CHURCHILL FLIES OCEAN TO SEE ROOSEVELT

About Our Friends

By STEP A. LONG

Editor Shirley of the Eastland Weekly Record and his brother-in-law, Rev. Ben Milam, pastor of the First Baptist church of Navasota, were visitors at the Cisco Daily Press office Monday. Rev. Milam was on a vacation to this section of the state.

Mr. and Mrs. Williams, publishers of the Eastland Record, are in the city. We trust that the Ben Tom will add to the happiness of that pleasant home.

It appears that Publisher Williams will have to go into a daily paper within a few years to furnish work for himself and wife, and those two boys and three girls.

Glenn Furniture company plans to do plenty of business during the fall months. Glenn's store is already well stocked, but his goods are being crowded in, and it seems a lot of selling must be done else the walls will be bursting out.

That's a big pile of aluminum recently received at the Palace Hotel and stacked up on the side of the chamber of commerce.

Manager Greer did his bit at the water by allowing a show ticket each piece of this precious metal now being gathered from the four corners of the United States, but not necessarily because it is rare, but because it is essentially war material and just now very valuable because warplanes are being made and warplanes are being used by those battling against the Nazis.

This metal is to be utilized at Abilene from 16 surrounding counties. They are shipped to designated smelters.

George Flournoy, chief of police at Stamford for the past 40 years, reported very ill in a Stamford hospital from the effects of a heart attack suffered Monday morning. This very efficient peace officer is a brother of James Flournoy of Cisco. Officer Flournoy visited in Cisco many times, and was special officer at Ranger during a short period of the oil boom days. He has many friends and acquaintances in Cisco and Eastland county.

Commissioners Charles J. Greer and A. V. Clark looking at the new office building owned by Mr. Kleiner and soon to be occupied by his accountants. Mr. Kleiner pronounces it quite satisfactory in every detail.

The arrangement is built for comfort and privacy when needed. It will be heated and cooled by special equipment to be installed. The floors are concrete. Windows in the building department allow acclivity without confusion to occupants and their work.

The private office of Mr. Kleiner immediately back of the accounting offices and may be entered from the hallway.

DEFICIT MOVED UP 10 MILLION UNDER W. LEE

AUSTIN, Aug. 5.—The state treasury formally advised Governor Benson when he moved into the governor's office that the deficit in the state's important general revenue fund was \$30,450,000.

It was the deepest deficit that had been in the red and covered with \$20,226,817 on Jan. 17, the day W. Lee O'Daniel was sworn in as governor of Texas.

INFLATION IS REAL DANGER; HARD TO STOP

(By United Press)

WASHINGTON, Aug. 5.—Price Administrator Leon Henderson told the house banking committee today that the United States "stands now on the brink of inflation."

He said prevention of inflation would require "tremendous effort."

CO. SCHOOL BOARD MEETS TOMORROW BABIES BORN TO EASTLAND CO. PARENTS

T. C. Williams, county school superintendent, announces a meeting of the county board of school trustees for tomorrow, at Mr. Williams' office in Eastland.

This will be the most important meeting of the board during the year, Mr. Williams stated.

The general purpose of the meeting is to classify the schools of the county, decide on transfers, discuss bus routes and drivers' contracts and work out transportation problems for students of the county.

DON PARKER REAPPOINTED CO. AUDITOR

B. W. Patterson, judge, following new cases awaiting hearing in the 88th court.

Sally Jo Adams vs. Ira Adams, divorce.

Ozelle Simmons vs. Marshall Simmons, divorce.

Judgments and Orders.

Tom Young et al vs. W. S. Adamson, administrator of the estate of Joe Young, deceased, et al.

R. N. Grisham intervenor, partition and trespass to try title judgment for intervenor for one-fourth of the real estate in litigation, and three-fourths for the other litigants as their interests appear.

Virginia Brooks vs. Thomas Taylor Brooks, divorce. Judgment for plaintiff annulling her marriage and giving her care and custody of minor child.

It was further ordered by the court that defendant pay to plaintiff \$10 per month for maintenance of said minor. Plaintiff waived payment of alimony for the minor's support unless this or some other court of competent jurisdiction decrees otherwise.

Auditor Appointed.

It was the joint order of Judge B. W. Patterson of the 88th court and Judge Geo. L. Davenport of the 91st court that Auditor Don D. Parker be appointed county auditor the ensuing two years, as the term of the present county auditor expires August 20. It was the further joint order of the judges that the compensation of the county auditor be fixed at an annual sum of \$3,000. This action was approved by the commissioners' court.

Born to Mr. and Mrs. F. C. Chesire, Cisco, July 5, a girl—Frances Kayloy.

Born to Mr. and Mrs. Vernon M. Howsley, Cisco, July 4, a boy—Gary Dale.

Born to Mr. and Mrs. Joesemmia Flores, Cisco, July 13, a girl—Dolores.

MORGENTHAU IS PLEASED

To the People of America:

Cash deposits at the Treasury from the sale of Defense Savings Bonds went over a billion dollars as of July 31, 1941. This is great and good news. I congratulate all those whose united cooperation has made it possible. I congratulate especially the multitude of patriotic Americans who have begun to invest their savings for their country's freedom.

The first billion has been raised in the American way, by cooperation rather than compulsion. I am confident that the second billion can be raised in the same democratic way, yet still more speedily.

I am especially glad to see that the sales of the Series E bonds, the "people's bonds," were 37 percent greater in July than in June. When it is remembered that nobody may buy more than \$5,000 worth of these bonds in any one year, it seems plain to me that the good habit of thrift is spreading fast among the American people.

Systematic savings plans are now in operation in hundreds of factories and offices from coast to coast, in every case with the willing approval of the workers themselves. Defense Savings Stamps are now being sold by more than 30,000 retail stores in addition to 16,000 post offices and 10,000 commercial and savings banks, and savings and loan associations, and we intend in the next few weeks to double and redouble the number of these outlets.

Just three months ago, when the President bought the first Defense Savings bond, he spoke of it as a "token of partnership" between the government and all the people. Today I had the honor of selling to the president the first of the new tax anticipation notes which will make it easier for taxpayers to carry their share of the cost of national defense. Both the tax notes and the Savings Bonds are tangible evidences of partnership and of participation by the citizens in the defense effort.

The results so far are a ringing proof that we Americans can unite in defense of our liberties. And we have only just begun.

HENRY MORGENTHAU,
Secretary of the Treasury.

CITY OFFICERS ALERT PM. GETS GO AHEAD WITH DESIGNATION OF CLEAN-UP WORK VALUE TO CISCO

"The work of ridding Cisco of weeds is not making the progress we had hoped for," said Edward Lee, city street commissioner, yet we are eliminating much of the rank vegetation that has marred the landscape. Some premises in Cisco show that our people have been busy in cleaning up their premises, but there is still lots that can be done.

"We have been considerably handicapped in some of the street work, especially ditching and drainage," he said. "The WPA forces have kept our street machines busy on their projects, and we are one year behind right now with this work."

"We expect to go to work on the school grounds next week, commencing on College Hill, where grading and terracing will get under way. We hope to have all the school grounds cleared and in tip-top shape by the time the fall sessions open."

Billy Brown, justice of the peace, stated that he had heeded the call and cleaned up his premises. "But I may not be due too much credit for my public spirit. Think Miss Ruby Love is more entitled to the credit, for her example inspired my efforts. I saw she was having her premises cleared off and suddenly decided mine needed attention."

Then there is O. Gustafson, fire and police officer. Gus says he is having some trouble getting parties to remove fire hazards. "However, my efforts have not been entirely negligible, for many have responded to my appeal to lessen the cause of fires by removing combustible material. There are some to whom I shall have to make a stronger plea—probably an official notice before I can induce them to act."

CONDITION IMPROVED

The condition of Mrs. Lane Gilmore, who has been dangerously ill in Graham sanitarium, is reported much improved. Besides her husband, Lane Gilmore, she has been attended by her parents, Mr. and Mrs. H. H. Hagaman, and her sisters, the Misses Hagaman of Albany.

SAM RUSSELL PRESIDED IN LOWER HOUSE

WASHINGTON, Aug. 5.—Congressman Sam Russell of the Seventeenth District of Texas was designated speaker of the house of representatives in this afternoon's session. The elected speaker may delegate this authority to another member of the house, and Congressman Russell was called to act as speaker shortly after the order of business progressed into the afternoon.

Although Congressman Russell is serving his first term in congress, he is recognized as one of the ablest members of the Texas delegation. From his record he has demonstrated his ability in the procedure of the house and has, on several occasions, appeared on the floor as a speaker in matters of important legislation. Ordinarily a congressman must serve his first term, which is referred to as his "freshman" term, before he is able to gain recognition in the law-making body.

Those familiar with Congressman Russell as a presiding judge in Texas district courts viewed with interest the ease and efficient manner in which he presided over the actions of congress while acting as speaker of the house.

BARBECUE TO BE FEATURE OF GOLF TOURNEY

A big barbecue to which all Cisconians are invited regardless of whether they play golf or not, will be the big feature of the Women's Oil Belt Invitation golf tournament Wednesday night at 7:30, at the Cisco Country club grounds. Tickets are \$1 each.

Mrs. Charles Sandler is president of the local organization, Mrs. Cecil Shaw, vice president and Mrs. W. W. Milner, secretary.

Sports Writer Melton of the Star Telegram is to cover the tournament. It has been announced. Many out-of-town players have signified their intentions of attendance and participation in this outstanding tournament.

Qualifying scores will begin at 9 a. m. Wednesday morning, while long-driving contests for first and second divisions will start at 4 p. m.

Play begins Thursday morning for first-round matches. At 3:30, approaching and putting out, with informal tea at 5 p. m.

President Sandler urges that Cisconians attend the barbecue and meet the many guests, extending the hospitality of the city to them.

FEAR OF GRASS FIRES CONCERN TO CATTLE MEN

Mr. and Mrs. B. J. Camp of the Dothan community were among the shoppers in Cisco Saturday. Mr. Camp found time to drop into the Daily Press office and enroll his name as a subscriber.

Mr. Camp is one of the substantial farmers and prominent citizens of the Dothan community and combines cattle and stock farming with his field crops.

"A good rain in the near future would be appreciated by the farmers generally, especially those who have cattle. The grass is fine, but it is getting dry and my neighbors and I are worrying some about probable fires. If some careless person should drop a match at the wrong place, no one can estimate the damage it would cause."

"Every smoker should see that there is no danger of starting a fire when he drops his cigaret stub or lighted match."

"With another rain there will be plenty of winter grass. I have lots of foot-high mesquite grass. This will make fine grazing this winter if we escape grass fires."

"I have a small bunch of cattle—about 25 head—but I am sorry that my herd is not larger, for I have lots of grass and I am supplementing this with winter feed. Broke a track of stubble just after the last rain and planted it in he-gira, which has come up in a splendid stand and another rain would produce a good crop."

President Sandler urges that Cisconians attend the barbecue and meet the many guests, extending the hospitality of the city to them.

TEN DEATHS RECORDED IN JULY REPORT

The following deaths were reported in the July vital statistics: Alexander Angus, Cisco, died July 11; aged 67 years, 3 months.

L. A. White, Cisco, died July 13; aged 64 years.

Mrs. Bettie Funderburk, Cisco, died July 21; aged 83 years, 3 months.

Robert Schlaepfer, Cisco, died July 29; aged 77 years, 6 months.

Charles Montgomery Rogers, Ranger, died July 14; aged 64 years, 4 months.

James Ruain McLaughlin, Ranger, died July 29; aged 29 years, 4 months.

Mackey Kim, infant of Mr. and Mrs. J. L. Kim, Ranger, died July 27; aged 19 hours.

James William Carmon, Rising Star, died July 19; aged 75 years, 4 months.

Sally Smallman, Rising Star, died July 26; aged 82 years, 7 months.

FDR CRUISING NE. COAST ON SECRET VISIT

(By United Press)

A cryptic statement in the house of commons today indicated Premier Winston Churchill may be flying to the United States to confer with President Roosevelt.

It is believed possible that Mr. Churchill is already on this side of the Atlantic.

President Roosevelt is now cruising off the northeast coast on a secret itinerary.

Major Clement Atlee, British Labor Party spokesman, stirred speculation when he said Mr. Churchill did not find it convenient to attend the house debate on conduct of the war.

Previously the London Daily Mail hinted a "high personage" was flying to the United States, possibly accompanied by Harry Hopkins.

Berlin said Nazi Panther units were cutting new pockets in the long Russian front, but Moscow indicated that the threat to Moscow is faltering.

London hinted Russia will shortly launch her first offensive of the war on the Karelian Isthmus.

SPECIAL SES. LEGISLATURE CRY OF MANY

(By United Press)

AUSTIN, Aug. 5.—Gov. Coke Stevenson announced this afternoon that he had evolved a compromise plan for solving the road-bond-fund surplus controversy and offers to discuss it with legislators.

Governor Stevenson said he was being besieged with communications asking him to call a special session of the legislature.

RAYBURN REVERSES HIS POSITION ON SELECTEE

WASHINGTON, Aug. 5.—Speaker Sam Rayburn of Texas today said he now favors retention of selectees in service longer than one year "on account" of world conditions as they exist and are developing.

Rayburn reversed his earlier position as the senate rejected the proposal that selectee's army service be limited to 18 months.

Still Very Ignorant (Dallas News)

America's national strength is not helped by such conditions as led one Texas county to report that "20 per cent of the deaths in this county in 1935 were hastened by lack of sufficient amount and balance of diets." This condition is not confined to Texas but applies, in varying degree, to every part of the country.

As M. L. Wilson observed recently, "Starvation can be hidden, subtle and slow, as well as desperate and dramatic." It hits not only the poor but many who can afford to buy the food they need.

Do You Remember?

(From Files of Cisco Daily (News, February, 1924)

An indication of Cisco's growth during the past year may be had by examining the improvements and extensions made by the West Texas Utilities company of Cisco. Over \$165,000 worth of improvements were made, \$150,000 going for the ice and power plant, \$10,000 going for the installing of a low-pressure gas service which gives better service to the public.

A crate of very fine blackberry plants received by the local chamber of commerce from the West Texas chamber of commerce have been distributed among citizens of Cisco and local farmers where they will be cared for with special attention.

Mr. and Mrs. J. J. Winston have returned from an extended visit in

Panama with their son, Capt. Barlow Winston.

It seems that the Mayhew Luse well No. 1, at the edge of Cisco, is determined to be a producer. Regardless of the fact that there is still 40 feet of the bridge yet in the hole from the shot given the well Sunday afternoon, the well made a nice natural flow Thursday.

Bob Mohler, who was convicted in this county last summer and given the death sentence for the brutal murder of Hugh Maples, mail carrier and service car driver, on August 10, 1922, filed an appeal in the Court of Criminal Appeals at Austin last Monday.

This conservative nation might learn something from the labor party in England. They are actually going to use public money to provide living quarters for the public but to pack them in a room, or put them out on the sidewalks, in big cities, seems to us eminently "respectable and democratic."

EDSON'S WASHINGTON COLUMN

C. I. O. Oils Up New Lobbying Machine Which Wins Victory in First Encounter With Congressmen

BY PETER EDSON, NEA Service Washington Correspondent

WASHINGTON—Chalk up for C. I. O. and its affiliated Labor's Non-Partisan League the nearest job of lobbying that Washington has seen in a long time.

The result of the lobby was the defeat in the House, 220-149, of the Connally-May amendments to the Selective Service bill, which in brief would have authorized the President to take over national defense plants where production is threatened by labor disputes, and authorize the Army or Navy to keep defense plants open during labor disputes.

The real story of how the labor lobby worked is just now coming out. Congressman Howard Smith of Alexandria, Va., chairman of the House committee which investigated the National Labor Relations Board last year, referred to the lobby as a "goon squad" but it was anything but that.

The lobby was made up of the best-looking, the smartest, and the highest type of labor representatives that the C. I. O. unions could find. They were recruited from all over the country. They were carefully schooled, not only in what they were to say, but what they were not to say.

GENERAL credit for organization of the labor lobby goes to four men—John T. Jones, C. I. O. legislative representative and director of Labor's Non-Partisan League; Lee Pressman, C. I. O. general counsel; Len DeCaux, editor of C. I. O. News; and a newcomer, Russ Nixon, an assistant to Jones.

For the last five years Nixon has been at all of the places—Harvard University, getting himself a Ph.D. degree, doing a little teaching in labor relations, acting as secretary of the Massachusetts branch of the LNPL. He has been in Washington only a few months, but if the organization of this type of labor lobby is in any sense his work, the affable young man will be heard of further.

The strictly amateur character of the lobby was one of its strongest assets. There wasn't a lawyer in the bunch, and it didn't operate as lobbyists usually do, with firm letters and city slickers. Some of the lobbyists were talked out of their positions on the first call on their congressman, but they came back to headquarters, got new answers, and went back to outtalk even the congressman.

STORIES IN STAMPS

Left Diplomatic Post To Head Chilean State

CHILE won its independence from Spain in 1818, after eight years of struggle. One of its early presidents was Francisco Antonio Pinto, who was honored philatelically by the Chilean government in the 1911 stamp above.

When Napoleon invaded Spain, the Chileans saw their chance for freedom. The Spanish governor was forced to resign in 1810, and the battle was on.

During this period, Pinto served his country with distinction. He was diplomatic agent in Buenos Aires and England from 1811-17. After the war he moved to Caracas and Peru. In 1824 he returned home to be minister of the interior and foreign relations.

Pinto was elected vice president by Congress in 1827 and several months later moved into the presidency when Gen. Ramon Freire resigned.

These were Chile's formative years; politics were unstable. Pinto resigned in July, 1829, was elected again two months later, but in November, with a revolution imminent, he resigned once more. He died in 1858.

SPINDLETOP MADE HISTORY 40 YEARS AGO

BEAUMONT, Aug. 5.—Spindletop, the most famous oil field in history, will have a birthday party this year.

Discovered forty years ago when the Lucas gusher blew in with a roar heard around the world, Spindletop will furnish the theme for a national oil anniversary celebration to be held here Oct. 9, 10 and 11 by the Texas Mid-Continent Oil and Gas association.

Highlighting the birthday observance will be the dedication of a huge monument to be erected to the Lucas gusher and the pioneers of Spindletop.

Made of Texas granite, the shaft is the result of the efforts of the Lucas Gusher Monument association headed by J. Cooke Wilson of Beaumont, and of scores of oilmen who have contributed to its completion. It will be the second tallest monument in Texas, yielding only to the stratospheric San Jacinto memorial.

Spindletop, first gusher oil field in the United States, was the beginning of the modern petroleum industry.

Oil was found here in 1901 in

such tremendous quantities that it could be used not only for lubricants but also for fuel and power. As the inscription now being carved on the monument base points out, "Petroleum has revolutionized industry and transportation; it has created untold wealth, built cities, furnished employment for hundreds of thousands, and contributed billions of dollars in taxes to support institutions of government. In a brief span of years, it has altered man's way of life throughout the world."

In Texas, the petroleum industry has grown in the four decades until it is now the largest business in the state. Production last year was almost half a billion barrels from nearly 100,000 wells, and expenditures for Texas labor, supplies, etc., totaled \$750,000,000.

Taking part in the birthday celebration will be leading oil men from all parts of the country, many of whom entered the business at Spindletop. Both the convention program and its entertainment will carry out the anniversary theme, according to Mr. Wilson, who is convention chairman. E. L. Smith of Dallas is president of the Texas Mid-Continent Oil and Gas association, research and service organization of Texas oilmen which is planning the observance.

AUTO OWNERS MUST ANTE UP \$5 MORE IN '42

WASHINGTON, August 5.—Beginning next February, it's going to cost at least \$5 more a year to own an automobile.

The new tax bill levies a \$5 annual tax on all motor vehicles, a so-called "use tax." Everyone who owns a car will have to pay it, whether the car is a jalopy or a 12-cylinder chromium-plated wonder.

The ways and means committee thought for a while of graduating the tax so that the jalopy would pay less than the limousine. But it finally decided the other way. The tax is applicable to "all motor vehicles of the kind chiefly used for highway transportation." This definition, by the way, exempts trailers.

The tax is calculated to reach a large number of persons who pay no federal income tax. It is estimated that more than half of the passenger cars are owned by persons with incomes of \$2,000 or less.

Before the tax becomes effective, the U. S. commissioner of internal revenue will decide whether a tag or a sticker or a stamp will be issued to taxpayers when they ante up their \$5. Perhaps the post office department's facilities will be used in collecting the tax.

The bill provides that if you pay your \$5 tax, and then sell your car before the tax year is ended, the purchaser will not have to pay another tax. The original tag or sticker or stamp will be good for a year no matter who owns the car.

A similar tax will apply to trucks and buses, and to boats. As to boats, however, the tax will be \$5 a year on all craft having an over-all length of 16 feet but not greater than 28 feet, and will range upward to \$2,000 a year on boats over 200 feet.

Boats used for trade or commercial fishing and certain boats used for relief of seamen are exempt.

Some of the funniest stunts in the movies don't get any laughs. They're pulled by the censors.

C. M. CALDWELL SELLS LANDS IN WEST TEXAS

ABILENE, Aug. 5.—C. M. Caldwell of Abilene has sold his 32-section Davis mountain ranch to Glass & Reed of Rowata, Okla. While the price was not given, it was said to be between \$11 and \$12 per acre.

Caldwell bought the ranch in December, 1935, from Mrs. Kate Evans of the estate of G. W. Evans. The sale of the well-watered and timbered 20,761-acre property is subject to lease held by Jim P.

Espy of Fort Davis and valid until July 31, 1946.

An additional 2,000 acres will be included in this deal a little later—as soon as papers are straightened out, Caldwell said yesterday.

Caldwell also has sold 54 sections out of his 100-section outfit west of Pecos to two buyers who took 27 sections each. Dee Locklin of McCamey is getting 27 sections in the northeast part of Culbertson county. Virgil Neville of Gervin is getting 27 sections out of the same ranch.

38,790,000 Working In U. S. In June

WASHINGTON, August 5.—Secretary of Labor Perkins says total nonagricultural employment reached a new all-time high of 38,790,000 in June, with the addition of 484,000

since the previous employment report in May. The increase was accompanied by a rise of \$15,100,000 in weekly payrolls.

Attending were Meses Jack Elkins, Fred Steffey, Sam Kimball, L. C. Moore, W. E. McCharan, J. R. Wright, George Atkins, Lada Smart, Mrs. Norene Stephens and Miss Susan Haynes.

STATE VAULTS HELD A LARGE SUM SATURDAY

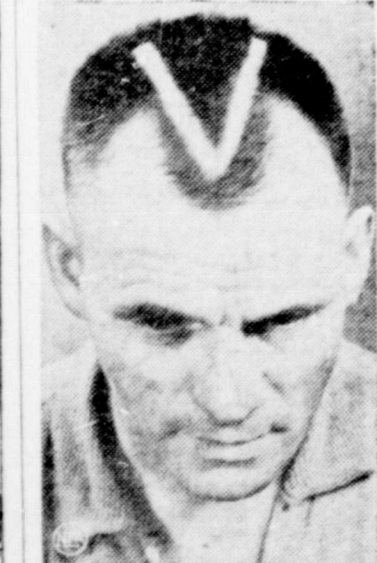

AUSTIN, Aug. 5.—A total of more than \$71,000,000 in cash—the largest amount in history—rested in the state treasury Saturday.

Comptroller George H. Sheppard reported, however, that funds with deficits aggregated \$31,121,719. They were the general revenue fund, \$30,467,275 in the red, and the confederate pension fund with \$664,443 deficit at the close of business July 31.

The big cash total resulted from balances in 105 treasury accounts of which the highway fund's was the largest—\$20,397,879.

Tooling Up for Bombers, Botors Guns

A TOOL-UP program now under way at the Plymouth factory for new defense work, just announced, will be speeded by Chrysler Corporation's time-saving practice of taking machines—where they can be adapted—out of regular car-production work. 400 of the 900 machine tools needed for this war work are being taken from production lines. Plymouth already has given priority on all assembly tracks to more than 2,000 special Army sedans, designed for use by Army officers in the field. The factory also is producing hundreds of industrial and tractor engines per month—many of these for Army service in towing aircraft to and from hangars, movement of bomb-trains in loading "eggs" aboard heavy bombers, and similar duty.

Among present machines earmarked for transfer to gun production is this giant milling machine, which would require 6 to 8 months and many thousands of dollars to duplicate. Throughout Chrysler Corporation factories, 400 of the 900 machine tools needed for this war work are being taken from production lines.

Shown here explaining this valuable defense speed-up to Army officials are (L to R): H. L. Weckler, Chrysler Corporation vice-president and general manager; D. S. Eddins, Plymouth president; Lt. Col. R. Z. Crane, Army chief of ordnance production in Detroit area; Lt. Col. H. W. Rehm, commanding officer, Chrysler Tank Arsenal.

1941 COTTON LOAN RATE 14.02 CENTS

WASHINGTON, Aug. 5.—The agriculture department announced yesterday government loans on 1941 cotton 7-8 inch middling would average 14.02 cents per pound, compared with 9.0 cents last year.

The increased rate was made mandatory by the new requirement that loans be made at 85 percent on parity, and was based on the August 1 parity price of 16.49 cents.

The department said producers cooperating with the AAA program would be eligible for loans on their entire cotton production at that rate.

It added that farmers who knowingly overplanted their allotments could receive a loan at 60 percent of the rate available to cooperators on that part of their cotton subject to penalty.
