

A cowboy begins a back-flip dismount during the bareback bronc riding at the Nazareth Country Rodeo and Wild West Show at the Marvin Schulte Arena Sunday afternoon. Despite a muddy arena, the rodeo drew large crowds. More rodeo action is on tap tonight through Saturday night in the 1979 Dimmitt Rodeo.

How to spend a lazy Sunday afternoon

Responding to an emergency call from Mr. and Mrs. Raleigh Strother, 713 Oak St., "Goose" Ramey [right] and his son Bub capture a big swarm of bees from the Strothers' honey locust tree Sunday afternoon. Ramey estimated that there were 15,000 to 20,000 bees in the swarm, which formed a four-pound ball on one of the tree limbs. Neither the Rameys nor any of their enthralled spectators were stung while the bees were being put into their new home. "When bees leave the hive and swarm like that, they're not looking for trouble—they're looking for help," Ramey explained. The swarm put Ramey, formerly retired, back into the bee business.

Grain prices jump as rains continue

Rising grain prices plus sunshine after ground-soaking rains have brightened the outlook for Castro County farmers this week and the consensus is "everything looks real good now," qualified by the farmer's usual cautious "if—we don't get hail... prices don't fall..." etc.

Wheat is almost to the harvest stage with prospects for an above-average yield

and the price still going up this week. Corn and milo are up and growing after good general rains and also with higher prices in prospect. Only cotton has received enough damage from hard rains to worry growers.

With a certified wheat acreage of 80,664 acres this year, according to the Castro County ASCS office, and a probable yield estimated at 40 bushels or more on irrigated land and 20 bushels on dryland per acre, it looks like a crop of almost three million bushels. The price was up to \$3.55 Wednesday morning.

Counting the average yield at 37 bushels per acre, overall, the total production would be 2,984,568 bushels.

Corn has reached its highest price level since 1975, and Carl King, president of the Texas Corn Growers Association, says "The report from the USDA is that the Carter Administration is worried that corn prices will soar to the levels of the early 70's — which will tickle the heck out of us."

He explains the higher prices by a shortage seen in the Soviet crop.

"Russia has a problem in the Ukraine with cold, wet weather," he said, "and it looks like they'll be buying all the wheat and corn they can find. The corn market is looking good. Some of our growers already have signed futures."

Trading in futures contracts was picked up, some elevator operators in this county say. One added that he believes this is because growers in this area are "just getting educated to how they can use

futures to their advantage. They've been finding out about that in the last few years."

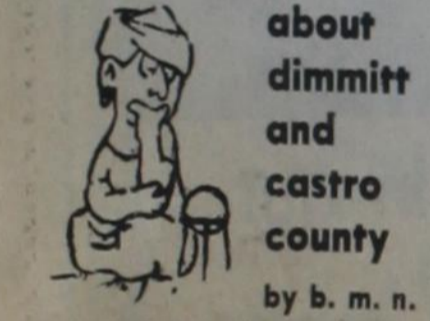

If the price of corn holds for five days at the level it reached the first of this week, the reserve will be triggered so farmers can take their corn out of the federal loan program and sell it, Bill Thornton of Dimmitt Agri Industries explained.

The grain will be released when the price reaches 140 percent of the federal loan level and holds for five days, he said. A rush to sell this corn would probably depress the market, as happened when the wheat reserve was released recently, but grain dealers believe the corn price would bounce back up as wheat did when it dropped from \$3.34 to \$3.08 and then was back over \$3.50 by this week.

As to whether wheat prices will drop after grain starts coming in from the 1979 harvest, elevator operators are reluctant to predict. It depends on when the harvest gets underway and how fast it gets done, they say. And that depends much on the weather.

Little damage to wheat over the county resulted from recent rains, and in general the moisture was helpful especially to dryland crops. A few scattered spots had damaging hail or hard wind.

Most of the rain damage was to cotton, where the seed or very young plants were washed up in downpours. Fields remain too wet to replant, and time for replanting has about run out. Many [See Grain Prices, Page 10]

about dimmitt and castro county

by b. m. n.

According to Rodeo Association officials, all is in readiness for the annual Dimmitt Rodeo to be reeled off Thursday, Friday and Saturday. The annual rodeo is the county's top annual sports event and is expected to draw even larger crowds this year than it has in the past. Rodeo fans are being assured that they will see the best of rodeo stock and top cowboys in action. A complete program of the three-day rodeo appears on page 6.

It seems to me, and possibly to others, that the monkey business has gone on long enough. There is either a shortage of gas, gasoline, diesel and other derivatives from fossil fuels or else there is not a shortage at all. Conflicting reports have confused the natives to the point where they are becoming a wee bit angry. Some provable facts and figures are needed and they should be forthcoming.

A government that can tell within a few pecks of how many bushels of wheat, corn, milo, barley and soybeans, is in storage—on farms, in terminals, in transit by rail and ship and in the process of being produced—should be able to account for and report the actual amount of fuel stored around the country in various containers. This is information the public needs in order to determine if there is actually a shortage or bind.

Governor Clements said this week that government is trying to ease the gasoline shortage, but he warned the folks that there won't be enough, and for that they had his guarantee. He also said that folks would be urged to "conserve gas through car pooling, etc., and that every other day purchasing rights might be put into effect. Apparently the governor and the Texas Energy Commission are in agreement with the National Energy Agency on all aspects of the energy crunch. The bottom line so far as the consumer is concerned is the price of a gallon of gasoline, and the reasons for it being so high.

If the powers that be will prove to the people that there is actually a dire shortage of fuel, then Mr. and Mrs. U. S. Citizen will be glad to bite the bullet and be satisfied with a fair individual rationing program. The American people have always risen to the occasion when an emergency has occurred. Our officials need to know that, given the facts, Americans can make do.

Gov. Bill Clements has signed into law the bill legalizing production of industrial alcohol in Texas, clearing the way for the Amstar plant here as well as other plants in the state to manufacture alcohol for blending into a motor fuel.

Dimmitt backers of the bill, which was passed in closing days of the recent regular legislative session in Austin, had stated that they were confident of the governor's signature since Clements had already announced his support of the measure.

"This is a great victory for Texas," Carl King said after the bill was signed last Thursday. King, president of the Texas Corn Growers Association and state Democratic committeeman from this district, has been one of the local leaders in efforts to get the legislation passed.

He and other Dimmitt farm and industrial representatives called this bill the one basic to production of gasoline, a blend of alcohol and gasoline which is already being manufactured and sold as motor fuel in some parts of the nation.

The Texas enabling bill, HB 1968 known as the Keese-Kubiak bill, changes state laws which formerly prohibited the manufacture of alcohol in Texas. It legalizes manufacture of denatured alcohol for industrial use only.

Annual rodeo opens tonight

The annual Dimmitt Rodeo begins at 8 tonight (Thursday) in the arena just east of the city, and the sponsoring Rodeo Association expects it to be the best ever held here, surpassing last year's successful event.

The grand entry featuring mounted contestants and Rodeo Queen entrants, as well as the Senior Citizens Queen, Edith Graef, and her fellow contestants in humorous costumes, will open the initial performance.

Businesses in the city were taking on a gala look the first of this week with window paintings welcoming rodeo visitors.

Dances are scheduled two nights on the weekend and a concession stand will be open at the arena during rodeo performances, operated by the United Lions Club.

The Friday and Saturday night dances will be held from 9 p.m. to 1 a.m. at the old cotton compress building with music by the Rough Riders of Nazareth.

Producer of the 1979 rodeo is James Martin of the Triple M. Rodeo Company of Spearman. Martin has been involved in the rodeo business almost 20 years.

He began his rodeo career as a contestant in bareback, saddle bronc and bull riding. The highlight was in 1970 when he won the bull riding championship at the XIT Rodeo in Dalhart.

"Martin is highly respected by cowboys who compete in his rodeos, by his rodeo company crew and by his friends and family," according to Luan Ebeling, Rodeo Association secretary.

Events in the three-day rodeo here will include bareback riding, steer roping, calf roping, steer wrestling, barrel racing, saddle bronc and bull riding.

Several special events will be included for the kids, as well as a hide race. There will be a kids' calf scramble and stick-horse race.

Rodeo Queen contestants are Laura Downing, sponsored by the Kiwanis club; Carol Bagwell, by Bruegel and Sons; Judith Smith, by Great Plains Chemical; Debbie Dennis, by the 4-H Horse Club; Jackie Anthony, by Flagg Fertilizer; Jill Brown, by the Key Club and Connie Dennis, by Stan Byrnes Ford.

The Rodeo Queen will be presented Saturday, the last night of the Dimmitt Rodeo.

Farmers irked at gas-rate hike

Generous rains recently have been worth more than ever to farmers due to Pioneer Natural Gas Co.'s 10.6% rate increase on irrigation gas.

The rate increase has sparked strong criticism from farmers here.

Ray Jo Riley of Sunnyside said he has not yet had time to analyze the total impact of the rate increase, but that "we're looking at a reality of continued use of natural gas to irrigate with, and it may cause some well shutdowns from what I have heard."

"There is no question as to whether or not it will have an effect on the farmer. I just hate to see such drastic measures taken by Pioneer," Riley said.

Both Carl King and Riley noted that farmers have given gas lines, easements and rights-of-way to Pioneer for "very little."

"It has been of no benefit to the farmer—it is just part of being a good neighbor," Riley said.

Riley says his gas bill has gone up over 500% since 1971, the date that Pioneer claims its last increase took place.

"The new irrigation gas service rate is for the first 50,000 cubic feet of gas used per month," said K. B. Watson, president and chief of Pioneer in a letter of notification sent to area irrigation farmers.

The rate increase, according to Lee Wilcox of Pioneer's Amarillo office, "helps us meet the cost of inflation."

The gas pass-through rate has increased over the past years, he said, and it will continue to go up and down depending on what gas costs Pioneer at the wellhead.

"The farmer can't pass-through his cost to make a living," Riley said. "He sells to a willing buyer."

"In 1974 we were paying about 50 cents a thousand and our last gas bill was \$1.67 a thousand," said Wade Mills, president of the Plains Irrigation Gas Users Association.

PIGUA has tried unsuccessfully to get Pioneer under regulation since the association was formed in 1961.

"If the farmer can't make a profit," Mills said, "we'll have to get out of irrigation, and if irrigation goes out, you will lose a lot of people," he said.

"It is a pretty bleak picture right now," Mills said.

"Pioneer last increased the base irrigation rate in November of 1971," Watson said. "Since that time the company has experienced enormous increases in its cost for labor and materials and other expenses."

The consumer price index shows that over 70% inflation has been measured in all consumer goods and services since 1971, Watson noted.

Hereford man dies here of gunshot wound

A 22 year-old Hereford man died Tuesday night of an apparently self-inflicted gunshot to the chest, at the Kerr-McGee service station on N. Hwy. 385 in Dimmitt.

Rene Alvarado Valdez had stopped at the station with his father and brother to get gas for their pickup when Valdez went into the restroom.

A gunshot was heard and the brother ran in to the restroom and found Valdez lying on the floor with a .38 detective special on the floor next to him. He then called for his father, Marcelino Valdez.

When police officer Dewayne Haney arrived at the scene, he said, there were three or four men standing at the restroom door.

"I walked over to the door and saw a man lying on the floor of the restroom and an older man sitting beside him," Haney said. "I asked him what had happened. He replied 'He shot himself,'" Haney added.

"The older man was putting pressure to a small wound on the other man's chest. A young man handed me a pistol and told me this was the pistol Valdez had used," Officer Haney said.

An ambulance took Valdez to Plains Memorial Hospital where Dr. B. H. Lee pronounced him dead.

It was noted that there were four rounds in the pistol and only one had been fired. The remaining shells were arranged in the cylinder of the pistol so the next two times the pistol was fired the cylinder would be empty.

Valdez was an Army Pfc stationed at Fort Hood.

VETERAN'S SERVICES

BY BEDFORD W. SMITH
County Service Officer

My office will be closed on Tuesday, June 19, of next week, but will be open Wednesday, Thursday and Friday, 9 a.m. to noon and 2 to 4 p.m.

Information concerning VA home loans from the Veterans Administration Regional Office in Waco, Texas.

GI home loans are more popular among Black veterans, and those in other minority groups, than among the some 25 million former servicemen who remain eligible for this credit-support benefit, according to Waco VA Regional Office Director, Jack Coker.

He revealed also that a VA survey indicates that seventy percent of all veterans who obtained VA-guaranteed loans probably would not have been able to obtain conventional financing.

"Minority veterans, who comprise 11 percent of the total veteran population, obtained more than 15 percent of VA loans guaranteed during 1978," Coker said.

Black veterans represent only 7.1 percent of the veteran population, but they obtained more than 10.4 percent of the VA loans in 1978. Hispanic veterans, 2.9 percent of the veteran population, got 3.7 percent of the loans.

Only American Indians—0.5 percent—got less than their proportionate share of loans, 0.4 percent.

Asian Americans—0.3 percent—got three times their proportionate share or 0.9 percent of the 1978 loan volume.

Six Castro County girls to attend Girls' State

Six Castro County girls will learn about local and state-wide government as delegates to Bluebonnet Girls' State which begins Tuesday in Seguin.

Debbie Dobbs and Ka Ka Bruegel will represent Dimmitt at Girls' State.

Debbie, daughter of Mr. and Mrs. Clark Dobbs, has served as reporter and president for the Little Sister FHA chapter. She received the Sophomore Band Award and was named secretary of National Honor Society her junior year, in addition to being chosen Most Likely to Succeed.

She has been elected president of the Bobcat Band for the coming year. Debbie is a member of the Key Club, Lyre Club and the Speech and Drama Club.

Ka Ka Bruegel is the daughter of Mr. and Mrs. Fred Bruegel, Jr. She has been a member of FFA all three years of high school, participating in stock shows, poultry judging and the quiz team.

She is a member of FHA, Band, the Speech and Drama Club and Lyre Club.

A DHS cheerleader, Ka Ka participated in the UIL one-act play contest and was chosen to the All-Region band her junior year.

Ka Ka is also active in 4-H activities. Nazareth representatives are Gaylene Wilhelm and Teresa Brockman.

Gaylene, daughter of Francis and Betty Wilhelm, is active in CYO, FHA and the pep club. She has sung in the area FHA choir for the past three years and is a member of the Nazareth Swift Band.

Teresa Brockman is the daughter of Mr. and Mrs. Jerome Brockman.

During her junior year, she was class president, student council president, FHA/HERO secretary and pep club secretary.

A hearing in city court on charges of traffic violations against Sheriff Granville Martin has been postponed under provisions of the Speedy Trial Act, according to City Judge L. G. Manning. No definite time was set for the hearing.

The complaint against Martin charges him with failure to meet state and city requirements after striking an unattended vehicle.

The complaint has to do with an automobile accident that occurred May 2.

Record high participation in UIL reached in 1978-79

The current energy shortage apparently does not apply to Texas high school students involved in University Interscholastic League activities.

Participation in the athletic, literary and academic, and music programs reached record highs in 1978-79, reinforcing the long-standing contention that one of two graduating seniors in Texas has taken part in a UIL activity during his high school career.

"Certainly, the UIL has had its problems the past year, with the numerous court cases and occasional one-sided press coverage," said Dr. Bailey Marshall, League director. "But I would be remiss to emphasize the negative and overlook the positive aspects of our programs."

"More students were involved in UIL activities this past year than ever before and this participation by students on a fair and equal basis has been and remains our ultimate goal: This is the reason the UIL exists," he added.

Across the board, participation by schools remained stable, with the exception of girls' basketball, which increased by 55 schools. Football, girls' volleyball, boys' basketball, swimming and track and field remained on a per-school participation basis near their 1977-78 marks.

Individual participation, however, continued its upward surge, with more than 42,000 playing football, 30,000 and 23,000 in boys' and girls' track respectively, and 23,000 and 19,000 in boys' and girls' basketball respectively.

Elsewhere, participation in boys' baseball neared the 16,000 mark, while more than 20,000 took part in boys' and girls' tennis. Approximately 8,000 participated in boys' golf and 4,000 in girls' golf.

Swimming figures reached 3,500 for the boys' and 2,500 for the girls', while cross country boys' and girls' totals sped near the 600 plus mark.

In the UIL music program, some 71,000 took part in choral competition while 40,000 participated in the solo and ensemble contest, and a whopping 215,000 joined bands and orchestras in UIL contests.

Participation in the UIL literary and academic contests was equally as impressive:

In UIL speech competition, 5,000 took part in Debate, 17,500 in Informative speaking, 15,000 in Persuasive speaking, 17,500 in Poetry interpretation, 15,000 in Prose reading, and in Oral reading 18,000.

In other categories of UIL academic competition, 20,000 participated in One-act play, 24,000 in Journalism, 55,000 in Number sense, 25,000 in Picture memory, 22,500 in Science, 20,000 in Slide Rule, 15,000 in Shorthand, 16,000 in Typewriting, 55,000 in Ready writing, 12,500 in Story telling and 80,000 in Spelling.

"The University Interscholastic League embraces more than a half-million participants and anytime you're working with a program having the scope this one has, you must operate under a system of uniformly enforced rules and regulations," Dr. Marshall said.

"The school administrators and educators of Texas have voted for and support rules governing inter-school competition. To abandon these rules would be detrimental to the educational benefits of the overall program."

Dimmitt Supt. Robert Ryan agrees with Dr. Marshall.

"I totally support the rules and regulations governing the U.I.L. even though there exists areas which probably need revision, Ryan said. "I will hasten to say, however, this change must come about by action taken by the member schools, and not the Texas Legislature."

Dr. Marshall added, "It is wise to keep in mind that Texas school people, with the support and counsel of their local patrons, have built the U.I.L. into the most outstanding organization of its kind."

Board votes to keep school tax on autos

The Dimmitt School Board voted Monday night to continue taxing automobiles as a source of revenue for the school district, under a provision of the State School Finance Bill.

The provision states that a district would lose the right to tax cars as personal property unless the local district specifically voted to continue with such taxation.

"Discontinuing the auto tax would cost the district around \$46,000 in revenue," DISD Business Manager Gene King told the board in his legislative report. He added that some loss would already be experienced because of the homestead and ag-use exemptions allowed in the new legislation.

King said the district is guaranteed a 45% reimbursement from the state the first year on any revenue lost because of the new exemptions.

The board approved five contracts—for the supplying of bread, milk and gasoline; an institutional membership agreement with the Castro County Recreation Association; and a media services contract with the Region XVI Education Service Center.

The bread, milk and gasoline contracts were awarded to Rainbo Bread, Plains Milk and Floy Driver, respectively, on the basis of bids received. Other bidding included Meads Bread, Bell Milk, Jack Case and Dimmitt 66.

The membership agreement with the Recreation Association would grant permanent-member status to the district for a one-time fee of \$500. Students of the district would be permitted to participate in golf only, from 2:45 p.m. until dark Mondays through Fridays during the golf season. The golf pro would be allowed to meet with

the students to review the rules and regulations of the course. The school would have the right to exercise one vote on all business of the association. School employees would be entitled to individual membership by paying only the annual dues.

The board voted to renew the contract with the educational service center at an estimated cost of \$1,600 for the coming school year. The contract provides that the district will be supplied with various film and other educational aids through the center.

In other business, the board:

—Approved the renewal of the student insurance program through Insurational, with Gene Ivey as the local agent.

—Gave formal approval to the set bus routes.

—Appointed Gene King as the official school lunchroom representative, succeeding Johnny Mason in that capacity.

—Accepted resignations of elementary music teacher Ruby Moultrie, third grade teacher Anita Arellano, high school science teacher Shelley Burelsmith, middle school art teacher Joe Louis Ramirez, junior high girls' coach Gary Skelton and third grade teacher June Sutton.

—Hired Ken Cole as an assistant high school coach, Martha Kuehler as reading resource teacher for Richardson Elementary, Avie Lewis as the elementary music teacher, Jana Mussett to teach high school science, Brett Pruitt as a junior high boys' coach, and Yvonna VanStory as an English resource teacher in high school.

—Discussed adoption of an exemption/absentee policy. King and Supt. Robert Ryan were named to draw up various specific proposals to be considered at the next meeting.

—Heard a report from Evie Froehner on the district's self-study evaluation. Priorities pointed out in the program's five-year plan included the need for students' improvement in reading comprehension and written composition, and in mathematical concepts and application.

Members & Guests Welcome

EASTER LIONS CLUB officers for the coming year are installed by Nolan Grady (left) of Hereford, former deputy district governor, during an ice cream supper and family night

at the Easter Lions Community Building Monday night. Going into office, from left, are Bob Huckert, president; Earl Harkins, director; Roy Parten, director; Kenneth Fry, Lion tamer; James

Baker, tail twister; Gene King, second vice-president; Tommy Sparkman, first vice-president; Billy Joe Wall, treasurer; and Steve Olsen, secretary.

Street rebuilding has \$93,000 cost overrun

All the work on US 385 and SH 86 within the City of Dimmitt was completed on June 7 by Jake Diel Dirt and Paving of Hereford at a total cost of \$1,020,000, \$93,000 above the original \$927,000 bid on the construction.

Lloyd Lust of the Littlefield office of the Texas Department of Highways and Public Transportation, said the cost overrun may be due to some extra engineering cost.

Jake Diel and Paving Inc., contracted the work for 160 working days and completed it in 146 working days, Lust said.

Adverse weather conditions kept the job from being completed at an earlier date, as it greatly reduced the number of working days in the year. May 30, 1978, was the original date set for starting the project.

First maintenance should not be required for several years, Lust said. But that will depend on how the streets are traveled, he said, and what type of vehicle travels on them.

During construction of the in-town segment, 2.23 miles

of highway was torn out and rebuilt. Base material 5 1/2 inches in depth and 4 1/2 inches of asphalt and stabilized base was laid.

The department has completed the striping of these two highways, including the two-way left turn lanes to better handle the safe movement of local traffic.

During the weeks of construction, management of traffic in the city caused problems for the construction firm, the highway department and local officials, and delays caused by the weather added to those problems, drawing much criticism from businessmen and residents.

A reference to the matter was made in the statement from the Highway Department headquarters at Lubbock, which announced the completion date.

It said, "The State Department of Highways and Public Transportation wishes to express our appreciation for the cooperation of the City Council and the citizens of Dimmitt for the inconvenience they experienced during this construction."

Easter Lions install officers

New officers of the Easter Lions Club were installed Monday night at an ice cream supper for members and their families at the Easter Lions Community Center.

Leading the club during the coming year will be Bob Huckert, president; Tommy Sparkman, first vice-president; Gene King, second vice-president; Steve Olsen, secretary; Billy Joe Wall, treasurer; Kenneth Fry, Lion tamer; James Baker, tail twister; Earl Harkins and Roy Parten, directors; and James Dobbs, song leader.

Installing officer was Nolan Grady of Hereford, former deputy district governor. He commended the Easter Lions for building "an enviable tradition" among Lions clubs of District 2T-1, and noted that the club is growing in membership.

Grady also lauded the Easter Lions for their support of Girlstown (with \$1,000 in donations during the past year); the Hi-Plains Eye Bank, of which James Dobbs of Easter

has served as president; the Texas Lions Camp, which serves as a recreation center for crippled children and a training camp for blind people; and the Lions International Foundation, which provides disaster relief around the world.

Grady noted that there are now more than a million Lions members in 151 countries.

In addition to enjoying homemade ice cream and cake the Lions and their families were treated to a musical "Easter Tonight" show by a string group composed of Jerry Hodges, Eddie Gallagher and Billy Lytal. Also performing with the group as soloists were two youngsters, Woody Glass and Holly Hodges.

GI Forum organized

Organization of an American GI Forum chapter in Dimmitt was effected Saturday when members of the Mexican-American community here met with one of Texas' regional chairmen, Jose M. Alvarado of Fort Worth.

Honoring a Dimmitt soldier whose life was lost in the Viet Nam War, the local chapter chose the name, Emilio Nino Jr. Chapter.

Three groups will be formed from the Dimmitt chapter, for men, women and youth. They will be affiliated with more than 130 chapters now operative in Texas, also chapters in 32 other states and in England, Germany and Puerto Rico.

The American GI Forum is a patriotic national organization for veterans and families, it was emphasized at the meeting. It is predominantly Mexican-American but members of all nationalities are welcomed.

Motto of the Forum is "Education is our freedom, and freedom is everybody's business." Purpose of the Forum is to work with the community in education, community and civic participation, political representation, economic improvement and other areas.

Alvarado addressed the meeting, stressing the points of unity and education.

"Having achieved these two goals, anything is possible for betterment of the community," he said. He commented on the number of young residents at the meeting, saying "It is refreshing to see this response by youth who showed interest in education and civic affairs."

Carpenter-Walker marriage takes place in lawn setting

A lawn wedding at the home of the bride's parents at sunset Saturday was conducted for Becki Ann Carpenter and Lee Allan Walker of Lubbock. Ronnie Parker, Church of Christ minister, officiated.

The bride is the daughter of Don and Betty Carpenter, East Highway 86, and the groom's parents are Mr. and Mrs. Thomas V. DeWoody of Dallas and Dick Walker of Seattle.

A white cloth was laid on the grass bordered by white ribbons, to mark the bridal aisle in the yard. As a background for the wedding party, a brass arch was twined with ivy and sprays of babybreath. Candelabra on either side were based in green foliage.

Sisters of the bride were her attendants, Vicki Buckley as matron of honor, Sandra Hucks and Carla Carpenter as bridesmaids. Greg Wilcox was best man, Picker Shelton and Greg Houx the groomsmen. They are all Dallas residents.

Jennifer Hucks, the bride's small niece, was flower girl. Rings were carried by Dustan Buckley, a nephew of the bride, and Jake Brittain, nephew of the groom.

Donny Carpenter, the bride's brother, and Vic Brittain of Sulphur Springs, brother-in-law of the groom, lighted candles and with Mark McPhearson and Ikie Bailey of Dallas served as ushers.

Wedding music was by Sue Brittain of Sulphur Springs, the groom's sister, vocal soloist; Lori Dyer, flutist and Larry Sandusky of Lubbock, organist.

White silk organza made the bride's gown, its fitted bodice embossed with lace motifs matching the wedding ring collar. Organza ruffles at the shoulder line formed cap sleeves.

From an inverted-V waistline, the skirt was flared to floor length, finished with a wide flounce which was topped with a row of lace and lace flower appliques centered with tiny rosettes of pale yellow. Back fullness lengthened into a chapel train.

Her fingertip veil was held by a lace coil and edged with lace. The bridal bouquet was a cascade of yellow miniature rosebuds, daisies, babybreath, English ivy and lacy fern tied with yellow ribbons.

Bridesmaids' dresses of white textured voile were designed with blouson bodice and gathered skirt, accented with wide yellow sash that tied at center back in a bow streamers to the floor. The wide neckline had off-shoulder ruffles and narrow straps which tied over the shoulder. Yellow ribbon trimmed the neckline and hemline.

Halo wreaths of English ivy and babybreath were worn in their hair and they carried cascades of white daisies,

babybreath and ivy tendrils.

The wedding reception was held on the patio where blooming geraniums, Boston fern and Swedish ivy spilled from hanging baskets. More blooming plants were growing in pots on the patio.

Fresh flowers topped the five-tiered wedding cake, which was ornamented with hand-molded roses and daisies cascading down the sides. The red velvet cake on the groom's table was set beside floating flower arrangements in crystal globes.

Reception houseparty members were Dalia Gregory, Katie Wright, Murna Miller, Dorothy Nutt, Hazel Nelson, June Parker, Carolyn Wiseman, Marla Morgan, Virginia

Sheffy, Kanet Brittain and Kim Hays.

Leaving on a trip to Seattle, the bride wore a Kelly green sundress topped with a matching jacket and accented with wooden accessories. Her corsage was yellow roses.

After June 18 the couple will be at home at 4112 18th St. in Lubbock. Both are employed in that city.

Nine-year old Wade Drerup of Nazareth received severe injuries to his right leg shortly after noon Tuesday in a car-motorcycle collision on a county road 10 1/2 miles north-east of Dimmitt.

Drerup and his 11-year old brother Kim, who received minor injuries, were taken to St. Anthony's Hospital in Amarillo. Kim Drerup was operating the motorcycle, according to State Trooper Rick Bently.

The driver of the automobile was Patsy Huseman, also of Nazareth.

No citations were issued at the time of the accident.

Bently is still investigating the accident.

More about Grain prices

[Continued from Page 1] of the farmers are switching to soybeans rather than risk a late cotton crop. Better than average yields of wheat, much better than last year, are foreseen for the entire area, even on the dryland. Wheat acreage is up in the Hart vicinity this year, but at Nazareth the report was that more was planted, but more grazed out.

With approximately an inch of rain falling over the entire county Friday night, the 1979 total recorded at Radio Station KDHN, official reporting station for Dimmitt, tops 8 inches.

This is more than half of the 14.96 inches that fell in 1978, and almost half of the average total yearly fall of 17.55 inches compiled from 59 years of reports.

View from the Library

By BRICK AUTRY
Librarian

The other day Castro County patrons descended on the library and checked out over two hundred items. This writer could go into another tirade but he won't. After all the business this week, he's too tired.

Today the librarian will exercise his right to talk down to the public. After inspecting this new bookstore in Amarillo, this writer has to point out (at the risk of being a prude) that you, the reading public, enter a book store with some risk to your sensibilities if you search for sex education materials for childrens.

Recent interest about the subject caused a rather large stack of publications related to sex education for children. As with any market, the publishers experimented and brought out a surprising variety of books about sex for children. Early in the game, they broke away from the clinical style of presentation and used the religious and the "parental" style of revealing the subject.

aged by booming sales, they came up with other presentations which had more pictures and more "dynamic appeal". Dynamic appeal, as you know, is a useful selling tool and, in this case, caters not only to the sex education market, but also the dirty old men and the thrill seekers. As you've already guessed, the publishers have very cunningly been able to put out fast selling "soft porn" under the disguise of sex education.

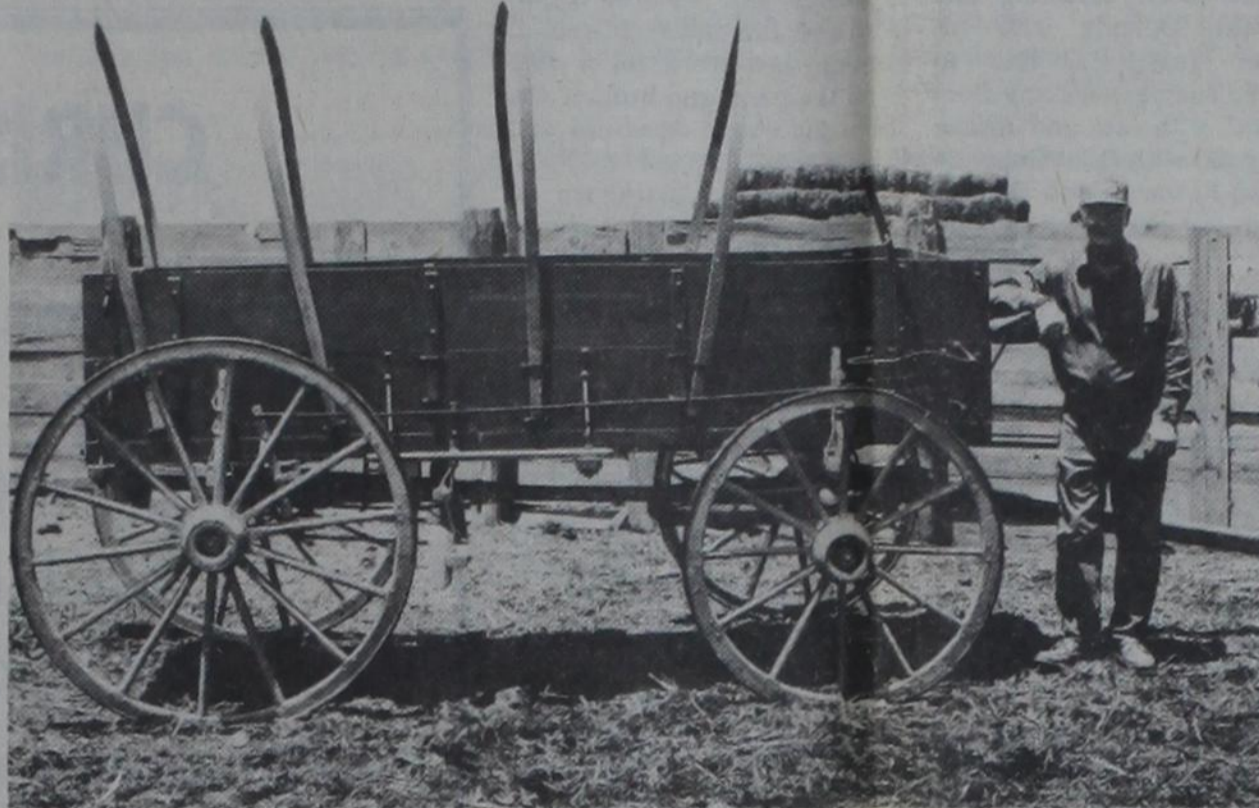

So when you enter the parent section of the bookstores now, you readers will be faced with two monstrosities like the books "The Sex Book", and "Show Me". Both of these really belong in bookstores that have underground movie theaters. However, should you mention it, there will be a chorus of "Censorship!" so say nothing, just don't buy them.

There is only one book that can be recommended by the library. It is "Where Did I Come From" by Peter Mayle. It is a very good book for children plus it does have all the pertinent information.

THE OLD... This wagon, pictured here with the first bale of cotton marketed in Hereford in 1911, once belonged to W. S. Dixon (right) of Sunnyside, father of Elmer Dixon of Dimmitt. Restoration of the wagon began in September.

... AND THE NEW. Lon Woodburn stands with his restored "Racine" wagon. The wagon will be finished soon and will be housed in the Castro County Museum.

Wagon restoration nears completion

Lon Woodburn is almost finished, and an old wagon once used to haul cotton has a new lease on life.

The wagon restoration project began in September when Woodburn, Jim Elder, Bryce Dowell and H. C. Nelson bought the wagon from Elmer Dixon. The wagon, a "Rac-

ine" model built in Racine, Wis., was originally owned by Dixon's father, W. S. Dixon. Dixon's father, W. S. Dixon. Starting from scratch, a crew composed by Woodburn, his wife, Mary, Morgan Dennis and Joey Raper began stripping the wagon's original hardware, weather-worn wood and well-traveled wheels.

Together, they rebuilt the wagon bed and replaced the two axles. The original hardware was again put to work.

They painted the wagon bright colors—a green body, yellow wheels and a red "Racine" on the side—just as it had once been painted. The finishing touch, still in

the making, is a tarp which will cover the bows of the wagon. As soon as it and the new museum building are completed, the wagon will make its final trip—to the Castro County Museum.

Cheryl Hartman tries for spot on AAU team

Cheryl Hartman, former Nazareth all-stater who has been on the University of Texas girls' basketball squad this year, was due to leave Austin Wednesday for Memphis, Tenn., to try out for a Junior AAU regional team.

If she makes one of the four regional teams in the nation, she will compete in the July sports festival at the US Olympic Training Center at Colorado Springs. From those four teams, 12 girls will be selected for an AAU junior team to travel and play through the summer.

Miss Hartman, an all-state forward for the Nazareth Swiftettes in 1977 and 1978 when the Castro County girls won successive state championships, chose UT at Austin after graduation from NHS last year and has seen a lot of action on the university team although she had not been a starter.

Coach Jody Conrath said that Miss Hartman is a very important part of plans for the future of girls' basketball at UT. The Nazareth girl averaged six points and four rebounds per game at the post forward position in games she played the past year.

"She made a real contribution to the team," coach Conrath said. "She's an extremely hard worker, one of the 110 percenters and one of those good people you can depend on."

The coach commented that Miss Hartman adapted well to college basketball after coming from a small high school, and made an excellent average scholastically, 3.4 grade points, as well as performing well in athletics.

Although she was changing from six-girl to a five-girl team in college and from high school star to college reserve player as a freshman, Miss Hartman says she did not have a hard time adjusting, and that she liked the changes.

"When I was a high school freshman I was nothing, and here I'm at the bottom again. So I can't go anywhere but

up. This is really a challenge for me, and next year I hope to start."

For the future she plans to coach basketball, for a few years in a high school, then return to college for a master's degree and a possible coaching job in a college.

This summer Miss Hartman is taking English and government classes at Austin Community College while she is employed at a radio station in the capital city.

Sheffy's Chatter

By MYRTLE SHEFFY

Betty Cartwright is home from a good trip over Texas with her brother Bob and Margaret Miller of Amarillo, a sister Ruth Miller and nephew, and Bob's daughter Debbie. They went by van, first to San Antonio for the Millers' son's graduation. He is Dr. Mike Miller MD, who finished his studies at the UT Health Science Center. There they went to the Sunken Gardens, the Zoo, and up in the Tower for a good dinner. It was fun touring Joskes, the biggest store in Texas. They went ancestor hunting in Palo Pinto, Marysville and Dallas. The family names were Weavers, Vaughns and Millers. Then a stop in Austin so Betty could see the Capitol and other sights and she says the floods came and came, all across the place, then on to San Marcos to see Marineland and ride in the glass bottom boats. Then north to Fort Worth with a stop at Six Flags but she was afraid to ride on the rides there. Betty says she has now seen much in Texas.

Don and Dorothy Stone had a trip to Winters to visit her grandmother Eva Jackson and aunt Jessie Hill. They all went to Abilene for dinner and to have a look at the town. Mrs. Stone says the country is beautiful and green. Has had much rain. She works now at a livestock supply and he is with the highway department. They live on Stinson Street.

Aural Davis has had as company the past two weeks her daughter Janis and George Thibeault from Chicago. They visited daughter and sister, Susie in Amarillo one evening and they went to the dinner theater to see the play "My Daughter is rated X." Aural says it is a nice show and very funny. Another day they took George to see the Palo Duro Canyon. He was much impressed. And one evening all were guests of James and Mildred Bradford at the Hereford Country Club for music and eating. Jack and Susie Bradford were there and they did visit many

school day friends of Janis'. We (the town ladies) went to Brenda Andrew's house to be with the party and shower for Kyle Collins who will be married soon to Glen Black of Hart. I saw at least 15 young and beautiful girls that grew up while I wasn't looking. I met Mrs. Jim Black, Jim's mom, and Hattie Webb was at the party looking good following her recent illness. I met Robbie and Jeanette Collins, Kyle's cousins. They were serving that good punch. Out of town guests were Jo Elyn Ziegler of Borger, Jeri Ziegler of Canyon, Lorraine Harrison of Floydada and Darrene Collins of Lazbuddie. You can read about the party on the society page.

Major Chuck Braafadt is spending his two weeks at the reserve camp at Fort Lee, Va. He always says, helping make the United States safe for democracy. While he is away Pat's twin sister Portia Malone is here from Dallas. The girls went to Amarillo one day to see their parents, the Pryors, and made little trips here and there.

Quintin Swinson of Arlington is here for several days visiting his sister Reba and Jay Lee Touchstone. She plans a few jobs around the yard for him to do and another day Reba and Esta Vandiver visited a while with Virginia Gilbreath. Reba says she swiped Esta's new shoes, but the heck of it is she had to give them back and Esta left here one day for Muskogee, Okla. for a visit with her mother.

Nell Ingram went to Kress Friday to attend the shower for her nephew Roger Morris and his bride-to-be, Elizabeth McGraw. Roger is the the Muleshoe school system. And Nell was helping with Kyle's shower. Janet Black from Hart was at that party Saturday also.

Buddy Payne is the new intern or assistant pastor at the Methodist Church. Buddy tells me he was born and reared at Levelland. Attended schools there, including South Plains College, on to Texas Tech and now at McMurry where he has his BA. He enjoys golf, running and basketball. Do get acquainted with Mr. Payne.

Frank and Shirley Wise, Kyle and Linda and Shirley's mother Ruth Coleman spent a few days at LBJ Lake. Guess Frank can take off a few days from farming since we are having the good rains.

All members of the Senior Citizens wish to thank the businessmen and ladies who helped make the Queens Contest and auction such a big success. It was a fun thing for we candidates to dress up and do our act, much laughing. Hail to the queen Edith Graef.

Mrs. Fred Bruegel Jr. and her mother Mrs. E. F. Biggs and daughter Mrs. Joanne Davidson from Ozona and her daughter went to Pensacola, Fla. to attend the wedding of Mrs. Biggs' grandson Bill Biggs to a beautiful girl.

Teresa Bruegel graduated from North Texas State at Denton. Her major was

speech pathology. This summer she will work parttime at Bruegel's Gin and later at Dimco. She will go back to Denton in the fall to get her masters.

W. J. and Sara Hill took Scott and Barry to Houston this past weekend. They went to NASA and saw the rocket that took the men to the moon among the other interesting things. Went to Galveston Beach, Astroworld and the First Baptist Church in Houston. It was so crowded at church they had to sit on the stairs in the aisle.

Mrs. Grace Mosely and her son John Lee and Grace's fiance Carvas Ray were here from Baytown to visit friends Mr. and Mrs. Ed Manning. They went to Clarendon to see where the Mannings will live. Next week the Mannings are going to their place near Mora, N.M. Their sons and their families will join them there.

Eugene and Carol Vaughn were here last week from Fort Collins, Colo., for a visit with his parents Lloyd and Dorothy Vaughn and brother Danny and Sharla at Earth and brother Kent from here. Seems they also read our Castro County News.

Virginia Sheffy was the birthday girl Wednesday so to celebrate her mother Dorothy and dad Ted baked her a cake and made dinner.

Everett and Mildred Howard of Electra came by to visit friends P. P. and Madge Robb. The Howards had been to Albuquerque. Mildred and

Madge were in college together at Panhandle State. Don and Gladiola Shipley went to Clovis one day last week to attend the wedding of his nephew Johnny Guy Morgan and Lena Watson. They visit friends and relatives in Clovis once in a while.

Mrs. Lee Ward is home from a two week visit with her daughter Diane and Jim Grusing and son Heath who live in Granite Falls, Minn. The other daughter, Tammy came home with Mrs. Ward. She has been in college at Brookings, S.D.

I saw Bobby Ebeling and his wife Delinda with his mother Jessie Ebeling at TG&Y. They are visiting from Lubbock with Jack and Jessie. Bobby is with the Dept. of Human Research and Delinda is a lawyer practicing in Lubbock.

Jim and Kathy Naylor are the bragging grandparents of a new grandbaby. The name is Lindsey Michelle and her parents are Joe Emory and DeAnn Naylor and they live in Abilene. Kathy has been there for a few days helping out.

Tommy Cleavinger will be in Dallas for a short course in John Deere tractor and implement work.

Newcomers in town are Danny and Shirley Roberts and children who moved here recently from Liberal, Kan. Danny works with a cement company and she is with a convenience store and they attend church with the First

Baptist folks. Donna Sims, a pretty girl I met at the grocery store lives in Hereford and is visiting friends Henrietta and J. R. Nazworth. She says she went to school in Hereford and had Connie and Robbie Sheffy for teachers. Tommie Sue Petty took the grand kids Scott and Amie to Amarillo where they will take the plane to their home in Arlington. She spent the night with daughter Jeanine and Robert White.

Jettie Sheffy and her daughter Onita Gregg of Brownwood went to San Antonio on business.

James and Mildred Bradford and Jim and Jean went to Orange last week for a visit with their son and brother Dr. Bob and Paula Bradford and Jamie.

Dr. Dennis Blackburn of Junction in the Hill Country has been in Dimmitt helping Dr. Lee out at the clinic.

high, Dorothy Elder. After that party was over, they and Reba Touchstone and Virginia Gilbreath, came to Myrtle's for cake and lemonade to help Ceal Carlile celebrate her birthday. Ruth Jackson baked that good Italian cream cake for Ceal.

Ted and Dorothy Sheffy were hosts at their dinner bridge Friday evening. Aural told me each person brought a food dish, hot rolls, beef and gravy, ice cream, everything good. Avis Smith made candy. Others were the Goldman Dyers, the Kenneth Jacksons, Russel Morans, Harold Ste-

phens, Houston Lusts, Aural Davis, Charles Vandivers and the Ralph Smiths.

They went by Sayre, Okla. and picked up Joy's parents Mr. and Mrs. Jack Lamm who accompanied them. Coming home Sunday they stopped in Oklahoma City and picked up Joy's sister Donna Aven, who had flown in from New York. The Barkers report the wheat looks good in Oklahoma and Kansas. They have had much

rain. Jeannie Reitzer went by jet to Houston where her daughter (continued on Page 7B)

"HI DADDY"

"Hi Daddy! When are you coming home?" How happy it would make our Heavenly Father if we responded to His voice in the same joyous manner that this little child has responded to his Daddy's voice. Enthusiasm for God's Way would turn a greater number of people toward God and His love. "I was glad when they said unto me, Let us go into the house of the Lord" (Psalms 122:1) would be a joyous response to God's command, "Forsake not the assembling of yourselves together." (Hebrews 10:25)

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

small talk
from South Hills Manor

By BERAL HANCE

The residents at South Hills Manor are happy to see the sunshine again. Several take walks in the afternoon but we've had a great deal of rainy weather and they stayed inside.

Saturday was a big day for Mrs. Hattie Webb. Her great granddaughter, Kylene Collins was given a bridal shower in the home of Brenda Andrews and Mrs. Webb attended. She enjoyed seeing all the lovely gifts Kylene and her fiancé, Glen Black received. Other grandmothers at the party were Mrs. Joe Collins, Mrs. Thomason from Floydada, Polly Manning.

Friday morning the 4th grade group came out from First Baptist Church and visited each resident. They were impressed to get to visit a lady who is 100 years old, Mrs. Harriett Osborn.

Moke, Steve Gonzales, Ricky Henderson, Janie Reeves, Rona Lewis, Tammy Rowland, Donna Hart, Jacquyn Thompson, Charlynn Hunter and Carla Collins. Teachers of the Vacation Bible School group were Dorothy Hopson, Cindy McDaniel, Jeanette Malone, Jean Petty and Doris Petty.

ter Lois Millsted met her and then on to Galveston. The highlight of the trip was the graduation of grandson Roy Lee Larsing from the Santa Fe School. Roy Lee is a cerebral palsy fellow in a wheelchair. He can talk but can't walk but he did his work in three years and received a standing ovation with the band playing. Mrs. Reitzer has a place at Hondo but she is with Nettie Graham and also helps the George Bradfords.

Camille Kemp and friend Andrew Williams came up from Fort Worth to visit grandmother Nettie Graham and her brother Andy.

This I heard—Tammie Stanford, Jackie Washington and Belinda Black went to Oklahoma City a while back to sing in a concert. Then from this, they received an invitation to sing or perform at the Universal Academy of Music in New Jersey. The invite was from the president of the university. But the parents want them to have more training from Doug Henry and be two years older before accepting. That is quite an honor for these girls.

I hear that Truman Touchstone took his three sons, Kyle, Tod and Tobin to Ruidoso for a vacation. Guess he took advantage of the wet weather from farming.

Velma Birchfield went to Borger for a few days visit with son "Red" Leon and Margaret. They were neighbors long ago at Flagg.

Sue Kemp and sons Bert and Duke have been to Webbers Falls, Okla., to visit her grandmother Lucy Cox. Carl Lee stays busy at the feed lots.

Several Senior Citizens have free tickets to the Rodeo for Thursday night. Let's all go. We'll watch the Dimmitt cowboys do their stuff and see the rodeo queen. Much activity out on the southeast side of Dimmitt at the Rodeo Arena.

Brad and Juanita Fulfer are fishing at Texhoma. They have a vacation house near

the lake. Noel and Oleta Gollehon are at Texhoma too for a few days vacation and fishing. We haven't heard if they are catching any.

4-H team places at state

Laurie Sides and Wendy Bruegel won third place at the 1979 Texas 4-H Roundup June 6. Laurie and Wendy competed with 21 entries from across the state with their Family Life demonstration on the Misuse of Drugs.

The demonstration stressed the birth defects and side effects caused by the misuse of drugs. It was brought out in their talk that stimulants speed up the central nervous system which include amphetamines (diet pills) and cocaine. Depressants relax the central nervous system which include barbiturates, tranquilizers, tobacco and alcohol.

Laurie and Wendy found through their study that alcohol is the No. 1 drug problem today. Teenage drunkenness had doubled in the last 12 years and drinking during

pregnancy may cause severe birth defects and mental retardation. Cirrhosis of the liver is the final cause of death in many alcoholics.

Other drugs are hallucinogens which change perception. These include hashish, marijuana, (90% of all narcotic addicts started with marijuana). L.S.D. causes flashbacks, broken chromosomes, and mental retardation. Delirients include glue and volatile solvents (paint thinner, paint, etc.). Narcotics derived from opium will kill severe pain. Heroin is the most dangerous of all habit forming drugs. Death from heroin overdose is the most far reaching side

effect of any drug misuse.

Common household drugs and medicines include aspirin which the No. 1 cause of childhood poisoning. Vitamins, laxatives and baking soda are drugs that should be used with care.

Antibiotics if not used carefully, may damage the unborn child. It is estimated that 25 million babies each year in the US alone are born with birth defects, some inherited and some from direct result of drug misuse by parents and sometimes grandparents. Laurie and Wendy have concluded that drugs do not replace proper nutrition essential from human life.

School vandalism results in damage

Dimmitt High School was vandalized sometime before 3:20 a.m. Thursday. Officers reported finding a window broken on the south side of the building near the band hall. Entry was not gained, however.

Police were called to Dimmitt Middle School Sunday on a report of criminal mischief, Police Chief Alan Newman said.

Robert Ryan, school superintendent, called police to the school after he found that windows had been broken and articles destroyed and scattered about the school.

Entry at the Middle School was reportedly gained through an opening between an air conditioner and window, police said. Whoever broke into the school had to

be small in size, they added.

The suspects were apparently barefoot and had wet feet by the tracks that were left inside the school and one of the suspects was wearing tennis shoes. It is possible the suspects had been swimming before entering the school, police said.

A teacher's locker had been broken into and its contents were thrown about the hall. Several metric measuring sticks had also been destroyed.

In the home education class the contents of several storage lockers had been thrown about the room, police said. The refrigerator was opened and contents were found on the patio outside of the school.

An air conditioner had been tampered with and obscenities were written on a blackboard inside the school.

Windows were broken out of the principal's office with rocks and bricks. Police were still investigating the incident this week.

C. A. Hance of Hance Gulf Service reported that Saturday two concrete blocks had been thrown through the window of the service station. Total damage was estimated at \$50. Two boys around 11 and 12 years of age were seen running from the scene, police said.

Spinning in the mud

ANNETTE MITCHELL of Ruidoso, N. M., seems undaunted as her horse fights to keep its footing in the deep arena mud during Sunday's matinee performance of the Nazareth Country Rodeo & Wild West Show. The New Mexico cowgirl turned in a time of 28.9 seconds in the barrel race.

Rains again wash out night of Kid Baseball

It was more of the same story in Dimmitt Kids Baseball June 5, with washouts for two Minor League games. But Friday games were played by minors and the Little Leaguers got through their whole week's schedule.

Rain stopped the Yankees-Dodgers and Astros-Cards contest in the Minors. The Astros got into the win column Friday, the first time this season when they tallied four runs in the first inning and held the Rangers scoreless until the last of the four-inning game.

Standings in the Minors include: Cards 3-2, Braves and Rangers 2-2 each and Astros 1-4.

In Little League games Thursday, the Cards blanked the Astros, holding a 3-0 edge after three innings and exploding in the fourth with 10 runs for a final 13-0 score.

The Yankees had a big fling in the final inning of their 17-6 win over the Tigers, hitting for 15 to erase a 6-2 lead by the Tigers. In the only game to go full six innings, the Braves beat the Dodgers 8-5.

Earlier in the week the Yanks edged past the Astros 13-12 in a last-inning surge, the Dodgers downed the hapless Tigers 12-2 and the Braves failed to catch the Cards with a three run sixth inning, and lost 9-6.

Little League standings: Cards 6-1, Astros and Braves each 4-2, Yankees 3-3, Dodgers 2-5 and Tigers 0-6.

ACS action is reported to Kiwanis

Progress of the annual American Cancer Society Crusade in this county was reported by Paul Weaver, chairman, guest speaker to the Dimmitt Kiwanis Club Monday, and Gwen Bryant, who showed educational materials used in schools and public programs here.

Weaver said time for the crusade extends through the summer, but the campaign here is being wrapped up with indications that total contributions will exceed the former high figure of \$8,630.

Mrs. Bryant displayed kits for study units in kindergarten to high school grades, posters, films, story books for children and leaflets in both English and Spanish which the Castro County ASC Chapter provides to educate all age levels about the danger of cancer, probable causes, importance of early detection and treatment.

She is county chairman of public education in the chapter.

Business of the club concerned the annual July Fourth fireworks sale and construction of a sales shed on a trailer. Carl Bruegel and Joe Nelson are in charge of this project.

Guests included Brad Murdock of the Key Club, member-on-leave Bob Crozier, and children of members, Karen and Doug Nelson and Kerry Lewis.

THE 1970 United States census shows five towns with a population of zero.
