning, the score stood 1 to 0 in favor of the Yankees.

STUDENTS EXPELLED ON HAZING CHARGE

Georgetown, Texas, Oct. 4.—One student was expelled and another suspended indefinitely yesterday as a result of their alleged procession in a hazing party recently at the Southwestern University here.

The hazing is alleged to have been in the form of a severe strapping of several freshmen.

1921 ONIONS FIND READY MARKET

The Portales Valley News has been informed that the Debia onion crop of the Portales Valley has found a ready market this year; one wholesale grocery house having contracted for the entire output, f. o. b. Portales.

MARCOS C. DE BACA, POLITICAL LEADER IN SANDOVAL, IS DEAD

Marcos C. De Baca, for years a political leader in Sandoval county, first as a Progressive Republican and later as a Democrat, holder of many public offices and one of the best known and most highly respected citizens of New Mexico, died Thursday, Sept. 29, at 5:30 p. m., at the residence of his niece, Mrs. A. A. Sedillo, in Albuquerque. The funeral services were held in Bernalillo, Monday, at 9 a. m.

CHAVES LIVESTOCK MEN HOLDING CATTLE

ROSWELL, N. M., Oct. 4.—Chaves county livestock men are looking for better prices next spring and as a consequence are making plans to hold their stock until that time. Very few cattle or sheep from this section of the state are going to be put on the market this year.

WONDERFUL RESOURCES OF EASTERN NEW MEXICO DISPLAYED—GOOD CROWD

While the Roosevelt County Fair was not as large as it should have been, it was a wonderful display, and the resources of the county were greater than even the old timers realized.

As protection from the weather, the display was held in the two sheet iron buildings on Colorado street.

In the building known as the Armory building the dry farm exhibit was held. To the right on entering this building was the Richland community display. This was one of the best agricultural displays ever held in Roosevelt county. It proved beyond a doubt that Richland is a rich farming country, and from the grade of products land in this community should be worth \$50 per acre. A. B. Cares deserves much credit for the success of this exhibit—in fact, the greater part was his individual display. J. W. Stigall also expended considerable effort in gathering and displaying this.

Next to Richland was the Rogers community exhibit. This was also an eye-opener as to the resources from that community. Rogers is one of the oldest settlements in the county, and is settled with prosperous farmers, who make farming pay. This exhibit covered a wide range, and we are not able to go into minute detail. It was not only a display of farm products, but of the kitchen and flower gardens. Rogers carried home the second banner on this exhibit, and a good portion of it went to the Dallas Fair to show the Texas "long-horns" where to come for their grain and garden sassa.

Following was the Fairfield community and school joint exhibit. In another place we have gone into details in regard to this exhibit, which captured so many blue ribbons.

Next on this side was the Red Cross Rest Room and Health Booth. Here the Red Cross ladies gave out literature of various subjects treating on disease prevention, and here they also weighed and charted the children, showing development of same. This was a good exhibit, and the ladies worked faithfully to make it the success which it was.

Across from the Red Cross booth the Portales Valley News maintained a booth for registration of Fair visitors, and a small exhibit of printing, giving out a number of sample papers to the visitors. This booth is indebted to L. B. Tucker for a beautiful bouquet of flowers. Mr. Tucker is a natural florist, and had he entered for the floral display, would have doubtless have carried off the blue ribbon. He also furnished the flowers for the decoration of the Red Cross booth.

On this side of the building next to the News booth was the display from the Red Lake school district. This was composed mostly of individual exhibits, which captured a number of blue ribbons, and also the Rural School banner. This display did not show up as well as those which had received more care in the arrangements of the booth, but every exhibit was good and a number went from here to Dallas.

Next was the Redland or Emery displays. This contained some of the best farm products in the county, and the individual display of Mrs. Stirman, was good.

(Continued on Page 8)

Klan Condemned By 7 Judges of Texas Districts

DALLAS, Texas, Oct. 4.—The Ku Klux Klan and similar secret organizations were condemned in grand jury charges delivered by seven district judges of Texas yesterday, who ordered sweeping investigations of activities of masked bands. Judges at San Antonio and Cameron issued orders against parades by masked men. Judge James R. Hamilton of Austin was especially bitter in his denunciation of the Klan. He declared that more than fifty persons had been whipped or tarred and feathered in Texas in the last six months and that numerous persons had received threatening communications. He called attention to that section of the state penal code which prohibits white capping.

OFFICIAL RETURNS FOR STATE IN SENATORIAL—AMENDMENTS

For United States Senator:—
Holm O. Bursum 36,634
Richard H. Hanna 81,259
Thomas S. Smith 681
Apolonio A. Sena 2,908

Amendments:—
Number 1 For 28,471; Against 19,175
Number 2 For 25,821; Against 18,110
Number 3 For 16,485; Against 24,755
Number 4 For 23,953; Against 22,887
Number 5 For 16,728; Against 23,353
Number 6 For 18,678; Against 21,279
Number 7 For 14,644; Against 26,145
Number 8 For 12,568; Against 36,441
Number 9 For 16,398; Against 22,425
Number 10 For 17,699; Against 22,279
Number 11 For 28,990; Against 21,139

Amendments No. 1, 2, 4, and 11 carried.

HALF A MILLION FOUND ON ROADSIDE

Tuesday, while driving on the highway in the neighborhood of Delphos, G. W. Wood of Portales, found a black hand satchel on the roadside. He picked same up and brought it home with him. On making examination of the satchel it was discovered to contain valuable papers involving property to the extent of half a million dollars.

The satchel was the property of Joe Lee Ferguson of Hale Center, Texas. Mr. Ferguson was in town making inquiry for the satchel when Mr. Wood turned it over to him. To say that he was pleased in recovering his property would put it rather mild. While of no value to any one else, it was of considerable importance to the owner.

ROGERS FLORAL EXHIBIT

The floral exhibit of Mrs. Henry Holland of Rogers was a credit to Mrs. Holland as a florist, and speaks well of the Rogers country as a country of beauty. This exhibit would have been a credit to any section—dry or irrigated.

BLACK WALNUTS GROW IN ROOSEVELT COUNTY

An exhibit which attracted much attention at the Roosevelt County Fair was the exhibit of black walnuts, grown by W. H. Beck of Portales, and which were on exhibition at the Portales Valley News booth.

FAIRFIELD TAKES EIGHTEEN PREMIUMS

The Fairfield Consolidated school exhibit took 13 blue ribbons, 4 red ribbons and the Consolidated school banner for having the best consolidated school exhibit in the county.

This exhibit was a work of art. An immense liberty bell made of kafir heads was hung in the booth and the agricultural and general exhibit covered the widest range. The school exhibit contained some wonderful work by the primary grade, among which was a colonial kitchen made of logs-Indian wigwams, etc., needlework by the older pupils, and some excellent exhibits in the culinary department. This exhibit contained some good exhibits of an antique nature.

NOTICE!

Should anyone who subscribed for the Portales Valley News during the Fair, fail to receive their paper, please notify this office, as it is possible that in the rush, a name or so may be overlooked. Portales Valley News.

COUNT OF STRIKE BALLOTS CAST BY RAIL UNIONS MEMBERS STARTED IN CHICAGO TUESDAY

GENERAL WALKOUT OF MORE THAN 800,000 IN PROTEST AGAINST THE RECENT REDUCTION ORDERED BY THE LABOR BOARD MAY FOLLOW; COUNT WON'T BE COMPLETED BEFORE END OF WEEK.

"The kind of a young man I would like to marry." Letters by Portales young ladies, 7:00 p. m. at Christian church. Ite

CHICAGO, Oct. 5.—Counting of the strike ballots of 29,000 members of four railroad unions began here today with the possibility of a general strike by more than 800,000 railway men in protest against the 12 per cent wage reduction recently ordered by the railroad labor board depending somewhat on the result of the tabulation of these votes.

Union leaders began arriving tonight in preparation of the count of ballots cast by active members of the Brotherhood of Locomotive Engineers, the Order of Railway Conductors, the Brotherhood of Locomotive Firemen and Enginemen, and the Switchmen's Union of North America. It is believed that the county will not be completed before the end of the week.

Two other railway organizations the shop crafts and the trainmen, already have voted overwhelmingly in favor of a strike rather than accept the wage reduction but their leaders have announced that there would be no walkout unless the other organizations joined in the strike.

ROOSEVELT COUNTY SCHOOLS MAKE GOOD SHOWING

School day at the Roosevelt County Fair was a decided success. The schools of the county were very well represented, but owing to the delay in the opening of several of the schools they were not represented.

At 11 o'clock the parade started from the school building, led by the Portales Concert Band and the Portales High School Band. The hands were on a float drawn by a number of donkeys. A donkey colt was on the float as a mascot.

Second in the parade was the Red Cross float, representing the Red Cross work. It contained a cot on which was a disabled soldier in the care of a Red Cross Nurse, orphan children represented by a little girl, and a soldier on crutches standing on the float.

Next was the kindergarten department of the Portales school, followed by the first and second grades. Next was the grades which were followed by the Portales High school which was led by the freshman class with a decorated truck trimmed in the freshmen colors of green and white. The Freshmen marched behind, each wearing a green skull cap and carrying a cane with green and white ribbons streaming therefrom. The Sophomores and Juniors marched in line each with their class colors. The

football boys followed in uniform. After the Delphos district truck came the Seniors in all their dignity in their decorated truck.

The Fairfield school followed with a truck decorated in kafir and maize heads, bearing the inscription of Class of 1922. There was a full turn out from this school consisting of several trucks and cars.

The Floyd schools followed with six trucks decorated in the colors of the school, pink and white. Each truck was filled with bright faced children who came determined to represent their district well.

Next in line was the pupils of East Valley View marching and following these were the Pleasant Valley pupils in full strength. Last in line were the pupils of Oklahoma district.

The different schools gave their school yells all along the line of parade, and visitors were impressed with the enthusiasm shown by the pupils of the different districts.

The Kentucky Valley trucks had ear trouble at Elida and failed to get here in time for the parade.

The Senior truck of the Portales High school received 1st prize on decorations and Floyd truck No. 6, second prize. Red Cross float received 1st prize and Band float 2nd prize.

RODEO DRAWS BIG CROWD

The Rodeo held on the second day of the Roosevelt county Fair drew a good crowd, and the promoter, Milton Kornegay, reports that he is pleased with the outcome of the event. There seems to be an error on the part of a number of people as to this event. It was not promoted by the Fair Association, but was the same as any other concession, which the committee turned over to Mr. Kornegay to promote at his own expense, and admission was charged the same as the public dance at the band hall, which was under the management of the Portales Concert Band. Both of these events, while for the amusement of the Fair visitors, were under different management the same as any side show or refreshment booth, which are usually found on these occasions.

Following are the premiums awarded in the above events:

Roping
Hollis Tyson, Ft. Sumner, 1st prize, \$100.00.
Bob Crosby, Kenna, 2nd prize, \$25.00.

E. M. Kornegay, 3rd prize, \$15.
Riding Contest
Loomis Bloodworth, 1st prize.
Bob Crosby, 2nd prize.

Match Roping
In this contest the three contestants put up a purse of \$25.00, each, the winner taking all.

The three entries in this contest were "Blackie" Degraftenreid, of Melrose, Bob Crosby of Kenna, and Hollis Tyson, of Ft. Sumner. Degraftenreid won this event.

WORK OF THE BIOLOGICAL SURVEY

The Bureau of Biological Survey, working in co-operation with the Extension Service recently completed concentration work in prairie dog eradication in townships 3, 36 and 3, 37, Roosevelt county. This work was arranged for and contracts signed between the survey and the individual farmers in the latter part of August. The work continued throughout the month of September, being hampered several times by rains. All range land in this area was treated, the total being 13,360 acres. It is estimated that 760 acres of crops were protected from damage by the treatment. The results were satisfactory, especially during the beginning of the operation period when in places it was estimated that between 85 and 90 per cent of the dogs were destroyed.

Besides the concentrated work in these two townships, poison materials for more than 3,000 acres of infested lands in various parts of the county was dispensed and according to workers of the Biological Survey the people of Roosevelt county have shown more of the spirit of cooperation in the fighting of rodents than of any other county. The September operation of the Survey closes its concentrated work for the year with the intention of resuming work on a larger scale in the spring.

Poison materials are still available and will be continuously throughout the winter at the County Agent's office. If at any time the office is closed leave a request with the County Clerk. Although the Survey has closed concentrated operations for the time being, all land owners having infested land are urged to fight the prairie dogs.

MAKE YOUR WANTS KNOWN

Sept. 30, 1921.
My Dear Editor:—
The Department of Agriculture has allotted to me for distribution in New Mexico, early next spring a generous supply of vegetable and flower seeds, and I will be glad to honor all requests so far as my quota will permit. If you will kindly give this publicity the courtesy will be appreciated.

Very truly yours,
ANDRIEUS A. JONES,
U. S. S.

Now is a good time to subscribe for the News. Only \$1.50 a year.

WANTS ROOSEVELT COUNTY REPRESENTED

Denison, Texas, Sept. 30, 1921.

Portales Valley News, Portales, N. M.
Dear Sirs:—I notice in the Valley News that Roosevelt county is to have a fair and that you have excellent products this year to exhibit. Why not make an exhibit of Roosevelt county products at the Texas State Fair this year? That would go a long ways in putting the county on the map as thousands would view them every day while the Fair lasted. Union county, New Mexico, had an exhibit of all kinds of produce at the Texas State Fair last year, and it attracted a great deal of attention. I heard a lot of men making inquiries about the country from the man that was in charge of the exhibit and one man stated that he was going there and that he could take six others with him to look over the country. I am sure that Roosevelt county can put on as good if not better exhibition of produce as any other county in New Mexico or anywhere else as far as to that.

Hoping your paper the best of prosperity and also hoping to see some Roosevelt county produce at the State Fair at Dallas, Texas, this year, I am,
Respectfully,
JOHN O. FORD.

NEW MEXICO WEEKLY INDUSTRIAL REVIEW

Clovis—248 cars of wheat and 217 cars of corn and maize have been shipped from here this season.

Santa Fe—Eight contracts totaling 107 miles of rock and gravel surface roads have been let at a cost of \$462,573.

Portales—Over 7,000 acres in Roosevelt will be planted in wheat this fall.

Sunshine Valley—New irrigation project is under way to water 30,000 acres in this Valley.

The News is only \$1.50 a year.

INFORMATION FROM BUREAU OF INTERNAL REVENUE

Recently numerous inquiries concerning home manufacture of fruit juices and the law and regulations governing such manufacture have reached the Bureau of Internal Revenue. For the information of the public on this subject, as well as to the production in the home of malt liquor or so-called "home brew", the following news item is issued by the Prohibition Unit:

Non-intoxicating fruit juices can be made in the home. Intoxicating wine, home brew, and distilled spirits may not be made.

Two hundred gallons of non-intoxicating fruit juices may be manufactured tax free by head of family by registering with Collector of Internal Revenue.

This tax exemption provision has been the source of confusion. The effect of this is not to allow the manufacture of 200 gallons of intoxicating wine free from res-

trictions of National Prohibition Act, but merely to allow the manufacture of 200 gallons of non-intoxicating fruit juices free of tax.

Section 1 of Title II of the National Prohibition Act in effect defines the term intoxicating liquors as meaning all alcohol, brandy, whiskey, rum, gin, beer, ale, porter, and wine, regardless of alcoholic content, and all other liquors fit for beverage purposes, containing one-half of one per centum or more of alcohol by volume. Section 3 of said Title provides that: "No person shall on or after the date when the eighteenth amendment to the Constitution of the United States goes into effect (January 17, 1920), manufacture, sell, barter, transport, import, export, deliver, furnish or possess any intoxicating liquor except as authorized in this act, and all the provisions of this act shall be liberally construed to the end that the use of intoxicating liquor as a beverage may be prevented." The same section provides in part that: "Liquor for non-beverage purposes and wine for sacramental purposes may be manufactured, purchased, sold, bartered, transported, imported, exported, delivered and possessed, but only as herein provided, and the commissioner may, upon application, issue permits therefor." Section 29 of said Title, imposing penalties for violations of the Act provides in part as follows:

"The penalties provided in this Act against the manufacture of liquor without a permit shall not apply to a person for manufacturing non-intoxicating cider and fruit juices exclusively for use in his home but such cider and fruit juices shall not be sold or delivered except to persons having permits to manufacture vinegar."

In view of the foregoing provisions of law, on June 3, 1920, Prohibition Mimeograph No. 84 was issued authorizing persons to manufacture non-intoxicating cider and other fruit juices exclusively for use in the home without permit, and providing that such non-intoxicating cider and fruit juices are not necessarily limited to less than one-half of one per cent of alcohol by volume, but must be intoxicating in fact to be in violation of the National Prohibition Act.

Such non-intoxicating fruit juices may be made at home from

home grown fruit, or from fruit purchased for the purpose, or one may take fruit belonging to him to a commercial mill to have the juice expressed therefrom, provided the juice is removed to the home of the owner before it contains as much as one-half of one per cent of alcohol by volume. The possessor of fruit juices in the home such as cider thus made is at liberty to convert same into vinegar for home use or to sell same by permittees for conversion into vinegar.

Under the Revenue Act of 1918 fruit juices, other than apple cider, containing one-half of one per cent or more of alcohol by volume are taxed as wine. The same Act exempts from tax 200 gallons of wine per annum manufactured by the head of a family provided he registers with the Collector of Internal Revenue for the district in the manner indicated by Treasury Decision 2765, but no exemption from tax is allowed unless the producer is so registered with the Collector of Internal Revenue and a permit is not issued by this office, or any officer of the Government, for the purpose, none being required. It is apparently this tax-exemption provision which has been the principal source of the confusion which has arisen. It has seemingly been supposed that the effect of the provision is to allow the production of 200 gallons of intoxicating wine for use in the home free from the restrictions imposed by the National Prohibition Act. The provision has no such effect. It relates to taxation solely and does not affect the restrictions imposed by the national prohibition act. Under the provisions of the latter act the 200 gallons of fruit juice which may be produced without payment of tax must, like any further quantity produced for home use without a permit, be non-intoxicating.

There is no legislative provision anywhere for manufacturing either intoxicating wine, cereal, beverages so-called home brew, or distilled spirits in the home or elsewhere for beverage purposes.

Concerning the activities of persons supplying material and equipment for the production of liquor in the home, reference is made to section 18 of Title II of the National Prohibition Act which reads as follows:

"It shall be unlawful to advertise, manufacture, sell, or possess for sale any utensil, contrivance, machine, preparation, compound, tablet substance, formula, direction, or recipe advertised, designed, or intended for use in the unlawful manufacture of intoxicating liquor."

Under this section it is illegal to furnish stills, parts of stills, worms or coils, malt extract or syrups, unfermented fruit juices, such as grape must or any fermentable material, recipes or formulas for the manufacture of liquor for use in the home or elsewhere for beverage purposes.

FACTORY OUTPUT VALUES TREBBLED WITHIN 10 YEARS

Total of Manufactured Products in 1920. Worth Sixty-Three Billion.

WASHINGTON, Oct. 5.—Totaling almost \$63,000,000,000 the value of the products of the national manufacturing concerns in 1920 were three times as great as they were in 1910 and five and a half times what they were in 1900, according to the census bureau's announcement today of results of last year's manufacturer's census.

There was an average of 9,103,200 wage earners employed last year in the 239,768 manufacturing establishments of the country whose capitalization totalled \$44,678,911,000 and whose products were valued at \$62,910,202,000.

Thirteen states manufactured products with a total value of more than one billion dollars. New York leads all states with more than one-eighth of the country's total her manufactures being valued at \$8,875,007,000, and wage earners numbering 1,229,900.

Pennsylvania ranks second with products valued at \$7,312,333,000 and 1,137,100 wage earners. Illinois is third with \$5,874,007,000 and 653,000 wage earners.

California which held eleventh place ten years ago, has moved up to eighth place, with manufacturing products valued at \$1,981,410,000 and 243,800 wage earners and Texas occupies fourteenth place with \$990,596,000 and 107,700 wage earners.

KU KLUX PROBE IS ENDORSED BY U. S. ATTORNEY GENERAL

WASHINGTON, Oct. 4.—Endorsement of the suggested congressional investigation of the Ku Klux Klan, was given today by Attorney General Daugherty, who declared that such action ought to clear up the whole situation. The attorney general said the Department of Justice would turn over to the investigating committee, if one was created, all information it has gathered concerning the organization. The department will be represented at the hearings if any are held, he added.

BOOZE IS SOLD TO BOYS, IS CHARGE

ROSWELL, N. M., Oct. 4.—J. W. Rueks, charged here with a violation of the national prohibition law, has been arrested by federal officers in Albuquerque, and Deputy Sheriff Carroll Holland has gone to the Duke City to bring him back here. It is alleged that Rueks transported liquor from El Paso and sold it to school boys in this city.

FATTY TO BE ARRESTED ON BOOZE CHARGE

Alleged Affidavit Published by Purported Whiskey Runner.

SAN FRANCISCO, Oct. 5.—The alleged source of part of the liquor that was delivered to the suite of Roscoe C. Arbuckle in the Hotel St. Francis during a party at which Virginia Rappe is alleged to have received injuries causing her death, was disclosed here today in an affidavit published in the San Francisco Bulletin. At the same time it was announced by Robert F. McCormack, assistant United States attorney general, in charge of the prohibition prosecutions, that arrangements have been completed to arrest Arbuckle for alleged violations of the prohibition law when he arrives here tomorrow.

The alleged affidavit was made by Jack Lawrence who said he was a "whiskey runner." Lawrence, in the alleged affidavit declared:

"On Saturday, September 3, I delivered four bottles of whiskey at the St. Francis and on Monday, the fifth, I delivered 12 more bottles."

McCormack also announced two others will be arrested with Arbuckle.

HUSBAND IS MASTER IN HIS OWN HOUSE, IS RULING OF COURT

LANSING, Mich., Oct. 3.—The Michigan Supreme court laid down the rule that a husband is master of his own home and is guilty of law violation if his wife with his knowledge, transacts illegal business in his home.

The decision was given in affirming a lower court verdict convicting John Sydisloo of violating the prohibition law. Testimony was introduced at the trial to show his wife purchased a still, installed it in the basement of the home and sold liquor.

TAKE A STORAGE TIP FROM NATURE

Centuries ago Nature stored heat-making qualities in the coal seams of America for the use of the American public today. She did not wait until this heat was needed; she stored it up against the hour of that need.

Wise householders follow her example and store their winter's coal early. Transportation from the mine to the bin functions better today than it can when cold weather comes.

Take a storage tip from nature—Phone us today.

BALLOW & JOHNSON

COURT SAYS "IMMUNE" HOGS MUST NOT TAKE CHOLERA

A recent issue of the American Journal of Veterinary Medicine states that a Nebraska breeder of purebred hogs advertised for sale at public auction, hogs immunized by the double treatment. A man who had lost practically all his hogs from cholera, and who knew his pens were infected, bought six brood sows at this sale, and relying on the vaccination as a warranty against cholera, turned them into his infected pens. All six sows promptly died of cholera.

The purchaser sued the breeder for the cost of the sows. A jury was waived and the case tried on its merits. The judge held that the defendant must pay, since it was shown that hog cholera can be prevented by a proper "double treatment" and therefore advertising as "immunized by double treatment" presupposes a warranty against cholera.

So far as we know, this is the first case of the kind to be tried in any court, says the extension veterinarian of the Agricultural College. The decision is a just and reasonable construction to put upon the statement "immunized by double treatment." However, the decision was received with astonishment by breeders, and by the farm press. It places squarely upon the owner the responsibility for seeing that anti-hog cholera vaccination is properly done, with an adequate amount of potent serum and virus. Otherwise, he must sell his hogs as being susceptible to cholera and the buyer will know what measure he must take for his own protection. It is a powerful argument against vaccination by any but qualified veterinarians, and the use of any but serum of unquestioned standard.

400 BALES COTTON ARE GINNED AT POST

POST, Texas, Oct. 4.—Cotton is selling here for 21c and seed is bringing \$31. There have been approximately 400 bales ginned.

New Economy in "Home-Baking"

New economy and new satisfaction have been made possible by producing Dr. Price's Baking Powder with Phosphate instead of Cream of Tartar and selling it at 25c. for a large-size 12-oz. can. Think of it!

Dr. PRICE'S PHOSPHATE Baking Powder 25c

For a large size can, 12 oz.

Dr. Price's Phosphate Baking Powder is the most wholesome low priced baking powder obtainable. It contains no alum and is made in the same Dr. Price Factories that have been famous for the quality of their products for nearly 70 years.

FUDGE SQUARES

3 tablespoons shortening	¼ cup milk
1 cup sugar	1 cup flour
1 egg	1 teaspoon Dr. Price's Baking Powder
2 ounces unsweetened chocolate	½ cup nut meats chopped—not too fine
½ teaspoon vanilla extract	

Melt shortening; add sugar and unbeaten egg; mix well; add chocolate which has been melted; vanilla and milk; add flour which has been sifted with the baking powder; add nut meats and mix well. Spread very thinly on greased shallow cake pan, and bake in slow oven from 20 to 30 minutes. Cut into 2-inch squares while still warm and before removing, from pan.

New Dr. Price Cook Book Free

This Cook Book is the latest authority on all that is best in home-baking and contains over 400 delightful, dependable recipes. Do not miss the opportunity to get your copy of this helpful book free.

DEMOCRATIC IN POLITICS

BANKING SYSTEM STRONGER.

Patriotic service of the country in time of war has made the American Banking system popular with the people.

There is not a week or day or a hour that the country bankers are not called upon to render such service.

There is no place of business where so many people call for advice in matters of everyday business as at the home bank.

Matters in regard to loans, investments, insurance, building or changes in business are discussed over the bank counters.

It is all a part of the day's work with the banks in our cities and country towns to serve their customers in this way.

It goes in with the other service the bank renders of taking deposits, making loans and selling exchange.

THE LESSON OF EMMA GOLDMAN

Reports from Russia convey the intelligence that Emma Goldman is faring badly in that paradise of red radicalism. Emma, the goddess of social revolution and anarchy, has had enough of Russia, and would give anything to be back again under the protection of the stars and stripes.

It is a curious fact, that the American flag looks better to malcontents the farther away they get from its sheltering folds. Even to those who have the highest regard and love for it at home, the flag gains an added significance in the remote parts of the earth. But how dear it must seem amid the wild disorders and dangers of Russia. How soon is the lesson learned, that true liberty does not mean license and that a country without law and order is no better than hell upon earth!

To build a town or community, it is necessary for the people of the town or community to be really big. They must overlook the efforts of the knocker, and build for the future. It is true that your efforts to build and develop will bring prosperity and profit to the knocker, but if you will continue to forge ahead, you will soon leave him far behind, till his name will only be an echo of the past. Roosevelt county has a few knockers, but if you will do your part, they will be choked out by the dust of progress, so get into the collar and pull for better conditions, educationally, agriculturally and in a business way.

In discussion of the school building location, it has been cited that the main objection to the ball park as a school site, is that the sewer does not reach that part of town. This brings to mind a house hunting campaign by the writer in which sewer connection played an important part. The present sewer system is a joke, as far as it serving the town goes, and an extension of the line in the residential section of the town should be made. The people are entitled to it. Health of every citizen of the town demands it, and any citizen with a grain of civic pride will jump at the chance to connect with it.

Bring the kiddies — Rally, Christian church. 1tc

Three Great Events

The principal events in a man's or woman's life are but three—and in some cases only two. The first is birth, the second is marriage and the third is death. These are the great adventures of life.

These events are all chronicled in the home town paper—in the birth notices, the marriage notices and the death notices.

In between these notices, are the thousand little items of everyday life of the people you know—your own people and friends.

Not the happenings of persons so-called "famous" but your own people—the news items of the home town paper.

No place else can these news items be obtained and every town and city dweller should have the home town paper.

"Subscribe for Your Home Town Paper Week" gives you the opportunity to do this or if already a subscriber, to renew your subscription.

The harvesting of the onion crop has been under full blast for the past week. A. G. Kenyon has again stored his onion crop in the Faggard building on Main street, and he is now preparing them for market.

NOTICE TO RICHLAND AND ROGERS PEOPLE

Mr. John Fields, editor of the Oklahoma Farmer and C. A. McNabb, agent in marketing, will be at Richland Thursday, October 13th, at 2:00 p. m., and at Rogers the same date in the evening at 8:00 p. m.

At these meetings will be discussed the general depressed condition of the farming interests and his markets. At Rogers a short moving picture program will also be given.

CHAVES COURT WILL OPEN NOVEMBER 7

ROSWELL, N. M., Oct. 5.—Chaves county district court opens in this city on Monday, Nov. 7, with an extra heavy docket to be disposed of by Judge Charles R. Brice. Two murder trials lead the criminal docket and the list of civil cases to be tried by juries is larger than it has been for years past.

WITH THE CHURCHES

METHODIST CHURCH

Sunday school at 10 a. m. Rev. Carter will preach at 11 o'clock. Choir practice Tuesday 7 p. m. Prayer meeting Wednesday at 7 p. m. Methodist conference at Artesia New Mexico, November 5th. VADA DAVIS, Pastor.

BAPTIST CHURCH

Last Sunday was a good day for us in every way. Sunday school was fine with good attendance. The 11 o'clock preaching service was well attended. All the afternoon meetings did well. Sr. B. Y. P. U. had one of their best meetings. A full house for the preaching and baptizing services at the evening hour. We are glad to see so many come to our services. The young people come in large numbers and give the best of attention. Come with us next Sunday. J. F. NIX, Pastor.

PENTECOSTAL CHURCH

The Sunday morning services were well attended and very much enjoyed by all. Our Elder, Bro. Carter, brought to us a wonderful message from St. John 3:16. He went back to the beginning and showed up the love of our Great God. How man had failed and the state of man at the time when Christ was born. Truly the love of God is so great that all men ought to love God. To love God is to love one another.

God help us as His people to manifest His love. That is what the world is dying for. Remember our regular services. Preaching at 11 a. m. and 7 p. m. Prayer meeting Thursday at 7 p. m.

A. C. BATES, Pastor.

CHRISTIAN CHURCH

Those attending Bible school regularly are showing much interest in the work and by the way do you know that no one is ever interested in something of which he knows nothing! Come to the Bible school, get busy, get the habit, learn something of the work and before you realize it you will be interested and working.

Next Lord's Day is Rally Day, a special program is being prepared and we are asking everyone not affiliated with some other school to come and help us fill the house.

Must we tell you again you are missing something worth while when you absent yourselves from the preaching services? You are missing some splendid sermons and some fine special music. The solos last Sunday were beautiful. Evening services begin promptly at 7 o'clock.

A GREAT DAY

Rally—Ideals

The Christian church (Church of Christ) is planning a great day for next Lord's Day. On the stroke of ten, the Bible school begins a Rally day program, consisting of recitations, singing, and speaking by two of the prominent citizens of Portales, and by one from Clovis. These are all to be short, snappy talks. It is the aim of the school to have an overflow crowd in attendance. It is our sincere advice that you come BEFORE ten o'clock to secure a seat. You would be keenly disappointed to come too late to gain entrance, and you'll miss it if you miss it.

Several young ladies of this community have promised to write a letter each to the minister, telling the "Kind of a young man I would like to marry." These letters will be read at the evening service which begins now at 7:00 (not 7:30). Promptly at 7:00 p. m. we expect to have special music. Spend the day with us. Cordially yours, NORRIS J. REASONER, Minister.

PENTECOSTAL CHURCH

Sunday school at 10 a. m. Preaching 11 a. m. Prayer meeting Thursday at 8 p. m. You are always welcome to come and worship with us. A. C. BATES, Pastor.

Nazarene Church

Preaching at 11 a. m. and 7 p. m. Sunday School at 10 a. m. Young People's Society at 6:15 p. m. Everybody invited to come and worship with us. A. K. SCOTT, Pastor.

ROGERS CIRCUIT

Rogers, July 4th Sunday. Floyd, August, 1st Sunday. Causey, 3rd Sunday. Inez September 1st Sunday. Shady Grove, September 3rd Sunday.

Rev. W. G. Fondren, P. C., Rogers, N. Mex.

MICKIE SAYS—

A. S. Bramlett, making cross arms... 1.40
There being no further business the council adjourned.
G. L. REESE, Mayor.
S. N. Hancock, Town Clerk.

Portales, New Mexico, September 23, 1921.
7:00 O'clock P. M.

The Town Council met in called session and upon roll call the following were present: Mayor G. L. Reese, Trustees C. J. Whitcomb and Wat Stewart.

Motion was made by Stewart and seconded by Whitcomb that Mayor and Town Clerk certify to levy on taxable property of town of Portales to the Board of County Commissioners as follows: To the Honorable Board of County Commissioners of Roosevelt County, New Mexico—

The Town of Portales, New Mexico, through its Board of Trustees hereby certifies that the following rate for assessment upon the taxable property within the said town have been made by the said Town of Portales, for the year Nineteen Twenty-one (1921) as follows, to-wit:

To pay interest on bonds for water, sewer, lights and improvements, Ten (10) Mills.
For general expense of City

Government, Five (5) Mills.
To create a sinking fund to pay water, light and sewer bonds.
To repair well and water mains, Five (5) Mills.
One (1) Mill.
Is hereby levied upon the taxable property within the corporate limits of said town of Portales, N. M.

And a special sewer tax is hereby levied as provided in Ordinance No. 49 of the Town of Portales for the purpose of defraying the expenses of maintaining and operating and keeping in repair the sewer system of said town, an assessment as follows, to-wit:

Ten Cents per front foot upon improved lots and lands, and Three Cents per front foot upon unimproved lots and lands, adjoining streets and alleys through which sewer pipes are laid; and Ten Cents per front foot upon improved lots and lands otherwise situated but having sewer connections for the purpose of defraying expenses of maintaining, operating and keeping in repair the sewer system of said town.

There being no further business the council adjourned.
G. L. REESE, Mayor.
S. N. Hancock, Town Clerk.

LOCAL PERSONALS

James R. Roberts of Elida was a Fair visitor Tuesday.

D. A. Woolverton returned from Abilene, Texas, Monday.

L. E. Wilks, of Emzy, was a Fair visitor Tuesday.

Prof. and Mrs. Clyde of Elida were Fair visitors Tuesday.

Editor McCowen of Elida was up taking in the Fair Monday.

Mr. and Mrs. Howard Rogers of Emzy visited the county fair on Tuesday.

R. S. Walker of Elida was in town Saturday and paid the News office a pleasant call.

Born—To Mr. and Mrs. Charley Crume, a 11 pound boy, October 4th.

Clovis was well represented at the Roosevelt County Fair both days.

C. W. Guffey, of Roaser, Okla., is visiting his daughter, Mrs. S. T. Jernigan.

Glen Haning and family left last week for their new home near McKnight, Texas.

Mr. and Mrs. Temple Molinari left Thursday for Palminville, Texas, for a few days visit.

Mr. and Mrs. B. S. Hudspeth of Milnesand, left last Saturday for Bishop, Texas, to spend the winter.

Mrs. L. E. Wilks returned Wednesday from Childress, Texas, where she has been visiting her parents for some time.

Mrs. Zack Campbell and Miss May Bridges were up from Elida Tuesday to see what Roosevelt county farmers could do.

Mrs. Drue Cumbie and sister, Miss Lena, of Bronte, Texas, are the guests of Mrs. Coe Howard this week.

J. R. Hale, of Miami, Texas, arrived Tuesday to visit his brother, J. C. Hale, who is seriously ill in the home of Rev. Bates.

Wednesday, W. B. Oldham moved his realty and loan office from the rear of the Security State Bank to the old First National Bank building.

J. B. Priddy left Wednesday morning for St. Louis to give the markets in his line the once over in preparation for the fall and winter trade.

Mr. and Mrs. Hamp Byrd and children left Sunday for White Deer, Texas, to make their home. Mr. Byrd has a situation on the road gang at that place.

Mr. and Mrs. W. H. Catt had as guests Tuesday, Mr. and Mrs. A. S. Moore, Mrs. Bessie Moore and little son, Ola, and B. J. Catt of Clovis, and Mr. and Mrs. Joe Parrett of Farwell, Texas.

Dean Ferguson, of the Montezuma Baptist College of Las Vegas, in company with Rev. J. F. Nix, is making a tour over the county, speaking in behalf of the \$75,000,000 Campaign.

On Wednesday morning, John Shoes, who is operating a well drill near Clovis, became entangled with the cable and was killed. Mr. Shoes has a number of friends around Portales who will regret to learn of his untimely death.

Bring the wife—Rally, Christian church. 1tc

Mrs. Dolly Cope was married Thursday, September 29, at Emzy, N. M. to Mr. T. W. Tow, of that place. Mrs. Tow is well known here, having resided here for several years past and has many friends who wish her well.

Bring the parents—Rally, Christian church. 1tc

Mrs. J. B. King, who has been visiting her daughter, Mrs. J. G. Greaves for the past week, left Wednesday morning for St. Louis where she accompanied her daughter-in-law, Mrs. Paul King, of Amarillo. They will remain till about Christmas.

"Everybody's going!" Rally, Christian church. 1tc

ATTEND CLOVIS LODGE

The following Portales Masons attended Masonic lodge at Clovis Tuesday evening:

C. V. Harris, J. R. Shock, Harry Shapeott, R. H. Grisson, A. G. Kenyon, Ralph Will, Frank Gallogway, W. D. Kenyon, Albert Morgan, Dr. D. B. Williams, R. A. Palm, Lee Carter, E. C. Murrell.

"The kind of a young man I would like to marry." Letters by Portales young ladies, 7:00 p. m. at Christian church. 1tc

PARENT-TEACHERS MEETING

On Monday afternoon, October 10th, at 3 o'clock, there will be a meeting of the Parent-Teachers Association at the High school building. This is your organization if you are interested in public education. Come and take part in the discussions and let us work together for an organized plan that will make better school for our boys and girls. The following program will be rendered:

Music—Portales Band.
Sanitation—Miss Fonville.
"How Can We Improve the Ideals of Our Young People?"—Rev. Reasoner.

Location of New High School building—Round table discussion led by Coe Howard.

Bring grandma—Rally, Christian church. 1tc

PROF AND MRS. L. L. BROWN ENTERTAIN SENIOR CLASS

The Senior Class and their faculty advisor, Prof. R. A. Young, and Supt. Krattli met at the home of Roma Stone at seven o'clock last Friday evening and from there in cars to LaVon Brown.

Immediately upon arriving a huge bon-fire was built and wieners by the carload were roasted, then all went to a great table set in the front yard just loaded down with all kinds of picnic junk to which the Seniors did full justice.

Many games were played both in and out of doors. Then we all gathered around the low camp fire and took turn about telling ghost stories. Just as Burton Denison was telling a hair raising tale, Howard Kenady looked off in a dark direction and yelled "Ghosts!" Of course, by that time everyone was on their feet yelling. Approaching was a great white thing which certainly looked scary, but which turned out to be only Prof. Young.

After the fright was over, Mr. and Mrs. Brown called us to one side of the porch to eat watermelon. When we had finished these we gathered around the piano and sang songs and then we started home all saying that if our social events were as happy as this one the '22 Senior Class would hold the record for having fun. The Senior Class surely appreciates the nice time given them last Friday night and wish to thank them for it.

—Class Reporter—
Meet me at the Rally, Christian church. 1tc

The Christian Ladies Aid met Thursday, September 29th, with Mrs. Pveatt. After the usual devotional and business session, dainty refreshments, daintily served were enjoyed by Mesdames McMinn, Geo. and S. N. Hancock, Robertson, Warnica, T. J. Molinari, Catt and Pveatt. The ladies will meet Thursday, October 13, with Mrs. McMinn. A special line of study will then be taken up and not only are all members requested to come, but all the ladies of the church are invited to come and become members.

Sunday, 10:00 a. m. Christian church. 1tc

BOYS STOCK JUDGING CONTEST AT CLOVIS

CLOVIS, N. M., Oct. 4.—The boys' stock judging contest will be held in Clovis, October 28. This will be the first time the contest has been held in eastern New Mexico. It is expected that contestants from Union, Quay, DeBaca, Roosevelt, Chaves, Eddy, Lee and Curry counties will participate.

The Clovis Chamber of Commerce will act as hosts to the young men on this occasion and will royally entertain them while in Clovis.

Rogers exhibit, 10 ears bloody

THE MAGNITUDE OF THE BEET CROP

On the basis of the heavy estimated crop of beets to be harvested this fall, it is calculated that beet growers in the sixteen districts of the Great Western Sugar company in Colorado, Nebraska, Monona and Wyoming, will receive approximately \$18,000,000 in cash for their crop. Almost as large a total expenditure will be made for labor, it is calculated, reaping on an expected average factory campaign of 100 days.

The amount which will be paid by other beet companies of the west will probably bring the total amount paid the farmer for beets, to over \$100,000,000, exclusive of an amount almost as large for the cost and labor of turning the beets into sugar.

YOU certainly want to save money, and you would like to have better bakings. Then use Calumet. It's the biggest thing you can do to improve the quality of your bakings—and lower baking costs.

Calumet is made in the largest, most sanitary Baking Powder Factories in the World. No Baking Powder is made under better conditions—none can be better in quality.

It contains only such ingredients as have been officially endorsed by the U. S. Pure Food Authorities. An absolute guarantee that it is pure.

RAISES THE QUALITY—LOWERS THE COST OF ALL BAKINGS

CALUMET BAKING POWDER

BEST BY TEST

It received highest Awards, World's Pure Food Exposition, Chicago—Paris Exposition, Paris, France—positive proof of its superior merit.

It is used by more housewives, domestic scientists and chefs than any other brand. That would not be the case, if it were possible to secure a higher quality leavener.

It is sold at a moderate price. All you have to do is to compare costs to determine how much you can save by buying Calumet.

One pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Cream Cake Recipe

3 cups pastry flour, 3 level teaspoons Calumet Baking Powder, 1/2 cup butter, 1/4 cup granulated sugar, 1/2 cup of 3 eggs, 1/2 cup cold water

Whites of 3 eggs, 1 teaspoon orange extract. Then mix in the regular way.

Taste is a matter of tobacco quality

We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.

"They Satisfy"

DRILLING WHEAT IN FURROWS BETTER WAY

(From Agricultural Review.)
A method of planting wheat, not new by any means, but which has never been put into general practice, is that of seeding the grain in moderately deep furrows in regions where drouth and high winds are prevalent.

Thorough tests made by the Kansas Experiment Station covering a period of several years indicate that this method may be of great value throughout the Great Plains regions.

The Agricultural Review recently asked Prof. S. C. Salmon, of the Kansas Agricultural College for a report on these experiments. Professor Salmon replied in part as follows:

"Briefly, the method consists of seeding the wheat in furrows about 1 inches apart and four or five inches deep. This insures better germination in dry falls, and the ridges catch snow which otherwise blows off the field. The wheat being in the bottom of the furrows is protected from cold winds, heaving and low temperature and as a result comes thru the winter in better condition. Every farmer is familiar with the fact that wheat plants in a depression such as a wheel track or a horse's footprint, always comes through the winter better than those exposed on the level surface. Seeding in furrows simply aims to take advantage of this principle. We have records of winter grain sown by this method coming through the winter with 90 per cent or more of a perfect stand whereas the same variety sown in the ground and on the same day was killed out entirely. We have also observed considerable differences in the effect of soil blowing on the wheat. It should be said, however, that sometimes the soil is so fine and the wind so strong in Western Kansas that no method of seeding will protect the wheat.

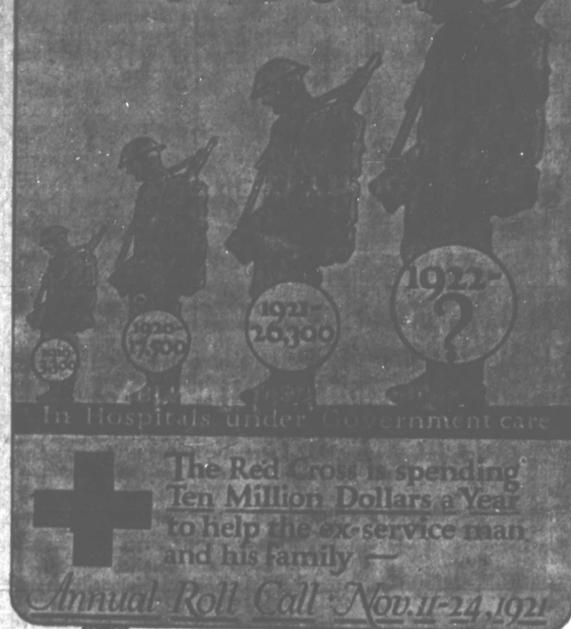

"It is probable that it is not necessary to use as much seed when the wheat is sown in furrows as when sown in the usual way. This, of course, may mean quite a saving. If, for example, it is found that two or three pecks of seed sown in furrows will give as good results as three or four pecks sown in the ordinary way. There is also good reason to believe that under some conditions wheat sown in furrows is better able to withstand drouth than when sown in the usual way. Frequently the ground in the spring is badly cracked, exposing the roots to the air finally resulting in their death. This damage is much less when the wheat is in furrows as there is a tendency for the dirt from the ridges to fall into the furrows and collect about the roots of the plants.

"As to yield, the most promising results have been secured in Northwestern Kansas. In 1918, when the method was first tried at the Branch Experiment Station at Colby, here was a gain of 4.4 bushels for the furrow method for wheat sown on corn ground and 3.2 bushels when sown on fallow. Yields were the same for wheat sown after kafir, the stand being very poor and the yields low in all cases. In 1920 wheat sown in furrows on ground that had been fallowed produced 44.7 bushels as compared with 34.5 sown in the usual way or a gain for the furrow method of 10.2 bushels. In another test the same season the gain was 5 bushels per acre. At the Branch Station at Hays, Kansas, and at the main station at Manhattan small gains in yield have been secured. In

STOP THAT ACHE!

Don't worry and complain about a bad back. Get rid of that pain and lameness. Use Doan's Kidney Pills. Many Portales people have used them and know how effective they are. Ask your neighbor. Here's a Portales case: Mrs. J. D. McRae, says: "When a person has kidney trouble they don't forget it in a hurry. About fifteen years ago I suffered with my kidneys. My back was weak and ached so badly I could hardly go. Every time I tried to bend over, sharp pains caught me in my back and I had awful dizzy spells when I tried to straighten up. Doan's Kidney Pills were always highly recommended so I tried them. One box of Doan's cured me of the complaint. Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. McRae had. Foster-Milburn Co., Mfrs., Buffalo, N. Y."

The army of the disabled keeps growing

To bring before the country in visual form the vast problem it is helping to solve, the American Red Cross has prepared for its Annual Roll Call, Nov. 11 to 24, a poster showing how rather than diminishing the total of World War veterans entitled to Federal aid continues to grow. Red Cross Service to these men is costing \$10,000,000 a year.

both cases conditions for growing wheat have in the main been favorable and there has been no opportunity to determine the effect in severe winters so far as yield is concerned.

"So far this method has been used only for winter grains. There is good reason to believe, however, that it will prove suitable for spring grains, especially for those portions of the United States and Canada where soil blowing is a serious problem. The rough condition of the ground after this drill is used, greatly reduces the danger of soil blowing, as well as insuring better germination and protection from late spring freezes.

"A feature of considerable importance in connection with this method of seeding is a new drill recently designed for doing the work. A number of drills for seeding in furrows have been placed on the market at various times but none of them have proved satisfactory either because of poor mechanical construction heavy draft or because they would not work satisfactorily in weedy or trashy ground. The new drill has been used successfully under practically all conditions to be found in the semi-arid west and has never failed to do good work where any common drill could be used.

"These drills are not on the market, but the Engineering Division of the Kansas State Agricultural College is prepared to make a limited number of attachments by means of which certain kinds of drills already on the market may be converted into market drills at relatively small expense."

A NEW MENACE TO THE RANGE CATTLE INDUSTRY

"Contagious abortion" is the new menace that is confronting the stockman of New Mexico. For several years past the stock-growers have had serious problems to contend with, due to the drouth and other conditions, but this new menace that is creeping into the stock-growing districts will, if not checked, paralyze the industry. No stockman can afford to buy high priced stock if it is not productive. With contagious abortion in a herd, it is a very unprofitable investment.

Prevention is the point we are aiming at, says the veterinarian of the Agricultural College. If a herd is free from this disease, purchase no new stock unless a guarantee is given that the animals in question have been tested by the agglutination and complement fixation methods and have been found free. The blood test is the only accurate means to determine whether the animal is diseased or sound. Positive reactions have been obtained from the blood of virgin heifers, showing that the disease may lurk on until a certain period arrives and then break out like a spontaneous fire.

In the control of this disease, sanitation is an important factor. All debris should be burned, the aborting animals segregated, and the surrounding premises disinfected.

ted. *Liq. cresolis compositis* three per cent sol. for external purposes and Lugol's solution one-half per cent for internal irrigation is recommended. The vaccines in combination with the bacterins are being widely used, although their efficiency has yet to be proved.

SWEET CLOVER MAKES GOOD HOG PASTURE

In non-irrigable sections of the state, the hog raising industry could be materially augmented through providing a more or less permanent sweet clover pasture. When properly handled, sweet clover is relished by hogs and is as nutritious as alfalfa, although not so palatable at first. The bitter taste, due to coumarin content, is easily met by starting hogs at the pasture while the growth is young and succulent rather than waiting till the bitter taste is more pronounced and the growth somewhat woody.

By combining Sudan grass with sweet clover, better results could no doubt be secured. If five acres were inclosed with hog wire and in square form, with a cross fence through the middle devoting two and a half acres to each of sweet clover and sudan grass, with the pasture located near the barn and water supply, hogs for market or for home consumption could be grown cheaply. Kafir or maize could be used as grain feed. If the industry were based on raising feeder and serum hogs of pure breeding, a very ready and remunerative market is available with hogs weighing 75 to 100

Indigestion

Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to aid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is

Theford's BLACK-DRAUGHT

for indigestion and stomach trouble of any kind. I have never found anything that touches the spot, like Black-Draught. I take it in broken doses after meals. For a long time I tried pills, which griped and didn't give the good results. Black-Draught liver medicine is easy to take, easy to keep, inexpensive.

Get a package from your druggist today—ask for and insist upon Theford's—the only genuine.

Red Cross Gives \$310,000 to Aid 'Clean-Up' Drive

An appropriation of \$310,000 for Red Cross work in connection with the "clean-up" campaign instituted by the Government to bring the claims of all disabled service men who are entitled to Federal aid before the proper government bureau for action, has been made by the American Red Cross. The Executive Committee of the American Red Cross in making the appropriation authorized the appropriation of \$35,000 of this sum to the American Legion to defray the expense of the Legion representatives assigned to the various districts of the Veterans Bureau.

Young America Sends Vast Relief To Needy Abroad

Various relief projects of the Junior American Red Cross in European countries resulted in helping 237,000 destitute children during the last fiscal year, according to the annual report of the American Red Cross for that period. The growth of the activities of the Juniors abroad is manifested by a comparison which shows this figure is 200,000 larger than that of the previous fiscal year.

America Succors Russians

Food, clothing and medical relief costing \$700,000 has been provided by the American Red Cross for the thousands of Russian refugees stranded last year in Constantinople and vicinity.

MR. AND MRS.

What wonderful thoughts come up when these two abbreviations are printed in a news item—what intense human interest these portray.

In the country weekly paper, they take the one big place in all items from the simple visit to relatives, to the larger matters of human life.

"Mr. and Mrs."—the great news item of the universe, the bringer of recollections to the man far from home, who takes his old home town paper, and reads the items of Mr. and Mrs. and lets his mind wander back to the days when he knew the Mr. and Mrs. in knee pants and shall we say, short skirts.

PORTALES "DOGS" CLEAN "HEN-PECKED" HUSBANDS

The final game between the single and married men was played Sunday to settle the dispute between the two factions as to who were the best ball players.

In the first game which the "Dogs" won 5 to 3, was unsatisfactory to the "Hen-Pecks" so they tried it over Sunday, the "Dogs" coming out with flying colors, winning 8 to 5.

Steve twirling for the single men was too much for the "marrieds" Graham failing again to connect with a safe single.

Troutt for the married side pitched a good game, doing his best, but the "Dogs" were too much for him.

Features of the game were the home runs by Stone and Canady. This ends the season for 1921.

Following is the box score of both games:

WONDERFUL RESOURCES OF EASTERN NEW MEXICO DISPLAYED

(Continued from Page 1)

Mrs. Stirman took several ribbons on this display.

Next was the Floyd school display. This was strictly a school display. It consisted of the school work of the children of the different grades. The primary department had a circus ten made of paper with all the animals in evidence. The decorations were of the school colors—pink and white—and this exhibit took the 2nd banner for the best consolidated school display. Superintendent Hodges and his assistants deserve much credit for the success of this exhibit.

Next to this and the last in this building was a splendid lot of individual agricultural exhibits, which equalled anything in the building as to quality.

In the other building as you entered on the right was the exhibit of G. L. Hatcher of Floyd. Here Mr. Hatcher had a splendid display of the De Laval products—separators and milking machine. The milking machine drew good crowds 50th days, as this was a novelty to the greater number of visitors. In the afternoon of the first day a cow was milked for the benefit of the public. Mr. Hatcher deserves much credit for his enterprise in putting on this exhibit, and it will doubtless result in much improvement in the dairy equipment of Roosevelt county.

Following this was the Portales High school exhibit. The first booth contained an exhibit by the vocational agriculture department giving much valuable information and exhibiting some excellent work from this department.

In this booth was exhibited the

products of Roosevelt county's two plant wizards, C. S. Toler and R. A. Palm—two mammoth Russian Thistles. On these Toler took first ribbon and Palm second. Palm says that he really was entitled to the first but that Toler switched ribbons on him. These gentlemen are now experimenting to see if these plants cannot be improved so that they will bear grapes and huckleberries.

Next was the Domestic Science department. This was fitted with appropriate displays from this department, and the class also served coffee to the visitors. The fair management are indebted to this department for the beautiful banners which were awarded school and community exhibits. These banners were made by Miss Garrett and her class, and will long be pointed to with pride by communities fortunate in winning them.

The grades were represented in the adjoining booth, and carried splendid displays from the primary to the High school department.

Next was a model school building and grounds, by Mr. Young and his class in vocational agriculture. This was a real work of art and the success of the fair was largely due to the untiring efforts of the instructor in this and the Domestic Science department.

In the center of this building was a display by the ladies of the town, consisting of needle work and culinary exhibits. This was one of the features of the fair.

On the opposite side of the building was the irrigation display. This consisted of some of the best products of the Valley, but was entirely too small. But here the visitor was able to see at a glance what was produced under the Portales Valley irrigation. It consisted of vegetables, potatoes, onions and field crops. This exhibit was taken to Dallas as a whole to be placed in the Roosevelt-Curry county exhibit which will do much toward the development of the entire county.

In this building the Spencer Electric Co., of Clovis, had a display of electrical fixtures, which, by night, were a work of art.

The livestock exhibit was a disappointment in the number of entries. Some of the best stock of the county was not placed on exhibition, but the entries which were made, were first class. In the hog exhibit, a few good entries were made, but not enough to bring out the importance of the hog industry in Roosevelt county.

The poultry exhibit was good, though not extensive. In the awarding of prizes an idea of this exhibit may be obtained.

The following Roosevelt county Fair visitors registered at the Portales Valley News booth:

W. H. Cryer and family of Elida, New Mexico.

A. W. Stanford and family, Elida, New Mexico.

E. L. Kyle, Texico, N. M.

Ted Williams, Richland.

Fannie Williams, Richland.

Mrs. N. B. Bingham, Floyd.

Mrs. J. H. Mulray, Roswell.

N. B. Bingham, Floyd.

J. G. Cox, Redland, N. M.

Mrs. Frank Warnica, Portales.

Mrs. Tom Moody, Portales.

J. H. Hathecock, Portales.

W. Krattli, Portales.

N. J. Hunnicutt, Portales.

D. Broyles and wife, Rogers.

Mrs. Glenn Nicholson and children, Elida.

J. E. Lee, Redlake.

C. R. Nelson, Redlake.

Mrs. C. R. Nelson, Redlake.

B. J. Kennedy, Portales.

J. C. George, Portales.

H. C. McCown, Elida.

Lena Wilmes, Upton.

H. Wilmes, Upton.

A. D. Stowell, Elida.

Mrs. A. D. Stowell, Elida.

Mrs. D. K. Suffy, Claudell.

S. E. Johnson, Redlake.

Mrs. E. G. Holmes, Elida.

J. F. Sturman.

Ryburn Nelson, Redlake.

Mrs. Milt Powell, Portales.

W. J. Gower, Elida.

Edwin G. Taylor, Elida.

Silas G. Bridges, Elida.

A. L. King, Texico.

Mrs. Jennie Armitage, Floyd.

Miss Georgiana Richardson, Causey.

Miss Lizzie Mae Swoape, Causey.

ROOSEVELT COUNTY RECEIVES TWO REGISTERED HERDS

Wednesday evening R. G. Bryant returned from Canadian, Texas, with two carloads of registered Hereford cattle. In the same shipment, E. L. McBride of Elida, received three cars of registered Herefords.

This makes a valuable addition to the livestock of the county as better cattle will do much to overbalance the depression in prices. Roosevelt county has a number of high grade cattle, and it seems to be the aim of the stockmen to produce the best that can be found.

PORTALES HIGH WINS ON THE GRIDIRON

In the first football game of the season, between the town team and Portales High School, Monday afternoon, resulted in a victory for the Highs by a score of 13 to 7.

ALKALI MOVEMENT CAN BE CHECKED

Where here is a tendency for alkali to come to the surface of the soil, any treatment which prevents evaporation from the surface will be beneficial. Surface evaporation can be prevented, either by cultivation of row crops or by the growing of crops which shade the surface. Deep-rooted crops are also beneficial by taking water from the soil thru a greater range in depth than do the shallow rooted crops, thus preventing, in a large measure, the accumulation of alkali in injurious amounts near the surface. A crop therefore, which is both deep-rooted and shades the ground should be doubly efficient in preventing the rise of alkali where the conditions are not unduly favorable for its accumulation.

Where alkali has not been controlled and has accumulated in large amounts on the surface, often there is difficulty in getting the water to enter the soil in sufficient amounts to leach the alkali of lower depths. In such cases, loosening the surface by plowing under manure or other organic matter assists the water to enter the soil more freely, according to specialists of the Agricultural College. Where the alkali does not prevent the growth of deep-rooted plants, the decay of the root aids the water in penetrating the soil.

Where it is known that alkali is accumulating, it is much better practice to leach it out before the stage is reached which prevents the free entrance of the water. This is more important in clay soils than in loamy or sandy soils, and is also more important with black alkali than with white alkali. Clay soils do not let the water enter freely and hold the alkali more tenaciously. Black alkali injuriously affects the physical character of clay soils.

CARBON PAPER

A full line of non-smur Carbon paper now in stock—Black and purple. Portales Valley News.

Mrs. Mollie Swoape, Causey.

J. F. Swoape, Causey.

Mrs. H. K. Watkins, Redlake.

displays which it has been the writer's pleasure to see was the individual exhibit of A. B. Cares of Richland. This exhibit contained 140 varieties, all grown on the farm of Mr. Cares without irrigation.

Richland is in what is known as the dry farming section of New Mexico, but from the exhibit one would have thought that he was

in the Salt River Valley of Arizona.

This exhibit contained every variety of grain grown in Roosevelt county, and vegetables of every description. Some excellent Irish and sweet potatoes were in the exhibit. It was truly an eye-opener to what can be done on the dry farms in the Richland country, and testifies to the ability of Mr. Cares as a farmer.

WICHITA MARKET

WICHITA, Kans., Oct. 6.—Hogs 600. Market 15 higher. Top \$3.15; bulk \$3.00@3.10. Cattle 800. Market steady. Beef steers \$3.50@6.25; beef heifers \$3.00@6.00; beef cows \$2.75@4.25; stockers and feeders \$2.50@5.50; stock cows and heifers \$1.50@4.25; bulls \$1.50@3.00; calves \$3.50@6.25.

Me-o-my, how you'll take to a pipe—and P. A.!

Before you're a day older you want to let the idea slip under your hat that this is the open season to start something with a joy'us jimmy pipe—and some Prince Albert!

Because, a pipe packed with Prince Albert satisfies a man as he was never satisfied before—and keeps him satisfied! And, you can prove it! Why—P. A.'s flavor and fragrance and coolness and its freedom from bite and parch (cut out by our exclusive patented process) are a revelation to the man who never could get acquainted with a pipe! P. A. has made a pipe a thing of joy to four men where one was smoked before!

Ever roll up a cigarette with Prince Albert? Man, man—but you've got a party coming your way! Talk about a cigarette smoke; we tell you it's a peach!

Prince Albert is sold in tippy red bags, tidy red tins, handsome papers, and half pound tin humidors and in the grand crystal glass humidors with sponge moltenizer top.

Shortage of Ford Cars

Sept. 16, 1921.

Ford Motor Co., Denver, Colo.

Branch Telegraphic reports indicate daily retail sales of Ford Cars and Trucks increased fifty per cent first week since price reduction with corresponding reduction in dealers stocks.

Marked shortages particularly of the enclosed type of cars are already being felt in many sections.

Unfilled orders for all types of Ford Cars and Trucks are rapidly accumulating as production has not been increased over the regular monthly schedule of one hundred thousand cars.
