CISCO, TEXAS, THURSDAY, MAY 16, 1940

NUMBER 242

## DR ASKS OVER BILLION CASH FOR DEFENSE

In an area of benevolent climate, blessed with an abundance of the purest lake water, possessing the best in recreational facilities, situated on the Bankhead, all-weather route, with three railroads and many highways, Cisco is the best place in Texas to live and to work.

Through the Editor's Spectacles  
By GEORGE

proper way to finance national security needs is to raise five cents a barrel tax on oil taken from Texas soil. This would amount to \$25,000,000 annually at the present rate of production and our oil production in Texas is steadily increasing each year. Eighty percent of our oil and products are shipped to other states and countries. Some but 15 per cent is consumed in this state. The oil would carry with it, and our tax would be fifty-five per cent by the time it reaches the outside of Texas. The oil would carry with it, and our tax would be fifty-five per cent by the time it reaches the outside of Texas. The oil would carry with it, and our tax would be fifty-five per cent by the time it reaches the outside of Texas.

### Bursting Bombs---Of a Peaceful Sort

Spectacular finale to the New York World's Fair of 1940 opening day, jammed from morn till night by over 190,460 pleasure seekers, was this spectacular, dazzling pattern of fireworks, bursting high above the Lagoon of Nations' multicolored fountains.

### CISCO HOST TO HEREFORD BREEDERS

Around 100 Anticipated at Invitation of G. P. Mitcham

Cisco business men will be hosts to between 60 and 100 cattlemen at a dinner under the auspices of the chamber of commerce Wednesday evening, May 22. The dinner will be held on the roof garden of the Laguna hotel and will be the chamber's dinner-forum for the month. The cattlemen, members of the Central West Texas Hereford Breeders association, will conclude a two-day tour of cattle ranches in west Texas at the dinner here. They are coming to Cisco at the special invitation of G. P. Mitcham, Cisco cattleman, an dthe Cisco chamber, and the program for the dinner will concern itself entirely with entertainment and visiting with the Cisco business men. The cattlemen will meet in Abilene in convention preceding the tour. On Tuesday, May 21, they will tour the Sweetwater area and on Wednesday the Albany, Moran and Cisco district. Cisco business men were urged to prepare to attend the dinner at 7:30 and to make the visiting cattlemen feel a warm welcome to the city.

### British War Bird Limp Home

Its wing shredded by machine gun fire and anti-aircraft shrapnel, this American-made Lockheed Hudson plane of the British R. A. F. coastal command, limped safely home on one engine after encounter with nazis. Picture recently rushed to New York by trans-atlantic clipper.

### SEEKS MEANS TO MEET ANY SWIFT ATTACK

500,000 Troops Engaged in Titanic European Struggle

WASHINGTON, May 16 (AP)—President Roosevelt asked congress today for \$1,182,000,000 cash and contract authorizations for military implements to "meet any lightning offensive against our American interest." In his message, delivered personally to the joint session, the president asserted earnestly that "dangers" confront the United States on account of Europe's war and the speed with which modern armies may conquer time and space.

By the Associated Press  
A fast-shifting war of movement, embracing thousands of warplanes, and giant tanks, thundered along the 110-mile western front today as the Nazi juggernaut hammered Belgian defense lines and the north wall of France. Mechanized units from both sides cut loose from their infantry and drove boldly forward to strike the enemy rear. At least 600,000, evenly balanced, were engaged.

### CITIZENS TO OBSERVE NAT'L W. P. A. WEEK

The citizens of Cisco and their families and friends are invited to participate in "This Work Pays Your Community" week, to be held from May 20 through 25, by sponsors of projects in the professional service division of the Work Progress Administration. Monday evening, May 20, a "Party Night" will launch "This Work Pays Your Community" week. Projects will have exhibits, revealing actual operation, and interesting entertainment will be provided. From Washington, a coast-to-coast broadcast, with officials in the nation's capital as speakers, will be received. From Tuesday, May 21, through Saturday, May 25, "Open House" will be held on all projects and you have a sincere welcome awaiting you. Courteous attendants will guide you, explaining the work being done. You are urged to show Washington officials your interest in the Work Progress Administration program by bringing your families and friends to "party night" and urging them to visit the projects during the remainder of "This Work Pays Your Community" week.

### Announces

Clyde L. Garrett, congressman from the 17th congressional district of Texas has formally announced his candidacy for re-election. Cong. Garrett was elected to the lower house of congress in 1936. He had served several terms as county judge of Eastland county and also served as president of the Texas County Judge and Commissioners association. His formal statement of candidacy was sent from Washington where he is attending sessions of congress. Full text appears on page 3.

### MORAN HIGH TO GRADUATE 26 THURSDAY

Strains of the processional march will sound in the high school auditorium Sunday evening, May 19 at 8:15, and commencement week will be underway for 26 members of the 1940 graduating class of Moran high school. Hon. James P. Stinson, Abilene attorney and director of the Victory Men's Bible class, will deliver the baccalaureate sermon Sunday, while the commencement will be presented by members of the class Thursday evening, May 23, at 8:30. Included in the baccalaureate services will be two anthems by members of the Moran high school girl's choral club, and a special musical number. Judge Stinson is well known to people of the Moran community, and his selection as the speaker has met with widespread approval among school patrons. An attendance of more than 600 is anticipated for this event.

A program dedicated to the development of the Moran community will feature the commencement exercises Thursday evening. Also included in this program will be the presentation of diplomas to the members of the graduating class and the awarding of special honors to the valedictorian and salutatorian and to other honor students. Certificates for perfect attendance records during the 1939-40 school year will also be awarded at this time.

Members of the 1940 senior class who are candidates for graduation May 23 are: Inez Allen, LaVerne Ayers, Edgar Lee Bartee, Bonny Wayne Brooks, J. R. Collingsworth, Rogene Collinsworth, Nell Maurice Cottle, Orval Dennis, Bryant Edwards, Evelyn Fraught, Otha Grisham, Myra Belle Husky, Helen Knight, Geraldine Lindsey, Leonard Midkiff, J. B. Montgomery, Jack Dee Pennell, John L. Pettit, A. Q. Plummer, Glen Pool, Roy Lee Steen, Laury Taylor, Helen June Terry, Mary Helen Walker, Mary Weber, Dorothy Williams.

### 25 SEVENTH GRADERS TO BE ADVANCED

MORAN, May 16 (Sp).—Presentation of certificates to 25 members of the seventh grade class, recognition of honor students, a program featuring "This Changing World," and a one-act play, "Elmer," will feature the Moran elementary school promotion exercises, which will be held in the high school auditorium Wednesday evening, May 22, at 8 o'clock. (Continued on Page Eight)

### Putnam Team Stages Upset Here Wednesday

(By Softball Reporter)  
Last night was one of the best games of the season. Putnam beat Conoco and thus took second place in team standings. It was an upset victory, as Conoco was supposed to have the best team in the league. However, Putnam came out fast to take the lead, and with lots of life, went on to win. They were different looking boys last night from what they were opening night. Green, Putnam pitcher, fanned 8 men and was very effective all the way. He has an extremely fast ball with a peculiar delivery which baffled the Conoco boys. Some of their batting averages toppled from his pitching efforts.

Rylee pitched a good game for Conoco, but erratic support hurt him in the clutch. Smitty was greatly disturbed by the fans, and never really let his boys open up, so he says. Even Mr. Streater, the capable announcer, asked for one friend for Smitty. You will have to say this for Smitty and his boys, they never gave up, but battled until the end, and came out with a smile in defeat. Opposing teams had better be on their toes when Conoco meets them from here on. They are not a quitting team, but will come back to win most of their games. Conoco had several of their boys out last night, but the ones they did have hustled.

Putnam led in hitting, 10 to 5. (Continued on Page Eight)

### Fambro Murder Case Reversed, Remanded

The court of criminal appeals at Austin in the orders announced Wednesday, reversed and remanded the case of Alex Fambro, Stephens county cattleman, who was convicted in the Taylor county district court in connection with the death of a neighbor, Wagley. Both lived in the Necessity community. The case was tried in Stephens county, resulting in a mistrial, and moved to Taylor county on a change of venue. The court also overruled a motion of Buck Harrison, from Stephens county, for a rehearing.

### French Assert In Command of Sedan

(By the Associated Press)  
The French general in immediate command of the Sedan sector advised headquarters tonight that his forces were "complete master of the situation" and would regain full control of their front within one week.

Business was deferred and the Rotary club at its noon luncheon today enjoyed a program of old-fashioned dances by pupils of the west ward, under the supervision of Miss Vernelle Stinson, public school music teacher. The dances were "called" by Jim Whitehead, who executed his phase of the dances in the manner of a veteran. J. C. McAfee was program chairman for the day.

Dr. Thomas Taylor, president of Howard Payne college, Brownwood, was a guest of the club, and spoke briefly.

### Friday Program Is Announced

Scheduled activities of the Cisco Recreation project for Friday, May 17, will be held at the following locations: Music center (city hall)—3 to 5 p. m.—Instructions in instrumental music. Tennis court (First Methodist church)—2 to 6 p. m.—Open for public tennis practice and other activities. West ward school grounds—3 to 6 p. m.—Junior league softball practice. East ward school grounds—3 to 6 p. m.—Softball practice and general playground activities. Fee Esta park—2 to 5 p. m.—General playground activities. Recreation center—2 to 4 p. m.—(Ping pong and paddle tennis). 4 to 6 p. m.—(craft instruction period for men and boys). Smithville (colored)—2 to 6 p. m.—General playground activities.

### PARTY AT LAKEVIEW

Around 70 couples from Baird enjoyed a private party at the Lake View club Monday evening. The dance was sponsored by a girls' club and special guests were young married couples from Baird. Mr. and Mrs. Charles Arnold and Mr. and Mrs. Arthur Arnold of West Plains, Missouri, were guests of Mrs. E. O. Hendricks today en route to Albuquerque, New Mexico. (Continued on Page Eight)

### City Women's Golf Tourney Next Week

A city ladies' golf tournament will begin here Wednesday May 22, it was announced today by Mrs. Reggie Henderson, president of the Cisco Women's Golfing association.

The tournament will not be limited to members of the country club, Mrs. Henderson pointed out, but every woman and girl in Cisco who is interested in the sport is urged to qualify by Saturday night.

There will be three flights in competition, and eighteen-hole matches will be played. Equal prizes will be awarded winners in each flight.

Those who plan to enter were urged to turn in qualifying scores on eighteen holes by Saturday night. Entrance fee will be 50c.

### Hesson Awarded \$3,750 Damages

A 91st District court jury trying the personal injury damage suit of C. M. Hesson vs. Wiehita Falls & Southern railway company, Wednesday returned a verdict for plaintiff for \$3,750 for injuries received in an accident in which plaintiff alleged the railroad company was responsible.

The judgment was in line with a former judgment in a companion case, in which a young woman was awarded judgment for practically a like sum for injuries received at the same time. The case went on trial Monday.

The following Cisco people were included in the jury panel: W. H. Hayes, E. E. Daniels, Joe Meader, H. H. Davis, Roy G. Tuggle, M. B. Osburn, E. Hooks, Marshall Thomas, Joe Boatman and J. E. Shirley.

## "Old Ark," Star of Ranger Bulldogs of a Decade Ago, Mourned in Death

By BOYCE HOUSE  
"Arkansas" McLaughlin is gone. The news saddens all who knew the laughing, modest, young athlete.

He was a real star, though he was not outstanding in mere physical attributes. In watching more than 300 high school games, this writer has seen many backs who were bigger, faster and more elusive than "Old Ark," but none with a more flaming spirit.

During his four seasons with the Ranger Bulldogs, now some 10 years ago, he enjoyed every minute of every game. He never let down, much less loafed, not for a single instant, even in practice—always trying, always hustling.

He was the answer to a coach's prayer—a natural leader, yet one always eager to learn more and a quarterback who would remember instructions.

He could be counted on when the pressure was greatest. In his last year with the Bulldogs, he was called on in four games to try for the extra point that meant victory or defeat—and on all four occasions, he kicked goal. The late coach W. B. Chapman, then mentor of the rival Cisco Lobos, voted McLaughlin the most valuable player of the season in the Oil Belt, a sentiment in which his own coach, Eck Curtis, joined.

McLaughlin was a remarkable center, and for him it was just an ordinary spiral that went 50 yards on the fly. He had the misfortune, however, in the Breckenridge game, to be pitted against Boyce Magness. Ark stood on his own 20 and kicked out of bounds on the Barkaros' 20—a boot of 60 yards. On the next down, Magness stood on his 10 and kicked out on Ranger's 10—a kick of 80 yards. After the game, Arkansas came off the field and said, "Coach, I don't know what was the matter with me—I just couldn't kick today." It never occurred to him that he had been seriously ill only about four weeks.

JAMES LOUIS McLaughlin was born November 26, 1910, in Nehalem, Pa., moved to Texas with his parents when he was nine years of age, settling in Ranger. He starred on the Ranger Bulldogs football team several years. He attended Rice institute two years, 1932-33, starting on the Rice football team along with Bill Wallace and John McCauley. He also attended the Texas School of Mines in 1934.

He married Dorothy Amonette of Iran, August 25, 1934, and has been employed by Gulf Production company for several years, being stationed at Iran.

Survivors are his wife, Dorothy Amonette McLaughlin; two sons, James, Jr., and Charles Eugene; mother, Mrs. Lulu McLaughlin, Ranger, and one brother, F. V. McLaughlin, Iran.

Services were held at 2 a. m. Thursday at the First Christian church of Iran, of which McLaughlin was a member. Rev. J. J. Ray officiated. Interment was in Sheffield cemetery.

curred to Arkansas to offer the excuse that he had been dueling with the greatest punter, high school or university, in America at that time.

All Belt fans knew that at least during every game, McLaughlin could be counted on to make a long run. It would be on third down when he was back in punt formation. He would go through the whole act of kicking, only he didn't kick, and then he would dodge under the arms of rushers and tear loose for 25, 30 or 40 yards.

Even when his friends are sorrowing at his death, which came a few days ago at Iran after a lengthy illness, memories of that smiling face bring back such recollections as an incident in a game between Ranger and Carido, the latter being bolstered (it was after the close of the regular season) by several "exes," including a care-free passer and runner named Gracey, who was a good friend of McLaughlin. Gracey that marched the ball to the Bulldog's 10-yard line. He called across the line of scrimmage: "Arkansas, you're all-district quarterback; it's fourth and three

## Average Person Eats 7 Pounds Of Peanuts Year

"You, as an average American, will eat between seven and eight pounds of peanuts this year. During the same period that you and your fellow countrymen are eating a billion pounds of these products of the soil in peanut butter and peanut bars, and while you are consuming tons of salted peanuts at base-ball games, fifty-one million pounds of 'goobers' will be used for shortening. And from the industrial standpoint, peanuts and their by-products are used in such divergent articles as explosives and hair tonic." These are some of the statements recently made by Charlie S. Wilkins, registrar at John Tarleton Agricultural college, in speaking to a group interested in chemistry.

Wilkins, who became interested in the peanut several years ago as a part of his work on a Ph. D. degree, has unearthed many interesting facts concerning the culture, the history, and the possibilities of this crop.

Wilkins stated that the peanut originated somewhere in South America where it was found by the Spanish explorers. It was immediately transported to Spain and then to Africa. One story advanced is that peanuts were used by mariners to lure the natives into slave boats. The association of the peanut with the Africans is noted in that the word 'goober' is derived from the African Congo nguba.

In the southwestern states of this country almost 2,500,000 acres are planted, according to the Tarleton professor. Annually, this nets the farmer about \$50,000,000. About \$200,000,000 more business is caused by the lowly peanut in the manufacture and sale of peanut products.

Wilkins paid high tribute to George Washington Carver, slave born negro chemist. "This man," said the college registrar, "has worked out over 300 uses of the peanut. With other scientists methods have been developed whereby peanuts are made into milk, cheese, breakfast food, paints, quinine, linoleum, face powder, dyes, and countless other articles."

Large commercial organizations, declared Wilkins, acclaim peanut oil as the ideal shortening. The research staff of the manufacturing organizations declared that peanut oil was desirable because it had little odor or flavor, was easy to refine, did not revert in flavor and was easy to bleach.

One of the most interesting developments in the peanut industry explained by Wilkins, is the development of peanut flour. In comparison with wheat flour the new product has eight times as much fat, four times as much protein, and nine times as much mineral.

is derived from the African Congo nguba.

Large commercial organizations, declared Wilkins, acclaim peanut oil as the ideal shortening. The research staff of the manufacturing organizations declared that peanut oil was desirable because it had little odor or flavor, was easy to refine, did not revert in flavor and was easy to bleach.

One of the most interesting developments in the peanut industry explained by Wilkins, is the development of peanut flour. In comparison with wheat flour the new product has eight times as much fat, four times as much protein, and nine times as much mineral.

This year is looked on with hopefulness by the doctors experimenting on diet for diabetic sufferers. He further pointed out that the home economics department at John Tarleton college were conducting numerous experiments in developing new recipes using the peanut.

### Soil Builder

Aside from these many uses, explained Wilkins, the peanut is a soil builder as it is a leguminous crop. Until a few years ago, however, many of the nitrogen nodules attached to the top roots were destroyed when the peanuts were harvested. At the Tarleton experiment farm a simple, inexpensive solution was found to this problem. A flat sweep was reworked at a blacksmith shop so that it could be attached to two arms of a cultivator. This device cut the top root, leaving the valuable nitrogen in the soil. Too, it made possible better hay as the vines did not wilt so quickly. Also, peanuts were freer from dirt when they were pulled.

The fact that the United States in 1937 imported 57,999,000 pounds of peanut oil compared to domestic production of 51,000,000 pounds, pointed out Wilkins, is an indication that there is a bright future for this crop which grows so well in this section.

In conclusion Wilkins said: "Regardless of what the ultimate uses

of peanuts may be in the future, the outlook is bright for the farmer who employs this crop since the average yield per acre for the United States the past fourteen year period has been twenty-four bushels and the prevailing market price this year was ninety cents a bushel. A little calculating will show you that this yield and price gave a return per acre of more than twenty-one dollars on that often sells for less than ten. Add to this the value of the hay, which we ignored in above computation, though in instances it alone will take of the cost of production.

"Don't tell me that any crop will do this is just peanuts."

**Garrett States  
his Platform  
for Re-election**

In announcing my candidacy for re-election, I desire to refer to my platform of 1936 and outline the reasons for the actions I have taken in the past.

**Speech and Free Press**  
I have vigorously advocated and emphasized the principle of free speech and free press. Strictly adhering to this principle, I have not done either a constituent or a legislator in congress, through the medium of the press, or through the Congressional Record for their action or their conduct contrary to my interests or to an opponent.

I will be recalled, when I ran for congress, I opposed the use of blanketing privilege in the United States mails and the facilities of government printing plants—maintained at enormous cost to the taxpayer—for the personal advancement of any politician. My constituents well know that I have faithfully maintained this attitude. They also know that I have not flooded the country with uncalculated and unimportant statements printed in the Congressional Record.

**Foreign Legislation**  
Passed in 1936, as now, such laws as would provide for those in need of assistance from foreign wars who are in need of assistance from our country they fought to save, immediately upon coming to this country.

I introduced a bill providing for the establishment of a hospital in the 17th district.

As a result of this movement which I helped to inaugurate, two such hospitals are now under construction in Texas.

I have devoted much time in

assisting veterans in presenting their claims to the Veterans' administration and have worked for and supported all legislation which would better the condition of these splendid citizens, their wives and widows. In presenting these claims, I found that many deserving and needy veterans, after a proper presentation of their evidence, have been denied the aid which they deserve. And accordingly, I introduced a bill which would give the veteran the right to contest the decision of the Veterans' administration ruling in a court in my district. No member of congress can show a record that compares more favorably than mine in relation to the veterans, their wives and widows.

I also presented memorials and have diligently worked to provide additional domiciliary facilities at such facilities as are receiving thoughtful consideration by the Veterans' administration. At the present time, I am supporting and will vote for the adequate and just pensions for the widows and children of veterans in the present bill before congress.

**Oil Control, Commerce and Labor**  
I have always favored the principles of private ownership and freedom of business enterprise, and I have and shall continue to oppose the nationalization and federalization of our industries. My stand in 1936 in opposition to federal control of our oil industry is in this respect. We still have honest and capable men in Texas whom we can elect and to whom we can safely entrust the handling of this great industry. Our state officers elected to handle this problem are nearer to the people and are far more concerned with the industry's welfare than any bureaucrat that could be sent out from Washington. Our present plan with the control vested in elected state officials, is and will

work to the benefit of both the consumer and the producer. My attitude in this connection is further reflected in my support of the Walter-Logan bill, recently passed by the house. This bill gives every citizen the right to have any ruling of an administrative bureau reviewed by a court. This, I believe, is the best way to keep the administrative bureaus within the power of the people.

Since commerce is dependent on means of transportation, I have been working to equalize such existing discriminatory laws as might prevent the free and unlimited flow of commerce. In this connection, I have worked diligently to eliminate the unfair freight rates imposed on the south and the southwest. During my term as congressman, several great steps in this direction have been made, destroying certain west Texas zones and giving that region equal rates with other zones. I shall continue my efforts until we have won equal and just rates for our district.

Together with my interest in commerce, I have always been aware of the needs of the employe. I voted for the Wage-Hour law, since legislation along this line was needed. While neither the Wagner nor the NLRA, which were passed prior to my coming to congress, have worked to the satisfaction of congress and of the nation, I do not feel that we should junk this legislation entirely. We should use these laws as a base, eliminating such provisions as are wrong and unjust, and retaining those parts which benefit both labor and employer.

**Social Security**  
Many people are of the opinion that our present Social Security law relates to old age assistance only. This is merely a part of it. This act authorizes the federal government, as an agent of the people, to secure proper facilities

for its youth, to care for its sick and ailing, and to provide means of sustenance for its aged and infirm. I know that the provisions for the health and welfare of our people runs only to about 8 cents per person per year, which is too small. I know that adequate provisions have not been made for our youth; that laborers do not feel safe against sickness and accident; that our aged and infirm are not justly treated—many of them being now in dire need and want. I have supported and endorsed measures that sought to relieve these conditions. When I came to congress, I found that this act was amassing a tremendous sum which would not fully benefit the people until 1975 and that the payments to begin in 1942 would give the people but a mere pittance. I voted for the measure that authorized these payments to begin in 1940 and sought to secure an amendment to the act to eliminate this "reserve fund" which does not help the people. Realizing that this tremendous reserve was unnecessary, I supported the amendment which reduces the contributions made by both the employe and the employer. I feel that social security contributions should be kept sacred and used exclusively for purposes for which they were collected.

I supported all such amendments to the Social Security act, including those which sought to liberalize the basis for benefits to the old people who should receive aid and support from this law. This was the intent of the law when passed and I favor carrying out the mandate of the people.

It will be remembered that, when I ran for congress, I advocated a liberal and adequate old age pension, preferably paid by the federal government. I am still of the same opinion. In fact, I have supported all pension legis-

lation which had this for its purpose. I have kept faith with the people. While pensions are an important and necessary part of our social security problem, I do not allow myself to shirk the other needs and demands of our people in this connection.

**Agriculture**  
The most important industry in my district is agriculture. It is confronted with many vexing problems. It is easy for one who has an axe to grind to say that he wishes to aid the plight of the farmer, but it is hard for him to follow up his statement with a plan, for such a plan must be developed through months and probably years of study and with the proper national perspective.

I supported the present farm bill. This bill does provide a splendid working basis for a most worthwhile and long-range farm program, and though far from being perfect, must and will eventually be amended to eliminate any inequalities. This bill places, as it should, control of the program largely in the hands of the farmers themselves. I have favored a national policy of adjusting agricultural products to prevailing and prospective demand and for handling burdensome agricultural surpluses while this adjustment is in progress. I believe also in the basic principal of sound, business - like management of farms. This farm act provides for the payment of parity prices on all the basic farm products. I have supported every appropriation to provide payment of parity prices to our farmers.

I have actively supported the Water Facilities program. It is now in its infancy, but it has already proven its worth and I believe that it should be extended.

I have wholeheartedly supported the Soil Conservation program. Our people know what it has meant to them. I shall continue to support it.

The Rural Electrification program has received my hearty support. I am glad that many of the communities of my district are taking advantage of cheaper power rates under this program. I hope that the day is not far distant when our agricultural conditions and farm income will make it possible for every family in our rural communities to take full advantage of the comforts and conveniences provided by the Rural Electrification program.

Fully realizing what the Farm Security program has and is meaning to our farmers, I have unhesitatingly supported this program. Furthermore, I have voted for lowering interest rates and more readily accessible loans to our farmers at all times.

I strongly favored the first Farm Tenancy Purchase bill and have supported each of them since. I favored a larger appropriation than that provided in the above bill in order that more of our worthy tenants might acquire farms. I also feel that congress should take immediate steps to prevent the causes of farm tenancy. Too, realizing that unemployment is being greatly increased by tenants being driven from the farms, I have heartily supported amendments to the farm act which had for their purpose the remedying of this deplorable situation. Thousands of deserving people, with substantial equities in their homes are losing them annually. Some safe and sound program should be provided to remove this cause of farm tenancy. It has been said "You cannot make landlords out of tenants until you stop the thing that is making tenants out of landlords."

In my further efforts to cooperate with agriculture, every cotton farmer is aware of the bill which I have introduced in congress calling for the redemption of tax-exempt certificates issued under the Bankhead act, voted prior to 1936. The passage of this measure would restore money taken away from farmers of my district and increase the purchasing power of every community in west Texas. About twenty million dollars would be returned to the pockets of the farmers which is now frozen in the treasury through the unconstitutional Bankhead act in 1934.

**Taxation**  
It will be remembered that in 1936 I advocated balancing the budget. I still would like to see this done. However, it is more than one man can do alone. With the alarming unemployment and relief problem now confronting the nation, the necessity for huge appropriations for agriculture, coupled with the enormous sums now so necessary to national defense, no one knows when the budget can be balanced. In this connection, I will state that I have voted for the maximum amounts requested by the president for the above purposes, and, on one or two occasions with reference to relief, in excess of the amount requested. If my constituents could know the appeals which come to my office from the county, city and school officials for funds that they may sponsor worthwhile projects in order to provide work for the unemployed, such as courthouses, city halls, school buildings, recreation and athletic buildings and grounds, farm-to-market roads, streets, parks and numerous other projects; if they could

see the appeals which I receive from the thousands of unemployed men and women begging for an opportunity to work and a chance to live, they would understand why I voted for such appropriations. I cannot bring myself to believe that funds spent for the above purposes have been poured down "rat-holes" as some would have you believe. I believe it more important to save the lives of those unfortunates who, through no fault of their own cannot secure jobs, to aid the sick and infirm, to care for the young who have not food for life, and to rebuild the wavering morale of our people than it is to count the money as it lies idle in the counting houses. A life is more precious than a dollar. I do not believe my people want me to deny my support and assistance to aid those in need. Furthermore, I know that the people of my district adhere to the doctrine that we are "our brother's keeper."

I also believe it is more important to provide an adequate national defense of our country than it is to save and hoard dollars. It is better to spend a billion dollars than a million lives in defense of our country.

**National Youth Administration**  
The destiny and future of our nation is dependent on the coming generations, who shall be its citizens and its leaders. I have ever favored a democratic system of education and, in close cooperation with our splendid schools and colleges, have supported the provisions of the National Youth administration. I know that there are literally thousands of our worthy and deserving girls and boys who would be denied the privilege of equipping themselves for life's duties and responsibilities if it were not for this program. I shall continue to support this worthwhile program.

**Subversive Activities**  
While I know that our country will never become the aggressor nation, I am well aware of the policies of dictator nations and know what happened to Austria, Poland, Finland, Norway, not to mention many others. Having this in mind, I supported the Hobbs bill, which gives the government authority to deport all aliens who are illegally in this country and who are subversive in their work and criminal in their intent. Realizing that we have much to fear from enemies within I voted to create the Dies committee to investigate un-American activities, and have voted for every appropriation to continue this work. I believe the work of this committee should be continued until it has exposed

the pernicious activities of the subversive elements and until such time as congress can pass such legislation as will prevent any threats to our American form of government.

**Immigration**  
No general immigration laws have been passed since I came to congress. However, I do not favor letting the bars down for any influx of natives of other countries. Our own citizens deserve the best things of this country and it is my candid opinion that all aliens now in this country should now be given their choice, either to become citizens or get out.

**Foreign Affairs**  
My people know that in 1936 I pledged that I would never vote for a war of aggression. I shall keep my word. I believe that we should attend to our own affairs. Certainly none of us desires that the flower of our youth be sent to fight in foreign wars. I can easily understand the anxiety of the fathers and mothers of this country who do not wish that their sons should be sacrificed to fight other nations' wars, as I have two fine sons who would likely be among the first to be called to arms.

Since I have been in congress I have supported every movement for peace and neutrality. I advocated the Neutrality law of 1939, the main provision of which calls for "cash and carry." I feel that this act, far more than the actions of any one man who may be elected to congress, will keep us out of foreign alliances and entanglements. I have favored the administration's efforts in securing a more closely-knit Pan-American union, which most men of international learning hail as the greatest step toward peace today, and have aided in every way the closer alliance of the American de-

mocracies and a practicable and cooperative organization under the protection of the Monroe doctrine. I have yet to find a member of congress who advocates the United States entering the war; only war-mongers and opportunists deny this fact. Congress does not need further organization along this line. In these perilous times it behooves our people to keep cool heads, our feet on the ground, and for everyone of us to strive to be as neutral in action, and in spirit, as is humanly possible, so that we may maintain an attitude of frankness and straightforwardness of purpose that will make the nations of the earth respect our desires for peace. May I not take this opportunity to earnestly and respectfully urge that all my constituents cooperate with our great president, and the national administration by refraining from "war-talk," useless agitation and rash and radical statements.

Despite the fact that hundreds of my friends are urging that I return to the district now and actively enter my campaign, it is my purpose, if conditions remain as they are, to remain in Washington and continue my official duties until congress adjourns. However, I greatly appreciate the many good letters which I am receiving from my friends concerning my work in congress. I am sure that these will be active in my behalf, at least, until I can return to the district.

CLYDE L. GARRETT,  
Congressman,  
17th Congressional District of Texas.

**At Last AN ALUMINUM VACUUM COFFEE MAKER**

**PRICE \$1.35**

for ADMIRATION VACUUM COFFEE MAKER and ONE lb. of ADMIRATION *Glassdrip* Coffee

ALUMINUM VACUUM MAKER  
Practical • Unbreakable • Convenient

**Guaranteed MARKET VALUE \$2.22**

THIS OFFER IS FOR A LIMITED TIME ONLY

**Admiration Vacuum Coffee Maker** has all the advantages you now enjoy in the glass coffee maker, plus:

- (1) Polished aluminum—unbreakable.
- (2) Self-measuring—makes four to eight cups.
- (3) Perfected pouring lip—prevents dripping.
- (4) Thermoplox handle—cannot burn.
- (5) Oversize seal—faster filtering.
- (6) Snap in double filter—simple, effective.
- (7) Perfected disk—faster filtering.

**Users Report** 15 to 20 more cups per pound using this new economy combination: ADMIRATION with GLASSDRIP ADMIRATION VACUUM COFFEE MAKER

Hailed as the greatest economy discovery in coffee history, the new Admiration combination offers you savings never before realized. For example: If you are using a good coffee now you get— If you use Admiration *Glassdrip* with Admiration Coffee Maker you get— You save 15 cups per pound or enough to last the average family for three days... that means real savings to you.

**ADMIATION *Glassdrip* COFFEE**  
A Product of the Duncan Coffee Company

ADMIRATION COFFEE is Obtainable in Cisco at the Following Grocers:

- R. H. BOON GROCERY
- SKILES GROCERY & MARKET

Entered as Second Class Matter December 11, 1934, at the post office at Cisco, Texas, under the Act of March 3, 1879.

## Untangled "Entanglements"

LOTS of people are worrying about whether American "economic involvement" in Europe's war isn't going to get us into that war. The idea is that if American business revival gets to depending too heavily on war business, if too close ties are riveted between American producers and European consumers on one side in the war, maybe this will lead the United States into joining that side.

THIS war is different. Instead of frantically scrambling for any and all kinds of raw and manufactured goods at any price, the allies are playing their cards very close to the vest. They are buying nothing in the United States that can possibly be bought within the empire or from countries they consider real or potential allies. They are conserving their cash, co-ordinating purchases, calling their spots.

Nevertheless, the spectacular sales of airplanes and similar war supplies have per-

suaded many people that we are having a war boom.

Are we? Both sides of the balance-sheet must be looked at.

**AGAINST** profitable airplane and finished war goods trade must be set off a monthly loss to American farmers, excepting only the cotton growers, of \$10,000,000 a month. A sharp rise in cotton exports held the total of farm exports fairly level, but the export of other farm products fell more than 20 per cent in the first six months of war. Tobacco sales abroad dropped almost 70 per cent; wheat, 72 per cent; fruits, 38 per cent.

Department of Agriculture experts expect even the cotton demand to fall. Germany, Poland, Danzig, Czechoslovakia, the Scandinavian countries, Holland, and Belgium have been cut off from our trade. The whole Mediterranean may soon be closed. Civilian consumption has been cut in all countries. We have gained a war trade, but lost much of our normal peace trade.

Whether war has been a boom-stimulator in the past is a question. Today it is not. War only interrupts, curtails, and ruins normal intercourse between the nations of the world, neutral as well as belligerent.

A "war boom" going to get us into the war? Show us the boom first.

Color blindness is more prevalent among men than women, proving that looking at the new spring hats is more disastrous than wearing them.

The nazis aren't quite ready for the next blitzkrieg. It seems the propaganda department is a little behind in preparing the evidence that the British were going to invade first.

There are 6000 instruments in the full kit of a dentist, any 5996 of which may be found in the patient's mouth at a given moment.

That the ancient Trojan Horse gag is still working is encouraging. Maybe the team can get somewhere with that hidden ball play this fall.

In Chicago, a waitress was arrested for speeding, of all things.

## "Between the Crosses, Row on Row"

also, guardian petitions the court for authority to invest \$900 of his ward's funds, which has accumulated in excess of his maintenance needs. Both applications were approved, and the said guardian was authorized to reimburse himself for the amount expended in excess of the income at the time, and to make the investment as petitioned for.

Petition of Mary Jane Butts, independent executrix, to probate will of Mrs. Bernie Smith Butts, deceased, approved and citation issued for hearing May 20.

Mrs. Nettie Anita Dishroon, petitioner for letters of guardianship of the person and estate of Lewis Stephens Work, approved and citation issued for hearing May 13.

Mrs. Norma F. Conway, administratrix of the estate of W. D. Conway, deceased, Report of real-estate to J. D. Sandifer for \$1,801.32 cash.

**Named Election Judge**

The commissioners court, in session Monday, appointed G. M. Clark election judge of Carbon precinct No. 12. This appointment is to fill the vacancy caused by the removal of W. E. McCall to Cisco.

**Equalization Board**

The county judge and members of the commissioners court Monday subscribed to the required oath to qualify them as a board of equalization to fix the values of property in Eastland county for taxation purposes.

**Vital Statistics, Births**

The advance report of vital statistics, filed in the county clerk's

office for April, contains the following births:

Laverla Manette, daughter of H. M. Rainey and wife, Desdemona, born April 7. Larry Allen, son of L. W. Aldredge and wife, Gorman, born March 29. Carol Ann, daughter of Dick Weekes and wife, Ranger, born March 28. Patsy Ann, daughter of C. R. Rogers and wife, Gorman, born March 22. Donna LaRae, daughter of C. V. Tunnell and wife, DeLeon, born March 28. Bobby Earl, son of R. C. Shugart and wife, Gorman, born March 29. Jennie Derrell, daughter of H. L. Caraway and wife, Carbon, born March 3. Carlton Lee, son of C. L. O. Edgar and wife, Moran, born March 6. Bobbie Joe, son of J. Z. Phillips and wife, Carbon, born March 4.

Samuel Arthur, son of A. A. Scott and wife, Eastland, born March 4. James Jerry, son of P. F. Ford and wife, Gorman, born March 13. Billie Wayne, son of F. A. Moseley and wife, DeLeon, born March 14. Steve Rodney, son of J. A. Fox and wife, Eastland, born March 13. Neana Pearl, daughter of J. B. Anderson and wife, Strathmore, Calif., born March 17. Jimmy Don, son of D. R. Rayford and wife, Midland, born March 17. Florida Virginia, daughter of G. H. Brownie and wife, Gorman, born March 18. Neida Jean, daughter of C. E. Erby and wife, Comanche, born March 18. Deloris Arnonne, daughter of W. F. Schroeder and wife, Moran, born March 18. Wilda Marie, daughter of A. F. Carter

and wife, Eastland, born March 22.

Judith Ilene, daughter of W. T. Payne and wife, Comanche, born March 23. Elizabeth Anne, daughter of G. A. Brown and wife, Comanche, born March 26. Helen Carrie, daughter of Leonard Green and wife, Albany, born March 28. Deliah Elizabeth, daughter of W. C. Hoffman and wife, Lingleville, born March 28. Calvin Marshall, son of C. M. Caraway and wife, DeLeon, born March 29. Dave Kenneth, son of D. C. Campbell and wife, DeLeon, born March 26. Ralph Lynn, son of C. L. Browning and wife, Eastland, born March 27. Ruby Colleen, daughter of C. E. Wilkins and wife, DeLeon, born March 31. Donald Randolph, son of H. I. Jolly and wife, Breckenridge, born March 30. Linda Lee, daughter of Mack Ervin and wife, Rising Star, born March 14. Byrl Bean, daughter of Cecil Freeman and wife, Pioneer, born April 14. Leonard Donovan, son of L. D. Harvey and wife, Rising Star, born April 14. Barbara Ann, daughter of B. E. Edwards and wife, Okra, born April 28. Baby Taylor, daughter of J. V. Taylor and wife, Pioneer, born April 14. L. E., son of O. D. Vowell and wife, Nimrod, born April 29.

**Ante-Dated Births**

The following ante-dated births have been filed the past week for record in the county clerk's office:

Jacob Calvin, son of W. K. Swan and wife, Gorman, born Nov. 30, 1907. Maxine Lenora, daughter of J. W. Hall and wife,

## The Judge Says

**EDITOR'S NOTE:** Opinions expressed in this column are those of the commentator and do not necessarily reflect the editorial policy of this newspaper.

### MAKE THE AMERICAN ARMY RESPECTABLE

Make the American army respectable, and at the same time increase its efficiency, and thus be ready for any emergency that may arise, are objectives that which confronts the nation at this time, and which presented itself when the United States decided to enter the old World War to "make the world safe for democracy."

Most of us remember the rush and expense of training an army, assembling equipment and supplies, a fact accomplished with unprecedented celerity, but despite the rapidity with which our forces were whipped into shape, any equipment and supplies assembled, it was quite a delay that prolonged the America to throw its million of men in the conflict immediately after this country declared war.

Unpreparedness today accounts for the reverses that have befallen the allied armies in the present conflict. France and Great Britain were training their oars while Germany was training her war machines, assembling supplies, and Chamberlain was exercising his magnetic powers in a futile effort to appease the mad dictator.

Chamberlain must be given credit for his humane efforts to avert a world tragedy, but appeasement is a language Hitler does not understand. He took Chamberlain's appeasement efforts to mean the fear of England and France to place their armies face to face with the mighty war machine that he had built, and his ambition to conquer Europe, and the world—prompted him to strike while the allies were unprepared.

This he has done, and the results are manifest.

So it behooves America to be ready for any emergency that might arise, that it might meet any menace that may threaten from any source. This can be done by increasing America's peace-time army to formidable size by offering extra inducements to attract enlistments.

I have advocated measures of this kind in the press in the past, favored changing the army discipline from the present methods of useless waste to profitable constructive enterprise, by placing enlisted men on the nation's conservation projects, under army engineer, such as the present conservation projects now being fostered by the government, and strengthening the levees of our

larger streams to conserve valuable agricultural lands, besides that flood their valleys, and the rich soil to the Gulf States every year. At the same time would make the army attractive to the youth of the land by increasing the pay of the private soldier from the insignificant \$1 per day to \$2.50 and overtime pay, and other words I would make the fenders of the nation an equal trial as well as a fighting man.

The enlisted man could be trained in such industrial projects mentioned above, as the war maneuvers could be carried while thus engaged, instead of congregating our soldiers in and transporting them hundreds of miles to engage in military fare in some locality.

But to lend respectability to the army the enlisted man must be remunerated in a measure commensurate with their responsibilities and the dignity of their position.

### THE EIGHTY-EIGHTH DISTRICT COURT

(Judge Patterson, Presiding)  
**Cases Pending**

The following cases are of recent filing and are pending in the district clerk's office for litigation in the 88th court:

Floye Ozelle McMahon et al vs. Couden Pipe Line Co., damages. Mrs. C. Owen vs. R. Quincy Lee et al.

**Judgments and Orders**

Following are the orders of Judge Patterson handed down in the 88th court, during the past week:

C. E. Eaton vs. Jack Needham, original action was suit for foreclosure of note and deed of trust, this proceeding was to near revolved and motion to discharge receiver and close receivership. The court finds that all matters in litigation have been properly adjusted and the motion should be approved. It is therefore ordered and decreed that receivership be and is hereby closed, receiver and surties relieved of liability, and it is the order of the court that all property in receivership be delivered to C. E. Eaton, plaintiff. The property in controversy is located just south of Cisco city limits on land leased from George Ruppert.

Floye Ozelle McMahon et al vs. Couden Pipe Line Co., damages resulting from the death of the father of plaintiffs. It appeared to the court that John Dan McMahon, one of the plaintiffs, is a minor, and was without a legal representative in this litigation, and Carl Springer was appointed guardian ad litem to represent the said minor plaintiff. The court was informed that parties had agreed to a settlement of the damages sustained by agreement, in which plaintiff Floye Ozelle McMahon should receive \$126, and Plaintiff John Dan McMahon the sum of \$125 in full settlement of their claim against the Couden Pipe Line Co., but said agreement should not include damages, if any, that plaintiffs might have against other parties resulting from this cause of action except in determining the full amount of damages they may be entitled to. John Dan McMahon, Sr., father of defendant, was injured in an accident while in the employ of the Couden Pipe Line Co., which resulted in his death.

J. E. Matthews vs. the Snebold Oil Corp. and W. F. Snebold, matters settled by agreement and case dismissed.

Judge Patterson called the criminal docket Monday, empan-

eled the jury, but most of the criminal cases were passed to a future dating for hearing.

**THE NINETY-FIRST DISTRICT COURT**  
 (Judge Davenport, Presiding)  
**New Cases Pending**

The following causes of action were filed during the past week in the district clerk's office for hearing in the 91st court:

Nell Allen vs. Hall Dean Allen, divorce. Ex parte Lynn Carter, removal of disabilities of minority. Floyd Browning et al vs. Ross R. Wolfe, damages. Della Reynolds vs. Blue Bonnet Life Ins. Co., suit on life policy. Stella Mae Hagar vs. Spencer E. Hagar, divorce.

**Judgments and Orders**

Judge Davenport announced the following orders in the 91st court during the past week:

Ex parte Lynn Carter, removal of disabilities of minority. It appearing to the court that petitioner was over 14 years of age, and his father, H. M. Carter, appeared in person and waived services of citation and made no objection to petitioner's prayer. The court decreed that the prayer should be granted, as it appeared that this was for the best interest of petitioner. It was therefore ordered that the disability of non age be removed, and that Lynn Carter be declared to be of legal age for all purposes except the right to vote.

Veoma Brown vs. I. C. Brown, divorce. Judgment for plaintiff annulling her marriage with defendant, and restoration of her former name of Veoma Sawyer.

Jacob Lyeria vs. Hazel Lyeria, divorce. Judgment for plaintiff Alvin E. Rogers vs. Clara Rogers et al partition. Herbert Reed appointed guardian ad litem for Minor Plaintiff Billie Joe Rogers to represent his interests in the litigation. Judgment for all parties as their interests appear, which are set out in the judgment rendered.

It was the decree of the court that Cisco Rogers be named receiver to take charge of the property in litigation, with instructions to sell the same at private sale for cash and report said sale to the court as required by law, and subject to his approval, and proceeds of said sale to be returned into court for distribution among parties to the litigation as their interests may appear.

Nevill and James McCracken.

### Dr. Ben David To Speak at Exercises

Deviating from the student participation program of the past few years, the high school senior class will hear an address by Dr. Ben M. David of Howard Payne college, Brownwood, Friday night, May 31, at eight o'clock at the high school auditorium.

### All-American Is Name of New Goodyear Tire

Included in the program will also be valedictory and salutatory speeches, as well as musical selections by graduating seniors. A chorus of senior girls, members of the choral club, will give special numbers, there will be a vocal solo by Miss Billye Cole, and a cornet solo by Glenn Tableman, accompanied at the piano by Miss Alice Slicker.

Baccalaureate services will be held at the high school auditorium Sunday evening, May 26, with the Rev. Joseph I. Patterson of the First Methodist church bringing the message. The Cecilia singers will give special music at this service.

A list of the graduates follows: Etil Akers, Bill Anderson, Roy Lee Brock, Carroll Barnhill, Bennie Black, Anna Kate Blackburn, Jerrell Boatman, Margaret Boatman, Marcelle Boggs, Vance Bowman, Glenn Boyd, Frances Brown, Robert Christie, Mildred Clark, Oran Clark, Reda Wray Clark, Mary Clements, Jesse Cleveland, Billye Cole, Dorafae Collins, Emma Cone, Hazel Lee Cook, Mrs. Laura Sharp, Ima Jean Curry, Robert Donovan, J. B. Duff, Clifford Dunn, Lee Evans, Almus Fannin, Marvin Fonville, Bob Grantham, Freda Grist, Henry Hageman, June Halbert, Cardella Halmark, Waldine Harris, Bill Howser.

(Continued on Page Six)

### SCHOOL BOARD URGES PUBLIC PUSH COLLEGE

The Cisco school board Monday night passed a resolution endorsing the proposed Cisco junior college as a necessary addition to the school facilities of this area and urging that the people of the community give their "early and active" support to the project so that the college may be in operation by the opening of the next term of school.

Pointing out that the law under which the college would be established prohibits use of any public school funds or levying of any special tax, the resolution made plain that the project is therefore a community responsibility. The board's formal resolution asserted that there is a serious need for such a college to serve the larger number of high school graduates annually turned out by public schools in the area; that the financial condition of the people generally is such that great numbers of these students who otherwise might attend college are unable to pay the cost of going away to colleges and that the establishment of a junior college in Cisco would give these opportunity to obtain college schooling at slight cost and while staying in their homes; that the average age of high school graduates is such that they are immature and not fitted by age and experience to attend resident colleges and universities at distances from their homes making the location of colleges nearer their homes almost imperative, and that the great demands being made upon graduates schools and universities are being made difficult to discharge by reason of increasingly crowded first and second year classes that the efficiency and service of these higher institutions of learning are being seriously impaired and demands for more state junior colleges to relieve the pressure are being made by educational leaders.

The board's resolution formalized the school board's position. (Continued on Page Eight)

### Moran Juniors Entertain Senior Class With Ranch Style Program

MORAN, May 16 (Spc).—Featuring ranch-style "vittles,"ingham napkins, campfire entertainment, and west Texas hospitality, the Moran high school junior class played host last Friday night to the senior class of 1940 in their big corral, the high school gymnasium. Occasion for such an entertainment round-up was the annual junior-senior banquet.

Foreman Ralph Brooks, junior class president, was boss for the night and welcomed the many guests, including the Moran school faculty, some visitors from Hardin-Simmons, other entertainers, and the members of the senior class.

The round-up motif was carried out in the speeches, in the food, in the entertainment, and in the decorations. As the guests entered the gymnasium, they had to climb the runway to get into the corral where the tables were set. Surrounding the corral were a host of mesquite trees, and in the center was a lively camp fire. Liberally branched was the corral fence. Place cards were discs freshly sawed from a mesquite tree, with the various names burned in them. Favors were little cowboy boots, table decorations were cacti, and the napkins were red-checked gingham.

Turned Seer Grafton Bumpers turned seer for the nonce and predicted the future success of each member of the senior class, while Glen Pool read the will which had been prepared by the graduating class, leaving their many gifts to members of the junior class.

The feature of the entertainment consisted of several cowboy songs sung by Donna Marie Woodrige and Connell Taylor of Hardin-Simmons university, accompanied at the piano by Jimmie Kate Tart of the same school. These entertainers were dressed in the typical cowboy uniforms featured by the Abilene school.

Other features of the entertainment were a medley of cowboy songs played by Clara Mae Rogers, sophomore student in high school, and an accomplished pianist, and a rope-twirling act presented by Ellsworth Freeman, ex-student of Moran high school.

The preparation of the food was directed by Miss Ruth Volyes, co-sponsor of the junior class and home economics teacher, and was done by members of the junior class. The serving was done by members of the sophomore class, dressed in cowgirl uniforms. The freshman girls also assisted in the serving.

Those attending, other than members of the junior and senior classes, and members of the school faculty, were: Mrs. W. E. Hammett, Mrs. Ellsworth Freeman, Misses Donna Marie Woodrige, Jimmie Kate Tart, Marion Grace, Clara Mae Rogers, Connell Taylor and Ellsworth Freeman.

### 77,000 Die Within Year After Taking Out Insurance

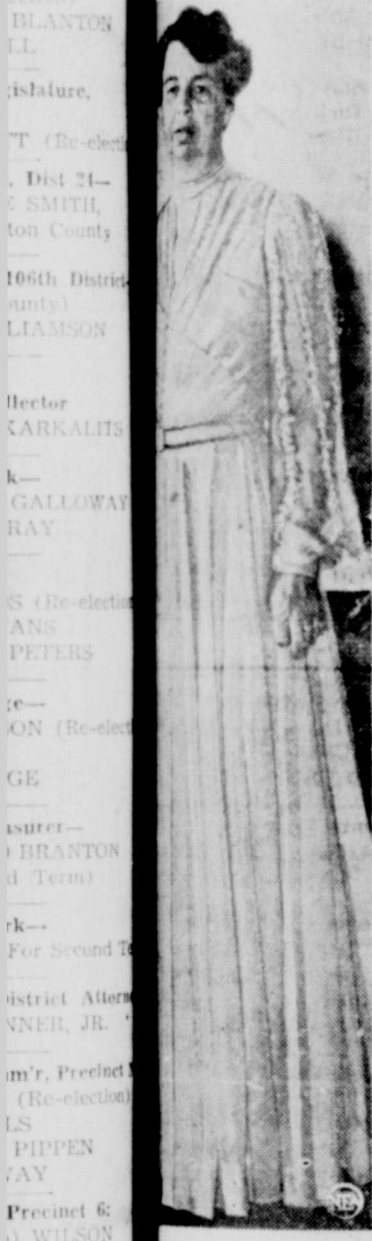

Statistics just compiled by the American Life convention indicate that 77,000 policy owners die annually in the United States, within a year after they invest in life insurance, and that their beneficiaries receive approximately \$52,000,000 as a result of their insurance.

The statistics just received here by K. H. Pittard, who is local representative of Southwestern Life Insurance company, an affiliate of the American Life convention, were taken from a survey which also covered the field of health and accident records. Based upon estimates of the United States public health service, the American Life convention reports an average of 5,000,000 persons invalidated each day by sickness, and 500,000 by accidents.

The report estimates the annual loss in wages from sickness and accidents, not covered by workmen's compensation benefits, total more than \$6,500,000,000. Where permanent disability is involved, however, much of this loss is covered by life insurance.

### Hostess New Gown

Hostess new gown, long, flowing lines, soft, flowing lines, over a slip of pink, and was by Sally Milgrim, of New York.

values to fit any car or truck, whether for a seven-year-old used automobile or a smart new deluxe car, a single truck or a fleet of high-speed transports. R. W. McCauley, local Goodyear dealer, said. "Affording an opportunity for the man who doesn't want to invest as much in tires, but yet enabling him to get products built by a recognized manufacturer, the All-American supplements the company's line of Double Eagle, G-3, Marathon and Pathfinder tires, providing one for every price range, to meet every driving need," said Mr. McCauley. Economies in manufacturing processes make the new tire possible at a net low price, Mr. McCauley stated. The same materials are used as are employed in the manufacture of all Goodyear passenger car tires, and the carcass is made with low-stretch supertwist cord, which has a higher tensile strength than did even the quality tires of two years ago. Double cord breaker of high-tensile cord has been included to give greater protection against bruises. Tread design is new and known as the multiple-rib, which assures long, even wear, easy steering and resistance to side slip. Tread compounds are of time-tested reputation for withstanding abrasion.

"The Best Place to Trade After All"

# FARMERS TO VOTE MAY 25 ON DISTRICTS

Farmers of Eastland and several adjoining counties will vote Saturday, May 25 on the formation of soil conservation districts. Twenty meetings are being held this week so that agricultural workers of the county can explain to landowners and their wives what constitutes a soil conservation district.

All land in Eastland county is included in one of two proposed districts. With the W. F. & S. (Jake Hammon) railroad as a dividing line, all land west of the railroad is in the Dublin-Comanche-Eastland district, and all east of the railroad is in the Palo Pinto district. The Dublin-Comanche-Eastland district also includes all of Comanche and the western part of Erath county. The Palo Pinto district also includes all of Palo Pinto and parts of Erath and Jack counties.

**Voting Places**  
Voting places in Eastland county will be the Ranger city hall, Eastland justice of peace office, the Carbon Trading Co., Scranton school, Gorman newspaper office, city hall at Cisco, Rising Star city hall, Desdemona city hall, Mountain school, Ranger Young school, and Tudor school.

Eastland county landowners and their wives must vote according to the school district in which their home is located. They must also consider which proposed soil district includes their land and home. If they live on one side of the W.F.S. railroad and all their farm and ranch land is on the other side, they cannot vote. School districts embraced by each voting district are as follows: Ranger (city hall)—the school districts of Ranger, Colony, Cross Roads, Alameda, Bullock and Lone Cedar; Carbon—the school districts of Carbon, Long Branch and Center Point; Scranton—the school district of Scranton; Gorman—the school district of Gorman; Kokomo, Elm, Grandview, New Hope, Leon and Indian Mountain; Cisco—the school districts of Cisco central, Sandy, Romney, Shady Grove, Reich, Cottontop, Bluff Branch, Friendship, Dothan, Pleasant Hill, Lee Ray, Bedford and Reagan; Rising Star—the school districts of Rising Star, Hallmark, Crocker, Okra, Brooks and Cook; Desdemona—the school district of Desdemona; Pioneer—the school district of Pioneer; Cross Plains and Union Hill; Ranger (Young)—the school districts of Ranger, Cross Roads and Bullock; Tudor—the school district of Tudor; Mountain—the school districts of Desdemona, Alameda, School Hill and Tanner; Eastland district—justice of peace office—Eastland, Olden, Union, Flatwood, Morton Valley, Triumph, Grapevine and Mangum.

**What a District Can Accomplish**  
Two thirds of the qualified voting landowners must favor a district in order for it to be established. A district is a governmental subdivision created under the State Soil Conservation law. They can neither vote bonds nor levy taxes.

A farmer living in a soil conservation district who desires assistance makes his request of the district supervisors, who have the assistance of cooperating agencies. Representatives of their agencies will assist the farmer in planning soil and water conservation measures on the farm.

If and when a plan is agreed upon, the farm and district enter into a cooperative agreement and then technical help may be made available to the farmer. This agreement will set forth the

farmers' obligations and the district's obligations in carrying out the conservation plan on the entire farm or ranch. Each interested party will thoroughly understand the contributions to be made by the other, whether it be technical assistance, labor, materials, etc., before an agreement is entered into. If a mutually agreed upon plan for the farm cannot be worked out, no obligations are assumed by anyone and the matter is dropped.

Any equipment or material that can be gotten by the district from the department of agriculture or any other agency will be controlled by the supervisors. The supervisors are eventually all elected by the landowners and are the governing body of the district. They have no money to spend and are furnished no money by the state.

The successful operation of a soil conservation district depends upon the willingness of landowners to do all they can to make it a success. Government agencies have repeatedly emphasized that there will be no gifts or donations to landowners.

**What a District Cannot Accomplish**  
As stated before, a district cannot vote bonds or levy taxes, nor can it do a whole job for the farmer. If the farmer does not want to enter into a cooperative agreement with his district, he can still secure the services of the county agent, vocational teacher, A. A. A. and Farm Security administration. However, the services of all these agencies could be used more efficiently in cases where groups of farmers were working together.

Very often farmers think they will be forced into a cooperative agreement after a district is organized. This is not true. After most of a district is protected by conservation practices, and this will take years, land use regulations may be considered if needed. They would be needed only when some particular farmer's methods of farming were considered a menace to the other farmers of the district. In such case, 90 per cent of the landowners in the district would have to vote in favor of land use regulations before they could be enforced, and then farmers still have other right of appeal.

**Who Can Vote May 25**  
Landowners and their wives who own land in and live in a proposed soil conservation district can vote if they are qualified under state law. Heirs to an undivided estate, and their husbands and wives can vote. Persons living outside of a proposed district but owning land in the district CANNOT vote.

**High Prices Being Paid for Mohair**

RANGER, May 16 (Sp)—Dr. R. H. Hodges and J. F. Donley of Ranger, two of the leading mohair raisers in this part of the country, participated in the sale at Fort Worth of 60,000 pounds of mohair to Munro, Kincaid, Edgemoor, Inc. Dr. Hodges has 1,600 pounds of mohair in the sale and Donley had 1,500 pounds. Monday Dr. Hodges shipped 4,598 pounds of wool to the Midwest Wool Growers association, which made the sale.

Word received here today was to the effect that No. 1 kid brought 80 cents a pound at the

## For State Senate

WILBOURNE B. COLLIE

## Collie Seeking Re-election to Texas Senate

EASTLAND, May 16.—State Senator Wilbourne B. Collie, who has initiated a campaign for re-election which will take him into the 24th senatorial district this month, declared today he is in favor of meeting social security obligations upon the "Jeffersonian" fundamental that taxes should be borne by those best able to pay.

"In other words," explained Collie, "those who have the most and who receive the most should carry the main part of the load." Counties which comprise the 24th senatorial district are Callahan, Eastland, Fisher, Haskell, Jones, Mitchell, Nolan, Scurry, Shackelford, Stephens, Taylor and Throckmorton.

Reviewing his service, Senator Collie stated, "During the years I have been in the senate, which service has been co-extensive with far-reaching reforms, beginning in 1933 in the state and nation, I have sought to serve the people with all the zeal, diligence and ability that I possess. I am now before them to present an accounting of my stewardship, with the hope that my record merits a continuance of their support."

The official declared that, "Perhaps the first and foremost questions that will confront the next legislature will be meeting the obligations which were voted by the people—that of providing the support of old age assistance, aid for the destitute and neglected children; aid for the blind and appropriations for the teacher retirement fund. In this connection, my record will show that I am now, and have always been, the

friends of the aged, the blind and others in needy circumstances and I have endeavored assiduously to make provisions for all the social advantages and obligations which have been adopted. Enabling legislation has been passed by the legislature putting into effect all these constitutional amendments and the legislature has done much to alleviate the suffering among our people."

## Cold Storage Feed Lockers to Be Discussed

Two meetings will be held in Eastland county Friday, May 17, to give information to interested persons on cold storage food lockers, according to plans made by County Agent Elmo V. Cook. A meeting will be held in the theater, Rising Star, at 9 a. m. Friday and another meeting in the county court room, Eastland, at 2 p. m. C. E. Bowles of the A. & M. college extension service will speak and also show a motion picture of the operation of locker plants. Men and women who are interested in the locker plan for supplying meats, fruits and vegetables to the family the year round are invited to attend one of the meetings.

Refrigerated food locker plants, already established and successful in many parts of the nation, are spreading rapidly in Texas. Most locker plants are operated as farmers' cooperatives. Some are owned by private individuals under a commercial set-up.

The system provides lockers which are rented to individuals for storage of meats, fruits and vegetables.

## BUILD HOME DEFENSE, SAYS JUDGE SMITH

Here Tuesday morning to speak at chapel exercises of the high school, sponsored by the VFW, Judge John Lee Smith of Throckmorton declared that the sudden outburst of battle in Europe had lessened people's interest in domestic politics.

"The flaming tide of battle in Belgium and Holland has brought home to our people the solemn fact that the peace and tranquility of every American fireside is threatened by the titanic struggle that now rages beyond the sea," said Judge Smith.

"While time is with us we should build a battle fleet that will guard our sea gates from any invader. We should fill the skies with the winged strength of our might and keep them free of any warbirds from over there. Our army should be strengthened and increased.

"If we do this the brutal atrocities of the murderous 'blitzkrieg' will not dare attack us. This is the best way to keep America out of war and a sure way to keep the war out of America."

Smith served in France with an artillery regiment during the World War.

## BEDFORD

Mrs. Henry Glen and her parents, Mr. and Mrs. W. E. Higgenbotham, were served to all present. The next meeting will be Wednesday afternoon, May 29, at the home of Mrs. W. E. Higgenbotham.

## BETHEL

Sunday school was well attended Sunday.

We were unable to have our Mother's day service last Sunday because of the absence of our pastor. However, there will be a special service next Sunday. Every mother is urged to be present for this service.

Singing was enjoyed by all present Sunday afternoon. Next singing will be May 26.

Mr. and Mrs. Ed Townsend drove to Ranger Sunday afternoon for his mother, who spent the past two weeks with another son there.

James and Eldon Lee Callarman and Kenneth Boatman were Sunday guests of Udell Morris.

Mrs. W. M. Moore and son, Clarence, and "Fat", Elvie J. and Audine Reed of Putnam visited Mrs. C. H. Threet and children Sunday afternoon.

Mr. and Mrs. M. Evans and children, Almus and Geneva Fannin, visited Mrs. J. M. Boatman and children Friday night.

Mr. and Mrs. Thames attended church at Bluff Branch Sunday.

Leslie Fleming visited in the F. L. Rains home Monday morning.

Mary Lou Fleming and Lela Mae Evans of Mineral Wells visited Viola and Amy Mae Threet Sunday afternoon.

Euna Faye Callarman was a Sunday guest of Almus and Geneva Fannin.

Mrs. E. L. Callarman and boys and Mrs. R. J. McMurray and sons visited Mrs. J. M. Boatman Monday afternoon.

Jerrell and Margaret Boatman visited in the C. H. Threet home Sunday afternoon.

Mr. and Mrs. Vernon Alvey and twin daughters were Sunday guests of his parents, Mr. and Mrs. J. W. Alvey.

C. H. Threet and boys visited in the F. O. Schaefer home Saturday night.

Herman and Perry Lee Threet visited Jerrell Boatman Friday night.

## PISGAH

Mr. and Mrs. T. T. Horn and Mrs. L. A. Parks attended the frame garden demonstration at the home of Mrs. John Stutteville at Dan Horn last week.

Mrs. Buck Sharp was a Monday visitor of Mrs. Rufus Horn.

Mr. and Mrs. Owen Sweeney of Nimrod were guests of Mrs. Owen's parents, Mr. and Mrs. L. A. Luttrell, Sunday.

Mr. and Mrs. Alford Parks entertained Sunday for their mother. Dinner was served, and in the afternoon, ice cream and cake were served to the following: Mr. and Mrs. R. L. Nels and son, Johnnie, of Bluff Branch, Mr. and Mrs. L. A. Parks and Billie Ruth, O. M. Abbott, Sr., O. M. Abbott, Jr., and John Abbott, Mr. and Mrs. Fred McCorkle of Dan Horn and Mrs. McCorkle and sons of Nimrod.

Jerrell Boatman visited in the home of Mr. and Mrs. G. W. Horn Sunday morning.

Jim Dillion was a visitor in Eastland Wednesday evening.

Mrs. McMurray and little son visited Mrs. W. E. Morris Monday evening.

Mr. and Mrs. Halbert of Cisco visited Mr. and Mrs. Howard Collier.

Mrs. R. D. Vanderford visited her sister, Mrs. H. W. Ham, in Cisco Thursday evening.

Mr. and Mrs. J. W. Hazelwood and children of Putnam were dinner guests of his parents, Mr. and Mrs. R. N. Hazelwood, Sunday.

Mr. and Mrs. Audrey Vanderford and daughter of Abilene, Mr. and Mrs. J. J. Butts and little son of Holliday and Jimmie Pollard visited in the Vanderford home Sunday morning, and then Mr. and Mrs. R. D. Vanderford and grandchildren went to Cisco, where they were dinner guests of Mrs. G. Pollard.

There will be a working at the Mitchell cemetery Thursday, May 30. Everyone is urged to come and help clean up the ground where our loved ones are buried.

Everyone remember the play to be given at the Cottonwood school house Friday night, May 17. Come early and bring someone with you. There will be no admission charges.

## REICH

Mrs. C. J. Stephens of Cisco visited her sister, Mrs. G. W. Horn, and Mr. Horn Friday evening.

G. W. Horn visited Mr. S. L. Rogers Monday morning.

Mr. and Mrs. W. E. Morris and children visited her parents, Mr. and Mrs. G. W. Horn, Sunday evening.

Mrs. Jim Dillion and daughter, Brumie, Mrs. R. N. Hazelwood and Mrs. G. W. Horn attended the council meeting at Eastland Wednesday evening.

Dinner guests of Udell Morris Sunday were James Ray, Eldon Lee and Neal Callarman and Kenneth Boatman.

Mr. and Mrs. W. T. Donham and children were Sunday dinner guests of Mr. and Mrs. L. C. Carr.

H. A. Coats visited briefly with L. E. Edwards Tuesday.

Mr. and Mrs. J. M. Pence and children, Eunice, Henry and Edgar, Mr. and Mrs. Bill Pence and children, Joy Pence and Wayne, Mr. and Mrs. L. E. Edwards and sons, Luther Lee and Arthur C. were Sunday guests of Mr. and Mrs. Henry Parmer and children.

Mrs. Berle Harwell and children visited Mrs. L. E. Edwards Monday.

Mr. and Mrs. William Donham were Sunday night guests of his parents, Mr. and Mrs. R. T. Donham.

Aubrey Coats spent Sunday with his father, H. A. Coats, of Pueblo.

Mr. and Mrs. L. E. Edwards and sons visited Mr. and Mrs. W. L. Yeager Friday night.

The quilting club meets with Miss Lois Nels Thursday.

William Donham, Mrs. L. E. Edwards and Mrs. Berle Harwell are the ones from this community that will take a part in the play, "On Ione's Trail," to be given Friday night, May 17, at the Cottonwood school house. Everyone is cordially invited. There will be no admission.

## Red Cross Asks Ten Million War Relief Fund

Responding to the appeal of the National Red Cross, the Eastland county chapter is undertaking a campaign to raise \$1,140 of a national war relief fund to total \$10,000,000. It was announced

building breastworks (such as river levees) army equipment, airplanes, munitions, etc., instead of lolling around army barracks and traveling to distant places for maneuvers of mimic warfare.

The government has made a slight gesture towards industrialization in the CCC army, but that is merely the primer class of an industrial army. To industrialize our army would be preferable to the present WPA set-up, as it would have an army of hardened and trained men ready for any emergency that might confront the nation, and could be mobilized immediately to answer their country call, should they be needed, and the United States would not have to delay action as was the case when we entered the World war.

Saturday by R. C. Kinnaird, county chapter chairman.

Of the county's quota, and Mr. Kinnaird, the Cisco chapter will be expected to raise \$275. The local Red Cross chapter committee will have charge of the drive here, he said.

The telegram of appeal from Norman H. Davis, national chairman, read:

"With the invasion of Holland, Belgium and Luxembourg, the war has entered a phase which will inevitably and at once bring widespread and appalling suffering to millions of helpless men, women and children. In order to inaugurate widespread relief measures, the American Red Cross is at once launching a campaign for a minimum war relief fund of ten million dollars. Your chapter quota is \$1,140. Please at once mobilize the entire leadership of your chapter and community in order that your quota may be raised and exceeded without delay."

## The Judge--

(Continued from Page Four)

ing. It is a national disgrace to compel an enlisted man to risk his life and limb for the pitiful sum of \$1 per day, while government bureau attaches draw fabulous salaries in comparison, as their precious lives are protected in bomb-proof offices and sheltered positions.

Should our army be industrialized the enlisted men could be instructed in handicraft, such as

I'LL HAVE TO LEAVE YOU AFTER THIS HOLE, I HAVE TO PREPARE DINNER, DON'T YOU?

OH NO! MY DINNER IS ALL READY! A MEAT LOAF WITH TOMATO SAUCE, PEAS AND CARROTS, MACARONI AND CHEESE, LETTUCE WITH FRENCH DRESSING, STRAWBERRY GELATINE WHIPPED AND FROZEN, AND MACARONS.

WISH I COULD PLAN AHEAD LIKE THAT!

MY GROCER HELPS ME! HE PLANS MY MEALS AND ALWAYS KEEPS A FRESH STOCK OF EVERYTHING. TRY HIM!

Norvell & Miller

## POWER COSTS

take a DIVE

HERE'S HOW YOU SAVE

FUEL. Control temperatures even and top burners. Insulation prevents heat loss.

TIME. Automatic lighting of burners, oven broiler. Faster heating. Easy cleanability.

FOOD. No pre-work or wait foods. Better meals with expensive food.

PLUS such features as the famous Swing-Out Broiler, Hi-Lo Valve, Regulator, Hi-Speed Oven.

These impartial tests furnish convincing proof that your fuel dollar goes farther in a John Deere. Come in and make us prove it.

## JOHN DEERE TRACTORS

JOHN DEERE Two-Cylinder Tractors, burning low-cost fuels successfully, are sending power costs down to low levels in all sections of the country.

Users are reporting amazing savings on low-fuel alone. For instance, many are operating their John Deere Model "H" tractors for as little as 2 cents an acre in cultivating.

Measuring fuel economy on a dollars and cents basis—the way it should be measured—partial tests show that five different makes of tractors using low-grade gasoline do only as much work as a John Deere Tractor for \$1.00 worth of low-cost fuel, and that nine other makes burning regular gasoline do only as much work as a John Deere on \$1.00 worth of low-cost fuel.

Mrs. Woods Will Present Recital Here Tonight

Mrs. Paul Woods will present her studio of expression in recital at the high school auditorium this evening at 8 o'clock.

Presbyterian Circle Meets

Circle Three of the First Presbyterian Women's auxiliary met Tuesday afternoon at the home of Mrs. Guy Brogdon.

PTA Has Final Meeting of Year Wednesday

With the recently-installed new officers in their chairs, the West Ward Parent-Teacher association met for the final session of the school year Wednesday afternoon at the school.

Officers presiding were: President, Mrs. W. W. Fewell; secretary, Mrs. R. N. Cluck; treasurer, Mrs. W. W. Milner; program chairman, Mrs. John G. Jones; ways and means committee chairman, Mrs. T. E. Lisenbee; health chairman, Mrs. Fred Scott; welfare committee chairman, Mrs. Guy Brogdon, and publicity chairman, Mrs. A. L. Osborn.

During the business session it was decided that the project for the coming school year would be the installation of new playground equipment, and adding to the school library.

A very entertaining program was presented by members of Mrs. B. A. Butler's piano studio. Solos were played by Bobbie Lee Miller, Joyce Elliott, Elizabeth Cope, and Martha Jo Pass, and a duet by Bobbie Lee Miller and Martha Jo Pass.

In the room count, Miss Addie Steven's room won for the lower grades and Arlin Bunt's for the high grades.

Moran High---

and it was really their game all the way. Allen, Jobe and Robinson led their attack.

Tonight's game has been postponed until Tuesday. It was a make-up game between Putnam and Scranton. The base running also will be postponed until then.

The Notebook

Friday

The First Baptist Junior G. A. will meet at the church at 7:30 for initiation of new members.

Saturday

The SSD club will sponsor a dance at the Lake Cisco Country club beginning at 9 o'clock. Members of the junior and senior classes will be honored guests.

J. C. McAfee New Trustee Of Schools

J. C. McAfee Monday night was appointed a member of the Cisco school board to fill the place vacated by the resignation of Lory Boyd. Mr. McAfee accepted the appointment.

Mr. Boyd was elected a year ago to a term of three years. He was promoted by the Humble Pipe Line company and transferred to Odessa a few weeks ago.

Mr. McAfee is owner of an outdoor advertising company. He and Mrs. McAfee, who is a former member of the Cisco public school faculty, have three children.

At the meeting Monday night the board also passed resolutions endorsing the program for establishing a junior college in Cisco as a unit of the public school system and urging the public to give immediate and earnest support to the project.

Specs---

(Continued from Page One)

gasoline used by the Texas consumer any less or more economically adjusted to his needs by reason of the tax indirectly levied on outside users. It is noted that the commissioner does not propose to repeal the gasoline tax already in effect. On the contrary, the column takes it, he proposes to increase it.

But the prime question which the commissioner should answer is this: Can Texas levy a tax on consumers outside Texas? What will the other states, speaking of them as collections of consumers, be doing along about that time? Will they supplement to increased Texas oil tax costs when it is so easy to hike the allowables in other producing sectors and secure oil free of Texas "something for nothing" tax? Mah Frans, I think not! I think that the market for Texas oil will decline either by refusal of the public outside Texas to pay the increased costs, the refusal of purchasers of production to buy Texas crude when less taxed crude from other areas is available; that gasoline and oils from other areas will be processed for sale in Texas retail markets thus bringing to Texas consumers the savings in costs or to processes and sellers the extra margin of profit; and that the sum of the influences of this intriguingly presented proposition to burden the state's oil industry with another tax would be to reduce activity and employment in the production and processing of oil in Texas to such an extent that the economic loss would far outweigh any advantages to the state's tax picture.

States have a peculiar way of avoiding the stratagems of others to make them pay the others' bills. There's some kind of a natural law against the process.

The commissioner is guilty of politics as opposed to statesmanship. He is guilty of appealing to the something for nothing instincts. As a businessman the Colonel certainly realizes that a person is compelled to pay for what he gets. Deadbeats don't last long in the business community. The policy of a fair price and a fair profit is fundamental to our economy. And since our tax structure and governmental finance programs are founded on the business economy of the country, it follows that the same principles which governs in one sphere must inevitably govern in the other. Government is just another part of the public business life.

The people of Texas have asked for certain services. They have demanded old age pensions, social security programs and many other public service programs that cost money. The same thing is true in other states. Texas people will not pay for the services demanded of their state governments by the people of Illinois or New York or Oklahoma. They cannot expect the people of those states to pay for what they ask out of the wisdom or folly of Austin. The sooner that the people of Texas and of the United States as a whole realize that they cannot have their cake and eat it, too; that they must pay for what they get, and demand of their public officials more commonsense and less nonsense, the sooner will the country get down to a sound and sensible basis of earning its way and establishing its economy on realities and not hopes.

Correction In Wednesday Story Is Requested

The Cisco Daily Press is in receipt of a letter from Joe A. Clark, director of the Cisco Recreation project, correcting an error made in an article run in the Press on Wednesday, May 15, concerning the forthcoming National WPA Week.

The letter reads as follows: "Your evening paper dated Wednesday, May 15, announced the observation of WPA week on page one, column three. The article as indicated, stated that professional and service projects in Cisco were under the direction of Joe A. Clark.

In correcting this statement permit me to say that my work with the professional and service division deals directly with recreational activities, alone.

For your information the chairman of the local committee for National Professional and Service Week is Miss Carlina Gray, the Housekeeping Aide Project superintendent. All professional and service activities are under the direct supervision of field supervisors in this district.

Field supervisors of the professional and service division are directed by Edna E. Hardwicke, district director.

I will appreciate your assistance in correcting the situation for the benefit of your subscribers and myself."

French Assert---

(Continued from Page One)

coast ports after piercing the Albert canal defenses at Maastricht and to the west.

On the southeast flank of the main Meuse battle, the French said German assaults on the Maginot line, in the Moselle valley sector, had waned, and that the Maginot forts were holding fast.

Official papers of capitulation, signed by the Dutch commander-in-chief, erased Holland's army for a last-ditch defense in the Zealand province islands in the southwest, which would make excellent submarine and air bases against the English coast, little more than 100 miles away.

Of the Dutch army of 400,000, the Netherlands foreign minister estimated that one-fourth, or 100,000 men, died in less than five days of annihilating blitzkrieg. The Belgian high command announced that Liege's defenses still were resisting heavy German pressure and that the German advance had been halted in several places.

The British, reporting 150 planes had smashed German communications and troop movements to the front in the greatest allied air attack of the war, announced their forces had held off waves of German attackers, and that since the Nazi offensive started at least 124 enemy planes had been downed by the air arm of the BEF.

On the frontier facing still neutral Switzerland, the Germans rolled artillery into place behind motorized divisions, and foreign military observers in Basel said the Nazis appeared ready to move.

The French also had a strong force concentrated on the Swiss frontier against a possible German stab in that direction, and the mobilized Swiss army sped its task of getting frontier fortifications in order.

Donald Sures of Kelly Field, San Antonio, and W. C. White of Texas A. & M., are expected to arrive Saturday afternoon for a visit with relatives and friends here.

Band Awarded 1st Division In Playing

Final judging in the recent National School Music Competition and Festival at Waco revealed that the Cisco Lobo band received superior, or first division rating, in concert playing for Class B bands, it was announced Monday by Dir. R. L. Collier.

In the marching events, held Friday night at Baylor athletic field, Cisco won second division rating, and in sight reading third division. A. A. Harding of Illinois State university, one of the judges of sight reading, attributed Cisco's failure to place higher in that particular phase of the contest to nervousness and timidity on the part of the band members.

Playing and marching events were in competition with a very strict standard of judging, and numerous Class B bands which had for a number of years received the superior award dropped to second and third division in this year's contest.

First division solos and en-

sembles were Glenn Boy... tone; Glenn Tableman; B... Canlies, bass, and the... tette, Glenn Tableman... Clark, James Flournoy, F... Ralph McCannies and Glen...
