

EFFORTS TO SPEED PENSION BILL FAIL

HOUSE VOTES DOWN DEMAND FOR REPORTS

Senate Must Wait on House, Proponents of Motion Argued

AUSTIN, Oct. 1 (AP)—Efforts to bring about speedy consideration of tax bills for old-age pensions failed in the house of representatives today when separate motions to require the revenue and taxation committee to report all bills by tomorrow night, to report the oil tax increase by tonight, and to report the salt tax bill by tonight were defeated.

Advocates of the motions contended the house should begin work at once on the proposals as the senate could not consider them until the house acted.

NOT TO PERMIT NEW APPROPRIATION

AUSTIN, Oct. 1 (AP)—Governor Allred said today that he would not permit the legislature to make an appropriation for additional hospital facilities for the insane during the current special session. He said the building program already authorized is sufficient to care for needs.

Five New Clubs Are Organized at High School

Sponsors for the clubs of the Cisco high school were announced today at the assembly program by Principal O. L. Stamey. The students will have a wide field of extra-curriculum work to pick from this year than last with the addition of five new clubs.

The Handicraft club under the supervision of Ralph Barton will offer a large variety of crafts to students wishing to learn them.

Miss Ina Mae Riek, new commercial teacher, will have charge of the Commercial club, one of the new ones.

Mrs. Hazlewood will start a Debate club, and the debating teams will take several trips this year, she said today.

A Junior Dramatic club, with Miss Marion Chambliss as its sponsor, will also be organized, and it is probable that a Junior Science club under the direction of Miss Nellie Yunk, will also be organized.

Stamey said that the students will meet next Tuesday in the auditorium and will be told the rooms in which the club meetings will be held. The first meetings will be held that day. Each student will be required to join at least one club.

World Series Game Today Is Postponed

NEW YORK, N. Y., Oct. 1 (AP)—The second game of the World Series was postponed today due to wet grounds. The Yankees and Giants will play tomorrow.

COMMUNISTS RELEASED AT TERRE HAUTE

Attorney Says He Will File Damage Suits Against Officers

TERRE HAUTE, Ind., Oct. 1 (AP)—Earl Browder, communist presidential candidate, and four associates, arrested here yesterday, were released from jail today by Police Chief James C. Yates who said that "if they are caught again here they will be taken back to jail."

Soon after the five were released, David J. Bentall, Chicago attorney, said he would file damage suits against the mayor and police chief on the grounds that the men were falsely arrested and imprisoned.

Crowder, arrested on a vagrancy charge as he stepped from a train here yesterday morning, spent the day in a county jail cell while party workers scurried about seeking his release so that he might address a scheduled meeting last night.

Undismayed by threats of court reprisals, Mayor Samuel Beecher and Police Chief James C. Yates issued a stern injunction against any attempt of the communists to congregate and emphasized they would not permit the party rally and the address by Browder which was scheduled to be broadcast by Terre Haute and Evansville, Ind., radio stations.

"We have had our share of trouble from such agitators," Yates said. "Neither Browder nor any one advertising himself as belonging to the communist party will be permitted to hold meeting in Terre Haute."

TOM SHEPARD NEAR DEATH

Suffers Stroke at Lubbock Home

The condition of Tom Shepard, former Ciscoan, had improved slightly at Lubbock today, his brother, F. E. Shepard here, was informed over telephone at noon. Tom was stricken suddenly yesterday and doctors this morning said there was little hope. Mr. Shepard and other relatives here were not expected to go to Lubbock before Saturday unless there is a change for the worse.

F. E. Shepard, W. E. Brown and Mrs. Oliver Turner were preparing to leave for Lubbock this morning where their brother, Tom Shepard, former Cisco druggist and police chief, was reported near death after an apoplectic attack.

Fleet Shepard, another brother, messaged E. E. Shepard here shortly after noon yesterday that he had been stricken and last night telephoned that attending physicians held little hope for recovery. He said he would telephone this morning if improvement occurred. If no call was received here the three Cisco relatives planned to leave at once for Lubbock. F. E. Shepard is a full brother of Tom. Mr. Brown is a half-brother and Mrs. Turner a half-sister.

Tom is in the drug business at Lubbock. He is 48 years of age. He is married and the father of two children.

Twenty-One Injured As Workers Strike

Sunny Weather Smiles Today for Grid Go Friday

Bright sunshine and warmer weather prepared a happier stage today for the first home game of the Cisco Lobos who meet the Sweetwater Mustangs under the stars at Chesley field Friday night. A dry turf and more comfortable atmosphere are expected to attract a large crowd.

Coaches Shelley and Cooper, their squad in good physical condition, drove their charges through finishing sessions of practice in preparation for the game. The youngsters, whose playing has improved greatly in the two hard games they have played, were keyed for the contest and the mentors were optimistic over the prospect for a good game.

Only Rainbolt, Lobo captain, a minor back injury being regarded by the coaches as too likely of aggravation to subject him to the possibility of further hurt. He is expected to be ready to go next week, however.

The game will begin at 8 o'clock and the price of admission is only 50 cents.

In its meeting at the activity period this morning, the Lobo squad elected Morris Mize as manager of the team.

A short workout is scheduled for tonight under the lights at Chesley field.

INSURGENTS START FINAL MADRID DRIVE

Parliament Grants Autonomy to North Basque

(By Associated Press) Insurgent armies, indicating their last big push has started, were within 20 miles of Madrid on the main highway from Toledo today.

Meanwhile, the Spanish parliament, meeting for the first time since the revolution started, granted autonomy to the northern Basque region in an attempt to win increased allegiance from that insurgent-invaded section.

REBEL FORT IS BESEIGED

LISBON, Portugal, Oct. 1 (AP)—Six hundred insurgents in Fort Estrecho de Quinto are surrounded by 3,000 government troops in a critical siege similar to that of the Alcazar fortress at Toledo, the correspondent of a Portuguese newspaper reported today.

Heavy Gains Shown In Postal Receipts

A gain of more than 30 per cent over the corresponding month of 1935 and of 14.4 per cent over the corresponding quarter of the same year was reported in postal receipts at the Cisco office at the close of September, 1936, today by Postmaster L. H. McCrea, Jr.

Receipts for September, 1936, were given as \$1,971.37 as compared with \$1,432.00 for September, 1935, a gain of \$439.67 or slightly more than 30 per cent. For the September quarter of 1936, the receipts were \$6,030.64 and for the corresponding three-month period of last year they were \$5,272.58, a gain of \$758.06 of 14.4 per cent, Mr. McCrea reported.

A steady increase in postal receipts has been registered throughout the year.

Recovering From Car Accident Injuries

Mrs. Gordon Tomlinson was reported to be recovering satisfactorily at her home here from injuries she received when she fell from an automobile near Mineral Wells a week ago. She and her husband were returning from a ranch Mr. Tomlinson is operating when the door of the machine became unlatched as they drove around another car, letting her fall to the ground. She was badly bruised and suffered skin lacerations for which she received treatment at a Mineral Wells hospital.

Through the Editor's Spectacles

The news bit that the Press carried yesterday on the report that a \$12,000 brick veneer residence was planned for building in Cisco excited a great deal of comment and speculation. Numbers of prospective builders were mentioned, although there was no reason to point to any one with certainty. The construction of a new home of that character is encouraging to the belief that Cisco is a good place to live, of course, and I hope the project goes through without a hitch.

Noah Fowler told me today that he had received a request from a Dallas contracting firm for a bid on the electrical work for such a residence, so I am confident the project is definitely planned. The report itself came through the authoritative channels of a trade service received by the Rockwell Bros. & Co. lumber yard here. (Page Frank Harrell! I want him to note that I spelled the company name right, abbreviations and all, this time.)

The road to Lake Cisco offers to my mind some very choice locations for home building, although the Rising Star highway south of Cisco has as good or better sites. The Luther Norvell home on the Lake Road is well located and, when completed and landscaped, will doubtless prove one of the most comfortable, convenient and attractive residences in the city. Such a place invites the constant interest of its owner in improving and beautifying, for it is such a place as will respond readily to good treatment and planning.

Most of the Cisco folks who follow the World Series ball games were well pleased with the outcome of the initial contest yesterday. This affection for the Giants is the natural result of a natural sympathy for the underdogs. The Yanks had won 12 World Series games in a row, taking three titles by walk-aways. When the Giants rose up and smacked the big boys yesterday afternoon, it must have been like puncturing a balloon, for no doubt the Yankees were quite certain they had the situation by the proverbial tail with a downhill pull. They had coasted through the regular league season without having to "put out" to win the pennant, and they came into the big stretch for the championship as easily as a ship in fair weather. In contrast the Giants had a mighty battle to win, and they came into the flag fighting. The story started out like a new version of the familiar hare and tortoise. When a person or a team has an easy time, they forget to fight, and no matter how much ability they may have, the inactivity or the lack of the inspiring fire and spirit that a hard battle requires seems to do something to them. An inferior person, on the other hand, keyed up to the utmost in alertness and fighting spirit because of having had to put out everything to win, usually takes the measure of the more lethargic big fellow. You've seen it done many times on the football field and elsewhere. Just being good won't win. You've got to put it into practise.

Trench Silo To Be Opened Friday Near Rising Star

A 10-ton trench silo on the Cecil Shults farm, three miles north of Rising Star will be opened Friday, October 9, at 4:30 p. m. Everyone interested was invited to come and inspect the silage and discuss this method of saving feed. County Agent Elmo Cook and Hugh Barnhart and Vocational Agriculture Teacher Curtis Wilson will be present to discuss all phases of trench silos and answer questions.

Agricultural leaders of the county have emphasized repeatedly that the trench silo is now recognized as the most practical and economical way to store feed on the farm. Feed stored in this way has twice the value of dry stacked feed as silage has the same feed value as the green feed had when first put into the silo while drying feed causes it to lose much of its value.

A trench silo is safe from damage by fire, insects, rats, flood, and theft. It will keep feed perfectly for years so that it is available when needed.

The county agents are urging every Eastland county farmer to

build at least a small trench silo and store some of the feed for this winter that will otherwise go to waste. Milo and corn stalks do not make as high grade silage as the same feed with the heads or ears left on, but they would be worth many dollars to livestock this winter. Frost damaged feed can be safely used for silage if allowed to stand for four or five days after frost.

Particulars on trench silos can be obtained from the county agents or vocational agricultural teachers.

ELLENBERG TEST IN ERATH ABANDONED

EASTLAND, Oct. 1. — Shutdown of an Ellenberger test four miles east of Dublin, watched with interest by the Central West Texas district, was reported to oilmen here Saturday.

The test was the Seaboard Oil Corporation's No. 1 L. Garrett. It was abandoned at about 4,100 feet according to the reports. It marked the third well drilled recently by the corporation in Erath and Hamilton counties. The No. 1 Garrett was located 1,000 feet from the southwest line and 2,455 feet from the northwest line of the R. McKinney survey. It was reported production from the Ellenberger was expected at 3,981 feet. Sulphur water was encountered before operations ceased.

Eleven million, six hundred and ninety thousand cubic feet of gas was obtained in the first well drilled by Seaboard in that section in March. Located in Erath county, the well was on the T. K. Rea heirs land, 900 feet from the south and west lines of the D. Cook survey. The gas production was reached at 2,455 feet.

The second well, No. 1 Dawson, was in Hamilton county. It was a failure after being drilled to 5,345 feet. It was completed in July.

DRILLING RECORDS

EASTLAND, Oct. 1. — Records transmitted to oil and gas division, railroad commission, Austin, from Eastland headquarters, for week ending September, 26, listed as follows:

Application to Drill Seaboard Oil Corp. of Delaware, No. 1 Seaboard Oil Corp., A. C. Grimes survey, Hamilton county, Depth 4500 feet, 112½ acre lease.

Application to Plug Seaboard Oil Corp. No. 1 L. V. Garrett, R. McKinney survey, Erath county, TD 4111 feet, 500 acre lease.

Humble Oil & Refining Co. No. 6 "C" E. P. and W. H. Kilgore, Thos. Benson survey, Brown county, TD 1208 feet, 30 acre lease.

Humble Oil & Refining Co. Nos. 11 and 16, A. W. Armstrong, J. Delgado survey, Brown county, Depth 1220 feet, 143 acre lease.

Carl Taylor No. 1 C. E. Allen, Jno. Foster survey, Eastland county, Depth 1060 feet.

WELLS DRILLED AT EASTLAND AND RANGER

EASTLAND, Oct. 1. — Drilling of two wells as offsets to a producer near Eastland and deepening of another, thought partly resulting from showing of the Chastain producer near Ranger, were three of the bright features in Eastland county oil developments last week.

Meanwhile, wells watched with interest were being drilled in practically the four corners of the county.

Neil A. Moore and others of Eastland were reported to have "plugged" a well which is a south offset to a producer brought in three miles east of Eastland recently. The recent producer was the Dorothy Oil Company No. 1 Holcomb Heirs, section 1, block 4, H. & T. C. survey. It was completed for 36 barrels of oil and 1,040,000 cubic feet of gas.

Moore and his associates' well is on the Holcomb land 1,130 feet from the south line and 1,238 feet from the east line of the west half of section 1, H. & T. C. survey, block four. Moore's well, the No. 6 Holcomb Heirs, may be drilled to 1,500 feet. One hundred twenty acres have been leased by Moore and his associates.

States Oil Corporation stake the north offset to the Dorothy well 150 feet north and 330 feet west of the southeast corner of the north-west quarter, section 1, block 4, H. & T. C. survey. It will be No. 1 Holcomb heirs.

Outcome of the Chastain No. 1 H. Brashear in the William Van Norman survey, 330 feet north and 700 feet west of the farm lines west of Ranger is believed responsible for deepening of a well by the Panhandle Refining company one and one-half miles northwest of Chastain's.

Panhandle's No. 1 E. G. Webb, section three, 110 feet from the north line and 300 feet west from the southeast quarter in the William Van Norman survey. The well is being deepened 125 feet from 3,320 feet, depth at which it is reported production of 100 barrels of oil and some gas was obtained at the original completion in January, 1920.

Reports from other wells in the county:

The county's Ordovician test, Atkins and Flowers No. 1 White, south of Carbon, was reported drilling ahead at 3,150 feet. The workers recently had crooked hole trouble. It is located 1,400 feet from the north and 330 feet

from the east lines of the D. & W. survey, section 1.

Eight miles southwest of Carbon, Anderson and Drewery's No. 2 L. J. Griggs, 700 feet from the north line and 500 feet from the east line of the A. Miller survey, was reported drilling at 1,250 feet.

The No. 1 O. E. Scott, an operation by Roy K. Ashburn and R. S. Luke, was drilling past 1,058 feet. Located six miles southeast of Ranger, the well is 1,280 feet from the south line and 474 feet from the east line of the A. Tarter survey. Crooked hole trouble was also a report from the well recently.

A shutdown at 1,320 feet was reported in the Cox and others' No. 2 J. A. Gentry, 150 feet from the south and east lines of the A. Popejoy survey. It is near Ranger.

East of Eastland, Monarch Refining Company's No. 2 Fee Land was reported as having been taken to 1,485 feet. The well is located 650 feet from the south lines and 1,420 feet from the east lines northeast quarter, section 44, H. & T. C. survey, block 44. A depth of 1,600 feet is contemplated.

MELON UNDER HOUSE

OSBORNE, Kan. (AP)—All the melons planted by young Billy Weese withered from the hot sun but one. It grew on a vine that crept under the house and grew in the shade. Billy had to dig a hole under the house to remove the melon. It weighed 39 pounds.

News Is Awaited On Procedure For County Farm Aid

EASTLAND, Oct. 1.—Successful in their efforts for designation of Eastland county on the agriculture department drouth committee's emergency list, officials today awaited arrival of information on aid procedure.

The agriculture department announced Thursday inclusion of Eastland and other Texas counties on the list for emergency drouth aid.

Designation of Eastland county followed investigation of need by county agents, Elmo V. Cook and Miss Ruth Ramey, and contact of U. S. Senator Tom Connally by County Judge Clyde L. Garrett of

commissioners court, which initiated efforts for aid.

Although no official information had been received, officials believed the county emergency program will be carried principally by the works progress administration. The WPA, it is understood, will furnish work for as many needy farmers as possible while the resettlement administration will make loans and grants in cases where employment is not possible.

Failures have been registered on cotton and peanuts, the county's two cash crops, on more than 1,300 farms, officials report.

California is the leading state in production of canning peaches.

Garfield county, Oklahoma, is registering cattle brands with the county clerk in an attempt to defeat modern-day cattle thieves.

No Formal Training; Works as Engineer

PETERSBURG, Va., Oct. 1. (AP)—Mrs. West Holden, a housewife without formal training, is supervisor and assistant landscape engineer of a WPA project here which is employing 30 women relief workers in converting 1,500 acres into a bird sanctuary.

Mrs. Holden, whose interest in wildlife and horticulture began in garden clubs, learned her new profession as she worked and now has taught her corps of workers to distinguish the more than 40 varieties of birds that have been attracted to the sanctuary.

HUMBLE...like the farmers and ranchers of Texas... keeps step with the times

Texas was wholly an agricultural and ranching country in the far off days of its beginnings, but its farms were few and scattered, its cattle half-wild. Since then, year after year, the plow and the branding iron have been twin symbols of Texas progress. Farm and ranch have done right well by Texas!

LIKE THE TEXAS FARMER

and the Texas rancher, the Humble Company has never been satisfied to stand still. Every day, Humble is on the alert to find some way to improve the products you use. With a modern refinery equipment, they are able to furnish you with motor oils which are practically perfect for your automobiles.

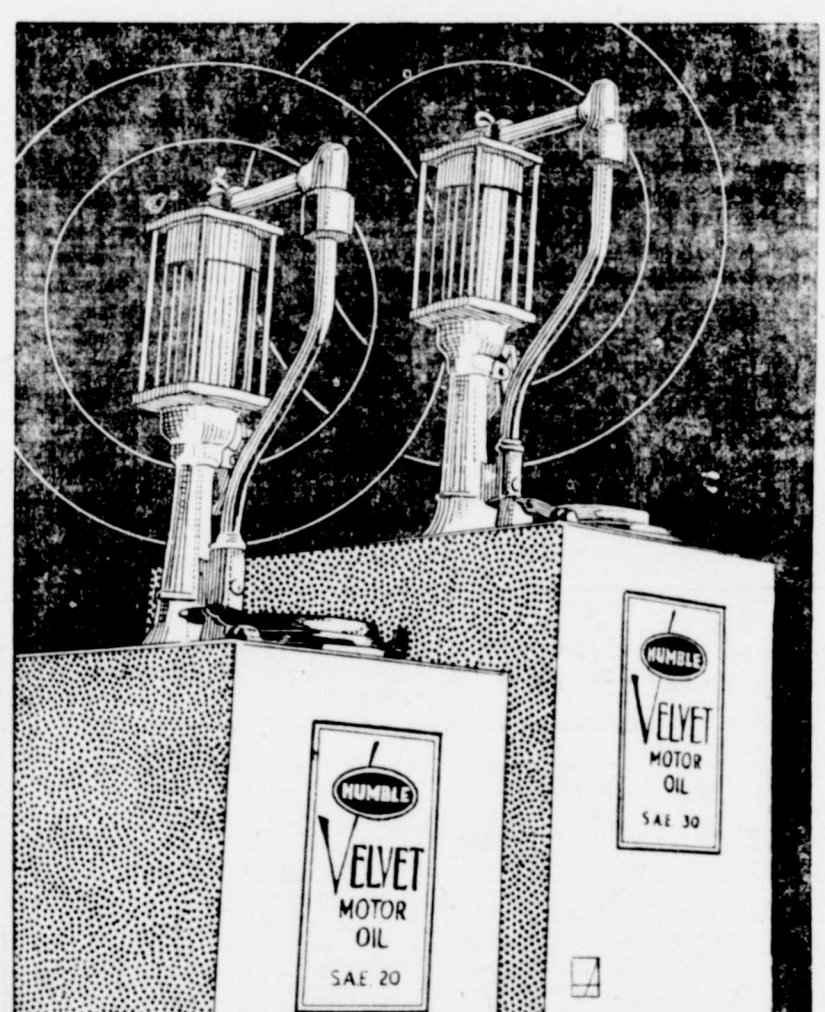

We promise you that Humble motor fuels and second to none. We ask you to test them the sure way, in your own car. You'll like them because we know improvement keeps Humble ahead.

At the Centennial Exposition, Dallas—Humble's Hall of Texas History

You are cordially invited to visit the Humble Exhibit at the Central Centennial Exposition in Dallas. Striking dioramas recreate dramatic moments and vivid episodes from Texas History. See the battle of the Alamo, the capture of Santa Anna, the prisoners of the Mier Expedition drawing the black beans, the battle of Sabine Pass, Colonel Goodnight treating with Comanche Quanah Parker. Then see and listen to the story told by the rocks of Texas, and how Texas oil is drawn from many thousands of feet under the ground. On your way to and from Dallas—stop for service where you see the Humble sign.

VELVET MOTOR OIL

—25c per quart

Here's a motor oil for canny buyers, a good, dependable product at moderate price. It's been thoroughly tested over millions of miles of Texas highways and city streets. Try it—stop today at a Humble Service Station or at a Humble dealer's, drain and refill with Velvet Motor Oil. You'll find it just what you're looking for!

Velvet Motor Oil is sold in bulk at Humble Service Stations and in bulk or cans, as you prefer, at Humble dealers. Humble's policy of continuous improvement keeps it always up-to-date.

One Evil Doesn't Cure Another

HOWEVER much or vigorously one may condemn communism and all its works, the undemocratic, arbitrary acts of the city officials of Terre Haute, Indiana, deserve only censure. It is a strange and futile doctrine that proposes to meet one evil with another, and the actions of the mayor and police chief of that city strike at the very essence of the democratic ideal. If the communists leaders who invaded the community over the protests of these officials can be prevented from speaking by the expedient of arresting and holding them on charges of vagrancy, it is equally possible to deny any other person the exercise of that person's civil liberties by similar expedient. The incident smacks strongly of fascism which is as bad, if not worse, than communism; and the Terre Haute officials, who forgot, no doubt, that the only legitimate and justifiable manner in which the radical doctrines of the communists can be dealt with in this country is

by submission to the common sense of the people, are open to censure for having lost their balance and violated a fundamental right. The words of Voltaire are peculiarly appropriate to this incident: "I heartily disapprove of what you say, but I will defend to the death your right to say it."

IN the heat of political arguments and social disturbances we sometimes become so disturbed or resentful that in a determination to gain a momentary respite or advantage we are likely to cut the very foundations from under us. The Terre Haute officials seem to have lost their sense of the solid and to have allowed their indignation to rule their judgment, a fact which will do their patriotism no good and help promote the martyrdom status to which the communist strategy appeals.

Six Amendments

FROM time to time between now and the general election on November 3, the Cisco Daily Press will publish in the news columns summaries of the proposed constitutional amendments upon which the people of Texas will express their will in that election. There are six of these amendments, and it behooves the voters to give more than casual study to their provisions and possible effects before casting their votes. The enactment of a constitutional amendment opens a new field for legislative enterprise. It lays down a predicate for laws, the number and extent of which are determined only by the powers conferred upon the legislature by the amendment, and it therefore represents a further abridgement of political liberties whenever the authority of the constitution is broadened by amendment. Nevertheless, there are essential changes and some of the amendments proposed in the election November 3 incorporate necessary modifications either of existing provisions or of the lack of them.

THE six proposed amendments are:

- 1. Provision for state dispensary system for the sale of distilled liquors under a state monopoly plan;
2. Provision for a state retirement fund for school teachers;
3. Provision for compensation insurance for state employees;
4. Provision for removing absolute power of pardon and parole from hands of governor and vesting it largely in those of a non-political board.
5. Provision for raising salaries of governor and certain other constitutional state officers;
6. Provision for limiting the number of representatives any county may have in the state legislature to seven.

THESE amendments embody questions of considerable importance to the people of Texas. Certainly, no action should be taken upon them without mature and careful consideration.

Laughing Around the World

With IRVIN S. COBB

An Apology With a Stinger

By IRVIN S. COBB

IN THE latter years of his life Henry James, the American novelist, lived in England. He had a country-house in one of the southern counties. A self-made millionaire bought an adjoining place. The latter was not a particularly attractive neighbor. Starting from a humble

beginning, he had made his fortune as a manufacturer of jams, jellies and condiments. But, having been made a knight and having turned country-gentleman, he strove to make the fashionable world forget he ever had been in the trade. It was reported that he grew red in the face if fruit were mentioned in his presence.

The person was touchy regarding the dignities of his new estate and his present position. He posted trespass signs in conspicuous places on the walls of his private park. One day he wrote James a rather curt note stating that James' servants, in going to and from the nearby village, were given to crossing a corner of his grounds, and demanding that the practice cease forthwith.

In reply, the novelist sent a courteous note of apology reading as follows:

My dear Sir:

I deeply am grieved to learn from you that certain of my employees have been invading your preserves. I assure you the offence shall not be repeated.

Yours regretfully,

Henry James.

"P. S.—I beg your pardon for using the word preserves." (American News Features, Inc.)

will was filed, and citation ordered issued.

In the matter of the estate of E. A. Wilson, deceased. Report of Mrs. Ocie Wilson, administratrix, of sale of real estate and three shares of stock of the Humble Pipe Line Co. Sale approved.

Final report of Mrs. Clem Rutledge, administratrix of the estate of J. F. Rutledge, deceased, filed and approved.

Amended application of Mrs. Lovie Shahan for letters of guardianship to include the guardianship of Juanita Shahan. It appearing to the court in the orders appointing Mrs. Shahan guardian of the estate of Myrtle Shahan et al, the name of Juanita Shahan was omitted. The petition was approved and letters ordered issued.

Petition of Mrs. Lora McGlothlin, guardian of Eva McGlothlin, minor, to lease one-fourteenth interest in 68 acres of land out of the Howell Hutson survey, property of her ward, for oil and gas development, was approved and authority granted to execute said lease.

Proposed Amendments in Brief

(Editor's Note: Following is a summary of one of the six amendments proposed to the constitution of the state of Texas and to be voted upon at the general election November 3.)

S. J. R. No. 3-A

The first proposed Constitutional Amendment to face the voter on November 3rd is S. J. R. No. 3-A which provides for a State dispensary system to have exclusive sale of distilled liquors and all profits from the sale of such liquors would go to the state. The sale of spirituous distilled liquors for private profit, as is now the case, is prohibited within this state, by this amendment, except when such sale is made to the state, according to B. P. Matocha, secretary of state. It is further provided that the state of Texas shall have the exclusive right to purchase at wholesale and to sell at retail such distilled spirituous liquors. Such sale shall be made only in unbroken packages and no such liquors shall be consumed on the premises where sold. The difference between the proposed plan and that now in effect would simply be one of ownership—i. e. by the state rather than the individual.

The state would maintain various places of business for the purpose of the sale of such liquor direct to the consumer. These places of business would only be maintained in the counties, precincts or incorporated towns where by local option elections such sale has been made legal.

Local option as now in effect would not be changed by adoption of the amendment. The sale of alcoholic beverages containing not more than 3.2 per cent alcohol which has been legalized in such political sub-divisions shall not be prohibited by this section.

This amendment further provides that the open saloon shall not be reestablished.

It is also provided in this

Miller, Cisco, Chevrolet sedan. Montgomery Motor Co., to E. L. DeLaney, Rising Star, Ford tudor. Montgomery Motor Co. to M. V. McConathy, Rising Star, Ford tudor. Crossley & Roach to Mrs. Mildred McGaughey, Rising Star, Plymouth sedan. Butler Chevrolet Co. to O. B. Chambers, May, Tex., Chevrolet sedan. Guy Motor Co. to Carbon Peanut Co., Carbon, Ford truck. Nance Motor Co. to W. M. Isenhauer, Cisco, Ford Pick-up. Gorman Sales Co. to Alex Phillips, Gorman, Chevrolet truck.

Human and Other Nature

By W. F. BRUCE

From my position on a flat rock at the brow of the hill I could look down a small gulch that had kept its way clear of obstructing trees and brush. For months it had carried no water to speak of and various weeds and a few stems of blazing-star had made a stunted growth along its course. But lately it had made up time as a drain way for the hill. If it was no more than trickling a tiny stream now the reason was the steepness of its slope which had quickly run off the water even within the half hour or so since the rain had quit. The leaves of the oak on either side were still dripping; the timothee and the pert little wren were in joy; the purple spikes of blazing-star fairly shone in their fresh vigor.

Even on the late afternoon of a late September day the sun came out with surprising ardor; even in the cool, damp air one was inclined to move toward the shade. The new life that seemed to have taken hold everywhere that so lately had appeared dead was recovering the lost season as if to begin all over again. Blue clouds lay along the northern sky; for a minute or two a northerly breeze crept up the gulch and quickly tempered the still heat of the afternoon sun. That breeze was ominous—a gesture in advance. A summer that lost its opportunity in drought is one with us all who lose our opportunities. It can regret; it can resolve to do better next year; but the past season has done all that it can. It was not long until a wind sprang up in earnest; the tempest began a decline; we were in the midst of our first northern. That last beautiful display of summer was not a beginning again, but a farewell.

NOT KIDNAPED, MARRIED WHEELING, W. Va. (AP)—Parents of Mildred Joseph feared she had been kidnaped, and asked police aid. Then they received a telegram announcing her marriage to Samuel Daniels.

"Under the Courthouse Roof"

THE NINETY FIRST DISTRICT COURT

(Judge Davenport, Presiding)

Judgments and Orders

The following judgments and orders were handed down in the 91st court:

Oral Rich vs. Claudie Rich, divorce. Judgment for plaintiff for divorce. Custody of minor children was awarded to defendant, and it was further decreed by the court that plaintiff should contribute \$1.00 per week to the support of said minor children, and costs be taxed against plaintiff.

E. H. Ramsey vs. Citizens State Bank of Cross Plains, dismissed at plaintiff's cost.

Mrs. L. J. Pipkins vs. Arab Gasoline Co., damages. Dismissed by agreement.

Mrs. L. J. Pipkins vs. States Oil corporation, damages. Dismissed by agreement.

Ethel Stevens vs. O'Neil Stevens, divorce. Judgment for plaintiff for divorce and custody of minor child.

Earl Henry Connell vs. Josephine Connell, divorce. Judgment for plaintiff for divorce and restoration of maiden name of Josephine Brown.

Jury Commission

Judge Davenport named a jury commission, consisting of F. E.

Harrell, Cisco; Dr. R. H. Hodges, Ranger, and Frank Castleberry, Eastland, to draw juries of 40 names for service the second week of the October week, beginning Oct. 19; and for the sixth week, beginning Nov. 9. The jury commission met Tuesday morning and proceeded to draw said juries as per the order of the court.

THE EIGHTY EIGHTH DISTRICT COURT

(Judge Patterson, Presiding)

Cases Pending

The following new cases are pending in the district clerk's office for trial in the 88th court:

C. C. Raspberry vs. Willie Price Raspberry, divorce. Lela Belyen vs. Cyril Belyen, divorce.

Judgments and Orders

George J. Brown, guardian, vs. Lee Dabney et al. Order correcting a former order of the court, wherein it was ordered that plaintiff be required to file security for cost. It appearing to the court that plaintiff was prosecuting his cause of action as guardian, and being from the necessity of filing a cost bond, the former order was set aside.

Pauline Bailey vs. Melvin Bailey, et al. et al. set aside marriage contract and marriage. A proceeding to the court that the marriage contract was obtained by misrepresentation, and said marriage and contract was never in legal existence. The decree of the court was that said marriage was void, and of no effect.

Land Title Bank & Trust Co. vs. E. O. Holland et ux, suit on paving contract in Ranger, and foreclosure of paving lien. Judgment for plaintiff for \$117.35, interest, attorney's fees and foreclosure of lien and cost of suit.

It was the order of the court

that the juries selected for the second and third week of the September term be excused and recalled for jury duty for the weeks beginning October 5 and October 9, respectively.

IF YOU BUY A CAR AS YOU'D BUY A BOND... YOU'LL CHOOSE PLYMOUTH

When you buy a bond or other security you make your investment on the basis of that security's future worth—what its value will be in one, two or more years. That's the wisest way to buy a car, too. Comparison of prices brought by "All Three" lowest price cars after a year or more, shows that Plymouth brings up to a hundred dollars more than the others. Yet the new car prices of "All Three" are just about the same! Before you buy your new car, compare year old prices. Then drive a new Plymouth. Discover for yourself the reasons for Plymouth's better value!

Largest Jersey Show Exhibited By 4-H Clubs

The largest 4-H Jersey show ever exhibited at an Eastland County fair, was exhibited last week, according to Hugh F. Barnhart, assistant county agent. Nine of the ten registered Jersey heifers recently purchased were on exhibit. John Underwood, veteran Jersey breeder of Denton county judged the show and made the following placings in the 4-H club Jersey division:

First, Jack Walker, Alameda boys' 4-H club.

Second, James Dean, Alameda boys' 4-H club.

Third, Buster Wheat, Morton Valley boys 4-H club.

C. P. Pierce, a Denton county Jersey breeder accompanied Mr. Underwood to Eastland to see the Jersey show and the four Jersey heifers which he sold to the Eastland county 4-H club boys in July. Mr. Pierce praised the 4-H club boys very highly for the condition and the manner in which they had fitted their calves for the show. Mr. Pierce was so well pleased with one of the heifers, which he sold to one of the boys in July, that he made the club boy an offer to buy the heifer back, paying him a nice profit on his calf, however, the offer was declined by the new owner.

The boys exhibiting at the show were: Glenn Justice, Flatwood; Cecil Caudle, Flatwood; Jack Walker, Alameda; James Dean, Alameda; Edward Gideon, Ranger; Joe Don Meroney, Ranger; Buster Wheat, Morton Valley; Elbert Bennett, Kokomo, and L. R. Higginbotham, Kokomo.

Several of these heifers will be on exhibit at the Cisco Livestock Show, October 16th and 17th, and in November they will be taken to the Texas Centennial Show in Dallas to compete against the other 4-H club boys of the state.

A small number of 4-H club boys entered the 4-H club pig show at the Eastland County fair this year. However, those pigs exhibited were in excellent condition for the show. County Agents Knox Parr and Leon C. Ranson of Taylor county, who were the livestock judges of the show, made the following decisions:

Pigs 175 pounds and under—

First, James DuPuy, Kokomo Boys' 4-H club.

Second, Marlin Sneed, Ranger Boys' 4-H club.

Pigs 176 pounds and over—

First, Neal Eaves, Kokomo Boys' 4-H club.

Second, Billie Bohanan, Carbon Boys' 4-H club.

Billie Bohanan, member Carbon Boys' 4-H club, who exhibited his chickens at the Texas centennial recently has received a letter stating that he won 3rd and 4th place on his Brown Leghorn pullets.

FLY AFFECTS SEEDING

URBANA, Ill. (AP)—University of Illinois entomologists say that, considering infestations of hessian fly, three days' difference in the time of seeding wheat may make a difference of from five to fifteen bushels yield to the acre. This conclusion is based on surveys in Illinois and elsewhere where hessian fly infestations threaten the wheat crop.

If each descendent lived and bred normally, a pair of meadow mice could have 275,000,000,000 descendants in 10 years.

LAKE REACHES HIGHEST MARK

Over 2 1-2 Inches Of Rain Falls Here

More than two and a half inches of rain which fell here Sunday brought the water level of Lake Cisco to the highest point in its history. It was reported by Water Superintendent G. R. Kilpatrick Monday morning to be at a little more than 82 feet.

The previous high water mark, Kilpatrick said, was 81 feet on September 7, 1932.

The hard rain Sunday brought the total for this month to 10.6 inches and for the year to 24.6 inches.

PROTECT PRECIOUS EYESIGHT WITH Enough LIGHT

The true economy of having enough light and the right kind of light at every point in the home where reading, study or sewing is done, is just beginning to be appreciated. It has all come about as a result of the recently disclosed figures which show that 20 out of every 100 children of school age, 40 out of every 100 of college age and 60 out of every 100 adults, suffer from defective eyesight. It isn't all due to lighting, but eyestrain is most easily developed by insufficient and improper lighting. Please don't risk precious eyesight. Find out about your lighting.

HOW CAN YOU TELL WHEN YOU HAVE LIGHT ENOUGH?

It is no longer a matter of individual opinion. Now light can be measured; you can quickly determine for yourself just what your needs are by means of the marvelous Light Meter—an amazingly accurate measuring device for light.

Don't Guess—Have your home lighting Checked with a Light Meter

One of our representatives will gladly bring to your home a Light Meter and other special equipment designed to show you quickly the effects of good lighting and to assist you in planning lighting for greatest eye comfort, safety and attractiveness. This interesting and helpful service will cost you nothing. Just phone or call and we will arrange a check-up at your convenience.

See the new I. E. S. Better Light-Better Sight Lamps which give much more light at low cost. See them at our display room.

It takes 3 long years to cure and age tobacco for Chesterfields

You can't make a good cigarette in a hurry. While the world whirls through space to measure off the years, Chesterfield's mild, ripe tobaccos are packed away in warehouses—ageing and maturing for mildness and better taste.

And keep this in mind... It's a long slow process, this mellowing of cigarette tobacco, but it's the only way yet discovered to produce a milder better-tasting cigarette.

The Wrong Murderer

By HUGH CLEVELY

Chapter Five STICK-UP

It was evident that there was going to be action shortly. He made his way to entrance number three. A short distance from the entrance two black-clad monks were lounging.

"Blast!" said Mahony briefly. He realized that he was in the wrong costume. He hurried to the men's cloak-room, changed his costume about, and returned as quickly as he could entrance number three. During his absence the black-clad monks had been joined by another monk dressed in dark-brown. He hung about near them.

By this time the gaiety had reached its highest pitch; everyone was noisy and excited. A thousand people were enjoying themselves irresponsibly and a little drunkenly, not caring what anybody thought of them or how much row they kicked up.

As the floor emptied, Mahony caught sight of Elsa and the Charles the Second coming towards the exit. When she was nearing the exit, the monk in brown stepped forward. The black monks drew closer together, as if preparing for action.

"Hail! Queen of Hearts!" exclaimed the brown monk in a loud, jovial voice. "Let us salute her, brothers."

He made a flamboyant gesture with his right hand, beckoning the black-clad monks. Laughing loudly, they ran forward, surrounding Elsa. Mahony went with them. It was his intention to stay with those monks as long as he could, and find out what they meant to do.

"Form a circle," commanded the brown monk. "Dance, brothers, dance."

The masked figures joined hands, forming a circle, and began to dance wildly round Elsa and the Charles the Second. It all looked perfectly natural and harmless, merely a rag by a small party of people occupying a small space on the big floor. Elsa stood in the middle of the circle, laughing; the sight of those solemn figures capering round her amused her.

"Let's take her to the monastery, brothers," shouted the brown monk suddenly.

He plunged into the middle of the circle, picked up Elsa's light figure easily in his arms, and began to carry her towards one of the exits.

"Make way for the Queen of Hearts," he shouted.

Laughing and shouting, the other monks crowded round him, clearing a way through the throng. Nobody attempted to interfere; it was still so obviously merely a harmless rag by a small party of irresponsibles. And Elsa did not seem to mind much. One effort she made to escape from her captors' arms; then she remained quiet and ceased to struggle.

Shouting and singing, the party surged along a passage, crossed the vestibule, and went out by the main doorway of the hall into the street outside. A short distance away a big car was waiting with its engine running, and they made for it. The brown monk thrust Elsa into the car; the other monks scrambled in after them.

Mahony entered the car with them. Nobody tried to stop him. Under his robe, his hand was clenched on the butt of his pistol; he was ready for anything that might happen. Nothing happened except that the car started.

"That went off all right," observed the brown monk in a tone of hearty satisfaction. "I pushed the needle into her as I picked her up; she hardly moved at all. Now don't forget your instructions. As soon as we've delivered her, we get back into our Arab make-up and return to the hall at once. Nobody will have missed us during the short time we shall be away, and when it's discovered that she's not there, somebody who's still fairly sober is sure to remember that she was carried off by a party of monks. A pretty scheme. I have to hand it to Mul-

grave; he certainly is a neat schemer."

"Yes, if he thought of it himself," observed another monk. "He probably got his orders typed in red on a sheet of blue paper with a number at the top."

"Well, whoever gave the orders, we did the job," said the brown monk. "And a very neat job we made of it. All we have to do now is to hand her over and get back to the hall."

Mahony sat silent, saying nothing. He did not feel in the slightest degree nervous. Nor did the fact that he might have to shoot one or two of these men trouble him at all. It did not seem to occur to any of them to question Mahony's presence among them.

The drive did not last very long. After twenty minutes they turned off the main roadway and drew up inside a small timber-yard off a side street in Hounslow. Another car was drawn up inside the yard. In an office on the right-hand side of the yard a light was shining.

A man emerged from the office and came up to the car.

"Okay?" he asked.

"Okay," replied the brown monk. "We got her all right. Where do you want her?"

"Put her in the other car," replied the man. "Then go into the

office and change your costumes round."

"We'd better get out first," said one of the monks. "Then we can get her out more easily."

"They all stepped out of the car, Mahony last."

"It's been a nice party," he said. "But it's over now. Stick your hands up, all of you!"

From under his robe his hand came out, holding his pistol.

There was a moment's stupefied silence. Then the brown monk spoke.

"What the . . . And who the blazing hell are you? I wondered why there were four of us," he exclaimed in an astonished tone.

"Where the devil do you come from, and what's your game? I thought the Chief must have sent another man at the last moment."

"You shouldn't think," said Mahony. "It's a bad habit. Now just step back a bit, please."

"Half a moment. I . . ." began the brown monk. He broke off suddenly, uttered a startled exclamation, and pointed toward the back of the yard over Mahony's shoulder.

Several Eastland County Terraces Serving Effectively After 21 Years

Several sets of terraces in Eastland county have been in existence 21 years and are still effectively controlling water and wind erosion it has been discovered, in a search for the oldest terraces in the county by the county agent, Elmo Cook.

Jim Horn of Union community, five miles east of Eastland, constructed five terraces on 10 acres of his poorest hill-side land in 1915 with a team, a home-made draw, and a turning plow. The terraces are more than 20 feet wide and 15 inches high. There are no washes in the field, no breaks in the terraces, and no ditches at the terrace outlets.

Mr. Horn says the terraces have increased his yield at least one-tenth. He has never had a crop failure on the terraced land but has in the flat below the terraces, where his stoniest land is located.

The same year that Ed T. Cox, ex-county agent of Eastland county ran the terrace lines for Jim Horn, he ran lines on three farms in Pleasant Hill community six miles southeast of Cisco for B. F. Trott, R. L. Poe, and W. J. Poe. The Trott farm is now owned by R. C. Hagan, who was told last year by a peanut buyer that the nuts raised on the terraced land were the best ones that buyer found in 1935. Terraces on Hagan's farm are holding perfectly and kept in good repair.

Edgar Altom, who now owns the W. J. Poe farm stated that similar land in the community but not terraced was now practically worthless in many cases. He thinks his terraced land almost as good as when it was first put into cultivation.

Terraces on the third farm in Pleasant Hill community, the R. L. Poe farm have served a good purpose in spite of trouble from water running into the field from a pasture above.

sister, Mrs. West, whose husband is reported to be very ill.

MRS. M'DONALD FUNERAL HELD

Rites at Baptist Church Tuesday

Funeral for Mrs. Eula McDonald, widow of W. H. McDonald, Cisco justice of the peace for many years, took place at the First Baptist church Tuesday at 2

o'clock, the Rev. E. S. James, pastor, officiating. Burial was in Oakwood cemetery.

Mrs. McDonald was a hotel proprietor in Cisco for a long while, operating the Eppler house, one of the oldest hostleries in this section. She was first married to Jonathan Eppler who died about 1912 and later to Mr. McDonald, whose death occurred about four years ago. Her own death took place Monday ending an illness of some duration.

Pall bearers for the services were Joe Wilson, Homer Bible, Jewel Poe, J. C. Horton, E. D. Roan and Asa Skiles. Green funeral home was in charge of arrangements.

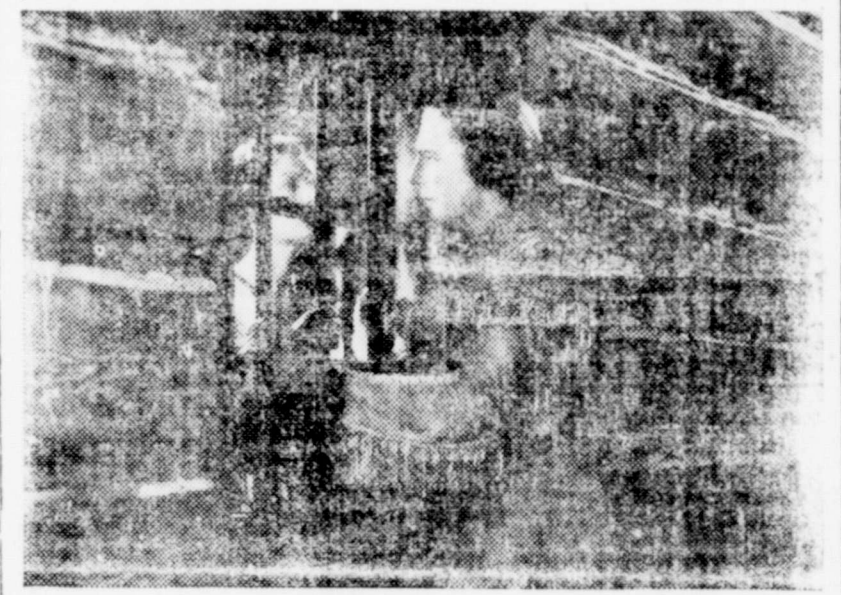

MUSLIN FOR CURTAINS LONDON (AP)—Short curtains are being made of spotted muslin.

WHAT HAS GONE BEFORE: The French, under General Montcalm, are besieging Fort William Henry, defended by Colonel Munro with a force of British troops and Colonial Irregulars. Major Heyward and Munro's two daughters, on their way to the Fort, are captured by Hurons, but saved by Hawkeye, a hunter, and two Mohican chiefs, Chingachgook and Uncas, father and son. Uncas slips out to deliver a message for relief, but is wounded by Huron pickets, and rescued by Heyward.

Chapter VIII TWO LOYALTIES

Uncas' wound was superficial. It was the force of the blow that had brought him down. He hardly winced when Chingachgook, brushing the surgeon aside, grasped the arrow shaft with both hands, and forced the barb through. Uncas was placed in the fort hospital, however, where Cora insisted on nursing him. She was with him when Hawkeye entered with Chingachgook.

"They'll hang you"

"Is he all right?" Hawkeye inquired. "No," Chingachgook answered rumpily, in his own language. "Got squaw-fever."

Hawkeye grinned. His smile faded, however, when he noticed the arrow taken from the wound. "Ottawa arrow!" he exclaimed. He and Chingachgook exchanged significant glances. The Ottawa were a large tribe, and notoriously cruel in their treatment of white prisoners.

That night Hawkeye and Chingachgook went on a reconnoiter of their own. As they snaked towards the French lines, the form of an Indian picket loomed before them. Hawkeye leaped, and before the Indian could cry alarm, had throttled him. Chingachgook's knife accounted for a second picket. Delaying only for the Indian to secure the scalps, the two proceeded stealthily within the French lines.

Around a blazing campfire, Magua was addressing his fellow Hurons. His paint-streaked features were further contorted with anger. His arms moved eloquently in keeping with his Indian oratory.

"Must we stay," he demanded, "and watch big guns firing at Yengeese fort? Our brothers, the Ottawa are leaving—they will rather scalp in Yengeese village."

The Hurons granted approval. "I do not speak with crooked tongue. There is no honor for Hurons if others gather pale-face scalps. We must make our tomahawks wet with the blood of our enemies! I have spoken."

The tom-toms thumped. The Hurons' war whoops arose as the savages broke into a war dance. Hawkeye and his ally waited to hear no more, but slipped back through the lines to Fort William Henry.

At Munro's headquarters, Hawkeye pounded on the desk. "I tell you, we saw them—heard them! Magua's working them into a frenzy!" His voice lowered, and he began to plead with the men seated before him. They were Munro, Major

October 5th 4-H Club Boys Day at Fort Worth Show

A letter received recently by Hugh F. Barnhart, assistant county agent, from L. L. Johnson, state boys' club agent, advising him that Monday, October 5th, has been designated as 4-H Club day at the Fort Worth Frontier centennial. All 4-H Club members will be admitted free to the grounds of the livestock show. County Agent

Barnhart, urged all 4-H Club boys to make this trip if at all possible, as this is one of the best livestock shows held in Texas this year. 4-H Club Boys who go to Fort Worth on October 5th, were instructed to call at the ticket booth on the Frontier Centennial midway entrance and secure admission tickets free of charge.

Farm Benefit Pay Starts in October

WASHINGTON, Oct. 1. (AP)—The flow of federal benefit payments to 6,000,000 farm owners, operators and tenants will begin early in October but that only one in 20 or 30 will receive his check before election day, Nov. 3, AAA officials said.

"We have had many appeals, especially from drouth states, to expedite the payments and we are going to do everything we can to see that they are promptly paid," said H. R. Tolley, the farm administrator. "We hope to be able to get somewhere between two and five per cent of the total payments out next month."

HOLDS JOB 45 YEARS

ST JOE, Ark. (AP)—Rev. W. T. Nicholson, 74, retired after 45 years of service as a minister, held only one pastorate during his career, that of the Bellefonte, Ark., Presbyterian church. Although retired, Nicholson still is kept busy presiding at funeral services, preaching and giving temperance lectures.

Case Worker To Be in Office On 3 Days a Week

Miss Elsie Glenn, case worker for Eastland County Family Welfare association has announced her office hours for the convenience of her clients: Monday, Wednesday, in office from 8:30 a. m. to 5 p. m.; Saturday mornings: 8:30 a. m. to 12 noon. At no other time will clients be able to see her as the other days are spent in home visits over one-third of Eastland county, she said.

She also announced that during the month of October no families on WPA will be given clothing; only those who receive county aid and those who receive commodities will be eligible.

Those wishing to apply for WPA jobs, will contact the Texas relief commission case workers who are in Cisco each Wednesday from 8 a. m. to 5 p. m. at city hall.

Miss Glenn said she wished to make it clear to those interested that she is not connected with WPA or the work division and that it is useless to come to her seeking employment, as she handles only county funds and commodities.

Poultry and Eggs Shipments Above Those Year Ago

(Special to The Daily Press)
AUSTIN, Oct. 1.—Poultry and egg shipments from Texas to interstate points during August continued at a low level reflecting seasonal influences, but the total was considerably above August, 1935, according to the University of Texas bureau of business research.

Combined shipments of poultry and eggs, 73 cars, were almost 33 per cent greater than the 55 cars shipped in August last year. There were 36 cars of poultry and 37 cars of eggs whereas last year there were only seventeen cars of poultry but 38 cars of eggs.

"The high cost of feed in comparison with egg prices, together with favorable prices of poultry is obviously causing poultry producers to cull out their flocks more rigorously than a year ago," the bureau report said. "Interstate receipts of eggs amounted to only three cars, against four in August last year."

Common Schools To Pay Teachers Cash

EASTLAND, Oct. 1.—C. S. Eldridge, county superintendent of education, has announced that arrangements are being made to pay all common school district teachers their salaries in full in cash for the first three months of the year. Schools are now going with a full program, said the superintendent, and it looks like a good school year for the county.

Car Stolen in Cisco Is Discovered Burned

County officers Monday discovered between Eastland and Carbon the burned remains of a Packard automobile reported stolen here Saturday night.

The car was reported to have been stolen from Ralph Salter of Brownwood, who was staying at the Laguna hotel.

CAR STRIKES CISCO YOUTH

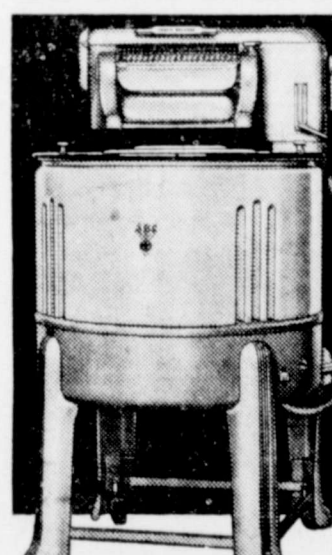

Evon Humphreys, 15, Is Hurt Sunday

Evon Humphreys, 15-year-old son of Mr. and Mrs. Lee Humphreys, was removed to his home Monday morning from Graham sanitarium after treatment for a severe scalp laceration and other injuries received when he was struck by a car while riding his bicycle at the intersection of D avenue and Ninth street about 8 o'clock Sunday night.

The car, a small coupe occupied by two youths from DeLeon who gave their names as Smith and Strickland, struck the boy as it turned into Ninth from D, the right front fender knocking the bicycle and its rider about 10 feet. The DeLeon youths said they did not see Evon, who was trying to get out of the path of the machine when hit. They picked him up and took him to the hospital where he was unconscious for a considerable time. His most serious injury was a cut on the back of his head which required several stitches to close.

It was the second time that Evon has been struck by a car this year, the first accident occurring on January 1.

entire engraving and make it unreadable.

It was impossible to use an electric light bulb for illuminating the work. The heat from the bulb expanded the parts sufficiently to raise the cutting point entirely off the engraving within an hour after it had been correctly adjusted. Cold drafts likewise had to be avoided.

Knapp was troubled also by floating dust particles. When one of them settled on the cutter point it bulked so large under the microscope that it obscured view of the point and work. The only remedy was to take the cutter out and remove the particle.

Another difficulty was keeping

the cutter point sharp. This was solved by making a point which under the microscope was blue and bullet shaped. The surface was engraved had to be polished smooth and flat within 1-100th of an inch. Rouge face powder and many other materials failed to do this, but polishing with the kid leather was successful.

Members of the West Yorkshire regiment held an "at home" in the Tower of London, first function of its kind.
