Long Jumps Between Pumps THE Scots, you know, had a grand old war song,

Scots from Missouri!

Consumers nowadays are in more and more of a "show me" mood. That's a great thing for Conoco Bronz-z-z because its good mileage shows. That's why Bronz-z-z could afford to introduce the frank, impartial Mile-Dial . . . free, while Your Mileage Merchant's supply holds out.

"The Campbells Are Coming!" And the correct kilties for any of the Campbell clan from the Argyll region, for instance, would be green with wide blue and black "crossings" or stripings, plus secondary black crossings, plus a yellow and white overcheck. But now if you want to be pure "Scotch" at buying gasoline, the color that means most to your own self is Bronz-z-z . . . Conoco Bronz-z-z. Conoco Bronz-z-z is the Bronz-z-z that gives you long jumps between pumps. And that statement, you can prove, isn't the least bit colored, for Your Mileage Merchant will give you one of the fascinating Conoco Mile-Dials free. This certified instrument reports your own Conoco Bronz-z-z mileage -impartially-accurately-without effort. Ask Your Mileage Merchant.
