FLOOD BREAKS OVER CAIRO SEAWALL

Through the Editor's Spectacles

By GEORGE

There was a crumb of comfort in Judge's report this morning that a file of geese, numbering an estimated one thousand or more, were seen Saturday near noon honking their way northward over Cisco. That, observed the Judge out of the wisdom of 70-odd winters, was a sign that the backbone of the cold season was broken. I don't know about that, but I'll bet a cookie those geese ran into quite a surprise up the Amarillo way.

Howsomever, the tenor of the weatherman's report today indicates that the current spell of discomfort will be short-lived as compared to the duration of previous spells, and we may hope for some relief tomorrow. It is quite true that one can freeze as dead in half an hour as in ten days, but the prospect of enduring a cold wave only two days is certainly to be preferred above an outlook for two weeks of frigidty such as this community experienced in January.

Tomorrow is ground-hog day, the day upon which the reactions of the little woodchuck to his tentative expedition from his winter quarters are closely watched for indication of what weather is yet to come. You know the superstition. And from the predictions for tomorrow, we may have six weeks more of bad weather if the tradition has any truth.

The cold weather, increased sickness and the large number of needy aged who have been dropped from the pension rolls have added to demand for relief which the Cisco Charity and Welfare association must meet, President J. C. McAfee pointed out this morning after a meeting of the board at the city hall. There were 14 organizations represented at this meeting, he said.

Bedding is sorely needed at this time. Anybody with bedding, old clothes, shoes and so forth to spare is urged to contribute the articles to the association at once so that they may be distributed to places of need.

Gas Proration in Texas Panhandle Is Ruled Invalid

WASHINGTON, Feb. 1. (AP)—The supreme court today held invalid the Washington state law imposing a fee on railroads and other public utilities for use in paying the expenses of regulating them, ruling that the state failed to prove the tax did "not exceed what was reasonably needed for the service rendered."

The court also declared unconstitutional the move by Texas to limit production of natural gas in the panhandle field and allocate the amount among producers. Texas officials contended that it would halt the waste of millions of cubic feet of gas which has been allowed to escape in oil well operations or burned without use.

Weather

WEST TEXAS—Partly cloudy and colder in the southeast portion and warmer in the panhandle tonight; Tuesday, rain in the north and west portions.

EAST TEXAS—Cloudy and colder, with rain on the west coast tonight; Tuesday, rain on the west coast and southwest portion; colder on the coast and warmer in the northwest and north-central portions.

HOUSE GROUP OKAYS BILLION DOLLAR BILL

\$245,000,000 Provided for Social Security Board

WASHINGTON, D. C., Feb. 1. (AP)—The house appropriations committee today approved an appropriations bill providing over a billion dollars for the more than 30 governmental agencies for the fiscal year starting July 1.

This is an increase of \$60,000,000 over the current year.

The major appropriations were \$585,000,000 for the veterans administration and \$254,000,000 for the social security board.

The security board estimated it can provide \$9.50 assistance monthly to over 1,350,000 persons 65 years of age or older, the contribution matching the amount given by each state.

It also plans to provide \$3.67 of \$11 monthly from federal and state governments for dependent children, assisting 1,130,000, and to match \$12.50 with a similar amount from the states to aid needy blind.

Pension Comm'n Investigators Are at City Hall

W. W. Kelly and Mrs. Lula Riddle, investigators for the Aid Age Assistance commission are in Cisco at the city hall this afternoon interviewing old age pension beneficiaries who were cut off the rolls and receiving their signed requests for re-instatement. Mr. Kelly will remain at the city hall through tomorrow afternoon and from here will go to other towns in the county. He plans to be at Higginbotham Bros., Rising Star, Thursday, and will be at Eastland Friday, as regularly.

Visit of the investigators here was undertaken as a means of aiding the large number of aged pensioners suddenly dropped from the rolls and unable to make personal visits to the district office at Abilene to request re-instatement.

Mr. Kelly made it clear that only those once on the rolls and now dropped should seek interviews and sign the requests. "We must give our time first to these," he said. He also emphasized that those who have property or some income and are not actually in need should not seek re-instatement.

Cisco Loboes to Meet Ranger '5' Tonight at 7:30

The Cisco Loboes will play the Ranger Bulldogs tonight at 7:30 in the high school gymnasium it was announced today. Several fights will also be on the program.

Cisco defeated the Ranger quintet in their first meeting, 40 to 12 recently, but the Bulldogs, though losing in the Rising Star meet last week, showed an improved form.

Ranger will bring four or five boxers to meet the local team in the other part of the entertainment.

Wednesday night the Lobo five will clash with Mineral Wells, whom they defeated last week by a score of 19 to 11 on the latter's home court. The invaders will also bring eight fighters to meet the local scrappers.

WHO'S WHO SHUNS TWINS

TUSCALOOSA, Ala., Feb. 1. (AP)—Dr. Roland M. Harper of the University of Alabama says that after extensive research he has been able to find no case of identical twins both of whom are listed in the publication, Who's Who.

Student Gives Rat Fifth Leg Between Ears

By AURELIUS KINSEY
AP Feature Service Writer

CHICAGO, Feb. 1.—A white rat with a fifth leg growing out between its ears runs across the table and Justin V. Schwind, 24, Loyola university medical student, smiles—the operation is a success.

Schwind picks up another rat, points to an extra leg growing out of its back and says, "Watch it move." It moves whenever he squeezes one of the rat's hind feet.

Schwind is transplanting legs from one rat to another in such a way that the bones, muscles, nerves and blood channels grow together and work.

One Step Forward

Medical records show that legs have been transplanted in salamanders and dogs but never before.

Schwind's 5-Legged Rat

fore, says this youth from Perryburg, Ohio, have scientists been able to regenerate nerve and muscle activity.

He hopes that some day missing or diseased legs, arms, lungs, livers, stomach or other parts of the body may be replaced with healthy members.

Schwind's method is like that of plastic surgery. Instead of severing a member completely and trying to make it grow elsewhere he makes the transfer in two steps.

Binds Two Together

First he binds the donor and recipient together. Then he severs half of the leg to be transplanted, unites exposed muscles, nerves and skin to where he wants them to grow and lets his work mend. After several days, when the mending is complete, he cuts off the leg entirely and ties in the circulatory connections and other muscles and nerves.

Schwind says his success lies in the fact that between the first and second steps the part being transplanted is kept alive with the donor's blood. He is not certain if the blood courses through the two bodies but he thinks this to be the case.

CISCO CAGER GIVEN AWARD

Lobo Forward on All-Tournament '5'

Odell Harrison, star Cisco Lobo forward, was presented with a silver basketball by Principal O. L. Stamey this morning at the high school assembly for his outstanding work in the invitation basketball tournament held in Carbon last weekend. The Lobo basketball team was picked on the all-tournament first team. Sixteen teams competed at the meet.

Odell, along with his twin brother, Marcell, were the leading offensive threats for Cisco during the two tournaments the Loboes entered last week. Together the twins scored practically all the Lobo points.

The presentation this morning brings visions of a great Lobo cage team next season because the twins and their brother Cullen, a tall blond-haired lad, and Gordon Sherman, Lobo guard, who turned in outstanding performances in the tournaments although suffering from a severe cold, will all return next season. There is a possibility that Bacon, Cisco center, who played two great games in the Rising Star meet, will be back for next year's five.

Mr. and Mrs. Joe Baum of Cross Plains were guests of Mrs. Joe Shackelford Sunday.

Freezing Nearly to Gulf Is in Prospect

(By Associated Press)

Freezing temperatures were forecast nearly to the gulf coast tonight, with the weather bureau warning shippers as far south as Houston and San Antonio.

Snow flurries came to the panhandle last night. Thermometers registered at 11 degrees at Amarillo.

The extreme north will be warmer tomorrow.

Misting rains accompanied by cold in many sections.

The New Orleans weather bureau ordered small craft warnings on the Texas coast.

BLUM - HITLER CONVERSATION IS PROPOSED

Meeting Felt Better Move Toward Peace in Europe

(By Associated Press)

French and German war veterans maneuvered today to have Premier Blum and Chancellor Hitler conduct direct conversations in an effort to ease the European situation. The purpose would be to settle the differences over collective peace, believing this method better than "idea exchange across space."

Spain's socialist-fascist struggle remained the most disturbing factor. The government claimed to have won a victory in the western section of Madrid, and the insurgents were reportedly isolated in Malaga, an important seaport.

France's alliance with Russia was the Franco-German stumbling block, Hitler demanding soviet exclusion from the "international community."

Cisco Lobo Band Gives Concert at Hi School Today

Robert L. Maddox presented his Cisco high school Lobo band this morning to the students in a variety musical concert in the high school auditorium at the activity period.

The program consisted of two overtures, a popular medley, and one march. In preparation for the band contest to be held in Lubbock, the band has worked mostly on overtures, Mr. Maddox said.

The program was as follows: "Sir Galahad," overture; "Linger Awhile," "Alice Bluegown," and "I'll See You in My Dreams," medley; "Poem," overture; "Alexander's Rag Time Band," march.

Brother-in-Law Near Death in Road Crash

Little hope was held this morning for recovery of E. R. Hornbeck, Baird oil operator and brother-in-law of Mr. and Mrs. O. J. Russell of Cisco, who was injured in a highway crash east of Abilene about 3 o'clock yesterday afternoon. Mr. Hornbeck had not regained consciousness this morning, Mr. Russell was informed in a telephone message from Mrs. Russell who remained at Abilene last night while Mr. Russell returned to Cisco. Russell left at once.

Mr. Hornbeck suffered a fractured leg, the knee of his other leg was crushed, and he sustained a head injury which proved more serious than first suspected, and many other injuries when his car struck a concrete bridge railing as he drove home from an oil lease north of Abilene. One wheel of his car struck the soft earth at the side of the pavement as the machine either ran off the concrete or was forced off by another vehicle, it was said.

Lindberghs Off On Pre-Birthday Flight

LYMPNE, Eng., Feb. 1. (AP)—Col. and Mrs. Charles Lindbergh took off today for a destination described by airport officials as probably Cairo, Egypt.

It was a pre-birthday flight for the famous aviator who will be 34 Thursday.

A total of 2,843,452 North Carolinians were born in their state.

TRUE FISH STORY

A Winter Trip On A Boston Trawler

Fishermen, evidently, are still a hardy breed. Here, in story and pictures, Howard F. Burdick, reporter on The Sun, Westerly, R. I., tells of his experiences during a just-completed trip to the "Grand Banks" off Newfoundland.

By HOWARD F. BURDICK

WESTERLY, R. I., Feb. 1.—Did you ever go out to the offshore fishing banks on a Boston trawler in the winter? I've just been out there on the latest thing in trawlers, the "Surf," owned by the Bay State Fishing Co., of Boston. She is a fine vessel and her diesel engine is a faithful one. But don't let any humorist tell you that winter fishing on Sable Island Bank is a picnic.

It isn't!

If you can stand from 7 to 14 days of constant rolling and pitching, if you like snow and sleet and stinging nor'westers and plenty

ORDER WOMEN AND CHILDREN TO QUIT CITY

All-Time Record Is Reached as Ohio Pours Southward

(By Associated Press)

The Ohio river today broke over lower portions of the Cairo, Ill., seawall, principal danger spot in the 1,200-mile battle against the flood.

Women and children were ordered to leave the city as the river reached an all-time record crest. Relief crews remained alert for a weak spot in the wall, and boats stood ready for emergency evacuation of the city as, falling steadily in the north, the waters poured into the Mississippi with terrific force.

Paducah, Ky., was completely evacuated.

The government was aiding nearly 1,000,000 persons driven from their homes throughout the flood area. The Red Cross announced that its goal of \$10,000,000 for relief work was in sight.

Cisco Must Fix Two Dates Upon 1937 Grid Card

Cisco, Abilene and Eastland today were seeking to compose a problem of football schedules for 1937 in order to complete the calendar which was worked out, with the exception of two games, at Abilene Saturday night. The contests between Cisco and Abilene and between Cisco and Eastland are yet to be slotted. Eastland and Cisco have open dates on Thanksgiving, but Eastland doesn't want to play Cisco then, and Abilene is open October 29, the date that Eastland wants to meet the Loboes.

Stephenville was admitted to the district, bringing the membership to ten, and Mineral Wells, applying for admission, was voted in and ten minutes later voted out. A move to split the district into two divisions, with a playoff at Thanksgiving was adopted and then voted out in favor of a round robin schedule as heretofore employed.

Committee May Set Dates

Abilene and Cisco and Cisco and Eastland were advised to come to an early agreement on dates for their action to set these dates.

Following is part of an account of the meeting as published in an Abilene newspaper:

"Stephenville was accepted as the tenth member of the circuit, but hardly with glad hands and open arms. In fact the body once voted to make out its autumn program excluding the Erath county club until a committee could be sent to Austin to argue against the admission of the new school. This action was rescinded, however.

"Passage and reconsideration of motions were typical procedures of the session. For hours, it appeared that the district would be split into two sections, with a Thanksgiving playoff between the winners. Breckenridge, Cisco, Ranger, Eastland, Brownwood, and Stephenville lined up like the Sol-

(CONTINUED ON PAGE 2)

Liquor Tax Boosts Revenue of State

FRANKFORT, Ky., Feb. 1. (AP)—Beer and whisky manufacturers and drinkers are swelling Kentucky's treasury, an examination of records of the department of revenue reveals.

The production tax on distilled spirits during the last six calendar months of 1936 was almost 100 per cent larger than during the same period of 1935.

For the 1935 period the tax amounted to \$1,316,803; for 1936, \$2,347,323.

Here They Come

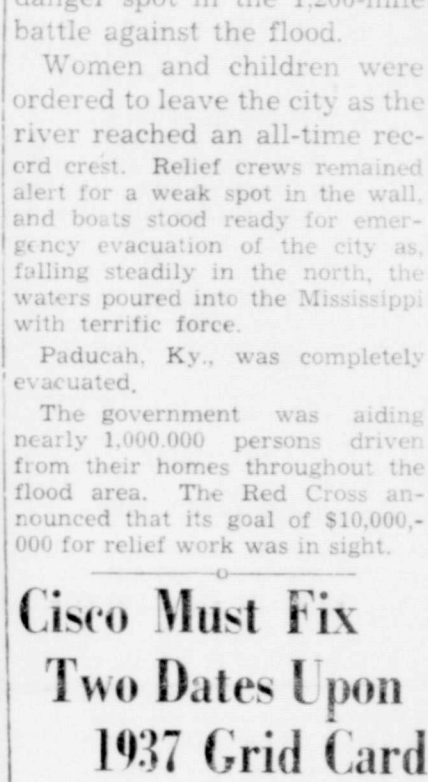

of good plain food with salt spray to wash it down with, however, take a trip to the banks. You may not sleep well for a night or two. Like riding a horse, you have to acquire the feel of the vessel and, unless you lash yourself into your bunk, you must also be something of a "bareback" rider.

You'll thrill to the big hauls of cod, haddock and other varieties which those big boats catch. When the net heaves up alongside and you get a glimpse of the "cod-end," your eyes will bug right out and you won't be ashamed of it either. And those fishermen: Norwegians, Icelanders, Nova Scotians. Hardy? You bet! They work in shifts of 6 hours for days on end and in the worst weather this writer's ever sampled. Can they eat? You should check over the grub that goes aboard one of those trawlers before they sail.

During the little lulls of fishing, all good fellows gather 'round the galley stove. Here's Jim Evans who lost all his toes while sealing in Behring Sea. Here's Mate Magnusson who lived in Iceland until he was 15.

And there's the story of the girl reporter who stowed away last summer in the lifeboat of a Boston trawler and wasn't discovered until 6 hours at sea. Did they turn back? No! Did she get a whale of a story? She most certainly did.

There They Are

No Morning Services In Nazarene Revival

No morning services for the present are being held in the revival services being conducted by the Rev. Noble E. Berryhill, evangelist, at the Nazarene church. Services begin each evening at 7.30.

A large audience heard the evangelist last night.

Miss Linder Honored at Dinner Saturday

Miss Edleen Armstrong entertained Saturday evening at her home in Humboldt with an informal dinner honoring Miss Marjorie Linder who has returned from the east where she had been since June.

Present were Misses Betty Lou Powell, Louise Lawson, Betty Rue Logan, Betty Rose McBride, Nadine Huestis, Iris Dean Shultz, Martha Jo Pass, Topsy Russell and Mary Louise Poe of Cisco; Miss Sarah Ruth Siddall of Breckenridge, and the honoree and hostess.

Little Miss Crofts Honored on Birthday

Carol Crofts was the honoree Saturday afternoon when her mother, Mrs. Sutton Crofts, entertained at the Crofts' ranch with a party in celebration of her sixth birthday. A Valentine theme was featured in the decorations. The dining table was centered with a birthday cake, iced in red, with six little red candles burning on top of it. Games and contests were enjoyed and refreshments, with favors of soap bubbles and pipes were passed to Patsy Lois, Bernie Ann and Yancey Jr., McCrea, Oretta Dawn Van Eman, Emily Donohoe, Carlton and Frank McAfee, Francis Halstead, Yvonne Hudlow, Herff Applewhite, Dana Jane Thornton and Bobby and Carol Crofts. The honoree was the recipient of many beautiful presents. Other guests were Mr. and Mrs. Yancey McCrea, Mrs. J. C. McAfee and Mrs. Eugene Lankford.

PERSONALS

Mrs. C. H. Fee and Mrs. Alex Spears and daughter, Lillian, are expected to return this afternoon from Austin.

Mr. and Mrs. E. P. Crawford have returned from a visit in Austin.

Mmes. Charles Brown, W. B. Statham, Leon Maner, J. T. Anderson and George P. Fee have returned from Dallas where they attended grand opera.

Mr. and Mrs. Arthur Cunningham of Albany visited relatives here Sunday.

Mr. and Mrs. Joe Sheldon and son of Brownwood visited friends here Sunday.

GUESTS OF MRS. SNYDER
Mrs. F. W. Snyder has as guests this week, her sister, Mrs. V. A. Gilpin, and little son of Chicago, Ill. Mrs. Snyder will entertain with a morning coffee honoring her on Wednesday.

When we say Chesterfields are Milder and Better Tasting it means something...

Ageing..

like fine wines

THOUSANDS of casks just like it improves fine wine. Nothing else can take the place of mild, ripe tobacco. Nothing can take the place of three years of ageing if you want to make a cigarette that is milder and better-tasting.

Mild, ripe home-grown and aromatic Turkish tobaccos . . . aged three years . . . make Chesterfield an outstanding cigarette . . . milder and better-tasting.

British Museum Aids Collector, 14

Walter Wellborn Among His Treasures

Only 14. Georgia Collector Has Ten Years Experience

ATLANTA, Feb. 1 (AP)—At 14, Walter Wellborn, a museum curator with 10 years' experience, can tell you that the "murre" (a bird) is any guileless of the genius of Uria" and he knows the habits of the petrodrome (jumping shrew). When only 4, Walter killed a rat, skinned and stuffed its hide and mounted it as Exhibit No. 1 in his personal museum that now includes specimens from Africa, South America, Europe, Asia and Australia as well as Dixie.

water rat, Asiatic squirrel, Indian mongoose, African jeboa and a long-eared bat. He dropped in to chat with one of the British institution's heads, as one museum keeper to another, while on a recent European "hunt," and the gifts resulted. Most of his exhibits are creatures he killed skinned and mounted himself, but most of his allowance goes for "stuffed" something-or-others. Correspondence with friends throughout the country also helps him add to the collection. He believes his museum is one of the nation's few having a Madagascar hedgehog. He didn't see one in the British museum. "They're rare," he explains, "because they are so small, are covered with prickles and difficult to mount." He bought his from a

Scientist Says "Only Child" Is Well Adjusted

INDIANOLA, Ia., Feb. 1. (AP)—The "only child" of a family adjusts himself to society just as well as do children who have brothers or sisters. That is what W. P. Carter, acting professor of sociology at Simpson college, concludes after studying 5,000 questionnaires and 300 life histories of college students. He claims "only children" have been misjudged by psychiatrists and psychoanalysts. "They are no less well adjusted to society than adults," he says. "On the contrary, my studies disclose there is little difference in regard to personal traits." Prof. Carter says that freedom for play with other children, adequate social opportunities and participation with parents and others in wholesome group activities are great aids in producing well-adjusted personalities.

House Engrosses Tax Remission Bill

AUSTIN, Feb. 1. (AP)—The house voted today to engross a bill to remit state ad valorem taxes for general revenue purposes to counties but the four-fifths majority for immediate final passage was lacking. Opponents charged revenue loss would "pave the way for a sales tax." Mrs. Jack La Rue and Miss Pat Van Eman left this afternoon for Austin. European taxidermist. When Walter's museum first was opened to the public he charged 5 and 10 cents admission and took in \$20 the first day; but he decided it should be his contribution to science, so there's no charge to see it now.
