CONFESSIONS IN KIDNAP-MURDER REPORTED

Through the

Editor's Spectacles

By GEORGE

eek Ot More than \$12,000 has been paid to farmers storing peanuts r 31st in the government warehouse here, it was estimated today. This sum represents a considerable 1ber 5 addition to the purchasing power of the agricultural section here. It is, however, but a small part of the returns of the peanut crop which has come to be a major source of farm income in this ROAT section, replacing cotton which 25 years ago was king. Ideal weather conditions have favored the farmers in the harvesting o peanuts. The dry weather, brok within the last few hours by rain, has made it possible for them to save both the peanut

The coming of the county agen and his co-workers and the de 1.00 velopment of soil building practises generally have insured ONLY future for peanut cultivation his section. The peanut is a so iepleting crop and the period ts cultivation here has seen rapid decline in the quality of the and on which it was produced fferen his was due to the fact that no

and the hay this year.

oil fertility by methods of farmng which would constantly retore the elements taken out Vith the development of sound gricultural practices Eastland ounty soil is being gradually reuilt and land once eroded way, robbed of its productive ements and exhausted of any rofitable use is being returned le cultivation. Peanuts wn will continue into be a profitable East-

More and more as we learn conomic lessons from the de and its aftermath, we recovery which this untry experiences must come ardrorom the soil. That holds true e assony region. We have come irough generations of experience ith the new rich land of great eographical frontiers to be care ss of our soils and to expect too such of them. Our farmers have rmed them without regard to e future, taking out resources hout any thought of restockthe land with the elements which it was being robbed. sequently we have looked ith disdain on any land that as not strong and rich in eleents, and unwilling to put any fort into rebuilding it.

> Many wise agriculturalists owever, have taken such ex usted and weak land and have orked marvels with it, building soil back to richness and oductivity. Farmers of Europn countries long ago learned necessity of caring for their 1. We of this country, our last eat spaces of unsettled land w inhabited, must learn this

HERE'S OUR TIMELY OFFER TO SAVE YOU INCONVENIENCE, TIME AND MONEY

Necessary Service Operations to Insure Carefree Winter Driving at ONE FLAT PRICE

- 1 Battery condition test. Add distilled water, clean battery and terminals, inspect and clean battery
- 2 Test starting motor starter switch; tighten all starter connections.
- 3 Clean generator armature; sand-in armature brushes: tighten all generator connections: adjust belt
- 4 Check alignment and operation of all lights; tighten connections: check all light switches.
- 5 Inspect and tighten all electrical connections at ignition switch, fuse block, etc.
- 6 Tune engine, including cleaning and adjusting spark plugs and distributor. Inspect high tension wires; clean gasoline lines; drain carburetor, blow out jets, check fuel level and adjust throttle for proper engine idle and set accelerator control rod to "winter" position. Drain and check fuel pump.
- 7 Tighten cylinder heads, intake and exhaust mani-
- 8 Completely lubricate chasis. Will make for easier riding and insures against unnecessary wear.
- 9 Change engine oil to winter grade. This assures proper lubrication, economy and easy starting.
- 10 Drain and flush out transmission and rear axle and refill with winter lubricants. This will afford proper protection to the moving parts and insure
- 11 Check cooling system for leaks, replace hose, etc., if required. Drain out all water, flush to remove all dirt and grease.
- 12 Add Ford Anti-Freeze to cooling system.
- 13 Check windshield wiper operation and blade condition. Includes corrections in vacuum line if re-
- 14 Adjust clutch pedal.
