## OIL WELL NEAR CISCO MAY MEAN NEW POOL

### 100 BARRELS, NATURAL FLOW, AND MORE THAN HALF MILLION FEET OF GAS AT 3,349 FEET

#### Experienced Operators Think Well Would Make 500 Barrels if Shot; Crowd Visits Scene and R. L. Ponsler Got Fifty Feet of Technicolor Film

The Hickok Producing and Development company Thursday brought in an oil well near Cisco that is estimated to be making 100 barrels of oil, natural flow, and more than half a million feet of gas.

The well, thought to represent a new pool, is on the Harrell & Wright tract, 1.129 feet from the north and 320 feet from the west line of the J. B. Hoxie tract—approximately 1 1/2 miles north of Lake Cisco.

The oil was found at 3,349 feet. Experienced operators think the well would make around 500 barrels if shot, but shooting is not being considered at this time.

All indications point to a new oil pool say operators familiar with this area. Tankage has already been set and pipe connections are being made with lines of the Illinois Pipe Line Company.

Interested visitors to the new well yesterday included Doc Cabanes, Charlie Kleiner, Harry Reynolds, Frank Bond, H. A. Bible, W. H. Kirby, F. E. Harrell, Cisco, Herman C. Kelly, production superintendent of Lone Star Gas Co., Ranger; Granville A. Plummer, district scout for Lone Star, Eastland.

R. L. Ponsler, whose hobby is photography, made it a point to secure fifty feet of technicolor film of the well and those congregated at the scene.

### Woodmen Circle "Caravan" Group Will Send Three With Methodist Young People To Omaha Fiesta

Leaving for Omaha, Neb., by automobile Saturday morning will be three members of Cisco Grove No. 356, Woodmen Circle, who are expected to be joined by Miss Lillian Baggett, member of the Comanche Grove. They will represent the Cisco Grove at the society's National Institute, the convention of Tau Phi Lambda, national young women's sorority, and the celebration of Woodmen Circle's fifteenth anniversary, June 22 to 26, inclusive.

The Cisco party will make the trip in the Jess McCanlies car, and will be composed of Mr. McCanlies, Mrs. Janie B. McCanlies, district manager; Mrs. Mary Abbott, Mrs. Leah Bates and Miss Baggett of Comanche. The Omaha meeting will be one of the largest gatherings ever held in the history of American fraternalism. More than 2,500 women from the 45 states in which Woodmen Circle has members will attend.

Marked by colorful pageantry, a marching parade of more than 1,500 costumed members of the society's drill teams, bands, drum and bugle corps, and an evening pageant in the Omaha city auditorium, the meeting will present a striking spectacle for the residents of the convention city.

Mrs. McCanlies goes as district manager of this district, which embraces 17 counties of West Texas.

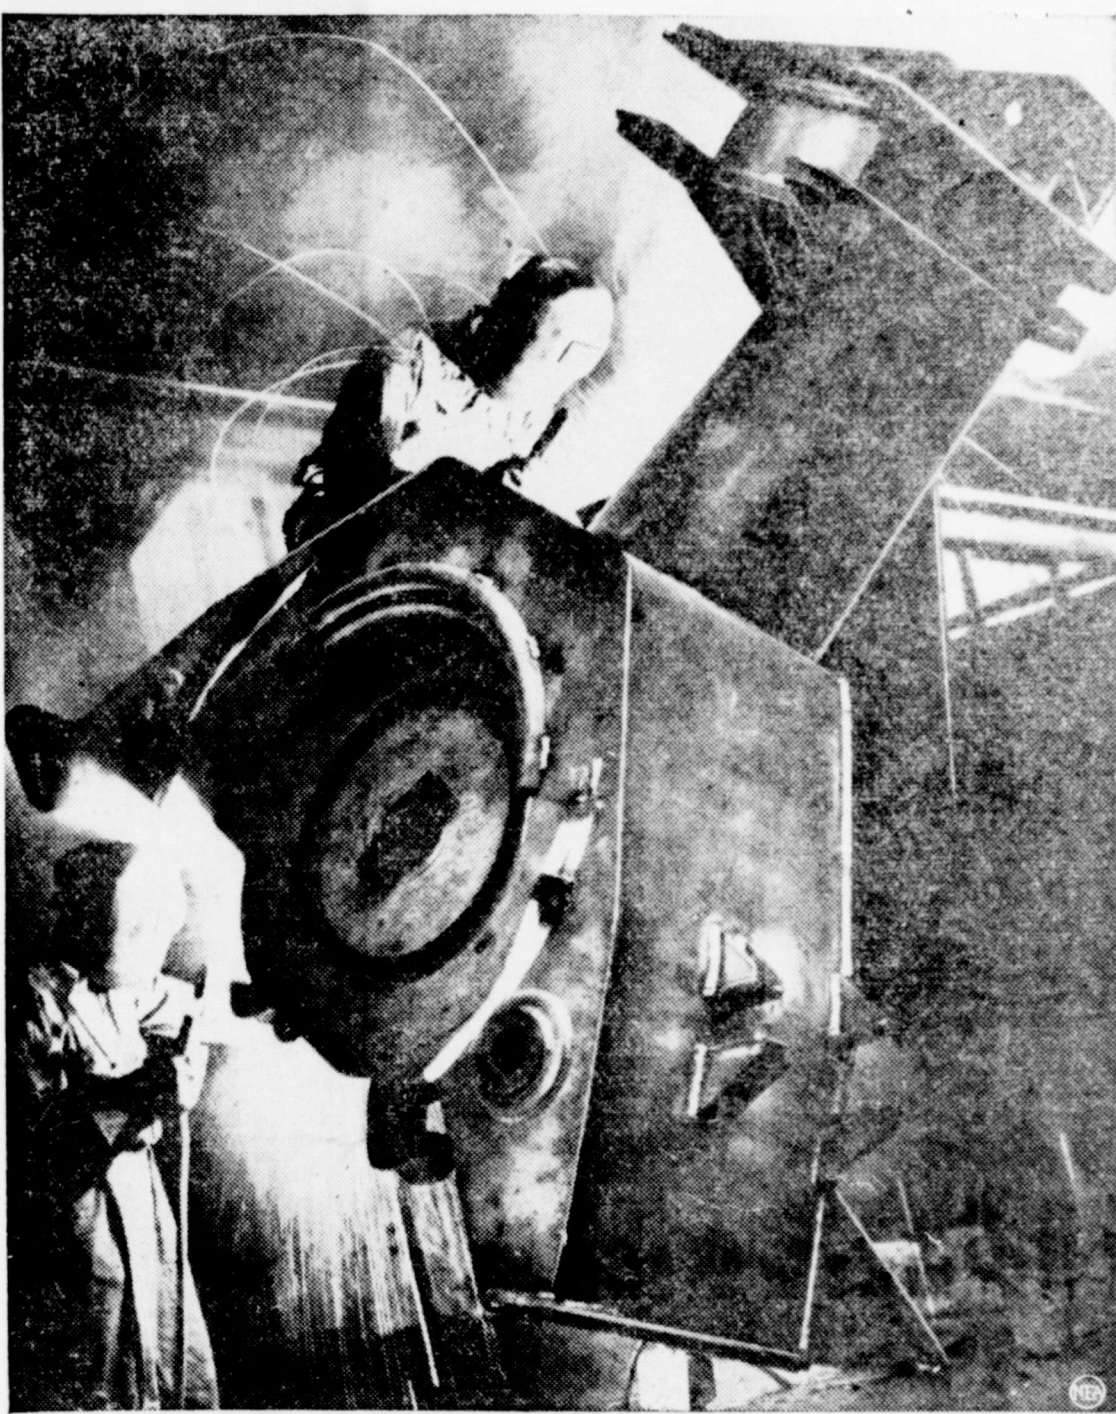

Leaving here Saturday morning the Cisco party will arrive in Omaha Sunday morning, and will leave Omaha June 26 and should reach home June 27. Several places enroute home are expected to be visited, according to arrangements now planned. Mr. McCanlies anticipates a visit to a niece at Council Bluffs, and Mrs. Bates will likely visit her sister-in-law, Mrs. Dessie Bates, at Scotts Bluff, Iowa.

While in Omaha the delegates will be entertained with a banquet Wednesday night and a breakfast Thursday morning, to be followed by open house in the Woodmen Circle building.

The program of entertainment includes several excursions to points of interest in and around Omaha.

Mrs. L. A. Burkett spent Thursday with her sister near Eastland.

#### In Dramatic Speech to Congress President Roosevelt Says Sinking of Robin Moor Was the Act of an International Outlaw; Full Reparation is Demanded

(The United Press) WASHINGTON, June 20.—"In a dramatic address to congress this morning with reference to the sinking of the American freighter, Robin Moor, President Roosevelt said:

"The total disregard shown for the most elementary principles of international law and of humanity brands the sinking of the Robin Moor as the act of an international outlaw.

"The government of the United States holds Germany responsible for the outrageous and indefensible sinking of the Robin Moor. Full reparation for the damages suffered by American nationals will be expected from the German government.

"This government can only assume that the government of the German reich hopes through the commission of such infamous acts of cruelty to helpless and innocent men, women and children to intimidate the United States and other nations into a course of non-resistance to German plans for universal conquest.

"We were to yield on this, we would inevitably submit to world domination at the hands of the present leaders of the Reich. "We are not yielding and we do not propose to yield."

Marian Elmore returned home Tuesday after a few weeks' visit in Breckenridge.

### STRIKES STILL HOLD DEFENSE DRIVE BACK

WASHINGTON, June 20.—The defense mobilization board efforts to end labor difficulties in the Puget Sound lumber industry met with a new set-back Thursday. Employers rejected a proposal for industry-wide negotiations with the International Woodworkers of America (IWA).

Only last Saturday, the IWA had accepted board recommendations for a temporary settlement of a five-weeks' old strike which originally affected 22,000 workers and fifty-odd lumber camps and mills.

The board proposed industry-wide negotiations on remaining problems as an alternative to a study of the whole situation by a board appointed commission.

Employers said two-thirds of the strikers had gone back to work before the union acted and that negotiations on an industry-wide basis now would confuse both sides.

Dykstra Resigns. After notice of the employers' view, the mediation board telegraphed both sides that it would have to appoint a commission to make final recommendations unless an agreement was reached for direct negotiations.

The development dropped a major new problem into the board's lap at a time when it was losing its present chairman, Dr. Clarence A. Dykstra.

The White House announced that President Roosevelt had accepted Dykstra's resignation, effective July 1. He will return to his duties as president of the University of Wisconsin.

Davis May Step Up. There was speculation that Dykstra would be succeeded by William H. Davis, the present vice chairman.

Davis, a patent attorney, was chairman of the New York state mediation board when Mr. Roosevelt drafted him for the new federal agency established to try to avert work stoppages affecting defense production.

Another west coast development was apparent arrival of a crisis in relations between national leaders of AFL machinists and San Francisco local leaders who favor continuing a strike at 11 shipyards and drydocks holding \$50,000,000 of defense contracts.

This would make the lowest effective surtax rate 5.5 per cent. It would apply to income in excess of personal exemptions and without any deduction for earned income.

#### Goodfellows to Have Dinner Tonight

The Men's Bible class and other men of the First M. E. church are to have a barbeque in the basement of the church tonight at 7:45. A chicken dinner with plenty of trimmings and an interesting program has been arranged. Rev. Wright of the Christian church is the principal speaker and the girls' trio, led by Billie Cole, will furnish music. All the men of the church are invited to attend.

#### MANN AT ABILENE

ABILENE, June 20.—Attorney General Gerald C. Mann, candidate for the U. S. senate to succeed the late Morris Sheppard, will bring his campaign to Abilene with a rally and an address here tonight. In an address here, to be broadcast, Mann will speak on the federal lawn at 8:15, to climax a day of vigorous campaigning in West Texas.

and D'spain at Dean's plan—another vacation trip this year. Visited relatives in the last summer and all in a fine trip down on the Gulf coast of Mississippi where there are such lovely cities surrounded by spreading trees and lovely beaches. Might take a similar trip, D'spain said.

There are so many of America that one can spend many vacation periods doing so. One has that idea in mind, should be much thoughtful made so that each year would be a different part of the country without retracing one's steps.

Little expense is entailed in going a 3,000-mile trip, if only the idea of seeing the country in mind. Of course, to visit night clubs and to visit in the revelry of resorts to be visited, the cost may be a little more, but otherwise the very little additional to be required for living at home for two or three weeks.

One may wish to visit the mountain section of the state. Yellowstone Park, which includes Pike's Peak, some of the lovely scenery of southern and eastern California, going down through Utah into Salt Lake City, the most beautiful city in the world. One may run down into the deserts of California, taking in the Grand Canyon, and on to Los Angeles, or turning at Salt Lake City across the desert into Nevada and on to Reno.

There is the great middle west which would include Chicago, the great corn belt and the country of big barns and farms.

One may go to the northeast to New York City, beautiful and scenic England, down to Washington, to historic Virginia and Tennessee Valley, or turning to the Atlantic coast into South to Savannah on to Florida and either turning west or south.

### DEFENSE BOND Quiz

What happens if I suddenly need the money I put into a Defense Savings Bond?

You can cash your bond at any time, after 60 days, for the full amount paid, plus any interest due you.

Do many bond owners cash their bonds?

No. People want to help arm America against all attacks. In many cases, people are putting every cent they can spare into Defense Bonds and Stamps. Some are doing this by asking employers or banks to withhold part of their salaries in order to buy these bonds or stamps for them.

NOTE.—To purchase Defense Bonds and Stamps, go to the nearest post-office or bank, or write for information to the Treasurer of the United States, Washington, D. C.

Do You Remember?

(From Files of Cisco Daily News, March, 1928)

Just when work will begin on Cisco's new hotel could not be learned yesterday, but J. M. Williamson stated that the corrected abstract and title to the hotel are had been transmitted to W. C. Witt, president of the Cisco Hotel company, at Dallas, and there now existed no local obstacle to commencing the work right away. "I really expect to see them begin moving in equipment to commencing work on the foundation of any time, as the last time I talked with Mr. Witt he stated that the hotel company was ready to start work on the hotel just as soon as the corrected abstract was received," Mr. Williamson said.

"Naturally" all will be glad to see this work commence, as it will take care of the unemployed in Cisco, which is not considerable, yet I hope local labor will be given preference during its construction," he concluded.

- Names for the hotel poured in the Daily News yesterday, nearly all of which were from Cisco people. Dallas and Dublin being the only other cities represented. The list follows: The Idlewild, A. R. Ex-Bell Countians In Reunion July 6

MERKEL, June 20. — Second annual picnic of the West Texas Ex-Bell county residents will be held at the Presbyterian campground at Buffalo Gap on Sunday, July 6. That date was picked at the picnic last year when some 700 ex-Bell countians formed their organization, as being nearest the Fourth of July.

President of the voluntary organization is A. J. Smith of Anson, with C. J. Glover of Anson, while James P. Stinson of Abilene, who led in the organization, is chairman of the advisory committee.

More than half a dozen West Texas counties were represented at last year's meeting. Bell county old-timers who had not seen each other in many years spent the day talking over old times and swapping yarns of the Central Texas blackland county which had been home to them at some time or other.

Any former resident of Bell county is eligible to attend the picnic and join the organization—no dues—if they wish, it is pointed out. A basket dinner will be served on the grounds and every one is to bring his own grub.

#### PTA Met At Laguna Hotel Thursday Morn

The officers, members and a few members attended a meeting of the City Parent-Teacher association held at Laguna hotel Thursday morning at 9:30, to hear talks and discuss concerning the summer "Round-Up."

Miss Helen LeFachner, who is advisory nurse of the Tuberculosis association of Texas, and Mrs. Garrett, state health nurse of Austin told of the purpose of the "Round-Up," which they stated is held for the benefit of children who are scheduled to enter school for the first time at the beginning of the fall term. A round-table discussion followed.

A special meeting will be held at a later date to decide the time and place of the "Round-Up." The association requests parents of children who will enter school this fall to watch the paper for announcement when the "Round-Up" will be held.

Approximately 20 officers and teachers attended the meeting.

#### Mrs. E. C. Duncan Gives Picnic For S. S. Class

A jolly picnic was held Wednesday when Mrs. E. C. Duncan, assisted by Mrs. J. L. Pugh, entertained the 12-year class of the Junior department of the First Baptist Sunday school with an outing.

The various attractions at the lake were enjoyed and a number of games were played by the group.

A nice picnic lunch was spread in the park near the lake, with ice cream and cake served afterward.

Those attending were Patsy Wilbanks, Dorothy Nell Pugh, Louise Norris, Nellie Mae Exline, Louise Owen, visitors, Mary Philpott, Ella Owen, Waddell, Sylvia Hazel, Jeanette Burnam, Dorothy Exline and the sponsors, Mmes. Duncan and Pugh.

#### Prep Training Union Had Enjoyable Meet

The Senior prep union of the First Baptist church training union met Thursday evening at eight o'clock with the sponsors, Mr. and Mrs. Virgil Lauth, for a business and social meeting.

Mrs. Rauen presided at the business meeting and officers for the coming year were elected. The new officers are president, Jeffie Jean Robertson; vice president, Billye Coker; secretary, Jeanie Snowden; treasurer, Freda Grist; corresponding secretary, Jane Halbert; Bible drill leader, Clifton Stringfellow; group captains, Dan Milnor and Eugenia Jackson.

After the business was on the group played games and refresh-

ment, were then served to the following: Misses Louise Flaherty, Billye Cole, Eugenia Jackson, Jeanie Dennis, Jeanie Snowden, Jeffie Jean Robertson; Messrs. Norman Ball, Clifford Thomas, Charles Yates, Dan Milnor and the sponsors, Mr. and Mrs. Rauch.

### McCauley Thinks Synthetic Rubber Have Big Demand

According to R. W. McCauley, Goodyear dealer. For three and a half years the company developed and produced its own type of chemical rubber in its laboratories, and production began last fall.

First new plant for production of synthetic rubber by the company was completed in May, near Goodyear's tire factories in Akron. This company one of four named by the Federal Defense Plant Corp. in which will have initial production of 2,500 tons yearly, later able of being stepped up to 600 tons output.

Chemium resulted from exploration of more than 30 ferent compounds in thousands of tests. Cooperation in these experiments which have produced a highly synthetic rubber with a score of skilled chemists, engineers and rubber compers.

Tested in a rigorous program conducted by Goodyear in 1937, Chemium tires have a superior performance to those made of natural rubber. Important among its advantages are its increased tensile strength and resistance to aging, abrasion, oils, and utilization of the production methods and of rubber currently in use with natural rubber. The synthetic rubber is much more resistant to oxidation than natural rubber.

In its first use, Chemium demonstrated definite superiority over natural rubber in the manufacture of Goodyear gasoline airplane brakes, axles, rings and other products. It began its satisfactory performance in the making of synthetic tires.

LOCAL BOY makes good

It happens regularly in the telephone company. Some boy who grew up in your neighborhood moves into a superintendent's or other executive's chair somewhere in the Bell System.

His big asset is his experience... his "know how"... often gained right in your home town.

Because Bell department heads and operating chiefs among them have that "know how," they tackle today's telephone emergency, or tomorrow's telephone growth, with a direct knowledge of your town and your problems. They play a big part in our effort to give you good neighborhood service at rates that almost everyone can afford—and good nation-wide service as you need it.
