SCORE HURT IN 2 COMMUNITIES LATE TUESDAY

Two Die When Storm Bowls Over Car at Draw

TAHOKA, April 27 (AP)—Lynn county today surveyed the damage caused by a twister striking two of its communities. Three persons were killed, a score were injured. George Walters, 40, Austin, visiting in the Draw community, and his cousin, John Walters, 15, were killed when the storm bowled over their automobile. Mrs. V. C. Caswell, 25, was killed when her residence was demolished. Fourteen were injured when the twister dipped into the O. K. com-

.55 INCH HERE
Rain which fell here last night during a series of thunder storms totalled .55-100ths of an inch, according to the gauge at the city hall.

munity, 14 miles north of Lamesa. The storm struck late yesterday. A. R. Hensley said the storm first struck southwest of O'Donnell, but missed that community, and then wrought havoc in widely separated farms around this village of about 40 persons. At least one farm woman in the community was seriously injured.

Some rain and a little hail accompanied the disturbance. Five persons were taken to Lubbock hospitals and nurses, doctors and ambulances went to the scene. The body of Mrs. Caswell, whose home was blown away, was reported found 100 yards from the residence site.

Bob Alexander told a graphic story of having been caught by powerful winds a mile east of the Caswell home. His automobile was catapulted over and over and wrecked, parts being found 250 yards from the road. Alexander, severely bruised and shocked, could not be reached for a more detailed story, because of necessity for treatment.

All doctors of Tahoka had gone to the Draw community, and those of other towns had been reported summoned. Roy D. Smith's home at O'Donnell was demolished. Mrs. Smith was taken to a Lamesa hospital for treatment of injuries not considered dangerous. Roy, Jr., their son, about 12, was knocked unconscious, but was recovering.

Irene and Maurine McKay, daughters of Mr. and Mrs. Louis McKay of Draw were torn from their mother's arms. Irene was not expected to recover. The residence of R. H. Gary, Jr. (CONTINUED ON PAGE FOUR)

Three Miners Die in Explosion, Fire

POTTSVILLE, Pa., April 27 (AP)—Explosion and fire killed at least three coal miners today in the Saint Clair mine near here. It was feared that others were trapped. Twenty-eight were carried to hospitals.

Henry Ford Lunches With President Today

WASHINGTON, April 27 (AP)—Henry Ford sat down at luncheon with President Roosevelt today to talk about business. The manufacturer, who often differed with the administration's policies, was cheered by several hundred persons as he entered the White House. After the arrival of the Ford party, Chairman Marriner Eccles, of the federal reserve board, entered to join the group.

Carnegie Nephew Vanishes in Air

Official and private planes criss-cross Long Island and Connecticut, while the U. S. coast guard patrolled adjacent waters in an unprecedented search for Andrew Carnegie Whitfield, missing in his private plane since April 15. The amateur flyer, pictured above with the former Elizabeth Halsey at their marriage last June,

Man Held at Breck Is Suspect Here

The Press was in error yesterday in the statement that Bill Roberts, held at Breckenridge on charges of robbery with firearms in connection with service station hold-ups at Breckenridge and Eastland, was identified as the man who attempted to steal cash from the Humble service station here, Chief of Police Perdue said today.

Mrs. Richardson, 78, Buried Here This Afternoon

Mrs. M. E. Richardson, 1510 East 16th street, died Tuesday night at 10 o'clock. She was 78 years old. The body lay in state at the Green Funeral home until 2:30. Funeral services were held at the family residence. Rev. Judson Prince, assisted by Rev. H. D. Blair, officiated. Interment took place in Oakwood cemetery, Cisco.

Father of Alf Landon Dies Today

KANSAS CITY, April 27 (AP)—John Landon, 81, father of Alf M. Landon, 1936 presidential nominee, died here today of heart disease.

Mexican Tariffs Will Be Reduced

WASHINGTON, April 27 (AP)—Sumner Welles, under-secretary of state, said today that the Mexican ambassador assured him that Mexican tariffs would be materially reduced probably by May 1.

Father of Alvin Owsley Succumbs

DENTON, April 27 (AP)—Alvin C. Owsley, 83, attorney and father of Alvin M. Owsley, minister to Denmark, died here today. He suffered a fractured hip recently when he fell.

ELECTION IS DECLARED BY CITY COMMISSION

Body Puts Closed Season on New Species of Bass

The city commission, meeting in regular session last night, canvassed results of the recent municipal election and declared results as: Out of a total of 200 votes, S. A. Huestis, with 199, J. T. Burnett with 197, and H. C. Henderson with 199, were re-elected members of the city commission for terms of two years. At the request of D. C. Harper, state fish hatchery superintendent, the commission declared a closed season on white, or striped, bass in Lake Cisco. Harper recently moved 135 of this species of bass from Lake Dallas to Lake Cisco. The closed season is for the purpose of allowing this species to multiply.

Wrecked Plane and 4 Dead Bodies Found

VISALIS, Calif., April 27 (AP)—Joseph Elliot, superintendent of the Sequoia national forest, said today that the ground crew reached the wreckage of the airplane which vanished Monday, and that the four passengers, residents of Visalis were dead. Those aboard were: Dr. and Mrs. O. N. Lambert, Mrs. Frank Blain, and Miss Dorothy Davis. Dr. Lambert piloted the plane.

President Approves Record Naval Sum

WASHINGTON, April 27 (AP)—President Roosevelt approved the record peace time appropriation, \$546,866,494 today to finance the navy for the next fiscal year.

Texaco Stockholders Vote Ad Campaign

NEW YORK, April 27 (AP)—Stockholders of the Texas corporation, at their annual meeting Tuesday, unanimously passed a resolution authorizing officers of the company to embark upon a newspaper advertising campaign "to tell the facts" about business problems in relation to taxation. The motion was made by J. Newcomb Blackman, who described himself as a substantial stockholder. Previously he recommended that the Texas corporation and other large companies take full page ads in newspapers throughout the country so that "big business can tell its story."

British Propose Mexico Oil Boycott

LONDON, April 27 (AP)—The British government today advocated what would be, in effect, a British boycott of oil taken from wells expropriated by Mexico from British companies until the question concerning those properties is settled. The motion was made by J. Newcomb Blackman, who described himself as a substantial stockholder. Previously he recommended that the Texas corporation and other large companies take full page ads in newspapers throughout the country so that "big business can tell its story."

Fellowship Banquet

The Scranton W. M. S. of the Methodist church will sponsor a Fellowship banquet at the church tonight at 8 o'clock. A charge of twenty-five cents per plate will be asked. The public is cordially invited.

New Navy Blimp Rarin' to Go

Pointing her nose skyward, the new U. S. navy blimp L-1 is pictured above taking off on her maiden test at Akron, O. Powered by two 145-horsepower motors and with a helium capacity of 123,000 cubic feet, the ship, one of the two largest American dirigibles, will be launched as a training unit at Lakehurst, N. J., this fall. Commander W. T. Zimmerman, technical adviser, is conducting the tests.

Strong Navy Peace Move -- Connally

WICHITA FALLS, April 27 (Sp.)—"In the true interest of peace," the United States must "have a naval force capable of destroying an enemy before he lands on our soil," United States Senator Tom Connally, junior senator of Texas, told the West Texas chamber of commerce annual convention, in addressing the final assembly of its twentieth anniversary convention. "The building by the United States of an adequate navy involves no threat of aggression. It implies no desire for war. It signifies no ambitions of conquest." Senator Connally, who had come here from Washington's legislative halls to appear before the WTCC audience, asserted, "President Roosevelt and Secretary of State Hull have clearly proclaimed to the world America's desire for peace and are conducting our foreign relations toward peaceful objectives," he declared. An adequate navy, the senator said, will serve as a warning to "arrogant, swash-buckling, defiant dictators and international outlaws, that in America we purpose to live our own lives under the sanction of our own institutions and constitutional guarantees. That we are prepared to defend those rights and our material resources, and our resources of citizenship, and democratic institutions against aggressors from wherever they may come."

Carnival Rides Are in Place at Lake Cisco

The Lake Cisco Amusement company stood ready today to entertain throngs of amusement seekers as the date for formal opening of the big resort neared. Six or seven rides, varying from the big Ferris wheel to kiddie auto rides and a miniature steam train, have been installed on the midway, together with a variety of other concessions to entertain the public. Manager P. G. Berry has fixed Sunday, May 1, as the date for the formal opening. The amusement facilities, however, are now open to the public and Cisco people were invited to visit the grounds this evening.

Cisco Part-Time FFA Boys to Dublin

Members of the Cisco part-time chapter of the FFA, accompanied by Instructor T. G. Caudle, yesterday visited the soil conservation project being conducted by the federal government at Dublin. Boys going on the trip were A. P. Wende, Ben Wieser, Ben Wende, Fred Wende, Carl Stroebel, Clarence Stroebel, Avery Holt, Alton Clark, Alvin Schoor and Orval Davis.

Electric Power Consumption Gains

AUSTIN, April 27 (Sp.)—Electric power consumption in Texas during March maintained a substantial margin of gain over the like month last year, but the increase over February was less than the normal seasonal gain, it was stated by the University of Texas bureau of business research. Reports to the bureau from seventy-seven representative power companies show total consumption of 192,000,000 kilowatt hours, an increase of 8.9 per cent over March last year and 2.6 per cent over February. For the entire first quarter of 1938 the gain was 10 per cent over the corresponding period last year.

Record Spoiled

UVALDE, April 27 (AP)—In an automobile accident causing the first traffic fatality here in almost five years, Manuel Fernandez, 37, was instantly killed Tuesday. The driver was jailed pending an investigation.

Mrs. C. B. Snyder of Moran visited here Tuesday.

ABILENE WILL BE 1939 HOST TO CONVENTION

Connally and LaGuardia Speeches Highlight Sessions

WICHITA FALLS, April 27 (AP)—H. S. Hilburn, Plainview newspaper publisher, was today elected president of the West Texas chamber of commerce. During the last year Hilburn had been first vice-president and chairman of an important committee which outlines the work program of the organization. Mr. Hilburn succeeds Milburn McCarty, Eastland attorney. E. K. Fawcett, Del Rio, advanced from second vice-president to first vice-president, J. S. Bridwell, Wichita Falls, was elected second vice-president. Malcolm Meek, Abilene, was elected treasurer. D. A. Barden, Abilene, was re-elected secretary-treasurer. The directors of the regional body yesterday chose Abilene as the site of the next annual convention of the body as Big Spring and Sweetwater withdrew their bids. The address of Mayor F. H. LaGuardia of New York was one of the highlights of the Tuesday convention session. LaGuardia pled for a "respite" from politics and an understanding between labor and industry, describing the economic condition of the United States as serious. This morning the convention heard Senator Tom Connally, who discussed the peace policy of the United States, stressing particularly the need for a strong navy involving no threat of aggression. Connally paid tribute to the Roosevelt administration and asserted that America "is going forward." He described democracy as standing between "detestable extremes" of "autocracy and imperialistic conquest" on the one hand and communism and fascism on the other. "I am going to tell you the truth," LaGuardia said. "Conditions are not good in this country. They can not be, when 11,000,000 people are jobless. Talk about agricultural sections industrializing. If your section turns industrial who would you sell to? Have you ever thought of that? What we need is wholesome exchange between sections, or this country is going. My purpose is to make an appeal for a better understanding of the economic problems of this country. You cannot continue here if the rest of the country is on the rocks. I am interested in the agricultural problem, because I am interested in my town. If agriculture is not prosperous then neither are we (CONTINUED ON PAGE FOUR)

Albania Gets Queen in Ceremony Today

TIRANA, Albania, April 27 (AP)—In a ceremony marked with mountaineer simplicity, Countess Geraldine Apponyi, whose mother was American, became the first queen of Albania today when she was accepted in marriage by King Ahmed Zog. The ceremony was held in atmosphere half oriental and half occidental. The bride's mother is Mrs. Gladys Stewart Gerault, formerly of New York.

Attend Special Services

An evangelistic group of the Pentecostal church will go to Harpersville to attend services which will be held at the tabernacle Thursday night at 8 o'clock. The service will be conducted by Andrew Tipton. The public is cordially invited to attend.

Weather
WEST TEXAS—Partly cloudy with showers. Cooler in the west. Central portions tonight Thursday partly cloudy, with showers in the east, and cooler in the west sector.
WEST TEXAS—Fair. Slightly cooler in the panhandle tonight. Fair.

BIBLE THOUGHT FOR TODAY

I rejoice at thy word. . . Thy law do I love. . . Seven times a day do I praise Thee.—Ps. cxix. 162, 163, 164.

Remember: All ambitions upward tending. Like plants in mines, which never saw the sun, But dream of him, and guess where he may be, They do their best to climb and get to him. —ROBERT BROWNING

The perfection of God are to His people what the wings of the parent bird are to the young, at once their protection and their comfort and joy.—James Smith.

The Newspaper Is For the Thinking Person

WHENEVER people get to the point that they can neither read nor think, but must absorb their information and develop their opinions through their auditory sense alone, then newspapers will cease to fill an important function in this country. The radio and the public address fill important places in the public life, but they are not conducive to independent, dispassionate and discriminating thought. Only the printed word

which comes to the reader without theatrical or oratorical wiles and suasion, but must present itself on the authority of its essential logic, can do that. The reader of the printed word must contribute something to its understanding, and in that responsibility lies much of the power of the press. For what we call the power of the press is not the power of the printed word, but it is the force of opinion which that word has the property of arousing in the minds of the people who read it. Thus the people are the power of the press, and the consensus of opinion which is developed, whether or not it conforms to the opinion of the newspapers that are read, is the expression of that force.

THE value of this to the integrity of American democracy is beginning to be better recognized under present conditions. Under our system of government, what the people want they get. We have adopted as a premise the proposition that the people are always right. But this faith cannot be realized unless the people are rightly informed and are able to reason intelligently upon issues which confront them. And because the newspapers as they have been developed in our country fill the function of informing with the least adulteration, and thus encourage in the most efficient manner a necessarily critical public mind, they serve a democratic function that no other medium has been able to do.

THUS, institutions and causes which seek justice based upon realities can safely, and do safely trust their appeals to public intelligence through unadorned facts in the printed word. The trend toward dependence upon the newspaper in presenting comment and facts to the public is increasing today. Stockholders of the Texas corporation only yesterday unanimously authorized the officers of the company to undertake a nationwide newspaper campaign of advertising to "tell the facts" about business problems in relation to taxation. In this move the Texas corporation undoubtedly is convinced of the soundness of its message and convinced also of the essential justice of the public mind. The medium it has chosen is one which will put the facts on test. But it is the surest way to the public mind of this country and it is the surest way to the development of a sound and effective public opinion on an issue that is of vital concern to the country now.

All Roads Lead to Rome

government's present banking operations involve \$7,608,000,000 in loans and in total assets \$11,800,000,000. Against this is a total liability of \$7,373,000,000.

RAILROADS—A bill drafted by Chairman Wheeler is likely to speed railroad reorganizations. At this session the only proposal likely to be enacted for railroads are revision of reorganization procedure, repeal of the law under which the government is given special rates for freight from land grant carriers, and to enable railroads to purchase equipment with a loan of \$20,000,000.

SOME W. P. A. ACCOMPLISHMENTS.—40,000 miles of new highway, and many more miles of secondary roads and street improvements—19,000 bridges, and 13,000 bridges reconstructed;—185,000 culverts—105 new airplane landing fields, and improvement of 109 others;—12,000 public buildings such as schools, libraries, fire houses, armories, and improvements on many thousands of other buildings—99 hospitals, and improvements in 934 others;—4,000 miles of new water lines;—5,700 miles of sewer mains;—1400 medical clinics and 815 dental clinics conducted.

POSTMASTER APPOINTMENT.—A proposition to put postmaster appointments back under the spoils system, was rejected. When Senator McCallar of Tennessee registered a bill recently, permitting congressmen to recommend appointees for postmasterships from among the three standing highest on eligible lists, a 49-20 vote in the senate threw out

the bill and substituted instead, the one introduced by Representative Ramspeck of Georgia which is designed to tighten civil service requirements.

NAVAL CONSTRUCTION—Favorably reported by the house committee on naval affairs is a bill limiting profits on naval construction contracts to 10 per cent of the contract price and all such profits in excess of 10 per cent to be paid into the treasury. Losses on naval contracts would be allowed as a credit for the next succeeding income taxable year, according to this bill. Bills were also approved by the committee authorizing the navy to sell scrap metals to accredited schools, colleges, and universities for use in vocational training; authorizing training of citizens for navy duty at naval stations for short periods; and authorizing a naval works program of \$6,000,000.

65 AND OVER—Nearly eight million persons in the U. S. have reached or passed the critical age of 65. Particular interest attaches to them because of state and federal legislation recently enacted to bring them a measure of economic security. At the beginning of 1937 there were three large groups of aged (each numbering about one million persons) who possessed or received some form or income: persons with current earnings, persons with savings, and those in receipt of public assistance (old-age assistance and aid to the blind) under the Social Security act. In addition, there were three smaller miscellaneous

Human and Other Nature

By W. F. BRUCE

We have already seen that economically, socially, educationally, and religiously a community cannot live to itself. That is clearly indicated in the survey we are making of one week's events. We find what sort of a world it is in which our community is having its share. Accidents happen everywhere, and come home to us often enough when some of our own are in the midst of them. Crime likewise is helping to make history—to blacken its pages. Two notable instances held notice during the week. The web of circumstantial events that might either unravel the Frome murder case, or else leave it as one of those noted unsolved mysteries; the Pierson escape and consequent excitement; these are representative of the crime side, along with Whitney's spectacular fall—into Sing Sing as convict No. 94835.

Science that is forever working for progress gave us an item on study of ancient pictographs in Texas, one on conquest of diphtheria, and notice of the important session of the American Chemical Society at Dallas. Politics is active as seen by the hot contest in Illinois senatorial nomination, and the opening of Thompson's run for governor. Recovery insists on being the main issue, and taxes a critical point of dispute. The advancing stock market one day probably resulted only from somebody's, or a great number's, playing with the indicator. F. D. R.'s proposal for one billion and a half, then seven billion, in a recovery plan; his advocacy of tax on government salaries and bonds; his relenting toward business and other ideas, as indicated by Townsend's pardon; the proposed omnibus revenue bill, \$220,000,000 non-military appropriation, and a

deadlock in committee on tax revision; all these are suggestive of political trends.

We are most anxious about world situation. Japanese setback, and insurgent Spanish advances, are stirrers of the troubled waters. Some hope of quieter seas is seen in the Anglo-Italian agreement signed, and the Franco-Italian agreement proposed. Daladier assumes extraordinary powers to deal with internal problems in France. Arne, in Friday's issue, discusses the strenuous effort of peace societies to keep America out of war. Maybe the storm will blow over. Anyway that's the picture of the world we live in as we get it in these glimpses.

Livestock Shipments Moderately Down

AUSTIN, April 27 (Spe.)—Total livestock shipments from Texas to Fort Worth stockyards and interstate points during March were moderately below those of the corresponding month last year, according to the University of Texas bureau of business research. Forwardings of all classes of live stock combined totaled 5,034 cars, a decline of 5 per cent from March last year. Cattle shipments, totaling 3,033 cars, declined 9 per cent; calves, 659 cars, increased 30 per cent; hogs, 782 cars, decreased 13 per cent; and sheep, 560 cars, increased 4 per cent. Shipments during the first three months totaled 13,589 cars, a decline of 7 per cent.

"Receipts of Texas live stock at the Fort Worth market were sharply below those of March last year, especially of hogs and sheep," the bureau's report said. "Marketing to Los Angeles also dropped off sharply, while Kansas City and Oklahoma City took more Texas sheep."

Tot Learns Lots at Young Age, in China

PITTSBURGH, Kas., April 27 (AP)—"Is this where we go when we have an air raid?" asked Jo Ann Barr, 7, when she arrived at the home of her grandparents in Pittsburgh. She was pointing toward a door leading to the basement. With her brother, Gene 5, she had just arrived from Nanking, China, where she lived through an air raid by the Japanese. Her father, Julius Barr, is a pilot in the personal service of Generalissimo Chiang Kai-Shek, head of the Chinese government.

R. A. (Bob) STUART

Stuart to Open Campaign at Tyler, May 4

FORT WORTH, April 27.—Former State Senator Robert A. (Bob) Stuart of Tarrant county will formally open his campaign for railroad commissioner with a speaking engagement at Tyler on Wednesday night, May 4, he announced today. Stuart, chairman of the board of regents of the Texas State Teachers colleges, said he will cite ways by which the service of the railroad commission can be improved. He added he would deal with "prodigal waste of Texas' natural resources."

It was said by Stuart that he will make one of the most extensive campaigns ever undertaken by a candidate for a state office and that he will visit every county in Texas.

State Chairman Guest Speaker for Baptist WMS

Mrs. J. H. McClain of Menard, state stewardship chairman, was guest speaker when the First Baptist W. M. S. met at the church for an all-day session and covered dish luncheon. The W. M. U. president, Mrs. T. H. Chumney, presented Mrs. McClain, who taught a very interesting lesson from the book, "Stewardship Parables of Jesus," by Long. The entire morning session was devoted to the lesson which was taken from the first half of the book.

At the noon hour, a luncheon, with Mrs. McClain and Hjalmar

by business men of Tyler and adjacent cities to give Stuart a big reception. There will be a state-wide radio hook-up for the address. Delegations will be present from many cities.

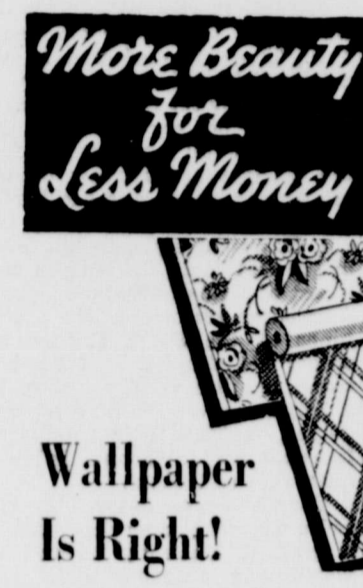

Rail Movement of Poultry, Eggs Drops

AUSTIN, April 27 (Sp.)—Rail shipments of poultry and eggs from Texas to interstate points during March were sharply below those of the corresponding month last year, the University of Texas bureau of business research has reported. Poultry shipments totaled 59 cars, compared with 79 in March last year, a decline of 25 per cent; while egg shipments dropped from 94 cars last year to 47 during March of the current year, a decline of 50 per cent.

Thirteen cars of eggs were received in Texas from out-of-state points—twelve cars from Kansas and one car from Missouri.

Easter Cruise

BY MARION WHITE
Copyright, 1938, NEA Service, Inc.

CAST OF CHARACTERS
JOYCE MILNER, heroine; she took an Easter Cruise.
DICK HAMILTON, hero; he bumped into the heroine.
ISOBEL PORTER, traveler; she sought a mate.

Yesterday Isobel has her let-down when the mysterious Mr. Gregory is arrested for embezzlement with plenty of time to let his heels cool.

CHAPTER XVIII

THE social climax of the cruise was the Fancy Dress Ball the following evening. No passenger, no matter how conservative, was immune to the excitement of it.

"But I haven't a thing to wear!" Joyce protested to Dr. Gray, "and I hate rented clothes."

"Never mind, Mrs. Bates will fix you up with something. Why a young girl like you can't stay out of a Fancy Dress Ball!"

"I'm not going to dress up!" Dick declared emphatically.

"Of course you are," the doctor ordered. "I've got just the suit for you, down in my cabin. You come along with me."

Their protests were of no avail. They would go to the ball, and they would be dressed up. Mrs. Bates was waiting outside of Joyce's cabin.

"The doctor said you wanted a costume, miss," she offered cheerfully.

"The doctor said I had to have a costume," Joyce corrected with a smile.

Mrs. Bates nodded brightly. "I'll fix you up right smart. The doctor has a Pilgrim costume for the young man—a John Alden outfit, you Americans call it. How would you like to go along as Priscilla?"

"Well, since I must dress up, I can't think of anything that would please me better. John Alden and Priscilla were practically next-door neighbors of mine."

So the stewardess was off to some hidden recess in the linen closet, from whence she returned promptly with a quaint gray costume, freshly laundered, voluminous with petticoats, and a stiff, starched white shawl and bonnet.

Within half an hour, Joyce emerged as a demure Pilgrim maid, lacking only her prayer-bags and spinning wheel.

"Mind the petticoats," Mrs. Bates cautioned. "They're only on a draw-string."

Up in front of the purser's office, she met a young man whose costume, even to the high-crowned hat and the buckle-boots, proclaimed him a fitting companion

to her own sedate stance, but whose bright blue eyes danced with a happy abandon which would have disarmed him instantly from the stately ranks of the old Puritan elders.

"So, my lovely Priscilla!" he beamed. "Think not that I come to speak of our Captain Miles Standish this merry evening!"

She laughed. "You look as if you could speak for yourself, John!"

TOGETHER they went up to the lounge, all cleared now of furniture and rugs, with the hardwood floor waxed and polished for the dancing.

"Look, quickly, I dare you!" Dick whispered as they came in for the dancing. "Over there, across the room."

Joyce looked. She saw the impressive Mrs. O'Hara coyly beckoning in the grassy trimmings of a Hula maiden—short straw skirt, flowered lei, deep sun-tan complexion.

"She looks like a round fat shrewded wheat biscuit, with strawberries on top," Dick grinned. "And look at the old man. . . . Lord, is he a picture for Puck!"

Indeed, it was difficult to decipher Mr. O'Hara's characterization. They assumed that he was a Boy of the Islands, fitting partner to his Sweet Lalanie wife. He wore the flowery lei. But Mr. O'Hara, for all his ventures from the straight and narrow path of temperance, was a modest man. He did not expose his manly bosom, Hawaiian style, to the stares of the multitude. Instead he wore a sort of Roman toga, perhaps the foundation garment of the ancient kings of the South Pacific, and across his shining bald head he wore, not the worthy laurel, but a handsome wreath of fresh gardenias, wafting their heavy perfume all over the room. He looked miserable and timid.

They had gone around the floor twice when Joyce was conscious of a gradual loosening around her waistline, a loosening which slowly translated itself into a bulkiness around the knees and a lengthening of skirts. She looked down in sudden alarm.

Hurrying down the empty corridor, she collided with a heavy figure backing out of one of the staterooms. She recognized the adipose Hawaiian princess, and automatically murmured a careless apology. But Mrs. O'Hara's eyes were still unfriendly and accusing; she stalked back to the lounge as if indignant that she must walk the same corridors with other mortals.

"What's up?" the chief officer demanded.

"One of the passengers has had some valuable jewels stolen from her room, sir."

"Jewels?" they echoed in startled surprise.

Only one name flashed through Joyce's mind, and she said it aloud now, with dismal presentiment: "Mrs. O'Hara."

(To Be Continued)

Commercial Failures in Texas Increase

AUSTIN, April 27 (Sp.)—Commercial failures in Texas during March exceeded those of the preceding month and March of last year both in the number of firms that failed and in the total liabilities of these firms, the University of Texas bureau of business research has pointed out.

"According to reports issued by Dun and Bradstreet, Inc., there were seventeen commercial failures in Texas during March, compared with fifteen the month before and seven the corresponding month last year," the bureau's statement said.

"Total liability of these establishments was \$248,000, an increase of 62.1 per cent over the preceding month and 145.5 per cent over March last year. For the entire first quarter of 1938 there were 54 failures, compared with 34 during the first three months of last year; and aggregate liabilities were \$346,000, an increase of 72.2 per cent over the like period a year ago."

Three Killed---

four miles east of O'Donnell was blown away but a son, Jake Burkett, who was away at work, said no one was at home at the time.

Dozen Treated
Lamesa hospitals said "about a dozen" had been treated there.

An electrical storm playing a tattoo across West Texas last night was the forerunner of a moderate driving rain that rode down in a semi-circle from the storm-torn South Plains region.

At midnight the rain had not reached east and South of Abilene, but drenched the area to the northwest. High winds hurled gusts of dirt over half a dozen counties for an hour before the downpour started.

Big Spring received rain and hail. Streets at Sweetwater were standing in water after an hour's downfall that amounted to more than an estimated inch. It was lighter at Blackwell, but S. W. Evans said it looked like they were in the "middle" of things and he

was expecting precipitation before morning.

An inch was reported at Hamilton and was believed to be general over that section, especially north to Asperment. It was accompanied by wind and light lightning. Rain reached Stamford at 11:30 p. m. and reports from there said "it had set in for the night."

Anson and Roby both received a driving rain and severe winds. However, no damage was reported.

The first rain in Abilene was at 11:40 p. m., an hour after the wind had reached the velocity of 40 miles an hour at the airport.

UNLOADED GUN KILLS

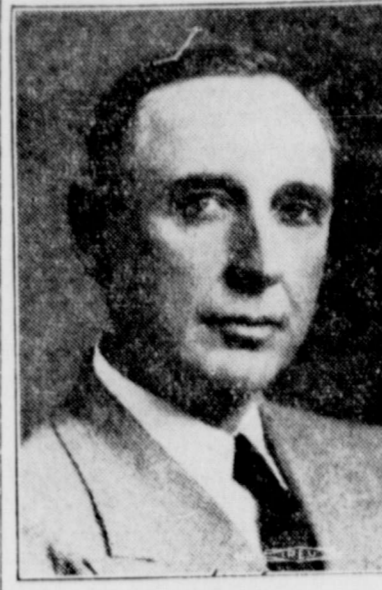

EL PASO, April 27 (AP)—Sobbing hysterically she didn't know "the gun was loaded," 18-year-old Rose G. Jones, an expectant mother, was arrested on a homicide charge Tuesday for shooting her policeman-husband, Walter. "I thought the pistol was unloaded when I pulled the trigger," she sobbed.

The first American cotton mill was built in Massachusetts in 1803.

MYRA NORTH, Special Nurse By Thompson & Coll

Comic strip panels with dialogue: MYRA! WHAT ARE YOU SAYING? WHY SHOULD I HAVE GONE DOWN WITH PNEUMONIA INSTEAD OF SHERIFF WILSON? BLACK LUKE LEFT THAT ENVELOPE FOR YOU! AND... THE PAPER INSIDE WAS OF A HEAVY ABSORBENT TYPE. IN THE HOSPITAL LABORATORY WE FOUND THAT IT HAD BEEN SATURATED WITH TYPE 3 GERM CULTURES—THE MOST VIRULENT FORM AND THE SAME TYPE THE SHERIFF HAS!

For Comptroller

J. J. Bittle of Hill county who today announced his candidacy for comptroller of public accounts in Texas.

Dairy Products Output Jumps

AUSTIN, April 27 (Sp.)—Sharp increases occurred in the manufacture of dairy products in Texas during March, according to the University of Texas bureau of business research. Reports from representative groups of creameries, cheese factories, and ice cream plants indicate an increase of 40.2 per cent in creamery butter production over March last year, a gain of 55.6 per cent in cheese production and a rise of 40.3 per cent in ice cream production.

"With the rapid readjustments which are now taking place in land utilization under the direction of the Agricultural Adjustment administration the statistics on live stock and live stock products are assuming increasing significance as a measure of changes in agricultural activity," the bureau's report said.

Washington News---

groups: one of about half a million (574,000) persons who received federal, state, municipal, and private pensions, insurance annuities, and so forth; a second of about 1-4 of a million (268,000) persons who received various forms of organized public or private relief, other than public assistance under the Social Security act in their own homes; and a third group of about 200,000 aged persons who were in public or private homes, in hospitals for mental disease, or in other institutions. Out of a total of about 7.8 million persons 65 or over on January 1, 1937, in the continental U. S. and Alaska and Hawaii, it is believed that approximately one-third (2.7 million) were self-dependent. Approximately one fifth (1.6 million) were supported wholly or partially by public or private social agencies. Between two-fifths and one-half (3.5 million or 45%) appear to have been essentially dependent.

ARE YOU WEAK, NERVOUS?

Dallas, Texas—Mrs. W. A. Catley, 2105 Holmes St., says: "I was nervous, tired, weak, didn't sleep well, and had headaches and backache associated with functional disturbances. Dr. Pierce's Favorite Prescription relieved me of the backache and headache, and I felt much stronger." Buy it at any drug store. See how much calmer and stronger you feel after taking this tonic.

THE CISCO DAILY PRESS

Combined With Cisco Daily News and Cisco American and Round-Up November 1, 1937

In an area of benevolent climate, blessed with an abundance of the purest lake water, possessing the best in recreational facilities, situated on the Bankhead, all-weather route, with two railroads and many highways, Cisco is the best place in Texas to live and to work.

VOLUME XVIII. CISCO, TEXAS, WEDNESDAY, APRIL 27, 1938 NUMBER 225

PLAINVIEW MAN IS NEW W. T. C. C. PRESIDENT

Three Killed as Twisters Strike in Lynn County

Through the Editor's Spectacles
By GEORGE

Addressed to "Dr. Prof. J. M. Sasaki," whom Ciscoans will remember as the predecessor of T. Sasaki in the functions of vocational agriculture teacher at the high school, comes an apologetic far-off Japan seeking information on "how to make the ham (pork) and other meat products."

Dear gentleman: I am studying here to make ham (pork) and other meat products. But there are few references about the ham. And by the way, in a book (a handbook on the future farmers) I found your university is issuing the information about it. Would you send it to me, if you are truly yours,

Sasaki? The quaintness of the Japanese and English idiom may make a request sound amusing to some people, but the request is a sober thought for the quality of the Japanese student. How M. Sasaki knew of Prof. Bird at Cisco and thus sent his request to him, I do not know. But that such information should reach from a small community in the middle of the United States to a Japanese student suggests the close contact between Japanese have with America in the matter of information. Apparently that Jap student intended to learn something about the curing of ham, and I'll bet that when he has received the information that will help him and digested it as thoroughly as he undoubtedly will be able to produce creditable hams.

fact that he is able to write and certainly to read it, suggests how thoroughly the students are attacking the problem of learning all that is to be known about our nation, and with this knowledge to improve their own culture and establish themselves in a sound economic position. Imitators, we call them, but they are absorbing all they know known and are imitating it with their own resources and discoveries. Already methods they have invaded the markets of other nations agree that is alarming.

They are long, Japanese produced under the supervision of M. Sasaki, who will be mailed to "Prof. Bird" at Cisco, Texas, will be a large part of the market now are commanded by products of Iowa and Texas.

SCORE HURT IN 2 COMMUNITIES LATE TUESDAY

Two Die When Storm Bowls Over Car at Draw

TAHOKA, April 27 (AP)—Lynn county today surveyed the damage caused by a twister striking two of its communities. Three persons were killed, a score were injured. George Walters, 40, Austin, visiting in the Draw community, and his cousin, John Walters, 15, were killed when the storm bowled over their automobile. Mrs. V. C. Caswell, 25, was killed when her residence was demolished. Fourteen were injured when the twister dipped into the O. K. community, 14 miles north of Lamesa.

.55 INCH HERE
Rain which fell here last night during a series of thunder storms totaled .55-1.00ths of an inch, according to the gauge at the city hall.

Some rain and a little hail accompanied the disturbance. Five persons were taken to Lubbock hospitals and nurses, doctors and ambulances went to the scene. The body of Mrs. Caswell, whose home was blown away, was reported found 100 yards from the residence site.

Bob Alexander told a graphic story of having been caught by powerful winds a mile east of the Caswell home. His automobile was catapulted over and over and wrecked, parts being found 250 yards from the road. Alexander, severely bruised and shocked, could not be reached for a more detailed story, because of necessity for treatment.

All doctors of Tahoka had gone to the Draw community, and those of other towns had been reported summoned. Roy D. Smith's home at O'Donnell was demolished. Mrs. Smith was taken to a Lamesa hospital for treatment of injuries not considered dangerous. Roy, Jr., their son, about 12, was knocked unconscious, but was recovering.

Irene and Maurine McKay, daughters of Mr. and Mrs. Louis McKay of Draw were torn from their mother's arms. Irene was not expected to recover. The residence of R. H. Gary, Jr., (CONTINUED ON PAGE FOUR)

Three Miners Die in Explosion, Fire

POTTSVILLE, Pa., April 27 (AP)—Explosion and fire killed at least three coal miners today in the Saint Clair mine near here. It was feared that others were trapped. Twenty-eight were carried to hospitals.

Henry Ford Lunches With President Today

WASHINGTON, April 27 (AP)—Henry Ford sat down at luncheon with President Roosevelt today to talk about business. The manufacturer, who often differed with the administration's policies, was cheered by several hundred persons as he entered the White House. After the arrival of the Ford party, Chairman Marriner Eccles, of the federal reserve board, entered to join the group.

Carnegie Nephew Vanishes in Air

Official and private planes criss-cross Long Island and Connecticut, while the U. S. coast guard patrolled adjacent waters in an unprecedented search for Andrew Carnegie Whitfield, missing in his private plane since April 15. The amateur flyer, pictured above with the former Elizabeth Halsey at their marriage last June, put his red and silver monoplane into the air from Roosevelt Field, L. I., on a clear day for an announced 15-minute hop to Brentwood, 20 miles away—then literally vanished into the air. Whitfield's brother, John, discounted theories of mental trouble, an unhappy marital condition, or kidnapping.

Man Held at Breck Is Suspect Here

The Press was in error yesterday in the statement that Bill Roberts, held at Breckenridge on charges of robbery with firearms in connection with service station hold-ups at Breckenridge and Eastland, was identified as the man who attempted to steal cash from the Humble service station here, Chief of Police Perdue said today.

Perdue said that Roberts had been identified by Elwayne Weathers as the man who entered the Sinclair station on West Eighth here several weeks ago and robbed Weathers after a scuffle, and that fingerprints taken at the Gulf service station on the same day were identified as those of Roberts'. The Sinclair and Gulf stations were held up between 5 and 6 o'clock in the morning.

Roberts is also wanted, Perdue said, in connection with robberies at Pasadena and Los Angeles, Calif., where he went under the name of Bill Ward.

Father of Alf Landon Dies Today

KANSAS CITY, April 27 (AP)—John Landon, 81, father of Alf M. Landon, 1936 presidential nominee, died here today of heart disease.

Mexican Tariffs Will Be Reduced

WASHINGTON, April 27 (AP)—Summer Welles, under-secretary of state, said today that the Mexican ambassador assured him that Mexican tariffs would be materially reduced probably by May 1.

Father of Alvin Owsley Succumbs

DENTON, April 27 (AP)—Alvin C. Owsley, 83, attorney and father of Alvin M. Owsley, minister to Denmark, died here today. He suffered a fractured hip recently when he fell.

FELLOWSHIP BANQUET
The Scranton W. M. S. of the Methodist church will sponsor a Fellowship banquet at the church tonight at 8 o'clock. A charge of twenty-five cents per plate will be asked. The public is cordially invited.

ELECTION IS DECLARED BY CITY COMM'N

Body Puts Closed Season on New Species of Bass

The city commission, meeting in regular session last night, canvassed results of the recent municipal election and declared results as: Out of a total of 200 votes, S. A. Huestis, with 199, J. T. Burnett with 197, and H. C. Henderson with 199, were reelected members of the city commission for terms of two years. At the request of D. C. Harper, state fish hatchery superintendent, the commission declared a closed season on white, or striped, bass in Lake Cisco. Harper recently moved 135 of this species of bass from Lake Dallas to Lake Cisco. The closed season is for the purpose of allowing this species to multiply. The commission also took under advisement the text of an ordinance regulating the peddling of merchandise in Cisco. Season family fishing permits at Lake Cisco are on sale at the city secretary's office for \$1.50 each. Daily permits are 25 cents per person.

With the exception of the regulation relating to striped or white bass, the regulations are the same as governed last year, City Sec'y Lonnie Stockley said.

Wrecked Plane and 4 Dead Bodies Found

VISALIS, Calif., April 27 (AP)—Joseph Elliot, superintendent of the Sequoia national forest, said today that the ground crew reached the wreckage of the airplane which vanished Monday, and that the four passengers, residents of Visalis were dead. Those aboard were: Dr. and Mrs. O. N. Lambert, Mrs. Frank Blain, and Miss Dorothy Davis. Dr. Lambert piloted the plane.

President Approves Record Naval Sum

WASHINGTON, April 27 (AP)—President Roosevelt approved the record peace time appropriation, \$546,866,494 today to finance the navy for the next fiscal year.

Texaco Stockholders Vote Ad Campaign

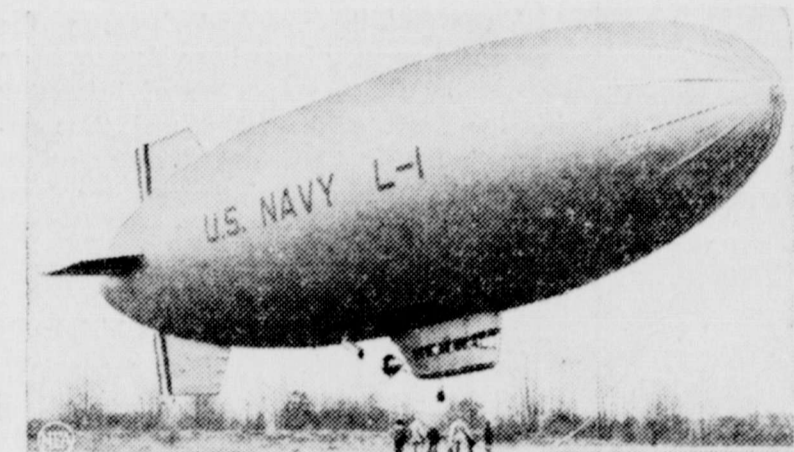

NEW YORK, April 27 (AP)—Stockholders of the Texas corporation, at their annual meeting Tuesday, unanimously passed a resolution authorizing officers of the company to embark upon a newspaper advertising campaign "to tell the facts" about business problems in relation to taxation. The motion was made by J. Newcomb Blackman, who described himself as a substantial stockholder. Previously he recommended that the Texas corporation and other large companies take full page ads in newspapers throughout the country so that "big business can tell its story."

He said: "Get the facts home to the public. Don't attack anybody. Just give the facts." He made his remarks after T. Rieber, chairman, had told another stockholder, B. F. Castle, that in 1937 the corporation paid \$104,000,000 in taxes, which he said was twice the total of all salaries paid.

RECORD SPOILED

UVALDE, April 27 (AP)—In an automobile accident causing the first traffic fatality here in almost five years, Manuel Fernandez, 37, was instantly killed Tuesday. The driver was jailed pending an investigation.

New Navy Blimp Rarin' to Go

Pointing her nose skyward, the new U. S. navy blimp L-1 is pictured above taking off on her maiden test at Akron, O. Powered by two 145-horsepower motors and with a helium capacity of 123,000 cubic feet, the ship, one of the two largest American dirigibles, will be launched as a training unit at Lakehurst, N. J., this fall. Commander W. T. Zimmerman, technical adviser, is conducting the tests.

Strong Navy Peace Move -- Connally

WICHITA FALLS, April 27 (Sp.)—"In the true interest of peace," the United States must "have a naval force capable of destroying an enemy before he lands on our soil," United States Senator Tom Connally, junior senator of Texas, told the West Texas chamber of commerce annual convention, in addressing the final assembly of its twentieth anniversary convention.

Carnival Rides Are in Place at Lake Cisco

The Lake Cisco Amusement company stood ready today to entertain throngs of amusement seekers as the date for a formal opening of the big resort neared. Six or seven rides, varying from the big Ferris wheel to kiddie auto rides and a miniature steam train, have been installed on the midway, together with a variety of other concessions to entertain the public. Manager P. G. Berry has fixed Sunday, May 1, as the date for the formal opening. The amusement facilities, however, are now open to the public and Cisco people were invited to visit the grounds this evening.

Cisco Part-Time FFA Boys to Dublin

Members of the Cisco part-time chapter of the FFA, accompanied by Instructor T. G. Caudle, yesterday visited the soil conservation project being conducted by the soil conservation service of the federal government at Dublin. Boys going on the trip were A. P. Wende, Ben Wieser, Ben Wende, Fred Wende, Carl Stroebel, Clarence Stroebel, Avery Holt, Alton Clark, Alvin Schoor and Orval Davis.

Electric Power Consumption Gains

AUSTIN, April 27 (Sp.)—Electric power consumption in Texas during March maintained a substantial margin of gain over the like month last year, but the increase over February was less than the normal seasonal gain, it was stated by the University of Texas bureau of business research. Reports to the bureau from seventeen representative power companies show total consumption of 192,000,000 kilowatt hours, an increase of 3.9 per cent over March last year and 2.6 per cent over February. For the entire first quarter of 1938 the gain was 10 per cent over the corresponding period last year. Commercial consumption was up 11.2 per cent from March last year; industrial consumption gained 7.8 per cent, and residential consumption rose 13.4 per cent.

Mrs. J. H. Brice has returned from a visit in Marshall and Shreveport, La.

ABILENE WILL BE 1939 HOST TO CONVENTION

Connally and LaGuardia Speeches Highlight Sessions

WICHITA FALLS, April 27 (AP)—H. S. Hilburn, Plainview newspaper publisher, was today elected president of the West Texas chamber of commerce. During the last year Hilburn had been first vice-president and chairman of an important committee which outlines the work program of the organization. Mr. Hilburn succeeds Milburn McCarty, Eastland attorney. E. K. Fawcett, Del Rio, advanced from second vice-president to first vice-president. J. S. Bridwell, Wichita Falls, was elected second vice-president. Malcolm Meek, Abilene, was elected treasurer. D. A. Bandedin, Abilene, was reelected secretary-treasurer. The directors of the regional body yesterday chose Abilene as the site of the next annual convention of the body as Big Spring and Sweetwater withdrew their bids. The address of Mayor F. H. LaGuardia of New York was one of the highlights of the Tuesday convention session. LaGuardia, pled for a "respite" from politics and an understanding between labor and industry, describing the economic condition of the United States as serious. This morning the convention heard Senator Tom Connally, who discussed the peace policy of the United States, stressing particularly the need for a strong navy involving no threat of aggression. Connally paid tribute to the Roosevelt administration and asserted that America "is going forward." He described democracy as standing between "detestable extremes" of "autocracy and imperialism conquest" on the one hand and communism and fascism on the other. "I am going to tell you the truth," LaGuardia said. "Conditions are not good in this country. They can not be when 11,000,000 people are jobless. Talk about agricultural sections industrializing. If your section turns industrial who would you sell? Have you ever thought of that? What we need is wholesome exchange between sections, or this country is going. My purpose is to make an appeal for a better understanding of the economic problems of this country. You cannot continue here if the rest of the country is on the rocks. I am interested in the agricultural problem, because I am interested in my town. If agriculture is not prosperous then neither are we (CONTINUED ON PAGE FOUR)

Albania Gets Queen in Ceremony Today

TIRANA, Albania, April 27 (AP)—In a ceremony marked with mountaineer simplicity, Countess Geraldine Apoponi, whose mother was American, became the first queen of Albania today when she was accepted in marriage by King Ahmed Zog. The ceremony was held in atmosphere half oriental and half occidental. The bride's mother is Mme. Gladys Stewart Gerault, formerly of New York.

ATTEND SPECIAL SERVICES

An evangelistic group of the Pentecostal church will go to Harpersville to attend services which will be held at the tabernacle Thursday night at 8 o'clock. The service will be conducted by Andrew Tipton. The public is cordially invited to attend.

Weather

TEXAS—Partly cloudy with showers. Cooler in the west. Partly cloudy, with showers in the east, and cooler in the west sector. TEXAS—Fair. Slightly in the panhandle tonight. Fair.

BIBLE THOUGHT FOR TODAY

I rejoice at thy word. . . Thy law do I love. . . Seven times a day do I praise Thee.—Ps. cxix. 162, 163, 164.

Remember: All ambitions upward tending. Like plants in mines, which never saw the sun, But dream of him, and guess where he may be, They do their best to climb and get to him. —ROBERT BROWNING.

The perfection of God are to His people what the wings of the parent bird are to the young, at once their protection and their comfort and joy.—James Smith.

The Newspaper Is For the Thinking Person

WHENEVER people get to the point that they can neither read nor think, but must absorb their information and develop their opinions through their auditory sense alone, then newspapers will cease to fill an important function in this country. The radio and the public address fill important places in the public life, but they are not conducive to independent, dispassionate and discriminating thought. Only the printed word

which comes to the reader without theatrical or oratorical wiles and suasion, but must present itself on the authority of its essential logic, can do that. The reader of the printed word must contribute something to its understanding, and in that responsibility lies much of the power of the press. For what we call the power of the press is not the power of the printed word, but it is the force of opinion which that word has the property of arousing in the minds of the people who read it. Thus the people are the power of the press, and the consensus of opinion which is developed, whether or not it conforms to the opinion of the newspapers that are read, is the expression of that force.

THE value of this to the integrity of American democracy is beginning to be better recognized under present conditions. Under our system of government, what the people want they get. We have adopted as a premise the proposition that the people are always right. But this faith cannot be realized unless the people are rightly informed and are able to reason intelligently upon issues which confront them. And because the newspapers as they have been developed in our country fill the function of informing with the least adulteration, and thus encourage in the most efficient manner a necessarily critical public mind, they serve a democratic function that no other medium has been able to do.

THUS, institutions and causes which seek justice based upon realities can safely, and do safely trust their appeals to public intelligence through unadorned facts in the printed word. The trend toward dependence upon the newspaper in presenting comment and facts to the public is increasing today. Stockholders of the Texas corporation only yesterday unanimously authorized the officers of the company to undertake a nationwide newspaper campaign of advertising to "tell the facts" about business problems in relation to taxation. In this move the Texas corporation undoubtedly is convinced of the soundness of its message and convinced also of the essential justice of the public mind. The medium it has chosen is one which will put the facts on test. But it is the surest way to the public mind of this country and it is the surest way to the development of a sound and effective public opinion on an issue that is of vital concern to the country now.

All Roads Lead to Rome

government's present banking operations involve \$7,608,000,000 in loans and in total assets \$11,800,000,000. Against this is a total liability of \$7,373,000,000.

RAILROADS—A bill drafted by Chairman Wheeler is likely to speed railroad reorganizations. At this session the only proposal likely to be enacted for railroads are revision of reorganization procedure, repeal of the law under which the government is given special rates for freight from land-grant carriers, and to enable railroads to purchase equipment with a loan of \$300,000,000.

SOME W. P. A. ACCOMPLISHMENTS. — 40,000 miles of new highway, and many more miles of secondary roads and street improvements;—19,000 bridges, and 13,000 bridges reconstructed;— 185,000 culverts;—105 new airplane landing fields, and improvement of 109 others;—12,000 public buildings such as schools, libraries, fire houses, armories, and improvements on many thousands of other buildings;—99 hospitals, and improvements in 934 others;—4000 miles of new water lines;—3700 miles of sewer mains;—1400 medical clinics and 815 dental clinics conducted.

POSTMASTER APPOINTMENT — A proposition to put postmaster appointments back under the spoils system, was rejected. When Senator McKellar of Tennessee registered a bill recently, permitting congressmen to recommend appointees for postmasterships from among the three standing highest on eligible lists, a 20-20 vote in the senate threw out

the bill and substituted instead, the one introduced by Representative Ramspeck of Georgia which is designed to tighten civil service requirements.

NAVAL CONSTRUCTION—Favorably reported by the house committee on naval affairs is a bill limiting profits on naval construction contracts to 10 per cent of the contract price and all such profits in excess of 10 per cent to be paid into the treasury. Losses on naval contracts would be allowed as a credit for the next succeeding income taxable year, according to this bill. Bills were also approved by the committee authorizing the navy to sell scrap metals to accredited schools, colleges, and universities for use in vocational training; authorizing training of citizens for navy duty at naval stations for short periods; and authorizing a naval works program of \$6,000,000.

65 AND OVER—Nearly eight million persons in the U. S. have reached or passed the critical age of 65. Particular interest attaches to them because of state and federal legislation recently enacted to bring them a measure of economic security. At the beginning of 1937 there were three large groups of aged (each numbering about one million persons) who possessed or received some form of income: persons with current earnings, persons with savings, and those in receipt of public assistance (old-age assistance and aid to the blind) under the Social Security act. In addition, there were three smaller miscellaneous

Human and Other Nature

By W. F. BRUCE
We have already seen that economically, socially, educationally, and religiously a community cannot live to itself. That is clearly indicated in the survey we are making of one week's events. We find what sort of a world it is in which our community is having its share. Accidents happen everywhere, and come home to us often enough when some of our own are in the midst of them. Crime likewise is helping to make history—to blacken its pages. Two notable instances held notice during the week. The web of circumstantial events that might either unravel the Froome murder case, or else leave it as one of those notorious unsolved mysteries; the Pearson escape and consequent excitement; these are representative of the crime side, along with Whitney's spectacular fall—into Sing Sing as convict No. 94835.

Science that is forever working for progress gave us an item on study of ancient pictographs in Texas, one on conquest of diptheria, and notice of the important session of the American Chemical Society at Dallas. Politics is active as seen by the hot contest in Illinois senatorial nomination, and the opening of Thompson's run for governor. Recovery insists on being the main issue, and taxes a critical point of dispute. The advancing stock market one day probably resulted only from somebody's, or a great number's, playing with the indicator. F. D. R.'s proposal for one billion and a half, then seven billion, in a recovery plan; his advocacy of tax on government salaries and bonds; his relenting toward business and other ideas, as indicated by Townsend's pardon; the proposed omnibus revenue bill, \$220,000,000 non-military appropriation, and a

deadlock in committee on tax revision; all these are suggestive of political trends.

We are most anxious about world situation. Japanese setback, and insurgent Spanish advances, are stars of the troubled waters. Some hope of quieter seas is seen in the Anglo-Italian agreement signed, and the Franco-Italian agreement proposed. Daladier assumes extraordinary powers to deal with internal problems in France. Arne, in Friday's issue, discusses the strenuous effort of peace societies to keep America out of war. Maybe the storm will blow over. Anyway that's the picture of the world we live in as we get it in these glimpses.

Livestock Shipments Moderately Down

AUSTIN, April 27 (Sp.)—Total livestock shipments from Texas to Fort Worth stockyards and interstate points during March were moderately below those of the corresponding month last year, according to the University of Texas bureau of business research. Forwardings of all classes of live stock combined totaled 5,034 cars, a decline of 5 per cent from March last year. Cattle shipments, totaling 3,033 cars, declined 9 per cent; calves, 659 cars, increased 30 per cent; hogs, 782 cars, decreased 13 per cent; and sheep, 560 cars, increased 4 per cent. Shipments during the first three months totaled 13,569 cars, a decline of 7 per cent. "Receipts of Texas live stock at the Fort Worth market were sharply below those of March last year, especially of hogs and sheep," the bureau's report said. "Marketing to Los Angeles also dropped off sharply, while Kansas City and Oklahoma City took more Texas sheep."

Tot Learns Lots at Young Age, in China

PITTSBURGH, Kas., April 27 (AP)—"Is this where we go when we have an air raid?" asked Jo Ann Barr, 7, when she arrived at the home of her grandparents in Pittsburgh. She was pointing toward a door leading to the basement. With her brother, Gene 5, she had just arrived from Nanking, China, where she lived through an air raid by the Japanese. Her father, Julius Barr, is a pilot in the personal service of Generalissimo Chiang Kai-Shek, head of the Chinese government.

WASHINGTON NEWS

FROM CONGRESSMAN CLYDE L. GARRETT

BANKER — Through its various lending agencies, the federal government has become the U. S.'s greatest banker. The government is equipped at present to loan money to business men, to state and local governments for construction, to individuals for home construction, and to farmers for crops. All these are brought about through the Reconstruction Finance corporation; the Public Works administration; the new housing authority and the Commodity Credit corporation. The
