She Never Had a Father

No ordinary carrot-muncher is this rabbit, for it is the first mammal to be created by synthetic, fatherless birth. This miracle hare was bred by fertilizing an egg in a female with simple salt solution, then transplanting it to another doe which acted as a live "incubator." Seven months old, the synthetic rabbit has mated normally and produced a litter.

Intensified Nazi Sea War Is Seen

BERLIN, Nov. 6 (AP)—Intensification of sea warfare appeared Sunday the most likely German reaction to lifting of the United States arms embargo.

"American arms have been made available to our enemies but these materials will have to get past our raiders," was a comment made frequently by informed persons.

It was intimated also that in view of the loss of the United States freighter City of Flint, released from her German prize crew by Norway, sea-borne contraband would be dealt with more sternly by Germany.

Some sources pointed out that if the City of Flint had been sunk there would be no chance now of her cargo reaching England.

In the first authoritative reaction to the lifting of the arms embargo by the United States, Deutsche Diplomatisch-Politische Korrespondenz, foreign office mouthpiece, said the action had placed a "serious responsibility" upon President Roosevelt.

Korrespondenz built up arguments on extensive quotations from speeches in 1935 and 1936 by President Roosevelt and Secretary of State Hull in an effort to show both took "positive" stands that belligerents would not be permitted to acquire arms in the United States.

"Actually it took months before the government could push through a change in the neutrality law," Korrespondenz stated. "Even now the vetting relationship in the final decision of the house of representatives shows to what degree scruples against lifting the arms embargo remain up to the last moment. Notwith-

O. C. Holcomb Hurt in Fall From Horse

Thrown from his horse at his farm yesterday afternoon, O. C. Holcomb of this city suffered injuries whose extent was not fully determined, but which were said not to be serious. He was under treatment at Graham sanitarium.

LUTHERANS TO MEET HERE IN 3-DAY SESION

Pastors of North Texas Circuit to Open Meeting Tuesday

Some 20 pastors of Lutheran churches in the North Texas circuit of the Texas district will gather in Cisco tomorrow for a pastor's conference involving three days of services and discussions. The Grace Lutheran church, of which the Rev. E. H. Riese is pastor, will be host to the conference.

The first session will begin at 9 o'clock Tuesday morning. Discussions will be led by the Rev. H. L. Wiederaenders of Abilene, the Rev. V. L. Behnken of Fort Worth and the Rev. J. T. Birnbaum of Vernon.

Discussions on official matters of the Lutheran church in the Texas district will be led by the president, the Rev. C. M. Beyer of Wichita Falls. The Rev. Paul Kaiser of Iowa Park is secretary of the conference.

The conference service will be held on Wednesday night at 7:30 at Grace Lutheran church. The Rev. H. F. Pieman, a former pastor of the Cisco congregation and now of Vernon, and the Rev. V. L. Behnken of Fort Worth, will preach at this service.

Welfare Ass'n to Begin Drive for Winter Funds

The Cisco Charity and Welfare association executive board met at 9:30 this morning with 21 members present. The meeting was opened with prayer by the Rev. Clark W. Lambert, pastor of the First Christian church.

Plans for the drive to secure funds for the association's work this winter were presented by the president, Asa Skiles. The campaign will begin this week.

Interest in the association was gratifying, Mr. Skiles said. "As individuals, business firms, civic organizations and so forth, please be think of what you can do to help this cause and be ready when the committee calls upon you for your gift," he said.

"Your heartiest cooperation in this matter will be greatly appreciated by the officials and members of the board."

Mrs. Philip Pettit is executive secretary.

Dairyman Buys Blue Ribbon Bull

M. A. Cliett, located three miles northwest of Eastland, has recently purchased a blue ribbon bull, Victor Sybil's Dreamer No. 380-339. This bull, purchased from F. E. Walker of the Alameda community, has an enviable show record, not only in county and district fairs, but also in the State Fair of Texas, where he placed second in his class.

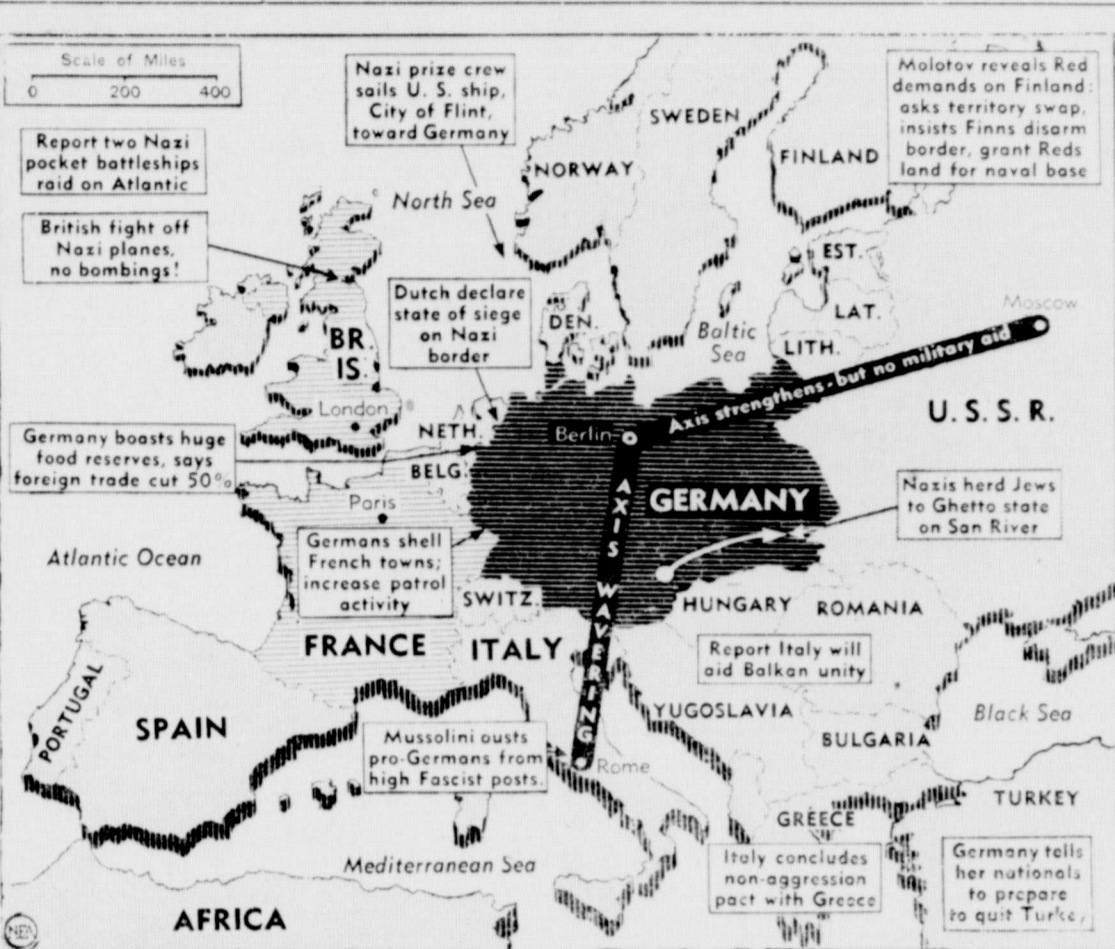

Trained and developed into a show animal by a 4H member, Victor Sybil's Dreamer gives promise of being an outstanding sire. A son and a daughter of Victor Sybil's Dreamer gained high recognition at the Dallas State Fair in 1939.

Mr. Cliett plans to use Victor Sybil's Dreamer not only for improving his herd but also for community service.

Russian Bear Dominates Ninth Week of War

Activity of neutrals highlighted the ninth week of war in Europe as belligerents in the west reported the usual battles on land and sea and in the air. Finland's alarm at soviet demands and U. S. anxiety for the crew of the City of Flint focused attention on Russia's past and future moves.

Sentiment to Cut Normal Gov't Costs Developing

IMPROVEMENT IN CONDITION OF CHAPMAN

Coach Weldon Chapman, coach of the Lubbock Westerners and the man who made the name of the Cisco Lobos respected throughout the state in the 1920's was holding his own against a virulent attack of pneumonia in a Lubbock hospital last night, relatives and friends here were informed.

Mr. Chapman, son-in-law of Mr. and Mrs. Philip Pettit, had suffered with a throat ailment for several years. Thursday he became ill with his throat and was put to bed. Saturday evening pneumonia developed and Sunday morning his condition was grave. Sunday night, however, he rallied and was holding his own. There was no message to Cisco this morning and it was presumed that his condition continued favorable.

Mrs. Pettit and Mr. and Mrs. Edward Lee left hurriedly for Lubbock yesterday afternoon.

Baptist Deacons to Meet Tonight

The monthly deacon and finance committee meeting of the First Baptist church, regularly scheduled for last week, has been called for this evening at 7:30 in the pastor's study, it was announced today.

All members are urged to attend.

Otis Lomax to Study for Naval Aviator

Otis Lomax, who has been in the naval training school at San Diego, California, for the past two months, will leave for Birmingham, Wash., on the USS Lexington to study aircraft, relatives here were informed. The Lexington is an aircraft carrier. Otis hopes to become a naval aviator. He wrote that he gets "mighty blue" sometimes to see Cisco again and enjoys all the news he can get.

Defense Needs of Country Make Heavy Demand

WASHINGTON, Nov. 6 (AP)—Sentiment for sharp cutting of other government spending to make way for expected increases in defense appropriations at the regular session of congress appeared Sunday to be gaining headway in congressional circles.

Senator James F. Byrnes (Dem.) of South Carolina, one of the administration's legislative strategists, said he thought that there would be a popular demand for a reduction in all expenditures except those for defense.

"I think we are going to find that the people at home are willing to spend all that is needed for national defense, but that they are going to want to cut down on some of the other government spending," Byrnes said.

Defense appropriations for this year totaled \$1,783,187,847 (billion) and a deficiency appropriation will probably be required, because of increases in the army and navy authorized by President Roosevelt under his declaration of a limited national emergency.

Informed legislators expect considerably more than two billion dollars will be needed for defense in the next fiscal year, beginning July 1. Some increase will be necessary to continue the naval expansion program already authorized.

In addition to increases already in sight, Chairman Carl Vinson of the house naval committee disclosed Saturday that congress would be asked in January to authorize a further \$1,300,000,000 (billion) expansion of the navy.

EDUCATION CLASS MEETS

The Parent Education class of the Cisco Nursery school will hold its regular monthly meeting at the school Thursday, November 9, at 1:30 o'clock. The public is cordially invited to attend.

Weather

WEST TEXAS: Fair Monday and Tuesday, not much change in temperature.

EAST TEXAS: Fair Monday and Tuesday, slightly warmer on the upper coast Monday.

O'DANIEL SAYS SOLONS MUST AGREE AHEAD

AUSTIN, Nov. 6 (AP)—Governor O'Daniel announced Sunday Texas legislators must agree in advance on a tax plan for financing the state's social security program before he would call them into special session.

O'Daniel's broadcast had aroused great interest in Texas because he had expected to give a "yes" and "no" answer to requests of various lawmakers and organizations to call such a session.

The governor challenged members of both houses to place on his desk a bill supported by a majority and said he would immediately convene a session to enact such a measure into law.

"I think the time is here," he said, "for some of those who have been talking so loud about how easily it would be to get this money, if they were given an opportunity, to prove their sincerity by their actions."

Petit Jurors For 91st District Court

EASTLAND, Nov. 6 (SpC)—Following is a list of petit jurors summoned to report Monday morning for service in 91st district court:

J. V. Heyser, Cisco; Jack Anderson, Cisco; James H. King, Ranger; J. E. Gray, Carbon; H. C. Gracey, Rising Star; O. B. Denny, Ranger; Rufus Been, Carbon; Mac Hyatt, Gorman; E. L. Sims, Carbon; J. H. Agnew, Rising Star; Henry Stubblefield, Cisco; L. E. Coats, Pioneer; W. L. Curtis, Nimrod; E. F. Virdin, Gorman; J. N. Jordan, Gorman; O. T. Hazard, Eastland; O. T. Shell, Gorman; C. W. Geue, Eastland; Roy Gallagher, Cisco; L. D. Standifer, Jr., Nimrod; R. L. Williams, Gorman.

H. A. Perry, Eastland; Fred T. Grist, Cisco; J. F. Collins, Eastland; Leon McPherson, Cisco; B. E. Garner, Ranger; E. W. Gailey, Strawn; Glen Kirk, Gorman; A. N. Townsend, Nimrod; C. L. Hord, Rising Star; Reece Ailday, Gorman; W. T. McFall, Carbon; Dix-

(Continued on Page Four)

OFFICIALS GO TO DALLAS FOR CONFERENCES

Possibility of Move for Compromise Is Suggested

Whether or not trial of the suit of the Security Benefit association against the city of Cisco in which judgment on approximately \$12,000 of past due interest on city bonds is sought, together with a court determination of what the city should pay on its bonded debt annually, comes up in federal court at Abilene tomorrow depends upon the outcome of conferences in Dallas today.

So said Mayor J. T. Berry when he and City Atty R. E. Grantham left this morning for Dallas where they will interview representatives of the association.

The city attorney intimated that a compromise solution of the debt problem is being talked with some prospect of progress in this direction, although the matter is "just in the dream stage." He did not say what the city would seek in court in the event the bondholders group declines to postpone trial. Nor could it be determined, he said, whether or not the case would come up for trial at this time.

Past Month Is Good One for Nursery School

By MRS. O. C. LOMAX, Supt.

The past month has been a profitable one for the Cisco Nursery school, both from the standpoint of awakened public interest and also public support. A goodly number of persons have visited the school.

The school has 54 children between the ages of two and five enrolled now. During the month of October, the school had a daily average of 44 children in attendance.

The Cisco school is still striving to be the best nursery school in the state, and with the help of the citizens and churches of Cisco, we can do this.

The school and sponsors' board thank each and every citizen, church circle, Sunday school classes and business firms who have adopted the children to finance the school.

Dr. Lee Clark came out to visit our school Thursday. He was well pleased with the routine of the school.

Mrs. Geraldine A. Hines of Fort Worth, senior supervisor of nursery schools, visited the school last week.

All workers and the manager were given the opportunity to visit the Eastland nursery school on Friday, Oct. 20th. This was indeed a helpful visit. Eastland is really interested in their nursery school. The mayor of the town personally paid the grocery bill three months to keep it from closing until funds could be raised.

Anyone who can give any donation, dishes, kitchen utensils, old congoleme rugs, warm clothing for the children this winter, will be appreciated.

This is really Cisco's home mission. No one else will help us. Citizens, please come out and visit the school and see just how the children are being cared for in the nursery school.

BIBLE THOUGHT FOR TODAY

We have done unto thee nothing but good, and have sent thee away in peace: thou art now the blessed of the Lord.—Gen. xxvii. 29.

We bless Thee for Thy peace, O God,
Deep as the soundless sea,
Which falls like sunshine on the road
Of those who trust in Thee.

We ask not, Father, for repose
Which comes from outward rest,
If we may have through all life's woes
Thy peace within our breast.

Writing the Platforms for 1940

DEMOCRATS and republicans alike should be grateful for the G. O. P. presidential nomination, for the clear-cut program he offers his party as 1940 objectives, even though it is negative and not constructive in its approach.

Briefly, here is what Taft wants the republican party to back:

1. Reduction of government costs and balancing of the national budget.
2. Repeal of the payroll tax.
3. Repeal of the capital gains tax as a means of increasing employment.
4. Amendment of the wages and hours law to make it simply a minimum wage law.
5. Amendment of the National Labor

My Trip to The San Francisco World's Fair

By JACK WALKER

We left Dallas on Sunday, October 13, at 10 o'clock and drove to Amarillo, Texas, that night. We left Amarillo the next morning about 7 o'clock and drove to Holbrook, Arizona, where we spent the night. The next day we left Holbrook about 6 o'clock and drove to the Painted Desert, Petrified Forest and the Grand Canyon, where we spent about three hours looking at the beautiful sights, which were wonderful.

In the afternoon we drove to Kingman, Arizona, and spent the night there. The next day we drove to Boulder City, Nev., at which place we saw the Boulder dam, the largest power plant in the world. We paid 40 cents each and went down to the bottom of the dam, which was 374 feet below the top of the ground. After we reached the bottom, they carried us around and showed us the working devices of the power. We crossed from Nevada over into Arizona and never did see the sun light or cross over the river. We went under the river through tunnels. This was the Colorado. The generators with which they make power are 20 feet in diameter. There are six of these generators in Nevada, and they are putting in six more in Arizona. Half of the power plant is in Nevada and the other half is in Arizona. It takes two years to set one of these generators. They lack five generators on the Arizona side having them all set. From the dam they are selling around fifty million dollars worth of electricity each twenty-four hours, and it is costing them about \$45,000,000 to operate per day (24 hours). They have been building about 15 years on this dam and

relations act, which the senator contends is being administered one-sidedly.

6. Abandonment of attempts to fix prices in basic industries.
7. Repeal of the Guffey Coal Act.

If democrats are willing to fight the campaign on the basis of these seven simple points, the ground is laid for the 1940 battle. In other words, does the New Deal program stand or fall?

Here are issues everyone can understand. They are stated simply, and they concern vital affairs at home. Whether or not you agree with the views of the senator from Ohio, the issues he outlines touch every citizen.

It will be a good idea for American citizens to remember that this country is a long way from solution of some of its most harassing problems, most of them centering around unemployment. The war will very likely be injected into the campaign many times before the votes are counted in November, 1940. But the war is not an issue. It should not be an influence in next year's vote, for the majority of both parties agree that the United States should stay out of it.

WHILE it would be nice to believe that the 1940 campaign will be carried on around a program as simple as that proposed by Senator Taft, the final platforms adopted by both parties will probably be nowhere nearly so concise. Unimportant issues are likely to assume great proportions, and the real disputes may be buried under a deluge of words.

Unfortunately, that's the way platforms are usually written. And the voters, for whom they are intended, will have to guess at what they mean, or vote by instinct, on personalities.

A London firm which, formerly manufactured ladies' silk undergarments, is now making sandbags. Lace-edged burlap sacks would give the war that genteel touch.

It has been noticed that many bandits recently have shown more courtesy toward their victims. The result of sound home training.

Masks similar to those used by European civilians may soon be used in this country by highway victims. Americans have got to keep up with the Joneses.

An electrician lost \$25 on a roulette wheel after he was paid \$25 for wiring the wheel. Like any true craftsman, he wanted to test his handiwork under actual conditions.

Construction in Texas Flourishes

AUSTIN, Nov. 6.—Construction in Texas has flourished during 1939, with building permits for the first nine months of the year in 39 cities totaling \$64,410,276, a gain of 10.5 per cent over the like period last year, University of Texas business research officials have announced.

Permits granted during September totaled \$6,970,789, 12.4 per cent higher than in September a year ago and 7.5 per cent over August, 1939.

P.S.

Pecan Course To Be Offered At A&M College

COLLEGE STATION, Nov. 5.—An educational course in a nutshell will be offered Texas pecan growers at their meeting at Texas A. & M. college November 7 and 8.

This is the promise of P. K. Delaney, Seguin, president of the association.

Such outstanding pecan specialists as Dr. C. L. Smith of the U. S. department of agriculture's pecan laboratory at Brownwood, Dr. S. W. Bilings, head of the A. & M. department of entomology; Dr. A. O. Alben of the Federal Pecan laboratory at Shreveport, La., and J. F. Rosborough, extension service horticulturist, A. and M. college, will speak.

Although the program will deal with all phases of pecan production and marketing, insect control will come in for special attention. A feature of the annual meeting will be the national pecan contest, with growers competing for the John N. Garner cup and other awards.

Other speakers will be Dr. Guy W. Adriance, head, department of horticulture at A and M—"How to Keep the Pecan Orchard Bearing Consistently"; W. D. Sims, pecan specialist, state department of agriculture—"The Behavior of

Varieties Under Different Soil and Climatic Conditions

C. B. Nickels, associate entomologist, Brownwood—"Insecticide Tests Against the Pecan Nut Case Bearer in Texas in 1938"; O. S. Gray, Arlington—"A Pecan Grower's Visit to the U. S. Pecan Field Stations"; W. S. Price, pecan specialist, state department of agriculture—"Observations on the Pecan Weevil"; Nelson Handler, Belton—"Budding and Grafting the Pecan"; F. R. Brison and H. E. Wright, A and M department of horticulture, will present, with lantern slides—"The Inside Story of the Pecan Tree."

Dr. A. O. Alben and H. E. Hammer, Shreveport, La.—"Fertilizing the Pecan"; Dr. B. G. Sifton and F. N. Dodge, Shreveport, La.—"Progress Report of Pecan Variety Studies"; J. L. Rainey, San Angelo—"The Pecan Orchard as an Investment"; Mrs. H. G. Lucas, Brownwood—"Using the Pecan in the Diet"; W. T. Evers, Denton—"Selling the Improved Varieties of Pecans, and discussion"; C. E. Bowles, marketing specialist, extension service, A and M college—"Possibilities of Cooperative Efforts in Processing and Marketing Pecans."

A precision instrument using a beam of light only one-one hundredth of an inch in diameter has been developed at Northwestern university to measure the light from stars 300 times fainter than those visible to the eye.

Look 'n the Classified First.

15 Commercial Failures in Texas

AUSTIN, Nov. 6.—Fifteen commercial failures occurred in Texas during September, involving total liabilities of \$326,000, the University of Texas Bureau of Business Research has announced.

The number of failing firms was the same as in September, 1938, but compared with 28 during August, 1939. Liabilities dropped from \$663,000 in August but almost doubled the \$171,000 in September last year.

For the first nine months of 1938, 240 bankruptcies occurred, compared with only 144 during the like period last year. Liabilities of \$3,970,000 were involved as compared with \$1,637,000 last year.

EXCITEMENT

PARSONS, Kan., Nov. 6 (AP)—Boy Scout E. L. Montgomery of Parsons saved a man from drowning in the Elk river last July 4, but he forgot to get the fellow's name. It took Scoutmaster Dan Devine weeks to track him down so he could get him to sign a petition recommending a medal for Montgomery. The fellow said he was glad to know who it was that saved him, because the day it happened he was too excited to inquire.

A movement to establish a 10-hour day was active in England between 1830 and 1847.

From The... PRESS BOX

By BILL MCKAY

INSTEAD OF SITTING IN THE PRESS BOX, we hooked our legs over the corral fence, and watched some of the pastime sport of some of Cisco "reformed" cowboys out at the goat-roping arena on West Tenth yesterday afternoon. We saw some grand sport, and contrary to what might be thought, the goat didn't get the worse end of the deal each time. Sometimes, after chasing the goat from one side of the arena to the other, and casting as many as three loops at him, then the goat complacently trots to the feeding pen at the other end, and it is possible, I am sure, he was giving the rider a big "goat-laugh."

A GOAT, UNLIKE A CALF, is very crafty in his rope-dodging tactics, and seldom runs straight, but dodges from side to side, making it very difficult to cast a loop over his head. They even dodge a rope after it is cast by the roper, and sometimes even jumps through the loop after it is around him. We witnessed one case, where a goat jumped right straight up, reversed his field, and ran behind the horse, and trotted unhurriedly and untouched to the pen.

EVEN CRAFTY JACK CRAIN, could learn some lessons in broken field running, and dodging from the Billies, who shake off ropes like Crain does would-be tacklers.

EVEN SUCH EXPERTS as the game as Waco, Davis, Sauls, Yeager, Slaughter, McCrea, Booth, Saunders, Pippin, and others sometimes fail to get their goat, but in the contests yesterday afternoon, Coats walked off with the money a couple of times with the time of 24 and 21 seconds, while no time was turned in by

BRUCE CATTON'S AMERICAN ROUNDUP

By BRUCE CATTON
NEA Service Staff Correspondent

WASHINGTON.—One of the hottest pressure campaigns of recent years is being staged here to get the Justice Department to soft-pedal its anti-trust drive against building trades unions. The campaign came out into the light of publicity the other day when high executives of the American Federation of Labor visited President Roosevelt and Attorney General Murphy to try to get the drive shunted aside. Under the surface, it has been going on with even greater vigor and determination.

Much of the pressure is coming from Capitol Hill, where the A. F. of L. numbers many friends among congressmen and senators; lawmakers have been calling the Department of Justice on the phone, or going down in person, to urge that the heat be taken off of the building trades.

What has stirred Federation leaders and their friends is not the set of indictments obtained from a District of Columbia grand jury against five union officials; it is the fact that the anti-trust division is proceeding in 15 other cities, calling union officials in for questioning and, as one leader expresses it, "scaring our boys so that the unions can't operate."

They are urging that the de-

THE COTTONTAIL

SERIAL STORY JOAN OF ARKANSAS

BY JERRY BRONDFIELD

as possible . . . think clearly, now . . .

It was a hushed, scared group which huddled in the Alpha Nu living room later that night. The Tribune had come out with an extra and Tommy Peters, staring at the sheet in front of him, shook his head.

"Boy, am I the prize dummy," Joan Johnson . . . millionaire heiress . . . daughter of J. G. Johnson, big eastern industrialist . . . he muttered, reading snatches of the story.

"I wasn't just dumb," he repeated. "I was just plain thick. All the time I thought she might be related to old J. G. or his family. He got his start down Arkansas way and then transferred his operations east."

He slapped the paper. "She told me she had no relatives in Arkansas, but that happened to be the truth . . . and that's what stumped me. I never dreamed she was the daughter of THE J. G. Johnson."

Tommy turned to Carol wildly. "Oil . . . steel . . . railroads . . . banks. I'm tellin' you her old man is one of these behind-the-scenes guys who owns half the country."

Kay whistled softly. "And that's who Joan Johnson is. Gee, it's one thing to be well-to-do and it's another to be—" She paused. "To be heiress to 20 million

dollars or so," Marianne added. Barney Hughes stopped in and asked if there was any news. "Keith been over?" he wanted to know.

Someone replied that he had phoned a short while ago, but had not stopped in.

"Doesn't surprise me," said Carol.

"What do you mean?" Elaine asked quickly.

"Oh, I don't know exactly. Except that—well, I think Joan has been doing a lot of thinking lately."

"You mean . . . ?"

"I mean she was just about ready to pack him in."

"Then why did she use his car on that field trip?"

Carol shrugged. "She asked him for it before she made up her mind about it, I'm sure. And she probably wanted to end it gradually."

"She had Keith's feelings to consider, too, you know. A lot of us realized it too late, maybe, but she was wise. I hope it isn't too late," she added, as an ugly afterthought bit her.

Bonnie Harris summed it up perfectly. "It was something we all suspected but wouldn't admit."

Suddenly Tommy jumped up with a whoop. "I've got it—I've got it!" he yelled. "That guy I

Cisco Girls to Participate in Musical Program

Misses Mary Olive Garrett and Nanella Bible, students in Weatherford Junior college, Weatherford, will appear with the Weatherford College chorus before the Central Texas conference on Friday evening, November 10. For several years this group of singers has attracted much attention in musical circles. Last week, a part of the group sang at the meeting of the Texas Federation of Music Clubs.

Mrs. Knox Childress, head of the department of fine arts, is director of the chorus. In addition to the chorus there is an unusually good boys' quartet and girls' trio. These two groups appear on numerous programs throughout the school year.

Miss Garrett, a freshman, is the daughter of Mr. and Mrs. H. R. Garrett. Miss Bible is a senior in the college, and a daughter of Mr. and Mrs. H. A. Bible.

Nazi Sea War--

(Continued from Page One)
standing the more extreme propaganda...

Korrespondenz then recalled that United States Secretary of State Bryan in a note to the German ambassador Aug. 22, 1915, had said any change in neutrality legislation during war time which would influence the United States' relationship to belligerents would be an "unjustified deviation" from the principle of strict neutrality.

War Profiteers

"Only the group of former war profiteers has remained consistent in its acts and endeavours—namely those who, as in the last war, would like to buy their profits with the blood and prosperity of other peoples. The president himself once warned of false profits which American industry and agriculture pursued in the World war and which the entire country, as well as all other peoples, had to pay for with years of economic crisis from which the United States has not recovered even today," Korrespondenz concluded.

The nearest approach to a public declaration that intensified sea war was in prospect was made in the Hamburg Fremdenblatt, which said:

"Through a change in American neutrality legislation there becomes available to the western powers an industrial base of extraordinary capacities while the noose of the British blockade around the reich is being removed by ever-increasing co-operation between Germany and Russia. Germany's lifeline extends to the distant Pacific and it can not be disturbed by enemy action. In contrast, American support of the western powers is dependent on counter measures which the reich may take on the Atlantic."

Be Quick To Treat Bronchitis

Bronchitis, acute or chronic, is an inflammatory condition of the mucous membranes lining the bronchial tubes. Even if other medicines have failed you may get relief now with Creomulsion. Chronic bronchitis can develop if your chest cold is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding that you are to like the way it quickly allays the cough, permitting rest and sleep or you are to have your money back. See that the name Creomulsion is on the bottle and you will get the genuine product and the relief you want. (Adv.)

New Well in Crystal Falls Area Completed

EASTLAND, Nov. 4 (Sp).—Stephens county continued as the main interest of area oilmen this week with another well in the Crystal Falls area showing as an apparent producer.

Horwitz and Odum No. 2 E. S. Maury, four miles west of Crystal Falls, was dug testing after a wait on cement. Oil was in the hole after saturated lime was topped at 3,539 feet and drilled to 3,625 feet. Only recently the same operators received a potential production testing showing 1,500 barrels on their No. 2 B. S. Dance in the same area. Both are in the J. Koehler survey.

The No. 2 Dance was completed in lime 3,552-82 feet. Horwitz and Odum No. 1 T. J. Hawley, J. T. Thomas survey, about 1,000 feet south of the No. 2 Dance and other producers in the same pool, was drilling at 1,500 feet.

About a mile north of the Horwitz and Odum producers, Stedman Petrol company has launched work on No. 1 Powers, George York survey, 330 feet from the south and west lines of the survey, which is drilling at 800 feet. New Well

Stephens county also witnessed launching of work on another well, this being Wittmer, Knight and Ewing No. 2 Loving, section 11, OAL survey, 1,320 feet west and 600 feet south of No. 1 Loving, southwestern part of the county, which is making about 45 barrels daily. The No. 2 Loving is 12 miles southwest of Breckenridge. Operators were rigging up. T. G. Shaw No. 1 Stroud, north-west one-fourth of the G. Newton survey, northeast portion of the county, continued to test in Stephens. Nearly 200 barrels of oil swabbed and flowed after casing plug was drilled from pay at 2,594-2,062 feet, total depth.

Other Stephens county wells: George Fagg No. 1 Richardson, section 5, block 37, SPRR survey, seven miles north of Caddo, at a depth around 3,445 feet was drilling. A. G. Swanson No. 1 Veale-Frost, section 37, block 8, T&P survey, was dry and abandoned at 4,373 feet, 10 miles southwest of Breckenridge.

In the Breckenridge townsite, C. J. West No. 1 Pierce, block 74, southeast of the Phillips Petroleum office building, was drilling at 3,400 feet.

Eastland County
Lone Star Gas company No. 1 F. J. Kimmell, section 27, block 4, H&TC survey, eight miles north of Cisco, had been drilled below 2,344 feet.

Dobbs Oil corporation No. 1 B. Pierce, Hiram Walker survey, two and one-half miles southeast of Carbon, at 1,200 feet was drilling.

Hickok Producing and Development company No. 5 Grover Cleveland, seven miles north of Cisco, section 477, SPRR survey, had progressed to 2,700 feet and was drilling.

Erath County
Still in lime, Wayne Chandler No. 1 Chandler, J. W. Moore survey, eight miles northeast of Stephenville, was drilling at 5,052 feet.

Callahan County
Operators were cleaning out on

His Team Feels This Way, Too

While Yale was battling mighty Michigan at Ann Arbor, Dr. G. L. Cheney was giving Handsome Dan IV, mascot of the Eli football team, diathermy treatments in New Haven. Handsome Dan IV, was struck by a hit-and-run driver,

the Warren and others' No. 1-B Clinton estate, M. Chery survey, one and one-half miles west of Scranton, after a 20-quart shot from 1,061-71 feet.

Specs--

(Continued from Page One)

nomie realities points inevitably to this conclusion.

Cisco stands in a very favorable position from the standpoint of location, territory and population. But one can't sell ice in Alaska, sand in the Sahara nor rolls Royces or ermine coats in Cisco, although the latter will sell very well in Dallas or Fort Worth or communities flush with oil or gold mining booms. We simply must gauge our business to the needs of our trade territory if we prosper. This is a fact for the serious study of our business leaders.

Defeated Puts Winner on Ballot

HENDERSON, Ky., Nov. 6 (AP).—Frank Winstead, defeated for the democratic nomination for state senator in this district, made it possible for the name of his successful opponent to go on the ballot in the Nov. 7 election.

The nomination was won by F. M. Tapp, but Tapp failed to file his certificate of nomination with the secretary of state before the deadline.

It was necessary for Winstead, as chairman of the Webster county democratic committee, and the chairman of the other county in the district, M. R. Posey of Henderson county, to meet and re-nominate Tapp.

They did.

Endurance Flyers Seek Record

Refueling for 600th hour up in their light scaplane, Clyde Schlieper and Wes Carroll, Long Beach flyers, set guns to pass all-time endurance record of 654 hours 33 minutes as they go into last lap of flight.

A 1906 Style Leader

A FULL parade of famous old models like this style leader of 1906 will be on hand to greet visitors at the Ford Exposition when the New York World's Fair re-opens next May. This 1906 Ford Model "N" is a far cry in appearance from the gleaming elegance of the 1940 Ford line now on display throughout the country, though the same sturdy reliability has come down unchanged through the years. In its day the Model "N," too, was a style leader. This model, weighing 1,050 pounds, sold for \$600. It, and the other early Ford cars, were featured with the 1940 models in a recent RCA television program originating in the Ford Exposition at the Fair. The telecast presented a pageant of automotive history from 1903 to 1940. course, the driver appears a bit grim about the whole thing, but you'd be nervous, too, if you were at the wheel and ready to unleash the mighty power lurking beneath that hood. Four cylinders, if you please! And the car has two speeds forward and one reverse. The gasoline tank holds nine gallons, and you can travel at any speed you wish, provided you don't wish more than 15 miles an hour. This model, weighing 1,050 pounds, sold for \$600. It, and the other early Ford cars, were featured with the 1940 models in a recent RCA television program originating in the Ford Exposition at the Fair. The telecast presented a pageant of automotive history from 1903 to 1940. Those large wheels with the stylishly thin tires, not to mention the shining mudguards, were just the thing to set off the rakish lines of the body. Notice how comfortably two persons can sit on the spacious, upholstered cushions. Of

and Southwestern Baptist Theological Seminary, Fort Worth. The denomination also owns and operates the largest church owned orphanage in the world—Buckner Orphan's home, Dallas. Five Baptist hospitals are located in Texas; Baylor, Dallas; Hillcrest, Waco; Memorial, Houston; Hendrick Memorial, Abilene, and Valley Baptist, Harlingen. The only Baptist grade A four-year medical school in the world is Baylor college of medicine, Dallas.

Based upon recent governmental statistics it is conservatively estimated that Texas Baptists, and the Baptist institutions named above, have a daily buying power of \$2,937,307.24. Church property is valued at \$31,000,000 and institutional property at \$25,000,000.

On the afternoon these pictures were made, the Humble Company broadcast games; similar equipment and broadcast crews were used at all of them.

Extremes of Evening Glamour

CONTRASTS of glamour are apparent in the costumes for the screen version of Clare Boothe's stage hit, "The Women." Exotic glamor might be represented by Paulette Goddard's figure-molding creation at left. It's of raspberry-colored chiffon banded in graduated gold sequins and circularly draped. The long shoulder train can be worn as a sari. Homespun in appearance, but far from it in fact is Joan Crawford's dinner dress at right. Despite its simple, ginghamy look, it is of red and white checked silk. Over it she wears a short fitted jacket of natural linen, laced with the dress material. The checked silk also trims the pockets and forms the bandanna-like hood.

Photographer Visits Humble For Broadcast to Show How It's

Photographer takes Oil & Mining casting look at Texas A. & M. show how they put on the engineer. Heavily dials of an equipment at left picks up the sound and blends them.

Equipment in front of Tips and spotters is known as a grid-graph. Names of players and lights beside names on Tips' instrument are flashed on. Bottom picture shows parabolic microphone used on field, here operated by DeBartalan. The large disc collects hand music and cheers and feeds them to phone shown in center.
