Naval Shipyards Speed Construction as U.S. Fleet Steams Nearer to "Battle of the Atlantic Ocean"

About Our Friends

By STEP A. LONG

We all admire those brilliant, quick thinking people who have the proper reply or thing to say on the spur of the moment . . . but we were never in that class . . . some time later, some time hours or even days after the time has passed, we could think of the very thing to say that if said at the proper moment, would be a dead knock-out.

For instance yesterday . . . our friend Ray Judia, game warden out at Lake Cisco, came by and proudly displayed a giant catfish that must have tipped the scales at no less than 25 pound . . . we admired the fish, found out about it and asked many questions about the number of people fishing etc.

Hours later, when we had written many words about fishing until we had become actually starving for fish, the thought occurred to us that it would have been so simple to have remarked in an off-hand way, "A piece or two of fat fish would certainly make me eating." Then of course, Ray Judia has always been a good word, would have been almost dead to offer to share the fish with us . . .

But no . . . it was hours later when the idea came to our slow working brain . . . and then the opportunity had passed . . . It was too late . . .

Well, that is life . . . most of us do not realize the psychological moment of opportunity . . . Long after the time has passed, we are able to look back and see how differently things might have been with us in a business or perhaps social way. Had we only been able to catch Old Man Opportunity by the forelock . . .

We are reminded in Greek mythology that Opportunity was pictured as a baldheaded man with no hair except a long forelock . . . As he confronted one, it was easy to reach out and grasp

(Continued on Page Two)

4-H Program For Eastland Group at Church Sunday

Sunday, May 4, will be a big day in Eastland when about 200 4-H boys and girls with their parents will attend special services at the Eastland First Methodist church, where the Rev. Mr. Webb will preach the morning sermon, this to be followed by lunch served from the church kitchen. The afternoon is to be devoted to a musical program given by the Morton Valley club.

The tentative program is as follows: Message read by Pebbie Nix; Little Girl Dressed in Blue—by Ralph Wheat and Glynn Castleberry; Wild White Rose—Jenny Lind Rucker.

Caroline—Glynn Castleberry; Give Us Men—R. C. Baldersee; Group singing to follow. Announcements will be made concerning other summer activities for the club.

BAKE SALE

The high school choral club will sponsor a bake sale at Norvell-Miller grocery Saturday.

Weather

EAST TEXAS: Considerable cloudiness, scattered showers except near upper coast, cooler in north and west portions Friday. Saturday cloudy, scattered showers. Moderate to fresh southeasterly winds on the coast.

WEST TEXAS: Cloudy Friday with showers and thunderstorms. Saturday partly cloudy and warmer, with afternoon showers.

Man Overboard! Man the Boats!

Would-be fisherman Walter Clark of Ft. Worth, grimly continues his efforts to extricate himself from maze of line which fell from his pole with the reel during excitement following firing of starter's gun that officially opened fishing season at Eagle Mountain Lake, at midnight. At 5 a. m. Clark still struggles. (NEA).

Counties Lose Excess Funds To Highways

AUSTIN, May 2.—Climaxing daylong debate, the senate today completely substituted a house-approved bill and decided, 19 to 8 with two pairs, to allocate excess money in the state's county and road district indebtedness fund to the highway department.

The house, by a overwhelming vote, recently adopted a plan allotting the funds to counties which, after paying off accrued road bond expenses, might use the remainder on lateral roads.

The state County Judges' and Commissioners' association favored the house bill.

In hearings before committees, witnesses for counties pleaded that the money, given them the past two years, had been of great aid in building farm-to-market roads. Opponents asserted the

Rainfall For Year Already Above Average

With a steady rain fall beginning at an early hour this morning, the city rain gauge showed a precipitation of 1.5 inches at 2:30 today. This makes a total for the year of 14.3 giving many persons who have been crying for sunshine, more moisture than they think they have needed.

The standing at Lake Cisco could not be had at press time, but parties from the lake said it had been pouring in all day long.

Chief Purdie stated that Cisco had already received more than half of the average rainfall for the year. For the past several years the average for the year has been from 18.3 inches in 1937, 24.7 inches in 1938, 25.9 inches in '39, to 37.6 inches for 1940.

Mrs. Tom Wingo of Pyote was a guest of Mrs. Wm. Isenhower this week.

Rev. Russell Dennis, East Cisco Pastor, Begins Third Year Work

Sunday, May 4, marks the beginning of the third year for Rev. Russell Dennis as pastor of the East Cisco Baptist church, during which time the church has made many advancements in spiritual tone and administrative gains, such as additions to the church, organization and generating much interest in a brotherhood group of men, and gaining in enthusiasm for Women's Missionary Union activities.

The church building has been enlarged with about \$600 expenditures to care for this expansion; 128 additions to the church, with 49 by baptism. There are about 175 enrolled in their live Sunday school, and a drive is on to

have a record attendance for this Sunday, when the beautiful ordinance of Baptism will be administered at the close of the Sunday evening service.

An active and enthusiastic brotherhood has been organized, with a present membership of 32 men. This group will have as a special guest Judge E. S. Cummings, of the State-Brotherhood convention, for their meeting on the evening of May 9.

"The past two years have been very happy and pleasant ones," said Pastor Dennis this week. "We are looking forward with great joy and expectations for greater things this year," he continued.

F.F.A. BOYS NOW FEEDING PURE BREEDS

Will Exhibit Projects in Cisco Livestock Show Next Spring

Future Farmer boys of this section are putting into practice what they have been taught since enrolling in the course in Cisco public schools. Purebred cattle and sheep are being purchased to use in their projects, and these animals will be exhibited in the Eastland county Livestock show to be held in Cisco next spring.

Vernon Sage purchased two Ramboulet ewes Thursday from W. H. Simmons, Brownwood sheep ranch. Sage has already sheared 14 pounds of top grade wool from an animal already owned. Jerry and Jack Myrick, and Victor Childers have each purchased an Aberdeen-Angus steer this week from the Croft Bros. ranch, north of Cisco. Elmo Evans, another FFA student, has already purchased a Hereford steer.

T. G. Caudle, agricultural teacher, has emphasized the feeding of purebred calves in projects assigned students. Eastland county produces great quantities of feed, and practical farmers have found feed brings its best price when marketed through feeding purebred stock.

Jeff Davis Named as Liquor Board Head

AUSTIN, May 2.—Jeff Davis of Dallas, life-long prohibitionist and secretary of the United Texas Drys, was named by Governor W. Lee O'Daniel today as chairman of the state liquor control board.

Davis, a member of the Baptist church, was appointed for a term expiring Nov. 15, 1945.

Miss Cavanaugh's Body Undiscovered

CROSS PLAINS, May 2 (Spc).—The body of Miss Kayola Cavanaugh, 32, who is believed to have died in the swollen waters of Pecan Bayou with her parents the afternoon of April 11, was still missing Thursday after 10 days of relentless searching. Cooperating in the hunt have been several hundred friends and neighbors, near-by fire departments, peace officers, Chamber of Commerce, C.C.C. boys and state highway patrolmen.

Boat loads of searchers have probed the waters of Pecan Bayou for more than 15 miles, from the Cisco crossing where the Cavanaugh automobile was caught in a flash rise, to the shores of Lake Brownwood. The spacious lake itself, even the backwaters have been searched time and again. Pastures adjacent to the deep hole where bodies of Mr. and Mrs. Cavanaugh were found were combed Monday.

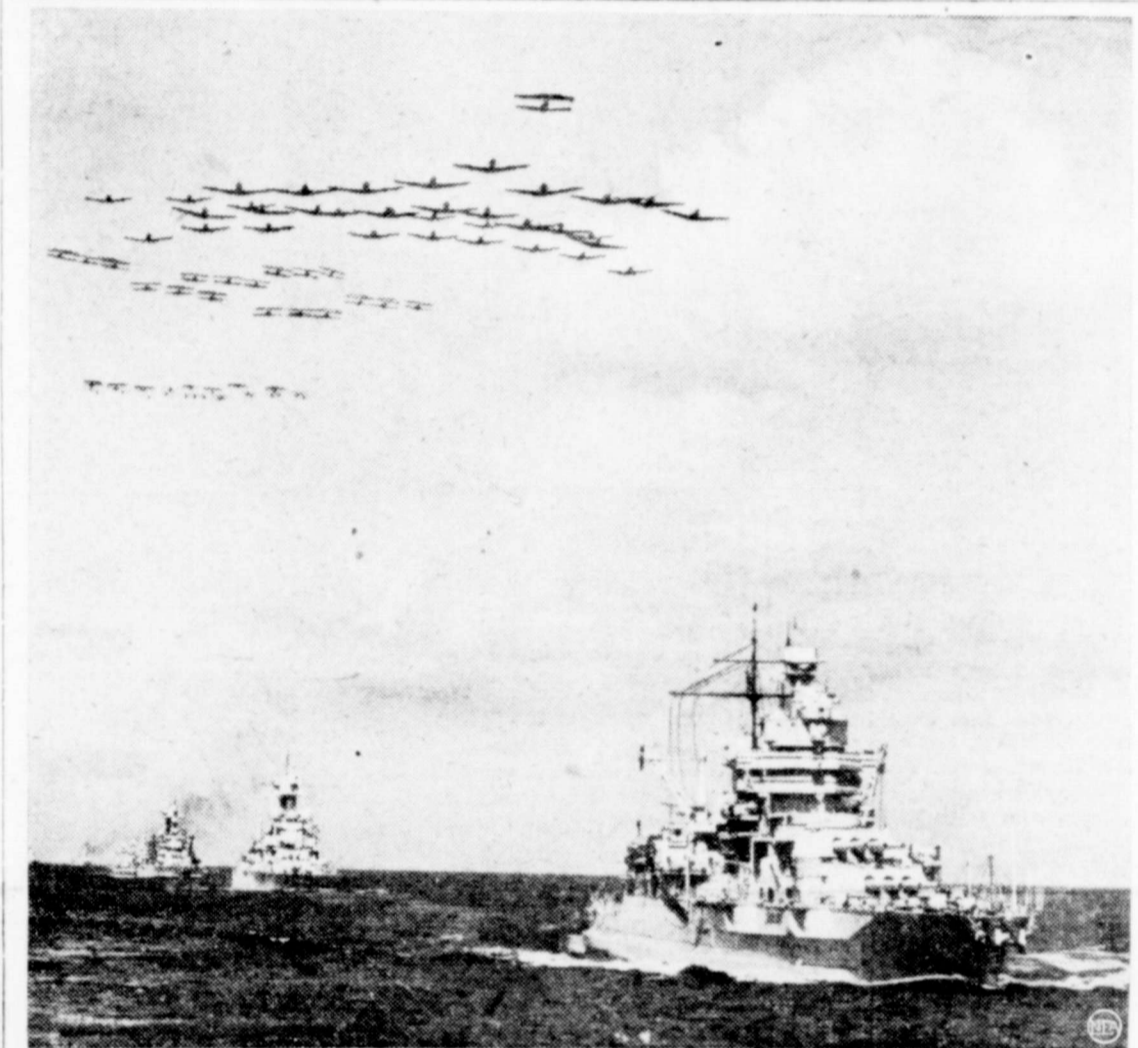

Recent rains have caused the Bayou to swell to above normal levels and it is believed possible that the body may have lodged in roots and underbrush and may

(Continued on Page Two)

Beer Election In Cross Plains Sat.

CROSS PLAINS, May 2 (Spc).—The voters of Precinct No. 6, Callahan county, will vote tomorrow in an election to determine whether beer with an alcoholic content of not more than 4 per cent may be sold. Voting boxes will be open at Cross Plains, Cressy and Caddo Peak. Beer is now sold in this precinct.

U. S. Sea Strength Steadily Grows, "Two Ocean Navy" Is 4 Years Away

The U. S. navy, now summoned to police treacherous ship lanes all the way to mid-Atlantic, is to become "front" for this nation's short-of-war aid to Britain, Milton Bronner, in the officially approved dispatch which follows, reports on the progress that is being made to build up a maritime force that in time may be "the biggest fightingest" fleet in the world.

By MILTON BRONNER
NEA Service Staff Correspondent
WASHINGTON, May 2.—American warships assume their important role of "interested bystanders" in the battle of the Atlantic, the projected two-ocean U. S. navy is estimated here to be four years away from completion.

Though, thanks to appropriation bills passed prior to the present emergency, vessels steadily are being added to the U. S. fighting forces, it will be well into 1945 before this country can boast of the huge super-navy now deemed necessary for full protection of both coasts.

Nevertheless naval authorities are pleased by the way in which the shipyards are cutting construction time. Workmen in the U. S. navy yards, as well as in yards owned by private concerns, are driving steadily ahead as fast as the material is delivered.

A good sample is the 1650-ton Edison, now in commission. This vessel was constructed in 10 months. Some years ago the regular period of construction was 21 months. This now has been slashed, until the average is 15 months.

New Battleships Are Welcome Additions
The most welcome additions to the navy of course are the battleships North Carolina and Washington, the first completed since 1921. They both are 35,000-ton vessels. Their main armament is 16-inch guns, mounted in three turrets, three per turret. They also carry a heavy battery of anti-aircraft and secondary broadside guns. They are propelled by turbines developing 115,000 horsepower from oil-fired boilers and giving a speed of 27 knots. Each is equipped to carry three planes.

A further report on the progress of the navy to date. Keels of the battleships Alabama, Iowa and New Jersey were laid last year and of the Missouri and Wisconsin early in 1941. The big aircraft carrier Hornet was launched at Newport News, Va., last December 14. In the latter part of 1940 keels were laid for the cruisers Atlanta, Juneau, San Diego, San Juan, Cleveland, Co-

(Continued on Page Two)

Former Ciscoan Stops Here For Chat With Friends

Frank A. Blankenbecker, former Cisco resident and business man, made a brief stop in Cisco today for a visit with friends. Mr. Blankenbecker, president of Com. Freight Lines and operating a fleet of trucks between Austin, San Antonio, Fort Worth and Brownwood, lives in Austin.

Mr. and Mrs. Blankenbecker have two children, Frank, Jr., and Miss Betty. The latter was born in Cisco and will be remembered as mascot for the Big Dam Lobos back in the days when that fighting aggregation of football players was "mowin' 'em down." Miss Betty, now 21, graduated from the University of Texas last year and is now a student in King-Smith school, Washington, D. C. Frank, Jr., 23, will graduate from the law department of the University of Texas in June. He will at once enter the United States army as second lieutenant, Fifth cavalry.

"Social Security Question Solved" Says J. Lee Smith

AUSTIN, May 2.—Completing enactment of the legislature's answer to Texas' social security problem, Gov. W. Lee O'Daniel at 11:50 o'clock last night signed a \$22,600,000 tax bill, biggest ever approved in this state.

"The passage of the \$22,600,000 tax bill solves the Number 1 question of Texas politics, social security," Senator John Lee Smith announced Tuesday after the house of representatives had accepted the senate substitute for house bill No. 8.

"Under the terms of this bill," Senator Smith said, "19,000,000 is allocated for old age assistance, an increase of more than \$11,000,000 over the present allocation. It provides \$3,100,000 for teacher retirement; \$400,000 for the blind, and \$1,500,000 for aid to neglected children. It should be remembered that this is a tax bill and not a cold check appropriation bill. The senate refused to pass the absurd \$23,000,000 'cold check' appropriation bill. It did pass a bill that raises the cold cash. I hope it will not be necessary to pass another tax bill."

Senator Smith was a member of the committee which reported this bill.

Pilgrimage Is Postponed By Garden Club

The annual pilgrimage, which was scheduled to be made next Monday by the Cisco Garden club has been postponed on account of weather conditions.

Members are requested to watch the paper for announcement, as it is possible that it may have to be postponed indefinitely, said Mrs. W. W. Fevell, club president.

First will come the crowning of a high school student as the king, who in turn will bestow his royal

Horizontal lines indicate the U. S. Navy's new 1000-mile neutrality patrol zone in the Atlantic—one of the seven seas which, the president disclosed, the fleet will patrol "as far . . . as may be necessary for the protection of the American hemisphere." Vertical lines show the war zone Germany proclaimed last month. Note that zones are in virtual contact at Greenland, which, the president revealed, Germany may have partially occupied.

Coronation of King Lobo Deferred Until Tuesday Night Account Rain

"The coronation of King Lobo has been put off until Tuesday night at 8 o'clock, but will be held at that time, rain or shine. If weather is unfit for outdoors, will be in auditorium."—R. N. Cluck.

"A Century of Texas in Song" is the name of the colossal pageant that is to be depicted at Chesley field Tuesday night following the crowning of King Lobo, the identity of whom has not yet been revealed to the schools. All schools, including ward schools and Cisco Junior college, are to have parts in this huge Cavalcade of Texas that in a manner will rival the famous Billy Rose show at Casa Manana in Fort Worth. Of course, the costumes will not be so gorgeous as those worn by the actors in that famous play, but the depiction of the ages through which Texas passed so romantically, will be quite realistic and the portrayal will be good, indeed.

First will come the crowning of a high school student as the king, who in turn will bestow his royal

favor upon a fair damsel of his choosing. All royalty attendants of this famous court will then enjoy the Pageant in Song, "A Century of Texas History," composed by Mamie Folsom Wynne, of Dallas, who is to be the guest of the Cisco schools that night.

Folk dances and folk songs sung by a thousand voices of Cisco school children will be features of this gigantic aggregation. The pageant in costumes will depict the period of the Indians, followed by French explorers, to be in turn followed by the Spanish settlements and teaching of the white man's religion to the simple natives. Then comes the period of the pioneers, who won their freedom from Mexico, finally joining the union to become one of the states.

Then comes the joining of the confederacy and the dejected period that followed, featuring the cowboys of the great cattle ranges, the gay nineties, the World War period and the period of patriotism, and the finale.

The entertainment for the king, (Continued on Page Four)

The Cisco Daily Press and CISCO DAILY NEWS (Consolidated with Cisco Daily News and Cisco American and Roundup, Nov. 1937.)

Published daily except Saturday and Monday at Cisco, Eastland county, Texas, by the Daily Press Publishing Corporation, incorporated under the laws of the state of Texas. LOVE POWER

BY OREN ARNOLD

YESTERDAY: Disturbed by the mystery telegram, Carolyn re-seals the envelope, leaves it on Leana's desk. Then she investigates the shipment. The X-999 is to be carried in a freight car, accompanied by guards. The freight is held up, robbed. Bob is wild. All his X-999 is gone. But Carolyn calms him. "The stuff wasn't there. I took it out, myself."

CAROLYN WORKS FAST
CHAPTER XV
BOB came to Carolyn's home because it was the quickest way for them to meet. She had snatched on the first clothes available and she literally ran into the night when his car swerved to the curb. He stepped halfway out the car door, hatless, his hair uncombed, wearing not even a coat or tie. His voice was a study in misery.
"Oh, Bob!" She tried to speak calmly. "The X-999 was not on that freight train! It is still safe here in the city!"
"I helped put it on myself, yesterday morning!"
"No! You put on dummy packages! Bob—listen, I know you don't understand, but Ken Palmer and I removed those inner leaden boxes and substituted rocks! Yes, rocks!"
"But Carolyn—" He was beginning to believe, at least to hope. He gripped her shoulders now.

"I want to stop your worrying. If you won't ask too many questions, Bob, I—oh, you must trust me! You must! I mean, about why I did it."
He was silent for a block longer. "Of course, Carolyn. I am so deeply grateful now that I would do anything you ask. Frankly, I am almost sick with the letdown. You have no idea what a strain this has been!"
"Yes, I think I have."

Headache 'Cure'
Mrs. Pearl Haines, Negro woman of Camden, N. J., bought this from peddler for \$5. He said it would cure headaches. But when contraption featuring alarm clock, thermometer and egg beater caught fire, Mrs. Haines turned headache over to cops.

would steal them, nor why. But one of the train robbers was caught. He talked freely. "I tell you, I don't know what we was after!" he kept saying. "We was hired to bring off a heavy box. It musta been a money box, but somebody beat us to it and put in rocks! Springs and cotton around 'em, yeh! Damdest thing I ever seen. But we got paid first!"
"Who paid you?"
"Didn't know him. Didn't care. Figured we'd just open the box ourselves and take what we wanted, see? The dirty double-crossing—" He was profane about the rocks, even though the robbers themselves had planned the first double-cross.
By mid-morning Leana Sorini had returned, heard of the robbery and she rushed to Bob with every possible aid and sympathy. Carolyn left them at state police headquarters. She was strangely keyed up now. She even forgot to eat.
"I have to move fast!" she told herself, shrewdly.
She inspected her purse. Then she called a taxi, went to a bank and took out all the \$340 she had saved. Next she ordered a taxi driver to take her to the municipal airport, and there she made another business deal.
By noon her taxi driver had her back at the laboratory again, and when she alighted this time she smiled her sweetest at him and said, "I need a strong man to help me carry something."
"That's me, miss!" the driver answered with alacrity. "You want a trunk moved? I'll make room on the back rack."
"Not a trunk, a box. And—I'd be ever so much happier if it went inside. On the seat itself. I—here!" She thrust a \$5 bill at him.

He grinned. "Lady, I'll carry the box in me teeth if you want!"
SHE asked two of the guards to help him. The box was small but astonishingly heavy. She explained, in partial truth, that it contained some leaden forms which Dr. Hale wanted moved, and some "other heavy junk." Her heart went bump-bump-bump double time during the whole loading procedure.
Some 40 minutes later she had transferred the box to an airplane, a powerful cabin ship now under her personal lease, with pilot awaiting orders. She told the pilot she would be back.
"We going after another box, Miss?" her taxi driver asked as they drove away from the municipal air field this second time.
"No. After a—man." "Himmmmmm!" He grinned. "Eloquient, I bet!"
She sighed at that, in a much—

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF CISCO:
SECTION ONE: It shall hereafter be unlawful for any person to maintain or operate a boat on Lake Cisco or Lake Bernie without first registering the same, and equipping said boat as hereinafter provided for.
SECTION TWO: There shall be obtained a license for each boat, and there shall be issued to the licensee by the City Secretary of the City of Cisco a metal tag which shall be permanently attached or affixed to said boat and which shall have stamped thereon the number of the permit granted to the owner or operator of said boat.
SECTION THREE: All row boats and outboard motor boats shall be equipped with air chambers sufficiently large to support and keep afloat such boat when submerged and each inboard motor boat shall be equipped with a life preserver for each occupant, sufficient to support and keep afloat an adult.
SECTION FOUR: It shall be the duty of the City Inspector of the two lakes named above to carefully check from time to time all boats maintained or operated on the two City lakes named above, and any person or persons operating a boat on either of the lakes named above shall at all times, when requested to do so by the City Inspector at the lakes, cease using or operating a boat until such license has been obtained or until such boat has been properly equipped with life preservers or air chambers.
SECTION FIVE: Any person or persons violating any provision of this ordinance shall be fined in any sum not less than \$5 and not to exceed \$50.
SECTION SIX: In view of the fact that the fishing season will open within the next few days and inasmuch as there is not in effect now an ordinance regulating the matters hereinabove mentioned, there is declared an immediate emergency and the publication of this ordinance on three separate publications is hereby dispensed with. An emergency is declared and this ordinance shall become effective from and after its passage and publication for 10 days.
Passed on this, the 22nd day of April, A. D., 1941.
Lonnie Shackley, City Secretary
Approved: G. P. Mitcham, Mayor
