THERE'S NO POINT IN LETTING NERVES GET FRAYED!

TAVE you noticed how a dog, in the midst of play, suddenly stops and His nerve system—as complicated and high-strung as our own-has signalled that it's time to relax! Man, unfortunately, is less sensitive to the warnings of his nerves. Though nerves may need a restful pause, we are inclined to press on in our absorbing tasks-relentlessly-forgetful of mounting nerve strain. When we find ourselves tense, irritable, upset, we may not

even realize why. Don't let tension tie your nerves in a knot. Make it your pleasant rule to break nerve tension often through the day-TO LET UP-LIGHT UP A CAMEL! Feel how gratefully nerves welcome the mellow intermission that your nearby package of Camels suggests. And not only do smokers find Camel's costlier tobaccos soothing to the nerves-but milder, too-ripe-rich in flavor-completely enjoyable from every angle!

Millions of people who live happily LET UP_LIGHT UP A CAMEL

FLAGSHIP PILOT, Captain Walter J. Hunter of American Airlines, speaks for his profession when he says: "Ragged nerves and flying don't mix. I head off nerve tension by giving my nerves regular rests-I let up and light up a Camel. I find Camels soothing to the nerves.

DID YOU KNOW:

-that the grower of tobacco also cures it - in many cases, n barns equipped to apply heat without smoke? That the planter works day and night until the curing process is completed? Selection of Camel's tobaccos requires the services of men familiar with every phase of growing, curing, and aging choice tobacco. It is well

known in the tobacco trade that Camel cigarettes are a matchless blend of finer, MORE EXPEN SIVE TOBACCOS - Turkish and Domestic

RUSH ASSIGNMENTS, deadlines, phone calls would wreck my nerves," says New

York newspaper woman Estelle Karon, "if I didn't pause frequently. I let up often and light up a Camel. Camels soothe my nerves. I work better-get more fun."

The Story of OD and AD

OD and AD owned neighboring farms. Both decided to grow tomatoes. But when their tomatoes were ripe, OD and AD had different ideas as to how they would sell them. This is the story of what happened.

and the TOMAI

How OD and AD Sold Their Tomatoes

OD filled baskets with his tomatoes and put them in a wagon and drove to town. He went up and down the streets looking for people who wanted to buy tomatoes. Some days he sold all, Some days he sold only a few. When the season was over, he found he had made just enough to live on.

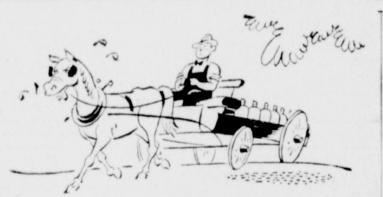

AD thought there must be a better way to sell his tomatoes. He knew he must tell people about them, but he decided he could never sell very many tomatoes if he talked to people one at a time. So he used one of the simplest forms of ADVERTIS-ING. He built a stand by the side of the road

where many people passed. He put up a sign the spirits of said: "AD's big, red, ripe, juicy tomatoes." Bur the cause so many people saw the sign, enough people Tait like stopped to buy so that he sold all his ripe tomator every day. Many who bought, remembering h. . a little name on the sign, came back again and again. Who eep some the season was over, he had money in the bank apartmen

One day AD heard that tomato juice was health entrance ful and good to drink. He thought it would also convenient to handle, to sell, and to serve in the that Dar home. He told OD about it. The next year be decided to make and sell tomato juice.

How OD and AD Sold Their Tomato Juice

OD'S wife squeezed tomatoes all day and put the juice in bottles. OD took it to town and went from door to door, looking for people who wanted to buy tomato juice. In a whole day he could call at only about 50 homes. As most people had never heard of tomato juice and did not know how good it was, he sold only a few bottles each day.

AD felt sure there was a better way to make and sell his tomato juice. He took some money from the bank and bought a shiny new press that squeezed out juice easily and quickly. He put the juice in bottles that could be tightly sealed. He had labels printed for the bottles, reading:

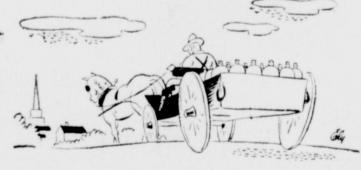

AD's PURE TOMATO JUICE.

He went to the grocery stores in town, wher . To his r many people came every day, and asked the groceniger was i to put a few of his bottles on their counters. The before hi he put an advertisement in newspapers read by housands of people. The advertisement said:

"Enjoy the refreshing taste of AD's PURE TOMATO JUICE, pressed from big, red, vine-ripened Tomatoes. Good to drink and good for you. At your favorite grocery store."

Because so many people read about it, enough p ple asked for it to exhaust the supply quickly. A remembering AD's name on the label they can back and asked for it again. So AD bought tom toes from his neighbors and made more toma juice to supply the demand.

What OD and AD Did The Next Year

OD and his wife decided that if they were going to make any money, they would have to work harder. So she got up earlier in the morning and picked tomatoes and squeezed and bottled juice all day. OD spent a longer day in town trying to see more people in order to sell more bottles. But, even though OD and his wife worked long and hard, they could not make any money.

AD now saw how true it was that the more people he told about his tomato juice, the more he sold. So he advertised in other cities, telling women how good tomato juice was for their families to drink. He also sent salesmen to call on grocers. He got so many orders that he arranged to buy tomatoes from hundreds of other farmers, built a bigger building, bought more equipment, more bottles and labels, and employed more pe ple. AD knew that, because his name was on et bottle, he must always maintain the high qual of his product. And, because he did this, wome soon insisted on AD's PURE TOMATO JUICE.

AD already had found that the more he adve tised and the more bottles he sold, the less it cost asure in him to put up each bottle. Therefore, as his advertising was extended all over the country and his sales increased, he reduced the price. Thus more and more people could afford to enjoy tomato . CRA juice, and, although his profit per bottle was now very small indeed, he sold so many bottles the he had a very fine business. So both AD and h customers were benefited.

AD tells OD how an Idea Became an Industry-through ADVERTISING

ONE DAY, years later, OD called on his old neighbor AD. He said "It's remarkable how your business has grown since you got that idea about selling tomato juice."

"Yes," said AD, "but even more important have been the benefits to other people. We are now only one out of many producers of tomato juice. Yet we take all the tomatoes grown by more than a thousand farmers who have here an assured market for their crops. We give steady employment the year round to several hundred

people and employ hundreds more on part-time. We pay more than half a million dollars a year to manufacturers of cans, bottles, labels, supplies, and equipment.

"The entire industry now sells more than twenty, million dollars worth of tomato juice a year and the public enjoys its healthful benefits-at the lowest price at which it ever has been sold. Yes, tomato juice was a great idea, but that idea would have benefited very few -without ADVERTISING to tell the story."

Death of Magellan In the Philippines

TRAGEDY trailed Ferdinand member is required to submit Magellan across the vast Pacific as he sailed from Tierra del Anizations to sponsor their show. Fuego to the Philippines during Preparations have already begun the early months of 1521. The little water (and that bad), and the entire crew, and at last men turned to eating ox hides and sawdust, and even rats.

The torture lasted 98 days across the Pacific, which Magellan named on that trip, until at last the fleet sighted the Ladrones and landed at what is now believed to be Guam. Here the outfit rested, watered, obtained food. A few days later, March 16, the fleet sighted the Philippines.

On April 7 the squadron arrived finally at Cebu, in the heart of the Philippines, and here Magellan found warm reception from the native sovereign. But it proved a treacherous welcome. Undertaking to conquer the neigh-Catholic faith and for the sovereign. Magellan was killed by the natives April 27, 1521. Later the King of Cebu murdered other

members of Magellan's party. Burning one of the three re-WATER GLOBE STARTS FIRE maining vessels, the survivors escaped from the island to the Moluccas. Only 31 men eventually returned to Seville with the news that Magellan had circumnavigated the globe, had accomplished what Columbus had set out to do -link west Europe with east Asia by ocean route.

Magellan, landing in the Philippines, is shown here on a 1935 Philippine stamp. (Copyright, 1938, NEA Service, Inc.)

the LARGEST-

SELLING

CIGARETTE

IN AMERICA

THERE'S NO POINT IN LETTING NERVES GET FRAYED!

... AND SO IS HE

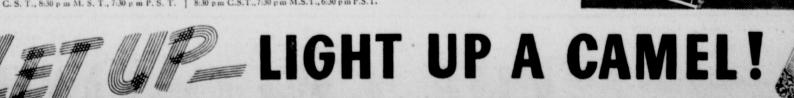

TAVE you noticed how a dog, in the midst of play, suddenly stops and His nerve system—as complicated and high-strung as our own—has signalled that it's time to relax! Man, unfortunately, is less sensitive to the warnings of his nerves. Though nerves may need a restful pause, we are inclined to press on in our absorbing tasks-relentlessly-forgetful of

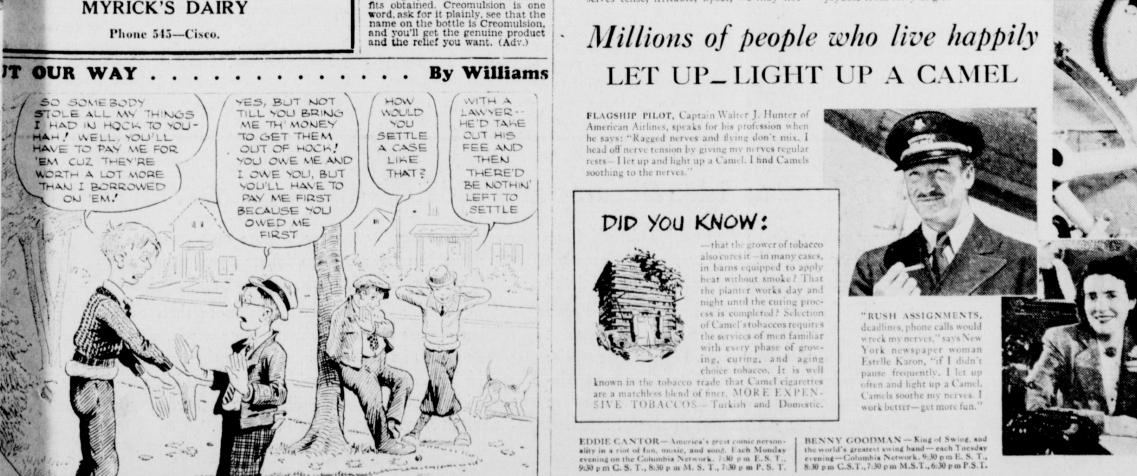

mounting nerve strain. When we find our-

selves tense, irritable, upset, we may not

even realize why. Don't let tension tie your nerves in a knot. Make it your pleasant rule to break nerve tension often through the day-TO LET UP-LIGHT UP A CAMEL! Feel how gratefully nerves welcome the mellow intermission that your nearby package of Camels suggests. And not only do smokers find Camel's costlier tobaccos soothing to the nerves-but milder, too-ripe-rich in flavor-completely eniovable from every angle!

Smokers find Camel's Costlier Tobaccos are SOOTHING TO THE NERVES

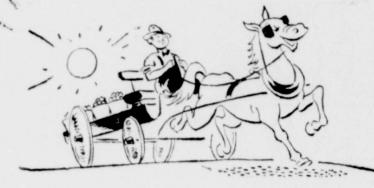

The Story of OD and AD

OD and AD owned neighboring farms. Both decided to grow tomatoes. But when their tomatoes were ripe, OD and AD had different ideas as to how they would sell them. This is the story of what happened.

and the TOMAI

How OD and AD Sold Their **Tomatoes**

OD filled baskets with his tomatoes and put them in a wagon and drove to town. He went up and down the streets looking for people who wanted to buy tomatoes. Some days he sold all, Some days he sold only a few. When the season was over, he found he had made just enough to live on.

AD thought there must be a better way to sell his tomatoes. He knew he must tell people about them, but he decided he could never sell very many tomatoes if he talked to people one at a time. So he used one of the simplest forms of ADVERTIS-ING. He built a stand by the side of the road

where many people passed. He put up a sign that sun. The said: "AD's big, red, ripe, juicy tomatoes." Bear the cause so many people saw the sign, enough people ned to stopped to buy so that he sold all his ripe tomaton every day. Many who bought, remembering his and I h name on the sign, came back again and again. When eep some the season was over, he had money in the bank,

One day AD heard that tomato juice was health entrance ful and good to drink. He thought it would also koing up convenient to handle, to sell, and to serve in the that De home. He told OD about it. The next year bot decided to make and sell tomato juice.

How OD and AD Sold Their Tomato Juice

OD'S wife squeezed tomatoes all day and put the juice in bottles. OD took it to town and went from door to door, looking for people who wanted to buy tomato juice. In a whole day he could call at only about 50 homes. As most people had never heard of tomato juice and did not know how good it was, he sold only a few bottles each day.

AD felt sure there was a better way to make and sell his tomato juice. He took some money from the bank and bought a shiny new press that squeezed out juice easily and quickly. He put the juice in bottles that could be tightly sealed. He had labels printed for the bottles, reading:

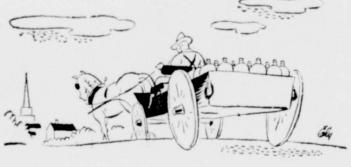

AD's PURE TOMATO JUICE.

He went to the grocery stores in town, where To hi many people came every day, and asked the grocers went to put a few of his bottles on their counters. Then before he put an advertisement in newspapers read by ly he ousands of people. The advertisement said:

"Enjoy the refreshing taste of AD's PURE TOMATO JUICE, pressed from big, red, vine-ripened Tomatoes. Good to drink and good for you. At your favorite grocery store."

Because so many people read about it, enough peo ple asked for it to exhaust the supply quickly. And remembering AD's name on the label they came back and asked for it again. So AD bought toma toes from his neighbors and made more tomato juice to supply the demand.

What -OD and AD Did The Next Year

OD and his wife decided that if they were going to make any money, they would have to work harder. So she got up earlier in the morning and picked tomatoes and squeezed and bottled juice all day. OD spent a longer day in town trying to see more people in order to sell more bottles. But, even though OD and his wife worked long and hard, they could not make any money.

AD now saw how true it was that the more people he told about his tomato juice, the more he sold. So he advertised in other cities, telling women how good tomato juice was for their families to drink. He also sent salesmen to call on grocers. He got so many orders that he arranged to buy tomatoes from hundreds of other farmers, built a bigger building, bought more equipment,

more bottles and labels, and employed more peo ple. AD knew that, because his name was on eve bottle, he must always maintain the high qualit of his product. And, because he did this, women as in h soon insisted on AD's PURE, TOMATO JUICE.

AD already had found that the more he advertised and the more bottles he sold, the less it cost nsure him to put up each bottle. Therefore, as his ad- Insu vertising was extended all over the country and his sales increased, he reduced the price. Thus more and more people could afford to enjoy tomato . CR. juice, and, although his profit per bottle was now Ag very small indeed, he sold so many bottles that IEW D he had a very fine business. So both AD and his customers were benefited.

AD tells OD how an Idea Became an Industry-through ADVERTISING

ONE DAY, years later, OD called on his old neighbor AD. He said "It's remarkable how your business has grown since you got that idea about selling tomato juice."

"Yes," said AD, "but even more important have been the benefits to other people. We are now only one out of many producers of tomato juice. Yet we take all the tomatoes grown by more than a thousand farmers who have here an assured market for their crops. We give steady employment the year round to several hundred

people and employ hundreds more on part-time. We pay more than half a million dollars a year to manufacturers of cans, bottles, labels, supplies, and equipment.

"The entire industry now sells more than twenty, million dollars worth of tomato juice a year and the public enjoys its healthful benefits-at the lowest price at which it ever has been sold. Yes, tomato juice was a great idea, but that idea would have benefited very few -without ADVERTISING to tell the story."
