THE CISCO DAILY PRESS

Combined With Cisco Daily News and Cisco American and Round-Up November 1, 1937

In an area of benevolent climate, blessed with an abundance of the purest lake water, possessing the best in recreational facilities, situated on the Bankhead, all-weather route, with three railroads and many highways, Cisco is the best place in Texas to live and to work.

VOLUME XX.

CISCO, TEXAS, SUNDAY, FEBRUARY 25, 1940

NUMBER 172

CONTINUATION OF HULL PROGRAM IS SEEN

Through the Editor's Spectacles
By GEORGE

The house has passed by a good majority the bill to extend the reciprocal trade agreement program for another three years. Thus it has voted to give continued effect to the best thing that has come out of the New Deal. Curiously enough, it is one thing associated with the New Deal which did not originate either with the New Deal or in the brilliant intellectual culture that conceived and propagated the professorish abracadabra which was supposed to cure all the economic and social ills that beset the nation and ward off future woes. For the reciprocal trade agreements program was advocated long before the abecedarians poked their bright young foreheads above the class room lecture rail and deluded Mr. Big.

Political opponents of the administration and those whose passionate dislike or distrust of the New Deal is too great to allow them to be judicious will say that the victory in the house was a victory for Mr. Roosevelt. They will not be correct. At least they will not be entirely correct. The vote in the house, which echoes the sentiment of the majority of the nation, is a victory for unobtrusive, sound, persistent Sec'y of State Cordell Hull. Moreover, the trade agreement program is Mr. Hull's program. It wasn't Mr. Roosevelt's. More's the pity that other wise and experienced men could not have gained the White House confidence in the early days of the New Deal. But the regret cannot obscure the fact that the administration deserves credit for admitting the reciprocal trade agreements program as a fundamental of its foreign trade policy. It has preserved the only distinctly democratic thing in its museum of quaint and curious objects.

Hull argued long for the reciprocal program. He saw it as the soundest answer to the question of world peace, an answer that would remove the chief cause of international friction — high and unreasonable trade barriers. It was not possible under the condition of things, with every country looking across at the others from behind a breastwork of frowning tariffs, too at once and quickly wipe away American import duties, or reduce them to the desire level. That would invite disaster. It would serve the ends of the protectionist tariff barriers erected abroad against American and other foreign goods. Americans would buy much more abroad; the world would buy less of American.

It was, in the wise opinion of Mr. Hull, necessary to "trade out" with other countries and thus reduce the walls by the attritions of many treaties. The U. S.

Romance in Shadow of War

Symbolic scenes repeated daily all over Europe is this "Soldier's Farewell." The photographic silhouette was snapped in a London railroad station as a British Tommy said goodby to his sweetheart before returning to France.

Man Wanted Here in Robbery Taken

Chief of Police Perdue was notified by the bureau of identification of the state department of public safety Saturday that Charlie Skinner, wanted here on an indictment for burglary of the Norvell-Miller grocery store three years ago, had been arrested at Gatesville. Skinner was arrested by the Gatesville sheriff under the name of Cecil Edgar Miller. Fingerprints sent to the state bureau were found to be those of Skinner, wanted here for the Norvell-Miller robbery and also for the theft of cash from the Humble station on Eighth street and E. avenue. Cisco police lifted the fingerprints from the Norvell-Miller job and sent them to Austin.

An accomplice in the Humble station job was arrested. Cisco officers notified the sheriff's office at Eastland, where a hold order was issued to insure custody of Skinner when Gatesville authorities are through with him.

British Deny That Force Used To Seize Mail

LONDON, Feb. 24 (AP)—A British release declared Saturday that "it is authoritatively stated that no armed force of any kind" removed United States mail from a Pan-American flying boat at Bermuda January 18.

The announcement was in line with an official statement issued at Bermuda Friday asserting that a number of unarmed island constables merely created a "force majeure" situation against Capt. Charles A. Lorber, commander of the trans-Atlantic clipper who had protested against removal of the mail for British censorship.

(Prior to the Bermuda statement, it had been reported in New York that Captain Lorber's protest had been more than merely vigorous. A spectator, describing his unwillingness to surrender the mail, said the captain was accused of being "unpleasant." The chief censor was said to have decided that he had no alternative but to call "marines or soldiers" to take the mail.)

In Bermuda it was explained that unarmed constables and not "marines" constituted merely a "show of force" whereby Captain

41 NEW FIELDS DISCOVERED IN THIS SECTION

West-Central Texas Among Leading New Pool Districts

Discovery of 41 new oil fields or new producing horizons in west-central Texas during 1939 put this area in second place among the districts of the state on that item. For the second successive year, it is ranked as one of the leading sectors of the nation on new discoveries.

In Texas last year, the south Texas district had 90 new discoveries, to rank first. The north Texas region, with 35 new sources of petroleum production, came in third place. These figures are from a survey completed this week by the West-Central Oil & Gas association.

Wildcatting operations during 1939 added Nolan to the list of counties in the area reporting commercial production for the first time. The other 40 new discoveries were scattered among 12 counties. They were:

Coleman and Stonewall, 1 new field each; Callahan, Eastland, Palo Pinto, and Throckmorton, 2 each; Brown, 3; Jack, Shackelford, and Stephens, 4 each; Jones, 5; and Young, 10 new producing formations or fields.

The 1939 list of new discoveries in west-central Texas totals eight more than were reported from the same territory for 1938, when the figure on that item was 33, according to J. C. Watson, executive secretary of the West-Central Texas Oil & Gas association.

Only Kansas, with 46, and the south Texas district reported more new petroleum finds than were discovered in this area last year, the survey reveals. The widely heralded Illinois region had only 33, to rank behind three Texas districts.

All of Texas accounted for 204, or almost 50 per cent of the total of 477 new finds of the nation. The west-central Texas discoveries were 20 per cent of those of the state and 8.3 per cent of all the new finds of the United States. The large west Texas (Permian basin) district had nine new discoveries, and east Texas located three new horizons during the year.

Average depth of the new producing strata located in this district was 2,066 feet; the average of all the wildcat finds for all of Texas was 4,135 feet, and for the entire United States, 4,253 feet.

Many interesting and significant facts were discovered by the survey, according to Watson.

Independent operators made all but three of the new discoveries in this district. None of the new areas have been defined, and very little has been done to explore the producing possibilities in this region of the region — the places where most of the new discoveries in other areas are being made.

"The fact that during 1939, in the face of conditions that were far from favorable, the west-central territory continued to rank among the outstanding districts of the entire nation in reporting new discoveries of sources of petroleum production, indicates very forcibly," Watson says, "that this region is receiving increased attention and notice as a territory from which larger amounts of oil and gas will be produced during the immediate future."

Interest Increasing

"The further fact that we had more new discoveries in 1939 than we did in 1938 indicates also that the interest in this territory and the expenditure of money in it in the hunt for new fields is increasing, instead of falling off, as might be expected with the industry in general admitted to be in a rather unsatisfactory condition."

"One of the most interesting

Caged Beasts Die in Torture as Fire Sweeps Circus

Roars and screams sounded above the crackle of flames as 130 tortured jungle beasts roasted in their cages when fire swept the hay-filled winter quarters of Cole Bros. and Robbins circus in Rochester, Ind. Tame animals were freed by attendants, but wild beasts had to be left to die.

Finns Admit That Reds Hold Fortified Coastal Area

IS BASIS FOR NEW DRIVES ON VIIPURI

HELSENKI, Feb. 24 (AP)—The Finnish high command admitted Saturday that the Russians held the fortified coastal area of Koivisto and had made it the starting point of new drives toward Viipuri and against strategic islands in Viipuri Bay.

The daily communique declared "the enemy's losses were heavy" in these attacks but did not say whether the attacks were successful.

Until Saturday the Finns had not admitted loss of the Koivisto region, which had been the western anchor of the Mannerheim fortress line across the strategic Karelian Isthmus.

The communique listed Russian dead of more than 2,350 in Friday's fighting in addition to annihilation of two detachments of untrained size.

To the east, almost in the center of the isthmus front, the high command said two Russian detachments "which had penetrated our positions were wholly annihilated" and at Saimenkahta "the attacking enemy was hurled back and compelled to leave on the field over 1,000 killed."

1,000 Killed

The Finns said "about 1,000" Russians were killed on the eastern front in one sector northeast of Lake Ladoga and 350 others in the Kurmo sector, just below Finland's narrow waist.

Finland's commander-in-chief, Field Marshal Baron Carl Gustaf Mannerheim, Saturday welcomed Swedish and Norwegian volunteers into the Finnish army in an order of the day interpreted to mean a large number of these volunteers now are on the firing line.

As he voiced his gratification at the arrival of these much-needed replacements, Red army troops concentrated their unrelenting assaults on the Karelian Isthmus in a series of drives aimed at Viipuri.

Lines Still Holding

Despite the fury of the Russian offensive, which has continued uninterrupted since Feb. 1, the Finns said their lines outside the ghost city, cleared of its 74,000 population, still were holding fast.

(Continued on Page Six)

Teachers Ass'n Convention In Abilene in March

The annual convention of the Oilbelt district, Unit No. 7, of the Texas State Teachers association will be held in Abilene on Friday night, and Saturday, March 15 and 16, according to word from S. E. Pass, secretary, to Supt. R. N. Cluck.

The general sessions Friday night and Saturday will be held in the auditorium of the Abilene high school.

The two-day program will be as follows: Friday evening, 7:30—first general session, in the Abilene high school auditorium. Speakers: Dr. Walter E. Myer, director, Civic Education service, Washington, D. C.; Dr. Arthur F. Corey, director, public relations, California Teachers association.

Saturday morning, 9—second general session, Abilene high school auditorium. Speakers: Dr. George S. Counts, Columbia university; Dr. Harold Rugg, Columbia university; Mr. Charles H. Tennyson, president Texas State Teachers association.

Music: A Capella chorus, North Texas State Teachers college.

Saturday noon, luncheon as follows: School executives, ballroom, Hilton hotel; English, library group, Blue room, Hilton hotel; art section, high school cafeteria; homemaker group, ballroom, Wood.

(Continued on Page Six)

Census Supervisor Will Attend Cisco CofC Meeting

Jesse C. Shipman, supervisor of the census for the 17th congressional district, will be a guest of the Cisco chamber of commerce board of directors Tuesday night to discuss census cooperation in Cisco. Sec'y P. R. Warwick announced Saturday.

Mr. Shipman has been informed through area manager of the census, Walter S. Ruffner of Amarillo, that the area is in first place over the entire United States in the progress of the work done. Enumeration of manufacturers and businesses in Cisco was begun this week with County Supervisor Ed T. Cox and R. W. H. Kennon doing the work.

YOUTH RALLY IN EASTLAND TONIGHT

"The Methodist Youth Advance, and 'The Place of Youth in the Methodist Advance' will be the subjects of discussion by Stanley Davis of Stephenville and the Rev. P. W. Walker, pastor of the First Methodist church in Eastland, at the Youth Advance Rally to be held at the Eastland church this evening at 7:15. District Supt. Roy A. Langston will preside.

According to Miss Lela Latch, Cisco district director, this quadrennial in Methodist is set aside for the Youth Crusade. Last year, Bishop Ivan Lee Holt spoke in every district in the conference to thousands of young people, but this year, the young people themselves, and their adult directors, will be used to carry on this phase of the crusade.

Others who will appear on tonight's program will be Mary Louise Suddath of Abilene, James Rutledge of Ranger, Martha Rhee Dawkins of Dublin, and the Drago Harmony chorus. The main floor of the church will be reserved for the young people, and the balcony will be open to any others who wish to attend.

Approximately 30 from the Cisco First Methodist church are expected to attend, including Miss Latch, Rev. and Mrs. Roy A. Langston, Rev. Joe I. Patterson and Mrs. John Sertzer, workers in the young people's department.

Pope to Receive U. S. Undersecretary

VATICAN CITY, Feb. 24 (AP)—Pope Pius will receive Undersecretary of State Sumner Welles when he comes to Rome as President Roosevelt's emissary, a usually well-informed source said Saturday.

This informant said the pope probably would receive Myron C. Taylor, the president's special envoy, early next week so that Taylor would present Welles. The two American envoys, traveling together on the liner Rex, are due at Rome Sunday.

Welles, who is expected to see Premier Mussolini Monday, is scheduled to leave Rome for Berlin Wednesday.

OPPONENTS IN SENATE PLAN STRONG FIGHT

House Vote of 216 to 168 Favors Three Years Extension

WASHINGTON, Feb. 24 (AP)—Senate opponents conceded Saturday that the triumph of Secretary Hull's trade agreements program in the house Friday night foreshadowed continuation of the policy in some form.

They served notice, however, that they would make a vigorous effort to attach restrictive amendments to the extension bill, which the house approved 216 to 168.

The house vote, which gave the administration a victory in the first big legislative test of the session and strengthened Secretary Hull's position at a time when he was being mentioned as a possible democratic presidential nominee, shifted the battle over the trade agreements to the senate side of the capitol.

Up to the senators now is the question: Shall congress grant the executive branch of the government, for three more years, power to enter into reciprocal agreements with other countries concerning tariff reductions and other trade concessions? The present grant of authority along these lines expires June 12.

The senate opponents said they would line up behind these proposals:

1. An amendment requiring that the agreements be ratified by a two-thirds majority of the senate before they could become effective.

2. A proposal to set up a congressional "yardstick" providing limits on tariff reductions.

3. An amendment to eliminate the "most-favored-nation" theory of the existing reciprocal trade program, by which concessions granted one country are extended to all others which the government decides are not discriminating against United States goods.

Senator Adams of Colorado said the yardstick proposal would prohibit the reduction of tariffs below the point where the production cost of foreign goods, plus the tariff, would be less than the cost of production of competing American goods. Support for this idea came from Senator Taft of Ohio.

Adams and Taft also favored elimination of the "most-favored-nation" policy.

Solid GOP Opposition

Senator McNary of Oregon, the republican leader, predicted that virtually all republicans would vote against continuance of the trade program.

The Senate Finance committee will begin hearings on the house-approved bill Monday, and Chairman Harrison said he expected to send the measure to the senate floor by next week-end. Secretary Hull will be the first witness.

Democratic Leader Barkley of Kentucky, expressing confidence that the measure would be approved in its present form, said that senate debate might be completed in a week.

Leaders reported that a recent administration poll showed the crucial vote on senate ratification of the agreements would produce a clear majority against ratification.

The proposal that senate ratification

BIBLE THOUGHT FOR TODAY

My soul shall be satisfied, even as it were with marrow and fatness, when my mouth praiseth Thee with joyful lips.—Ps. lxiii, 5.

No more to fear or grief I bow
God and the angels love me now.
The joys prepared for me today
Drive fear and mourning far away.
—HINMAN.

Why not speak as though mankind were always on the eve of great catastrophe of great joy? If you have learned to let your glance rest on uncertainty, simplicity, truth, you will ever discover, deep down in all things, the silent over-powering victory of that which you love.—Mastermex.

Retailers Are Optimistic

WHEN the Chicago Association of Commerce finished tabulating orders placed during the past few weeks by 18,000 jobbers who attended the city's 20-odd annual trade shows, officials announced cheerfully that business had jumped by 15 per cent over that of the preceding year.

Brisk holiday trade generally accounted for the enthusiasm with which buyers from

all over the United States and Canada were turning in orders. Encouraged by the business turnover around Christmas, retailers foresee continuation of favorable conditions during the year rather than a let-down.

It is a healthy indication. The last persons in the world to be led too easily along paths of false optimism are the retailers, who would find themselves hopelessly stuck if business collapsed while they carried large inventories in their storehouses.

No Immunity for Neutrals

BOTH Britain and Germany are reading the Riot act to befuddled Norway as a result of the Altmark incident.

It doesn't matter who's right according to international law, because this code of nations during war, is pretty much like gangland ethics. The act of war itself is a gross violation of fundamental rules of conduct, and any gentlemen's code to govern butchery is a bitter travesty.

The victim of criminal acts is, of course, Norway; and Britain and Germany together share the guilt for bringing the war and its legal problems into Norwegian waters. It is not fair to project neutrals into the dispute.

If there must be war, the best way to conduct it, if it were possible, would be to rope off areas somewhere strictly within the belligerents' own territories and then to send the armies in with a final, if futile, admonition not to hit below the belt.

Two police horses in New York rebelled at routine and enjoyed a half-hour spree in Greenwich Village the other day. After 30 minutes of the Village, they didn't object to going back to civilization.

Those Social Security workers in Baltimore, arrested after a strip-tease stag party, are disillusioned by the lack of security in their social lives.

The Dies committee frowns at the idea of getting Father Coughlin on the stand. Apparently the endorsement of William Dudley Pelley is about all it can stand in one month.

A Knoxville, Tenn., woman who went to see "Gone With the Wind" didn't return home for two days. Undoubtedly she intends soon to see the rest of the picture.

semi-commercial pilot plant has been in operation for several months making an edible whole dehydrated product for use in fancy baking. Some 1,500 pounds of this commodity has been sampled in various sections of the state, and school officials, working in cooperation with the Denton chamber of commerce bureau, who have been assisting financially with the project, report most favorable results. Plans are now under way for enlargement of this industry.

Mr. Wilson has announced that his dehydration, commonly referred to as the "Wilson Press," will be completed in commercial form for display during the coming spring display.

North Texas State Teachers college offered the first chemistry course of instruction in the United States last summer under the direction of Mr. Wilson. Industrial research facilities have been ex-

"Take That!"

Federal Old-Age and Survivors Insurance

(Editor's Note: The following is the tenth of a series of articles prepared by W. O. King, manager of the Abilene, Texas, Social Security board field office, to be published in this newspaper. The information contained in the articles is educational and for the public in general and the wage earners in particular. For additional information concerning the federal old-age and survivors insurance program, our readers are requested to contact the Social Security board field office, located at 205 Alexander building.)

EARLY PAYMENTS OF MONTHLY BENEFITS

Qualifications necessary to receive monthly benefits in 1940 are that a claimant must show that he has attained age 65 and has been employed in commerce or industry at a pay rate of \$50 or more in each of six different calendar quarters since 1936. Example: A mechanic who will be 65 in December was employed by a garage for 2 weeks in January, a week each in April and September 1937. Then in 1938 he had a part-time milling job during March, for 3 weeks in August, and during December. Since he worked some part of the 3-month period

in six different quarters, with wages amounting to \$50 or more in each, he should be eligible for monthly benefits next year.

If a 65-year-old worker does not have enough wage credits to qualify for monthly benefits, he may build up sufficient credits by continuing to work in covered employment. Wages received during 1937 and 1938 count toward old-age insurance benefits, only if they were received before the worker's 65th birthday. Since the law has been changed, wages earned after 1938 count toward benefits, regardless of the worker's age.

Example: Mr. A. who is 66, is a part-time store clerk. During 1937 he was paid \$50 or more in each of two calendar quarters. Prior to his 65th birthday in 1938 he also received \$50 in wages during one quarter. In 1939, he was paid another \$50 in wages. If he continues to work and earn wages of \$50 or more during the last quarter of 1939 and the first quarter of 1940, he will have six months of coverage and will be eligible for monthly benefits.

Tomorrow: How Changes in the Law Will Benefit Older Workers.

Michigan, although an inland state, has the longest coastline of any state in the union, more than 3,000 miles. The Atlantic coast line is 1,773 nautical miles.

For relaxation, Andre Tardieu, former French premier, reads American detective stories.

Items of Interest From Putnam

Last Tuesday evening the Putnam school board elected R. F. Webb as superintendent of the Putnam schools for the 1940-41 term. This makes the 14th consecutive time that Mr. Webb has been elected. Other teachers elected were J. G. Overton and W. N. Byrd.

Jessie Lee McIntosh, daughter of Mr. and Mrs. Poe McIntosh, was run over by a car late Tuesday afternoon. Jessie's right leg was broken just above the ankle, one eye received injury, and her body was bruised. She was taken to the Graham sanitarium in Cisco for treatment.

Mr. and Mrs. Neal Moore of Cisco spent Sunday in Putnam visiting friends and relatives.

Miss Tassie Jackson has returned from Mineral Wells, where she has been visiting.

Mr. and Mrs. Lee Francis, and Mr. and Mrs. Cliff Francisco of Fort Worth were visitors in the home of Mr. and Mrs. W. A. Ramsey Sunday afternoon.

Mr. and Mrs. W. P. Stephens were called to the bedside of their daughter, Mrs. Doris Stovall, of Hobbs, New Mexico, Friday.

Last Wednesday noon the radio arts class of the Putnam high school presented a 15-minute broadcast over the PA system. Miss Mary Lou Eubanks announced the following program:

A reading, "George Washington at School," by Lexie Dean Pruet; a song, "The Waltz You Saved for Me," by the Scatterbrains; and a playlet, "Truthful George," by high school students.

Butter was used by the Arabs since the earliest times.

Farm Chemurgic Conference to Be Held at Denton

DENTON, Feb. 24 (Spe).—An all-Texas farm chemurgic conference will be held at North Texas State Teachers college, April 26-27 featuring chemurgic subjects that hold immediate industrial possibilities to Texas, according to President W. J. McConnell of the college.

This will mark the second annual chemurgic conference held

at Denton. Plans have been announced for extending the scope of interest in the coming meeting by presenting phases of the movement to all sections of Texas. To coordinate the program President McConnell has invited representatives of the South Texas, East Texas and West Texas chamber of commerce to sit as a board of governors in arranging the program.

Interest in farm chemurgy in Texas has reached new highs during the past year with the completion of the Lufkin newsprint mill, using for the first time in the world southern pine. Other interesting developments have come from the chemurgic laboratories at North Texas State Teachers college, where Gilbert C. Wilson, farm industrial chemist, has been undertaking extensive research on the dehydration of the sweet potato. In furtherance of this work a

semi-commercial pilot plant has been in operation for several months making an edible whole dehydrated product for use in fancy baking. Some 1,500 pounds of this commodity has been sampled in various sections of the state, and school officials, working in cooperation with the Denton chamber of commerce bureau, who have been assisting financially with the project, report most favorable results. Plans are now under way for enlargement of this industry.

Mr. Wilson has announced that his dehydration, commonly referred to as the "Wilson Press," will be completed in commercial form for display during the coming spring display.

North Texas State Teachers college offered the first chemistry course of instruction in the United States last summer under the direction of Mr. Wilson. Industrial research facilities have been ex-

Safety Shorts

From Oil Belt Safety Council

Automobile drivers, your question for today from the Oil Belt Safety Council is this:

How much difference does ice on the pavement make in the distance needed to stop your car at 20 miles an hour?

Well, that is a pretty tough one, but a good driver should know the answer. Driving at 20 miles an hour on dry pavement, it takes the average driver 41 feet to stop. But on glare ice the same driver could not stop in less than 135 feet! Even with chains on all four wheels it takes 73 feet to stop on glare ice!

Buffoons were originally mountebanks in Roman theaters.

Political Announcements

The Cisco Daily Press is authorized to announce the following as candidates for the offices under which their names appear, subject to the action of the voters in the democratic primaries of 1940.

For Congress—

LEAVE 'EM WHERE THEY LIE

Hemorrhage—Leave 'Em Where They Lie

What should you do in case of hemorrhage? Don't get excited—look carefully and see what kind of bleeding it is. If it is just oozing or coming freely from a vein (not squirting) put your handkerchief, shaken out and dry, into the wound and hold it or hold it there snugly—CAUTION, NOT TIGHT. A tight bandage around the limb stops the blood from passing through other veins and makes the injured one bleed more.

If, after a few minutes (given time to cool) the handkerchief or paper is soaked, remove it and at once put in another DRY one. A few changes at most will stop the oozing or venous bleeding. If NOT BLEEDING TOO TIGHT. You can make a man bleed to death by using something tight around the limb above a wound. Light pressure as described above will stop bleeding.

Leave 'em where they lie. Treat shock.

Prepared by the Fracture Committee, Texas State Medical Association, sponsored by Texas State Highway Department and Texas Public Safety Commission.

Texas Has Passed Halfway Mark in Soil Conservation

COLLEGE STATION, Feb. 24 (S.P.) — Texas has passed the halfway mark in soil and water conservation.

Estimates compiled from county agricultural agents' reports show that some 30,000,000 acres of Texas crop land because of slope, amount of rainfall and type of soil need conservation measures to hold soil and rainfall.

At the end of 1939, the score of the 24-year-old conservation campaign stood: Protected, 16,000,000 acres; unprotected, 14,500,000 acres.

The past year saw 766,211 acres of crop land terraced, according to M. R. Bentley and C. (Dutch) Hohn of the Texas A. & M. Extension service. County-owned tractor-grader outfits in 172 counties accounted for 410,991 acres of this total.

Furrow damming and pit cultivation, two relatively new conservation practices, were especially popular in the Panhandle and South Plains area, with 426,625 acres protected by furrow damming and 1,254,699 by pit cultivation. An estimated 1,500,000 acres were farmed on the contour for the first time.

New records were set in conservation measures on pastures and range land as 56,689 acres of grassland were terraced; 97,800 ridged; 195,736 contour-furrowed, and 30,904 acres chisled or subsoiled.

Spreader Dams
Spreader dams built in 1939 will divert run-off water and spread it over 108,853 acres of grassland.

Much of the work on range and pasture land was done in cooperation with the AAA's range conservation program.

"Although we started this work back in 1916, and 24 years later have only reached half of the Texas crop land, the job really is more than half done," Bentley said. He pointed out that demonstration plots always precede action, and that most farmers and ranchers now are satisfied that conservation measures are practical.

"For many years county agents, vocational teachers, and farm leaders fought this problem by themselves," he added. "Now they have the help of such agencies as the Soil Conservation Service, the AAA, the NYA, and the Farm Security Administration. The county commissioners' courts are making their equipment available, lack of which formerly presented a big problem.

"Now that Texas is organizing soil conservation districts, the whole tempo of conservation will be speeded up. The same can be said for the work of the county land use planning committees. "The job will not be finished within the next few years, and I doubt if it ever will be completed. Even when all the land is protect-

The Rev. Dallas Baggett of Bentonville, Arkansas, who will conduct revival services at the Church of the Nazarene, beginning Tuesday night.

Revival Services At Church of Nazarene

The Rev. Dallas Baggett of Bentonville, Arkansas, will begin a series of revival services at the Church of the Nazarene Tuesday evening at 7:30, it was announced Saturday by the Rev. Luther Pryor, pastor of the church.

The services will be held nightly, continuing through two weeks, and the public is cordially invited to attend.

ed by some conservation practice, farmers should improve upon what has been done in the light of improvements in technique."

The year 1940 is the 600th anniversary of Chaucer's birth, the centenary of the first postage stamp and (approximately) the centenary of the first practical photograph.

In 13 states—Florida, Georgia, Idaho, Indiana, Kentucky, Mississippi, Nebraska, New Hampshire, Tennessee, North Carolina, South Dakota, Texas and Vermont—the whole cost of general relief is borne by local governments.

Two leading ports of both soviet Russia and Finland are located on the gulf coast of the isthmus of Karelia — Leningrad and Viipuri (Viborg).

In Virginia, state relief funds are granted to counties on a population basis but county officials must match every state dollar with 60 cents of county funds.

President James Monroe was first buried in Marble cemetery, New York city, but was later interred in Hollywood cemetery, Richmond, Va.

41 New Fields-- (Continued from Page One)

facts that we get from this survey is that practically all of our development in this area is still from comparatively shallow horizons. The average depth of our new discoveries last year was less than half of the average of the new discoveries in the state as a whole. This would indicate that we can still expect much oil to be produced from the comparatively shallow sands, and that further, when we drill our wells deeper, we likely will locate many other and possibly more prolific sources of petroleum production in the counties that compose the west-central Texas district.

"A study of these items should cause every citizen of our territory to look with renewed optimism toward the future and the possibilities it offers to all of us for more extensive developments and more widespread benefits from a continuation of the activities of the oil industry in this district."

By Counties
The new discoveries of the west-central district by counties for 1939 follow. The name of the operator, fee owner, location, date of discovery, depth, and initial production are given in the above stated order for each new discovery:

Brown County
Curtis Norman et al's No. 1 S. Rice, blk. 127, Chas. Messer survey, April 4, 97 feet, 8 barrels.

Jack County
A. E. Sewel et al's No. 2 George Edwards, BBB&C Ry. survey A-104, February 15, 344 feet, 5 barrels.

Robertson County
Pitzer & West et al's No. 1 F. Warren, TE&L, section 2,784, February 26, 4,418 feet, 167 barrels.

Nelson County
Nelson Oil syndicate's No. 1 O. M. Bridwell, T. B. Riddle survey A-1647, August 16, 4,405 feet, 1,660 barrels.

R. D. Compton et al's No. 1
Robert Wilson, H. H. Fuquany survey A-217, February 22, 386 feet, 20 barrels.

Jones County
T. D. Humphrey's No. 2 Guitar, section 44, blk. 15, T&P survey in Guitar pool, June 9, 2,139, 40 barrels.

and Mudgett survey, near Grosvenor, April 4, 1,309 feet, 110 barrels.

J. C. Hart & Sons' No. 4-B
Richmond, Mose Little survey, SW of Smith-Ellis pool, August 21, no information on depth or production.

Callahan County
L. A. Warren et al's No. 1 R. D. Williams-Wittmer, S. P. Ry., section 302, July 18, 596 barrels.

L. A. Warren et al's No. 1 B. P. Cozart M. Cherry survey A-110,
April 21, 596 feet, 61 barrels.

Coleman County
Anzac Oil corporation & Semmes' No. 4-C J. P. Morris, 5,200 feet from D. Breeding survey 728, May 22, 2,191 feet, 2,200 barrels.

Eastland County
W. J. Dobbs Oil Corp.'s No. 1 W. J. Greer, J. E. Hardy survey, May 26, 2,660 feet, 87 barrels.

Lone Star Gas Co's No. 1 G. P. Mitcham, section 478, S. P. survey,
June 16, 3,890 feet, 2,309,000 cubic feet of gas.

Jack County
A. E. Sewel et al's No. 2 George Edwards, BBB&C Ry. survey A-104, February 15, 344 feet, 5 barrels.

Pitzer & West et al's No. 1 F. Warren, TE&L, section 2,784, February 26, 4,418 feet, 167 barrels.

Nelson Oil syndicate's No. 1 O. M. Bridwell, T. B. Riddle survey A-1647, August 16, 4,405 feet, 1,660 barrels.

R. D. Compton et al's No. 1 Robert Wilson, H. H. Fuquany survey A-217, February 22, 386 feet, 20 barrels.

Jones County
T. D. Humphrey's No. 2 Guitar, section 44, blk. 15, T&P survey in Guitar pool, June 9, 2,139, 40 barrels.

R. R. Carroll's No. 2 Herndon, sub. 3, Gollad C. S. L. survey 359, December 12, 2,895 feet, 10 barrels.

Kittery Oil Co.-J. L. Douglas'
No. 1 J. M. Blanton, S. L. Underwood survey 1, July 8, 1,632 feet, 53 barrels.

N. H. Martin & Son's No. 1
Wirt Davis, sub. 7, Mrs. F. M. Smyth survey 3, September 11, 1,716 feet, 35 barrels.

J. H. Sprouls et al's No. 1 J. Nichols, T&P section 47, blk. 16,
February 18, 1,791 feet, 15 barrels.

Nolan County
Green & Owens et al's (now Hose & Metcalfe) No. 1 S. C. Tipton, section 43, T&P blk. 19, 4-370 feet, 116 barrels.

Palo Pinto County
J. W. Lane and W. D. Dilbeck's No. 1 Dalton, section 1789, TE&L survey, March 2, 1,220 feet, 75 barrels.

Post Oak Oil Co.'s No. 1 R. S. Dalton, NE 1-4 section 1789, TE&L survey, February, 1,240 feet, 12 barrels.

Shackelford County
Jessie L. Douglas' No. 1 W. D. Baker, section 210, E. T. survey, January 6, 1,883 feet, 50 barrels.

Roeser & Pendleton, Inc.-Continental Oil Co.'s Cook 2-A-89,
near E. T. Ry., section 89, July 29, 1,464 feet, 3,000,000 cubic feet of gas.

B. & F. Bonded Cotton Warehouse Co.'s No. 1 E. Shell, near NWc section 14, Blind Asylum lands, September 13, 622 feet, 5 barrels.

Fain McGaha Oil Corp. et al's No. 1 E. S. Dawson-Conway, P. G. Holcomb survey, September 18, 1,496 feet, 37 barrels.

Stephens County
Wittmer Oil & Gas Properties-Knight & Ewing's No. 2 B. D. Loving, C NW NE section 11, Orphan Asylum lands, November 28, 2,263 feet, 6,000,000,000 cubic feet of gas.

Wittmer Oil & Gas Properties-Knight & Ewing's No. 1 B. D. Loving, section 66, Blind Asylum lands September 10, 3,512 feet, 1,200 barrels.

T. G. Shaw, Tr., No. 1 S. P. Stroud, G. W. Newton survey A-128, October 21, 2,602 feet, 140 barrels.

George E. Fagg's No. 1 W. B. Richardson, section 5, blk. 3, S. P. survey, December 5, 4,028 feet, 232 barrels.

Stonewall County
Forest Development Co. and King Drilling Co.'s No. 1 Boyd, section 45, blk. D, H&T survey, April 1, 4,690 feet, 188 barrels.

Throckmorton County
Industrial Oil Corp.-A. G. Bedner's No. 1 T. Morrison, TE&L survey, section 1614, April 832, 12 barrels.

Payne & Patterson's No. 1 R. W. Kelly, SW 1-2 section 2, J. B. Graham survey, A-1412, April, 778 feet, 23 barrels.

Young County
K. R. March et al's No. 1 Hunt-McClatchey, TE&L, section 79, March, 1,134 feet, 40 barrels.

Carl Leidecker-Bryson Oil & Gas Co's No. 1 J. M. Nall, TE&L, section 1997, June, 4,465 feet, 1-248 barrels.

G. A. Langlie-R. G. Flato-Geo. Haddaway's No. 1 T. F. Harmon, Susan Sallee survey, March, 590 feet, 8 barrels.

E. W. Hunt et al's No. 1 H. M. Goss, TE&L, section 1592, October, 1,221 feet, 5 barrels.

C. W. Clark et al's No. 1 H. M. Goss, TE&L, section 1592, February, 1,207 feet, 4 barrels.

R. R. Brader-O. Groves et al's No. 1 J. L. Clark, C. Newhaus survey A-1814, February, 3,865

feet, 43 barrels.

Coston Petroleum Co.'s No. 1 Shanafelt, section 11, AB&M survey, September 16, 2,800 feet, 283 barrels.

Mid-Continent Petroleum Corp.'s No. 16-B R. D. Owens, R. D. Owens survey A-2245, March, 4-005 feet, 401 barrels.

W. E. Production Co's No. 1 W. J. Dodd, TE&L, section 647, July, 4,394 feet, 192 barrels.

Henry Zweifel et al's No. 1 R. L. Martin, J. Gates survey A-111, January 11, 2,518 feet, 11,000,000 cubic feet of gas.

TALLEY WINS
NEW YORK, Feb. 24 — Marion Talley's battle for custody of her 5-year-old daughter terminated Saturday in victory for the singer.

CARD OF THANKS
We wish to express our sincere appreciation to our many friends who freely offered themselves as blood donors and who in our bereavement so kindly extended their heartfelt expressions of sympathy.

C. U. HORN and Family.

MAKES COOKING A JOY . . . INSTEAD OF A JOB

JUST imagine the gleaming whiteness of a new Magic Chef Gas Range in your kitchen. But you can't imagine what a joy it is to cook on till you actually use it. Baking, broiling, top-stove cooking—all go so much easier and better.

EXCLUSIVE Magic Chef features: Red Wheel Oven Regulator, Automatic lighting burners, adjustable from simmer to fast fire, smokeless-type broiler and other modern conveniences.

LIFETIME BURNER GUARANTEE: All Magic Chef burners are guaranteed to the original purchaser against burning out or losing efficiency during the life of the range.

"There Is No Substitute for Personal Service" CISCO GAS CORP.

Magic Chef SHINING WHITE ENAMEL WITH TIMER, LIGHT AND CONDIMENT SET.

IF THE CISCO DAILY PRESS had been published in the old days, a famous Greek legend would never have been written. Old Diogenes would have put up his lantern, spent his evenings playing pinocle and found his honest man in a jiffy with a two-line Want Ad.

For the CISCO DAILY PRESS Want Ads are like the famous Mounties. They invariably "get their man"—which means that they do what you want and expect them to do. If you're trying to sell your furniture or your home, if you are looking for a renter or a roomer, if you want to buy a business or a band-wagon, remember that a Want Ad will find your man and do the job for you quickly, easily, economically.

READ AND USE THE WANT ADS IN THE THE CISCO DAILY PRESS NEARLY EVERYBODY ELSE DOES! Call 608 and Phone Your Ad In

"DIRECT TO THE POINT"
"A straight line is the shortest distance between two points. In advertising I have found the classifieds to be just that! They are the most direct link between the "I Need's" and the "You Have's."

SERIAL STORY

\$15 A WEEK

BY LOUISE HOLMES

COPYRIGHT, 1940, NEA SERVICE, INC.

CAST OF CHARACTERS
ANN BROWN—orphan daughter of a gambler, alone in an unfriendly city.

PAUL HAYDEN—stock room boy with ambition.

STEVE CLAYBOURNE—wealthy playboy.

CLARA BROOKS—dime store counter girl.

IRENE TEMPLE—society debutante.

YESTERDAY: Sewing on her dress at the Center, a community house for girls, Ann recalls her father's watch, probably won in a card game. The inscription, "To Peter Temple," has always intrigued her. She remembers her letter to "Lonely," decides not to send it.

CHAPTER IV
Ann did not destroy the answer to K293's personal. The element of uncertainty and excitement connected with her writing had lightened her mood, given her a most unusual sense of elation. Dangerous or not, she had to follow the tiny thread of adventure.

"After all," she thought, "it might lead somewhere. I'll just wait and see what happens. I can make a graceful exit any time."

She mailed the letter in a box on Wabsh. Her step was light and her eyes sparkled as she hurried to Mrs. Pringle's shop.

Working over a brown moire hat, trying to modernize its obsolete lines, she mentioned the subject of newspaper personals to Mrs. Pringle. She mentioned it in a general way. "Do you ever read the personal column in the paper?" she asked.

"I never have time to look at a paper."

"I wonder what sort of person uses that means of approach."

The untidy woman looked at Ann shrewdly. "Matrimonial approach?" she inquired.

"I don't know—just any kind. Mightn't an individual be so desperately lonely that he, or she, would put a feeler in the paper?" Ann's head was bent over the steaming machine.

"I think he, or she, would be pretty hard up."

There was a silence while Ann smoothed the crown. Mrs. Pringle drew a long thread from a spool and snipped it off with her discolored teeth.

"Young girls shouldn't fool around with things like that," she said at last. "There's too much devilry going on in a city like this, too many racketeers on the lookout for girls who are alone and unprotected."

Ann nodded. "I was just thinking out loud," she said.

In spite of the sage advice, Ann was excited. What would Lonely say when he wrote again? If his answer sounded all right—if they arranged a meeting—her new dress would be just the thing. The double-breasted jacket gave it the appearance of a suit—perfect for the warm spring weather. This was Wednesday—she and Lonely

might meet before the end of the week.

How did two strangers know each other? A flower on the lapel was the accepted sign, she believed. Saturday—you could buy gardenias for a dime on Saturday—Saturday—

That evening Ann prepared and ate, a most sketchy supper. Adventure beckoned and adventure made necessary a new dress, also a matching hat. She had a clever idea in mind, two pancakes of dark blue taffeta, the top pancake tilting upward at the back, the finished creation to be worn over one eyebrow, held there by a shirred elastic. It would cost almost nothing.

Could she afford a new pair of gloves? She consulted her budget. The budget always had the last word. Only by strict adherence to its dictates was she able to keep even, and keeping even was an obsession with Ann.

Her mind had been scorched since childhood by the lack of money at a given time and the subsequent problems. Pete had been airy on financial subjects, Ann's mother uncomplaining, adapting herself to the spending whims of her husband. It was Ann who had worried and fretted. She had become a dollar stretcher of note. Now, with \$15 a week at her disposal, she spread it thin and efficiently.

Ten dollars a month for room rent, ten dollars for food, carfare—this was quite an item—clothes, cosmetics—she had learned that large quantities paid—insurance—this provided hospitalization and a neat burial if necessary.

Once a week Ann took herself to a picture show. It was an extravagance, but her youth demanded some small joy. Often she sat twice through the picture, absorbing the beauty and romance, reluctant to step from the shimmering world of make-believe back into her own drab niche. Each Sunday morning she put 15 cents in the collection plate at the neighborhood church.

The budget was ironclad but, now and then, a few cents remained from the food fund, occasionally a pair of hose proved to be made of sterner stuff than its fellows. It was by hoarding these small pinnacles that the silver spoons were made possible. Later forks were to be added, one by one, then knives. After that, linens and dishes.

During her lunch hour, Ann lingered in the linen departments of the big stores, touching the heavy damasks with aching fingers. After much wishful shopping, she had chosen her dishes, creamy wedgewood with a quaint spray of flowers on each piece. Often she went to look at her dishes.

Yes, she could afford a pair of gloves, dark blue kid, \$1 and the tax. Ann always sighed over the tax. It broke into so many nickels. For a moment her mind dwelt longingly on blue kid shoes. The budget was sternly adamant and

STORIES IN STAMPS

Iceland Puts Natural Hot Springs to Work

THE geysers, pictured on the Iceland stamp above, may someday be heating an Icelander's house. The thrifty islanders don't believe in letting all that hot water go to waste. Already hot water from many of Iceland's volcanic springs is piped into the capital to provide heat for homes and buildings.

Iceland is not the only nation to honor its geysers with a stamp. In 1934, the United States issued a picture of Old Faithful in action on the Yellowstone 5-cent stamp of the National Parks issue.

BOHEMIA and Moravia have issued two new personal delivery stamps in the triangular shape, above. The stamps were released in red and blue.

she pigeonholed the longing. She made a practice of pigeonholing her wishes, not putting them entirely from her mind. Some day she would have blue kid shoes.

Ann had once read, "If you want a thing badly enough, and are willing to work, you will attain that thing." She heartily endorsed the theory of having no confidence in the "wishing will make it so" school of thought.

As she started for the Center that night her room was faintly illuminated by a glow and she turned back, hand on the door knob. The young man threw off his suit coat and stretched wearily. He looked strong when he stretched. Ann noted the breadth of his shoulders and the bigness of his chest. He stood beside his table, absently looking over a pile of books. Apparently changing his mind, he sat down at the table with his back to Ann. She saw him dip a pen into a bottle of ink.

Ann closed her door and ran down the stairs, thinking, "I really shouldn't spy on him, but why doesn't he draw his blind?" She never tarried in the hall. The landlady had a pallid-faced son whom she preferred not to meet. Walking briskly to the Center, she wondered about the young man in the lighted window. His voice

had been kind, if casual. What happened when he smiled? Did he have a sense of humor.

"I hope Lonely has a sense of humor," she thought. "You've got to see the funny side of things. People like us couldn't stand it if we took things seriously."

The dressmaking went well that night. One more session and the Irene Temple dress would be finished. A little of Ann's thrilled excitement went into the dress in the form of extravagantly stitched pockets and a pleated bustle effect in the back. Two strange girls talked as they made evening gowns of cheap, slazy materials. Ann listened idly to their chatter.

"He's the cutest fella I ever seen," one of the girls said. "And can he dance! Just like Fred Astaire, I'm telling you."

"Yeah," the other girl answered. "but gimme the trumpet player. I been working on that guy for six months and he finally gave me a tumble. We're getting hitched next month."

"Gee—you're lucky." She spoke enviously. "All the girls are getting married. It's the life all right."

In Ann's brief experience she had noticed that marriage was the everlasting aim. Most of the girls in the 10-cent stores and the bargain basements wore wedding rings. The girl at the notion counter had her eye on a truck driver; he was her "boy friend."

In most instances the bridegrooms-to-be, and the young husbands, were poorly paid stock boys

or delivery men, making no more than the girls whom they married. It simply meant that some uncomfortable apartment would house a man and a girl instead of two girls. The odd thing about it was the pride and smug satisfaction with which the brides flaunted their wedding rings.

Why was a wedding ring of such vast importance? Ann could not figure it out. She had never been in love and had no intention of experimenting with the emotion. Her mind ran along avenues of purpose and achievement. Listening to the man-chatter of the two girls, she was horrified at her own weakness in having answered the personal. When it was all said and done, she was employing the same methods as the girls who went to the public dance halls in search of companionship.

In spite of a guilty conscience, she went to sleep with the eager thought of receiving a letter from Lonely on the morrow.

(To Be Continued)

Nearly 200 alphabets are known, of which about 50 are in general use.

CARD OF THANKS
The West Ward Parent-Teacher association wishes to take this opportunity of expressing its gratitude of all who helped to make Friday night's quiz program a success, especially A-G Motor company, who furnished the public address system, and the Hitson-Schaefer-Judia orchestra. To those who participated in any way, the P-TA extends its thanks.

Says Advertising Is Inevitable

ST. LOUIS, Mo., Feb. 24 (AP)—Donald E. Montgomery told the Consumer Education association Friday that advertising is "as everlasting and as inevitable as eating."

"It started when the first man took a stone and scratched a sign on another stone saying he had a goat to sell," Montgomery said. "It will continue until the next to the last man hoists a flag to announce a superstratosphere plane for sale, guaranteed to reach Mars overnight, non-stop."

Montgomery is consumers' counsel of the department of agriculture, but he emphasized in his address that he spoke as a private citizen and not as a government official.

The number of stars that can be seen by a person of average eyesight is said to be about 7,000.

Domestic money orders in the United States first were issued on November 1, 1864.

SUBS DESTROYED

PARIS, Feb. 24 (AP)—French military advices said Saturday German submarines were destroyed Friday in the North sea. French reports Friday said a new German fleet of submarines had been sent to sea.

PLANES DRIVEN BACK

BERLIN, Feb. 24 (AP)—The German high command Saturday reported French warplanes had made reconnaissance flights over the border, but that they were driven back.

"Kentish Fire" was a term given to the continuous cheering and clapping of hands at Protestant meetings held in Kent, England, about 1828.

Advertising is not an expense—its the life blood of any business.

BRITONS LAND IN BELGIUM BRUSSELS, Feb. 24 (AP)—A damaged British bomber landed early Saturday near Gembloux and police arrested its crew of six.

The plane landed in a beet field after firing a rocket. One wing of the ship was partly burned.

Merry Quints Will Be Heard in Recital at Eastland

Above are pictured the "Merry Quints," a talented group of young Cisco girls, all students of Miss Wilda Drago, Eastland.

DAR Has George Washington Luncheon at Spears Home

Members of the Cisco chapter of the Daughters of the American Revolution, and their guests, attended a George Washington luncheon at the home of Mrs. Alex Spears Thursday at one o'clock.

The Spears home was attractively decorated in United States flags, and flowers in red, white and blue.

Mrs. Lee Clark, chairman of early American music, presented Hjalmar Bergh in a piano selection of his own composition, and two selections of American composers.

Each member introduced her guests, after which Mrs. Philip Petit, regent, presented Mrs. C. R. West, program chairman. Mrs. West introduced Mrs. Joseph Perkins of Eastland, president of the Texas Federation of Women's clubs, and a member of the local chapter of DAR, emphasizing that

the chapter was honoring her for her loyal work in club activities.

An interesting feature of the meeting was a dress worn by Mrs. John Stiles. The dress had belonged to her great-grandmother, and had cost \$15 a yard.

Members and guests present for the meeting were Meses, Joseph Perkins, Frank Castleberry and Albert Taylor of Eastland, Albert Gleason of Boston, Mass., C. R. West, W. C. McDaniel, W. W. Wallace, F. D. Pierce, John Elkins, Lee Clark, Homer Slicker, Phillip Pettit, E. P. Crawford, Sam Kimmell, H. E. McGowan, R. E. Carswell, J. E. Crawford, K. H. Pittard, C. H. Fee, John Stiles, William Reagan, Lee Owen, Mr. Bergh and Mrs. Spears.

Grammar School G. A. At Church Wednesday

The Grammar G. A. of the First Baptist church met at the church Wednesday evening at 4 o'clock.

High School PTA Meets On Monday

The High School Parent-Teacher association met in regular session Monday afternoon in the school auditorium.

Mrs. L. E. Boyd, program chairman, presented high school Principal O. L. Stamey in a very interesting talk on "Citizenship Training."

Plans for a program to be given in the near future were discussed. The program will include a "womanless wedding" and other entertaining features, it was stated.

S. S. D. Club Meets with Helen Draganis

The S. S. D. club met with Miss Helen Draganis Saturday afternoon. The business session was presided over by the president, Miss Brenda Warwick, after which refreshments were served.

The following members were present: Misses Lillian Spears, Helen Draganis, Brenda Warwick, Jane Gilman, Dorothy Childress, Marilyn Shertzer and Berna Goldberg.

There were 30 senators in the first congress of the United States.

gram was on "Laborers Together With God."

Those present were Virginia Eudy, Ruby Etheridge, Dorothy Etheridge, Louise Norris and Marthat Helen Brecheen.

Ciscoan Becomes Bride in Saturday Morning Ceremony

Miss Irma Thetford of Cisco, and J. L. Webster of Groesbeck were married at the home of the bride's grandparents, Mr. and Mrs. Lee Thetford, Saturday morning at 11:45.

The couple left immediately after the ceremony for their home in Groesbeck. Mrs. Webster is the daughter of Mr. and Mrs. Roy Thetford of Cisco.

Relatives and friends who attended the ceremony were: Mr. and Mrs. Lee Thetford, Mr. and Mrs. Roy Thetford, Mr. and Mrs. Roy Webster, Groesbeck, Mr. and Mrs. Willie Thetford, Mr. and Mrs. Thomas Jones, Mr. and Mrs. A. M. Freeman, Mr. and Mrs. Glenn Huddleston, Mrs. Bill Seabourn, Misses Thelma Clay, Alene Seabourn and Judy Clay, Clifford Thetford, Thomas Jerald Jones, Lavon Huddleston, C. L. Thetford, Reese Huddleston and Fairy Lynn Huddleston.

Personals

Mrs. Lee Thetford, who has been ill for the past two months, was reported resting well Saturday.

Mrs. N. D. Gallagher and children, Peggy Jean and Norvell D., attended the showing of "Gone With the Wind," in Fort Worth Saturday.

Mr. and Mrs. Roy Webster of Groesbeck spent the week-end with Cisco relatives and friends.

Mrs. May Wood, Guy Cole and Jesse Cole of Kansas have been guests in the George P. Fee home.

Mrs. M. E. Goldberg has returned home from two weeks' stay with relatives in Odessa.

Morris White and Raymond Turknett, students in John Tarleton college, Stephenville, are visiting their parents here.

First Presbyterian Church Sunday school, 9:45. Morning preaching, 11. Sermon by the pastor on the subject, "The Man Who Has Walked With God." There will be special music at this hour.

W. Moore, W. H. LaRoque, Neil Lane and the hostess, Mrs. Mancill.

Cisco Musicians Will Appear In Eastland Recital

Eight Cisco girls, music students of Miss Wilda Drago, Eastland, will appear Monday and Tuesday evenings of this week, when Miss Drago will present her entire class in a mid-term recital at the First Methodist church in Eastland.

The other girls are pupils of piano, and will play as follows: Marilyn will play "A Scotch Poem," by McDowell; Alice will play "Witches Dance," by McDowell, and Betty will play "Polichinelle," by Rachmaninoff.

The girls are Emily Jo and Patty Jean Boyd, daughters of Mr. and Mrs. L. E. Boyd; Betty and Alice Slicker, daughters of Mr. and Mrs. Homer Slicker; Marilyn Shertzer, daughter of Mrs. John Shertzer; Rose Ann Woods, daughter of Dr. and Mrs. Paul Woods; Gloria Graham, daughter of Dr. and Mrs. E. L. Graham, and Berna Marjorie Goldberg, daughter of Mr. and Mrs. M. E. Goldberg.

Violinists are Emily Jo, Patty Jean, Gloria, Rose Ann and Berna Marjorie. Emily Jo will play "Concerto," by Friedrich Seitz; Patty and Rose Ann will play "A Spanish Dance," by Rebfield; Gloria will play "A Spanish Dance," by Kriesler, and Berna Marjorie will play "Reverie," by Saenger.

MRS. RIPLEY NOMINATED DALLAS, Feb. 24 (AP)—The Dallas Federation of Women's Clubs Friday voted to submit the name of Mrs. George A. Ripley as its candidate for second vice president of the Texas Federation. Her candidacy will be submitted to the state nominating committee.

MASONIC DINNER

Admiration coffee was served by N. C. Packer at the Masonic lodge dinner held at the First Christian church Friday night. The dinner was followed by a meeting at the lodge hall, for which Dr. M. E. Davis of Brownwood was guest speaker.

Mr. and Mrs. Carl Lowrey were guests of relatives and friends here Saturday, en route to Dallas.

All asphalt-covered streets in Lincoln, Neb., are being marked with permanent traffic-lane lines made of white stone chips.

In 31 states, the cost of relief is shared by state and local government according to a variety of formulae.

SISTER OF ACTRESS TO WED

DALLAS, Feb. 24 (AP)—Undeen Darnell, sister of Film Actress Linda Darnell, will be married March 1 to Harry Wendell Hunter Jr., the girls' father, C. R. Darnell, said on Friday. Linda Darnell will be maid of honor.

Ex-King Ferdinand of Bulgaria is so fond of unset precious stones that he carries around a lot of them in his vest pocket.

SOME ENEMIES OF THE HUMAN HEART The heart performs the duty of pumping the blood through the body many times a day. This contracting and dilating process goes on about forty million times a year. The reason the death rate from heart disease increases each year, is because the general public is not informed on the common causes and prevention of heart disease. From early childhood to age twenty-five, "rheumatism" is the most deadly enemy of the heart; from twenty-five on, hardening of the arteries, Bright's disease, high blood-pressure and syphilis take their toll. Rheumatism is caused from the streptococcus germ, which floats around in the blood and frequently causes an ulcerated condition of the heart. Rheumatism is not caused from uric acid, but from some infection, such as bad tonsils, teeth, sinus or some other chronic toxic condition. If you have rheumatism, any of the above named conditions, or an infection of any kind, let your doctor help you clear it up. Moore DRUG CO. PHONE 99 - CISCO, TEXAS

Radio Programs to Invite Industry

AUSTIN, Feb. 24 (Spe)—An invitation to industry to utilize Texas' enormous gas reserve will be issued when the University of Texas presents its tenth program of "Frontiers of Progress," current industrial radio series, over the Texas State network Monday night, 9 to 9:30 o'clock.

Speaker on this week's program will be Elmer H. Johnson, industrial geographer for the bureau of business research. Johnson will explain the advantages natural gas can offer to prospective industry. J. Howard Lumpkin, broadcasting director at the university, said.

The bureau is a member of the university's fact-finding Texas industrial and commercial research council, sponsor of the radio series. Programs originate from radio house on the university campus.

Fourth and last in the broadcasts on natural gas—in which its dis-

covery, methods of recovery and harnessing for industrial use have been emphasized—the program precedes a series on chemicals and minerals of the state, which will also be given on Monday night.

6,500 Firms Handle Outside Products

AUSTIN, Feb. 24 (Spe)—Handling of products processed outside Texas and imported for wholesale distribution occupies approximately 6,500 firms, University of Texas bureau of business research officials said today.

Released today, the bureau's Directory of Texas Wholesale Firms counts that number of distributing agencies handling about 175 varieties of products and operating in 145 Texas cities and towns.

The directory, edited by Mrs. Clara H. Lewis, supplements the bureau's Directory of Texas Manufacturers. It does not include firms which distribute only pro-

ducts which they manufacture in this state.

Ranging from boats and marine supplies, china, explosives, hats and hosiery to such commodities as leather goods, textiles and costume jewelry, the directory lists 374 concerns wholesaling oil well and refining machinery to serve Texas' vast oil industry, and 583 companies distributing petroleum and its products, including oils and greases.

Dallas is shown as the largest distributing center of the state, with 2,263 firms operating from that city, while Houston lists about 700, Fort Worth about 500 and San Antonio about 400.

Seeks Comm'n Post to Reduce Rates on Gas

AUSTIN, Feb. 24.—Stressing the need for "consumer protection against excessive gas utility rates throughout Texas," Judge Olin Culberson of Austin today announced his candidacy for railroad commissioner. He served the state as chief utility rate expert and head of the gas utilities division for the past eight years.

Culberson, a former county clerk and county judge of Hill county, said that the same vigor

OLIN CULBERSON

and fairness that had marked his past service to the state in the regulation of gas rates would continue to be his policy as a commissioner and that the thousands of dollars already expended in assembling data upon which to fix gas utility rates and which should be used in assisting cities and towns would be utilized. "Gas utility rates generally are entirely too high," Culberson said. "I will reduce them. I want the opportunity to complete the work of giving to gas users of the state fair and reasonable rates—fair to the public—fair to the gas utility companies," he said.

"Transportation, both rail and motor, is an increasingly serious problem and is entitled to and should have its full share of attention from the regulatory body," Culberson said. The problems of this industry are just as important and should receive as prompt consideration as any other matters over which the commission exercises authority.

"The great oil industry, upon which Texas is dependent to so large an extent for its prosperity, must be supervised in such a manner as to obviate any suggestion of federal control. Texas can run her own business. I pledge to the

affairs of that industry a fair, square and equitable administration, leaving nothing undone that will bring stability to the oil industry. The oil industry is far too important to our economic setup and to Texas school children, who participate in its prosperity, to be subjected to a vacillating and devious policy."

Culberson emphasized the need for a fair equalization of rail rates between the southwest and eastern markets and said he favored using every expediency to eliminate all discrimination against Texas agriculture and industry in regard to transportation rates.

As secretary of the Volunteer Firemen's and Fire Marshall's association for the past 21 years, Judge Culberson has been actively serving in that organization's program which has resulted in steadily declining fire losses and fire insurance rates. He is an ex-service man, a member of the American legion, a Mason and a member of the Odd Fellows.

state department must be in a trading position to do this. It must have something to give, something to withhold. Nor could it accomplish this if congress should reserve the right to approve or disapprove any agreement. It was necessary to send the state department with plenipotentiary powers to deal with the other governments. That has been done. The success of the program is reflected in the results achieved. It is working.

Of course opposition is inevitable. Some are bound to be affected adversely. But the good of the whole country considered, which is the only basis upon which judgment can be properly passed, the program is sound. The maladjustments and discriminations that occur will be ironed out. Because a lump of ore contains baser metals, we do not throw away the gold.

Swedish and Norwegian volunteers indicated that these countries realize that Finland is fighting for ideals for which they themselves stand.

"The struggle is now being waged on Finnish soil," he said, "but the fact that you are joining your fate to ours in armed comradeship gives us binding assurance that the whole north comprehends that this fight involves the defense of common ideals."

Although specialized Swedish and Norwegian volunteers, such as pilots and mechanics, have been in active service for several months, the main units have been undergoing intensive training for combat duty.

crats fighting the extension of bill replied that the program had been in operation since 1934, but had not prevented the wars now raging in Europe and the Orient; that the legislation handed over to the executive the tariffmaking power of congress and the treaty ratifying power of the senate, and that the pacts were opening American markets to the products of cheap foreign labor.

Administration forces were in command throughout the balloting. Twenty-five amendments were proposed, and as many beaten.

The administration's closest call came on a proposal by Representative Disney of Oklahoma to prevent the changing, in future agreements, of import excise taxes on oil, coal, copper and lumber. It was defeated 164 to 155.

Disney objected to the lowering of the import tax on oil from 1-2 to 1-4 cent a gallon in the Venezuelan agreement.

Joseph Hergesheimer, the novelist, once studied painting at the Pennsylvania Academy of the Fine Arts.
