Through the Editor's Spectacles

By GEORGE

A. D. Anderson posed the writer a question this morning to this effect: "Do you think this war will end in six months?" Your judgment is as good as mine, but I don't think so. It is true that there have been some definite peace moves, and it is even possible if not probable, that these moves toward peace are inspired from Berlin. It is reasonable to presume that they are inspired by Hitler for the very reason that if peace is declared on the basis of the status quo, Hitler would have won the war.

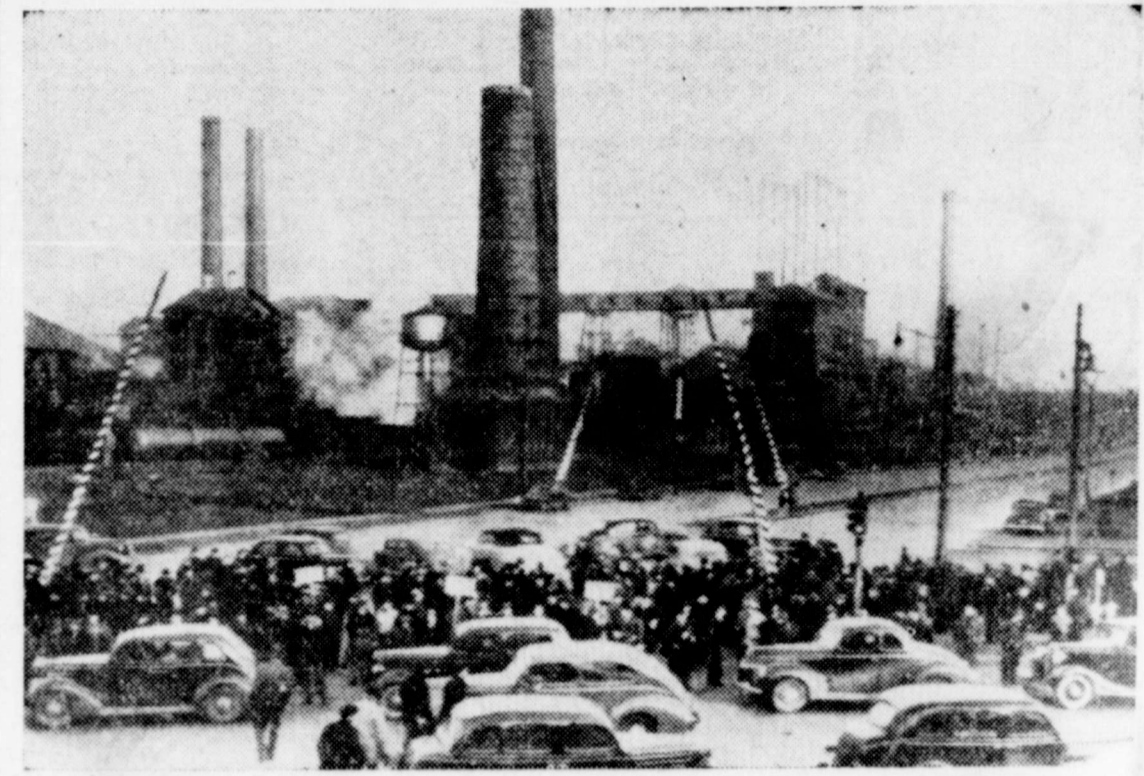

If you will think about that for a few moments perhaps you will arrive at the same conclusion. At least there are reasons for this conclusion. The column sees them as these:

Hitler already is dominating the continent. He has territories and allies that he dominates, such as, for instance, Italy and Bulgaria. These territories and allies furnish him not only raw materials and facilities for manufacture of goods and munitions, but ports and strategic military bases which he did not possess before. World peace would place him in position to turn his vast military machine to continued subjugation of his allies and the countries he protects, while it would leave him free to deal with Russia, which seems to be an increasing threat, and to attempt and implement his alliance with Japan. He might even take advantage of general peace to pick a quarrel with Russia so that he could detach a hunk of territory from the Soviets and add to his agricultural and mineral resources which are not sufficient for the ambitious scheme of world domination that he has cooked up.

At the same time, he could see a world peace to engage world trade, draw more quantities of raw materials from abroad, improve his financial position and possibly build up his navy to a point where it could challenge the British on a more nearly equal basis. The French empire with its vast colonial territories ruled from Vichy would undoubtedly be utilized. This much is certain: a world peace would give Hitler with his present conquests a wonderful opportunity to increase his political prestige at home and to build up even greater armaments for the prosecution of his challenge to the democracies. Peace would merely be an interlude. The opposing issues and principles would remain. The struggle for final determination would merely be postponed into a greater and more desperate holocaust. The column believes that the British people realize this, and that the British, stirred to the foundations of their once-mighty empire, had rather fight to a finish now than yield to a negotiated peace which would leave nazism in control of Germany. For they know they can have no faith in Hitler, and they realize that peace would merely transfer action from

MISSIONARY ADDRESSES ROTARY CLUB

While America with one hand has been stupidly aiding the Japanese in their assaults upon China, with the other we have been trying to stop the wounds, Mrs. John Minter, missionary from Soochow, China, told the Cisco Rotary club today.

Mrs. Minter, presented to the club by Mrs. John Jones in a program prepared by Edward Lee, is in the United States as the result of the request of the United States that all American nationals who can do so leave occupied territories in China, she explained. Her husband remains in Soochow.

She described the brutalities inflicted upon the Chinese by the Japanese invaders, but told the club that the cost of a conflict which Japan confidently believed would last a few weeks, has become a tremendous burden, and that the end does not seem as near as when the struggle began. She is confident, she said, that China, which was progressing toward national unity and vigor and a sound modern civilization before the invasion, would emerge from her struggle a great and free nation. And she called upon Americans to answer the call of China for spiritual and material aid in her hour of crisis, asserting that China is not only American.

Presbytery To Convene Here Early Next Week

The Fort Worth Presbytery will hold its semi-annual meeting at the Cisco First Presbyterian church beginning Tuesday afternoon and continuing through Wednesday evening, according to Dr. Gary Smith, pastor.

The opening sermon will be preached Tuesday evening by C. B. Brinkley of Itasca, retiring moderator, and on Wednesday at 11 o'clock Dr. John V. McCall of Weatherford will preach the annual sermon on the subject, "Sovereignty of God." This will be followed immediately by presbytery communion.

Choir Meeting Place Changed

The First Baptist church choir will hold rehearsal at the church Friday evening at 7:30, it has been announced, for the purpose of practicing for special Easter music.

GERMANS MASS PANZER UNITS IN BULGARIA

Military Action Expected to Supplant Diplomatic Drive

By the Associated Press
German motorized troops were reported massing early today in occupied Rumania, in a frontier region hardly 50 miles from Belgrade, and thus it appeared that Hitler might be preparing to supplant with military action his long diplomatic campaign to bring Yugoslavia directly under axis influence.

Other Nazi divisions in addition to the panzer troops were said to be concentrating in southern Hungary and pointed toward Yugoslavia.

This activity—which was reported in diplomatic messages in the Balkans—caused instant alarm in the Yugoslav capital, although it did not infallibly mean that a blow was going to fall at once. Such troop movements have sometimes been employed by the Germans merely for psychological pressure.

Yesterday the Germans and Italians, deeply involved already in their misadventure with the defiant Yugoslavs, opened what amounted to new diplomatic offensive against the United States thrusting Japan forward in an effort to make Washington talk softly in extending aid to Britain.

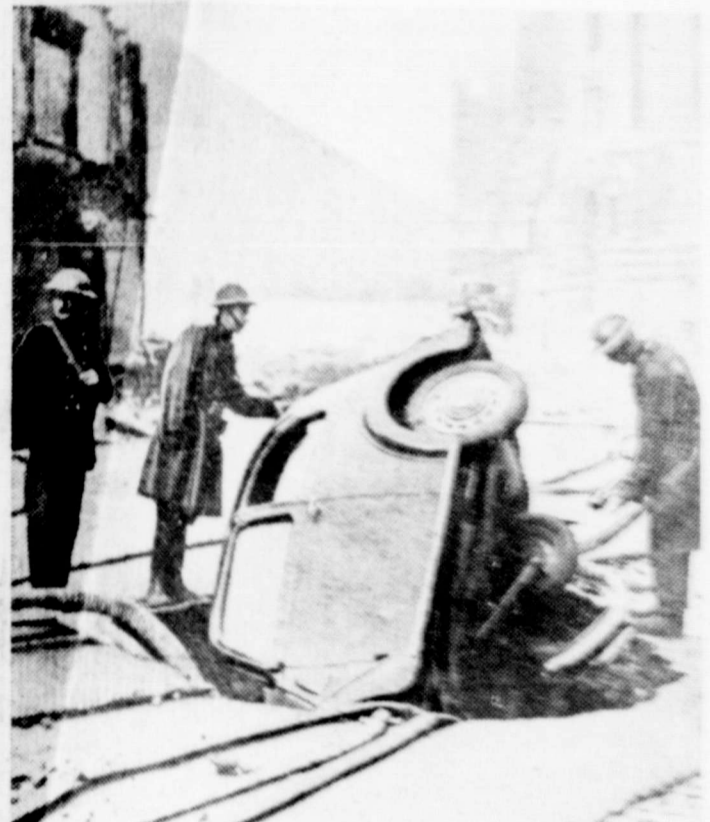

This second concurrent maneuver in axis power politics was launched by Mussolini's chief editorialist and propagandist, Virginio Gayda, who used the presence in Rome of Yosuke Matsuoka, the Japanese foreign minister, to send a threat across the ocean.

Gayda stated in effect that in Matsuoka's conference in Berlin with Hitler and in Rome with Mussolini an agreement had been reached as to Japan's mission of action should the United States engage in hostilities with the axis—and even should this happen "without formal declaration of war."

"Every new act of belligerency by third powers, even without a declaration, will find the tripartite (German-Italian-Japanese) pact functioning with its formidable means on and over the vast world scene," he proclaimed.

The Japanese were merely seen, and not heard, in this scheme. The only thing publicly contributed by Matsuoka himself—a generally dropped in a press conference with German and Italian newspapermen—was in no sense belligerent. He remarked that in "several talks" with the Italian foreign minister "questions of the most pressing importance" had been discussed.

PLAN DEVISED TO SETTLE FORD STRIKE

Union and Company Officials Conference on Proposal

By the Associated Press
A plan to settle the nagging strike at the Ford Motor company's River Rouge plant was announced last night by a federal mediator while state police patrolled the area to guard against further violence.

The mediator, James F. Dewar, made his announcement following a conference with union officials and then closed himself with company representatives in the Dearborn hotel suite of Gov. Murray D. Van Waggoner of Michigan.

No details of the settlement plan were announced. Strikers and non-strikers had dugged each other with wooden shovels, iron pipes and wrenches inside the plant during the day, while in the Marian road fields of Kentucky, 500 men were killed, 1,000 injured.

These acts of violence punctuated a day of bad moving labor developments. There were demands by congress for legislation to curb strikes in defense industries. The house approved two separate investigations of the defense program, and John L. Lewis said in New York that the United Mine workers would not permit the soft coal wage dispute to be turned over to the defense mediation board.

In addition, the government stepped in and ordered soft coal prices "frozen" at levels of March 25 "to prevent runaway or excessive prices due to the bituminous coal strike."

The defense mediation board announced in Washington that an agreement had been reached for continuing production at three plants of the International Harvester company, Chicago. C. A. Dyckstra, board chairman, said the agreement had been signed by the company and the AFL, but not by the CIO.

The agreement provided for operation of the plants pending a settlement recommendation by the board. It also provided that the other relations board be asked to hasten determination of collective bargaining agencies; no loss of seniority by employees; a formula for payment of employees if continuous operation of the plant is not immediately possible; and preservation of order by workers during the board's investigation.

The Harlan rioting in which more than 100 shots were reported fired, also resulted in the wounding of five other men. The shootings occurred at the Crum Creek Coal company mine. This and other mines in the Harlan soft coal area were closed pending negotiations in New York for a new contract between the bituminous operators in eight states and the United Mine workers (CIO). The old contract expired at midnight Monday, but the negotiations have been going on since.

The CIO United Auto Workers union, which called a strike at the Ford plant Tuesday midnight, said that between 30 and 40 strikers were given medical treatment as a result of the Dearborn disorders. Many of them were bruised and out in hand-to-hand fighting.

5,500 Auto Licenses Issued in County
EASTLAND, April 3 (Spe.)—Approximately 5,500 automobile licenses were sold in Eastland county up to and including March 31, as compared with 5,000 sold for the same period last year, according to figures released by the county tax assessor-collector's office.

The above figures, however, are subject to correction as a number of sub-stations had not reported their total sales at the time these figures were announced.

Keep Chickens in Bounds, Police Ask
Complaints against free ranging of chickens within the city limits have moved Cisco police to urge owners of such fowls to confine them to their own property. Poultry, the police pointed out, are domestic fowls, and are required to be kept within bounds. The approach of gardening time makes the offense of allowing chickens to run loose more aggravating, it was explained, and the officers urged that owners of fowls take steps to control them.

Niece of Cisco Couple Injured In Collision
Mr. and Mrs. Corbin Davis received word Wednesday that their niece, Mrs. J. A. Fassel, and two sons, Aubrey and John, of Cisco, were injured in an automobile accident which occurred about 10 miles Sunday, 15 miles out of Cisco. They were taken immediately to Shannon Memorial hospital in San Angelo, where they are reported resting well.

The accident occurred when the automobile in which they were riding collided with a car carrying several negroes. Details of the accident were not available.

Mrs. Fassel received a fractured rib and severe lacerated head bruises. Aubrey sustained a broken jawbone, and John a broken arm.

Dr. and Mrs. Fassel are former Ciscoans and are well-known to many here.

More Equipment Will Be Secured By Defense Shop

Approval has recently been secured from the state office in Austin for the purchase of enough automobile mechanic tools to perform all major overhaul jobs to be

taught in an advanced course of automobile, tractor and truck mechanics at the National Defense Auto Mechanics school here, it has been announced by T. G. Caudle, director.

Elementary courses will be completed Tuesday, qualifying students to enroll for the advance courses. Most of the pupils now enrolled have indicated that they will sign up for the higher courses.

The second elementary class will begin on Wednesday, April 1. Only those between the ages of 17 and 24 inclusive may apply. Fifteen hours of training weekly, for a period of eight weeks, or a total of 120 hours, is required to complete a course. Classes are open for students three periods during the day: morning, afternoon and night. The night class opens at 8 o'clock.

A course will also be offered in wood work, or carpentry, and, if there is sufficient demand, electrical and metal work will be offered.

Those wishing to enroll should see L. N. Miller, instructor, at the Muirhead Motor company building, on south ninth, today or Tuesday.

Crash Victims Are Released From Hospital

Six of the seven persons injured in an automobile crash three miles east of Cisco early Tuesday morning, which resulted in the death of an eighth person, were released Wednesday from Graham sanitarium where they were taken immediately after the accident by Green and Lane Funeral home ambulances.

Mrs. Hollie Mae Mason, most critically injured of the seven, was reported still in a serious condition at the sanitarium. She is the wife of a soldier at Camp Berkeley, Abilene, and was en route to Atoka, Oklahoma, to join her husband, who had left earlier on a furlough. Attendants said that her condition was favorable.

Driver of one of the two cars, L. L. Morrison of Lynwood, California, died Tuesday morning of injuries sustained in the wreck.

Sergeant Willard Wise of Company I, 179th Infantry, Camp Berkeley, Mr. and Mrs. Boyd Cooper of Rabin, Private James Shores of the 179th Infantry, Camp Berkeley, and Mrs. Mason were riding in the car with Mr. Morrison.

In the other car were Privates Lonnie Franklin and J. O. Parrish, en route from their homes in Ranger to Camp Bowie, Brownwood, where they are of Company I, 142nd Infantry. Neither was seriously injured.

Cause of the accident was not determined.

Moran School Wins Shackelford Volley Ball and Basketball Championships

Moran high school's Bulldogs swept the girls' volleyball and junior boys' basketball championships of Shackelford county on all but one of the tennis titles.

The girls' volleyball championship was not decided until the final series in Albany Monday night, when the Moran girls rallied from a slow start to win 5-5 and 15-9. They had won previous Thursday night also, 5-5 and 15-7, after having lost an opening series, three games to 0.

Moran's junior boys, sparked by Jimmy Morris, led the scoring in the games, won their title in 0-0 straight contests, scoring in 0-0 straight contests, 21-12 and 19-9. Other members of the Moran juniors were James Cottle, Ron Grisham, Bert Booth, John Adams Chambers and Donald Edman.

Otha Grisham, 1940 graduate of Moran high school and a student at Southwest Texas college in San Marcos, is featured in the cast of Thornton Wilder's "Happy Journey," a one-act play to be presented in the college's new auditorium soon. Otha is the son of Mrs. Velma Grisham of Moran.

Laury Stephen Taylor, son of Mr. and Mrs. A. J. Taylor of Moran, is a nominee for a position on the staff of the "Grassbur," annual of John Tarleton college, where Taylor is a student. A 1940 graduate of Moran high school, Taylor is a member of the school's art club and of the school's Commons, men's sports organization.

Eastland in Two Districts Under New Bill

Eastland county would lose its status as a self-contained legislative district, but it would still share in two representatives in the Texas legislature under the provisions of the redistricting bill in the house.

The grouping with Callahan would continue under the district number of 75 instead of the present 107. Number 107 would be assigned a district created of Swisher, Briscoe, Hale and Floyd. The present county district number, 106, would be assigned the Potter county district, and Eastland would be grouped with Brown, Comanche and Mills in district 77.

The redistricting measure, first in 18 years, follows a constitutional requirement that the state be redistricted after each federal census.

Foes of the measure offered a long string of amendments but all were voted down by comfortable majorities.

Rep. Dewitt Kinard of Port Arthur, floor leader for the measure, said that if members desiring changes would come to him before it is brought up for final reading he would try to agree with them on reasonable amendments.

Kinard in talks to his colleagues, contended that the new districts would be much more in line with existing population than the present districts.

"At present," he said, "we have districts with as few as 19,000 people and as many as 150,000. That spread would be considerably narrowed by this bill."

Increase City Salons

The proposal generally would give additional representation to the big city counties and parts of west and south Texas and a decrease representation of sections of north and east Texas.

Rep. Mark Halsey of Lubbock, co-sponsor of the bill, said it would give west Texas eight more representatives.

Several representatives protested against what they called "the abolition of my district." The bill's supporters replied that because of population changes, some districts had to be eliminated.

"The constitution," argued Kinard, "says that the legislature shall redistrict the state after each federal census. That constitutional mandate has been ignored long enough."

Rep. Taylor White of Odessa asked the measure's critics if they

Eastland in Two Districts Under New Bill

didn't agree the more populous districts were entitled to additional representation.

"I represent 13 counties with a population of about 80,000," he said, "which is about twice the average population. We in that district are heavy taxpayers."

Lonnie Alsop, veteran blind representative from Carthage, and Rep. Jasper N. Reed of Texarkana led the attack on the bill.

"This bill would enlarge the representation of the big cities," said Reed. "The big cities already are being well taken care of in the legislature."

New Districting

Under the engrossed bill, legislative districts would be set up as follows:

Districts:

Humble Hikes Local Crude 5 Cents Bbl.

A five-cent per barrel increase in the price of west central Texas crude was posted by the Humble Oil and Refining company Saturday in a general schedule of increases ranging from 5 to 11 cents. The advance, effective at 7 a. m. Saturday, apply to all fields in which the Humble is a purchaser with the exception of two.

The new price for west central Texas crude, purchased in Eastland, Brown, Callahan, Comanche, Fisher, Haskell, Jones, Shackelford, Stephens and Tarrant counties, is 73 cents per barrel, differential to a top price of 71.00.

West Texas and New Mexico crude was increased 7 cents a barrel and all purchased crude will be purchased on this schedule, which has the effect of increasing crude purchased in Gray and Wheeler counties 8 cents, and in Carson and Hutchinson counties 11 cents a barrel. This group includes purchases in Carson, Gray, Hutchinson and Wheeler counties; Andrews, Crane, Cottle, Ector, Gaines, Glasscock, Howard, Reagan, Upton, Winkler and Yoakum counties, Texas, and Lea county, New Mexico. The new pricing for these areas is 30 cents a barrel for below 20 gravity with a 2-cent a barrel differential upward to a top price of 32.00 per barrel for 40 and above gravity.

Hawkins crude, Wood county, heretofore on a flat price basis, was placed on a gravity schedule. The new price is 73 cents a barrel for below 20 gravity with a 2-cent a barrel differential upward to a top price of 85 cents a barrel for 25 and above gravity oil.

Wonder if those darn-fool women suffragets are going to keep on until they get the vote? Ruin the country, that's what!

Wonder if there's really any chance of that income tax thing being adopted? Plain socialism, that's what! Think of the government taking 1 per cent of all a fellow makes, just like that!

Wonder if that horseless carriage thing is really here to stay?

Dad, or granddad, worked up a really first rate worry about things like those, incredible as it seems to us today.

First point is, they DID worry. Second point is they needn't have. Think of that the next time you get all bowed down with your own worries. Most of the generalities we worry about don't happen, and if they do, they turn out better than the crepe-hangers expected.

Time to Register Commercial Motors Extended

AUSTIN, April 3 (Special)—State highway department yesterday advised all tax assessor-collectors, that the legislature passed house concurrent resolution 83, which extends the time registering of commercial motor vehicles without penalty until April 15, 1941.

This action by the legislature was taken because the law has been raised to 36,000 and the legislature was unable to revise the schedule of registration fees for commercial motor vehicles in time to register midnight April 1, which was the deadline under which commercial motor vehicle registration is required.

The effect of the passage of resolution 83 is that commercial motor vehicles will be permitted to operate using 1940 plates through April 15. The state highway engineer stated that the schedule of license fees for registration of commercial motor vehicles would be furnished to tax assessor-collectors as soon as such information is available pending passage by the legislature.

Advertising is not an expense; it's the life blood of any business.

BRUCE CATTON'S AMERICAN ROUNDUP

PAY YOUR SAWBUCK AND WATCH CAPITAL SOCIETY SPLURGE FOR RED CROSS AND PAN AMERICAN

BY PETER EDSON

WASHINGTONE—It was hot news in Rio de Janeiro throughout Brazil, up and down Latin America from Agua Caliente to Tierra del Fuego, and the cables were glowing with glowing descriptions of the affair at high rates per word.

It was big society news in Washington, for the 400 of the capital's women of the upper diplomatic and official social strata were there.

It was pleasing news to the United States Office for Co-ordination of Commercial Relations Between the American Republics, though Nelson Rockefeller had nothing to do with it.

It was good news to the American Red Cross, for the 400 paid \$10 a head to see the show, thus netting \$4000 for sweet charity.

To the world at large, however, it was just another benefit, so the news may have escaped you that Her Excellency Senhora Carlos Martins and His Excellency Ambassador Extraordinary and Plenipotentiary Martins opened up the big three-story limestone palace which is the Brazilian embassy in Washington the other afternoon. Anyone who had a sawbuck and knew about the affair could buy a ticket and be admitted.

You were bowed out of your cab by a colored footman in high hat and long blue coat. The door

was opened by a young man in afternoon clothes who gave you a fishy eye until you showed your ticket, then smiled you in. Seats were taken by a lady secretary who tore off and returned the coupon for the hat and raffle, later.

You checked your hat with gray-haired matrons at the entrance, then up a few steps to a big reception hall. Butlers in tails and white ties directed you to a banquet room in the big ballroom, where the room on the left, filled with Brazilian and Oriental statuary and paintings and hundreds of other d'art in glass cases.

Then up a big wide semi-circular staircase, and at the head of the stairs a butler asked your name, pronounced it (I heard Hubson) and presented you to Senhora herself—"cheia," small and brunt in a flowered dress.

The hostess, with her big gray ambassador husband be her, who furnished the house with the cocktails and the little sandwiches and little cakes and champagne and music, and let the Red Cross have all the gross. It is so on the tickets.

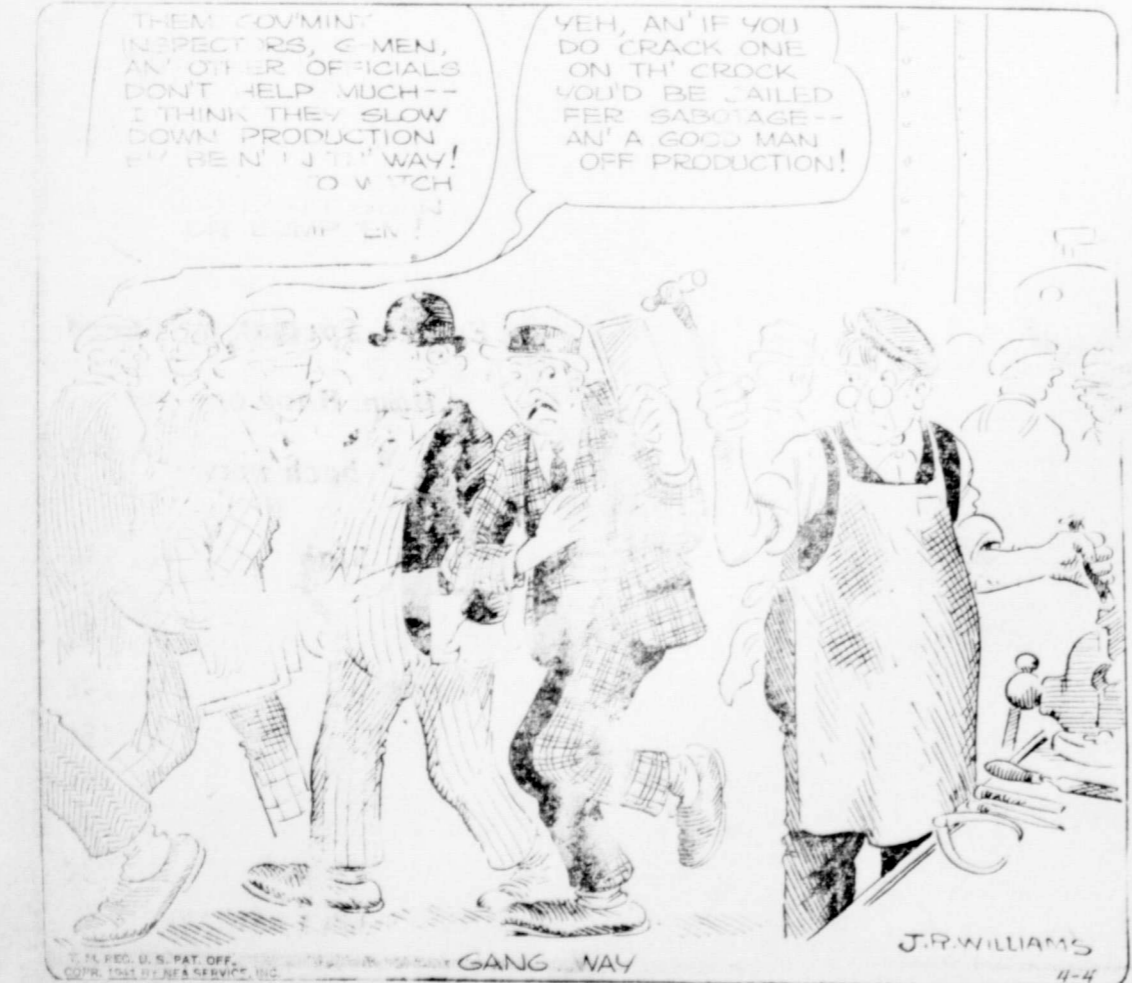

Through this gathering passed a score of Powers lovelies—wied they find them?—wearing one would wear if one were dressed one's best in 47 of the smartest resorts in Pan America for tennis in Petropolis, Brazil. Navy suit with pen and white stripes for the Hippodrome in Palermo, Buenos Aires. No it's wonderful—a new color afternoon in Guatemala City. Everyone osted and shed, and the 300 men looked at the Powers models and got a light their eyes.

And who says that isn't doing something to further cultural relations with Pan America?

Students on Honor Roll
 STEPHENVILLE, April 3 (Special)—The students making the honor roll at John Tarleton Agricultural college for the first preliminary were Betty Lou Miller, Jane Moore, Mary Louise Poe, Jewel Heizer and Barbara Jeanne Jamison, all of Cisco.

To be eligible for this honor, a student must make at least 80 in every subject for that preliminary. Of the 1,498 students enrolled at Tarleton, 136 were on the honor roll, according to Gabe Lewis, registrar.

J. Thomas Davis, dean of the Stephenville institution complimented these students highly for their outstanding achievement.

TAX MEASURE PUTS 81 PER CENT ON OIL

AUSTIN, April 3.—Who pays Texas' taxes and why is being brought out with emphasis in the senate state affairs committee's series of hearings on the house omnibus tax bill.

One of the most interesting discussions of where the money comes from was presented Thursday night by representatives of the Texas petroleum industry. An illuminating analysis of where any additional money is expected to come from under the omnibus bill also was given by witnesses for the industry.

Of the approximately \$31,207,961 which it is estimated this bill would raise in its present form, a total of \$12,000,000 (the analysis shows) would be in the form of sales taxes. These, of course, would be paid by consumers, as are the current cigarette, liquor, motor fuel and other sales levies. Included in the new sales levies would be additional liquor tax, liquor prescription, additional motor fuel, auto and stock sales taxes.

The remaining \$19,207,961 would be levied, supposedly, upon all Texas industry. But of this sum, the Texas petroleum industry alone would be required to pay \$15,508,961 — or nearly 81 per cent. Witnesses protested at being asked to shoulder such a percentage of the tax load which would be laid upon Texas industry.

Trustee Election Be Held Saturday

Next Saturday, April 5, there will be a county-wide school election in the common and independent districts for school trustees. Also three members of the county school board. The terms of Mrs. J. R. Burnett, precinct 4, Tobe Morton, precinct 1, and Dr. P. M. Kuykendall, member at large, expire. All three are again offering their names for re-election.

The county superintendent's office was sending out election supplies early this week for the common school districts, where most of the incumbents are offering for re-election. Supt. T. C. Williams said. Very few of the present trustees have opponents.

On the same date the independent districts will elect to fill vacancies that are expiring.

Price Increase in Crude Oil Is Spreading

TULSA, Okla., April 3 (AP)—Spreading price increases for approximately two-thirds of the nation's crude oil output poured upwards of an additional \$150,000 daily into the pockets of producers in seven states.

While some major companies had not met the increases, at least one went above the new, higher prices. The Texas company, big buyer in Illinois, met a five-cent increase there and raised it two more, for a total of seven cents a barrel.

Some oil executives here predicted the upward price surge would spread to other states and one crude buyer for major concern expressed surprise the increase had not been greater.

Generally 5 Cents
 The increase generally was five cents a barrel in Oklahoma, Kansas, Illinois, Indiana and Kentucky; an average of about seven cents in Texas, and seven cents in New Mexico.

Oil executives said a firmer demand for crude, great sales of refined products and a desire to encourage exploration all were factors in bringing about the raise.

Opinion was divided on whether higher crude prices would mean higher gasoline prices to motorists. Some marketmen pointed out that during the past week refinery quotations for motor fuel already had advanced a quarter cent.

The swing toward higher prices began Saturday when Humble Oil and Refining company, biggest producer and purchaser in Texas, upped its postings from two to 11 cents, an average of about seven cents, for Texas and New Mexico.

Smaller Companies Follow
 Some of the smaller companies met the raise over the week-end.

Oil Reserves in the Nation
 produced only 36 per cent of the nation's oil. This is the smallest percentage, it was shown, since 1931. Regardless of its commanding position in the matter of petroleum reserves, Texas evidently has no such monopoly as to protect it from losing a sizeable part of the national market to other states.

That the present oil taxes may have something to do with this loss was indicated in the presentation of figures showing that Texas oil producers pay more total taxes on their production than the oil producers of all seven of the next largest oil states combined.

Texas producers now pay around \$44,000,000 a year in this one branch of the industry, while the seven other states combined collect \$40,000,000 in production taxes. Texas oil taxes now average 9.23 cents per barrel, it was brought out, while those of the seven other leading oil states are 5.78 cents a barrel. This shows, witnesses said, that Texas petroleum is already paying a far higher average tax than competitive oil. Some Texas oil producers testified they were paying 12 cents, 15 cents and even 20 cents a barrel in counties where multiple local taxes added to their state levies make the totals mount alarmingly. It used to be said that "Them that has, gets." Oil men are saying: "Now it looks as if them that has, pays."

Then majors joined the parade. Sohio Corp. meanwhile, hiked Illinois, Indiana and Kentucky prices five cents.

Oklahoma and Kansas prices moved up today as Standard Oil Co. (Ind.), biggest buyer in the two-state area, posted a five-cent advance. Its action soon was followed by Skelly Oil Co., Gulf Oil Corp., Pure Oil Co., Carter Oil Co., Boreas Oil Co., Sunray Oil Co., and other smaller concerns. Pure, however, did not post the advance for the Cumberland field, which is operated in southern Oklahoma.

Phillips Petroleum company and Barnsdall Oil company already had met Humble's increases in Texas. Gulf also met the New Mexico price and raised Illinois five cents.

The seven affected states produce more than 2,500,000 barrels of crude oil daily.

The new schedules give Oklahoma and Kansas a top of \$1.15 a barrel for 40 gravity and above, ranging down on a two-cent differential to 75 cents for below 21 gravity. The five-cent increase in Illinois gave that state a flat price of \$1.20, with Texas' seven-cent raise putting its Illinois crude at \$1.22.

Think Load too Heavy

Particularly did the petroleum industry representatives feel that this was unfair in the light of their present proportion of state taxes. Witnesses testified that their industry is now paying 4 1/2 per cent of all state taxes, exclusive of poll and sales taxes such as the gasoline tax, paid by the motorist. If the gasoline tax is included, petroleum and its products are bearing around 54 per cent of the state's tax load, they asserted.

The Texas petroleum industry is now paying \$95,000,000 in state, local and federal taxes, which the proposed \$15,500,000 additional would bring to \$110,500,000. That's approximately 40 per cent as much as all the workers in this Texas industry earn in a year in wages as salaries. It's almost as much as all Texas farmers and ranchers are paid in lease and royalty payments by the industry.

Incidentally, the importance of this industry to all Texas was brought home in the testimony. Today Texas petroleum furnishes the living of around 225,000 Texans, who with their families make up nearly one million persons, or one-sixth of the entire population of Texas. Payments to Texas workers and Texas farmers and ranchers total \$400,000,000 a year. That's a lot of money and when it changes hands a few times, it reaches almost everyone in the state.

Diminishing Returns
 The loading of additional levies upon the Texas industry which is paying such a considerable portion of state taxes already, the oil men declare, shows little recognition was given, in framing the proposed measure, to the law of diminishing returns. Last year Texas, which has 56 per cent of all the

Captured with Cisco

capture of an 80-barrel distillery and arrest of one man four and a half miles south of Cisco today was announced by Sheriff Loss Woods. The sheriff has confiscated 300 gallons of whisky and five or six gallons of whiskey.

Arrest was made, and the person is being held for federal authorities, the sheriff's office announced.

Opinions Are Aired Before Hearing Here

Members of the Texas legislative agricultural committee met with over 100 agricultural leaders of this area here Friday night at the Laguna hotel in one of a series of hearings to be held throughout the state to obtain a cross-section of farmer-stockman opinions upon which to base a broad Texas agricultural program.

Rep. Ben Sharpe of Paris and Lamar county, chairman of the committee holding these hearings, and author of the resolution for the hearings in the house, presided over the meeting, which was held forum-style, with agricultural leaders from a radius of several hundred miles delivering short addresses.

Emphasis was placed on the desire of legislators to hear from the farmers and stockmen. Sen. Marshall Formby of Lubbock, Rep. Bill Rumpy of Winters, and Rep. Sharpe of Paris, who, with Sen. L. J. Sulak of LaGrange and Rep. R. Q. Evans of Denison make up the committee, all emphasized strongly that these hearings were being held to determine opinions of agricultural leaders, and legislators confined most of their remarks to questioning the speakers.

Two Absent

The entire committee, with the exception of Sen. Sulak and Rep. Evans were present at the hearing. Also attending was Rep. W. R. Chambers of Brown county, chairman of the agricultural committee of the Texas house of representatives. Rep. Omar Berkelt of Cisco and Eastland county, at whose request Cisco was included in the committee's itinerary, was unable to remain because of illness.

Legislators, endorsing the stand taken by Rep. Chambers of Brownwood, promised that opinions recorded from agricultural leaders over the state in these hearings would be taken into complete consideration in the formulating of a bill to be put to the legislative body at an early date.

H. G. Miller, Young county farmer and stockman, opened the discussion, citing the fact that most of the farmers in his area were older men and that the poor opportunities offered in farming today were driving rural youth to the cities. He proposed fairer prices be paid for farm commodities, stating that farm income in comparison with industry and labor was below adequate. He expressed opposition to the two-price system whereby American farmers would be forced to compete with cheaply produced foreign farm markets, and stated the need for farm organization.

Swiss Novelist Enters Stamps' Hall of Fame

PRETTY girls and famous men have illustrated Switzerland's annual "For Youth" semi-postals since 1933. The 1940 series adds three more beauties, including the one shown above. The girls are dressed in traditional costumes of the districts of Thurgau, Solothurn and Zug.

Gottfried Keller, a landscape painter's apprentice who became a famous novelist, is the famous Swiss honored in the set. Keller, pictured on the stamp below, was born in Zurich in 1819. Abandoning his art studies in Munich, he returned to Switzerland, obtained a pension which permitted him to enroll in Heidelberg.

His novels were written in German, gained him a high place among German writers. Keller's poetry ranks with that of the greatest German poets of the 19th century.

How Mad Should a Guy Get?

Am I burned up! I come home after a hard day, and when I sit down with the paper what do I find? Some bull-snatcher's gone and swiped the lamp bulb!

Why Fight?

Isn't it foolish to fight over such a silly thing as bulb-snatching when lamp bulbs cost so little. Avoid eye-strain and arguments by getting some spare bulbs today.

Mitcham, Lane, Boyd Elected Here Tuesday

G. P. Mitcham was elected mayor of Cisco and Neil Lane and George Boyd were elected commissioners in a city election Tuesday which resulted in one of the lightest votes in recent municipal history. The election ended a campaign that was unusually quiet.

There were 696 votes cast of which Mr. Mitcham received 541 for mayor. Mayor J. T. Berry, who was not a candidate, received 139 write-in votes, a tribute to his popularity after a long period of service at the city government helm.

The vote for commissioners was: W. R. Winston, 250; B. N. Lane, 497; George Boyd, 446 and H. C. Henderson, 194.

Mr. Lane was re-elected to a second term. Mr. Boyd will serve his first term. W. J. Leach, retiring commissioner, was not a candidate for re-election.

New Commission

The new mayor and commissioners will take office on April 22, as is customary. The commission will then be composed of G. P. Mitcham, mayor; George Boyd, A. V. Clark, Charles J. Kleiner, Neil Lane and Edward Lee.

Mr. Mitcham today issued a statement expressing his thanks for the support given him in the election and the confidence expressed in him. He again declared that he will give his best to the job, and bespoke the cooperation and unity of the community in making Cisco a bigger and better place. "The time is here," he said, "when it is vital to the future of Cisco that we submerge all personal interests in the community interest, forget differences and work together earnestly and in harmony. Cisco confronts a critical period. We can meet this challenge and take full advantage of the opportunities that we have if we join hands and become workers together. That is the true spirit of Americanism and it is the only way to build our town. I will give my best, and I am sure the commissioners
