FRANCE WARNS AGAINST "INVASION"

Through the Editor's Spectacles

By GEORGE

The longer I live and the older I grow the more am I impressed with the thought that the weather is like a woman's temper. The maker of all things created nothing so beautiful as a woman when she is in a fair and friendly frame of mind. But when she isn't, the state of today's weather is no more disagreeable. She can blot out the sun of your happiness and sandpaper your nerve ends with a sarcasm that is like the scouring of a sandstorm. But still we love 'em, God bless her!

All of the Boy Scout "city officials" were satisfied with their jobs Saturday except the fire chief. There wasn't enough action. He sat disconsolately in the fire hall, listening to the whistles of the traffic patrols and catching glimpses now and then of the enthusiastic doings of his brethren, and bemoaned the fact that the fire siren was silent.

He went to the door and leaned against the side, looking out. Then he climbed up in the tall seat of one of the big red engines and regarded it from his perch with obvious longing. Certainly, he was imagining what a thrill he could have with the big truck going lickity-split down the avenue, its siren screaming obligato to the deafening overtones of the big alarm, himself atop the seat, holding on for dear life. Wouldn't the other boys be envious! For a happy moment no monarch on earth would have his envy.

"Gosh," he said fervently, "I wish somebody's house would catch fire!"

Fate was certainly playing him a scurvy trick.

Along about mid-afternoon Clarence Tune sought him. Clarence was going to give him a ride, anyway. But the inactivity had got the best of our little fire chief. He had deserted the role for one of lesser rank but more action.

Frank Langston, erstwhile editor of the Press and now city editor of the Wichita Falls Post, was in Cisco for a few hours Sunday. Frank is the son of Mr. and Mrs. G. B. Langston. Liking his job, looking well and doing well, Frank was greeted by many friends.

Workers Return Peacefully to GMC Factories

ANDERSON, Ind., Feb. 15. (AP)—Union and nonunion automobile workers returned peacefully to General Motors factories today, suppressing any hate engendered by the shooting affray that brought martial law Saturday.

National guardsmen, patrolling the streets, reported no disturbances. Partials will be strengthened when the factories close for the day to guard against clashes.

MRS. BURNAM IMPROVES
Mrs. Roy Burnam who has been seriously ill was reported at noon today to be improving after a restful night.

Weather

EAST TEXAS—Partly cloudy, colder tonight; Tuesday, fair, colder in south and east.
WEST TEXAS—Fair, colder tonight; Tuesday, fair and colder in the Rio Grande Valley.

CHARGE FILED IN KILLING OF FEDERAL MAN

Shooting Occurs In Raid on Still During Night

AUSTIN, Feb. 15. (AP)—Sheriff Allen filed murder charges today against Ike Young, one of the 14 persons held in the investigation of the slaying last night of Wilford Thomason, federal revenue officer, in a raid on a still.

A man identified as Pete Martinez was killed by Thomason after the latter was wounded, the sheriff said, adding that the pistol officers claimed had killed Thomason was found near Young's home.

News of the shooting was telephoned the sheriff's office by other members of the raiding party, who asked aid of officers in rounding up a gang at Mount Bonnell.

M. M. Mitchell, also a federal agent, and M. E. Carter, a state liquor agent, were in the raiding party.

They reported that Thomason chased a suspect down the river bed while Mitchell guarded two persons, a man and woman, captured in a shack.

Another suspect eluded Carter, who stopped at the lodge of Jay Motheral to telephone the sheriff's office. Fifteen deputies and city policemen were rushed to the scene.

Carter reported that he heard about 10 shots in rapid succession near where Thomason disappeared. Officers found Thomason and Martinez stretched on the ground.

Expulsion of Wm. Green Advised by U.M.W. Committee

WASHINGTON, Feb. 15. (AP)—The United Mine Workers policy committee directed union officers today to expel William Green, president of the American Federation of Labor, on charges of "treason." The union is affiliated with the Committee for Industrial Organization which seeks to bring workers into one union, which the federation opposes.

Special Sermon For Scouts Given Sunday

About 40 scouts from the Cisco troops attended the special Boy Scout sermon delivered by the Rev. Joe I. Patterson at the First Methodist church, Sunday morning marking the end of National Boy Scout week.

The scouts, accompanied by S. E. Hittson and Standee McCracken, scoutmasters of the troops, gave the scout oath during the message, and it fitted in well with the pastor's text, "The Noblest Architecture."

Four members of the Friendly Boy's club accompanied by T. C. Williams also attended the sermon.

T.M.C. Instructor Speaks to Pupils

Lieutenant Abram, instructor at Texas Military college, Terrell, spoke to the high school students this morning at the activity period, describing the college, and urging local high school boys to enter the school.

Through a military institution, T. M. C. trains its students primarily for civil duties, the representative said. It does not make soldiers out of the boys as many people think, but they will all be ready for service in case of war. Abram told of the activities of the school, such as its academic work, athletics, military work, and socials.

The Presidents Vs. Supreme Court

By MORGAN M. BEATTY
AP Feature Service Writer

WASHINGTON, Feb. 15.—Seven presidents have entered the political prize ring against the Supreme court ahead of Franklin D. Roosevelt.

Three won their tussles by knockout blows, and the supreme court has delivered the same number of haymakers. One setto was a draw.

Unflinching the opposing contenders have accused each other of invading governmental territory belonging to somebody else. Historians agree this is quite natural in a governmental system involving three coordinate branches.

The issue often has boiled down to the question whether the supreme court has the right of judicial review over acts of congress. In other words: "Who's got the final say-so?"

The inevitable conflicts began while the United States was still in swaddling clothes as a nation under President Washington.

The general had hardly declared American neutrality in the war between France and England in 1793 before legal piracy began on the high seas.

Mrs. Adamson to Be Buried Today at 3:30 o'Clock

Funeral services for Mrs. Elizabeth Adamson, 82, mother of Mrs. J. A. Cameron, will be held from the family residence, 806 West 9th street, this afternoon at 3:30 o'clock. Elder Cole Jackson of Moran, assisted by Dr. David F. Tyndall of the First Christian church here, will conduct the services. Neil Lane's Funeral home has charge of arrangements for burial in Oakwood cemetery.

Mrs. Adamson died at 2:30 this morning after a three weeks illness. She had made her home with Mr. and Mrs. Cameron for more than 20 years. She was born February 5, 1855.

Her husband, who died September 25, 1918, was a pioneer settler of this section. He was a farmer and once managed the wagon yard in Cisco.

Besides Mr. and Mrs. Cameron, she is survived by a daughter, Mrs. Fannie Hall, of Hobbs, N. M., and a son, Newt Adamson, of Jasper, Texas, and 14 grandchildren.

Telephone lines to the farm were cut. Guard reinforcements were rushed from here and other points in case other trouble developed.

City Well Gets Oil Show in Ellenberger

The Hickok City No. 2 well, on the airport property immediately north of the city, Sunday encountered a slight show of oil in the Ellenberger from 3,984 to 3,987.

House to Consider Race Bill Repeal

AUSTIN, Feb. 15. (AP)—The house voted today to consider a bill to repeal race horse betting.

It also adopted a resolution neither favoring nor opposing President Roosevelt's court reorganization plan, tabling an amendment by Representative Leonard of McAllen, opposing altering the court setup except by a constitutional amendment. It voted against bringing up a bill to increase the corporation franchise tax to five per cent of net income.

STORMS CAUSE DEATHS OF 4

40-Mile Wind Drives Dust Into State

Four deaths were attributed to freezing weather and snow storms over the northwest and far west during the week-end.

Highway traffic was virtually paralyzed in parts of Minnesota and the Dakotas. Rains fell in California.

A 40-mile wind drove dust from the plains area into the Texas panhandle in a storm regarded the worst of the year, but expected to clear during the day.

Reggie Henderson Is Injured by Colt Kick

Reggie Henderson was reported to be recovering satisfactorily from injuries he received Sunday when kicked by a colt at his home in Humbletown.

Mr. Henderson was trying to treat the 8-months-old animal for some minor ailment when it struggled and fell with him. When he attempted to get up, the colt kicked him in the head and back. He was badly dazed, but this morning his injuries were reported not to be serious.

4 Heavily Armed Convicts Kidnap Prison Keepers

RALEIGH, N. C., Feb. 15. (AP)—Four or more heavily-armed, unidentified prisoners kidnaped Captain R. H. Hinton, and Steward W. L. Roberts of the Calendon prison farm today, and escaped in the direction of the Virginia state line.

Telephone lines to the farm were cut. Guard reinforcements were rushed from here and other points in case other trouble developed.

DAUGHTER BORN

A third child, a daughter, was born to Mr. and Mrs. Leonard Hudson at Chattanooga, Tenn., several days ago, according to word received by friends here.

ONE AND HALF BILLION BILL IS APPROVED

Would Supply Funds to Finance Treasury and P. O. Dept.

WASHINGTON, Feb. 15. (AP)—The house appropriation committee approved a bill today to make over \$1,500,000,000 available to the treasury and post office departments for the current fiscal year.

Approximately \$500,000,000 was earmarked for the old age pension reserve, an increase of almost 50 per cent over last year. \$750,000 was carried for establishment of a trans-Atlantic air mail service beginning Nov. 1.

The committee criticized the treasury's method of handling appropriations for administration of the emergency banking and gold and silver purchase acts, saying that the most trouble came from the difficulty of ascertaining from what administration funds the treasury personnel was employed.

Cisco Debaters to Meet Breckenridge

The high school debaters who gave good accounts of themselves at the Baylor institution tournament held in Waco last weekend will meet the Breckenridge teams Friday night at 7 o'clock in the Cisco auditorium. It was announced today by Mrs. B. B. Hazlewood, high school debate instructor.

The Ciscoans will give the Breckenridge debaters return matches in that city the following week.

Disappearance of Two Blantons Is Still Unsolved

AUSTIN, Feb. 15. (AP)—The Blanton disappearance case remained a mystery today when a body washed up on the shore of Laguna Madre was identified positively as that of Ovidio Marroquin, 21, of Brownsville.

Chief C. G. McGraw of the state identification bureau said portions of 10 fingers amputated from the body, discovered on the shore near Brownsville Thursday, were undoubtedly those of Marroquin, whose prints were on file here.

The fingers were sent here to identify the body and determine if it could be that of John Blanton of San Perla, who, with his father, Luther, disappeared Nov. 18 while hunting in the vicinity of the former King ranch in South Texas.

Frank Blanton, another son, told officers the body might be that of his brother. He was positive it was not his father's because he had some missing teeth.

A three-months search by local and state officers produced no clues as to the whereabouts of the Blantons, who some believe were slain.

McGraw said state officers had no other record of Marroquin and did not know whether he was reported missing. Brownsville officers reported that one side of the head had been crushed and other wounds inflicted about the head and face.

When Marroquin's fingerprints were sent to the Public Safety Department in 1934 his mother's name was given as Josefa Cantu Marroquin of Brownsville.

If the prints were not on file it would have been doubtful whether the body was not that of John Blanton, McGraw pointed out.

"This and similar cases called to our attention show the need of universal fingerprinting," he said. He has long advocated a non-criminal fingerprint file which officers contend would eliminate unmarked graves and speed up identification of bodies found under mysterious circumstances.

BLOCKADE OF PORTUGUESE IS PROPOSED

Demand International Control of Support for Spain Rebels

(By Associated Press)
Authoritative sources said today that France, with warning words to Italy, was prepared to demand international control of foreign support for the Spanish insurgents by February 28.

It was predicted that a Franco-British blockade of the Portuguese coast would be sought if Portugal remains against supervision of its borders against the import of men and supplies to Spain.

Premier Blum said that the landing of Italian forces near Malaga was a flagrant non-intervention violation, and that France will not tolerate "open invasion" of Spain.

London sources reported that British destroyers fired on what was "believed to be a Spanish insurgent plane" when it attempted to bomb them off the coast of Algeria.

NRS Official Has Great Demand for Skilled Workers

A great improvement in employment conditions, especially as respects skilled labor, over the past two months, was cited here today by Clayton Gunnels, in charge of the National Reemployment service office at Eastland serving this county. He came to Cisco in search for beauty shop operators for which his office had received a request.

He predicted that the demand for skilled workers would increase materially within the next few months.

"Matching the worker and the job," is the duty of the NRS which is an adjunct of the department of labor, made permanent by congress in 1934 and placed under the civil service. There is no charge for its services.

Gunnels invited employers seeking workers and workers seeking employment to avail themselves of the services of his office by registering their needs with it. Workers are listed and classified so that the employer may have instant contact with available help without obligation or cost.

If the class of worker desired is not available, the service maintains a "clearing house" through which it can locate any type of worker in need of employment anywhere in the United States, he said.

Registration is made convenient to Cisco people desiring the services of the office by the presence in Cisco each Wednesday of W. Whittington who may be found at the chamber of commerce offices.

Allred Bears Texas Bid to Roosevelt

DALLAS, Feb. 15. (Special)—Governor James V. Allred made bearer of Texas' invitation to President Franklin D. Roosevelt to visit the Greater Texas and Pan American exposition, opening at Dallas June 12, when the governor stopped here Saturday en route to Washington.

Included in the Governor's party to Washington was Judge Robert Lee Bobbitt, of San Antonio and Laredo, former attorney general, who was sworn in as a member the Texas Highway commission during the 10 minute stop-over in Dallas.

Director General Frank L. McNeny of the Exposition commissioned Governor Allred as Texas' personal envoy to the president, and presented the invitational portfolio of photographs and original hand drawings especially prepared for President Roosevelt.

BIBLE THOUGHT FOR TODAY

The Lord hath chosen thee to stand before Him, to serve Him. So there was great joy.—2 Chron. XXIX: 11; XXX: 26.

Perfect love has power to soften. Cares that might our peace destroy; Nay, does more, transforms them often, Changing sorrow into joy. —MADAME GUION.

We can only have the highest happiness by having wide thoughts, and much feeling for the rest of the world as well as for ourselves.—George Eliot.

District Courts Needed

IN spite of the present legislative move to reduce the number of district courts by abolishing some 16, including the 38th district court at Eastland, few observers believe that any reduction will be made. The volume of litigation which these courts must handle is not decreasing. On the contrary it is increasing, and the need of courts to handle it with dispatch will become more and more apparent.

Among The Derricks

NORTH HAWLEY FIELD TAKES SPOTLIGHT

ABILENE, Feb. 15.—Activity in the north end of the Hawley field late last week took the Jones county spotlight for oil interest from three wildcat locations made earlier in the week in the eastern part of the county.

Announcement was made Saturday of location for an important north outpost for the Hawley field by N. H. Martin & Son of Wichita Falls on the Nettie H. Hayden land, about a mile north and slightly east of present production.

Spudding is scheduled for today, with contract to drill to 2,400 feet if oil or gas production is not found at a lesser depth. The test is located in lot 2, J. E. Cockrell subdivision of Gabriel Martinez survey No. 195—290 feet from the south and west lines of the lease.

It followed closely upon the staking of another outpost for the field by Rancier, Fortex and Owens-Snebold Oil corporation No. 5 Henry Dorsey estate, 300 feet from the same operators' No. 3 Dorsey. Rig is to be moved to the location, 150 feet from the south and 200 feet from the west lines of section 21, Bueno survey No. 196, as soon as the owners' No. 4 Dorsey is completed. The No. 4 after showing for a large well in the Lower Hope sand, is scheduled for testing the first of the week.

The No. 4 Dorsey is only 150 feet from an abandoned hole drilled early last year by Dancier, Fortex and Owens-Snebold.

Completion last week-end also brought attention to the west side of the north extension area of the field, when the Ungren & Frazier No. 3-D Dorsey, deepening of another abandoned hole, found Lower Hope pay at 2,220-27 feet and flowed 831 barrels in eight hours after 2,000 gallons acidization.

Completion was also reported for the Martin & Son No. 4-D Dorsey, in the center of the field, for a gauge of 1,474 barrels in 24 hours. Lower Hope sand was top-

ped at 2,194 and drilled to 2,207 feet, SLM.

Sinclair-Prairie No. 2-A King, in section 7, Bueno 197, was reported deepening and cleaning out.

Ungren & Frazier No. 13-C Dorsey, in the south part of the field, was drilling at 625 feet after setting ten-inch casing at 364 feet.

Eastern Jones

Location for the Fain-McGaha Oil corporation No. 1 A. J. Swenson, a half mile north and west of the town of Lueders, brought to three the list of wildcats announced this week for the eastern part of Jones county.

The Fain-McGaha test is the third to start on the Wichita Falls operators' four Jones county blocks since the assembly of about 6,000 acres late in 1936. Location is 220 feet from the north and west lines of section 2 C&MRR survey, in a block of about 1,500 acres adjoining the town of Lueders. It is about half a mile north of the Lueders-Stamford highway.

The Lueders Development company, headed by T. M. Smart, also staked location for a 1,850-foot wildcat test south of the town on the S. L. Underwood land; it being 150 feet from the south and east lines of the S. L. Underwood survey. Spudding was slated for today.

Hugh King, Jr., president of the Cortez Oil company of Tulsa, and associates made location three-quarters mile southwest of Nugent in eastern Jones, for a 2,150-foot wildcat test. It is 2,400 feet from the west and 1,760 feet from the south line of the south 400-acres of the D. H. Stover estate survey. It is on the J. W. Harris land.

Five miles west of Lueders, the T. K. Simmons No. 1 E. A. Hicks, in section 5, OAL survey, was drilling past 1,660 feet in shale and red rock.

West Shackelford

Interest in the Lueders area also turned to the wildcat strike by Owens-Snebold Oil corporation on the D. A. Ivy land.

Iron Mountain Oil company of Fort Worth spudded and is drilling at 240 feet on a north offset to the discovery looming as the opener of a new King sand field, after it flowed at the rate of 25 barrels per hour when acidized.

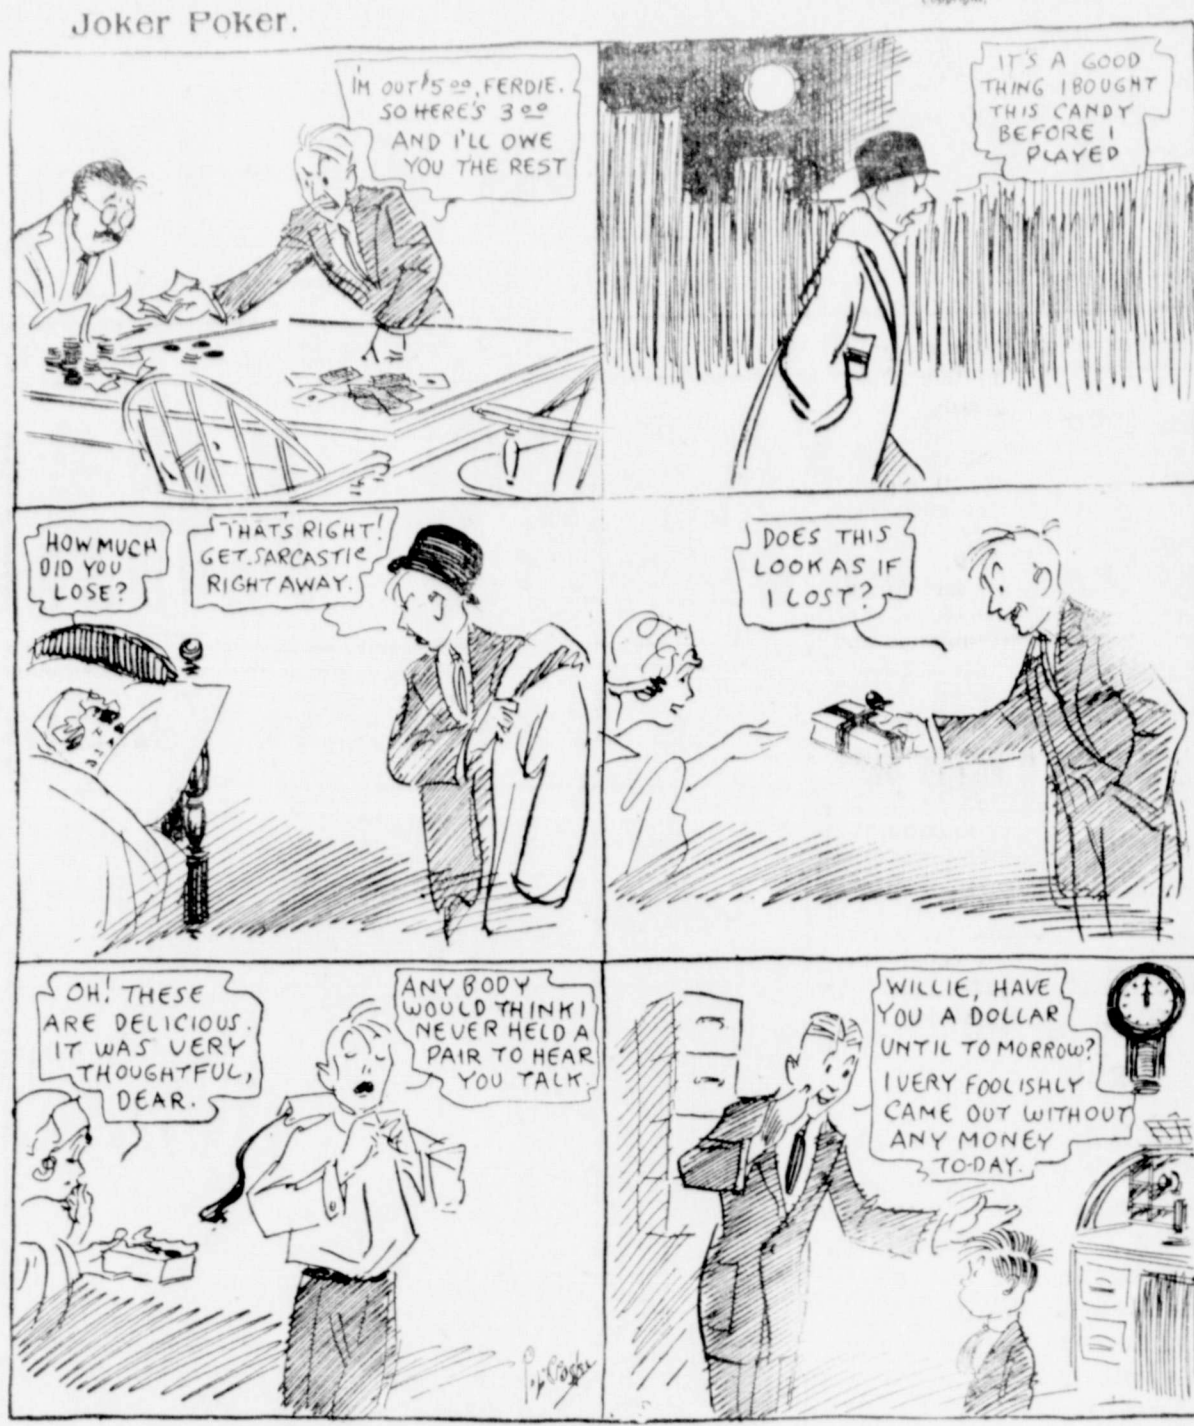

The Iron Mountain No. 1 D. A.

not necessarily determine the volume of litigation arising from that population. On the contrary this is determined by the character of principal activities which support that population. For instance, the oil industry and related industries give rise to a volume of litigation much out of proportion to that created by farming, retail and wholesale distribution, manufacturing, etc., so that an oil producing district with a population of only 40,000 may require the services of a court that another district of 100,000, supported by other character of commercial and industrial activity, would not need. This explains the need of the two Eastland county courts and the volume of litigation which those two courts have handled.

ANOTHER factor makes the reduction in the number of district courts unlikely, and that is the admirable and flexible system of judicial administration which this state has invoked and to which the judiciary reform proposal of President Roosevelt as it affects federal district courts is similar. This system permits the judge of a court which has a light docket to be transferred to another court where the docket is congested and thus aid in expediting the business of that court. By this, dockets over the state are equalized and litigation speeded. Thus, both Eastland county judges have been constantly busy, if not in their own courts, then in other districts where their services are needed.

Crime Against Conservation

ONE fact that proponents of a 10-cent per barrel gross production tax on crude oil ought to take into consideration as vital to the state's conservation policy is that stripper wells are becoming increasingly important to the nation's crude oil supply. If the proposed tax is enacted, it will fall heaviest on the stripper wells and upon areas where secondary recovery measures would result in the bringing to surface of much oil not recoverable by the ordinary methods of flowing and pumping. West Central Texas and other oil areas in this part of the state have a great stake in their stripper producers. If the means for producing these are made so costly by increasing taxation that they must be abandoned, the loss in a natural resource which is becoming more scarce every year, will be considerable and the reason for it a sharp indictment of the statesmanship of our lawmakers. The same facts hold true with respect to repressuring pools where the gas pressure has been depleted. A ten-cent production tax would be not only a serious blow to these districts but it would be a crime against conservation.

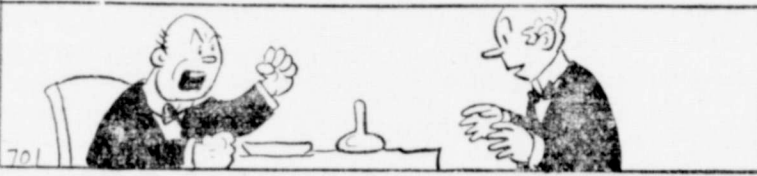

Laughing Around the World With IRVIN S. COBB

A Little Tale About Eating

By IRVIN S. COBB

A FRUGALLY inclined stock-raiser from up state made a mistake and dropped into one of the most expensive restaurants in New York. He didn't look at the prices on the bill-of-fare, which was perhaps just

as well for his peace of mind. Instead, he thought of the cheapest article of filling food that he knew anything about, and that was tripe; so he called the waiter and told him to bring him some tripe.

The waiter brought him a single portion of tripe, cockered up in a chafing-dish with green peppers and mushrooms. He also brought a check for ninety cents. When the patron saw the figures he emitted a roar of rage and agony that brought the manager to him, demanding an explanation.

"Why, this here waiter of yours is trying to rob me!" sputtered the indignant guest. "He's got the nerve to try and charge me ninety cents for a plate of tripe!"

"That is the correct price," said the manager soothingly. "The diner eyed him for a moment in astonishment. 'Why, you big burglar,' he yelled, 'you couldn't tote ninety cents' worth of tripe!'"

President vs. Court--

(CONTINUED FROM PAGE 1)

can courts, and President Washington asked the supreme court to lay down a few rules of international etiquette. Getting Alexander Hamilton to frame 29 questions on international law, the

struggles between presidents and supreme courts up to Franklin D. Roosevelt:

Washington — A s k e d the court for advice and was snubbed. The court thus declared its independence. Court victory.

Jefferson — Challenged the right of the court to have the last word on constitutionality of laws, but Chief Justice Marshall established court's position as a final interpreter of the constitution. Court victory.

Jackson — Permitted a state to nullify a ruling of the court. Presidential victory.

Van Buren — Charged the court with raiding the treasury powers in awarding postal claims. The justices stood their ground, then backed water. A draw.

Lincoln — Ordered the military to disobey an order of the court in wartime. Presidential victory.

Grant — Filled three vacancies in quick succession and got the supreme court to reverse itself. Presidential victory.

Theodore Roosevelt — Advocated, as a republican candidate for the presidency in 1912, recall of judicial opinions by popular vote, but was forced to run as an independent, and so split his party that Wilson emerged victorious. Court victory.

others it acts in the last resort and without appeal, to decide on the validity of an act according to its own judgment and uncontrolled by the opinions of any other department."

"Wasn't that pretty strong?" he must have asked himself.

At any rate, Jefferson wrote that sentence into his first address to congress and then struck it out. Prudent instincts prevailed, and the final draft of the message slyly said:

"The judiciary system . . . will, of course, present itself to the contemplation of congress."

Court's "Rabbit Punch" But doughty Chief Justice Marshall bided his time, then used what the most imposing weapon when he did enter the ring.

Here is what Marshall said in Marberry vs. Madison, a decision which upheld the president in fact, but the supreme court's position in the theory:

"It is emphatically the province and theory of the judicial department to say what the law is."

Marshall Lands A Blow Historians have vied with each other to show that Jefferson's political face turned crimson when he heard those weighty words.

Historian Warren says it was not that Marshall had held an act of congress unconstitutional, but had "sought to interfere with the executive . . . and had proceeded by obiter dicta to deliver a lecture to the president . . ."

The gong had rung again, and another president had taken the count. But in the next encounter Andrew Jackson showed John Marshall what it meant to take it on the chin.

To make each (of the three branches of government) an effectual check (on the other) it

24,941 Young People Get Jobs Thru NYA

AUSTIN, Feb. 15. (Sp)—Private employment for 24,941 young people was provided through the junior employment service of the National Youth administration in the 10-month period ending December 31, 1936. Dr. Mary H. S. Hayes, NYA director of guidance and placement, has advised Lyndon B. Johnson, state director for Texas.

One junior employment office operating in Texas 10 months and two operating less than one month each obtained private employment for 959 young people, Mr. Johnson said. The office operating at Fort Worth from March until the end of the year reported it had placed 893 youths. Offices were opened in Houston and Dallas in mid-December. These three offices are operated by the National Reemployment service and the Texas State Employment service in cooperation with the National Youth administration.

must have a right in cases which arise within the line of its proper functions, where, equally with the

THE BOX SCORE UP TO NOW

Here's the outcome of the struggles between presidents and supreme courts up to Franklin D. Roosevelt:

Washington — A s k e d the court for advice and was snubbed. The court thus declared its independence. Court victory.

Jefferson — Challenged the right of the court to have the last word on constitutionality of laws, but Chief Justice Marshall established court's position as a final interpreter of the constitution. Court victory.

Jackson — Permitted a state to nullify a ruling of the court. Presidential victory.

Fraternity Unit Here Celebrates First Birthday

Beta Upsilon chapter of Delta Kappa Gamma, national fraternity for women teachers, celebrated the first birthday of its organization with an initiation and formal dinner Saturday evening, February 13, 1937 at the Laguna hotel.

Baird, were formally initiated in the impressively beautiful ceremony of the Delta Kappa Gamma ritual presided over by Mrs. Lucretia Irby, first president of the chapter.

Immediately following the business session the eighteen members and seven initiates progressed to the Laguna roof garden to receive their thirty-five dinner guests.

The banquet hall was attractively decorated in the fraternity colors of red and gold. Baskets of snapdragons, gladioli, and fern flanked the tables which were centered by brass bowls of red roses, the club flower, and sweet peas, and highlighted by tall brass candlesticks holding red tapers.

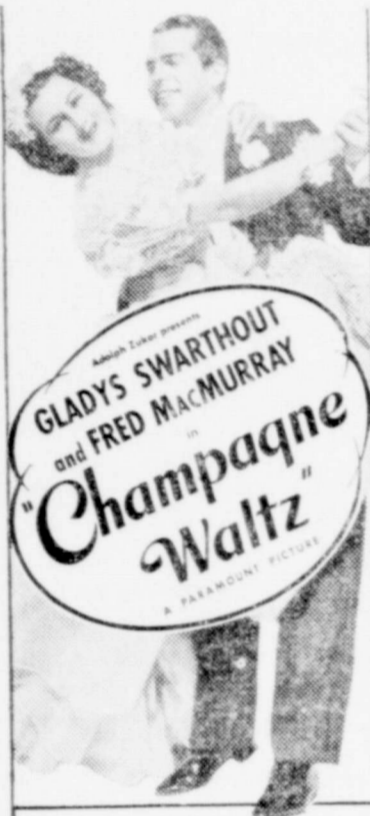

A delectable menu of orange juice cocktail, molded salad, turkey and dressing, cranberry slices, buttered beets, asparagus tips, and hot biscuits was served. Before the dessert of cake and demitasse an entertaining interlude giving an adaptation of James Whitcomb Riley's "An Old Sweetheart of Mine" with tableaux, and featuring Mrs. James Moore, reader, Miss Wilda Drago's Harmony Girls, and Kathleen Collum, dancer of Eastland, was presented.

Following the program, a magnificent three-tiered birthday cake, decorated with red roses, and surmounted by a single red taper was placed before the chapter president, Mrs. Irby, who cut the slices for the plates. Beside each slice was placed a red glazed heart holding a tiny lighted candle.

Miss Marion Chambliss, Cisco, was chairman of the entertainment committee.

With the good wishes of their guests, the members of Beta Upsilon chapter closed a successful year of organization and turned with enthusiasm and hope toward another and even fuller year in Delta Kappa Gamma.

Engagement of Miss Perkins Announced

FORT WORTH, Feb. 15.—Mr. and Mrs. Joseph H. Perkins entertained Sunday in Eastland with a tea announcing the approaching marriage of their daughter, Miss Elizabeth Folsom Perkins, to Mr. C. Keith Beyette, Jr., son of Mrs. C. K. Beyette, 501 South Henderson street.

While the date is not yet set for the marriage, it will take place in the late spring. The bride-elect is a graduate of Emerson College of Oratory, Boston, Mass., and attended the University of Texas.

Mr. Beyette is a graduate of Rice Institute and received his master's degree at the Massachusetts Institute of Technology in Cambridge. The couple will make their home here.

A Valentine theme was carried out in tea decorations with red roses and white sweet peas, red and white whip tapers and lace on the table from which refreshments were served to 150 guests.

PERSONALS

Mrs. Grover Cleveland of Albany was a caller at the Daily Press office today while shopping in Cisco.

Mr. and Mrs. E. F. Hamor have returned to their home in Ranger after a visit with Mrs. Hamor's father, John Q. Clark.

Red flannels, on the "out-of-style" list for 20 years, are becoming popular again in the mid-west. Blue flannel underwear adds a new note.

Indian burial mounds built between 1200 and 1500 a. d. have been discovered near Columbia, Mo., by Jesse Wrench and J. Brewster Berry of the University of Missouri faculty.

I buy these Chesterfields ... because they give me the good things I want in a cigarette

I work hard and I play hard... and I guess I smoke more cigarettes than most anybody I know.

The reason is... Chesterfields give me a lot of pleasure.

It's easy to figure why... they're mild, not strong... and they've got a taste and aroma that clicks every time!
