55 TOOK PART IN MATTHEWS PICNIC REUNION

Mr. and Mrs. T. Matthews held a reunion at Lake Cisco, Sunday, in which 55 of their relatives participated.

All the living children were present with the exception of Mrs. Dick O'Brien of Stamford.

Several grandchildren also could not attend, among whom were Miss Esther Walker, who is in school in Sul Ross, Alpine, and Mrs. Lawrence Kelly, of Albany; Mrs. Clois Webb of Cisco; Weaver and Junior Nichols, of New Mexico; four sons-in-law, Rev. P. D. O'Brien, Stamford; J. L. King, Scranton; Mac Reed and John Nichols, Eastland.

The bountiful picnic lunch was spread on the tables under the trees in the park.

The reunion was held in honor of Jim Benson and family of Peoria, Ill., who are touring Texas and other states. The family had not seen Mr. Benson in about 20 years and they had a fine visit while rehearsing old times. Mr. Benson will be remembered as the adopted son of Mr. and Mrs. W. S. Benson.

Skating and swimming entertained the young members of the family, while the older ones stayed in the shade and conversed.

Mr. and Mrs. Jim Broomfield of Mineral Wells picked up two soldier boys enroute. The soldier boys were hiking to Cisco to view the wonderful hollow dam they had heard of so much. The boys were asked to share the picnic lunch, which invitation they graciously accepted. The boys are stationed at Camp Wolters.

Those attending were Mr. and Mrs. T. Matthews and daughters, Misses Della, Fay and Jane, of Cisco; Mrs. J. L. King and daughter, Edna King, of Scranton; Mr. and Mrs. Hugh Millington and son, Jerry Hugh of Colorado, Texas; Mr. and Mrs. Jim Benson and children, Ora Lee, Dixie James, Jr., and Albert, of Peoria, Ill.; Mr. and Mrs. Jim Broomfield and two daughters, Mineral Wells; Mr. and Mrs. Robert Walker and son, Bobby, of Cisco; Mr. and Mrs. Dave Fambrough and sons, T. D. and Owen, Breckenridge; Mrs. Mac Reed and children, Russell and Francis, Eastland; Mr. and Mrs. A. A. Herrington, of Colorado, Texas; Mrs. John Nichols and children, Tommie, Burl, Lester, Elizabeth Rose and Mary Emma, Eastland;

Mr. and Mrs. C. L. Webb and children, Lyndell, Jimmie and Merita Jane Webb, Cisco; Neva, Wayne and Billy King Webb, Cisco; and the two soldiers, Kendall L. Southard, Otego, N. Y., and Giles P. Bennett, Oneonta, N. Y.

CISCO NURSERY BOARD TO MEET THURSDAY, 10

The advisory board of the Cisco Nursery school will meet at the chamber of commerce rooms Thursday morning at 10 o'clock.

So far as known, only routine business is scheduled to come up, but it is requested that all members of the board be present if possible.

The membership is composed of Mrs. H. J. McArdle, Mrs. R. L. Ponder, Mrs. R. B. Carswell, Mrs. Edward Lee, Mrs. W. C. Hogue, Mrs. James Moore, Mrs. Sam Kim- mell, Mrs. Sutton Crofts, Mrs. B. E. Morehart, Mrs. Joe Clements, Mrs. Charles Sandler, Mrs. D. Ball, Mrs. Garland Nance, Mrs. Judson Prince and Messrs. Neil Lane, R. N. Cluck, Joe A. Clark, Charles J. Kleiner, Jess Proctor, Jack Anderson and D. G. Streater. Charles J. Kleiner is chairman of the board; Mrs. W. C. Hogue, vice chairman; Mrs. H. J. McArdle, secretary; D. G. Streater, treasurer.

DOCTORS MUST HAVE PERMITS SAYS MORROW

J. W. Morrow, district supervisor for the Texas liquor control board, warns that strict enforcement of the new drug store liquor law had been ordered in the Abilene district, which includes Eastland county.

Explaining a restraining order against the liquor control board no longer was in force, Morrow said no doctor would be permitted to prescribe liquor unless he had first obtained a permit, and no liquor could be sold except on prescription forms provided in the law.

Morrow said doctors must make proper requisition for prescription forms.

Mr. Morrow has just returned from Hernando, Miss., where he spent his vacation with his son.

STATES GET TOGETHER

AUSTIN, July 2.—Texas and Louisiana yesterday entered a reciprocal truck registration agreement.

Authorized by a recently-enacted Texas law, the agreement provided that trucks properly registered in either state might operate without registering in the other.

Gordon Lloyd of the Texas highway department said the same agreement was being sought with all the states.

ROY LANGSTON IN A REVIVAL AT ABILENE

ABILENE, July 2.—Rev. Roy A. Langston, who began his ministry at Blackwell and is now presiding elder of the Cisco district, and a resident of Cisco, preached the first sermons in a two-week revival at the First Methodist church Monday and Tuesday.

Mr. Langston is in the pulpit for morning and evening sermons. He is preaching on prayer and devotional life in the morning series, stressing daily Bible reading, the family altar, church attendance, personal work and personal faith.

"When we leave the Bible, there isn't anything else left to stand on," he declared.

Mr. Langston, who has held many revivals in his district, recently closed a two-week tent meeting at Sweetwater. He is chairman of the commission on evangelism of the south central jurisdiction of the united Methodist church.

TO REDUCE TRUCKING

GALVESTON, July 2.—Establishment of a rate of 21 per cent of the first class rate on burlap, jute, cotton and other bagging fabrics was proposed by the Texas-Oklahoma freight bureau yesterday. The proposal was based on the grounds that the railways must take this action as a necessity to recapture tonnage moving by trucks. The proposal brought favor and opposition.

ALL IS READY FOR BATHING REVUES JULY 3-4

Large crowds are expected at Lake Cisco the night of July 3, and all day July 4, with the largest crowd on the night of July 4, when Miss Cisco, who will have been chosen at the July 3 revue, competes with beauties from neighboring towns.

About 16 beautiful young girls have been entered to represent as many Cisco merchants in the revue for Thursday night. From that number out-of-town judges will pick "Miss Cisco." Both revues will be held at 9 p. m.

A luncheon will be given contestants at Laguna hotel, Friday afternoon. All beauties for both events will be guests.

Miss Melvina Heyser, daughter of Mr. and Mrs. J. V. Heyser, sponsors the bathing revue and aided the merchants in securing young ladies to represent them. The island at the lake will be decorated with palm fronds brought from South Texas, to represent a Hawaiian scene. Soft music and lights will create the illusive atmosphere that is to wait one to the Pacific Isles, where beauty and dreams are said to take away all the cares of life.

A big display of fireworks will climax the program on the evening of the Fourth.

Swimming, boating, fishing and picnicking will be features of the day's entertainment. The Borderland carnivals are already set up on the grounds.

Sponsors and beauties who will participate on July 3 are as follows:

- Altman's Style Shop—Lurlyne Blackburn.
- Dean Drug—Hortense Yeager.
- Drumwright, Inc.—Joanne Qualls.
- Leach Store—Rivers Greenhaw.
- The Man's Store—Freda Erwin.
- Cisco Daily Press—Eula Reams.
- Elite Beauty Shop—La Rue McMurry.
- Lake Cisco Amusement—Billie Ruth Aiken.
- Savoy Cafe—Helen Draganis.
- J. C. Penney Co.—Evelyn Swindell.
- Rockwell Bros.—Jewel White.
- Clark's Filling Station—Dorothy Louise Blackburn.
- H. T. Huffman, Welding—Helen Louise Kirkin.
- Cisco Gas Corp.—June Dennis.
- Laguna Hotel—Edna Hagemann.
- Katy Railroad—Norma Jean Jones.

This is 30 Percent More Than Railroads Collected Last Year in Freight Charges for Moving All Farm and Ranch Products in United States That Moved by Rail

Capt. Kenneth A. Quirk of South African Air Force stands beside plane in which he made during rescue of a brother officer down in enemy Libyan desert. Quirk landed, burned damaged aircraft and escaped with other officer in face of heavy axis fire. He got Distinguished Service Order.

WASHINGTON, July 2.—Big figures are so common in the news these days that sums running into millions, and even billions, of dollars no longer are startling. Many newspaper readers therefore may have missed the real import of announcement that the railway labor unions have made wage increase and other demands amounting, altogether, to approximately 900 million dollars a year increase in wage and payroll tax costs of the country's railways.

Translation of 900 million dollars into terms which may be readily comprehended should be helpful to more general understanding of the actual magnitude of these union demands.

How much is 900 million dollars?

More Than Roads Collect.

Well, it is above 30 per cent more than all the railroads collected last year in freight charges for transporting all the farm and ranch products in the United States that moved by rail. Railroad freight earnings on these products last year were \$682,461,637. They were slightly less than that in 1930, and slightly more than that in 1938. As a matter of fact, railroad freight earnings on agricultural products vary surprisingly little, from year to year.

What the railway union demands add up to, then, this: The increases asked amount, on an annual basis, to approximately 218 million dollars more than the yearly freight earnings of all the railroads from the transportation of all the country's products of agriculture, live stock and animal products. Included in these commodity classifications are all the wheat, corn and other grain moving by rail, all the cotton and apples and potatoes, all the citrus fruits and melons and other perishables moving from the west, south or elsewhere, and all the cattle, hogs, sheep and products of animals. The increases sought consequently amount to almost a third more than the yearly freight bill of the farmers on their products. These increases would be imposed on top of the present pay of railway employees, whose average weekly earnings now are 15 per cent higher than in 1929, and at the highest level in history.

Agricultural Producers.

Stating in this way how much 900 million dollars really is should be significant to all agricultural producers. It should be particularly so to those in Western territory. Western railroads last year derived 28 per cent of their total freight earnings from transportation of the products of farms and ranches. Adding 900 millions to the annual cost of furnishing railroad transportation inevitably would work back to the farmers, on whose production Western railroads depend for more than one-fourth of their freight earnings, in a way that would affect the farmer's earnings.

Farm income still falls short of parity with income in other industry. It is not 15 per cent above the 1929 level, as are the average weekly earnings of railway workers. Even a gross farm income as great as in 1929 would only produce average earnings, with no allowances for farm expenses, for the country's more than 6 million farmers about \$200 a year less than the average yearly earnings of railway workers.

Gross farm income last year, however, was over a billion and a half dollars below 1929. It will not reach the 1929 level this year. Railway employees consequently do not require wage increases of 41 per cent, or 30 per cent, or any other per cent, to put them on income parity with the farmers. The increases the unions are demanding would put railway employees on the average, something over 50 per cent above income parity with the farmer.

C. N. MARCHMAN PASSES AWAY AT AGE OF 94

Funeral services were held at the Neil Lane funeral chapel Tuesday afternoon for Cicero Newton Marchman, 94, pioneer citizen of Cisco, who passed away at the home of his daughter, Mrs. Effie Been, 202 West Thirteenth street, Sunday afternoon.

The services were conducted by Rev. Judson Prince, pastor of the First Baptist church, who was assisted by Rev. Dick O'Brien of Stamford.

Mrs. Marchman preceded her husband in death on Feb. 26, 1936. The immediate survivors are Mrs. Ida Massey, Mrs. Ruth Farmer, Mrs. Effie Been, Cisco; Mrs. J. T. Graves, Pleasant Hill; Mrs. Maud Mayo, Corpus Christi; Jim Marchman, Cisco, and Ed Marchman, formerly of Cisco, but whose present address is unknown. Besides the above named children there are 32 grandchildren, 64 great-grandchildren and a number of great-great-grandchildren.

Pallbearers were six of the grandsons of deceased—Melvin Travis, Clifford Marchman, Emmett and Cloyd Massey, Glenn and Henry Marchman.

Mr. Marchman was a retired farmer and one of the last veterans of the Confederate army in Eastland county.

He enlisted in the southern army in Cobb county, Ga., in 1863, and served until Lee's surrender at Appomattox.

He did service as guard at Andersonville, S. C., the southern prison camp erected as an offset to Island No. 10, federal prison.

Mr. Marchman, with Mrs. Marchman and seven children, came to Texas in June of 1886, and soon after located in the Cisco Country—the first year of the great drought that visited this section. Mr. Marchman and seven children, came to Texas in June of 1886, and soon after located in the Cisco Country—the first year of the great drought that visited this section. He was born in Georgia, Jan. 10, 1847, but often stated he was unable to tell whether his birth occurred in Troup or Merriweather county, as his parents' home was on the border of those counties, with the dividing line passing through the residence. After his retirement he made his home with a daughter, Mrs. Effie Been, at 202 West Thirteenth street.

BAPTISTS OF EASTSIDE IN GREAT RALLY

A pleasant and profitable day was spent Tuesday when the Workers Conference of the Cisco association met in an all-day meeting with the Eastside Baptist church as hosts. A splendid program was carried out and speakers from the various churches of the association were heard.

Among the out-of-town people who attended were Mmes. H. H. Hagaman, Catherine Wilson, Bonnie Wilson, Mrs. J. J. Mayes, Miss Joyce Curry, Mrs. Hyatt Lipscomb, Millie Glenn Lipscomb, H. M. Wilson, Dona Ann Weldon, Mary Ann Harris, Sue Dymard, Albany.

Mrs. Connett, Betty June Hick- ey, Mary Jo Jones, Philip O. McGahey, Mrs. A. M. Moon, Billie Jean Robinson, Lola Moon, Mrs. H. C. Peltrey, Mrs. C. E. Daugherty, Mrs. Burt Connor, C. E. Daugherty, Breckenridge.

Henry C. Bolinger, one of Cisco's
eldest and best known citizens,
passed away at the Graham sanitarium
at 7:40 Wednesday evening,
following an operation Monday
morning for gall stones. In the
passing of Henry Bolinger
Cisco loses a good citizen, an up-
right and honorable man, and his
family has lost a devoted husband
and loving parent. He was born
in Charleston, Ark., September
22, 1859, and came to Texas when
14 years of age, stopping in Ham-
ilton county. He was married to
Miss N. A. Thompson at Valley
 Mills, 59 years ago last July and
47 years ago they moved from
that place to Cisco, which has been
their home continuously since.

Miss Desda Stubblefield, daugh-
ter of Mr. and Mrs. H. S. Stubble-
field of Cisco, was married to
Gordon Griffith of Wichita Falls
in Brownwood Saturday evening,
June 9, Rev. Yenson officiating.
Miss Stubblefield is a graduate
of Cisco high school, class of 1923,
and has been teaching school the
past year. Mr. Griffith is an em-
ployee of the Texas Power and
Light company. Mr. and Mrs.
Griffith will make their home in
Midland.

no serious results are anticipated
in either case.

Of the 42 who received degrees
from the Texas Woman's college
at Fort Worth May 28, four were
Cisco high school graduates and
two former Cisco girls. The four
graduates were Misses Travis
Watson and Leila Latch of the class
of 1923, and Laura Fay Wilson
and Edith Turner of the class of
1924. Misses Stella Rucker of
Granger and Mary Bowman of
Fort Worth were the other former
Cisco girls who received degrees.

W. A. Erwin of Poshuska,
Okla., was in Cisco Tuesday en-
route to Sabana to visit his mother,
Mrs. M. E. Erwin, and brother,
J. S. Erwin. Mr. Erwin is the
father of the ill-fated Capt. Bill
Erwing, intrepid aviator who lost
his life while attempting to locate
the fliers lost in the disastrous
Easterling Honolulu flight last
August. The aged mother of Mr.
Erwin, past 85 years of age, has
been an invalid for several months
past. She makes her home with
her son, J. S. Erwin, in the Sabana
community.

presented at the district meeting
held in Eastland Tuesday evening
by G. P. Rainbolt, Leslie Garrett
and Walter Webb. This meeting
was for the purpose of outlining
plans of the West Texas firemen
at the state convention to be held
in Denton. The Cisco firemen
stated that little was accomplished
as only a few towns in the district
were represented. However, they
reported an enjoyable time, as a
real feast was served.

Records of the city hall show
that Cisco has received more rain
to date in 1928 than in any other
year heretofore with the exception
of 1919. The total rainfall for the
present year up to and including
Sunday night is 15.9 inches. The
records of rains of any conse-
quence here this year, by dates,

Plenty of Smoke

NARROW MARGIN
(Dallas News)

Late returns dribbling in slowly from more out-
lying boxes have apparently reversed the decision of
the early count in the Texas senatorial race and sent Gov.
W. Lee O'Daniel to Washington by the narrowest mar-
gin by which a Texas senator has ever been chosen. It
is the extremely close outcome that has served to re-
verse, too, the normal experience of the Texas Election
Bureau, giving an overnight shock to Lyndon Johnson,
who went to sleep in the senate and woke up in the
House of Representatives.

Throughout the history of the bureau, the efficient
vote compiling agency for the newspapers, the totals
recorded in the first 100,000 votes, if these were dis-
tributed over the state, have stood up proportionately
to the close in all important state races. In the present
instance this experience ratio has not held good for the
obvious reason that the consistent O'Daniel vote is non-
urban. What Jim Hogg used to refer to as the vote of
the boys from the forks of the creek had to be heard
from. It seems to have brought pappy and his biscuits
over without a liberal sprinkling of gravy, but with
enough to furnish a senatorial snack.

The outcome administers the Washington remote
control a heartily deserved rebuke. At the same time
the conflict is extended to 1942, as it is improbable that
O'Daniel will face re-election, if he seeks it, without
opposition, quite possibly the same opposition that he
has met this year.

That the substantial half of the vote cast went to
the two candidates, the Governor and Congressman
Lyndon Johnson, who exhausted every resource of ap-
peal to entertainment and plain human cupidity, is
not reassuring for the future of the contest.

It seems to indicate that the man who wins in 1942
must have the biggest bass drum and make the biggest
promises of dividing up other people's property.

EDSON'S WASHINGTON COLUMN

Squeeze on Little Business a Big Worry,
So Anti-Trust Troops Are Called Out

BY PETER EDSON
NEA Service Washington Correspondent

WASHINGTON—Certain sections of the government are beginning
to worry again about what's happening to the small business
man, and by small, they don't necessarily mean small. The units
they fear for are the independents, the manufacturers who aren't
directly tied up with some big chain or corpora-
tion, or who can't get a piece of the big corpora-
tion's business through sub-contracting.

At a conference of field officers of the Defense
Contract Service held in Washington the other day,
Peter R. Nehemkis, Jr., one of the OPM brass hats,
went so far as to say that 10 entire industries
whose supplies have been curtailed must either
close down or enter a new line of production. For
a time, as the wartime economy gains momentum,
small businesses will be hit to such an extent that
unemployment may actually go up and the number
of idle machines actually increase, he said.

Mr. Nehemkis has been picking up dead cats
ever since, for many of the dollar-a-year men in
the Office of Production Management don't think
things are going to be that bad, and they started
throwing things at the colleague who spoke out of
turn. Nehemkis did put the finger on the critical condition of com-
panies making aluminum products, for instance, or the companies
doing nickel and chrome plating. With their material supplies cut
off by defense work, they're up against it. Plants in the New York
City area have been particularly inconvenienced this way.

That is the predicament of the small businesses squeezed out by
priorities, but there is another angle that has attracted attention of
the Justice Department anti-trust division—the cases of small busi-
nesses squeezed out by monopolistic competition from big business.

ATTENTION has already been called to concentration of defense
orders placed with major manufacturing companies. In the rush to
get defense started, it was perhaps natural to turn to the com-
panies with the biggest plants. Also, if the major industrialists had
the best organization to get the business, it was natural for them to
get the orders. If, however, this combination of circumstances, plus
monopolistic practices, is used to freeze the independent manufac-
turer out of the defense effort, then the economic balance is thrown
out of gear.

Thurman W. Arnold, assistant attorney general in charge of the
anti-trust division, sees four dangers to the little man from such a
set-up.

First, the system of priorities control may be used to prevent the
small manufacturer from getting supplies.

Second, the small manufacturer may not be allowed to share in
the national defense production, to the detriment of both the little
man and defense.

Third, the independents may be caught by artificially fixed prices
and distribution costs as in the recent Rocky Mountain region lum-
ber and cement cases where little men not belonging to the ring and
following its policies could not get a foothold in business.

Fourth, the threats from big labor—a few of the unions which,
like big business combines, dictate the amount of labor, materials
and tools that the small businessman must use.

It is to protect little business from hardships like these that the
anti-trust division proposes to set up its new section. A program
of this kind has never been attempted before. Finding the right
man to head it, an economist with contacts among the independent
business men and the small businessmen's associations, is one of
the first problems. There will be no formula for operations, and no
speech-making about what all can be done, until the problems of
little business have been surveyed and studied.

CHILDREN OF WORKERS ARE COVERED, TOO

The federal old-age and system, when a worker ing a young child or monthly benefits are for his family if he is law terms "currently which means that the eds to have only 6 of coverage" under the quarters before his rding to W. O. King, of the Abilene office of Security Board. A coverage was explained ar quarter (three- od beginning January, or October) in which r was paid wages of re in covered employ-

1940, when he was 35 years old. He left a wife and three small children. John had not been able to get a steady job in his line as a machinist since this federal insurance system started on January 1, 1937. He didn't have any work during 1937 in employment covered by the law. In 1938 he worked only 2 months, September and October. He earned \$75 a month. In 1939, he had a job as machinist's helper for 5 months, February through June, earning \$100 a month. During the first 4 months of 1940, John worked in a garage at \$62.50 a month.

"When John died on October 1, 1940, his widow and children were entitled to benefits under old-age and survivors insurance. The record of his wages showed that in 6 of the 12 calendar quarters immediately preceding the quarter in which he died, he had been paid wages of \$50 or more in covered employment. That means he was "currently insured" and that as long as there is a child under age 18 his family is entitled to monthly insurance benefits."

About Our--

(From Page ONE)
100 per cent with both money and time
Past events have proven it more than once . . . Building the Laguna . . . Putting over the Christian college . . . putting over the Cisco Junior college . . . and many other things that have been brought forward for accomplishment . . . Ciscoans do not have much to give . . . there are few men of wealth here . . . but such as we have, we give freely if it is a matter for cooperative effort

Citizens of other towns have pointed to Cisco many times in the past as an example of "Oneness" when cooperation was needed . . . And they envy us that spirit . . . That is one reason we like Cisco and her businessmen . . . It makes our job with them pleasant, despite the daily grind that is necessarily a part of such work

And that cooperative response they give draws us closer to them each time we call on them . . . and they have never failed us . . . we have no fears they will ever do so . . . To use the modern expression . . . Ciscoans are the tops.

Double-Header Style

Sally Victor's smart tilt-front summer hat of white belting ribbon has a pleated brim which may be worn up with spectator sports dresses, or down, as shown above, with dressier daytime frocks. It was inspired by the cabinet of a new radio-phonograph.

NO P. T. FOR DISABLED VETS

AUSTIN, July 2.—The Texas house of representatives passed finally two bills to exempt from payment of the poll tax all veterans of foreign wars who have 40 per cent or more disability because of war service. The bill goes next to the governor. Persons past 60 years old or who have reached 21 during the election year already are exempted from the tax.

OBEY THE ORDINANCE

Since Cisco has an ordinance prohibiting the discharge of fire-works in fire district, which literally means the business district, I herewith earnestly request that all citizens aid us in the enforcement of this ordinance on the Fourth of July.

Respectfully,
O. GUSTAFSON,
Fire Marshal City of Cisco.

ONLY IN THE GAS REFRIGERATOR DO YOU GET:

- 1. Permanent Silence!**
There's not a single moving part in the Gas Refrigerator Servel to make noise or cause vibration. A tiny gas flame does all the work.
- 2. Long Life!**
Your Gas Company guarantees to purchasers of 1941 Servel Gas Refrigerators to re-furnish without cost any defective burner, control, or refrigerating unit for a period of ten years from date of installation.
- 3. Constant Temperature!**
There's no starting and stopping with gas refrigeration. The refrigerating cycle is continuous except when defrosting. Therefore temperature is held at constant low level. DeLuxe models have 39% more ice capacity.
- 4. Low Operating Cost!**
Because of the low cost of natural gas service and the simplified method of gas refrigeration the Servel operates for as little as two to three cents per day.
- 5. Freedom From Repairs!**
Parts that do not move do not wear. Only the gas refrigerator operates without machinery so there are no parts to wear and need replacing.

STAMP NEWS

EIGHT airmail stamps have been issued by Switzerland to call attention to her scenic spots. Each stamp carries the picture of some place of beauty.

A Philatelists British Help Committee, to aid victims of Nazi blitz, has been organized in Canada, chiefly under the sponsorship of the Canadian Philatelic Society. One of the first activities will be an all-Dominion stamp auction to be conducted in Toronto, with mail bids accepted from distant points.

Use of 10-cent postal savings stamps instead of 2-cent postage stamps was unwittingly permitted by some New York postal clerks on letters which were canceled. Such items will be considered as freaks and will not be listed unless postal authorities rule that defense stamps may be used for postage.

The regular series of Canal Zone airmail stamps will be supplemented by a new 30-cent stamp which will go on sale July 15. Collectors desiring first-day covers should communicate with the postmaster at Balboa Heights, Canal Zone.

The inscription, "Greece-Conqueror," was over-printed on the 1940 Greek "National Youth" series to memorialize Greek occupation of Albania. This was done before the German invasion.

It took 20 hours and 10 minutes for an automobile to climb to the top of Mt. Washington 40 years ago. Today's record stands at a little more than 12 minutes.

Miss Mary Ledbetter

The \$50 first prize goes to Miss Mary Ledbetter, member of a pioneer family in Quanah, who submitted a bill dated "December, 1904". The bill was rendered to her father, J. Ledbetter. It is well preserved and was found among other papers of historic value. Miss Ledbetter is an amateur collector of antiques which include the painting and clock, pictured, now over 50 years old. Shown congratulating Miss Ledbetter on her winning entry is Earl Marley, WTU's district manager in Quanah. At right below is a photostatic copy of the 37-year-old bill.

Present-day Low Rates, Good Service, Tax Payments Earn Miss Ledbetter's Praise in Winning Letter

(The following letter accompanied Miss Ledbetter's "Old Bill" entry)

"Many wonderful improvements have been made since 1904. Then we had lights only, costing five dollars monthly in advance. We used about ten kilowatt-hours, a rate about ten times as high as today.

"The West Texas Utilities since has become one of the finest institutions any town can have. They give the best of service. They've lowered the rate until today electricity is a small item compared to other living costs.

"They're worthwhile, essential citizens and taxpayers—taxes helpful in operating our city government, schools, and in maintaining streets and highways and for their individual support of churches and every worthwhile civic undertaking."

To learn the value of modern-day, improved Electric Service, ask those who remember when electric lights first came into usage. Miss Ledbetter's home was the second in Quanah to be wired. She recalls that: "The plant was very small and when we had a thunder storm, the lights went out and we used our coal-oil lamp which was always kept handy for these occasions." Electric bulbs were of 16 candle-power size. The Ledbetter home had ceiling drops with two of these tiny bulbs to the room. The cost of \$5 monthly for lights alone compares to today's average cost of less than 10c a day in a majority of homes which also have stoves, sweepers, radios, refrigerators, and other time- and labor-saving appliances.

IF YOU THINK OF NEW TAX, WIRE CONGRESS

WASHINGTON, July 2.—The House ways and means committee voted tentatively late yesterday to recommend excise taxes on all spectacles, office and stove appliances, and optical instruments, other than eye glasses, to raise \$2,000,000 additional revenue to finance the defense program.

Representative Cooper of Tennessee and the committee have passed tentatively a 2 1/2 percent tax on non-operated devices that pay cash or tokens redeemable in cash or merchandise and a 5 1/2 percent tax on each machine vending merchandise, such as cigarette machines.

The committee had an estimate of the amount these taxes would produce, Cooper said.

A 10 percent manufacturer's excise tax was approved for optical instruments other than eyeglasses and was estimated to yield \$1,400,000.

A similar tax on office and stove appliances, such as adding and calculating machines and typewriters would produce an estimated \$1,600,000.

While airplanes, automobiles and automobiles were used in estimating more than 1,000 square miles in the north for timber, the tax was found hidden in a bush only a few miles from the scene of his escape.

Canadian authorities announced that other prisoners escaped with him.
