W. LEE EXPECTS TO INTRODUCE STRIKE AND ANTI-VIOLENCE BILL AS SOON AS TAKES SENATE SEAT

AUSTIN, Aug. 1.—Governor O'Daniel, who next week will become junior United States senator from Texas, fully intends to introduce in congress an anti-violence bill practically identical to that passed by the Forty-seventh legislature, he announced Thursday. The measure provides prison terms or heavy fines or both for violence or threatened violence to carry out a strike, a bill that organized labor heads here opposed but which passed with comfortable majorities in both houses. Senator Connally, senior Texas senator, in the meanwhile already has introduced an anti-violence bill, milder in its terms, but O'Daniel will lose no time in an effort to put his own bill before the senate. As to his proposed bill to put this country on a "cash and carry basis" through an anti-deficit bill, O'Daniel said he will have to wait until he reaches Washington to give serious study to conditions before he will know what may be accomplished in this respect.

WALT PRESTON SAYS PRESS IS LIKE A LETTER

The Daily Press has received a letter from Pvt. Walter V. Preston of the 58th Pursuit Squadron, Mitchell Field, New York, along with a poem he set in for publication. The poem, entitled, "Have You Written to Mother?" appears on another page of this issue of the Press.

Walter Preston is a former Cisco boy and a son of Mr. and Mrs. W. G. Preston of this city. His letter follows. Publisher Daily Press, Cisco, Texas.

BIG GASSER ALBANY AREA IS IMPORTANT

ALBANY, Aug. 1.—Rated as one of the most important discoveries for the Albany area in 15 years, the Strawn gas well, which gauged over six and a half million feet of wet gas, drilled by R. H. Roark on the J. H. and R. B. Elliott, will be used for gas-repressuring in shallow pools in the vicinity.

The well opens a big new area for the 2,348-foot pay in south central Shackelford county, and the operator has moved 1,320 feet for the Elliott No. 2A in center of southeast of southwest quarter section 9, Lumatic Asylum land, on the Elliott ranch. This test is slated to go to the Ellenberger line, which is found around 4,200 feet.

The well, rated as one of the best prospects for the Moran sand, which is from the lower Strawn sand, was on geology of Jones & Stansley, Albany geologists and operators who have a dozen or more pool discoveries to their credit in Shackelford, Jones and Throckmorton counties, and they are reported to have leaseholdings in vicinity of the new gasser.

The Elliott well has a spray of oil and distillate, and may make an oil well if drilled deeper, but operators count it of too great value to pass up. The Moran sand is noted in Shackelford county, having been reported to at Moran since 1914.

BLOODY FIGHT, BUT NAZIS ARE STILL STALLED

Berlin today reported a bloody engagement in the Smolensk sector, 235 miles from Moscow, but the Nazi war machine still appeared to be stalled.

In the Far East there were reports of Japanese efforts to ease the tension with the United States, but London is alarmed over a possible quick Nipponese move into Siam.

German reports claimed "favorable" developments on the Russian front, but told of persistent Soviet counter-attacks. President Roosevelt said today that the Russians had surprised German military experts by a "magnificent" stand.

POLICE DOG INJURES BOY AT PIONEER

CROSS PLAINS, Aug. 1.—Don Criswell, young son of Mr. and Mrs. A. A. Criswell, of Texon, who were guests in the home of the Murphy family at Pioneer, was badly injured Friday when attacked by a large German police dog.

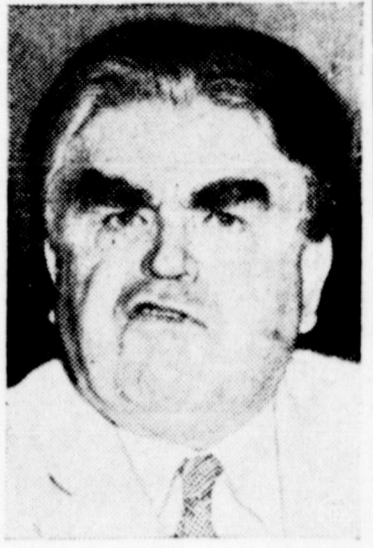

The lad suffered painful lacerations about the arms and face. However, he is expected to completely recover. He received medical attention in Cross Plains. The dog was killed by Joe Pierce, local deputy sheriff, and the animal's head sent to the Pasteur Institute in Austin. Reports received almost immediately revealed that the dog was not suffering with rabies, thus dismissing the fear of hydrophobia.

Deadening Trees, M. P. Farnsworth Cuts Foot

M. P. Farnsworth is able to walk today after sustaining what could have been a serious wound. He was being trees for Sam Kimball on his farm near Cisco Wednesday when the axe slipped, striking him on the instep and inflicting a wound about three-quarters of an inch long and possibly one-half inch deep.

He gave himself emergency treatment, after cleaning out the wound, by treating it with antiseptics and bandaging the injured part of the foot. The axe struck the top of his instep, but broke no bones.

35 ADDITIONS TO EAST CISCO BAPTIST CH.

The revival in progress at the E. Cisco Baptist church for the past 12 days came to an end Thursday night with a powerful closing sermon by Evangelist Graves Darby.

Rev. Russell Dennis, the pastor, considers the revival a highly successful one from several viewpoints. There were 35 additions to the membership and six rededications, and the interest at each and everyone of the gatherings was keen and inspiring.

COUNTY FARM DEBT BODY TO MEET TUESDAY

L. B. Norvell, Cisco member of the farm debt adjustment committee of Eastland county, calls attention to the meeting of the committee at Eastland next Tuesday. Other committee members are J. B. Eberhardt, Rising Star and W. D. Thurman of near Cisco.

Mr. Norvell calls attention to advice of George I. Lane, county FSA supervisor, that farm debt adjustment in mid-summer will prevent foreclosures next winter. Farmers who anticipate difficulties in adjusting their farm debts before the end of the year are invited to attend the meeting of the debt adjustment committee next Tuesday, Mr. Norvell said.

LONDON, Aug. 1.—The foreign office today announced that Finland had severed diplomatic relations with Great Britain.

RUSSIA TO GET AVIATION GAS FROM TEXAS

WASHINGTON, August 1.—Evidence that Petroleum Co-ordinator Ickes is bending every effort to provide outlets for Southwestern petroleum and petroleum products to replace those lost on the East Coast was seen Thursday in his announcement that aviation gasoline to be shipped to Russia will be sent from both the Gulf and Pacific coasts.

Although the shortest route to Russia would be from the Pacific coast ports, Ickes made it clear that a part of the supplies will be moved from the Gulf coast. Ickes announced plans to ship the gasoline to Russia in connection with a recommendation made today to OPM that a prioritizing be given for the manufacture of 10,000 steel drums to be used for the shipments.

He pointed out that the gasoline will be shipped in the drums on Russian merchantmen and will not affect the American tanker tonnage in any way. He indicated, however, that he would not agree to the transfer of two American tankers in service between the United States and Russia, as asked by the Russian government.

The passengers included 68 Chinese diplomats, 65 American government employes other than consuls, 29 American civilians and 14 foreigners.

TEXAS ROAD BUILDING IS MORE COSTLY

AUSTIN, Aug. 1.—Added to the highway commission's list of problems Thursday was that of trying to stretch the road building dollar. During a hearing granted county delegations seeking road improvements, Chairman Brady Gentry informed spokesmen that construction costs have been increasing steadily for a year.

He added that contracts for improvements were now costing more in all locations and particularly so in West Texas and the Panhandle. Gentry said the higher costs in the two areas probably was because contractors had ample work in other areas and did not care to move west for more.

TEXAS ROAD BUILDING IS MORE COSTLY

Gentry added the general increase was evident in bidding despite the fact that engineers considered higher costs in preparing estimates. Bids taken Wednesday on 17 projects exceeded estimated costs by 11 per cent, he told a Donley county group.

Former Cisco Was Here Today

Rufus Gilbreath of Muleshoe visited briefly with Cisco friends while on a business trip in this section today. He states that the grain and seed business, in which he is engaged, is doing well.

Mr. Gilbreath formerly lived here and is the son of a former Cisco merchant. The elder Mr. Gilbreath was engaged in the grocery business in Cisco in the early twenties, owning two stores in the city at that time.

BUILDING OF GAS PIPELINE TO BE RUSHED

NEW YORK, August 1. — The Plantation Pipe Line company announced Thursday night it would proceed immediately with construction of a 1,261-mile pipe line from Baton Rouge, La., to Greensboro, N. C., to deliver gasoline and other refined products to seven Southwestern states. Announcement of the plans followed signing in Washington by President Roosevelt of the Cole bill, granting the President the right of eminent domain to pipe lines designated as essential to national defense. Officials of the company, which is jointly owned by Standard Oil Company (Kentucky), Shell Union Oil Corporation and Standard Oil Company (New Jersey), said orders had been placed for 123,000 tons of steel pipe and that the engineering contracts had been let. An office for purchase of rights of way has been opened at Meridian, Miss., and additional offices will be opened soon, they said. The line can be completed, they said, within seven or eight months after materials have been received and right-of-way has been acquired. Originally planned for a delivery capacity of 33,000 barrels a day of refined petroleum products, the project has undergone upward revision to 60,000 barrels daily and by adding additional pumping stations the line can be increased to a maximum capacity of 90,000 barrels a day.

STORIES IN STAMPS

Fruit Growing Is Vital To U. S. Defense Effort LONDON reports cotton-packed peaches are selling for approximately \$1 each, showing what war does to prices, especially in a country not self-sustaining. United States has a surplus of foods—insurance against food shortages and ersatz diets. As early as 1913 U. S. postal authorities recognized philatelically the importance of fruit growing with the \$1 parcel post stamp above. Food is as vital to national defense as guns. The Army needs it to keep in fighting trim; civilians need it to maintain morale. Apples, oranges, lemons and grapefruit are plentiful in America. Their importance and value cannot be overlooked. U. S. annual apple crop averages 121,755 bushels. Oranges approximately 78,000,000 boxes, grapefruit 43,000,000 boxes and lemons 11,000,000 boxes.

SOCIETY and CLUBS

Sewing Club In Dunoway Home Wednesday

The Needle and Thread club met in regular meeting with Mrs. Elmer Dunoway Wednesday afternoon. The rooms where the guests were welcomed were attractively decorated with seasonal flowers. Mrs. R. D. Jones opened the meeting in the absence of the president, Mrs. E. C. McClelland. The minutes, read by Mrs. T. R. Prickett, were approved by the club and cards of appreciation from Mrs. S. B. Parks and a sick man were read. Roll call responses were current events. The remainder of the period was spent in sewing and needlework and at the conclusion the hostess served refreshments. Those present were Mmes. R. D. Jones, T. R. Prickett, J. Y. Culwell, Sim Ledford and J. A. Smith. The next meeting will be held in the home of Mrs. R. D. Jones.

"Harvesters" S. S. Class In Monthly Meet

The Harvesters class of the First Baptist Sunday school was entertained in the home of Mrs. M. W. Robbins July 28, with Mrs. Ray Judia assisting. Mrs. Leon McPherson, president of the class, took charge and presided during the transaction of business. After a splendid devotional by Mrs. H. N. Lyle, new officers were elected to serve during the next three months. Officers chosen were: President, Mrs. Ray Judia; first vice president, Mrs. T. E. House; second vice president, Mrs. Leon McPherson; third vice president, Mrs. Barton Philpott; fourth vice president, Mrs. H. N. Lyle; secretary, Mrs. W. C. Clements; treasurer, Mrs. Wm. Isenhower; historian, Mrs. M. W. Robbins. The class voted to send cards to several people and a report was made of the pot plant sent to a bereaved member. A social hour followed during which ice-cold watermelon was served to Mmes. Wm. Isenhower, W. C. Clements, H. N. Lyle, W. L. Phippen, Leon McPherson, Ray Judia and M. W. Robbins. Eleven Cts. Sliced From State Taxes

AUSTIN, Aug. 1.—The automatic tax board sliced \$3,630,000 from Texas' 1941 property tax bill by reducing the rate from 69 to 58 cents per \$100 valuation.

Specifically, the 11-cent reduction was ordered in the school fund rate—from 27 to 16 cents—because a cash balance in that fund will aid materially in meeting obligations.

Taxes for the current year are payable beginning Oct. 1 and become past due on Jan. 31, 1942.

RAIL WAGE MEET OPENS IN CHICAGO

CHICAGO, August 1.—Sharply conflicting views on the financial ability of the nation's railroads to pay increased wages marked the initial conference Thursday between rail management and labor negotiators on demands for a pay hike.

The carriers were portrayed alternately as financially burdened and rolling in wealth while each side produced figures which it claimed proved the point.

The day's negotiations centered on the demands of 14 non-operating brotherhoods for an increase of 30 cents an hour in all classifications and a minimum wage of 70 cents an hour.

George M. Harrison, president of the Railway Clerks Union, said the wage demands were based on three grounds:

- 1. Railroad wages were inadequate compared with those in other major industries.
2. Wages have lagged behind other comparable wages since 1920—railroad pay having increased 27 cents an hour as against more than 19 cents in other industries.

3. Railroad workers were entitled to participate in the general economic progress of the country.

F. C. Gurley, chairman of the carriers' executive committee, asserted that railroad statisticians had figured that it would cost the railroads \$900,000,000 a year to meet the wage demands of the rail unions. The five operating unions, representing 350,000 engineers, switchmen, conductors and similar employes, have demanded a 30 per cent boost in pay.

Gurley contended that American

Perez, Chilean Leader, Fought Revolt and War

JOSE JOAQUIN PEREZ, who rose from a diplomatic career in the presidency of Chile in 1861, weathered some severe storms during his 10-year tenure in office.

Despite opposition attempts to overthrow the government and a series of adverse events, Perez made a sincere effort to set the Chilean house in order. The government honored him philatelically in the 1911 stamp above.

Perez was born in 1800 in Santiago, Chile. He occupied several diplomatic posts, represented his government at both Paris and Buenos Aires.

He was minister of the treasury from 1845-49 and of the interior 1849-51.

On Sept. 18, 1861, he was elected president of Chile, was re-elected in 1866, and served until 1871. Under him, the moderate liberals began to take part in the government.

He endeavored to follow a policy of conciliation both with the Liberals and with the Atacameños, but the latter resented his colonization schemes and defied the government. Their leader, a French adventurer named De Tourenay, was arrested and the revolt smashed.

ONE BIG REASON

WE'RE GLAD TO BE IN THE NEWSPAPER BUSINESS - IN - CISCO

AN OPPORTUNITY

THERE ARE hundreds of reasons why we are proud to be newspaper men. But of all of them, nothing can match the pride we take in the young men who daily deliver our product to you. Almost unique is this business in that respect. Here created is a job that allows a young school age boy to earn his own way . . . to know early in life the thrill of providing for himself, to a degree, and to actually accomplish something worthwhile with his own brain and energy.

A BIG JOB

AND NO EASY job is this that these young men of tomorrow tackle. Yet they seem to thrive on it. As a rule, they are the athletes of their schools, the conscientious workers at their studies, the young men who are least delinquent in any phase of their lives. And, as a rule, these boys are the men to whom, in a few years, employers will be turning for workers who do the job and do it well. These boys are proud of their jobs. Some of them will go on in the newspaper business. Others will go into business and finance. Still others will become skilled technicians and laborers. Why are they the cream of the crop? Simply because they have learned early in life, as no other boys can, the important lesson that serving well they themselves profit well.
