THE CISCO DAILY PRESS

Combined With Cisco Daily News and Cisco American and Round-Up November 1, 1937

CISCO, TEXAS, SUNDAY, JANUARY 14, 1940

NUMBER 136

In an area of benevolent climate, blessed with an abundance of the purest lake water, possessing the best in recreational facilities, situated on the Bankhead, all-weather route, with three railroads and many highways, Cisco is the best place in Texas to live and to work.

CISCO SECTION IS SET FOR NEW COLD WAVE

What It Means:

Pending Japan Treaty

erry And Toy Train

MORGAN M. BEATTY
 Feature Service Writer
 WASHINGTON, Jan. 13 — A cherry blossom time was in far off Japan, miniature railroad train and a circular newly laden with Japanese noblemen.

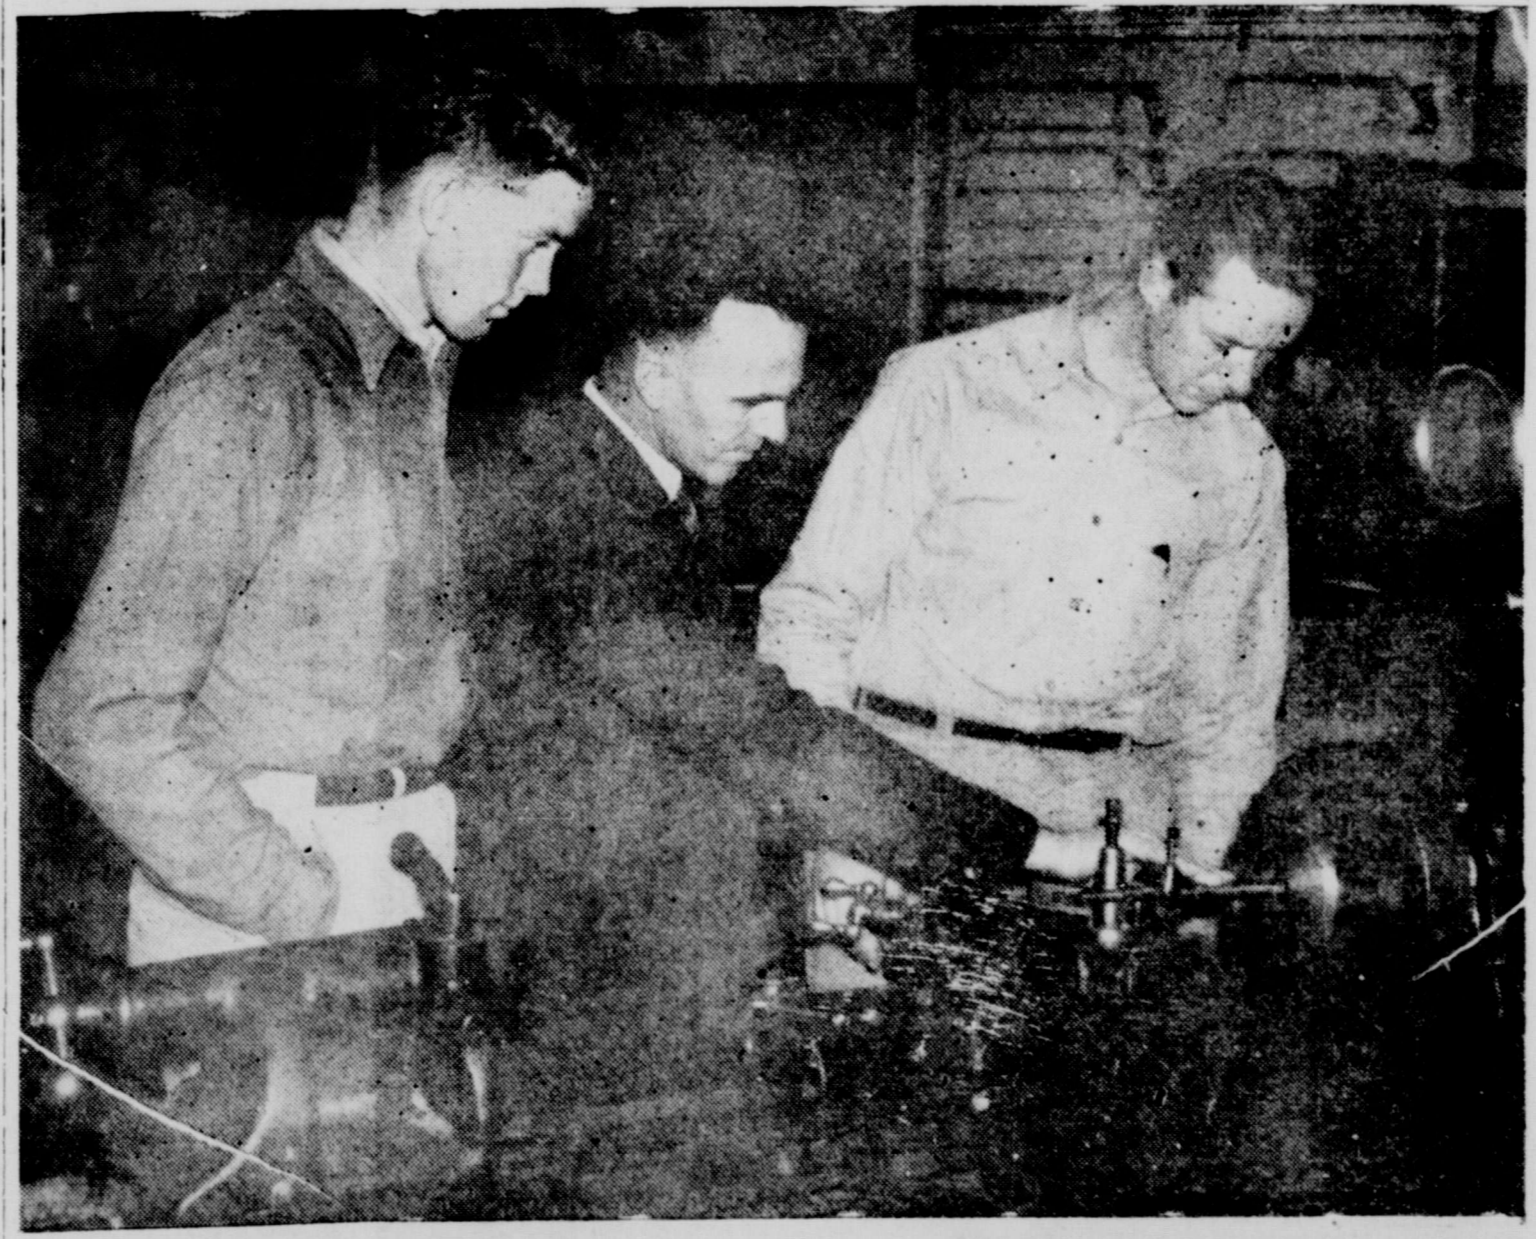

nation, from the earliest times to now, and you will always find evidence of this ruling passion of the Japanese to be equal or superior in everything they do — preferably superior.

NO CITY POLL TAX REQUIRED IN CISCO NOW

Annual Ordinance Is Necessary to Establish Levy

Possibility that Cisco citizens might lose their status as legal voters in state and county elections because of failure to pay a city poll tax, as once required, was removed when it was shown that the requirement for a city poll tax is not in the city charter and is optional with the city through ordinance.

They Learn Trades Through NYA Project

Above, Fred Thames of Cisco, is receiving instruction in woodworking from NYA Woodwork Shop Director Wily J. Barr in the Ranger NYA project school, with NYA Area Director Jack Hale looking on. Below, Machine Shop Director H. A. Fillett, center, explains a point to Gerald Lisenbee, left, and Clarence Reese, right, of Cisco.

NEAR ZERO IN PANHANDLE IS ANTICIPATED

Light Rains and Snow For Some Sections In Prospect

A new cold wave was moving out of the northwest Saturday with freezing temperatures predicted for this section Sunday morning.

January 26, a treaty of commerce and amity between Japan and the United States was terminated by the American government.

The Short End
 Under the forbidding suns of warships that taught the Japanese the meaning of modern warfare, treaties with other western powers followed, and as was to be expected, Japan got the short end of the stick.

Baird Election
 An election was held at Baird for the voting of bonds for a municipal light plant. Then a suit, styled T. E. Powell and others against the City of Baird and others, was filed.

Funeral for Guthrie Saturday

Funeral services were held at 10 o'clock Saturday afternoon for Georgia May Guthrie, 52, died at her home on Jefferson street at 8:30 Friday night, followed an illness of about weeks. The Rev. Luther Pryor, pastor of the Church of the Holy Trinity, officiated, and burial was in Oakwood.

BRITISH FLY OVER PRAGUE AND VIENNA

LONDON, Jan. 13 (AP)—British fliers, in "the greatest wartime survey flights," penetrating Bohemia and Austria during the night, carried on the North sea warfare by attacking Nazi destroyers and Saturday destroyed a German air raider over the Firth of Forth, the air ministry announced in a series of communique.

Local Pastor to Conduct Revival

The Rev. C. E. Poe, pastor of the First Baptist church in Cross Plains, will preach at the Cisco church this evening at 7:30, according to the Rev. Judson Prince, who will leave today to conduct an eight-day revival at the Cross Plains church.

Funeral Services at Methodist Church

Funeral services at 5 o'clock Sunday afternoon at the beginning of a series of winter vesper services at First Methodist church. At 7:30, the Rev. Joe L. Patterson will speak on the theme, "God is in the Evening." This will replace the regular sermon, and will be followed by Young People's league.

Local Red Cross Unit Is Organized

Organization of a Cisco chapter of the American Red Cross to supervise distribution of Red Cross funds locally was announced Saturday. Edward Lee was named chairman; Homer Ferguson, vice chairman; James McCracken, treasurer, and Mrs. Philip Pettit, distributing officer.

NYA SCHOOL PROJECT IS OUTSTANDING

The NYA training project at Ranger, sponsored by the city of Ranger and serving four counties, is one of the most outstanding projects of the kind in the state. In addition to a girls' training school, the project embraces four

schools for boys, each giving about a year's training in fundamentals of the craft taught. The schools are a machine shop, wood working shop, radio training shop and an automobile mechanics training shop. Hundreds of thousands of dollars worth of equipment, furnished by the government, is utilized in training the boys, each of whom is paid a small wage, part of which goes for his keep. A dormitory to house the boys is being built.

Wily J. Barr, supervising the woodworking shop, Chester M. Fuller the radio shop and Charlie Sutton the automobile mechanics shop.

COUNTY CLERK OFFICE SHOWS BUSINESS RISE

EASTLAND, Jan. 13 (Sp)—Activity in the office of County Clerk R. V. Galloway, usually considered a good barometer of business, like county clerk's offices every-

Loboes Defeat Moran at Rising Star

In their first game in the Rising Star invitation tournament Saturday morning, the Cisco Loboes defeated Moran 43 to 17, the second team playing the third quarter. Howser was the star of the game, chalking up 20 points for Cisco in the three quarters he played. Other Cisco players who performed well were J. V. Heyser, center, who scored eight points, Edgar Taylor, who played at a forward position, also scored eight points, while Reames, Warren and Burnside were outstanding on defense.

BROWNWOOD WINS

The Cisco Loboes bowed again to the Brownwood quintet Friday night in a hotly contested game on the Cisco court, in which the lead changed many times: Brownwood, victor over the Cisco quint at Brownwood several nights ago by one point, took the decision Friday by 26 to 23.

Weather

East Texas — Sunday, mostly cloudy and colder; fresh southerly winds on the coast, shifting to northerly Sunday.
 West Texas — Sunday, partly cloudy with rain; changing to snow; colder Sunday.

W. D. BRECHEN, Superintendent
CATHRYNE RUSSELL, Society Editor

A home-owned and home-controlled newspaper devoted to the upbuilding of Cisco and Eastland county, independently democratic in politics.

SUBSCRIPTION RATES: Within First and Second Postal Zones, Per Year, \$3.50. Rates Higher Within Other Zones. Weekly Rural Edition, per year, \$1.50.

National advertising representatives, Texas Only Press League, Dallas, Texas.

Any statement or advertisement reflecting upon the character or conduct of any person will be gladly received if it brings to the attention of the publisher. The Cisco Daily Press assumes no responsibility for errors in advertising insertions beyond the price of the advertisement.

Entered as Second Class Matter December 11, 1934, at the post office at Cisco, Texas, under the act of March 3, 1879.

BIBLE THOUGHT FOR TODAY

We will rejoice in thy salvation, and triumph in the name of our God... Ps. 124:8

All who try would win... Must share it—nagarsness was born a twin... —BYRON

Every life should add to the sum total of the world's weal and light.

The moment we desire God and His will, that moment we enjoy them and enjoy our own hearts in the office of the saints.

What though the night remain thee break... Remember, how best things... —VICTOR HUGO

It's Healthier on This Side of the Atlantic

BOTH the general death rate and the infant mortality rate in the United States hit new lows in 1934. The figures for that year are the latest which have been compiled.

The general death rate in 1934 was 10.6 per 1000 as compared with 11.2 in 1933. The previous low record was set in 1933 when the rate was 10.7.

Strickland Is Elected Breck Ass'n Secretary

Clair Strickland, secretary-treasurer of the Cisco and Eastland National Farm Loan Association, has been elected secretary-treasurer of the Breckenridge association...

BRUCE CATTON'S AMERICAN ROUNDUP

WASHINGTON—Back of Senator Sheridan Downey's unusual resolution for a Senate committee to investigate super-highways there is the most elaborate public works program ever submitted to Congress.

There is, of course, the question of how all of this is going to be paid for. Senator Downey figures that the problem is relatively simple. Here is the answer as he works it out.

Suppose that bonds to obtain the necessary hundred billion are issued. Let the bonds carry interest of 1 1/2 per cent and add another 1/2 per cent for amortization.

Meanwhile the construction of this vast chain of highways, as he sees it, would cause a huge boom in auto traffic and the existing federal taxes on gasoline and oil would bring in much higher revenues.

Since trucks and buses could operate much more cheaply on the new highways, they could properly be taxed more heavily and it would be possible to help pay for the bonds, he believes.

1933 was 50.9 per 1000, the lowest in American history. The rate in 1936 was 57, in 1934 it was 60, and the average rate between 1921 and 1925 was 74.

Few European countries would care to scan their health statistics during the past couple of years when the peril of war kept them concentrating on methods of ending, not sustaining life.

AMERICANS should be proud that conditions in this country make it possible for scientists to proceed with their humanitarian works.

Their job of saving humanity has not yet become a futile farce. Their work is not a profanity of life. They do not need to save lives so that the products of other scientists and inventors can snuff out those lives on battlefields.

AMERICANS have reason to feel satisfied with their lot. But to feel too secure about health is to invite retrogression. The battle to preserve life does not belong alone to the scientists.

Dr. Thomas Parran, surgeon general of the United States, said recently: "It should always be borne in mind that the general mortality rate is a national average in which are obscured significantly high rates among certain groups of the population and in certain localities."

Despite the steady inroads that have been made against disease, much remains to be done. No one realizes that better than the medical profession. Constant attempts are being made to broaden the scope of medical benefits.

Reports are still going around that Stalin is thinking variously of starting new wars in the Balkans, in Afghanistan and in the Orient.

act as assistant secretary and maintain the Eastland office with such other assistance as may be necessary for the efficient handling of the records of the associations.

The combined loans of the three associations represents loans totaling approximately one million dollars of low interest loans assisting worthy borrowers in paying for their farms and ranches.

The Seventh Day Adventists observe as the Sabbath the period from sunset Friday to sunset Saturday.

The combined office at Eastland serving the three associations will require additional help for Mr. Strickland. Mrs. Strickland will

Planning a Merger?

Items of Interest From Putnam

Mrs. Byron Lee was hostess at a birthday dinner honoring her husband, Byron Lee, Thursday evening. The guest list included Messrs. and Mrs. Melvin Stuart, George Parrish and Floyd Buchanan.

PARENT-TEACHER ASSOCIATION

The Putnam P-T. A. met in a regular business session Thursday afternoon at 3:30. Mrs. Doyle Gunn, president of the association, sent in her resignation and Mrs. S. M. Eubank, vice president, officiated.

HIGH SCHOOL SPELLING BEE

The senior class of the Putnam high school will sponsor a "spelling bee" Friday evening at the high school auditorium. An admission fee of 5 and 10 cents will be charged, and with each paid ticket a pencil bearing the Putnam football schedule for 1934-35 will be given.

Light Amid The Darkness

PARIS, Jan. 13 (AP)—Following a report by experts that a "luminous fog" is visible over Paris at night under certain atmospheric conditions, new lighting regulations have been issued.

In the future particular attention must be paid to shading any light which tends to be deflected upwards, as from elevator shafts and the upper stories of buildings.

Parisians are also reminded that the "habe" in question was probably caused by growing carelessness, and warned that not even a "glimmer" must be visible in spelling, a bundle of pencils will be given to the third place contestant.

The Girls of the Putnam high school organized an athletic club last Wednesday. The following officers were elected: John H. Clack, president; LaJuan Gunn, vice president; and Wanda Wood, secretary.

Mrs. P. L. Butler is confined to her bed suffering from a stroke of paralysis. Other citizens of Putnam who are seriously ill are Mrs. Jim Kelley and Wylie Clinton.

Miss Theda Smith and Mrs. S. M. Eubank were Cisco visitors Thursday.

Under the Courthouse Roof

ELEVENTH APPEALS COURT PROCEEDINGS

Following are the proceedings of the court of civil appeals, eleventh supreme judicial district of Texas, as announced Friday, Jan. 12:

Affirmed: Clyde E. Thomas et al vs. B. R. Cline, Howard, W. L. Poxor vs. John Ed Jones, administrator, Knox.

Reversed and Remanded: Spann Bros. Auto Supply Co. vs. J. D. Miles, Stephens.

Motions Submitted: Jefferson Standard Life Ins. Co. vs. Hattie Maurine Young, appellee's motion for rehearing.

Motions Submitted: George Callahan vs. C. A. White, appellee's motion for extension of time to file brief.

Motions Submitted: Joe Lee Ferguson, appellant's motion to send up records with petition for writ of error.

Motions Submitted: Carrie Ella Tipton et al vs. Josephine Tipton et al, appellee's motion for postponement of submission and extension of time for filing brief.

Motions Submitted: Mr. and Mrs. Marvin F. Brown and Mrs. Frazier's parents, Mrs. Mrs. Chas. Flaherty, Taylor.

Motions Submitted: Salt and sulphur that are 99 per cent pure are mined in Louisiana.

More than half the population of Panama is of mixed race.

The Problem of Forgiveness

Text: Matthew 18:21-35

BY WILLIAM E. GILROY, D. D., Editor of Advance. THE title of our lesson is well chosen; forgiveness is a very real problem and one that comparatively few people manage to solve.

Many people, especially professing Christians, believe in forgiveness in theory. They are quite sure that forgiveness is a good thing, and they follow all that Jesus has said about it until there is really something to forgive, and then the teaching and philosophy desert them and they are as bitter and vengeful against anyone who has wronged them as any person of Christian spirit might be.

Others do not accept the philosophy of forgiveness at all, and perhaps this is the more common attitude of the world in general. Even well-meaning people often speak of a man as a "good hater," as if any hater could be good or as if hatred under any circumstances could be a good thing.

THE teaching of Jesus has to do largely in this lesson with personal and individual relationships—the sin of man against man. But the need of grasping thoroughly the teaching of forgiveness is greatly emphasized in such a situation as we meet in the modern world, where hatred on a vast scale is either encouraged or is very easily developed within the field of social relationships and in relationships between nations.

FORGIVENESS is the necessary and sure way of bringing light something better in human character and conditions. As long as men meet wrong wrong, violence with violence and hate with hate, indeed a real loss. But where some dares to break this tragic circle of hatred by introducing forgiveness, immediately a new constructive force enters, bringing divisions and dissensions and tending to establish a foundation for better relationships.

In a very real sense forgiveness is the foundation of progress toward better relationship between men and nations. God is the only force that really overcome evil!

C R E D O

WE BELIEVE IN THE FARMER. WE BELIEVE THAT
THE FUTURE OF THIS COMMUNITY LIES IN THE LAND

WE BELIEVE that the state of the prosperity of our community and country is in direct ratio to the thickness of the farmer's purse . . . that the purchasing power of the people of this community rests, in the largest measure, on farm income.

WE BELIEVE that as farming is our section's largest single industry, so should the welfare of our farmers be the largest single concern of our community.

WE BELIEVE that no community economic policy can succeed as a permanent community support unless it is based upon the welfare and the prosperity of our farmers. In spite of industrial development, in spite of oil booms and income from other non-agricultural sources, the gross agricultural revenues of this section represent by far the greatest part of our spendable income. Agriculture is and will continue to be our greatest economic resource. No other industry even approaches it.

WE BELIEVE that the possibilities for agricultural development in this section have only been touched, and that common sense and practical enterprise can build in this section an agricultural economy second to none, affording prosperity to all our people; that the new needs and processes which agriculture is being called upon to

supply, both for food and clothing and for chemical conversion into products of various kinds, offer our section opportunities of a consequence before undreamed of.

WE BELIEVE that our farmers are our largest single market. As the standard of living of our farmers is raised so is the magnitude of the market they offer. Therefore, we believe it to be our sensible duty to improve the agricultural status of the section about us, so that the farmer may live better and provide better support for our community.

WE BELIEVE that the farmer's interest is the interest of every business man and every other citizen in Cisco, regardless of whether or not that business man or citizen receives a direct benefit from relationship with the farmer. We firmly believe that Cisco can never be assured of prosperity until the farmer is first considered.

WE ALSO BELIEVE that the farmer is becoming more and more important to the industrial life of America as the producer of the raw materials used in industry and that the demands which industry will increasingly make upon the farmer will bring about higher standards and values in agricultural enterprise, so that the general level of agricultural economy will progressively rise. We are convinced that our section offers many opportunities to profit from this trend and that these opportunities should be developed.

WE FIRMLY BELIEVE IN THE AGRICULTURAL FUTURE OF THE CISCO COUNTRY AS THE CHEIF OPPORTUNITY FOR A PROSPEROUS LOCAL ECONOMY

(Continued from Page One)

where, showed an increase in 1935 over 1934.

For the past 12 months a total of 381 marriage licenses were issued as compared to 253 during 1934.

Chattel mortgages filed for 1935 amounted to a total of 8,532 in contrast to a total of 6,901 for the preceding corresponding period.

The number of instruments filed for record showed a slight decrease but the recording fees for 1935 exceeded those received in 1934 due to the fact that a larger number of oil and gas leases and deeds of trust were filed for record.

It was pointed out that 1937 and 1939 were both years in which fees were received for recording bonds of notaries public.

Receipts of 1935 were \$671.34 over those in 1936, both of which were "non-notary" years.

Accumulative increases since 1936 total \$1,298.59 which clearly show a trend of improved business.

Blackout--

The nurse blurted out, "Nobody can make me believe these enemy subs are working blindly. There's a spy ring at work for certain."

"I beg your pardon, Mrs. Lenox. It was thoughtless of me, Dr. O'Connell wouldn't like it. It was only because I was so overwrought, I forgot myself. My brother was lost. Now for the supper tray."

Early the next morning Mary found herself being lifted from her bed into the blanket-covered hospital cart. This was the day! This was the day that would either restore her as Mary Carroll or send her into a permanent blackout.

Inside the operating room, she blinked at the glare. Without the tiniest jar, she slipped onto the operating table. She heard the sound of water as Dr. O'Connell and his assistants scrubbed for the operation.

"Take a deep breath," she could hear the nurse saying as the ether cone was clamped down on her nose and mouth. "Steady there, Steady, Steady."

A hand gripped her wrist as her pulse was being counted. She choked and tried to fight off the ether.

Down a well she tumbled. The wall was deep and gray. There were faces on all sides. There was Vincent Greag. There was the fine black face of Carla Marchetta, magnificent in plumes, rich furs and jewels. Lady Poncet-Townsend seemed to come into the scene. On her arm she had a pile of bedragged garments. But she also had a stack of pencil sketches.

Then there was the blond boy who had frightened her from the shadows of the Moravia's deck. And Gilbert Lenox. It must have been Gilbert Lenox who kept saying "Steady, Steady."

In her last breath of consciousness she had but one thought: Was she going to emerge from all this as the Mary Carroll she had been before?

(To Be Continued)

Trips Await Golden Gloves Winners

BROWNWOOD, Jan. 13 (Sp.)—All-expense trips to Fort Worth and Chicago await the winners in the district Golden Gloves tournament in Brownwood on January 29 and 30, and the state finals in Fort Worth February 15, 16, 17 and 19.

Young men of this section who have never received money for boxing are eligible to compete in the Brownwood tournament. Winners in eight weight divisions here will compete in the state tournament at Fort Worth and the winners there will be eligible for all-expense trips to the "Tournament of Champions" at Chicago.

Golden Gloves is a non-profit undertaking and proceeds from tournaments are to be used in the promotion of amateur sports. Prominent business men of Brownwood, led by former Sen. E. M. Davis, T. C. Wilkinson, Jr., attorney, Bland Harper, merchant, Gus J. Rosenberg and A. P. Sprinkle, city councilman, are in charge of plans for the Brownwood district tournament.

Advertising is not an expense—it's the life blood of any business.

Texas Joins "March of Dimes"

WASHINGTON, Jan. 13.—Citizens of Texas are enthusiastically behind the March of Dimes drive in the "Fight Infantile Paralysis" campaign. Federal Loan Administrator Jesse Jones (right), tells George E. Allen, commissioner of the District of Columbia.

M. Allen is chairman of the "March of Dimes" committee, which is a division of the committee for the celebration of the president's birthday, of which Keith Morgan is national chairman.

Commissioner Allen will be in charge of the "March of Dimes" birthday card feature. These

greeting cards, distributed throughout this state, will be filled with dimes and mailed to President Roosevelt at the White House before his fifty-eighth birthday on January 30. In this manner, those who contribute will join with the president in the war against this crippling disease.

One-half of the donations received at the White House will be returned to Texas and the other one-half will be sent to the Committee for the Celebration of the President's Birthday, to be turned over to the National Foundation for Infantile Paralysis. Every dime will be accounted for, under the direction of a nationally known firm of auditors.

Reds Withdraw--

The raids severed Helsinki's telephone communication with foreign countries and put out of commission the radio at Lanti, 60 miles north of Helsinki.

Turku (Abo), southwestern Finnish seaport, an important arrival point for foreign men and materials, was raided by 30 planes, and bombers ranged northward to the Bothnian coast.

Damage was reported not extensive, although there were some casualties.

The term mineral wool is a generic one covering a variety of similar products differentiated chiefly by the raw materials which are their sources.

The total value of Swedish crops in 1935 is 1,169,000,000 kronor, or about \$292,250,000. This is an increase over 1933 of 85,000,000 kronor, or about \$21,250,000.

Advertising is not an expense—it's the life blood of any business.

British Fly--

(Continued from Page One)

age were expressed as sorties fired on prowlers at Hendon air-drome, northeast London. An attempt apparently was made to cut the Scottish-Northern Ireland cable at Donaghadee, Northern Ireland, and fire routed Northern Ireland's governor, the Duke of Abercorn, and his household from 300-year-old Baronscourt castle.

Explosions and fire swept a ship-building plant at Northwich, Cheshire, in Western England. Officials said sabotage was not involved.

Shoot Down Raider In Saturday's aerial operations the air ministry said a fighter patrol shot down a Nazi raider off the southeast coast of Scotland in the morning.

Later three German planes flew over a Norfolk port and a plane believed to be a German craft was seen flying low off a southeast coast port in the afternoon.

Three Royal Air Force fighters roared in pursuit but the invader fled toward the English Channel, throwing up a smoke screen against the defense craft.

In addition to the scouting flights over Bohemia and Austria, the air ministry said "security patrols were maintained over Heligoland Bight" and northwest Germany was surveyed.

The coastal command sighted three German destroyers Thursday, it announced, and dropped bombs close to the craft.

What It Means--

(Continued from Page One)

bizarre Japanese codes and customs.

Interested In Profits Most of the westerners were interested in profits, not friendship, and they acted accordingly. Only the United States felt impelled to try to carry out the aims of that original treaty and give the Japanese something close to equal rights.

Naturally the Japanese hated the "foreign devils." Within 20 years of Perry's first visit, the treaty-making Shogunate had been shoved aside, and the emperor of Japan had been restored to power. The Japanese were ready to drive the barbarians into the sea.

But they didn't do anything of the kind. They listened, instead, to a cunning and powerful counselor among their own people. "Wait," he cautioned, "wait!"

"Make our country secure by military preparation... wait for the time of confusion in Europe, which must come eventually... then we may become the chief nation of the Orient."

Stepping Out Wait the Japanese did, and patiently. The foreigners objected to their laws, so the Japanese reformed their courts along western lines. The foreigners hated their social customs, so they remodeled them to fit western forms, although they did not at first

change the social order fundamentally.

The nobility gave the people a constitution, although they kept the emperor cleverly immune to man-made laws. One of their houses of parliament was even named "house of representatives," a gesture to their freedom-loving friends, the Americans. But, most important, they introduced modern German methods in their army and navy, and set themselves out to become a world military power.

The rest of the world smiled tolerantly at the regeneration of Japan. But, by 1894, the Japanese were ready to strike powerful blows for empire and equal-

rights.

mail postal regulations recovery of it by the fore it reaches the A. E. Holiday of Land offices have instructions far as to telegraph data if necessary, to extract from the mail if the suddenly changes his mind cides he wants to take he said.

A Guaranty of Success SUCCESS counts in life. It has a definite, tangible meaning. TO BE SUCCESSFUL, one must do business with successful people. THE FIRST NATIONAL BANK has always been successful. It was founded on the principles that underlie all success, and through its long career it has never departed from them. THAT IS WHY it attracts the business of successful people. First National Bank In Cisco, Texas MEMBER FEDERAL DEPOSIT INSURANCE CORPORATION

But Count Ten Before Mailing LARAMIE, Wyo., Jan. 13 (AP)—Many people believe that once a letter enters the United States... Ten years later the world was no longer amused, but deeply concerned. The world's attitude changed with the changing stature of Japan. And America's attitude changed with that of the rest.

Five your living room a lift with LIGHT-CONDITIONING CHECK the places in your living room tonight... It's surprising what a "lift" light-conditioning means having light in enough places so everybody in your family read, work, or play with greater eye comfort. Ask for free Light Meter checkup of your home and some light-conditioning suggestions. West Texas Utilities Company
