CISCO, TEXAS, WEDNESDAY, JUNE 25, 1941

NUMBER 267

In an area of benevolent climate, blessed with an abundance of the purest lake water, possessing the best in recreational facilities, situated on the Bankhead all-weather route, with three railroads and many highways, Cisco is the best place in Texas to live and to work.

CO—A home city, a delightful place which to live; oil fields, rich agricultural lands, cattle, sheep, goats, hogs, pigs, egg producing hens, feed crops, truck farming and fruits.

INNER CHAMBERS OF LAKE CISCO DAM BE CLOSED TO PUBLIC FOR DURATION OF WAR; ERECT FENCE

Auditor Says Cisco Delinquent Tax List Close to \$250,000; Collect It or Charge It Off is Recommendation

Anticipated pyrotechnics failed to materialize at the regular meeting of the city commission Tuesday evening. Opposition to the bond settlement proposition was not manifest, nor was the matter mentioned during the lengthy proceedings, made up largely of consideration and disposition of minor matters.

A full board of the commission, except Commissioner Edward Lee, who is out of the city, was present, with Mayor G. P. Mitcham presiding. City Secretary Lonnie Shockey, Water Superintendent G. R. Kilpatrick, City Attorney Clark Roberts and Police Chief W. M. Perdue were also in attendance.

Visitors included Messrs. Lacy Byrd of the Community Natural Gas Company, R. L. Wilson, P. G. Berry, manager Lake Cisco Amusement company, City Auditor McAlpine and his assistant, Mr. Stinson.

Mr. Byrd's business with the commission was to discuss the question of rentals for streets and alleys used by his company. His appearance was voluntary, as was his suggestion to pay a reasonable rental for the use of Cisco streets and alleys, and suggested that one and one-half per cent of the company's gross receipts would be a reasonable charge—one that the company would willingly accept and in line with other cities in Cisco's class.

The matter of the resignation of J. L. Leach as chairman of the band committee, and the selection of a successor, was discussed at length. Com. George Boyd was named to secure a successor to Mr. Leach and report to the commission at next meeting.

The commission instructed the chief of police to enforce the state speed law of a limit of 30 miles per hour inside the city limits, and to arrest those violating this law. It was explained that the enforcement of this law was optional with the city, but it had come to the attention of the commission that the state highway patrol was preparing to take over the enforcement of the speed law in the event the city failed to act.

The commission voted to place a blinker light at L avenue and Eighth street.

The commission authorized City Secretary Shockey to purchase a new check protector at a trade-in value of the old machine. He explained that the one in use was in bad order, causing checks to register amounts other than intended.

The question of supplying sewerage service to W. R. Huestis and another patron, a neighbor of Mr. Huestis, was placed before the commission by Supt. Kilpatrick. He stated the service desired would cost approximately \$375. The commission decided the cost was prohibitive unless the petitioners would assume part of the cost, or place the connections with existing sewer lines.

Another matter that Supt. Kilpatrick brought before the commission was the shooting of fireworks in the interior of the dam at Lake Cisco. This brought on a general discussion. Kilpatrick feared the explosion of fireworks might endanger the dam. Others thought the dam should be protected by guards, especially during the July 4 celebration.

The commission finally instructed the chief of police to place a guard at the dam on July 4. Mayor Mitcham was authorized to contact the federal war department regarding placing a military guard at the dam at all times. The mayor thought this advisable; should some fifth column agent decide to dynamite the structure the explosion of fireworks would be a plausible alibi. The dam may be of value to the government in time of war and should be safeguarded, the mayor said, and he will take the matter up with Washington authorities. It was decided to forbid entrance to the dam to anyone during the duration of the war.

Other action regarding the dam was the decision of the commission to remove the fence surrounding the old tourist camp, north of the Texas & Pacific tracks, and erect a substantial wire fence around the entrance to the dam.

Auditor McAlpine discussed the matter of the city carrying an excess of assets, much of which was uncollectible, and some not really owned by the city. In the latter

Camp Meeting at Lueders Mecca For Baptists

The Lueders camp grounds on the banks of the Clear Fork of the Brazos is the mecca for Baptists of West Texas this week. The attraction is the annual encampment, which began Monday and will close next Sunday.

The Lueders camp is the oldest camp grounds in West Texas and one of the oldest religious campsites of the state. These encampments are held annually at this Baptist resort and great crowds worship there.

Cisco will be largely represented as many Baptists and members of other denominations will avail themselves of the privilege of attending. The program in addition to the religious features will be recreational. Rising bell will call the campers from their slumbers at 6 o'clock, with breakfast following at 7:30, after which a swim will be enjoyed in the Clear Fork, then the religious program takes up and carries on until 11 o'clock p. m., when lights go out.

GERMANY VS. SOVIET RUSSIA

SOVIETS AND NAZIS POUND EACH OTHER

(By United Press)
The Russians have reportedly stopped all German attacks on the southern front guarding the Ukraine. However the Germans are claiming success against admittedly stubborn resistance on the North Baltic wing. Finland indicates the possibility of declaring war against the Soviets following Russian raids on Finnish cities. The British pounded Northern France again in day and night raids, which grow stronger with each recurring raid.

Stiff Immigration Rules Will Govern Beginning July 1

WASHINGTON, June 25.—The state department announces establishment of a new immigration policy, with emphasis on the immigrant's suitability "to the national defense program." Instead of visas being granted by immigration officials in the field the new setup will make it necessary for visa applications to be passed on by interdepartmental committees, which is understood will be composed of representatives of the state, war, navy and justice departments. The state department's announcement said that the new procedure had resulted from the "declared emergency and the necessity from the standpoint of the national defense for careful supervision over the entry of aliens into the United States." The new procedure is effective July 1.

Clark Roberts, City Attorney, Resigns

At the regular meeting of the city commission Tuesday night Clark Roberts, city attorney, presented his resignation, which was accepted by the commission with regrets, as expressed by Mayor G. P. Mitcham.

Mr. Roberts' resignation becomes effective July 1. He has been called in the selective draft and is ordered to report July 8. He was appointed city attorney soon after his admittance to the bar about one year ago, and his service has been most satisfactory and congenial, said Mayor Mitcham.

Baird Court Term Closes Saturday

BAIRD, June 25.—Jurors were excused for the remainder of the week after an agreed settlement was reached Tuesday in a suit being heard in the 42nd district court of Judge Milburn S. Long. Parties to the suit were Mr. and Mrs. J. R. Hart, plaintiffs, and Waite H. Squire. The case involved a partnership oil lease. The 42nd court term here ends Saturday, and Judge Long will transfer to the bench at Albany next Monday.

FUEL TAXES GAIN

AUSTIN, June 25.—Comptroller George H. Sheppard today estimated motor fuel tax collections for the fiscal year ending August 31 would total more than \$59,000,000, an increase of \$5,500,000 over last year's revenue from that source.

REDS SING U. S. SONGS

NEW YORK, June 26.—NBC's shortwave listeners reported that the Moscow radio was playing "Columbia the Gem of the Ocean," and other American and Scotch patriotic songs last night.

Miss Evaline Johngagen of Albany visited her mother, Mrs. Jack Duncan, Tuesday, Mrs. Duncan is quite ill at her home, 102 W. Fourteenth street.

O'DANIEL SURE HE'LL WIN IN SAT'DAY VOTE

Arriving here this morning, Gov. W. Lee O'Daniel addressed a fair crowd at 10 o'clock. He was accompanied by his hill billy band and official family. He was here direct from Baird, where he addressed a throng of Baird voters, having arrived there from Abilene where his audience was estimated at about 5,000 Tuesday night.

Many of his hearers were persons who will likely vote for one of the other leading candidates, those keeping tab on how Cisconians would vote said.

His remarks were along the usual lines, but he was smilingly confident of his election at the polls Saturday.

He is for a larger pension for the oldsters, and favors the federal government matching state money for pensions two dollars for one. A similar bill is now pending in the senate, introduced by Senator Tom Connally.

The governor said he would introduce this bill as soon as he qualified as senator. The governor promised some tail-twisting unless the senate endorsed his plan, saying that "if cooperation with my program is not forthcoming in the senate, I'll get on the radio on a national hook-up and call the roll."

O'Daniel and party, after closing his talk here, continued on to Eastland, where he was billed to speak at 9:45, Breckenridge at 11:30, Graham at 1, Threeknockton at 3:30, Olney at 4:30, Archer City at 5:15, and Wichita Falls at 8 o'clock tonight.

Britain, U. S., Still Rule War, Says RAF Vet

DALLAS, June 25.—Russia's entry in the war will not determine the outcome of the conflict. It will be won by Britain and America in the opinion of Group Capt. David Carnegie of the British Royal Air Force who yesterday inspected the local RAF unit.

The Scot flier, native of Aberdeenshire, came to Dallas from the West coast on an inspection tour of RAF units in training at United States air bases. He will continue his inspection for several weeks before returning to Britain.

Russia's entry was no surprise to him. "There are no more surprises in this war for anybody. Anything can happen, except of course the defeat of Britain and that will never occur," he said.

Captain Carnegie was a group commander over the Midlands during the great aerial Battle of Britain last September.

O'Daniel Rocked at Abilene Last Night

ABILENE, June 25.—Gov. W. Lee O'Daniel said after his campaign speech last night that two rocks with "scurrilous" notes attached were thrown at his sound truck in the course of his address. They were "rained down," the governor said, midway during the talk as he was reading a circular described as literature of the communist party attacking him and Rep. Martin Dies. O'Daniel said one of the notes bore two signatures, the other six. Capt. R. B. Butler of the state highway patrol, who is traveling with the governor, said one of the rocks missed O'Daniel by about 18 inches. The notes were sent immediately to Homer Garrison, director of the department of public safety in Austin, for examination.

Let's Spruce Up--- It Pays!

As a result of the fine rains of the past 30 days, many Cisco lawns, back yards and vacant lots are unsightly and unprofitable because of the rapid growth of grass and weeds.

From the standpoint of both health and looks, a way must be found to cut and remove this unusual growth of grass and weeds.

A property owner may keep his home grounds in nice shape, and the vacant lot next door across the street is neglected, by the labor of the conscientious home maker will have little.

How shall we go about securing the cooperation of ALL property owners?

Cisco MUST CLEAN UP!

Let's spruce up our homes and yards. It pays to keep them clean and attractive. We need your cooperation to make Cisco a more beautiful city. Let's all join in this effort to improve our community.

IF LITTLE BUSINESS HURT, ALL BUSINESS HURT

There are warning signals flying in Washington that "little business," which has for several years been tossed in heavy seas, is approaching real hurricane weather.

The depression years have been tough on "little business" in general, though some of it has shown itself more adaptable to new conditions than larger businesses and industries.

When the defense effort began, a little more than a year ago, it was natural that most of the contracts went to big industrial establishments. They were the ones who could turn out the stuff, and turn it out quickly.

Now we find ourselves short of materials. Aluminum, rubber, copper, zinc, and many similar materials must be rationed.

tailed or shut off entirely may be faced with the stark prospect of either finding something else to do or shutting down entirely. For a time, in other words, there may even be more, not fewer unemployed, with windows in small plants making essentials going dark that lights may blaze brighter in the windows of vital arms and defense plants.

In a world, there is a tendency, under pressure of the defense effort, to eliminate the small enterprise entirely. Nehemkis is properly concerned about this prospect; he is right in suggesting that "if we permit a total blackout of small business... we shall have richly cultivated the soil for a fascist dictatorship."

The defense boards in Washington are aware of this danger, Nehemkis avers, and are trying to be ready with plans either to incorporate such endangered small businesses into prime contractor-sub-contractor relationships, find ways for them to make defense goods, or means of tiding them over so they can resume production when the emergency has passed.

This is a serious situation, full of the gravest possibilities for the future. It is reassuring to know that the problem is not approaching unrecognized, and that there are those who are already trying to find a solution.

Do You Remember?

(Cisco Daily News Files of April, 1928) The West Ward Parent-Teacher association is well pleased with the results of the summer round-up campaign which was conducted last week at the city hall. Thirty-five children were examined and were found to be in very good physical condition.

After an illness of weeks, Mrs. A. J. Dingle, 79 years old, mother of Mrs. W. H. Craddock, passed away Saturday morning at 8 o'clock at the Craddock home in North Class. The funeral will be at Plough cemetery some time today, but the hour had not been announced.

W. C. (Uncle Billy) Mayhew, father of Aaron and Jim Mayhew, was confined to his bed Saturday with a heart attack. Aaron Mayhew stated he spent a bad night Friday, but was considerably improved late Saturday afternoon.

W. D. Brecheen, in the Commercial Printing company, owned and operated by these gentlemen for the past three years. While all the details were not given out, yet it was stated that Mr. Brecheen is retiring from the firm and Mr. Shepard will conduct the business alone in the future.

Eighty votes were cast for school trustees of the Cisco Independent school district in Saturday's election, the only candidates being F. D. Wright, Dr. F. E. Clark and J. E. Spencer. The two former were re-elected, while Mr. Spencer is a new member.

Mrs. Oscar Comer honored her little daughter Frances with a party celebrating her fourth birthday Friday evening from 7 to 9 o'clock. The guests played numerous games on the lawn, after which they were ushered into the dining room where ice cream, cake and punch were served.

The Promotion day exercises at the First Presbyterian church Sunday morning were said by attendees to be one of the prettiest and best worked out of any seen in recent years.

Among those attending the Episcopal Guild meeting in Rising Star were Mesdames J. A. Frazier, A. Hamfield, C. D. Rohart, Charles McAuley, J. A. Bearman and E. E. Jones.

self-satisfaction... Making humanity better with little remuneration in silver or gold...

It is tragic to see the young men... soldier boys... standing on street corners or walking aimlessly about... nothing to do to utilize the natural energy given a young man who should at that age be getting entrenched in some kind of business... getting a little stake ahead on which to start a home of his own...

Time hangs heavily on his hands... His ambition to accomplish is temporarily inhibited... He does not look into the future... all he can see ahead is the year of training... or wondering what will come at the end of that year... But nothing definite toward which to work... He just has time on his hands...

He is drifting like a ship at sea without a rudder... tossed about by winds and waves... which in his case are the suggestions of companions or fleshly desire... It is no wonder that a staunch young man who would be repelled at the suggestion in normal life, succumbs to temptations of debauchery and even crime...

Every community owes it to its soldier boys to give them wholesome recreation until such time as Uncle Sam can get organized to keep them busy...

They would like the society of wholesome young ladies... of religious enrollment in church activities... But it's a vast job that the chaplain groups from various denominations are failing to handle... It's not being preached to that is most needed... Theoretically they are religious at heart... It's physical activity, rightly directed that they need... And church organizations put in operation over Texas to care for this very thing are failing miserably... It's no criticism... We are saying this in the best of feeling... But failing they are...

If you doubt it... watch them in Cisco any Saturday... watch them in Brownwood, Abilene and Mineral Wells... No wonder surrounding towns are voting dry... and... only making it worse...

They need wholesome activity and elevating influence... Churches might ask them to sing, join the choir, orchestra... join young people's gatherings...

Texas Labor Is Pledged Avoid War Strikes

EL PASO, June 25.—The State Federation of Labor has promised a no-strike policy on defense construction.

Legislature Ok's Half Million for Cancer Study

AUSTIN, June 25. — Another \$500,000 was added to the session's appropriations when the bill calling for \$500,000 cancer treatment and research at John Sealy hospital, part of the University of Texas medical school at Galveston, was passed finally by house concurrence in senate amendments.

Senate amendments had cut the measure from \$1,750,000 as first passed by the house under the leadership of Arthur Cato of Weatherford.

Dorsey Hardeman of San Angelo objected that \$500,000 was too little to do any good; that it would be used to lobby for a still larger grant next session.

The bill calls for \$130,000 for repairing the Sealy hospital and the remainder for treatment of indigent patients and for research.

master, with the statement:

"You may take back to your chief and to the government the word that Texas labor will continue its cooperation." McBride specifically promised a no-strike policy on army construction.

The state federation, in annual convention also received a communication from President William Green of the American Federation of Labor, urging full cooperation with the national defense program.

Dan W. Tracy, assistant secretary of labor, in answering criticism of the labor department, said the department is being administered "in fairness between workers and employers and between each group and the public as a whole so as to accomplish its purpose as defined by congress."

"We hear false charges, misrepresentations, deliberate and otherwise, coming from foes of labor, their dupes, or those who for political purposes or self-publicizing reasons snipe and snarl and second-guess, but we know them for what they are."

RAILWAY LABOR UNION DEMANDS WOULD COST 900 Million Dollars A YEAR

THE labor unions have made their demands upon the railways of the United States — and through the railways upon the PUBLIC. These demands are vastly larger in proportion than any they have ever made. The economical and efficient operation of the railways is vital to the nation's defense effort. Therefore, the Western Railways present to the public the following facts:

In addition, certain of these labor unions have demanded advances in their pay not included in the above figures, and more rules for the creation of unnecessary jobs.

The situation, then, is this: The total cost of complying with all the demands made would be approximately 900 million dollars a year!

The labor unions representing engineers, firemen, conductors, brakemen and switchmen are demanding a 30 per cent increase in wages, amounting to 190 million dollars a year — although their present rates of pay are the highest in history.

The average weekly earnings of railway employees are now 15 per cent higher than in the peak year 1929, while the cost of living is 12 per cent less.

The demands of the railway labor unions are being made when the entire nation has just been asked to make a supreme effort for National Defense.

Other unions representing a greater number of railway employees are demanding wage increases ranging as high as 95 per cent — averaging 47 per cent — and amounting to 580 million dollars a year — although their present rates of pay also are the highest in history.

The railways cannot meet these demands without a great increase in the cost of transportation. They exceed by more than 700 million dollars the income that the railways had left after paying their annual expenses, taxes and charges in 1940.

Thus the wage increases being demanded by the labor unions amount to 770 million dollars a year, an average increase in excess of 41 per cent.

The railways have a vitally important job before them. They need all their resources to continue adequately to serve you and contribute effectively toward the National Defense Program.

SOME FACTS Worth Knowing about the OVEN of 1911 GAS RANGE

Accurate HEAT Control

Gives positive automatic control of the complete range of cooking temperatures—250 to 500 degrees. High speed burner brings oven to desired cooking heat in a jiffy. No waiting—the oven is ready when you are.

Hand-packed INSULATION

Not only retains the heat in the oven, but also is an active aid in cutting fuel consumption to a minimum—no waste of heat. Makes possible a cooler kitchen and more comfortable working condition near range.

Uniform HEAT Distribution

Scientifically designed to eliminate hot spots or cold corners the gas oven gives a remarkably even distribution of heat so that whole meals can be cooked at one time. Slide out shelves have safety catch.

Less! MEAT Shrinkage

Meats cooked at low or moderate temperatures are more palatable and give greater food value. Low temperature gas oven cooking is also more economical, as excess shrinkage is eliminated and gas consumption conserved.

Automatic TIME Reminder

De-Luxe models have clock which can be set to signal when cooking is finished or one that will automatically start and stop cooking at predetermined time. Eliminates all pecking and watching to free one from the kitchen.

For a little down and a little each month you can own a modern gas range and enjoy many conveniences. See them at your gas company or dealer's store.
