Funerals for Flood Victims Tuesday

CROSS PLAINS, April 24 (Sp)—As neighbors and friends continued search for the body of their daughter, Kayola, in the waters of Lake Brownwood and Pecan layon, funeral services for Mr. and Mrs. J. L. Cavanaugh, drowned with her in a week-end tragedy were held Tuesday afternoon.

Services for Uncle Jack Cavanaugh, 70, and his wife, 65, were held at the Church of Christ at 2 o'clock.

The three members of the family, parents and daughter, were drowned when their car was driven into the flash flood waters of the bayou, as they took a short cut in returning from a trip to Coleman.

Residents near the crossing heard screams Friday afternoon. First arrivals found the top of the car just showing above the falling flood waters.

FUNERAL FOR M. W. OLDHAM SATURDAY

Funeral services for Moses William Oldham, 82, father of Mrs. Joe Clements, who died Friday at 1:30 p. m. of a heart attack at his home, 1308 Bullard, were held at 3 o'clock Saturday afternoon from the Neil Lane Funeral home. D. Lee Hukel, minister of the Church of Christ, officiated. Burial was in Oakwood cemetery.

Mr. Oldham suffered the fatal attack a week ago. He and Mrs. Oldham only a short while before had moved their home from Abilene to Cisco. They formerly lived in this city.

Survivors include his wife, 11 children, 28 grandchildren and one brother. The children are Mrs. D. M. Cogdell of Snyder; Mrs. Joe Clements of Cisco; D. G. Oldham of Sterling, Mich.; Mrs. J. W. Events of Leander; Mrs. C. E. Terrell of Artesia, N. M.; Clyde Oldham of Abilene; Mrs. F. W. Gilliland of Ramona, Calif.; Mrs. D. P. Walker of Stamford; Mrs. Alex Moore of Dallas; Billy Oldham of Abilene, and Charles Oldham of Houston. The son in Michigan and the daughter in California were unable to attend the services. Lee Oldham of Abilene is the brother.

Mr. Oldham was a native Texan, born in Hill county on October 2, 1858. He was 82 years, six months and 16 days old at the time of his death.

He was married to Miss Martha Ledbetter at Aquila, Texas, on December 18, 1890.

Slain Father and Daughter Buried

EASTLAND, April 24.—Funeral services were conducted from the local Church of Christ at 3:30 Friday afternoon for Stephen S. Brawner and his daughter, Mrs. Jewell Davis, who were shot to death in their home in Wichita Falls Wednesday. The rites were conducted by Paul C. Witt of Abilene, assisted by A. F. Thurman, minister of the Eastland Church of Christ.

Burial is charge of the Eastland Pythian Sister for Mrs. Davis, and veterans of the Spanish-American war for Brawner, was in Flatwoods cemetery, four miles south of Eastland. Pallbearers were members of the Eastland Knights of Pythian lodge.

Defense Saving Bonds Will Be On Sale May 1

Frank Scofield, state administrator for the national defense savings staff, has announced the appointment of his executive assistant, John M. Griffith, president of the City National bank of Taylor, Texas, in the capacity of deputy administrator. Headquarters for the staff have been set up in room 215 of the new federal court house in Austin.

The defense savings bond will be offered for 75 per cent of its maturity value, with maturity of 10 years. Thus, a defense savings bond bought in May, 1941, for \$18.75, will be redeemable in May, 1951, for \$25. This is an increase of 33 1/3 per cent, equal to an interest return of 2 1/2 per cent, compounded semi-annually. The bond is not transferable and will not fluctuate in value and may be redeemed at any time before maturity at values printed on its face. Intended chiefly for people of small income, ownership is restricted to individuals in their own right, with a limit upon holdings of \$5,000 maturity value of bonds issued in any one calendar year. Denominations are \$25, \$50, \$100, \$500 and \$1,000.

The defense savings bond will replace the present "baby bond" series and will be available to all subscribers under the regular purchase plan familiar to many thousands of small investors.

For Larger Investors

The New Series F savings bond, intended for larger investors, for trustees and for reserve funds, is offered for 74 per cent of its maturity value, with maturity of 12 years. It can be held not only by individuals, but by trustees, associations, pension funds, and corporations, with a limit of \$50,000 cost price issued in any one calendar year, alone or in combination with Series G. If held to maturity, the yield approximates 2.53 per cent a year. The series F bond is not transferable, and may be redeemed on 30 days' notice after six months from date of issue, in accordance with a table of redemption values printed on its face. Denominations

are \$100, \$500, \$1,000, \$5,000 and \$10,000.

Great emphasis is laid by Secretary Morgenthau upon the importance of postal savings stamps as a means of encouraging steady savings among the youth of America and all others to whom payment of \$18.75 at one time for the smallest defense savings bond is not convenient.

12th Producer in South Carbon Pool

EASTLAND, April 24 (Sp)—The twelfth producer in the South Carbon oil field was brought in last week when the Gallagher and Lawson No. 1-B Morris, 660 feet east of Gallagher and Lawson No. 1 Morris on the P. S. Hardy survey, began flowing into tankage. Cleaning out activities have consumed most of the week, and no test has been run as yet. However, it was stated that a good producer was expected.

Kent and Preston, drilling contractors of Fort Worth, moved a spudder in on the A. S. Jackson property this week for C. L. Mahaney, 660 feet north of the Imperial Petroleum (Harry Moss) No. 1 Jackson, et al, on the I&GN survey. It will be known as the Mahaney No. 3 Jackson. Drilling is being continued past 450 feet.

Dobbs No. 3 Thomason, on the southeast corner of the east half of the S. H. Key survey, is said to be making about 10 barrels per hour. Some water had developed in this hole, but that was said to be exhausting itself.

Mauer-Krebs Oil company No. 1 Jackson, being drilled by Ledford and Barr, is now on the pay and ready to set casing, it was reported. The hole should be bottomed by Monday of next week.

Holt and Logan No. 1 Greer, 330 feet south and east of the northwest corner of the south 40 acres of the J. L. McKay survey, is drilling past 1,900 feet. It was stated.

The postmaster general has approved a new series of stamps, of special design, priced at 10c, 25c, 50c, \$1 and \$5. Purchasers will be given attractive pocket albums in which to mount them. An album containing 75 of the 25c stamps has a cash value of \$19.75 and can be exchanged for a defense savings bond which in 10 years will be worth \$25. There are similar albums for mounting the 50c, \$1 and \$5 stamps, exchangeable for \$50 and \$100 bonds.

See Stronger Hint of O'Daniel Bid

AUSTIN, April 24 (Sp)—In the appointment of Andrew Jackson Houston as United States senator, political observers and members of the legislature saw stronger indication that Gov. W. Lee O'Daniel would be a candidate in the special election June 28 to choose a successor to the late Morris Sheppard.

In New York city in the course of a year some 8,000 marriage licenses taken out are never used.

Aliens, Too, Must Choose

These are days when men must choose.

Days of drift and dream are over. Now,
 under a proposal by Secretary Hull to con-
 gress, aliens too must choose.

Some have been drafted into the armed
 forces, probably without anybody's giving
 the matter much thought. Several foreign
 countries have objected, and properly so. We
 would certainly object if American citizens
 in Germany or Britain were drafted into
 those armies. It works both ways. So Sec-
 retary Hull is quite right in suggesting that
 congress pass an amendment to the Selective
 Service act which would permit aliens thus
 called up after registration to be exempted
 at their request. It should be done, for it is
 no more than we would demand for our own
 nationals in other countries.

But the secretary suggests this addition-
 al proviso: that such an alien, having asked
 and received exemption, should never there-

after be allowed to become a citizen of the
 United States.

SO aliens, too, must choose, if they are called
 up in the draft. If they are merely tem-
 porary residents in the country on business,
 they will, of course, ask and receive exemp-
 tion. Such people do not ordinarily expect
 to become citizens anyway, so no hardship
 will be worked.

But thousands of aliens are in a different
 case. They have come to the United
 States vaguely expecting at some time to
 become citizens and fully identify them-
 selves with the national life. Such a man
 should no more be exempted than a citizen.
 He benefits daily from the security and con-
 ditions of the national life. He expects to
 benefit from them for an indefinite time in
 the future. He should bear his share in pre-
 serving them.

It would be unfair indeed for such a one to
 refuse armed service, to watch American
 citizens serve and perhaps die to pre-
 serve free conditions, and then, the emer-
 gency over, apply for and receive the bene-
 fits of citizenship.

To bar forever from citizenship a man
 who was unwilling at time of crisis to bear
 the burden that citizens bear is no injustice.
 It is elementary fairness that at times like
 this aliens, too, should be required to choose.

Few Appeals From Selectee Classification

With 372,005 selective service registrants classified by Texas' 351 local boards as of April 1, on the basis of their availability for military service, only 327 appeals had been made to selective service boards of appeal, and only one request for adjudication of decision had been submitted to the president. It was announced today by General J. Watt Page, state director of selective service.

"This is a splendid record for our state," General Page declared when making the announcement. He said: "It is a record that speaks highly for the work of the patriotic citizens who are serving without pay as members of selective service boards and as examiners and advisors, and also the credit of our state as a whole. It is more heartening to all America to know that this spirit of cooperation for national defense prevails throughout the country, for according to information from national headquarters, more than 4,000,000 registrants now have been classified.

BRUCE CATTON'S AMERICAN ROUNDUP

THAT 50,000-PLANE AIR FORCE NO PIPE DREAM AS BOMBERS ROLL AND MEN TRAIN BY THOUSANDS

BY PETER EDSON
 NEA Service Staff Correspondent

WASHINGTON.—Figures on U. S. production of military airplanes—now 1200 a month—may become restricted information some time soon, and so, before the ban goes on, you may be interested in knowing that the aviation program is coming along, and the dizzy figure of 50,000 planes isn't as impossible to conceive as ever you thought it was when first catalogued into the blue a year or so ago.

Starting off with 2000 planes and about that many pilots, the army has expanded its program steadily, setting new objectives before the old ones could be reached. First it was to get 3500 planes and 7000 pilots by June, 1941. That goal was just set when demands were made for 25,000 new planes with 12,000 new pilots. That is the current objective, but even before it can be achieved, the program has been stepped up again.

The fifth supplemental defense bill, just passed by Congress, carried appropriations for an additional 3000 bombers—first step towards the 50,000 plane goal—and a training program looking to the ultimate goal of 30,000 new pilots a year, which would be sufficient to handle a 50,000 plane force in combat, allowing for re-

with only a comparatively minimal number of appeals against the decisions of selective service boards.

At the same time, General Page said, the selective service is anxious to make certain all registrants, their dependents and others interested in their fare, have opportunity to review any classification, consider unjust. "There is no litigation," he said, "by members of the selective service system who come in contact with the registrant to make certain he understands, not alone that he has the privilege of appeal also when he must do it, but he must do it. We cannot permit registrants who do not appeal to lose their opportunity simply because they do not understand the what, when, how of so doing. While we want the appeal machinery worked up with claims of those merely seek to delay their classification, it is equally important no registrant be induced to exercise all his legal rights.

Any registrant, or his dependents or others interested in his welfare, General Page said, obtain full information on his right to appeal a classification by consulting his local board, or appeal agent, or directly to the independent school trustees.

To date, Eastland county board members have classified 192 questionnaires and have only three appeals to the boards.

Airport construction and improvement, for instance, a major problem. Fifty new military airports have been planned this year, bringing to 200 the number of air corps posts, bases and stations. The number, however, won't even begin to handle the 25,000 already contracted for and which has been making projects out of much of the port expansion, has had 350 additional sites certified to it by armed forces for defense development.

Even this won't be enough though the air corps planning vision can't tell where it is these additional fields, as it must be required quietly, in prices down.

School expansion must be planned for, too. On March 23 first class of 2000 cadets in 30 weeks' training under the plan aimed to turn out 1000 a month.

These men spend five weeks replacement centers, the week being for examination, evaluation and military training. Then for six weeks will receive elementary training at a civilian school, finally get 10 weeks each at basic and advanced schools, starting in October as second-tenants in the air corps and being assigned to duty.

The men who "wash out" this grade and don't make grade as pilots are assigned to mechanics, bombardiers, mechanics and armament officers, night are requirements for training only five out of students become pilots. To 20,000 pilots a year, 45,000 must be given the course-

Marine Reserve Has Vacancies

Men are now offered a chance to get training at a U. S. Marine Corps training base at San Diego, California.

If accepted, applicants are enlisted for four years in the Marine Corps reserve, and will not necessarily be required to complete the full length of service unless an emergency develops.

Also, after successfully completing a training period at San Diego, members of the reserve may transfer to the regular marine corps and may remain in the service as a regular profession. Upon completion of the training period, the reserves follow the same routine of duty as those in the regular Marine corps.

When members of the reserve complete their four-year enlistment periods or serve any fraction thereof, if longer service is not required, they will be placed on the inactive list of the Marine reserve and will not be called

back to duty except in time of emergency.

The requirement for enlistment in both the reserve and the regular corps are the same. They are: Height, 5' 4" to 6' 2"; 18 to 30 years of age; weight 119 to 200 pounds; at least a grammar school education. If you meet these requirements you will can report to your nearest Marine Recruiting station for an examination at once.

THE RECORD... Facts That Concern You

Even a great orchestra will make a musical mistake once in a while. And once in a while... out of the thousands of decent, law-abiding beer retailers in Texas... you'll come across one or two who operate disreputable establishments.

ONE SOUR NOTE... but it's a great orchestra nevertheless

These "black sheep" retailers constitute a tiny minority. Yet they tend to drag down the good name of beer. By arousing public indignation, such undesirable retailers endanger your right to enjoy good beer. They also endanger the benefits to the public that beer has made possible.

For example, in Texas beer has created 31,165 new jobs with an annual payroll of \$22,076,182 and paid \$2,273,968.64 in taxes last year.

The brewing industry wants "black sheep" retailers eliminated entirely. You can help us by patronizing only the reputable, legal places where beer is sold. And by reporting irregularities to the duly constituted law enforcement authorities.

Just write your happiest moment (in fifty words or less) to the Admiration Happiness Club. Your happiness story doesn't have to be fancy or dramatic - just a few lines in your own words will do. For example, your happiest moment may have been in your romance, your wedding, the baby's first word, an achievement... just any of a thousand happy memories. It's easy - just think of your happy moments - jot one down - attach a coupon (or facsimile) from Admiration Coffee and mail it to the Admiration Happiness Club, Box 2679, Houston, Texas, today. It may win the equivalent of \$1,100.00 for you!

HINTS THAT WILL HELP YOU WIN

Don't try to be dramatic or fancy... just write your story in your own words. In the easiest of contests - sincerity, not letter-writing ability, is the basis for prize awards. Remember, just a very commonplace incident may have been your "happiest moment" and may win as much as \$1,100.00 in trade certificates for you. Everybody has "happy memories" - you have many - so, write one down now and enter this simple easy contest.

Market Quotas on Peanuts Announced

WASHINGTON, D. C., April 24.—Marketing quotas on peanuts for the 1941 crop have been proclaimed by Secretary of Agriculture Claude R. Wickard and a referendum among peanut growers has been called for April 26.

National quota for 1941 is the amount of peanuts harvested from the national acreage allotment, set by law at 1,610,000 acres, same as that under the 1940 program.

Under a quota, a farmer who plants within his peanut acreage allotment may market all he produces without penalty. Peanuts marketed in excess of the marketing quota are subject to a penalty of 2c a pound, payment of which is not required if excess peanuts are delivered to an agency designated for handling surplus peanuts. The farmer, in this case, receives for his excess peanuts the price for oil, usually considerably higher than the market price for edible peanuts.

The quota will remain in effect only if approved by two-thirds or more of the peanut farmers in the referendum. The vote is for a three-year period, affecting the crops of 1941, 1942 and 1943.

Desdemona 4-H Club Boy Wins District Award

Bobby Revels of the Desdemona 4-H club was a district winner in the Extension 4-H poultry program, which entitles him to 25 baby beef type turkeys.

Bobby, is 17 years old, lives on a farm, and has been in 4-H club work for five years. Most of his demonstrations were poultry, and

Club Boy Gets Shorthorn Calf

Billy Johnson, Eastland county 4-H club boy, has recently acquired a prize Shorthorn calf from Mr. Doss Miller of De Leon, according to John A. Wright, assistant county agent.

Mr. Wright said the calf's sire and dam are both registered, and that many people believe the sire is a mutation because of his low set, compact, blocky type. Many people have seen his calves, and say that they have never seen Shorthorns as close to the ground as the calves from this sire, which Mr. Miller purchased from a Shorthorn breeder in Kansas, to produce the type of cattle that the judges are desiring in the show ring.

Billy plans to enter the calf in several livestock shows and is doing a very fine job of feeding the calf, as he purchased a very good nurse cow and is feeding him a balanced ration.

There were 155 legal executions in the U. S. in 1939, according to the census.

ARMED SHIP SUNK

LONDON, April 24 (AP) — The armed merchant cruiser H. M. S. Rajputana has been torpedoed and sunk, the British admiralty announced Wednesday.

Sales taxes, almost unknown 20 years ago, constituted approximately 40 per cent of all tax revenues in 1940, according to the census bureau.

There are over 4,000 department stores and mail order houses in the U. S., whose sales for the year total only slightly less than \$4,000,000,000, according to the census.

Chickens raised annually on U. S. farms, according to the census, are sufficient to provide five chickens for each person. This would be less than one chicken per family every two weeks.

Finer than skill alone can do

Telephone men and women combine training and experience to handle calls, connect wires, build or rebuild circuits.

Time and again though... whether you face an emergency or whether you just need the kind of thoughtfulness you'd expect from a neighbor... they give to their job something better and finer than skill.

Call it courage... call it devotion to your service... they give it because they understand how much you depend on them.
