About Our Friends

By STEPHEN A. LONG

Boy Scouts, like the mountaineers, always get their man in this case... they get their man... The windows of the world of commerce are littered with aluminum... Bank today as Boy Scouts in carry load after load of material needed to build airplanes for Uncle Sam and the nation... doesn't fall down on what it's either... there is something about the people of this little town... Now and then you wonder if maybe we haven't got our pep... we see men going up the street with little or no dress, doing little about it, coming to care less... You perhaps Cisco just needs new blood...

then let a drive like this... or one for funds for the same similar campaign... seem to tear into the air... the thing over while other... just beginning to plan for... that just brings us back... we have said so many things... Somebody to say "Go" and there we are... for any undertaking... suppose we do rather like people of this city... But everyone does who has lived very long... There is something about the place and people... one on to things...

today we ran across an individual who had formerly lived for only a short time... He is in the city on a little business... He remarked that he tried very much to live here... his business was so he made it his permanent home... the people... the general atmosphere...

W. J. LEACH, J. D. LAUDERDALE, IN CHARGE LOBO BAND FINANCES, REPORT ACTIVITIES SINCE 1934

No Mata Hari
From the Paris Sorbonne to a Spanish jail by way of an American volunteer ambulance corps covers the recent history of Josephine Winter, 25, of St. Louis, now home again. Suspected of espionage because she was "suspiciously pretty," Miss Winter spent 11 days behind bars in Figueras before she was permitted to book passage home.

Back in 1934—seven years ago—it was determined that the Cisco Lobo Band needed some one to give its business affairs special attention, so the city commission and the school board, acting in conjunction, named W. J. Leach and J. D. Lauderdale a special committee to manage the finances of the growing organization and to study its needs. Recently Mr. Leach resigned his place as chairman of this important committee and W. W. Fewell was appointed in his stead. Now, the committee feels it should give an accounting of its stewardship and asks that a statement be published in the Daily Press, so the public may know how the funds were expended. In the description of the assets of the band, the value is placed at \$3,710.37, with \$306.47 cash in bank, together with \$2.42 in the petty cash fund.

WILLKIE SAYS: BE BOLD, HELP THE PRESIDENT

SAN FRANCISCO, July 25.—Wendell Willkie called for a positive defense against the Nazi machine in an address at a mass meeting here Thursday. Advocating an aggressive campaign of aid to Germany's enemies, the 1940 Republican presidential nominee declared that "we must read our lesson in the fate of other free peoples who found themselves unprepared to meet and stop the amazing war machine created by Adolf Hitler." "Hitler has challenged our freedom," said Willkie. "In defending it, we can not wait in the corner for him to strike us. We must, on the contrary, size up our antagonist and our tactics and, at the proper times, we must step forth boldly and courageously to throw Hitler off his guard, to bewilder him... We must force him to take the count. "The defense of freedom must be a positive thing. We must not be afraid to act—and we must be prepared to act swiftly and suddenly. "We must not be afraid to give our President the necessary emergency powers which will enable him to act—swiftly and suddenly. And we must realize that, in order to prevent the Axis from waging war on us, in our hemisphere, and possibly some day on our soil, these swift moves of ours must be taken at remote distances from the American continent, in strategic spots whose importance is appreciated and understood by our army and navy."

U. S. WANTS FLYERS—ALL IT CAN GET

Sergeant Parham of Abilene was here today and called at the Daily Press office. The officer stated that examinations for young men who wish to enter the flying service of the United States government will be held in Abilene, August 6 to 7, at the Hilton hotel. Examination blanks may be obtained at the Cisco post office, filled out and presented to the examining board on the above dates, Sergeant Parham said. All necessary information will be furnished with the blanks.

CISCO PEOPLE BUY \$20,098 WAR BONDS

Cisco people have purchased since May 1, \$20,098.63 face value of defense bonds and stamps. Of this amount the First National bank reports the sale of \$13,425 defense bonds, the post office bond sales were \$6,299.90, plus \$373.75 stamp sales, making the total sales at the post office \$6,673.65, according to L. H. McCrea, postmaster. The post office bond sales by months were: May—Bonds, \$2,662.50, stamps, \$121.30; June—Bonds, \$1,743, stamps, \$137.10; July—Bonds, \$1,893.75, stamps, \$115.25.

Mrs. Ellen Turner and niece, Mrs. Everett Duncan of Roscoe, are visiting Mr. and Mrs. Robert Griffin in Aquila.

DEFENSE BOND QUIZ

Q. I cannot find the word "Defense" anywhere on the Defense Savings Stamps I have bought. Are they merely Postal Savings Stamps, or does my money invested in these Stamps go into the Defense Program?
A. The money you use to purchase these Stamps goes definitely into the Defense Program. The Stamps bear the words "America on Guard," which indicates that they are an integral part of the Defense Program.
Q. Are Defense Savings Stamps registered, and are they transferable?
A. Defense Savings Stamps are not registered but they are transferable.
NOTE—To buy Defense Bonds and Stamps, go to the nearest post office or bank, or write to the Treasurer of the United States, Washington, D. C., for an order form.

G. R. JORDAN, NATIVE TEXAN, TODAY UNANIMOUSLY CHOSEN HEAD OF INTERNATIONAL LIONS

Red Square and the bones of Lenin are among the charges of Maj.-Gen. V. A. Reviakin, commandant of Soviet army's Moscow garrison, whose task is that of protecting the Russian capital.

NEW ORLEANS, July 25.—George R. Jordan of Dallas was unanimously elected president of the International Association of Lions clubs at its 25th annual convention here today. He succeeds retiring President Karl M. Sorrick of Jackson, Mich. According to the report made by Melvin Jones, founder and secretary general of the association, the convention in New Orleans today concluded one of the most successful years in the history of Lions International. He reported the establishment of 453 new Lions clubs and the addition of 9,680 members for the fiscal year beginning July 1, 1940, and ending June 30, 1941, which raised the total number of clubs to 4,082, and the membership to 147,407. In accepting the presidency, Jordan said that 4,082 well-organized and functioning clubs in eight countries, comprising 147,407 representative business men and professional men, would meet with precision and a definitely outlined course, their responsibilities as good citizens and Lions during the year ahead. He stated that these Lions accept with optimism the challenge for leadership in their respective cities and communities during these perilous times. In outlining the policy of the Lions association, Jordan said that it would be to continue its expansion program, stress the Objects of Lionism, which are to promote the theory and the practice of the principles of good citizenship, and to take an active interest in the civic, commercial, social and moral welfare of each community, courageously facing the future, knowing that inevitably peace, liberty and justice will prevail. The vice president of the International Travelers Assurance company. He is a member of the Dallas Lions club, past potentate of his Shrine Temple, director of the Texas Scottish Rite Hospital for Crippled Children and a member of the Dallas Country club. Jordan was born in Kemp, Texas, and received his public school education and college training in his home state. He is married and has two sons. One of his chief interests is his farm, where he grows cotton and corn. Jordan's first official appearance before Lions International was as chairman of the resolutions committee at the International convention in Los Angeles in 1932. Since, he has served a number of times as sergeant-at-arms at International conventions. During the 1933-34 fiscal year, Jordan served as district governor of the Lions district 2-X, Texas, previously having served as deputy district governor. He joined the Lions association first as a charter member of the Forney, Texas, Lions club in 1925, being elevated to the presidency of that club in 1929. He transferred to the Dallas club in 1933.

Mrs. Addie Duncan, 61 years of age, died yesterday at the home of her daughter, Mrs. J. C. Johnson, in Albany. She had been ill for about a year. Funeral services were held at the First Baptist church here this afternoon, with Rev. Judson Prince in charge, interment following in Oakwood cemetery. The body was prepared by the Castleberry Funeral Home of Albany. Mrs. Duncan was born in Cameron county, June 20, 1880. After the early death of her parents she came to Eastland county and made her home with relatives near Eastland. She was married to O. D. Horn in 1896. To this union four children were born, who survive her. They are Mrs. S. B. Parks, Cisco, Oscar Horn, Los Angeles; Mrs. J. C. Johnson, Albany; Mrs. C. W. Graves, Cross Plains. Seven grandchildren and two great-grandchildren also survive. Deceased was later married to Jack Duncan, in 1923. He died in 1936.

NAZI EFFORT TO ADVANCE IS FUTILE

The Russian lines are holding firmly against all breakthrough attempts to reach Leningrad, Kiev and Moscow. (United Press)

The Tokyo press is beating the war drums against Thailand. German-controlled Paris press called for "European powers" to protect the Dakar area against American aggression. Anthony Eden told the British house of commons that Britain is fortifying Malaya-Singapore against a Japanese threat via Indo-China.

RETIREMENT OF COLDWELL BOOSTS HALL

The retirement of W. F. Coldwell, veteran postal clerk at the Cisco postoffice, created a vacancy that has been filled by the elevation of J. D. Hall from carrier to clerk. Harry Donica, substitute carrier, has taken over Mr. Hall's route. These changes were made as of July 1, Postmaster L. H. McCrea states.

WELFARE BOARD MEETS

The executive board of the Cisco Welfare association will meet Tuesday morning at 9:30 in the Cisco chamber of commerce. All members are requested to be present.

U. S. AWAKES TO FULL PERIL FACING NATION

Ungrateful guest at Nazi surprise party for British in Crete was Lincoln MacVeagh, U. S. minister to Greece, who said on his return that the tiny island's defenders were totally unprepared for totalitarian invasion.

WASHINGTON, July 25.—The United States, Great Britain and Australia will take joint action against Japan. Exact course of procedure has not been disclosed, but President Roosevelt indicated today that this country will take the initiative tomorrow. The first counter-move against the Japs is expected to be economic -- the United States freezing Japanese credits. Coupled with today's discussion of retaliatory action was a statement that "Tokyo's latest aggression is awakening America to a full realization of the peril of the international situation."

WHEELER HAS "GONE TOO FAR"—F.D.R.

HYDE PARK, July 25.—President Roosevelt asserts that Senator Burton K. Wheeler has gone "too far" in his fight against the national administration's policies and is on "dangerous ground."

HOME-COMING AT DAN HORN A FINE EVENT

The annual homecoming of the Dan Horn community was celebrated last Sunday, when about 300 residents and former residents gathered at the Mitchell church and thoroughly enjoyed themselves throughout the day and evening. A wonderful dinner was served under the arbor adjoining the church and if anybody left the scene with an unsatisfied appetite, that person has yet to be found. Among the former residents present were Mr. and Mrs. James Taylor of E. Eighth street, Cisco. Mrs. Taylor contacted many friends of other days, among them Mrs. Jim Douglas and Mrs. Frank Sawyer of Lubbock, who were reared in the Dan Horn area. Will Lasater and family of Colorado City and Mr. and Mrs. Katanough of Gorman were also present. The nearby shut-ins were not forgotten, Mrs. Taylor says, as special dinners were prepared and sent to those unable to be present because of physical inability. Among those thus remembered were J. D. Speegle and Mrs. J. W. Denison, both about 90 years of age; Aunt Betty Alvey, 94, and her son, John Alvey. However, after the special plates were dispatched to the Alveys, they appeared in person. When asked why they did not wait at home, Mrs. Alvey replied, "We thought we might meet some old friends whom we may never see again, and we didn't want to miss them." It was an altogether satisfactory event and will be repeated again next year.

FREAK WILDCAT WELLS

Mitchell county wildcat test, six miles west of Colorado City, encountered an increase in air at 1,000 feet in red sand, and is blowing an estimated 150,000 cubic feet of air per day. The test blew dry air for the first few hours, then started making salt water along with the air. The deluge of salt water and sand is ruining fine crops adjacent to the well, said W. J. Armstrong, of Cisco, who has returned from a visit in West Texas.

WORK STARTS ON FOUR NEW ARMY UNITS

FORT SAM HOUSTON, July 25.—Construction will begin immediately on four new army projects in Texas and Oklahoma which together will cost over \$12,000,000 it was announced by the Zone constructing quartermaster at Fort Sam Houston today. The American Construction company of Houston has been awarded an \$888,690 contract for construction of motor repair facilities at the Normoyle quartermaster depot, San Antonio. There will be 36 cantonment type buildings to provide for nearly 1,000 men assigned to the Normoyle Motor Repair shop. Besides barracks, mess halls, administration buildings, storehouses and shop buildings, there will be a theater and several recreation buildings. At Fort Sam Houston a contract has been negotiated with the McKenzie Construction company, San Antonio, for additions to the quartermaster depot costing \$872,000. Some 272,000 square feet of additional storage space will be provided for the San Antonio general depot, where 10 warehouses with 1,044,000 square feet are already nearing completion. The W. R. Grimshaw company of Tulsa has started work at Fort Sill, Okla., on maintenance shops, warehouses and necessary utilities for the third echelon motor repair equipment. They will cost about one million dollars. An ammunition storage depot with administration and utilities area and the necessary roads, railroads and utilities is to be built near Texarkana, Texas, by Brown & Root, Inc., Houston general contractor. Gies-Laroché-Delich-Chappell of Dallas are the architect-engineers. The constructing quartermaster is Major Sidney Grunckel, formerly assistant constructing quartermaster at Fort Bliss. Construction will begin at once. The cost is estimated at \$9,411,000.

OTHER EDITORS

Cordwood or Cattle (Cross Plains Review)

Long before the present generation of newspapermen had graduated from kindergarten a wise, old editor was characterizing the doings of Shackelford county up at Albany. Part 89 but still going strong, Colonel Dick McCarty's column is yet a feature of the weekly paper he began 54 years ago.

Colonel Dick's style is characteristic of the old West. His writings, usually editorialized, vibrate with enthusiasm and possess the adventurous tone of thundering hooves across a moon-lit prairie. For example note the following excerpt from his column last week:

"If something is not done, Albany is going to be a cord wood town instead of a cow town. They will come to town with a load of wood and sit around all day. That will be about the end of it. F. W. Alexander of Diamond Ranch says the mesquite tree can be killed for \$1.50 to \$2.00 per acre. Go out and look for ranch over it was once heavily timbered and now the trees have been killed. Why can't we have some kind of concerted effort in ridding our pastures of the mesquite trees. If the mesquite tree is not killed we will relapse into a cord wood and fence post town. Goodbye white faced cattle."

Time Changes (Star-Telegram)

Governor O'Daniel's end-of-the-session vetoes, filed Wednesday, includes one which is a notable rebuke to a previous Legislature and a previous governor. Disapproving the so-called optometry bill, Mr. O'Daniel said: "I consider honest advertising to be one of our great democratic rights, guaranteed by the constitutions of the state and the United States of America, and no legislation should be enacted which will attempt to take away these rights of free speech and free press."

The vetoed bill was in most respects entirely similar to that enacted in June, 1937, by the Forty-fifth Legislature, regulating the practice of dentistry.

The considerations of free speech and free press which brought Governor O'Daniel's veto did not avail to prevent the earlier lawmakers' going on the statute books.

LITTLE BOY BLUE

The little toy dog is covered with dust. But sturdy and staunch he stands. And the little toy soldier is red with rust. And his musket molds in his hands. Time was when the little toy dog was new. And the soldier was passing fair. And that was the time when our Little Boy Blue Kissed them and put them there. "Now don't you go till I come," he said. "And don't you make any noise!" So, toddling off to his trundle-bed. He dreamt of the pretty toys. And, as he was dreaming, an angel song Awakened our Little Boy Blue— Oh! the years are many, the years are long. But the little toy friends are true!

Ay, faithful to Little Boy Blue they stand. Each in the same old place, Awaiting the touch of a little hand. The smile of a little face: And they wonder, as waiting the long years through. In the dust of that little chair, What has become of our Little Boy Blue. Since he kissed them and put them there. —EUGENE FIELD.

Candle clocks, which burned from one mark to the next in a certain period of time, were used in early England.

Do You Remember?

(From Files of Cisco Daily News, December, 1925)

Does God Answer Prayer?

To Cisco Daily News:

Last April found our state with a large section of more than 60 counties in the grip of the drought. The prospect was one of gloom. Grain crops dead, no moisture to bring up corn or cotton, no water—anything but an encouraging perspective. The last of April a light rain fell, but put out no water, as it was all soaked up by the parched earth, but just enough to plant seed. A day came, when C. H. Grist was "mayor of Cisco for a day" who, at the request of members of five different churches, issued a proclamation requesting all ministers at the coming Sunday services to offer thanks to God for the rain, and to pray for the continuation of His blessings, material and spiritual, on Cisco and the country surrounding. What has occurred? A fine feed crop in the county, 22,000 bales of cotton worth \$2,225,000; an enormous increase in the oil production, adding millions to the wealth of the people. Do you say that the proclamation and observance had nothing to do with it? No one can prove that it did, neither can anyone prove that it did not. But let your observation drift south and southwest to what has been known as the "garden spot" of Texas where no proclamation was issued in behalf of the desolation caused by lack of rain. If Cisco will accept this as God's hand and worship Him from whom cometh "every good gift," then the spiritual growth will prosper with our material blessings; but if not, she will have to learn by the dear school of experience in the future. Let us be wise and embrace the present, and ask God, in Jesus name, to make our city a place known far and wide as the home of God-fearing people. Read Jeremiah 14:22; Acts 14:15-16; Psalms 67:56.

There were 18 members present at a very interesting meeting of the Eastland Medical Society which convened in Ranger Thursday afternoon, at the Gholson hotel. The annual election of officers occurs at the December meeting, though the officers are nominated at the October meeting. All were elected by acclamation, and were as follows: Dr. Charles Hale, Cisco, president; Dr. J. B. Stackdale, Ranger, vice president; Dr. E. L. Graham, Cisco, re-elected secretary; Dr. Joseph W. Gregory, Cisco, elected a member of the board of censors. The next meeting of the society will convene at Eastland the third Tuesday in February.

The Boy Scout movement was given new impetus when a number of gentlemen interested in the boys met at the chamber of commerce Monday night and decided to sponsor the Boy Scout troop here, and put it over on a bigger, better and more definite scale than heretofore attempted. At intervals in the past there has been some intermittent interest manifested, but like other growing concerns for the lack of nourishment, the interest lagged until finally the troop was allowed to disintegrate. But it was the firm conviction and determination of those attending the meeting that nothing short of a large and well-equipped troop would be satisfactory. Steps were taken for a permanent organization of the troop with the election of Bob Herrin, scoutmaster, and Chas. G. Gray, Oscar Clift and T. C. Williams as the advisory committee. Among those present at the meeting were Mayor J. M. Williamson, Bob Herrin, Oscar Clift, F. P. Campbell, Forrest Wright, F. W. Campbell, Roy Arnold, Chas. G. Gray, T. C. Williams, Ernest Lennon and Rev. S. J. Rucker, pastor of the First Methodist church, and Rev. Thos. Lenox, pastor of the First Christian church.

The Cisco chamber of commerce loving cup, awarded for the first time to R. L. Poe for the best poultry display, all varieties, in the Bankhead Poultry show held in Cisco Nov. 9 to 11, was received Saturday morning by Secretary J. Peters and delivered to Mr. Poe. The cup is a handsome specimen of the silversmith's art, stands 21 1/2 inches from bottom of base to tip. The cup proper is 15 1/2 inches tall. On the front side is engraved "Cisco Chamber of Commerce, Bankhead Poultry Show, for Best Display of Poultry, all varieties." On the reverse side is engraved "1925, R. L. Poe, White Leghorns." Winning this cup three times makes its possession permanent. This cup and the one Mr. Poe won at the De Leon show were exhibited Saturday at the Rising Star

poultry show. The De Leon cup is 12 inches high. Misses Ruth Williamson and Simon Truelove of Amarillo, who have been visiting in the home of Mr. and Mrs. J. M. Williamson, will depart for Amarillo this morning. Miss Helen Williamson and Chapman Williamson will convey them as far as Fort Worth by auto. Dr. K. J. Scott had a birthday Saturday. This fact was remembered by Liggett & Meyers Tobacco Co., who sent the doctor a neat carton of Fatima cigarettes. On two other occasions Cisco people received similar remembrances from this company when A. B. O'Flaherty and Dr. W. P. Lee were remembered on their birthdays. Mr. and Mrs. W. T. Hittson, Mr. and Mrs. R. Q. Lee, Mrs. J. J. Butts, Mrs. L. A. White and Rev. A. C. Miller have returned from the Baptist convention at Mineral Wells, where more than 10,000 Baptists gathered and participated in the deliberations. Mrs. Hittson had the misfortune to fall on the walk while attending the convention and sprained her wrist. Saturday she was improving nicely, and is expected to be well in a few days. In his report to the city board of health for November, Dr. J. W. Gregory, city health officer, says the sanitary conditions of Cisco are in splendid shape. Following is the report: "I have made 42 inspections in the residence and business districts during the past month. These inspections revealed a splendid state of sanitary conditions. Not more than six complaints were filed with my office during the past month. I have examined 56 persons working in the various food establishments in the city for health certificates during November."

FCC Grabs Newspaper-Radio Hot Potato In Inquiry to Determine Who Runs Whom

BY PETER EDSON, NEA Service Washington Correspondent

WASHINGTON.—The seven-man Federal Communications Commission, boomed by anti-monopolist James Lawrence Fly, has shown an electrifying penchant this year for sticking its collective hand into transformers labeled "dangerous" and will do a standing broad jump into another coil or live wires.

July 23 it opens hearings to determine the extent to which newspapers will be permitted to own or control radio stations licensed to operate under the new FM—frequency modulation—system of broadcasting and reception which largely eliminates static, fading and some of the other nuisances of the standard methods now in general use.

FCC has just completed a survey of newspaper participation in broadcasting. The results won't be announced until the hearings get going, but to get its data, the commission sent big long questionnaires to the nearly 900 radio broadcasting stations now licensed. Instead of asking newspapers how they were tied up with, and how they handled radio and radio news, the radio stations were asked how they were handled by the newspapers.

In brief, what the radio stations were asked specifically, was: 1—List of all the local and out-of-town newspapers in the radio area. 2—Whether newspapers charged radio stations for printing programs. 3—Relations between newspaper advertising and radio advertising departments, including information on rates charged one medium by the other for space or time. 4—Relations between newspaper and radio publicity and promotional activities, and how these are paid for. 5—Full information on news broadcasts used by the radio stations. 6—Station methods of obtaining local news. 7—How news broadcasts are edited and sponsored. 8—Name of every person working for the radio station who is in any way connected with a newspaper, and what his duties are. 9—Business connections between radio station and newspaper. 10—Degree of consultation between radio station and newspaper managements on matters of policy.

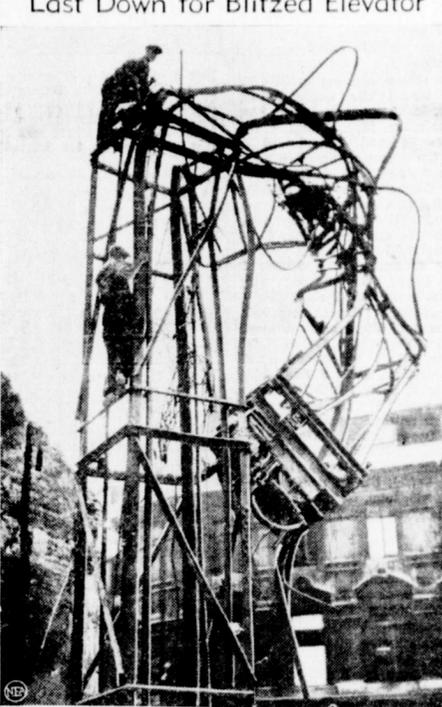

The broad nature of this inquiry and the detail of the information requested, down to the names of individual employees mixed up in both radio and newspaper, give the tipoff to what the FCC is looking for. What it apparently fears is that your favorite newspaper or any other newspaper will get some kind of nefarious control over all the methods of news dissemination in the community, and thereby work against the public interest.

BEER ELECTION

Callahan county will hold a county-wide election next Thursday to determine the fate of 4 percent beer. Interest is said to be keen and at least 1,700 votes are predicted. Baird and Putnam are the only two wet spots in the county at present. Since the bond-drug communities will take a hand in deciding whether Baird and Putnam do or do not sell the beverage, there is said to be little doubt as to the result.

A sewing period was then held with members busily engaged in various kinds of needlework.

M. P. Farnsworth Complimented by Mother-in-Law

Honoree at a surprise birthday party Thursday—a compliment of his mother-in-law, Mrs. R. M. Bates—was M. P. Farnsworth, who was 39 years of age on that date.

After being called to the Bates hotel on what was apparently a business call, Farnsworth was agreeably surprised to find other members of the family seated at a table loaded with good things to eat, the centerpiece being a large cake bearing 39 lighted candles.

Those present were Mr. and Mrs. R. M. Bates, Mr. and Mrs. M. P. Farnsworth and children, Junior James, Donald Ray and Franklin Delano Farnsworth, and Misses Ruth and LaVerne Tumlinson, nieces.

DELINQUENT CAR OWNERS MAY BE SUED

In addition to passing the resolution adopting the recently enacted law providing for the remission of penalty and interest on taxes due the city of Cisco if paid before October 1, 1941, the city commission Tuesday night discussed at length its future plans for the collection of delinquent taxes.

It was unanimously agreed that additional suits would be filed against all owners of automobiles who had been previously notified and who had not paid their taxes.

and, although regret was expressed that some citizens had had to pay additional court costs which, in most instances, exceeded the amount of taxes, it was stated that this was a just obligation and the commission would be derelict in its duties and unfair to the hundreds of citizens who had paid their automobile and other taxes if they did not immediately collect all automobile taxes.

The tax committee was expressed by given authority to employ temporarily a deputy collector, if it desired to do so, to seize without suit, if the automobile owner refused to surrender the car, as the law provides can be done, and thus save court costs.

The opinion was expressed that since two or more notices had been given to delinquent car owners this would be an unnecessary expense to the city and the tax committee has not determined whether the special collector will be employed.

committee immediately go over the list of delinquents owing taxes on real property and that suits be instituted without further delay against all delinquents who can at this time pay without hardship and that no further notice be given to delinquents who have not either made a partial payment or arrangements for the payment of taxes.

It was stated that numerous taxpayers who had paid their taxes from year to year before the taxes became delinquent or who had paid during the past year when the officials had commenced extra efforts to collect taxes, were complaining because of the fact that more collections have not been enforced.

The tax committee stated it was its present plan to sue every delinquent car owner who was still a resident of Cisco and who still owned an automobile or who had other property that could be subjected to the satisfaction of the taxes.
