J. S.-BRITAIN WARN JAPS KEEP OUT THAILAND

About Our Friends

By STEP A. LONG

J. Litchfield is still going as his slogan states... We now that painters are being up spots about his big big rooms... Some men quit improving... others the hinges come loose and the going without seeming to anything wrong...

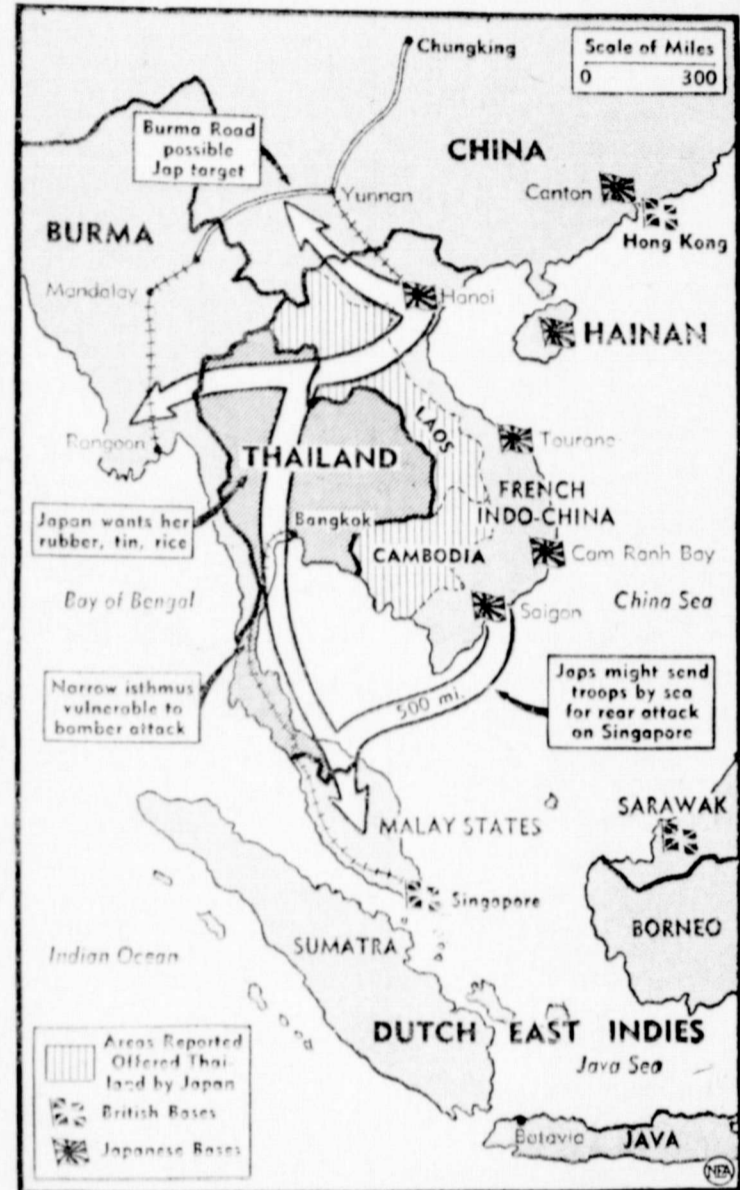

Mr. Nance says business is not bad if one just keeps going... That is oftentimes... The badness of business frequently exists in one's and that lack of enterprise leads to the cash register, which undergoes a condition of that causes leanness...

and Mrs. J. B. Pratt took a flying trip to cool Col... but they had to sleep a fan all the time until they back to Cisco, Texas... Said... there were much more projects than here... Big government projects were bringing boom such as we saw in 1919, to sections affected...

Dr. Schaefer seems to be... Doctoring radios and electrical ailments...

COAST GUARD TO RECRUIT HERE SOON

A coast guard recruiting officer will be located in the Cisco post office building on August 22 and 23.

Men who are registered for the draft are eligible for enlistment. Here you may obtain full information and this will not obligate prospective draftees in any way.

Requirements for enlistment are briefly as follows:

Full citizenship; single; grammar school graduate; not less than 18 and not over 31 years of age; no criminal record; be able to pass a grade "A" physical examination; and parents consent if under 21 years of age. Age limits for men with previous service in the coast guard, navy or marine corps is 40 years. Ex-coast guardsmen and ex-navy men can now reenlist at the same rating they held when discharged.

The coast guard is our country's oldest military service, being organized in 1799 as the "revenue marine" or "revenue cutter service." It is under the jurisdiction of the treasury department but since the inception of the navy it has been very closely associated with that organization and its regulations, uniforms, customs and practically everything except official duties are almost identical. During war time the service operates as part of the navy.

The service is rich in humanitarian tradition and its paramount duty is the saving of lives and property upon the high seas or any section of the country which has been devastated by floods and hurricanes. It has a number of other interesting duties which include enforcement of all federal laws on the high seas; training of merchant marine personnel; maintenance and operation of all light-houses, lightships, buoys and other aids to navigation; supervision of laws generally in Alaska and particularly the sealing laws in the Bering sea; supervises and carries supplies to civilian colonists on small South Sea islands and the West Indies; conducts the international ice patrol off Greenland; supervision of the whaling, fishing and sponge industries and carries urgent medical aid to vessels at sea.

The coast guard makes it possible for young men to continue on in the service with the knowledge that they are following a profitable career and in the event they wish to leave the service they can do so upon expiration of enlistment with the knowledge they are better fitted physically and educationally and with a broader knowledge of practical aspects of life and at this time, especially, advancements are rapid.

Mr. and Mrs. Robin Boone visited in Abilene Tuesday.

PEPPER FEARS SELECTEES BE IN ARMY 5 YRS.

(By United Press)

WASHINGTON, Aug. 6.—Secretary of State Cordell Hull gave rise to fresh speculation on the possibility of further economic pressure against Japan when he declared any Japanese move into Thailand would be a matter of increasing concern to the United States.

Britain today also warned Japan to keep hands off Thailand.

Senator Claude Pepper, Florida Democrat, today predicted that the government will probably find it necessary to keep selectees, national guardsmen and reservists in service "at least five years, and it may be ten years or even a generation."

The senate voted 57 to 19 to override President Roosevelt's veto of the \$250,000 defense housing bill, which the president charged apportioned money on the basis of state population instead of military strategy.

The war department today announced that a \$2,000,000 quartermaster's depot will be constructed on a site to be acquired approximately four miles south of Fort Worth, Texas.

ROOSEVELT, CHURCHILL IN SESSION

(By United Press)

Germany claimed victory in the Battle of Smolensk, but Russia said the Nazis had been pushed back west from Smolensk.

A Berlin spokesman issued a statement declaring that the victory claimed by the Nazis in the Battle of Smolensk would prove "decisive for future of Europe and perhaps of the world."

The mystery of the whereabouts of Premier Churchill and President Roosevelt went into the second day, with no official word as to where the Anglo-American leaders are conferring, though possibly aboard the presidential yacht Potomac off the New England coast.

Signs of a possible Japanese move against Siberia increased as the first shipment of American munitions was dispatched to Russia.

Clement Atlee, speaking in the British house of commons, said Russian resistance had completely upset the German timetable and forced Hitler into a dreaded "war on two fronts."

Sister of Ciscoan Died Tuesday Night

Word was received in Cisco this morning of the death of Mrs. Nettie Hayworth which occurred Tuesday night in the family home in Dublin. Mrs. Hayworth had been ill several weeks and her death was not unexpected. Mrs. Hayworth was a sister of Miss Lucille Self of Cisco, who was with her when she passed away. She is survived by another sister, Miss Alice Self, also of Dublin.

RES. STAMEY TELLS LIONS CONVENTION

H. Latham, Jr., had charge of the program at the Lions convention today, presenting President L. Stamey who gave some interesting highlights of the national convention at New Orleans.

Among other things Lion Stamey said this seemed to be one of the best attended conventions in the history of the organization, full of talks and emphasizing the great program of Lionism. Major Julien Stamey said it was impossible to bring back to a club many fine impressions he had, but that the attendance himself, wife and other Ciscoans remain with them for many years and inspire them to be better.

Mr. Baum was presented a gift to be given to his new boy, President E. L. Jackson. Mr. McCauley introduced a White of the Goodyear oration as his guest.

PAINFUL ACCIDENT.

Mr. Hall Chambliss was the victim of a painful accident Tuesday at his home in Humboldt. Chambliss had been using a steam separator and was repairing the pan when part of the motor came loose and struck him in the face. She sustained about the face and surgical operation was necessary. Twenty stitches were required to close wounds.

DONAWAY AND SHORT FAMILIES, 74 STRONG, ENJOYED REUNION MONDAY AT LAKE CISCO

A reunion of the Donaway and Short families was held at Lake Cisco Monday in which approximately 74 people participated, some from distant points in Texas, others from out of the state. It was voted by those present to hold the reunion each year hereafter—the first Monday in August—and on the delightful camp grounds at Lake Cisco.

The actual honorees of the occasion were Mr. and Mrs. J. D. Donaway of Dothan and J. B. Short of Vernon. The families are closely connected by marriage.

Mr. and Mrs. L. D. Donaway are well known throughout the Cisco Country and are held in the highest esteem as good citizens. Mr. Donaway was born on the 11th of October and is approaching his 86th birthday anniversary. Mrs. Donaway was born on the 16th of October and will be 84 years of age on her next birthday. Both are in very good health, though the husband has been gradually losing his eyesight for a number of years and is now totally blind. He retains his sense of humor, however, and has never been accused of pessimism.

J. B. Short of Vernon, the other honoree, is in his 85th year. He, too, is blessed with good health in spite of his advanced years and added greatly to the pleasure of the reunion, as well as doing ample justice to the fine meal served at the camp grounds.

The oldest member of the reunion party was Mrs. Sarah Miller of Fort Worth, who is 93 years of age.

MISS BENNIE, REGISTERED TECHNICIAN

Miss Evelyn Bennie, former nurse and assistant at Graham Sanitarium, has recently been granted her R. T., which means registered x-ray technician, following her appearance before the examining board of Eastland county, where she passed the questions submitted from Chicago.

Miss Bennie is quite efficient in her work and she will now be of greater service at the sanitarium by means of her proficiency as a registered technician.

MORE THAN 300,000 INSURANCE EMPLOYES OF U. S. ASSURED OF WAGE AND HOUR LAW BENEFITS

DALLAS, August 6.—More than 300,000 insurance employees throughout the nation were assured of Wage and Hour law benefits, including the 40-hour week today, Gus C. Street, Jr., regional director of the Wage and Hour division for Texas, Oklahoma, Arkansas and New Mexico, was informed by Gen. Philip B. Fleming, administrator. General Fleming announced that voluntary compliance programs have either been started or promised by a representative group of insurance companies.

The announcement followed completion of a personnel classification study made by the Wage and Hour division in cooperation with six employer association groups for the purpose of determining legitimate exemptions of executives and administrative employees.

Cooperating with the Department of Labor officials and representing 90 per cent of the country's individual companies in the blanket industry compliance effort are Vincent P. Whitsitt, manager and general counsel of the Association of Life Presidents; Col. Charles B. Robbins, manager and general counsel of the American Life Convention; C. W. Fairchild, general manager and treasurer of the Association of Casualty and Surety Executives; Frank S. Rowland, Life Office Management association; John Holcombe of the Insurance Research Bureau; Harry Cooper, Jr., of the National Association of Mutual Insurance Companies; and J. H. Doyle, general counsel of the Board of Fire Underwriters.

The American Mutual Alliance, composed of 100 mutual and fire insurance companies, has already informed General Fleming that its companies have begun their program of voluntary compliance with provisions of the law. Results of the personal classification study will be used as a guide in the determination of executive and administrative exemptions during a compliance drive, which is to be made later. For the benefit of all companies, a compliance manual dealing solely with insurance situations will be prepared and the inspection staff will conduct future inspections in accordance with that manual. This same information will be made available to independent companies.

Womens' Society in Luncheon Tuesday

The Women's society for Christian service of the First Methodist church met Tuesday for a covered-dish luncheon, with business meeting following in the church. A sumptuous meal was enjoyed and at the conclusion Mrs. Jimmy Allen, society president, called the meeting to order. Mrs. John Shertzer led the opening prayer. Reports of the committees were then given by chairmen. Other routine business followed, after which the session was closed with prayer.

Those attending were Meses. O. W. Hampton, Ed Huestis, J. T. Fields, J. M. Witten, J. J. Porter, J. T. Anderson, C. A. Sherrill, George Winston, C. E. Hickman, John Shertzer, Jimmy Allen, Carroll Smith, L. E. Vaughn, R. W. Merrett, Betty Winston and a visitor, Mrs. W. O. Wheatley, sister of Mrs. Carroll Smith.

Baptist WMU Meets For Study Program

A mission study book, "The Word Overcoming the World," was taught in an all-day program held by the First Baptist missionary society in the church Tuesday. Mrs. Pat Crawford, district president, was teacher and her instruction was appreciated by those in attendance. The meeting was opened with prayer by Mrs. Asa Skiles.

An appetizing covered-dish luncheon was served at noon, following which the study was resumed and the book completed. Several prayers were offered in behalf of the mission work. The society will meet in the homes of members next week.

Harlow-Meglason Marriage Rites Held

A quiet wedding took place in the home of the Methodist pastor, Rev. Mr. Wilkinson in Strawn Tuesday night in which the contracting parties were Miss Naldonia Harlow of Carbon and W. W. Meglason, son of Mrs. G. M. Meglason of Cisco. Mr. Wilkinson officiated in the marriage ceremony, which took place at 8 o'clock. The young couple was accompanied by Bob Farmer, a special friend of the groom. Mr. and Mrs. Meglason will make their home in Cisco and they will reside at 1102 G avenue.

Council Holds All-Day Work Meet Tuesday

Approximately 200 cans of vegetables and fruit were shown as a result of an all-day canning held at the First Christian Council at the church Tuesday, when they

met and gave a day of work for the orphans in the Juliet Fowler Home, Dallas.

Luncheon was served at noon in the dining room of the church, where informality and splendid fellowship prevailed. When the hour for the regular council meeting arrived, after prayer by Mrs. J. R. Wright, routine matters and reports of committees were heard. The raising of funds for babies under five years of age in England, sponsored by the Federation

of Church Societies, was given due consideration and the council voted to give donations for that cause.

The meeting was dismissed with prayer, following which the work of canning was resumed and continued until 6 o'clock when the day's task was completed.

The council will meet in groups next week in the homes of several members.

Something New—Floating Peaches

Something new in peach taste sensation is proving very popular this season—floating peaches. This delicious dessert gives that extra something that makes a meal decidedly different. From the peach-producing belt comes the latest approved and tested recipe for this tasty delicacy. Here's the recipe:

One cup milk, 1 cup crushed peach juice, 1 teaspoon grated lemon rind, 4 tablespoons sugar, 1/2 teaspoon salt, 3/5 tablespoons cornstarch, 1 egg, 18 marshmallows, 1/2 teaspoon almond extract, 6 peaches halved.

Method—Combine the milk, 1/2 cup of peach juice, the lemon rind, sugar and salt, place in the top of a double boiler. When hot add the cornstarch, mixed with remaining peach juice, and stir well until thick. Cook for 25 minutes, then add slowly to the egg slightly beaten. Return to the double boiler, add 12 marshmallows and cook for five minutes longer. Remove from the fire and add flavoring. Pour into individual serving dishes, reserving a small amount of the custard mixture. Arrange a half peach on each cus-

tard. Place a teaspoon of the reserved custard in each peach cavity, and into this a marshmallow. Serve cold with cream.

NEW OIL that gives GOOD OLD OIL-PLATING

far Outlasts 5 other big brands in Desert War of Endurance

Oil-Plated engine proves good for more than Double the Mileage averaged by rivals in Daring Death-Test... Certified

Plenty of good old pre-streamline cars with OIL-PLATED engines still pass your house quietly... pass newer cars on the road... pass oil-inspection many a time without needing a quart. That's because inner engine parts have been kept OIL-PLATED by the strong magnet-like action that won't let OIL-PLATING quickly drain down. Even through the nights, OIL-PLATING stays up to its top-most point—on guard against wear in advance! Yet this famous OIL-PLATING—based on the Conoco Germ Processed oil patent—is merely one factor in today's great success of the new

CONOCO Nth MOTOR OIL
—Lasted 5,683 miles longer than next-best oil tested in Death Valley

Conoco Nth oil invited itself straight up against 5 other representative oils in an all-out test to the death... unbiased... Certified. The graveyard was cruel Death Valley—so hot you can't sweat, 6 everyday coupes were used—all alike. Each got one 5-quart fill of some one competing oil—locked in by the Official Referee. Then under strictly equal conditions all cars sped without added oil, till engines cracked up.

The weakest oil gave up while Conoco Nth still had 8,268 miles to go... Certified. All 5 rivals together averaged 7,057 miles less than Conoco Nth oil... Certified.

Real difference—from a Real source

Two modern synthetics are in new Conoco Nth oil. Now think of modern vitamin synthetics, making up for some

WEST TEXAS UTILITIES

Twice as much for your money

... that's the kind of bargain You Electric Servant brings YOU NOW under Business Operation

1. Twice the speed. Electric servants breeze through your housework in less than half the time it used to take—at about half the cost. Your bill maybe about the same as it's always been, but you now get more and better service, plus better lighting, for about what you used to pay for lights alone.
2. Twice the labor saving. Ask the woman who owns a washing machine what electricity has done for her! At present-day low rates, you can afford to use most all the modern appliances. Today electric rates are only about half what they were 10 or 15 years ago. You get about two or three times as much for your money!
3. Twice the light. No blackouts here! Today you can get twice as much light as you used to, for the same money. Electricity today costs only about half as much. (Light bulbs are twice as efficient, so you get four times as much today for the same money.)
4. Twice the comfort. Constant research is developing new and cheaper ways of using electricity. Air conditioning this past summer reached more homes than ever before, bringing cool comfort at small cost. Other usages are being constantly improved at no extra cost to you!

Credit for the steadily improved service to you at steadily reduced rates is due the trained and experienced men and women of this organization. They have devoted many years to the highly technical problems of electric generation and distribution... all without interruption and at low cost.

Letters from the People:
"We used to pay 15 cents a kilowatt-hour. The low rates today enable us to use our many appliances without being extravagant. Besides lights, we now have range, water heater, refrigerator, sweeper, air conditioner, iron, percolator, toaster, waffle iron, radio, fans and heating pad—making for better and more economical living... The West Texas Utilities always renders courteous, prompt and efficient service for which we are grateful."
