#### Your Army Makes a Capitol Appearance

The doughty doughboys, the "engineers with their hairy ears," and the caissons went rolling along past the capitol as the army paraded in a dual celebration of Army Day and the 21st anniversary of the entry of the United States into the World War. The troops pictured above are about to swing into Constitution Avenue to be reviewed by President Roosevelt.

#### Cisco Singles Star Advances at Breckenridge

Gordon Sherman, Cisco high singles star and the sole Cisco entrant in the tennis play at the district interscholastic league meet at Breckenridge, this afternoon had advanced in two preliminary matches to the semi-finals play against the Callahan county entrant from Clyde. The matches were to be played at 3 o'clock.

Winning this, Sherman would advance to the semi-finals against the survivor of the Palo Pinto-El Erath and the Shackelford-Throckmorton bracket.

Sherman defeated the Munday entrant in his first match, this morning after dropping the first game 6-4. He defeated his opponent 6-3 and 6-0 in subsequent games. The Sagerton entrant, representing Haskell county next fell to the slashing game of the Cisco star, 6-1 and 6-0.

Stephenville was favored to win the other bracket of the tournament and Sherman to come through on his own side and enter the finals.

#### Kleiner Stakes Jones Wildcat

Location was staked yesterday in the shimmering area of Jones county for a scheduled King sand wildcat test to be drilled by Charles J. Kleiner of Cisco and Brown Eagle Oil company of Abilene.

The wildcat will be the No. 1 Sullivan heirs, contracted by the S. B. Roberts company, and is slated for spudding before the first of next week.

Location, three miles east of Hawley and about two miles west of the Centerville pool, is 330 feet from the south and east lines of the Sullivan 200-acre farm in the Samuel Andrews survey No. 191. It is west of two previous tests drilled by Brown Eagle and Kleiner which had favorable showings in King and Hope horizons.

More than \$100,000,000 is expended for music tuition in the United States every year, the National Association of Musical Merchandise Manufacturers estimates.

#### First Methodists to Have Special Service

Thursday evening at 7:30, as a part of the special Easter services, will be held at the Methodist church a service centered around the communion. This is the occasion of the anniversary of the Lord's Supper. The program is planned to be of special value both to Christians and non-Christians and everyone will be welcome.

#### Whitney Begins Serving Term In Sing Sing

OSSISING, N. Y., April 13 (AP)—Richard Whitney, until lately a symbol of integrity and power in the world of finance, dropped his name Tuesday to become convict No. 94835 in Sing Sing prison.

In a few short hours, the former broker who served as president of the New York stock exchange for five terms had been rushed from the Toms prison in New York City, taken aboard a train for Ossining, thence to the big state prison, stripped, bathed, questioned and given a suit of gray shoddy.

By the time the sun was setting behind palisades across the broad Hudson, he had finished a Sing Sing dinner which included bologna and potato salad, tea and corn starch pudding, and was locked up in what Warden Lewis E. Lawes described as "the most abominable cell block in the world," a dreary gray building 113 years old.

Thus he began serving a 5-to-10 year sentence for grand larceny imposed upon him yesterday for having misused \$214,000 worth of securities entrusted to his care by the New York Yacht club and members of his family.

He took the whole thing with the same grim composure he has shown since March 8 when his firm crashed. Five prisoners accompanied him to Sing Sing, two of them handcuffed to him. Five thousand persons swarmed in and around Grand Central station but Whitney did not wince.

#### UNDERGOES OPERATION

Mrs. Cecil Huffman who underwent an operation Monday was reported to be rapidly improving.

#### Crowley Resigns to Enter Race for Governor

WASHINGTON, April 13 (AP)—Karl Crowley, Fort Worth, resigned today as solicitor for the post office department and received what some observers believed might be administration endorsement of his candidacy for governor of Texas.

The phrase that aroused speculation appeared in Postmaster General Farley's letter accepting the resignation, effective April 19. Farley, chairman of the democratic national committee said, "You have now and will always have my very best wishes for your continued good health and your future success." Farley is scheduled to be toastmaster at a testimonial dinner which will be given Crowley by his friends Thursday night.

#### Ex-County Sheriff Dies by Gun Wound

SANDERSON, April 13 (AP)—Lee A. Cook, 47, former Terrell county sheriff, was found dead in the courthouse today of a pistol wound in his head. A verdict of death from self-inflicted wound was returned by Justice of the Peace Yeates. Cook, who became sheriff in 1930, resigned recently to engage in contracting.

#### Cantata to Be Presented by Church Choir

An Easter cantata, "Victory Divine," by J. Christopher Marks, will be presented in commemoration of Good Friday by the choir of the First Presbyterian church at the church Friday evening at 7:30. Guest soloists from other churches will be Mrs. W. B. Statham, Hjalmar Bergh and M. F. Underwood. Soloists from the Presbyterian church are to be Mrs. A. E. Jamison, R. S. Cope and Rev. M. H. Applewhite. Mrs. S. E. Hittson is the organist.

The cantata will be beautiful from a musical standpoint and very valuable spiritually. The public is cordially invited to attend.

#### FROM MURDER PROBE LEADS INTO JUAREZ

Check Report Victims  
Met Two Men at  
Dinner

EL PASO, April 13 (AP)—Sheriff Chris Fox said today that he was investigating the report that Mrs. Weston Frome and her daughter, Nancy, may have met their slayers in a Juarez cabaret two nights before they left El Paso.

An employe of one of Juarez' largest night clubs told the sheriff that the Frome women became acquainted with two men while having dinner on the night of March 28.

The employe identified the two women from pictures.

#### Work Starts on Two Oplin Tests

ABILENE, April 13 (Sp)—Work has been started again on two tests slated for the Ordovician in southwestern Callahan county's Oplin field area.

Southeast of the discovery producer, almost due east of Oplin, the Hughes Petroleum company No. 1 Andrews Johnson had started tours yesterday after drilling through cement and 29 feet past shoe of the casing which had been set to 3,903 feet.

The semi-wildcat, north of the old Empire gusher, is expected to reach the Ellenburger lime within ten days to two weeks. It is being deepened to test the pay horizon with cable tools after drilling to the present depth with rotary.

Location of the No. 1 Andrew Johnson is 1,330 feet from the south and 660 feet from the east lines of section 152-GH&H survey.

Diagonal southeast offset to the pool owner, No. 1 Poindexter, surface casing was set the first of this week on the Oscar Cooper, Harold Weeks, Hughes et al No. 1 C. D. Starley, and rotary drilling was started yesterday. Location is in the center of the southwest quarter of the northwest quarter of section 370 George Hancock survey.

Ed McAdams, Los Angeles, Calif., contractor is shipping a rotary machine from Corpus Christi with which he is slated to begin a southwest outpost to the pool within two weeks. The test will be the No. 1 Williams, diagonally across the section from the No. 1 Poindexter.

#### Death Verdict for Morgan Is Sustained

AUSTIN, April 13 (AP)—The court of criminal appeals today agreed with the El Paso district court jury that Collan H. Morgan must die in the electric chair for fatally choking and beating his pretty wife, Eleanor Morgan, during a main issue in Morgan's effort to get the conviction verdict reversed.

Mr. and Mrs. J. B. Fielder of Comanche visited Mr. Fielder's sister, Mrs. W. H. LaRoque at the Graham Sanitarium today.

#### Good Shallow Pay Is Found in Larkin Test

Prospects for Prolific Pool South of Cisco Are  
Brightened by Showings in Rotary Well  
Drilling Near Rising Star

Cisco were seen today as the Hayner, et al, P. C. Larkin, drilling with rotary four miles northeast of Rising Star found oil estimated at 25 to 30 barrels daily at 1,632 feet in what was tentatively identified as the Fry sand of the Strawn series. The showing registered against a back-pressure of 1,000 pounds from a horizon where bottom hole pressure is normally 350 pounds. It was particularly encouraging to operators for this reason and also for the fact that sub-surface geology on which location of the well was based located it on the fringe of the expected shallow structure. Considerable gas was found.

This show is the second of consequence to be penetrated by the Larkin. The first was picked up at 1,237 feet, and operators rated this as a likely gas horizon.

No drill stem test was run on the 1,632-foot show. Instead it is planned to run a Halliburton formation test when the Ranger is reached. The Halliburton instrument is similar to the Schlumberger.

Operators were considerably encouraged by the indications so far, pointing out that they exceeded their expectations. Confidence in the opening of a prolific shallow field in the section was expressed.

The well was drilled from surface with rotary, the original plan to spud with standard tools having been abandoned. Shortage of water has delayed operations somewhat, but this was believed overcome.

#### Condition of Mrs. Hubbard Is Serious

The condition of Mrs. A. B. Hubbard, formerly of Cisco and now of Colorado where Mr. Hubbard is employed by the Texas and Pacific railroad, was reported serious at Abilene today where she is in a hospital. Several Cisco people went to Abilene last night.

Blood transfusions have been resorted to in an effort to improve her condition.

#### TSCW Professor To Be Guest Speaker

Miss Agnes Tramel, assistant professor in the department of English at Texas State college for Women at Denton, will be guest speaker at the Texas Day and Fine Arts program presented by the Twentieth Century club Friday afternoon at 1:30. Miss Tramel, who has a B. A. degree from Southern Methodist university and an M. A. degree from Radcliffe college, has chosen as her subject, "Millionaire Mud," showing the contribution oil has made to Southern literature.

#### County League Meet Goes to Ranger

Ranger was declared the winner of the Eastland county Interscholastic meet Tuesday. The decision as to the winner was delayed considerably because of the close race between Eastland and Ranger.

Ranger scored a total of 126½ points to win, while Eastland scored 119½, according to W. T. Walton, superintendent of Ranger public schools.

Mr. and Mrs. Thurman Cole spent Tuesday evening in Brownwood.

#### BILLION AND HALF FUND TO BE KEYSTONE

Proposals to Be Cover-  
in Message Tomorrow  
to Congress

WASHINGTON, April 13 (AP)—President Roosevelt and his economic advisers worked today to complete the recovery program, apparently agreed upon at night in a white house conference.

While conferees did not disclose details, it was indicated that the keystone would be a proposal to spend \$1,500,000,000 on public works of reviving business.

The proposals are expected to be covered in the presidential message to congress tomorrow.

Roosevelt last night summoned five cabinet members and the chiefs of his major spending agencies to a conference on the special message and a radio address. The radio talk was scheduled tentatively for Thursday night.

From a high administration official came word the president would discuss a wide range of subjects.

There was some speculation that the chief executive might reply to critics who have urged him to reassess business by announcing a moratorium on "reform" legisla-

#### FD INSISTS ON PROFITS TAX

WASHINGTON, April 13 (AP)—President Roosevelt repeated today the administration's insistence on the retention principle of the undistributed profits tax.

The president wrote the chairman of the senate finance committee and the house ways and means committee. The letter was delivered at the capitol while the senate and house conferees were meeting for the first time to work out compromise on the tax revision bill.

The possibility that he might discuss the sidetracked wage-hour and government reorganization bills also was discussed by newsmen.

Those called to the conference included:

Secretary of State Hull, Secretary of the Interior Ickes, Secretary of Agriculture Wallace, Postmaster General Farley, Secretary of the Treasury Morgenthau, Harry Hopkins, the work relief administrator, Jesse Jones, chairman of the Reconstruction Finance corporation, James Roosevelt, the president's son and secretary, and Stephen Early, his press secretary.

President Roosevelt interrupted his work on new relief spending recommendations to deny that he and Vice-President Garner had engaged in a "tiff" about "pump-priming" expenditures or anything else.

In answer to the questions of newspapermen, he said he had called Garner's attention to a published article saying the vice-president thought the administration should let business alone. Garner denied having given such an interview, the president added, and that was all there was to it.

Snow White's  
'Phoney' Voice

Three years ago when Adriana Caselotti, above, was 18, she was a naughty little girl who listened in on the phone calls of her father, Guido Caselotti, Hollywood voice teacher. When the Walt Disney studio called one day asking him to find the right voice for Snow White, she piped "Me, me, me, how about me?" into the extension on which she had been eavesdropping. The studio liked her cheerful chirping, and she became the "voice" of the fairy story heroine. Now she hopes to become a movie actress.

#### Lobos to Give Grid Review This Afternoon

Thunder clouds will gather over Chesley park this afternoon at 4 o'clock as the Big Dam Cisco Lobos take the field in their initial appearance of 1938.

The intra-squad game, Baylor vs. Hardin-Simmons, will be an eye-for-an-eye affair, and the local sportsers will be given a preview of Cisco's chances in the fall Oil Belt grid wars. The battle today is the culmination of a short training period, but one which has been filled with hard work and a great show of squad spirit. Coaches J. T. Petty and "Pop" Garrett and the boys have utilized every opportunity in the afternoon workouts that the Lobo boosters might have a 60-minute review of what's-to-be in the fall campaigns.

Coach Petty said that the boys were not in top form, but that this afternoon they would give a respectable demonstration of their possibilities.

#### Wheat Allotments Announced for 1938

WASHINGTON, April 13 (AP)—The agricultural administration announced the state wheat acreage allotments today under the 1938 farm program.

The national allotment is 62,500,000 acres. The allotment for Texas is 4,146,240 acres.

Mrs. T. E. House has returned from a two-week's stay in Terrell.

### BIBLE THOUGHT FOR TODAY

Therefore thus saith the Lord God, behold my servant shall rejoice.—Isa. lxx, 13.

Hope afresh, for hope shall not be vain.  
Start afresh along the exceedingly steep  
Road to glory, long and rough and plain.

Sow and reap, for while the moments creep,  
Time and earth and life are on the wane;  
Now in tears, to-morrow laugh and reap  
Over again. C.G. ROSETTI.

Living from day to day beneath His eye, and where all things are ordered by a Divine Providence, with what peace, what joy our work may be begun, continued, interrupted, and resumed.

### Human and Other Nature

By W. F. BRUCE

Not long ago I gave a lift to a couple of lads coming into Cisco. They inquired whether I had an office down town, evidently supposing me to be in some profession. They were imagining adventures in boyish fashion and among others the possible or probable results of falling from the car in motion. "Watch that door," said one to the other, "or you may get scattered along the highway." "Yes," his companion replied, "I

might need a doctor." "We have a doctor right here," said the first lad, and then turning to me he asked, "Aren't you a doctor?" I shook my head puzzled though not offended at being placed in that profession. "Well, they told us we could get a ride with Dr. Bruce," they explained. Then I saw how an intended complimentary title might betray me into inconvenient situations. Imagine someone coming to me and pouring out his complaint about a disordered digestion, or a shortness of breath, or a painful toe, or an itching skin, or a stiff joint, or an aching eyebrow; or asking my advice as to how to get out of some other inconvenient or unendurable

### What's In a Platform?

WHAT'S in a platform? Read that of any political candidate, particularly those for governor, and it is apparent that it is based on the strategy of getting the most for the least. The candidate is chary of putting himself on record. For the most part his platform is larded with promises that appeal. They are generic rather than specific, definite as to the benefits the citizen may receive, indefinite as to the method of accomplishing them. The candidate who "favors" pensions for everybody neglects to state how these are to be paid. The candidate who would reduce the expenses of operating the government refrains from any discussion of who and what he would cut off the payrolls and the subsidy list. From the political standpoint such a discussion would be unwise. It might gain support in one quarter but consider the heads it would thwack! What an unadulterated lot of courage it would take in this day of growing dependence upon government largess and political employment!

SO the platforms of the gubernatorial candidates may be read with an eye to the genius of their authors in circumlocution and evasion. One may interpret therein whatever one wishes and, indeed, that is the purpose of the whole business. But if reading any such the voter will stop kidding himself, stop placing dependence upon the promises of one individual who can do the less in effecting good government and devote his earnest attention to the selection of that agency which can do the more—the legislature—the state will be much better off. Sound advice it is to the voter to give less attention to who is governor and more to who represents his district in the legislature. The history of government in Texas indubitably points to the lack of this in the voter concept of his responsibility. Give us a wise and able legislature and we may safely care less who is governor.

# Easter Cruise

**CAST OF CHARACTERS**  
JOYCE MILNER, heroine; she took an Easter Cruise;  
DICK HAMILTON, hero; he jumped into the heroine;  
ISOBEL PORTER, traveler; she sought a mate.

Yesterday, Dick goes ashore at Hamilton on some special mission and Mr. Gregory asks Joyce to go with him. She declines, hoping Dick will call her instead.

### CHAPTER VII

DICK was waiting at the ship's rail when Joyce came aboard. "I tried to see you this morning," he said, "but Dr. Gray chased me off. Joyce, are you all right?"

"Of course I am, Dick."

"You might have caught pneumonia."

"Nonsense. The whole thing seems nothing at all in daylight."

"Here, let's sit down a moment." He led her over to his deck chair. The whole row of chairs was deserted now, with most of the passengers just returned from shore or watching for late arrivals.

"Believe me, we won't try any more tricks like that. I was all set to suggest another happy two-some in Havana Friday night, but I don't dare. We'll tag along with the sheep. You'll come with me, Joyce?"

Her eyes twinkled. "I even dared to hope you'd ask me."

For a moment he regarded her speculatively. "I still can't be sure of you. First I thought it was perversity that wouldn't let us get together—your perversity, if you remember yesterday morning. But after last night, I'm willing to believe that it must be destiny . . ."

"Don't talk like that! I'll expect an earthquake in Havana—or at least another revolution."

He laughed. "Then we'd better stick close to Mrs. Porter. I do believe she could manage a revolution."

"Undoubtedly. You saw what happened last night to the first two rebels."

He took out a cigaret, lit it slowly and leaned back in his chair, watching a group of small fishing boats off shore. In about five minutes the Empress would be leaving Bermuda for their next port of call, Nassau in the Bahamas. Already the sailors were preparing for departure, though the companionship had not been raised.

SUDDENLY Joyce straightened in her chair. "I wonder what's going on," she said, looking astern.

John H. Cowles, T. A. Downing, Caddo; "To the Sovereign Grand Inspector General in Texas, Walter C. Temple, Dr. A. K. Wier, Ranger; "To the Most Worshipful Grand Lodge of Texas," C. E. May, Ranger; "To All Masons and Masonic Bodies of all Rites and Degrees Over the surface of the Earth," Dr. J. H. Caton, Eastland; "To the Memory of Those Brethren Whose Labors Have Ceased," Campbell.

A. L. Agate of Eastland is secretary-treasurer of the organization. Vice presidents are A. L. Elliott of Albany, L. W. Jester of Baird, W. C. Veale of Breckenridge, Downing, Tom Bryant of Cross Plains and May.

**LEVINE BOY BELIEVED SEEN**  
PALESTINE, Texas, April 13 (AP)—Mrs. M. P. Morton told officers here she saw a boy Tuesday who resembled a newspaper photograph of Peter Levine, missing for several months from his New Rochelle, N. Y., home. She described the transient as having an eastern accent. He was traveling with two other boys.

The passengers were grouped at the rail now, staring intently down at the water, and there was a great shouting and commotion. "Let's see!" Dick jumped to his feet and pulled her out of the chair.

Standing at the rail, they saw two small launches drawing up to the unsteady floating platform of the companionway. The first was bringing back a happy but unsteady Mr. O'Hara, and watching him, one wondered how he would ever be able to accomplish the rickety steps under his own power. They were narrow steps, with only a flimsy hand-rail for a steady arm to grasp. In the second launch, Mrs. O'Hara sat in grim and arrogant determination, oblivious to the comments and the commotion.

"That's my bridge partner," Joyce pointed out.

Dick laughed. "The old man certainly wanted to finish his last rubber."

As the first launch drew up to the platform, Mr. O'Hara stood up confidently and managed to lift an uncertain leg. The fact that it lifted over the launch and landed securely on the platform was nothing short of a miracle. Now a seaman steadied him and started him on his way up the steps, where another member of the crew came forward to meet him.

The first launch backed off, making way for the second. Mrs. O'Hara, still imperiously attracted, stepped over and started up. Her husband was rearing the top.

But the effort proved too much. The energy required to climb had borrowed too much power from his legs and his foot slipped. True, a seaman was in front to catch a hold, but Mr. O'Hara was a heavy man. Back he went, down the stairway, and the dead weight of his body struck his wife with sudden force.

On deck passengers gasped as they heard a splash. They held their breath in a long moment of suspense. A few minutes later a thoroughly soaked Mrs. O'Hara was escorted to her stateroom.

Dick shook his head, chuckling. "Let me give you one bit of advice," he offered. "Don't play bridge with her tonight! Then he went on:

"I saw Obadiah this morning." Joyce brightened. "I'm so glad you did, Dick!" she said heartily. "I was just thinking of him. It took him seven years to buy the boat."

He nodded, thoughtfully. "And seven seconds to rip the bottom

out of it, because I was in a hurry to get to a dance."

"How did you find him?"

"I asked for him on the wharf. One of his friends told me where he lived. Boy, I felt like a heel when I went in the door! You'd think the boat was part of the family; even the tiniest pickaninny was crying about it."

"What will they do now?"

Slowly, a little sheepishly, he reached into his pocket and brought forth a note, handing it over for Joyce to read.

"Dere Lady . . . we thank you for the new boat and god bless you . . ."

She looked up in quick astonishment. "I don't understand, Dick—"

"I gave Obadiah that hundred-dollar-bill you wouldn't take . . ."

"Oh, Dick!" There was a sudden catch in her voice. So this was his secret mission! Then, to hide her emotion, she added, crisply: "You probably paid a great deal more than that."

He shook his head. "Very little. Obadiah knew a splendid bargain in a second-hand boat, with more speed, so he said, than the old one . . ."

Joyce looked at him steadily. "Dick Hamilton," she said sincerely, "I think you're one of the most thoughtful persons I've ever known."

"Nuts!" he said, and his face reddened. He reached across the chair and took her hand. "Joyce—" His voice was strangely vibrant, and something in the blue depths of his eyes sent her blood coursing. "Do you—"

But he did not finish. Someone was standing before them. They started guiltily.

Mrs. Porter regarded them tolerantly, her eyes bright with understanding, a faint curl to her lips.

Dick jumped quickly to his feet. "I've looked all over for you, Richard," she chided. "We're ready to start the swimming events for the children, and you're one of the judges, you know."

He hedged. "Let me out of it, Mrs. Porter," he pleaded. "I'm no judge—"

She pretended a shocked bewilderment. "But you promised me. I can't get another judge at this last minute."

He sighed, resignedly, too well-mannered to refuse further. "Come along, Joyce."

"No, I don't think so, Dick. There was a look in Mrs. Porter's eye which almost said, 'I love you to . . .'"

### Doctors Tell Stork to Bring Check Book

ROYSE CITY, Tex., April 13 (AP)—Two Royse City physicians believe in giving the stork a fair warning. "If you are expecting the stork to visit your home this year, and he has to come by the way of Royse City, he will have to bring his check book to pay his bill before delivery, as the undersigned doctors delivered many babies have not been paid for," said the doctors during 1937 and over half of them

mate business, small and large, to  
 the end that Texas may prosper  
 and go forward . . . It is time in  
 Texas that the thinking people as-  
 sure our citizens and the citizens  
 of America that business and in-  
 dustry in Texas are not going to  
 be harassed and hampered by  
 foolish laws, rules and regulations  
 and unholy taxes."  
 Thompson reiterated his belief  
 that no new taxes are necessary  
 at the present time, and stressed  
 that this would be an incentive for  
 new industries to come to Texas.  
 "I know that Texas is an attrac-  
 tive field for industrial expan-  
 sion," he said emphatically. "We  
 have cheap gas, we have the trans-  
 portation, we have the transporta-  
 tion. We have some of the best  
 that our state should adopt a defi-  
 nite program calculated to invite  
 the establishment of new indus-  
 tries in this state."  
 Thompson said he was highly in  
 favor of the establishment of a  
 cotton laboratory in Texas for  
 the purpose of discovering new uses  
 for cotton.

Natural Resources  
 He proposed to make Texas' nat-  
 ural resources secure for this and  
 future generations by intelligent  
 conservation activities, and to fur-  
 ther encourage new industries, as  
 well as protect the interests and

pocket-books of private consum-  
 ers by bringing all utilities under  
 state control and slashing rates  
 to fair levels.  
 That utilities regulation and  
 rate reduction will be an impor-  
 tant item in Thompson's platform  
 was made plain. He devoted more  
 time to this question than to any  
 other, beginning with a summary  
 of his utilities fight while mayor  
 of Amarillo during which he  
 brought down gas, water, light  
 and telephone rates along with  
 taxes to effect an annual saving  
 for the citizens of nearly one mil-  
 lion dollars.  
 Thompson emphasized his belief  
 in states' rights throughout his  
 address. "All my official life,  
 since I came on the railroad com-  
 mission, I have fought for the  
 right of Texas to regulate her own  
 internal affairs." He mentioned  
 the bitter but finally successful  
 battle he waged against the Disney

bill, which would have made for  
 federal control of Texas oil.  
 In connection with oil regula-  
 tion Thompson stressed his belief  
 that government should be decen-  
 tralized and localized as much as  
 possible.  
 Touching other points in his  
 platform, Thompson recognized  
 the necessity of paying old age  
 and other pensions and caring for  
 the state's share of the Teachers  
 Retirement fund. He reiterated  
 his opposition to the open saloon,  
 to sale by the drink and to gam-  
 bling in all forms. He advocated  
 forming a three-member land  
 board to make sales and leases of  
 public school lands; getting the  
 insane out of jails and into hos-  
 pitals; continuing the Robertson  
 Insurance law. He stated he was  
 opposed to socialized medicine and  
 favored state, rather than federal,  
 regulation of child labor.

 Woolley, who started work at the  
 age of 15, was under-gardener at  
 Gads Hill Place for several years.  
 "There never was a better mas-  
 ter," he declares. "He always was  
 kind and generous and all the ser-  
 vants loved him."  
 "He took Christmas as seriously  
 in his own home as he did in his

novels. He would have a special

**DON'T BLAME Your RECIPE**

It is not fair to hold recipes responsible for those roasts with a flat "steamed" flavor and vegetables without taste or color you have been serving your family. That worn-out range you are using probably is the cause.

Proper roasting requires an oven in which excess moisture is allowed to escape if meats are to be juicy and crisp. The new 1936 gas range has an insulated oven with improved ventilation that assures perfect distribution of heat and a circulation of fresh air at all times. Its temperature is automatically controlled.

Boiling vegetables with little or no water preserves their color and vitamin and mineral content. Needed is a highly flexible heat. The improved simmer burners

on the 1936 gas range give the exact shade of low heat required for this more healthful cooking. Because of this no special utensils are needed.

See these improved 1936 gas ranges for better, easier more economical cooking.
