## FD COMPROMISES ON REVISION BILL

### MODIFICATION IS ADVISED BY HOUSE DEMOS

Foes of Measure Use Strategy of Delay in Opposition

WASHINGTON, April 2 (AP) — President Roosevelt, upon the advice of house leaders, has agreed to the modification of the controversial government reorganization bill. Informed sources said today, as the house convened to consider the program, that the president had given his approval to the demand that the education office remain in the department of interior, and that congress be permitted to set aside, by simple majority, any of the president's reorganization orders under the authority bill.

Speaker Bankhead announced that the house would have full and fair opportunity to "work its will" on the measure.

Foes of the measure had followed a strategy of delay, hoping a deluge of telegraphic protests against the bill would swing wavering members to their side. Telegraph companies said they had delivered about 150,000 messages to representatives, but did not estimate the number opposing or endorsing the bill.

Speaker Bankhead said: "I regard it as conclusive that the house wants more debate on the bill and nothing else."

When the house had expressed they would make no further effort to limit debate.

Two rousing speeches, one for and one against the bill, by two of the most influential democrats in the house immediately preceded the vote.

Majority Leader Rayburn of Texas appealed to democrats to support the president, ignore "propaganda" against the measure, and accept republican opposition as a partisan issue for the 1938 campaigns.

Representative O'Connor of New York, whose chairmanship of the rules committee gave added weight to his advice, urged that the legislation be defeated.

"The reason for this unparalleled protest," he said, referring to the telegrams, "is that there has grown up throughout the country in the minds of our people, rightly or wrongly, the belief that this reorganization bill not only usurps the power of their representative body in congress, but places too much power in the executive, tending toward a dictatorship."

### Cisco Colored School Wins in District Meet

The Cisco colored school entered the sixth annual session of the west Texas district interscholastic league meet held in Brownwood April 1.

In the three events entered, the Cisco teams won three first places. Ada Aquilla McFarland and Eva Mae Mims won first honors in the spelling contest. Julia Mae Crear's soprano solo won first place in her division of the singing contests. The girls' quartet received a first-place award. The members of the quartet are: Gladys Mims, Julia Mae Crear, Eva Mae Mims, and Ada McFarland.

It is hoped that the school board and the citizens of Cisco will assist the teams in their plans for entering the state tournament to be held in Prairie View, Prin. Grimes of the Cisco school said.

Mrs. Roece St. John of Abilene was the guest of friends here Friday.

### They Guard School Lives

### Lions Organize Committee for Sale of Seals

The Lions club of Cisco has taken over the sale of Easter seals for the benefit of crippled children with A. G. Tuttle as chairman for the drive which begins here April 11. The seals are one cent each and one-half of the proceeds will remain in Cisco to be dispensed for the relief of local cripples, Mr. Tuttle announced.

Every county in Texas is now being organized for the purpose of selling Easter seals for crippled children. The campaign is being conducted by the Texas Society for Crippled Children of which Charles F. Ashcroft of Sulphur Springs is president. The sale of seals began April 1 and will last until Easter Sunday.

Abe Goldberg, Port Arthur business man and philanthropist, is actively in charge of organization work. He has been for many years vice president of the society.

Money raised by the sale of Easter seals will be spent exclusively for crippled children in Texas to provide them hospitalization and treatment, to buy them braces and crutches and to pay transportation between their homes and various hospitals throughout the state. There will be no distinction in regard to age, race, creed, color or the nature of the disease. Children crippled from birth or through accident will be given aid by the society as well as those crippled by infantile paralysis provided their families lack money for their treatment. The Easter Seal sale is endorsed by both the State and Federal governmental departments interested in educational and rehabilitation work.

Chairman Ashcroft announced the committee for the Easter Seal sale for Cisco as follows:

A. G. Tuttle, chairman; Horace Condlie, vice chairman; A. G. Tuttle, treasurer; W. H. LaRogue, director of publicity; Jack Anderson, Ed Brown, O. L. Stamey, Smitty Huestis.

In Eastland county 27 crippled children have received treatment and five children are now awaiting treatment.

### Students Begin Trek to Lake Cisco

Four schools in this section Friday sent large groups of their students to Lake Cisco on customary year-end outings. They were: Cross Plains, whose group of 41 was supervised by L. C. Norman; Scranton, which sent 180 in charge of John H. Shrader, Miss Louise Smith, Miss Evelyn Couch and Mrs. Elsie Cozart; Flatwood, with 21 students in charge of T. E. Robertson, and Putnam, with 75 students led by Supt. R. F. Webb.

### Community Shift Promotes Dyer; New Manager Here

Hal Dyer, for six and one-half years manager of the Cisco district of the Community Natural Gas company, has been promoted to the management of a larger western district and C. M. Nevill, lately with the Waxahachie district of the company, where he was assistant manager, has assumed the management of the Cisco district. It was announced here Saturday by M. L. Bird, division superintendent, of Abilene.

Mr. Dyer, who came here as manager coincident with the purchase of the Cisco plant from the West Texas Utilities company, will remain with Mr. Nevill for about a week before leaving for his new post.

Mr. Nevill, who is 28 years of age, has been with the Community for five years, first joining the company staff at Greenville, his home. He has served in the Greenville, Hillsboro, McKinney and Waxahachie districts. He and Mrs. Nevill, the former Miss Marguerite Burnett of Greenville, have no children. For the first few days they plan to make their home at the Laguna hotel, moving their household effects here as soon as a residence can be found.

Mr. Dyer came to Cisco from Dallas where he had been with the company for two years. The Community purchased the Cisco system and assumed charge on October 1, 1931.

He has been very active in civic affairs during his residence here, serving as president of the Cisco Lions club and giving liberally of his time to numerous community projects. He is a member of the junior chamber of commerce and has directed many of its activities, served several times as chairman of the President's Birthday celebrations and in many other programs of civic endeavor.

He and Mrs. Dyer have two daughters, Marjorie Ann and Colleen.

### Three Trustees of Cisco Schools Are Re-elected

A total of 107 votes were cast in the Cisco Independent School district board voting Saturday for the election of three trustees.

Mrs. Sam Kimmell, Mrs. N. A. Brown and Mrs. P. R. Warwick were re-elected, each receiving 105 votes. One vote each was cast for Mrs. Sutton Crofts, Mrs. A. J. Olson and Mrs. Phillip Pettit.

### Water Well Finds Oil at 160 Feet

Drilling a water well with a small rig, Tom Brooks of Brooks store, between Cisco and Moran, was reported recently to have brought in an oil well, good for five barrels daily, from a depth of only 140 feet on a tract of land at the rear of his store.

### County League Meet Title Between Ranger, Eastland

Several Events Still Out After Meet Saturday

The all-round county class A championship of the annual interscholastic league meet, concluded Saturday with track and field events at Eastland, was still undecided Saturday night as league officials awaited returns from two or three contests outstanding.

Ranger, with 121½ points, and Eastland with 119, were neck and neck.

Rising Star, with 68 points, captured the Class A track and field championship Saturday. Ranger gained 33½ points, Eastland 20, Gorman 18½, Carbon 10 and Cisco 3.

Olden won the Class B championship in track and field and Morton Valley was second. Olden also captured the all-round B championship with 68 points. Hodges Oak Park school of Ranger won the ward school all-round title, also with 68. Okra, with 158 points, was first in the rural division if the all-round meet.

Ranger took first in the junior Class A track and field with 28 points and Cisco was second with 14. Olden was first in the junior Class B with 24 points and Cisco grammar school was first in ward track and field events with 20 points.

Hal Dyer, for six and one-half years manager of the Cisco district of the Community Natural Gas company, has been promoted to the management of a larger western district and C. M. Nevill, lately with the Waxahachie district of the company, where he was assistant manager, has assumed the management of the Cisco district. It was announced here Saturday by M. L. Bird, division superintendent, of Abilene.

Mr. Dyer, who came here as manager coincident with the purchase of the Cisco plant from the West Texas Utilities company, will remain with Mr. Nevill for about a week before leaving for his new post.

Mr. Nevill, who is 28 years of age, has been with the Community for five years, first joining the company staff at Greenville, his home. He has served in the Greenville, Hillsboro, McKinney and Waxahachie districts. He and Mrs. Nevill, the former Miss Marguerite Burnett of Greenville, have no children. For the first few days they plan to make their home at the Laguna hotel, moving their household effects here as soon as a residence can be found.

Mr. Dyer came to Cisco from Dallas where he had been with the company for two years. The Community purchased the Cisco system and assumed charge on October 1, 1931.

He has been very active in civic affairs during his residence here, serving as president of the Cisco Lions club and giving liberally of his time to numerous community projects. He is a member of the junior chamber of commerce and has directed many of its activities, served several times as chairman of the President's Birthday celebrations and in many other programs of civic endeavor.

He and Mrs. Dyer have two daughters, Marjorie Ann and Colleen.

A total of 107 votes were cast in the Cisco Independent School district board voting Saturday for the election of three trustees.

Mrs. Sam Kimmell, Mrs. N. A. Brown and Mrs. P. R. Warwick were re-elected, each receiving 105 votes. One vote each was cast for Mrs. Sutton Crofts, Mrs. A. J. Olson and Mrs. Phillip Pettit.

### Cisco Wins Junior Soft Ball Title

The Cisco high school junior girls, under "Pop" Garrett's direction, Saturday won the county interscholastic league playground ball championship. The Cisco girls in their game with Eastland were rated as the underdogs, but the final score read: 6-4, Cisco.

Members of the team are: Frances Mae Moseley, Ruby Kent, Marie Owens, Ruby Carson, Helen Draganis, Eula Mae Jackson, Ethel Fleming, Jessie Mae Strand, Eulala Reams, and Geneva Isenhower. Eulala Reams was the catcher, and Geneva Isenhower pitched.

### PARMER GETS FIVE MILLION FEET OF GAS

Lone Star's No. 2 Shut Down, One Foot In Lake Sand

The Lone Star Gas company's No. 2 Parmer drilling 1,321 feet north of the Hickok Van Parmer Ellenberger discovery well eight miles northwest of Cisco, Saturday was shut down after encountering five million feet of gas in the Lake sand. Operators pointed out that the Hickok Van Parmer found no such gas in the Lake sand penetrated by it.

Significantly also, the Lone Star well topped the Caddo lime 35 feet higher than it was found in the discovery. The Lone Star Van Parmer found the Caddo at 3,359 feet and left it at 3,460. The Lake sand horizon was topped at 3,495 and has been drilled only about one foot into the formation.

Northeast of these wells, the Hickok Cleveland No. 1 (D), in section 476, SPRR survey, has set 15-inch pipe around 600 feet.

Plugging back The Lone Star No. 1 Van Parmer continued plugging back. Total depth of the well was 3,988½ feet where water encroached after an acid shot in the lime. Plugging back was being accomplished cautious stages.

An outstanding well this weekend in this portion of west and central Texas was two miles north of Caddo, Stephens county, the L. C. Little and George Fagg No. 1 R. M. Rogers, section 28, block 5, T&P survey, which was plugging back after encountering sulphur and salt water at total depth of 4,490 feet.

There were several levels at which operators might try to produce. These were depth of 3,900, 3,950, 3,830 and 4,063 feet where shows of gas were encountered.

Sometimes called one of the major petroleum experiments of west central Texas, the Gallagher-Lawson et al No. 1 Mrs. Bobbie I. Terry, N. H. Kuykendall survey, Comanche one-half mile of Desdemona in Eastland county, was drilling at 4,917 feet with sulphur and salt water in hole. Many have been the obstacles in drilling this well. In its completion rests, perhaps, the

(CONTINUED ON PAGE FOUR)

### Homemakers Choose Cisco for First Area Meet

Cisco was selected for the first area meeting to be held in October by the Future Homemakers club of District 4 at the all-day meeting held at Lake Cisco Saturday. During the business meeting, presided over by Miss Dorothy King of Albany, the following officers were elected: Dorothy Mae Hill, Albany, president; Reda Wray Clark, Cisco, vice-president; Jewell McGee, Breckenridge, secretary; Dorothy Jean Cash, Pioneer, corresponding secretary, and Reta Lee Barton, Eastland, parliamentarian. About 150 club members and mothers were present. Miss Martha Graves, supervisor of home economics, is chairman of District 2.

### Communion Service for Presbyterians

A communion service will be observed at the Presbyterian church at the morning worship hour with special music by the choir. At the evening preaching hour, a service for the installation of the officers of the young people's department will be held. A special program has also been planned for this hour.

### Mrs. Howard to Celebrate Her 92nd Birthday

Relatives and friends prepared to felicitate Mrs. Margaret Jane Howard today, on the occasion of her 92nd birthday, at the home of her son-in-law and daughter, Mr. and Mrs. J. A. Jensen, with whom she has been living for most of the time since 1917, following the death of her husband.

The family planned a picnic at

Lake Cisco, if weather is favorable. If not there will be a dinner at the Jensen home, 1410 N avenue and a reception.

Mrs. Howard, born Margaret Jane Pennington in Jackson county, Alabama, on April 3, 1846. She was married to N. M. Howard July 11, 1867, in Alabama, and the couple moved to Texas in 1872, settling first near Cleburne. Later they moved to Parker county where Mr. Howard continued to farm and to practice his profession as a doctor. He died in California while visiting a son there.

Mr. and Mrs. Howard were the parents of five children, four of whom are still living. They are Mrs. Sarah Jane Grable of near Weatherford; Jasper Howard of California; Mrs. Allie Howard Derrick, and Mrs. Jensen.

Special Services at Christian Church

Rev. Clark W. Lambert, pastor of the First Christian church of Cisco, Saturday announced that:

"In keeping with the general custom among the Christian churches, the First Christian church of Cisco is holding special services at Easter time. These include five week-night preaching services, just before Easter, and a sunrise prayer meeting on "Easter morning."

### BLAME FIRE, EXPLOSION

WASHINGTON, April 2 (AP) — The air commerce bureau reported today "fire and explosion associated with dumping fuel," probably caused the flaming crash of the Pan-American Airways' Samoan clipper in the South Seas, January 11.

### Pastor and Officials

Alpha Elder, Walter Preston Luther Pryor, of pastor of the Nazarene, under ship the church

BIBLE THOUGHT FOR TODAY

Thou art my help and my deliverer. O Lord,
let all them that seek Thee rejoice and be glad in
Thee.—Ps. lxx. 4, 5.

Heaven disapproves that care, though wise in show,
That with superfluous burden loads the day,
And, when God smiles a cheerful hour, refrains,
—MILTON.

Welcome with joy each week the day that God
has called His day. Sunday is a day of Love. On
Sunday we array ourselves in garments not only
fresher, but more choice and graceful. Why not
prepare the heart even as we prepare the body?

Something Hazy

THERE is something a bit hazy to our way
of thinking about the new program for
broadening the loan authority of the Recon-
struction Finance Corporation. When the
RFC came into being during the Hoover ad-
ministration it came as the answer to an
emergency with the definite object of pro-
viding easier credit for distressed railroads
and similar institutions of public need which
were finding it extremely difficult to readjust
and perfect their financial set-ups with the
private credit then available, and also to
start a sort of credit "pump-priming." The
Roosevelt administration adopted the idea
and incorporated the RFC into its vaster
"pump-priming" experiment.

AFTER a number of years of this activity
it has been found necessary to enlarge the
scope of RFC lending rather than restrict it

as normal credit facilities recover their abili-
ty to meet the need. Under the enlarged
program the RFC would be permitted to lend
to private business and to revive its loans for
the construction of public works.

THIS nation has a vast reservoir of private
credit lying idle, so we are told. Yet the
government agency is being asked to make
available financing for large numbers of
businesses, particularly the small business
man, which cannot obtain credit from the
usual sources. Private credit has not been
willing to lend to such institutions, or it can-
not under the restrictions of law and com-
mon sense, risk its resources on such collater-
al. Why? Why is it practicable for the gov-
ernment to lend to institutions which are not
regarded as good credit risks for private
money? It seems apparent that this problem
of reviving business and credit will have to
be attacked in a more fundamental area than
that of mere expedient.

We Need It--
We Can Have It

INFORMATION to the Cisco Daily Press is
to the effect that the proposal for a state
highway between Cisco and Cross Plains is
being viewed with more and considerable
favor by influential members of the state
highway department's engineering staff. This
is encouraging. It is more encouraging be-
cause the approval of such expert opinion
upon the matter confirms our honest belief in
the fundamental soundness and need of such
a road. The importance of the proposed high-
way is not local. In the minds of the approv-
ing engineers it as a necessary link in a route
serving a great and developing area of the
state which is as yet little equipped with
highways. From Cross Plains through Cole-
man the proposed highway would be pro-
jected in a southwesterly direction to Eden,
Texas, and Sonora, forming portion of a ma-
jor highway terminating at Del Rio, where
it would connect with the new Mexican
national highway building from that point.

THE need of a paved highway southwest
of Cisco cutting through and serving the
rich farming area about Scranton and beyond
is great. There are problems confronting the
construction which may appear insurmount-
able. But if the highway department de-
termines upon building a route of the char-
acter now contemplated, it is going to find a
route for it, preferably this, but if this is not
possible, another. In view of this reality, it
behoves Cisco people and the citizens of the
western end of Eastland county to get busy.
We need that road. If we want it badly
enough, it can be had.

among other things, pledged the
government to:
1. Give workers a share in in-
dustrial profits and to divide the
land among the Indians.

2. Take over the mineral rights
in the name of the Mexican people.
Until 1934, however, these still
were more or less promises under
powerful Plutarco Elias Calles.

In that year, Calles selected La-
zaro Cardenas, to become his rub-
ber stamp president.

Much to everybody's surprise,
Cardenas was no rubber stamp. He
increased the army's pay and pen-
sions; reduced illiteracy; softened
the war against the Catholic
church; turned the Calles political
machine into the Cardenas ma-

chine; began to fulfill promises of
the 1911 revolution.

Chooses One Horn

Calles called a halt—and found
himself a man without a country.
Cardenas began turning the land-
ed estates over to the Indians.
The deposed owner got a promissory
note.

Now, when the oil companies
refuse to pay labor costs they say
would ruin them, Cardenas in-
vokes the expropriation law of
1936, takes over \$400,000,000 worth
of property. He says Mexico will
pay the owners within 10 years.

Whether Cardenas is risking
economic confusion, or bankrupt-
cy, nobody knows.

Likewise, observers here wonder
what the United States can do
under its new good neighbor pol-
icy.

The United States has been
buying Mexican silver well above
the world price, and pegging the
Mexican peso (dollar) with these
purchases. That might be used as a
threat, but the threat of economic
intervention is ticklish, because
every nation south of the Rio
Grande is watching Uncle Sam.

Meanwhile, Cardenas calls up
Mexicans to make sacrifices for
"economic liberation." The 1911
revolutionary firecracker has fi-
nally exploded.

Human and
Other Nature

By W. F. BRUCE

The color line is deeper than
surface color. When we say of a
man of any race, "He is white un-
der the skin," we really mean
white in the sense of clean, but at
the same time suggest a little
meaning of the superiority of our
own race. But racial lines inclu-
de occupational and cultural and so-
cial and religious differences. The
outh where whites and negroes
have existed in the same communi-
ties for generations; the west
where the Oriental is an object of
racial discrimination; and other
places where labor competition has
intensified differences in nationali-
ty, all are familiar with the ser-
iousness of the race problem. We
can understand the meaning that
lies hidden in the use of such
terms as "dogs" when referring to
some one of a different race. We
see that Jesus did not directly cor-
rect the wrong sense of relation-
ship expressed by the term "dogs"
used by both the woman and Him-
self. He seems almost to have ac-
quiesced in its use. The disciples
after their long association with
Him retained an anti-alien feeling.
"Send her away," they said im-
patiently, according to Matthew,
"for she cries after us." But the
Great Teacher was only taking
this way of leading up to a forceful
lesson on human worth wherever
found. Before they were through
with it He had granted the re-
quest of the woman for her daugh-
ter's healing, had paid the highest
compliment to her faith, and must
have left His disciple ashamed of
any love that was too narrow to

take in their neighbors of every
race.

ON HIS CONSCIENCE

BRADFORD, Pa., April 2 (AP)—
A childhood prank of 48 years ago
weighed heavily on the conscience
of an Olean, N. Y. man.

He wrote Mayor Hugh J. Ryan a
letter, relating that "way back in
1890" he visited the old fair-
grounds at South Bradford. But
instead of paying an admittance
fee, he crawled under the fence.
The thought of the act had dis-
turbed him all these years, he
wrote, and now he would like to
know to whom he could pay the
fee.

WHAT IT MEANS---
Mexico's Seizure of Oil Properties

By MORGAN M. BEATTY
AP Feature Service Writer
WASHINGTON, April 2—A revolu-
tionary firecracker whose fuse
has been smoldering in Mexico for
a generation, has just exploded in
the faces of American and British
oil companies—and their govern-
ments.

That's the meaning of President
Lazaro Cardenas' decision to ex-
propriate foreign oil holdings and
empower native workers to run

land back to the Indians. Indians
and mestizos (half-breeds) com-
prise close to 90 per cent of the
population.

Next, they promised to kick out
the foreigners and take over the
vast mineral resources of the
country—mostly silver and oil.

The revolutionary cause seemed
hopeless in those days. Dictator
Porfirio Diaz had been entrenching
his ruthless regime for a quarter
of a century.

He fostered accumulation of
property by a comparatively few
families. He invited foreign capital
to help him develop the coun-
try—in return for rich profits.

Ripe For Revolution

In 1911, the fiery Madero and his
revolutionists turned out Diaz,
and set themselves to liberating
Mexico.

But Mexicans of 1911 were not
ready for freedom. A succession
of military conquests and uprisings
followed.

Each new president also had to
keep a weather eye on the United
States. Uncle Sam was policing the
Americas, and a revolutionist in
bad odor to the north had better
look out for rivals who could
smuggle in rifles or get money
from people who had investments
in Mexico.

Moreover, a leader thrust into
power by a military faction had to
find quick money to run the gov-
ernment and pay off his support-
ers. The simplest way was to tax
landowners and foreign capitalists.

He also needed popularity, and
the popular thing was to promise
to give the land back to the In-
dians and drive out foreigners.

The Dilemma

Here were the horns of a dilem-
ma. If a leader drove out for-
eigners and gave the land to the
people, he faced bankruptcy and
intervention by the United States.
If he took the taxpayers' and for-
eigners' money, he faced revolu-
tion.

The upshot was the people con-
tinued to get promises, landown-
ers and foreigners continued to
hold their property. In 1917, Presi-
dent Carranza wrote the promises
into a new constitution. That,

Fashion Decrees
MANDARIN NAILS
... the Oriental symbol of aristocracy,
definitely the vogue. Long, tapering
nails that don't split or crack are now
possible with this new treatment.

Juliette Marglen NAIL-O-WAX

## Returns With Parents to Cisco

Betty Dean Lennon, 6-year-old daughter of Mr and Mrs. E. E. Lennon and granddaughter

ter of Mr. and Mrs. Tom J. Dean, who has just returned to Cisco with her parents to

make her home. Mr. and Mrs. Lennon have been living in Waxahachie.

### TO BRADY SUNDAY

Mr. and Mrs. W. H. LaRoque, Mr. and Mrs. Lloyd LaRoque, Miss Laura Rupe and Mr. and Mrs. A. D. Anderson will go to Brady Sunday to visit Truett LaRoque. Mr. and Mrs. Jack Elam of Corsicana will also join them there.

Look in the Classified First.

### M. E. G. Club Has Luncheon Thursday

The M. E. G. club of the home economics department gave a buffet luncheon at the high school Thursday. An Easter motif was used in the decorations and table appointments. The hostesses were Nanella Bible, Mildred Kimmell, Jane Moore, Venita Phippen, Catherine Mae McDaniel, Alice Slicker, Eileen Lucas, Katherine Lorton, Dorothy Fern Short and Norma Vick and the guests were Marian Jacobs, Marjorie Ruth Moates, Zona Surles, Betty Lou Mueller, Elvie Elder, Jeanne Jamison, Marie Litchfield, Betty Jo Hicks, Lois Beck and Thelma Clay. One-half of the girls in the class are hostesses and the other half are guests.

### Hendersons Hosts to Friendly Twelve

Mr. and Mrs. H. C. Henderson were hosts to the Friendly Twelve Forty-two club Friday evening. Bowls of red-roses were artistically arranged as floral decorations. Mrs. E. E. Daniels and Joe Clements were the winners of high scores and Mrs. Clements and E. C. McClelland made the low scores. The players were Mr. and Mrs. E. E. Daniel, Mr. and Mrs. Joe Clements, Mr. and Mrs. Ray Haley Mr. and Mrs. C. E. Moore Mr. and Mrs. E. C. McClelland and the hosts.

Mr and Mrs. Charlie Wende and son, Willie, have returned from a visit of several days with Mrs. Wende's brother, G. Rudolph, and family of Taylor, Texas.

## Cisco Choral Singers First in Their Class

The Cisco high school choral club, directed by Miss Ella Andres won first place in the class B division of the contest conducted by Hardin-Simmons university, Abilene, yesterday afternoon. Winters took second place and Roby third. In the trio contest, in which there was only one class, the Cisco trio took second place. Big Spring was first and Breckenridge third. Competition was strong, with 10 schools competing.

The contest was open to all high schools of Texas, Oklahoma and New Mexico. The high school trio is composed of Marian Jacobs, Billie Cole and Betty Lou Powell.

Members of the club are: Edleen Armstrong, Nanette Bible, Reba Mae Churn, Mildred Clark, Lillie Cole, Betty Jane Coates, Mildred Curry, Frances Edwards, Helen Erwin, Beatrice Ezell, Dorothy Ezell, Jane Gilman, Myrna Goldberg, Freda Gritt, Mary Louise Hagaman, Marian Jacobs, Jeanne Jamison, Margaret Key, Margaret Ann McDonald, Ada Rhone Mobley, Jane Moore, Betty Lou Muller, Betty Sue McCannies, Catherine Mae McDaniel, Polly Porter, Martha Jo Pass, Betty Lou Powell, Christine Prange, Inka Sherman, Marilyn Shertzer, Alice Slicker, Lillian Spears, Zona Maud Surles and Myra Jean Tompkins.

## Bluebonnet Girl

Janet Hanrahan, 5-year-old daughter of Mr. and Mrs. J. C. Hanrahan, Humbletown, snapped by a Press photographer

against a background of bluebonnets on the lawn at the home of Mr. and Mrs. G. B. Kelly, 512 West Fifth street.

## Good Manners Club Entertains With Banquet

The Good Manners club sponsored by Miss Marion Chambliss, entertained with a banquet at the First Methodist church Friday evening. A color theme of green, pink and yellow was used effectively in the decorations. Centerpieces for the tables were bowls of bluebonnets and roses mixed with sprays of bridal wreath and the Easter motif was featured in the place cards. Miss Louise Lawson, president of the club, was toastmaster. Other members on the program was a song by Marian Jacobs, readings by Scrippie Cluck, music by Cathryn Russell, song by Miss Chambliss, accompanied by Miss Elizabeth Daniel at the piano. The guests list included club members and their dates.

## YWA Meets With Mrs. Poe Friday

The Y.W.A. met Friday evening at the home of Mrs. E. J. Poe for the purpose of installing the officers for the coming year. Refreshments were served to Misses Marian Ghermley, Willie Frank Walker, Geneva Finley, Frances Caldwell, Ruth El Duff, Lucile Flaherty, Pauline Flaherty, May Delev and the hostess Mrs. Poe.

## Personals

Mr. and Mrs. J. W. Shepard of Houston are expected today for a visit with Mr. and Mrs. F. E. Shepard and other relatives.

Shorty Hamlin of Crane was a guest of Charles Trammell Friday.

Douglas Bales of Kermit is visiting his sister, Mrs. A. G. Tuttle, and Mr. Tuttle.

Miss Jessie Lee Hittson and Miss Kathryn Young of Denton are spending a few days with Mr. and Mrs. S. E. Hittson.

Miss Helen Crawford is spending the week-end in Baird with Miss Bessie Pearce.

Mrs. James Harvey is visiting relatives in Greenville.

### New Pipe Line Is Started by Conoco

PONCA CITY, Okla., April 2 (Spe.)—Continental Oil company has started construction work on its new 6-inch discharge pipe line from Villa Platte to Tepetate, Evangeline Parish, Louisiana, for which the survey was recently completed, it was announced at the company's offices here today. The new line will have a daily capacity of 12,000 barrels.

Completion of the line will connect Villa Platte production with Continental's Louisiana pipe line system at Tepetate and link it directly to the company's deep water terminal at Lake Charles. The Villa Platte field is a Continental discovery, two wells having been completed during the past few months, with three more now drilling. Continental has a block of 7,825 acres in this area.

The company is also constructing 35 miles of telephone line connecting Villa Platte, Tepetate, and its Basile loading station. Completion of the project is scheduled for April 25th.

### WHO IS RIGHT?

The fellow who is willing to leave his products with you on trial to prove they will do everything he claims, or the fellow who must have his money in his fist before he leaves anything with you? I am so sure that Watkins Mineralized Hog Tonic will make money for you that I'll leave it with you on trial. If you are not satisfied with the results, you do not need to pay me a cent. That's fair enough, isn't it?

Watkins Tonics speed up growing time, make healthier animals and poultry and will save you money. They pay for themselves many times over. I carry a complete line of the famous Watkins products and have some real bargains to offer you when I call. Save your order for me and I'll save money for you.

### Notice

AN ORDINANCE PRESCRIBING AND LEVYING CERTAIN OCCUPATION TAXES OR LICENSE FEES FOR PERSONS, FIRMS, CORPORATIONS OR ASSOCIATIONS OF PERSONS AUTHORIZED BY THE STATE OF TEXAS TO ENGAGE IN THE SALE OR DISTRIBUTION OF BEER, PROHIBITING THE SALE OF BEER BY ANY DEALER WHOSE PLACE OF BUSINESS IS WITHIN 300 FEET OF ANY CHURCH, SCHOOL OR OTHER EDUCATIONAL INSTITUTIONS, MAKING A VIOLATION OF PROVISIONS THEREOF A MISDEMEANOR AND PROVIDING A PENALTY FOR THE VIOLATION THEREOF; REPEALING ALL ORDINANCES OR PARTS OF ORDINANCES IN CONFLICT HERewith AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF CISCO, TEXAS, AS FOLLOWS:

**SECTION I**

That there is hereby levied and assessed and shall be collected from every person, firm, corporation or association of persons pursuing or that may pursue within the corporate limits of the City of Cisco, Texas, the business of distributing or selling beer as defined in House Bill No. 5, Article 2, Section 1, passed by the 45th Legislature as follows:

(a) From the holder of each General Distributor's License, as defined and required by the terms of Sub-Div. (b) of Sec. 3, of Art. 2, of the above mentioned act of Legislature, domiciled in the City of Cisco and carrying on business therein under such license, an annual tax or fee of \$100.00 for such license.

(b) Branch License: From the holder of a Manufacturer's or General Distributor's License as defined and required by the terms of Sub-Div. (f) of Sec. 3, of Art. 2, of the above mentioned act of the Legislature, carrying on business in the City of Cisco, under such license, an annual tax or fee of \$25.00 for such license.

(c) From the holder of each Local Distributor's License, as defined and required by the terms of Sub-Div. (c) of Sec. 3, of Art. 2, of the above mentioned act of the Legislature, domiciled in the City of Cisco and carrying on business therein, under such license, an annual tax or fee of \$25.00 for such license.

(d) From the holder of each Retail Dealer's On-Premise License, as defined and required by the terms of Sub-Div. (d) of Sec. 3, of Art. 2, of the above mentioned act of the Legislature, domiciled in the City of Cisco and carrying on business therein, under such license authorizing the sale of beer by retail dealers for consumption on or off the premises where sold, an annual tax or fee of \$12.50 for such license.

(e) From the holder of each Retail Dealer's Off-Premise License, as defined and required by the terms of Sub-Div. (e) of Sec. 3, of Art. 2, of the above mentioned act of the Legislature, domiciled in the City of Cisco, and carrying on business therein, under such license authorizing the sale of beer by retail dealers in the original containers, direct to the consumer, but not for resale and not to be consumed on the premises where sold, an annual tax or fee of \$5.00 for such license.

**SECTION II**

Upon the payment of the applicable tax or fee herein prescribed to the Tax Collector and the exhibition to him of a license duly issued by the State of Texas to the applicant or person paying such tax or fee, the Tax Collector shall in the name of the City of Cisco issue and deliver to such applicant or person a license to engage in the business in the City of Cisco of the character described in and authorized by the license from the State of Texas held by such applicant or person, and the license so issued in the name of the City of Cisco, Texas, shall authorize the conduct of such business upon the premises described in the license from the State of Texas, and shall remain in force only so long as such license from the State of Texas remains in force.

**SECTION III**

Any person, firm or corporation who shall fail to pay any tax or fee prescribed in Sections I hereof and secure a license before engaging in any business for which the payment of any such fee and the securing of any such license is required by the terms of this Ordinance, or who shall engage in any such business without holding an unrevoked or unexpired license from the City of Cisco, authorizing the same, shall be deemed guilty of a misdemeanor, and upon conviction shall be punished by a fine in any amount not exceeding one hundred dollars (\$100.00).

**SECTION IV**

It shall be unlawful for any person, firm or corporation to distribute or sell beer as defined in Sec. 3, of Art. 2, of the above mentioned act of the Legislature, at a place of business located within three hundred feet of any church, school or other educational institution, the measurements to be along the property lines of the street fronts, and from front door to front door, and in a direct line across street intersections where they occur. Any person, firm or corporation violating the provisions of this Section shall be fined not exceeding One Hundred (\$100.00) Dollars.

**SECTION V**

All ordinances and parts of ordinances in conflict with this ordinance are hereby repealed.

**SECTION VI**

The fact that the sale and distribution of beer containing not more than four per cent of alcohol by weight has become lawful in the City of Cisco, and the fact that there are no ordinances of said city regulating such distribution and sale, and providing for license fees, creates an emergency requiring suspension of the rule providing for the reading of ordinances at two several meetings of the City Commission; said rule is hereby suspended and this ordinance shall take effect and be in force from and after its passage, approval and publication.

PASSED AND APPROVED this 2nd day of March, 1938.

### Lone Star---

(CONTINUED FROM PAGE 1)

future exploitation of that part of Eastland county. The test was still in Ellenburger topped at 3,404 feet.

Two and a half miles south of Carbon, W. J. Dobbs was reported ready to move in for his No. 1 W. J. Greer et al, J. E. Hardy survey, a 3,500-foot test.

Also near Carbon, one-half mile south, T. W. Johnson No. 1 Mrs. Mary L. Jackson, section 34, block 2, H&TC survey, appeared as shut-down indefinitely. The total depth was reported at around 650 feet.

**Hayner Spudding**

Spudding was reported from Hayner et al's No. 1 P. C. Larkin, a 3,000-foot try, three miles northwest of Rising Star, section 40, block 2, ETRR survey.

There was only one new location for the district this week. It was the J. H. Hartey (Corpus Christi operator) No. 1 Cox and McInnis, 20 miles north of Brownwood, H. H. Rider survey, 330 feet from the north and 1,200 feet from the east line of the 150-acre lease in Brown county.

One of the dry holes of the week was recorded by E. E. Thate in his No. 1 A. Reeves and Alice Reeves, abstract 227, 15 miles south of Coleman, Coleman county, at total depth of 841 feet.

In Brown county the E. M. Howard (formerly Ehlinger and Guley) No. 1 Annette F. Armstrong, block 1, H&GNRR survey, was completed for five barrels of oil and 3,000 cubic feet of gas at 100 pounds pressure.

Another of the "grassroots" wells so prevalent in this part of Texas will be drilled to 400 feet by Grassroots Oil company et al as the No. 1 Mrs. Nannie Neeb, section 33, block 181, Comal county school land, six miles southwest of Cross Plains, Coleman county.

**Pluggings**

Pluggings this week—the majority depleted oil wells—were numerous. They were:

Grassroots Oil company No. 1 Mrs. Susan E. McDermott, section

182, A. Bates survey, Coleman county, 600 feet total depth.

Lone Star Gas company No. 1 F. D. Hogg, Seargent survey, Eastland county, 3,125 feet total depth.

Anderson-Drewery corporation No. 1 M. C. Leazar, Comanche county, 2,750 feet total depth.

Root-Rhodes et al No. 5 A. B. Testor, Smith survey, Brown county, 1,221 feet total depth.

Root-Rhodes et al No. 3 Testor, Smith survey, Brown county, 1,219 feet total depth.

Root-Rhodes et al No. 18 Testor, Smith survey, Brown county, 1,190 feet total depth.

Root-Rhodes et al No. 14 Testor, Smith survey, Brown county, 1,196 feet total depth.

Root-Rhodes et al No. 2 Testor, Smith survey, Brown county, 1,220 feet total depth.

Root-Rhodes et al No. 4 J. M. Moore, Smith survey, Brown county, 1,214 feet total depth.

Root-Rhodes et al No. 3 J. M. Moore, Smith survey, Brown county, 1,215 feet total depth.

Root-Rhodes et al No. 8 Moore, Smith survey, Brown county, 1,214 feet total depth.

Root-Rhodes et al No. 2 Moore, Smith survey, Brown county, 1,216 feet total depth.

Texas Pacific Coal and Oil company No. 1 Robinson "B," T&P RY survey, Palo Pinto county, 1,584 feet total depth.

Texas and Pacific Coal and Oil company No. 1 O. P. England, Mark Haley survey, Eastland county, 3,648 feet total depth.

Texas and Pacific Coal and Oil company No. 3 Robinson, T&P RY survey, Palo Pinto county, 1,562 feet total depth.

R. S. Luke No. 1 M. J. Lake Moreau Forrest survey, Palo Pinto county, 1,045 feet total depth.

R. M. Ragsdale No. 1 Mrs. A. Weaver, Farris survey, Coleman county, 1,450 feet total depth.

Mexico is the leading world producer of silver and in the last five centuries has yielded about five and a half billion ounces of silver, more than 33 per cent of world production during that period.

### H-SU to Observe Founders Day on Easter Sunday

ABILENE, April 2 (Spe.)—Hardin-Simmons university will observe its annual Founders day on Easter Sunday, April 17. Mrs. H. A. Pender, president of the H-SU Alumni association, announced today.

Dr. D. M. Wiggins, president of the School of Mines, at El Paso, will speak at the campus observance of the occasion on April 13, eve of the beginning of the annual Easter holiday.

On the anniversary Sunday, all

Baptist churches in Texas will be invited to give recognition to the Hardin-Simmons birthday. Mrs. Pender said.

Alumni associations at Wichita Falls, Lubbock, Dallas, Sweetwater, McCauley, and other cities have already made plans for local observances of the day at church services and meetings.

Hardin-Simmons university was founded in 1891, by the Baptist Sweetwater association, and is observing its 47th birthday.

Founders' day, as celebrated by H-SU tradition, is the birthday of Dr. James B. Simmons, of New York, late founder of the institution, for whom the school was named as the largest individual donor at the time of its establishment.

Simmons college became Sim-

mons university in 1925, and Hardin-Simmons university in 1932, when the name of John G. Hardin, late Burk Burnett, Tex., philanthropist, was joined with that of Dr. Simmons in its title.

Japanese are building a new celluloid factory in Tientsin, North China, which will use native Chinese cotton as raw material.

### zing' cans control

April 2 (AP)—conditioning, air "squeezing" inventor hesitates a patent, has made the compressed air is released into an expansion tank where it "unsqueezes" and drops water and other foreign particles. Pipes from the expansion tank go directly to the rooms to be conditioned.

The principal advantage of his system, Hickey says, is the complete control of humidity and tem-

perature. The humidity may be held to any point from zero to the dew point and the temperature anywhere between zero and 120 degrees.

Through conservation of compression heat, Hickey believes he will be able to air-condition modern buildings and homes on a year-around basis cooling them with sterile air in the summer and heating them by the same method in the winter.

He estimates a three-fourth horsepower motor would air-condition, cool and heat the average eight-room house.

New York's first elevated railway was opened in 1868.

peratures rise from 240 to 400 degrees when the air is compressed, killing the germs and performing the pasteurization.

The compressed air is released into an expansion tank where it "unsqueezes" and drops water and other foreign particles. Pipes from the expansion tank go directly to the rooms to be conditioned.

The principal advantage of his system, Hickey says, is the complete control of humidity and tem-

### OIL BRIEFS

#### SOUTHERN THROCKMORTON TEST

ALBANY, April 2 (Sp.)—Roy L. Crawford and Harvey W. Brown, of Fort Worth, announced here this week that they had closed contract with Ungren & Frazier, Abilene contractors and producers, for their No. 1 test on the J. A. Matthews "Lambhead" ranch, in southwestern Throckmorton county, on the regional trend northeast from Avoca in northeast Jones county.

Slated to test Palo Pinto lime at 3,400 feet, the new location is near the Clear Fork of the Brazos river, in westerly northwest side of the N. Thompson survey, abstract 255, near the mouth of Paint creek. The N. Thompson survey has the superior distinction of having 26 separate and distinct outside corners, and the Crawford & Brown block of 3,000 acres covers the north portion and adjoining surveys on the west.

Drilling on this new test is scheduled to start within ten days, weather permitting. This location is about 3 miles southwest of Jones and Stasney No. 1, C. T. Brockman deep test, which is drilling at 500 feet in Comanche Indian survey 95 in Throckmorton county, on a block of 4,000 acres leased by that firm of Albany geologists off the Brockman, John T.

Davis, M. B. Gentry heirs, H. C. Herron and J. A. Matthews ranches. This well is contracted to Groover & Rose of Albany, and in event it fails in the Palo Pinto lime horizon at possible 3200 feet, it will be carried to the Bond series.

Another active wildcat on the trend northeast into Throckmorton is Humble Oil & Refining Co. White & Duncan No. 1, Reynolds Cattle Co., in Comanche Indian survey 84 with Green & Owens contractors, drilling at 300 feet with big machine for a Palo Pinto test to 3200 feet.

Frank H. Pethybridge, of Albany, has leases on a 6,000 acre block on the R. P. Lee ranch, 6 miles southwest of Throckmorton. Continental Oil Co. has closed leases on a block of 5,000 acres south of the town of Throckmorton, and Humble Oil & Refining Co., has leased two blocks southeast and south of Throckmorton recently.

Moutray Oil Co. No. 1, H. C. Herron, has moved a spudder in for a 1,000 foot test through the shallow series sands, 750 feet from west and 1500 feet from south lines of TE&L survey 1607, about 8 miles south of Throckmorton.

The A. W. Walker 4,000 foot test, a mile south of Woodson on Dickie Bros. ranch, has been held up by title requirements, but will be started as soon as attorneys have perfected title flaws, and this will

### Andrews Well Drills In Big Lime

MORAN, April 2 (Sp.)—G. William Rich, No. 1. Andrews was reported drilling below 1,350 feet in the "Big Lime" thick hard formation found about 1,100 feet over this territory. The lime had begun to soften, and drillers expected to get through it in a few hours. Three towers the first of

the week were able to make only 27 feet in the hard lime. The Rich test located in section 39, block 7, TRPP survey, spudded in three weeks ago. The well, being drilled with a large spudder, is 6 miles due east of Moran.

Formations in the well are reported to be running around 40 feet high, indicating that production prospects are bright.

Jean Lafitte, the buccaneer who preyed on shipping in the Gulf of Mexico, commanded a detachment of his men at the Battle of New Orleans and was pardoned for his acts of piracy by President Madison.

The discovery of the arc lamp by Davy in 1800 marked the beginning of electric lighting.

### AUTOMOBILES

Represent a neat investment and are worthy of reasonable care. According to the great service they give and the pleasure you derive from them Lubrication is of vital importance, although some very essential parts only require attention about twice each year. Do you know just what they are? We Do.—Our Service the Best.

Is your car really giving you the best in performance? We doubt it . . . no car can after a season of hard winter driving! Bring yours in today and let us tune 'er up to please the ear of the most fastidious motorist!

### WILLARD BATTERY --- SALES and SERVICE

#### Safety First Service

SAFETY FIRST SERVICE SPECIAL. This work will be done by experts and we have the special tools and equipment to do the job right. Better drive in now for this service special or call us. We will be glad to call for and deliver your car.

LIGHTS AND ELECTRICAL SYSTEM—Don't drive with poor lights. We will tighten all electrical connections on your car. This is important! Then we will thoroughly test HEADLIGHT and TAIL LIGHT bulbs. Adjust the stop light switch. Focus headlights for city as well as highway driving. Check windshield wiper and blades. Check horn connection and brackets.

BRAKES—How are your brakes? Have you had them tested lately? Will they stop, when necessary. We will adjust and centralize Brake shoes and equalize your brakes for perfect adjustment.

STEERING GEAR — Another very important item for Safe and Careful Driving. We will adjust Steering Gear Assembly in your car and adjust Steering Rod Connections.

We Will Do All This \$3.19 Now For Only . . . . .

Tune-Up Service . . . . . \$2.19

How is your Motor? Has it lots of Pep—will it get up and go, with that Smooth, Easy Power? This job will put new life in your motor and save you money on your gasoline. Don't wait—drive in now!

This Special insures you the maximum amount of performance with

the greatest economy that was built into your Chevrolet engine.

COMPRESSION—We will check the compression in every cylinder to see if motor can be properly tuned. This is very important for power!

STARTERATOR—We will carefully adjust it so that your car will be easy to start.

SPARK PLUGS—Not only clean them, but reset the gaps for perfect firing.

DISTRIBUTOR—The very heart of your electrical system. Insures perfect timing. Dirty, uneven distributor points are the cause of worry and grief, loss of power and loss of money.

FUEL PUMP—We will remove the filter bowl—clean it and then tighten all fuel connections.

AIR CLEANER—Wash it thoroughly. CARBURETOR—We will completely check your carburetor, so that it will give you the greatest efficiency from your gasoline. Adjusting it perfectly for true economy.

IGNITION—Checking coil and condenser. Also setting Octane Selector for the grade of gasoline that you are using.

ADJUST VALVES—The right and proper valve clearance insures proper firing. Only an expert should do this work for you. We know how to adjust valves correctly, and this is included in this special price.

COOLING SYSTEM—Don't let your motor heat up on your trip. We will check over your radiator, tighten all hose connections and check fan belt for proper tension.

GENERATOR — Check and adjust generator output to see that you are getting the proper charging rate.

County League--

(CONTINUED FROM PAGE 1)

o'clock Saturday morning and was concluded at noon.

Coy Warren, Lobo junior event-or, placed second in both the 100-yard dash and the 50-yard dash. Warren took first honors in the broadjump. Marcel Harrison finished fourth in the senior 440-yard dash.

In the senior mile event Thurman Moseley finished second, after pushing the Carbon winner throughout the last 440 yards. Moseley held the lead in the race for a considerable distance, and at the finish was coming in strong. But Moseley's victory was an empty honor. Immediately after the race he was disqualified as the result of a protest that he had run in a qualifying heat of the 440-yard dash. Coach J. T. Petty eventually was informed that the county league committee had ruled against one man entering any two of the following events, 440-yard dash, 800-yard dash, and the mile run. It was the opinion of the club representatives that the league officials had been exceedingly negligent in failing to clarify such special rulings.

Tommy Lamore was another Lobo speedster who felt the brunt of

the officials' incompetency. After running a first class race in the 880-yard event, in which he had definitely cinched second place honors, he sprinted down the home stretch to the finish line. But the customary finish mark was sadly lacking, and in its usual place stood a cheering, milling group of spectators. Tommy ran over a broad white line and, thinking the race was finished, stopped. A man, who had been fully 15 yards behind, sped by, and then LaMore realized that he had halted a scant two yards too soon. Result: Tommy LaMore, third.

Joshua Hart Chosen As Patrol Rookie

Joshua B. Hart of Eastland was notified Friday that he had been selected as one of 90 rookies to report to Austin April 18 for six weeks training at the State Highway Patrol's training camp.

Mr. Hart will undergo intensive training during this period after which, if he passes the tests successfully, he will be assigned to the patrol.

Insurgents Take Gandesa in Drive to Sea

ZARAZOGA, April 2 (AP)—Insurgent forces under the direction of General Garcia Valino today occupied Gandesa, 21 miles from the Spanish government's eastern coast, last stronghold in Tarragona province barring the insurgents' march to the Mediterranean. Insurgents reported the capture of 2,000 prisoners. Gandesa is the apex of the triangle of which Tortosa and the city of Tarragona, both on the coast southwestward of Barcelona, form other points. A drive between the two coastal cities would dismember the government of Spain.

Phares Dropped as Chief of Patrol

AUSTIN, April 2, (AP)—Col. H. H. Carmichael, head of the safety department, announced today that L. G. Phares had been dropped as chief of the highway patrol. "Incompatibility and lack of co-operation with other units of the department," were the reasons given for the action taken by the public safety commission. Carmichael said Phares had not been discharged from the department. Captain Homer Garrison, assistant director of the department since its creation, succeeds Phares immediately.

Juarez Is in Turmoil as Mayor Killed by Bomb

JUAREZ, Mexico, April 2 (AP)—Juarez was in turmoil today after Mayor Jose Borunda was killed and Domingo Barraza, office employe, fatally wounded by a bomb mailed from Chihuahua City. The blast wrecked the mayor's office last night. Soldiers patrolled the building today, and thousands of residents lined the streets. Barraza, torn by fragments of the bomb, was unable to give details. Barraza, former congressman, has been involved in political feud between Governor Talamantes, of Chihuahua, and former Governor General Quevedo. Officials are trying to trace the sender of the bomb.

Hines' Hat Is "Loose on Head"

DALLAS, April 2 (AP)—Harry Hines, member of the highway commission, when questioned today as to whether he would enter the state gubernatorial race, admitted, "My hat is getting loose on my head." He said that he would probably make a definite statement in a few days. At Wichita Falls, Tom Hunter, mentioned as a possible candidate for the fourth time, said that he would issue a statement in a week or ten days.

Fire Destroys Hangar, 14 Planes

MIAMI, Florida, April 2 (AP)—A fire of undetermined origin today razed the number one hangar at the municipal airport, destroying 14 planes, including some of the nation's finest planes. Three persons suffered minor injuries. An insurance adjuster estimated the loss at \$700,000.

Processing Tax Movement Gains Senate Support

WASHINGTON, April 2 (AP)—A movement to write processing taxes into the tax revision bill gained new support in the senate today. Proponents, reporting additions to their ranks, said their position was strengthened by Secretary Wallace's unofficial statement that the tariff-equalizing taxes apparently offer the sole device for giving wheat and cotton farmers their "fair share" of the national income. Levies would be designed to add \$212,000,000 to the \$500,000,000 already provided for farm benefit payments.

Star-Isle Found By Harvard Men

CAMBRIDGE, Mass., April 2—A football-shaped "star island" has been discovered by Harvard astronomers.

Dr. Harlow Shapley, observatory director, reported the gigantic cluster of stars in the southern sky apparently belongs to no known class of cosmic systems, and may reveal existence of an entirely new group of star systems. The discovery is situated in the southern constellation, sculpator. Its light is so faint that individual star members can be detected only through powerful telescopes. Despite its vastness, the group—including thousands of stars and stretching out two degrees in the sky—never before has been seen by astronomers because of its faintness. Dr. Shapley said.

Texas Longhorns Win Over T.C.U. 13-5

AUSTIN, April 2 (AP)—Coach "Uncle Billy" Dish used everybody on the University of Texas baseball squad—19 men—while his Longhorns swamped Texas Christian university, 13 to 5, in the teams' second encounter here today. The Horner Frogs, who lost to the Steers by 21-2 yesterday, made their runs off four hits and showed little improvement over previous dismal form. David O'Brien, T. C. U.'s crack quarterback, erred five times at shortstop, handling but one chance successfully. At the plate he walked three times but got no hits.

FEW WHITE HERONS WASHINGTON, April 2 (AP)—Only 600 or so white herons are believed to be alive in the world, says Arno B. Cammerer, director of the National Park Service. Their habitat on this continent is in the Florida Everglades and on the Keys. The Everglades have been proposed as a national park to protect the heron and many other rare birds that live there.

Hamlin Golfer Clips Ground Squirrel POLICE FORT WORTH Patrolmen... HAMLIN, April 2—Two other good and reputable citizens testify it's no April Fool yarn! F. C. Feagan, H. W. Carter and O. G. Harvey of Hamlin were playing golf on the Lakeside course here yesterday. They were ready for their approach shots on the 500-yard No. 2 hole. Harvey fired away. His ball started dead to the pin. It hit the fairway just short of the green and bounced queerly directly to the right. When the threesome got to the place of the bounce there was a ground squirrel struck dead by a blow between the eyes.
