World Record Is Reached in Tarleton Contest

STEPHENVILLE, Oct. 21. (Sp.)—A third world's record was officially ascribed this week to the John Tarleton college eleven international egg-laying contest according to T. A. Hensarling professor of poultry at Tarleton and director of the contest. Topping the 17 standard egg-laying contests in the United States, the Tarleton contest broke its own world record established in 1933 for a new high in poultry contests. In 1933 average try contests in 1933 average number of eggs per hen for the number was 239, average number of eggs per hen was 236, but average points, 247.7 an increase of 1.7 in the average egg production.

Frank E. Mitchell, contest editor of the Poultry Item, wired Mr. Hensarling confirmation of the record and congratulated him. He said: "You made an excellent year's record, and I hope you will go on with the splendid work that you are doing in your state." Nearest competitor of the Tarleton contest was Storrs of Connecticut with an average egg production of 230, average points of 240. In addition to the contest record, a white leghorn hen owned by the Woodlawn farm of Temple set a world record for all poultry breeds by laying 345 eggs for 370.65 contest points, and a black minorea owned by E. J. Covey of Everman set a record by laying 278 eggs for 294.95 contest points.

President Roosevelt was presented with eggs laid by the champion white leghorn, Lady Temple, and this week Mr. Hensarling will send to the directors of the A. & M. College System some Lady Temple eggs.

Pictures of Lady Temple were sent to several people, including Gov. James V. Alfred, who this week wrote acknowledging his receipt of the picture, and expressing his interest in the world record.

Beer Election in Precinct 7 Called

EASTLAND, Oct. 21. (Sp.)—Commissioners court Saturday had ordered an election October 30 in Justice Precinct 7 to determine whether sale of all alcoholic beverages shall be prohibited. The election was called in response to a petition signed by H. S. Childress and 115 other qualified voters of the precinct. Voting boxes in the precinct are at Rising Star, Pioneer and Okra.

The court stated in the order calling the election the following will be the ballot reading: "For prohibiting the sale of all alcoholic beverages." "Against prohibiting the sale of all alcoholic beverages."

County Will Gain \$20,000 by Ruling on Pipe Line Tax

EASTLAND, Oct. 21. (Sp.)—The county will be approximately \$20,000 better off because of recent U. S. supreme court action which in effect held valid the state's collection of taxes on intangible values of pipe line companies, officials believed Saturday.

C. H. O'Brien, county tax collector and assessor, and County Auditor Don Parker will be in Austin Tuesday and conferred with state tax board officials whether Eastland and other counties will be authorized to assess taxes on pipe line companies.

Litigation of several pipe line companies' attack on the validity of the law as it applies to them has been in progress since 1935. That year injunctions were secured against the state tax board enjoining it from certifying the values for the year 1935. Similar injunctions were allowed in 1935, pending final determination of the Texas Pipe line case. It is now expected that the

board will be able to certify the values for 1935-36. New suits have been filed attacking the valuation for 1937 on the ground that fundamentally wrong systems were used by the board in making the valuations.

The state's share of taxes collected by the method, pending the collection is allowed, in the county for the period would amount to approximately \$9,000, it was estimated.

The Gulf company, apparently foreseeing the action that the case would receive in the U. S. supreme court which denied petition for certiorari, has already paid Eastland and other counties the taxes.

5 Simple Rules of the "Heating Photo Contest"

1. All photos must include a view of the gas heating equipment used to heat the room or adjoining room in which the photo is taken. (See sample).
2. The house in which you reside must receive its gas service from one of the companies of Lone Star Gas System and all photos submitted in the TEN WEEK CONTEST must be taken in a home served gas by one of the companies of Lone Star Gas System. These companies are: Lone Star Gas Company; The Dallas Gas Company; County Gas Company; Community Natural Gas Company; Texas Cities Gas Company.
3. Employees of any company of Lone Star Gas System and their immediate families and professional photographers or persons engaged in the business of making photographs for commercial purposes are not eligible to enter this Heating Photo Contest.
4. All photos submitted must have your name and address (including the town) PRINTED PLAINLY ON A SEPARATE PIECE OF PAPER AND PASTED TO THE BACK OF EACH PHOTO ENTERED IN THE CONTEST.
5. All photos submitted should be delivered to your local gas company office or mailed to LONE STAR GAS SYSTEM, ADVERTISING DEPARTMENT, 305 S. HARWOOD ST., DALLAS, TEXAS.

The contest is for a TEN WEEK Period from October 11, 1937 to December 18, 1937 (inclusive). All photos submitted will become the property of Lone Star Gas System to be used as desired by the company. Photos entered in the contest will not be returned and weekly prize winners will be advised by letter. At the close of the ten week contest a complete list of prize winners will be available for your inspection at your nearest gas company office.

Fight colds! Protect yourself and your family against becoming overheated or chilled. If you do "catch cold" consult your family doctor before it has an opportunity to undermine your health.

ONLY "a cold" . . . but serious disease may follow

YOUR doctor will tell you that "common colds" are dangerous. Fifty per cent of all disabling diseases start with this all too frequent winter illness. Many "colds" result from sudden changes of temperature such as occur to occupants of the home as they go from a warm room into an unheated part of the house. Unless every room is comfortably warm sudden changes of temperature are unavoidable. Winter months, more than any other season of the year, require careful protective measures against "the common cold." If YOUR family is constantly "catching cold" HEAT YOUR ENTIRE HOUSE THIS WINTER FOR YOUR HEALTH'S SAKE — it's a simple precaution to avoid the dangers of sudden changes of temperature.

Blazers Remember Those Who Have Died

(Cap) Poe, J. W. Clark and J. L. Noble, were:

In memory of the deceased members of the Old Trail Blazers association whose passing has occurred since our last annual meeting.

Whereas, it has pleased All Mighty God to remove from the walks of men the following named members of the Old Trail Blazers association:

G. W. Plummer, who served as president of the association for several years.

Uncle Bill King, Mrs. Fannie Whiteside, Uncle Tom Deens, Uncle Eph Goss, Mrs. I. W. Jones; and

Whereas, all earthly scenes of our departed friends have gone forever; yet memory will not permit the knowledge of our pleasant association together to fade from our minds and hearts; and

Whereas, there is a supernatural or other influence which comes to each of us and gives notice that we, too, shall lay down life's burdens, when all ties that bind us will be severed; and

Whereas, the Old Trail Blazers association and its members this day assembled possess a radiant hope of a blessed immortality and we assemble here feeling secure in the knowledge that our departed friends and members who have entered into the shadows of the Valley of Death are now speaking of scenes most wonderful in beautiful language and that the end of their journey has brought them peace;

Therefore, Be It Resolved, that this association has lost good and useful members, their families have lost kind and indulgent parents and the community at large has lost good and valuable citizens whose places cannot be filled.

Be It Further Resolved that we extend to the bereaved families of our deceased members in their loss and point them to the All Merciful Father above, who alone can give consolation in their time of distress;

Be It Further Resolved that a copy of these resolutions be placed in the records of the Old Trail Blazers association; that a copy be furnished to each of the bereaved families; and that a copy be furnished to the Rising Star Record for publication.

Payrolls Continue Favorable Year to Year Comparisons

AUSTIN, Oct. 21. (SpI)—Employment and payrolls in Texas continue to make favorable year-to-year comparisons, the University of Texas bureau of business research has reported.

Records from about 1,900 Texas establishments showed a total of more than 95,000 employes during September, an increase of 7.2 per cent over the like month last year and an increase of 2.3 per cent over the preceding month. Weekly payrolls for these firms totaled \$2,364,000, an increase of 19.4 per cent over September last year but a fraction of 1 per cent below the preceding month.

Cities showing gains above the state average in employment and payrolls over both a year ago and the preceding month were Amarillo, El Paso, Houston and Wichita Falls.

Industries in which the gains exceeded the state average for both comparable periods were: Foundries, machine shops, millwork, chemicals, cotton textile mills, women's clothing, cotton oil mills, flour mills, meat packing, crude petroleum producing, and power and light.

From August 16 through September 15, fifteen establishments employing 1,684 workers, reported general wage-rate increases averaging 8.6 per cent and affecting 1,676 employes, the bureau's analysis of the figures showed.

From January 1 through September 15 a total of 205 establishments, reporting to the University bureau and employing 51,499 workers, granted general wage-rate increases, averaging 8.2 per cent and affecting 45,681 employes. Since January 1 only two establishments have reported general wage-rate decreases, with 11 employes affected.

Lumber Operations Show Small Drop

AUSTIN, Oct. 21. (SpI)—Operations in the lumber industry of the south during September declined moderately from the preceding month and considerably from the like month last year, the University of Texas bureau of business research has announced.

"According to reports from the Southern Pine association, weekly production per unit, 296,629 board feet, decreased 4.3 per cent from the preceding month and 5.2 per cent from September, 1936," the bureau's statement said. "Shipments per unit, 303,002 board feet, declined 0.7 per cent and 12.6 per cent respectively during the two comparable periods, and average unfilled orders per unit, 649,921 board feet, on September 30 were down 2.7 per cent from the end of the preceding month and 11.8 per cent below those of the corresponding date last year.

George Weaver, Pioneer Driller, Buried Wednesday

Death of George W. Weaver, 62, veteran oil well driller of Cisco, bedridden from an injury suffered nine years ago, occurred at the family home, 504 F avenue Monday at 10:30.

Funeral services were held at the home at 2:30 Wednesday afternoon with Masonic rites of burial in Oakwood cemetery. The Rev. Jos. I. Patterson, Methodist pastor, officiate. Neill Lane's funeral home was in charge.

Mr. Weaver's death was attributed indirectly to a head injury which he received on July 28, 1928, while drilling a well at Rising Star. He never recovered from that injury and most of the time since then he had been confined to his bed.

His operations as a driller extended from his native state of Pennsylvania, where he was born at Emlemont on March 1, 1875, to Texas. He was first associated with his father in the oil business in Pennsylvania, moving to West Virginia in 1899 where he met Miss Gay DeBolt at New Martinsville, marrying her in 1901.

He was active in the Ohio fields and later in the Oklahoma territory where he drilled the first well at Drumwright in 1912. In 1916 he brought in the first well in the Eldorado, Kan., field, and in 1918 he came to Texas, attracted by the Ranger boom.

He operated during the next ten years at Ranger, Breckenridge, Graham and Rising Star, receiving the injury which brought on his death at the latter place.

As a young man he attended Bucknell university, near Philadelphia, where he was known as a star baseball pitcher. He later played on a team with Rube Waddell and Claude Ritchie, later famous as major league players.

Besides his wife, he is survived by a daughter, Mrs. George Christie of Cisco; two brothers and three sisters. Two sons have died. They were William, whose death occurred at the age of nine years in 1913, and George, Jr., who died September 20, 1936. Three grandchildren, Robert, Jimmy and Joe Christie, Cisco, also survive.

The brothers are Charles E. Weaver and William J. Weaver, Jr., of Pittsburgh, and the sisters are Mrs. Laura McIntosh and Mrs. Mary Van Devender of Pittsburgh, and a sister, Sarah, living in Buffalo, N. Y.

Mr. Weaver was converted to christianity in the summer of 1929 at San Antonio and was baptized at that time.

British Methods Borrowed By US

LONDON, Oct. 21. (AP)—When America takes its voluntary unemployment census it will be borrowing a page from the British. British unemployed register every week at one of the some 2,000 government offices. The weekly registration keeps the government posted and guides employment offices.

The October 4 report showed 1,090,967 wholly unemployed, 191,737 temporarily stopped, and 56,500 normally in casual employment making a total of 1,339,204. This was an increase of 30,000 over August 23 but a decrease of 236,000 over Sept. 21, 1936.

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination.

Controversy On WTCC Removal Goes to Court

ABILENE, Oct. 21.—West Texas chamber of commerce had no home office open Monday, as Stamford citizens went to the courts to prevent removal of the headquarters from Stamford to Abilene.

Sunday Judge Dennis Ratliff of 39th district court, Haskell, issued a temporary restraining order enjoining D. A. Banded, general manager of the WTCC, from moving offices from Stamford. Hearing on the injunction was set for November 15.

Banded closed the Stamford office at 9 a. m., and did not open up in Abilene. "We are not moving, nor are we occupying the Stamford office until we get legal advice to ascertain our rights," said Banded.

Mayor W. W. Hair of Abilene said that "Abilene stands ready to fulfill its offer made Friday x x x."

Of course we would like to have the office. We made our offer and it was accepted. We are sorry, however, that any court proceedings have resulted.

BIBLE THOUGHT FOR TODAY

And He arose and rebuked the wind, and said unto the sea, Peace, be still, and there was a great calm.—Mark iv. 39.

God is the home
To which we come,
When death has passed
To life at last.

—ANON.

When the shadows fall about us at last and the night comes creeping in the valley, may the blessed melody of God's love still sing in our hearts, "I will fear no evil for thou art with me." And my God answers, "Lo, I am with you always, even unto the end."—Melody of the Twenty-Third Psalm.

"Food For Thought"

THE election of Rep. John E. Miller, running as an independent democrat, to the toga of the late Senator Jos. E. Robinson of Arkansas over Gov. Carl E. Bailey, running as the nominee of the state democratic executive committee, may not be an outright repudiation of the new deal, but the fact that this rather surprising upset of formal democracy occurred in the state of Arkansas ought to provide food for some earnest thinking on the part of the administration. The result clearly shows that the influence of the national administration, hitherto considered invincible in rock-ribbed democratic states, was not sufficient to overcome resentment over the tactics of the party's leadership.

GOV. BAILEY campaigned under the aegis of the new deal, accusing his independent opponent of disloyalty and promising his

Texas Allowable for Oil Is Cut 54,167 Barrels

AUSTIN, Oct. 21. (AP)—The state railroad commission issued an order last night fixing Texas' allowable production of oil at 1,351,677 barrels on November 1, a decrease of 54,167 under the basic allowable for October.

The new starting allowable for November was 61,623 barrels under the recommendation of the federal bureau of mines and compared with an allowable of 1,405,844 on October 1 and 1,468,319 on October 19.

The factor on which the allowable of the big East Texas field is computed, 2.32 per cent of the hourly potential, was not changed, despite the fact evidence was introduced at a statewide prorating hearing earlier in the day that bottomhole pressure was continuing a decline.

In a statement, C. V. Terrell, chairman of the commission, announced the reduction was made so that production would not exceed current market demand. The cut had been expected.

"Oil in storage above ground in the United States today is 310,000,000 barrels," he said. "It has increased to that figure from a low of 527,000,000 barrels last winter."

"We are compelled by Texas laws to prevent above ground waste of oil in storage. When storage is increasing it is positive proof that more oil is being produced than the market will absorb."

"In various parts of Texas purchasers are refusing to buy our oil. This condition if allowed to continue would mean many wells would soon be able to sell no oil. This order is intended to make

it possible for every Texas oil well to produce and sell some oil every day and to prevent waste."

District allowables on October 1, October 19 and Nov. 1 were: Southwest Texas 240,594, 265,560 and 229,708; Gulf coast 189,817, 203,419 and 178,916; East Central Texas 106,440, 110,260 and 88,020; East Texas 480,154, 482,419 and 484,068; West Central Texas 69,859, 74,482 and 70,717; West Texas 183,505, 193,977 and 167,758; North Texas, 61,935, 63,115 and 60,650; Panhandle 73,540, 75,087 and 71,840.

"Straight, Narrow" Orders This Judge

ELYRIA, O., Oct. 21. (AP)—Alvin Sanders, 27, was placed on probation on an automobile theft charge, but he'll have to walk the "straight and narrow." Judge D. A. Cook, in suspending the sentence, decreed that for five years Sanders must take no alcoholic drink, not even beer, must stay out of any place where liquor is sold, and must not gamble.

own unwavering support. The fact that he was defeated indicates that Arkansas democrats have acquired a new and more sovereign concept of politics and are more inclined to do their own choosing in matters which have a bearing upon their own state interests.

OTHER OPINIONS

Authentic Capitalism

THOSE at the bankers convention in Boston who expected to hear from Dr. Glenn Frank, republican, a blast of unrelieved criticism of the New Deal, were disappointed. He did, to be sure, inveigh against "deluded liberals" who would upset the checks and balances of the American system and centralize all power in Washington. But a portion of his shafts were loosed in another direction—at what he termed "false capitalism."

"False capitalism," as he described it, is business without courage or social outlook. Afraid to venture, it wants profits guaranteed for it, perhaps by some sort of businessman's NRA. It would fix prices, and usually fix them upward. It would stifle competition, thus sheltering the weakest industrial units.

In contrast he defined authentic capitalism as that which asks no one, not even the government, to underwrite its profits. It is flexible about prices. It cries for neither private monopoly nor public coddling. Through efficiency alone it competes, and it knows that it must serve social ends as well as the profit-motive, to justify its existence.

Dr. Frank declared responsible leadership must create a passion for the authentic brand of capitalism. He would say that businessmen must come to realize enthusiastically that they are serving the nation when they fashion a going concern which furnishes society with goods reasonably priced, and labor with honest pay and respectable hours.

It would be interesting to know how many of the bankers will try to give effect to that ideal. They will shortly be back behind their polished desks, conferring with business leaders in their communities. Their diagnosis and counsel on "what's wrong with business" can carry real weight. They have the opportunity to point the difference between true and false capitalism. They can paint the long-range objectives, and they can warn of what they have discovered even in their own line of trade, that unless private enterprises sets its house in order, government steps in to correct matters itself, with ever increasing controls. — Christian Science Monitor.

Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel the germ-laden phlegm. Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained from the very first bottle. Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

Warns Against So Called Specialists And Tree Peddlers

This is the ninth in a series of articles on the planting of trees and shrubs by J. B. F. Wright, local tree and shrub man.

Planting time is almost here and now my dear people I want to repeat my timely warning: "don't buy this nursery stuff on these trucks and trailers to town haul it around from some of it till they sell out and maybe months is weeks old and sell it and it is old before they plant it out and as dead when you plant it and then hold their green color for weeks. Maybe after you plant it and then they will gradually turn brown. You will wonder why, the answer is it was dead when you planted it."

We live too close to nurseries to allow these peddlers to humbug us in such a way. We can run over to Fort Worth or Dallas and get what we want and get back home and plant it out the same day by having our holes dug before we go after them. This is the best thing to do, then we can be sure they will live. Of course if one plants them outright and takes care of them.

And another thing I wish to mention. We have some so-called specialists who come around to the homes and tell our ladies they are tree specialists and always find diseases in your shrubs and want to treat them. I don't want to brand all as frauds but so many are out just to make what they can. What I want to say is that we have a good hon-

est vocational man here to whom we can go for advice concerning our tree and shrub trouble. If you need advice, call Mr. Caudle, I'm sure he will give you good honest advice, and I am sure too he knows more about trees and shrubs diseases and treatment than most of these so-called specialists. And our old friend J. B. Ely is well read up on this line and I might be able to help you. We are living here and feel interested in your problems and will give you conscientious honest advice and help you in any way we can.

I find that I make enough mistakes at the best but I am here to correct any and all mistakes if you will call my attention to them.

Now this is plain talk dear people but I believe I'm telling you the truth. I shall have something to say later on about the treatment of trees and shrubs spraying for insects etc.

So hoping this warning will save you from being humbugged, I am yours for honest, sincere service. Phone 74, 306 W. 8th.

New Shell Melts Steel Like Snow

LONDON, Oct. 21. (AP)—A new German shell that melts iron and steel is being used by Franco's forces, says Prince Hubertus Loewenstein, the German author, who recently returned from Republican Spain.

"The shells, with a specially prepared termite filling, are fired by ordinary anti-tank guns. Exploding inside the tank they develop a heat of 4,000 degrees Centigrade, by which, of course, steel and iron melt like snow," Prince Hubertus said.

Business Failures Decline Sharply

AUSTIN, Oct. 21. (Sp)—The number of business failures in Texas during September declined sharply below those of the like month last year, but the liabilities of these firms were more than double those of the firms that failed in September last year, according to the University of Texas bureau of business research. During the third quarter the number of failures was slightly below those of the corresponding period a year ago, but liabilities were nearly four times as great.

"Reports from Dun and Bradstreet, Inc., show four failures in September, against thirteen the preceding month and 11 during September last year," the bureau's announcement said. "During the entire third quarter there were 34 failures compared with 35 during September last year.

"Liabilities of the firms that failed totaled \$318,000, an increase of 132.1 per cent over September last year, but a decline of 70.3 per cent from August. Aggregate liabilities for the entire third quarter were 292.0 per cent above those of the corresponding three months a year ago."

Salsburg Is Goal Of Opera Singers

SALZBURG, Austria, Oct. 21. (AP)—There's a new answer to the old question about an opera singer's ultimate goal. It's Salzburg. That's the answer at least, for six who have sung with the Metropolitan Opera company in New York and who are now prominent in the Salzburg Music festival.

Some are attracted by the international audiences, the pay, the chance to talk with many other artists, or the quiet of Salzburg.

Lotte Lehmann is one of the growing number that has looked beyond the Metropolitan to this little city. Others are Ezio Pinza, Virgilio Lazzari, Elizabeth Retberg, Kerstin Thorborg and Franca Somigli.

The loon is one of the lowest forms of bird life, biologically speaking, but it's no fool.

Motion Granted to Advance Beer Election Suit

The court of civil appeals for the eleventh supreme judicial district announced Friday that the motion of W. S. Adamson et al, appellants in the appeal of the prohibition election case, in which G. Connally, et al, were the defendants, to advance the hearing of the appeal had been granted. This appeal was taken by the county commissioners and others against the judgment rendered in the 91st district court by Judge B. H. Atchison, of Breckenridge, presiding for Judge G. L. Davenport, who disqualified himself.

The trial court rendered a decree nullifying the election held to prohibit the sale of intoxicating liquors of all kinds in Eastland county. A majority of the votes cast in said election favored the prohibition of sale of all intoxicating liquors in the county, and from this decision the county officials and dry forces perfected an appeal, which is now pending, and which this action of the appeals court directly concerns. It is probable a decision will be handed down by the appellate justices this week, in accordance with the court's granting the motion to advance the case.

Many people were under the impression that the action of the appeals court in dismissing the appeal of J. J. Mickle, et al, vs. Clyde L. Garrett, county judge, et al, was a dismissal of the county-wide case tried before Judge Atchison, and in dismissing that case the court had acted upon the last election for prohibiting the sale of all

intoxicating liquors in the county. This is an error, as the case on appeal which was dismissed concerned the 14 per cent liquor case, in which the majority of the votes cast in that election, held in 1936, favored the sale of wine and beer of not over 14 per cent alcoholic

FRIGIDAIRE WITH THE METER-MISER will Safeguard the food you eat during DANGEROUS DAYS AHEAD

Don't rely on makeshift refrigeration methods during Fall and Winter months

- These are dangerous days for food. For many people, believing that the "cool weather" of fall and winter protects food against spoilage, rely on makeshift refrigeration that does not provide protection. • The truth is that nature seldom maintains food-protecting temperatures, and those who rely on inadequate, unreliable refrigeration are actually risking their health and wasting their money. • It is false economy to be without the protection Frigidaire with the Meter-Miser provides. Spoiled food takes its toll in many ways. Don't take needless chances. • Even with a limited income, you can own and enjoy a Frigidaire. For Frigidaire with the Meter-Miser pays for itself out of the savings it makes, and pays a profit besides! • Come in and we will prove it to you. Ask about our pay-as-you-save purchase plan.

SPOILED FOOD WARNS TOO LATE!

Food may look good, smell good, and taste good and yet be unfit to eat! Food spoilage does not always warn of its presence. No one should take chances. For safety, keep food at temperatures between 32 and 50 degrees Fahrenheit, all the time. Frigidaire with the Meter-Miser provides constant safety-zone temperatures, and proves it with a Food-Safety Indicator on the outside of the cabinet door, always in plain sight.

Still Coughing?

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel the germ-laden phlegm. Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained from the very first bottle. Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (ADV.)

Spirited Bidding on Oil, Gas Rights Is Promised

AUSTIN, Oct. 21. (SpI)—There promises to be spirited bidding for the purchase of the oil and gas rights to 15,076 acres of land owned by the University of Texas in Andrews, Ector and Crane counties when the 93 tracts are put up at public auction here on October 22. The production possibilities of these various well scattered blocks of land are regarded as unusually favorable, due to their location in or adjacent to areas that have been already proved.

In northern Crane county, on university land, the Texas company recently completed a well which flowed at the rate of 6,144 barrels daily. This large production places the well almost in the class of the big producers in the Yates field of Pecos county. At any rate, it is sufficiently large to excite the interest of other operators of that region and it is indicated that development in and around the new well will be greatly stimulated. The well has a depth of 3,538 feet. The Texas company's success in securing large production on university land in that area is expected to cause good prices to be paid for tracts in that county in the sale here next Friday.

Continued success in adding producing wells to the field in Gaines county, which adjoins Andrews county on the north, has served to place the university-owned tracts in the latter county which are to be offered at the coming auction sale in a highly favorable light, with consequent higher bidding, it is expected.

For Children Who Can Read . . .
Now that talkies and radio threaten to take over our so-called cultural life, it may be that children no longer are taught to read. If there are those who remember the old days, here are some books they might look over, perhaps even read.

One of the best, though not the most expensive, is called "Storm-along" by its creator, Alan Villiers of the tall schooners and taller sea tales (Scribners; \$1.75). Those who read his "Cruise of the Conrad" will remember Stormalong and Hardcase; this is a retelling and rearranging of the incidents of the same voyage for younger readers. Villiers writes nicely for this audience, and he has chosen his incidents astutely. Although any trip around the world on a full-rigged ship ought to produce incidents enough for several books.

H. A. Calahan is, like Villiers, a sea-going man, although most of Calahan's sloshing around is done in small boats. He writes often and helpfully of the small-boat sailor's problems, and between times turns out books for boys. "Hurrah's Nest" (Vanguard; \$2) is his latest juvenile, based on an adventure of Baron Harden-Hickey at Trinidad in the nineties. Once in a while Mr. Calahan implies a slightly sophisticated outlook for his audience, but mostly the book is good adventure, written much better than the average in the juvenile field.

There are a couple of nice books for girls as well, first of which shall be Emma Bugbee's second effort. This one retails the further efforts of Peggy, first introduced in "Peggy Covers the News." Miss Bugbee has got her heroine as far as the Capitol by now. "Peggy Covers Washington" (Dodd, Mead; \$2) mixes gentle love interest with the routine of a female Washington correspondent.

Sara Pennoyer is likewise exploiting her business in "Polly Tucker Merchant" (Dodd, Mead; \$2). This is the better side of the career of a girl in a department store who works up to a "career" as "fashion expert and buyer" in the ready-to-wear. Miss Pennoyer makes working in a department store seem just ducky.

Webster defines "loans" as follows: "Anything furnished for temporary use."

When we pay what we borrow we make progress . . . we build up . . . we acquire.

When we merely pay interest on what we borrow we mark time. We all have a certain unsound feeling about a loan that runs on and on—never getting any smaller.

Obviously a loan is something that should be repaid . . . otherwise its usefulness has been destroyed.

165 Out of 224 Growers Join

EASTLAND, Oct. 21. (SpI)—Eleven of 20 chairmen of committees named to assemble the membership roll of the Southwestern Peanut Growers association in the county have reported 165 "joiners" out of 224 growers contacted.

The peanut growers have a total of 4,332 acres in the crop. There are 1,000 peanut growers in the county, it is estimated by County Agent Elmo V. Cook, to whom the membership committee report.

The committeemen were named

last week at a meeting which inaugurated the association's county membership drive.

Members are assessed a fee of seven and a half cents per acre on their peanut crop which enables them to sell through the association if desired.

Committeemen chairmen who had reported to Cook on their progress were: O. D. Carver, Crocker; F. C. Eaves, Kokomo; J. D. Guy, Carbon; A. N. McBeth, Nimrod; Oscar Schaefer, Pioneer; Tom Poe, Long Branch; Robert Tucker, Pleasant Hill; George Nunnally, New Hope; Oscar Lyeria, Flatwood; Charlie Hathcock, Colony; J. E. Smith, Gorman.
