NUMBER 238

LIVE STOCK BRINGS \$4,683.42

About Our Friends... By STEPHEN A. LONG... Thank you, Miss Billie Cole... Miss Kathryn Pettit... kind words... and to others... are cooperating so splendidly... in aiding us in making this... paper... Already, we... find this morning, results... request to help us make... Cisco Daily Press the kind of... you want it to be.

CISCO HOST TO NEXT YEAR CONFERENCE... The Cisco District Conference of the Methodist church held in Dublin this week voted unanimously in its closing session to accept an invitation from Cisco First Methodist church to meet in Cisco next year. The conference will bring to this city several hundred delegates from the fifty-six churches comprising the district.

Peacemaker? Albert W. Hawkes, above, Kearny, N. J., industrialist and new president of U. S. Chamber of Commerce, is reported ready to start drive to improve relations between big business and New Deal and to work for better understanding with labor.

CAN O'DANIEL ENTER LATE AND WIN? AUSTIN, May 15.—If Gov. W. Lee O'Daniel waits until the regular session of the legislature adjourns or recesses to announce whether he will be a candidate for the United States senate, he may have to do a Whirlaway of stretch running. There are many astute observers who believe that he can do just what the trim little Auburn-haired horse did in the Kentucky derby and again in the Preakness—win going away at the end of the race.

Schools Receive Second Payment on Transportation... A payment of 30% of grants for transportation aid to schools by the state makes a total payment now of 80%, since 50% was paid in to the counties some weeks ago. It seems probable now, according to county school superintendent, T. C. Williams, that total transportation aid will not exceed 87% in all, thus leaving about 7% yet to come.

Gees Whiz! If you doubt this landlocked salmon weighs 12 1/2 pounds, ask young Carl Johnson of Belgrade Lakes, Me. He struggles hard enough to hold it up for photographer.

County School Board Adopts 12 Grade Plan... The county school trustees met in regular session in the county superintendent's office Monday, May 12. The twelve grade system was officially adopted for the county. The following plan of classification was suggested:

CISCO AUCTION HAS BIG DAY HERE TUESDAY... This Livestock Feature Attracts Many Out-of-Town Buyers... A total of 412 cattle, hogs, sheep and goats, were sold at the auction barn at South D Avenue Tuesday, bringing a net to sellers of \$4,683.42, after selling commissions had been paid. This was, perhaps, the biggest day the barn has ever had, according to Billy Bacon, one of the owners of this big feature for the livestock industry for Cisco, that serves to bring buyer and seller together.

Seniors Present Mystery Farce Friday Night... The mystery farce, "Murder in Rehearsal," which will be presented by the senior class in the high school auditorium tomorrow evening at eight o'clock, is the first of its type to be presented on a local stage in about a decade. As its name implies, it combines the elements of mystery and farce to provide two and one-half hours of intrigue and boisterous fun, and ends with a gasp of surprise and a chuckle of merriment for the audience.

Eleven Deaths in County for April... The following deaths were contained in the vital statistics for April: Laura Ann White, Rising Star, died April 30; aged 70 years, 2 months.

Reagan Victim In Kangaroo Banquet Trial... Surprise high-point in the banquet and fun program for the board of stewards and their wives at First Methodist church Wednesday night, was a kangaroo court trial of the chairman of the board, Wm. Reagan, who was charged with high-handed and dictatorial methods in conducting the affairs of the stewards.

Scotch Tournery Enjoys Picnic; Starts Play... The picnic held on the lawn of the country club Wednesday night was a big success, and a delightful time was had by all, said Mrs. J. L. Thornton, who is a wheel horse at cooperating with giving the news.

Eighty-Eighth District Court Transactions... (B. W. Patterson, Judge.) Judgments and Orders: Elmer Berry et ux vs. Alvin Broyles et ux, cancellation of contract for the exchange of property in Eastland county for property in Parker county, the basis of suit being the taxes due on the Eastland county property. Plea of privilege filed by defendant is controverted. Judge Patterson set a hearing on defendant's plea for May 30.

Spills Many Fish Harrell Dam Breaks... Fishing was reported good below the Harrell lake this week, after the dam gave way and spilled the fish from that reservoir. The lake on the Harrell farm was one of the few days that gave way under the pressure of high water caused by recent rains. This lake must have been well stocked with nice fish, as those who fished in the pools below the lake report catching many nice specimens, averaging around two pounds.

Relatives Arrive For Funeral... Mr. and Mrs. A. L. Mitchell of Wynnewood, Okla., and Mrs. Exa Rice of Dallas have arrived at the Laguna hotel to attend the funeral services Saturday, 2 p. m., of R. C. McCarter, whose body will arrive on the T & P at 11:26 Friday morning.

LABOR'S SHARE

Owing partly to the rights, privileges and immunities that have been lately conferred upon it by law and partly to its aggressive self-extensions, the power of organized labor is very much greater than ever it was before.

So far as we know, it imposes upon itself no limitations. What it thinks it can get that it will demand.

One of its positions is that there ought to be no profit in national defense, but since there is it will insist upon participating. Its second one is better. It says labor cannot accept its present standard of living as final.

There are two questions here. One is the question of—shall we say—stimulus in granting for a larger share of national income in a time of grave emergency. Waiving that point, the other question is whether or not it is feasible. Is there not a delusion in it?

For many years this country has pursued the policy of a progressive division of the product with labor, precisely in order that the standard of living should rise. By the old iron law of wages—the standard could not rise, it could only fall.

But never did this policy mean that labor should have a larger slice of a fixed pie.

It meant that labor's income should increase with the size of the pie. The pie is the total national income.

Now, owing to enormous expenditures for armament, there is present an illusion of increase in the national income. In fact, all these billions are a total loss. Considered as the remainder of things we may consume and enjoy while producing armaments, the national income, if it is increasing at all, is increasing very little, and if we have to go on and on with the armament program, it will not only cease to increase at all, but will begin to fall.

Organized labor, therefore, is by way of exerting its great power to get for itself a larger share of an actual national income that is not going to increase and will be tending to fall and we anxiously say that the more brazenly it succeeds the more disastrous it will be—for the unemployed, who will come first in the post-war debacle, for union labor itself next, and for the economy, the peace and the well-being of the country as a whole.

What organized labor needs at this moment, even for its own good, is economic statesmanship. There is very little of that anywhere.—Saturday Evening Post.

Students Honored in Baird Class

Do You Remember?

(From Files of Cisco Daily News, December 23, 1937)

Four men, one of them dressed as Santa Claus, entered the First National Bank of Cisco here today at noon and after rifling the vault of an undetermined amount of money, escaped under a rain of bullets from guns of police officers and citizens, and left behind them a trail of blood that included eight Caucasians and one bandit. The shooting then began, with Chief of Police G. E. Bedford being shot down first as he exchanged shots with the bandits, and George Carmichael falling in the passageway behind the bank as he battled with them.

The bandits took with them a shield, two small Cisco girls, Laverne Comer, 12, and Emma May Robinson, 10, and after an unsuccessful attempt to hold up another automobile inside the city limits of Cisco, engaged into the vicinity of the Lee model camp, two miles southeast of Cisco. There they left the two girls in the car and escaped about across a field. Passes are now securing the country for the bandits.

The Comer girl and part of the loot was left in the car, which the bandits failed to hold up and commandeer in time when their own car had a flat tire. Citizens chased in on them at that time, shooting one of the bandits, who was hurt from the original war as the bandits drove away. The car, an Oldsmobile, was driven by Woodrow Harris of Brown Star, who looked it as he got out, and the bandits could not drive it away.

E. C. McClelland, local citizen, shot the bandit. The girls said one of the three captured bandits was shot in the leg and that another had a bloody chin.

Marion Olson, home from Harvard university for Christmas with his parents, told probably the most complete story of any one yet seen. He was interviewed at Graham sanitarium, where he was taken, pierced through with a bullet. Olson said, "I had just come to the bank to make a deposit, and Mr. Alex Spears, the cashier, called me in for a chat. While we were talking, a man dressed as Santa Claus and followed by four or five little girls, came into the bank. Mr. Spears called 'Hello, Santa Claus,' to the visitor, and received a salutation in reply. At about that time, however, another man appeared beside Mr. Spears' desk and told us to 'stick 'em up.' At first I thought it was a joke and was slow to obey, but Mr. Spears threw up his hands, and I followed suit. This man had two guns. At about the same time, Santa Claus then drew a gun and began herding the customers toward the back of the building. Two others appeared from the back, having entered through the back side door. They rifled the vault. The bandits then herded me into the car at the side of the bank in the alley. Meanwhile, the shooting began and I was struck. The bandit had put me in the car, but I told him I was shot and was going to leave for the hospital. He held two guns on me and told me to sit there, but I told him I was going anyway, and left. There were two or three bandits in the car when I was there, and one

Can O'Daniel--

(From Page ONE)

comes a time when voter opinion jells. The senate race is going to be an odd parade of human psychology. Some of the candidates are just going along for the ride. They have made the journey before and have enjoyed the thrill of voicing opinion in a great forum. Some of them just plain admire to see their names in print or on a political ticket. Self delusion is the cause of all the arts and some see immense blocks of votes coming definitely to their banners.

The Radio Factor

At least three new candidates in the race are depending on the technique that made O'Daniel governor by nothing short of a landslide. O'Daniel sold flour and sentimentality until he became a candidate for governor, and he has followed the same pattern with the elimination of flour. Now comes Hal Collins, who has sold mineral water crystals, music and sentimental expressions; comes Dr. John R. Brinkley, even more a pioneer than O'Daniel, who had a fling in Kansas politics and was a threat but never a winner after exploiting natural weaknesses of human bodies and preferred music to cars, and finally one Sam Morris, the Rev. Sam Morris, who since 1935 from Del Rio has pursued a sin-killing course over a Mexican station sharing time with Brinkley and O'Daniel. The Rev.

Stamps Aid Science In War Against Cancer

FRANCE has been defeated in war with Germany but the war against disease never ends. A recent French semi-postal, above symbolizes the battle of Science and the seven-headed dragon Cancer.

This is the second French release to provide funds for center of cancer. The 1938 issue pictures Pierre and Marie Curie, discoverers of radium. The Curies were also honored on Panama's postal tax issue, and Mme. Curie appears on a Turkish stamp.

Education is the greatest force in the cure of cancer. For medical science knows cancer can be cured, if recognized and treated by surgery, X-ray or radium in early stages. The principal obstacles which must be overcome are fear, quackery, delay.

Track and Field Meet For Negroes

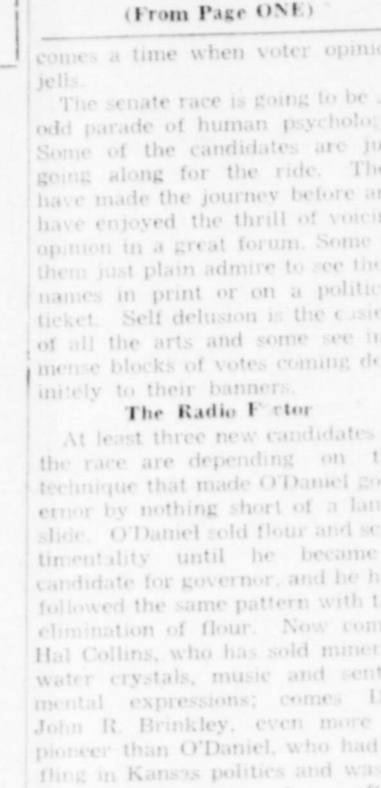

There will be a track and field meet tomorrow afternoon, May 16, at Southville grammar school for the negro participants of the Cisco Recreation project. The meet starts at 8:30 o'clock, according to Lester B. Van Cleave, recreation director.

Included in this meet will be social games such as pocket checkers, horseshoe, pitching, checkers, dominoes and athletics and sports. In this division there will be soft ball for both boys and girls, tennis, high jumping, broad jumping, and relays of various kinds.

Last Friday, the Cisco teams attended a similar meet at Eastland, winning several blue and red ribbons. We are proud of the showing of the teams, as they were unfamiliar with the proceedings of the track and field events, said Mr. Van Cleave.

Visitors are invited to attend these events tomorrow afternoon.

Stars in His Eyes

...his own winner, a U. S. Army flying ace at Randolph Field, Tex., turns eyes skyward, and has reflected in his sunglasses the soaring training plane of a cadet.

Stamps Aid Science In War Against Cancer

FRANCE has been defeated in war with Germany but the war against disease never ends. A recent French semi-postal, above symbolizes the battle of Science and the seven-headed dragon Cancer.

This is the second French release to provide funds for center of cancer. The 1938 issue pictures Pierre and Marie Curie, discoverers of radium. The Curies were also honored on Panama's postal tax issue, and Mme. Curie appears on a Turkish stamp.

Education is the greatest force in the cure of cancer. For medical science knows cancer can be cured, if recognized and treated by surgery, X-ray or radium in early stages. The principal obstacles which must be overcome are fear, quackery, delay.

Track and Field Meet For Negroes

There will be a track and field meet tomorrow afternoon, May 16, at Southville grammar school for the negro participants of the Cisco Recreation project. The meet starts at 8:30 o'clock, according to Lester B. Van Cleave, recreation director.

Included in this meet will be social games such as pocket checkers, horseshoe, pitching, checkers, dominoes and athletics and sports. In this division there will be soft ball for both boys and girls, tennis, high jumping, broad jumping, and relays of various kinds.

Last Friday, the Cisco teams attended a similar meet at Eastland, winning several blue and red ribbons. We are proud of the showing of the teams, as they were unfamiliar with the proceedings of the track and field events, said Mr. Van Cleave.

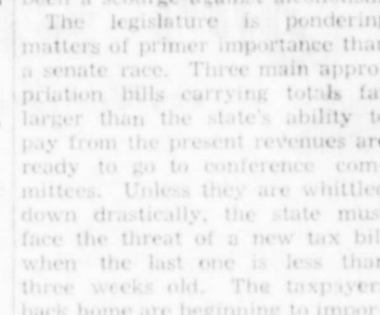

Visitors are invited to attend these events tomorrow afternoon.

Stars in His Eyes

...his own winner, a U. S. Army flying ace at Randolph Field, Tex., turns eyes skyward, and has reflected in his sunglasses the soaring training plane of a cadet.

Capt. Death Will Expose Famous Blindfold Trick

A trick long used to fool the public will be exposed during the American Motor Cavalcade free show, here Saturday, it was announced today by Hal Mason, Cavalcade star, and known to the movies as "Captain Death."

First, Mason will perform the trick by driving through the streets of Cisco while blindfolded, and stepping at various stores, where he will giveaway merchandise gifts. At the conclusion of his drive, Captain Death will explain the trick of his drive. Cisco children are already showing interest in the gray parade and are registering at the display room.

The Jamboree and Cavalcade being sponsored by Nance Co., Ideal Cafe, Glenn's Furniture Store, Moore Drug, Schaefer Radio, Modern Way and W. Supply Co.

Small pox, formerly one of the major causes of death in the U. S., now takes only about 40,000 per year, according to the health department.

of Copper Known to Egyptians

before the dawn of civilization was mined and used in the commercial life by the Egyptians. In the dim past, before the dawn of civilization, copper was found by a half-breed that inhabited the island of Cyprus, in the Mediterranean. The metal was so hard that it was called "Cyprus" because their choicest metal was found there. Our tongues changed it to copper.

As history, we find copper was perhaps in the last Ice Age. It was broken off the exposed rocks of the Great Lakes region and spread south over an area of 20,000 square miles. These rocks were rolled around and into streams. It was at this time that the metal was first used by the Indians. Like the metal of Cyprus, the Red Indians hammering the nuggets into tools for commercial purposes. They made fish-hooks, needles, knives, hatchets, and jewelry. As other objects that could be made from flint which, in the discovery of metal, was their principal material in war and commercial purposes.

In the first discovery of copper, both continents down to the flight of centuries, the metal of history left to us by primitive people are fragments of copper. Their copper tools, knives, spearheads and other appliances for toil and war, tell us all that is known in the evolutionary period of civilization.

Without copper, most modern machines which have made this age in all history of the world would not have been possible. Copper permeates all progress. In every-day life, it is the agent of business and industry and the promoter of our civilization.

comforts and conveniences. There are few modern inventions or industries that do not depend on it or one of its many alloys.

There exists an old myth that the Egyptians knew how to harden copper and that it is now a lost art. Yet today fabricators of copper have developed alloys that are harder than any alloy known to the Egyptians. These have a wide diversity of uses where the durability and rust-proof qualities of copper are required with added strength of the metal.

R. J. Sprawls Gets Call for Racks

R. J. Sprawls, of Cisco, who is a student at John Tarleton college, participated in one of the most unusual defense projects sponsored in this section. The ordnance department of Camp Work, which they needed at once 400 rifle racks to hold the 12,729 rifles of the trainees. They sent out an SOS call to the mechanic arts department at Tarleton. The department in which R. J. is a student answered immediately that they would build the racks.

This unusual undertaking required a complete reorganization of the department in order to speed up the work, most of which would have to be done at night and after regular school hours. The students gladly contributed their work. With Profs. E. A. Blanchard, C. H. Dawson and John Crowell as advisors, the boys elected other foremen, divided the tasks, and started to work. One group of boys did nothing but mark boards; another group cut little blocks; still another group bolted the pieces together, etc. In approximately 2100 man hours, days ahead of schedule, they notified the ordnance department that the racks were available.

Some idea of the magnitude of the job is gained by Professor Blanchard's explanation of the material used in making the racks. Into them went 7,360 feet of angle iron, 5,740 bolts and nuts, and 11,982 board feet of lumber.

Chevrolet Men to Get Examination

During the month of May, more than 25,000 Chevrolet service men from the division's 8,500 dealerships will review a year's training program in their regular yearly examination, to be held in each zone throughout the country. Each mechanic will answer a 50-part quiz, those passing, winning the approved mechanic rating, according to A. D. Anderson.

The quiz summarizes an entire year's work, according to Ed Hedner, national director of service for Chevrolet. Monthly schools are held in each dealership to keep mechanics abreast of latest developments in the service field. The annual review session affords the mechanics an opportunity to win an approved mechanic's diploma for a new year.

Materials for the schools held in the individual dealerships are provided by Chevrolet, including the shop manual, a monthly service bulletin, slide films prepared under Chevrolet supervision, and other items. Service managers conduct the sessions for their own organization, while a representative of Chevrolet's zone service de-

Transfers of Real Estate Over County

Transfers of real property continued active in Eastland county, with an increased interest in oil and gas leasing manifest, according to instruments of recent filing in the county clerk's office:

W. E. Hazlewood et al to Charles W. Starr, northwest quarter, section 106, block 3, H&TC survey, \$100.

Susan Dixon Curd et vir to H. E. Phillips, lots 11 to 16, block "B," Eastland, \$50 and assumption of taxes.

L. J. Hazlewood and Martha Magnolia Livingston, affidavit of heirship to northwest quarter, section 106, block 3, H&TC survey, \$10. Oil and gas lease.

C. E. Grover et al to R. A. Bearman, north 100 acres of northwest quarter, section 90, block 3,

H&TC survey, \$10. Oil and gas lease.

C. W. Foote et ux to J. P. Nysaet et ux, northwest quarter of northwest quarter, section 9, block 2, H&TC survey, \$600.

Florence Boyd, guardian of Elizabeth Ann Boyd et al, minors, to Otis J. Taft, tract of land in Ranger, \$100.

J. C. Keen et ux to E. C. Fisher, east 50 feet off lots 6 and 8, block 22, Daugherty addition to Eastland, \$90.

Standard Savings & Loan association to John E. Borders, et ux, lot 7, subdivision of lot 4, block 29, Cisco, \$200.

Standard Savings & Loan association to T. Dodd et ux, lot 1 and east 25 feet of lot 2, Woods subdivision of block Minus H-2, Eastland, \$180.

S. C. Hale et ux to C. J. Daniels, part of the northwest half, section 81, block 4, H&TC survey, \$1.

V. B. Pierce et ux to Stewart Oil Co., parcel of land in the Applewhite & Colley survey, \$10. Oil and gas lease.

W. H. Pierce et al to Stewart Oil Co., 200 acres out of the southwest corner of the Moses Allen survey, \$10. Oil and gas lease.

H. L. Jackson et al to Johnson Storage and Distribution Co., lot

8, block 44, Cisco, \$500.

M. H. Pierce to V. G. Pierce, part of Moses Allen survey, \$50. Oil and gas lease.

C. H. Featherstone et al to Stewart Oil Co., 150 acres of land patented to J. W. Montgomery, \$10. Oil and gas lease.

NIMROD

We are enjoying these pretty days after so much rain. The rain Sunday morning did considerable damage, mainly washing down fences.

Miss Frances Neil Simpson of Fort Worth spent the week-end visiting relatives here.

Mrs. E. W. Woods and family had as her Sunday guests her mother, sister and brother-in-law, all of San Angelo.

L. C. Meadows, Jr., of Grandfield, Okla., recently visited his sister, Mrs. D. L. Allen, and family.

Mrs. Dottie Marshall of Luraine is visiting her mother, Mrs. Ella Hall, who is ill.

Mr. and Mrs. Buck Sharp and sons and Junie Brown visited relatives at Rising Star Sunday.

The senior class of Seranton school left Monday via bus for Carlsbad Cavern. Those in the class from here are Misses Lois June Allen, Leta Simpson, Lena Tonne and Winnie Robinson.

State Medicos Pick President

FORT WORTH, May 15.—Dr. Judson L. Taylor, gray-templed Houston surgeon, was named president-elect of the Texas Medical Association today at the closing session of the association's four-day meet here.

Dr. Taylor will assume office next year, succeeding Dr. N. B. Buie of Marlin, who today replaces Dr. Preston Hunt of Texarkana. It is the practice of the association to elect its president a year in advance.

Dr. Roscoe R. Graham, Toronto, Canada, visitor, told a clinical audience that a patient was far more comfortable if his bandages were removed 24 hours after an operation.

Dr. Tate Miller, Dallas physician, speaking before the junior chamber of commerce, exploded belief that certain food combinations might cause poison. Dr. Miller took issue in particular with the traditional milk-and-fish story.

Jews Want Weapons

NEW YORK, May 15.—Ready and willing to go down fighting like the Poles and Greeks if the worst comes to the worst, a half million Palestine Jews are asking the British to furnish weapons that they might defend their homes, frontiers and honor. Such was the statement issued Wednesday by Emanuel Neumann, speaking for the American Palestine committee.

Average sales of retail stores during 1939 amounted to \$23,731 compared with \$230,942 for wholesalers, according to the census.

Oh, Boy Dep't

Mary Martin basks in California sun, and no more need be said.

L. H. Qualls leaves Friday for few days with his son, Herman, in McCamey.

Texas Farm Crops Association Is Important Group

One of the most important steps ever taken in Texas to bring new income to farmers and new industries to both small towns and urban areas of this state, the formal organization of the Industrial Farm Crop Association of Texas, has just been announced by M. D. L. Van Over, president. A non-profit organization composed of leading farmers and businessmen of Texas, the association will serve to promote the expansion of industrial farming crops in Texas.

Elected to serve as temporary president, M. D. L. Van Over is the outstanding scientist and world authority on the industrial uses of the castor bean tree. His work has already paved the way for at least one new form of industrial farming, the prospective income from which has been estimated at approximately two billion dollars yearly. Mr. Van Over will serve as president until a successor, able to give a great deal of time to the expansion of a new industry in Texas, is found.

Roosevelt Sets Flag Day Date

WASHINGTON, May 15.—President Roosevelt Wednesday formally designated June 14 as "Flag Day," and declared it particularly fitting that "we reaffirm our faith in the ideals for which our flag stands."

He called upon the American people, in a proclamation, to observe the day by suitable ceremonies and by display of the flag.

"At this time when the principles of unity and freedom symbolized by Old Glory are under attack," he said, "it is especially fitting that we reaffirm our faith in the ideals for which our flag stands and our loyalty to the nation over which it has waved for more than a century and a half."

June 14 is the anniversary of the day in 1777 when the Continental Congress formally adopted the Stars and Stripes as the national banner of the United States.

PUBLICATIONS LAW

AUSTIN, May 15.—Final passage was given in the senate Wednesday to Rep. James E. Taylor's house bill amending the publications law to rewrite the sections defining newspapers and requiring publications of designated legal notices instead of tacking notices on the courthouse door.

Police Unable to Find Missing U. T. Student

AUSTIN, May 15.—Local police said Wednesday they had learned nothing further of the whereabouts of Alvin Y. Tillman, Jr., of Menard, University of Texas student reported missing from his residence.

The police stated the 19-year-old youth was said to have gone to Taylor Thursday and informed

Suspect Captured In Hammer Slaying

SAN ANTONIO, May 15.—Hugh Shaw, 52, was captured here today by Texas Rangers and held in connection with the hammer slaying of Lee Roy McFerron, Camp Wallace carpenter.

McFerron, who was beaten and

ANNIVERSARY OBSERVED

Your DREAMS CAN COME TRUE... IF YOU HURRY!!

ENTER ADMIRATION'S HAPPINESS CONTEST TODAY!

You CAN WIN \$1,000.00

IN TRADE CERTIFICATES IN THIS EASY CONTEST

HURRY CONTEST CLOSES MAY 17, 1941 MIDNIGHT

Get Full Details at Your Food Dealers

It's the easiest contest I ever heard of!

READ WHAT THIS WINNER SAYS:

"Thank you! for the \$100.00 prize. I am happy—praying that I may win a grand prize. Needless to say, I shall never be without ADMIRATION, and if my \$1,000.00 dream comes true, I shall never accept a coffee just as good..."

Mrs. E. E. Hunter, Box 276, Durant, Okla.

YOU, too, can enjoy the happiness that is Mrs. Hunter's—write your happiness story today—it may win \$1,000.00 for you or a chance at one of the other 501 prizes!

Just finish this sentence in 50 words or less: "My happiest moment was..."

HERE'S ALL YOU DO:

Just write your happiest moment (in fifty words or less) to the Admission Happiness Club. Your happiness story doesn't have to be fancy in your own mind. Just a few lines in your own words will do. For example, the happiest moment may have been in your first romance, your wedding, or your first word, an achievement, a moment of a thousand happy memories—just think of your happiest moment—just one down—attach a copy of your happiness story to the Admission Happiness Club, Box 2079, Houston, Texas, today. It may win the equivalent of \$1,000.00 for you!
