### LABOR COSTS RUN WILD, FOOD WILL PRICE OF FOODS!

AS August 14.—The food situation in this country is becoming more and more serious. The price of food is rising at a rapid rate. This is due to the fact that labor costs are running wild. The price of food is rising at a rapid rate. This is due to the fact that labor costs are running wild.

### D'SPAIN'S ON VACATION WITH SON'S FAMILY

Howard D'Spain, Mrs. D'Spain, Miss Ethel Mae Wilson of Cisco, and Patsy Lynn Waggoner of Odessa, are in Amory, Miss., enjoying a vacation of two weeks. They will visit the family of Glenn D'Spain and will probably accompany them on a trip to the nearby mountains or perhaps a little run up into the northern part of the United States before they return.

The D'Spains and Miss Wilson had a fine vacation trip with Glenn D'Spain last summer, visiting points along the Gulf of Mexico in southern Mississippi, Alabama, Florida and Louisiana and enjoying the beautiful scenery in that section of the country.

Mr. D'Spain certainly deserves a vacation as he has taken little time off from his work at the Dean Drug company since 1910. Few men have been as faithful to their duties as he and Tom Dean, both of whom may be found on the job early and late.

John Oates of Haskell is pitching in for Mr. D'Spain during the vacation period.

### DUNN AND FEE JOIN FORCES WITH TURKEYS

John Dunn of Dunn's Produce reports the turkeys, about 750 in number, are doing well on the George Fee ranch, northeast of Cisco. He and Mr. Fee are experimenting with turkeys on the ranch in addition to cow sheep shorthorn range — feeding on grasshoppers in turkeys are growing nicely. They should provide that number of homes with a big fat turkey for Thanksgiving.

Mr. Dunn, who is thoroughly alive in his line of work, says there are many farmers in this section of the state making money with turkeys.

Turkeys are easily grown if one will use care when they are first hatched. They are susceptible to damp weather and heavy dew, but if one will arrange to keep them up during the early morning until the dew is off the grass, there should be a low death rate.

The pastures north and northwest of Cisco in the Putnam and Moran country should form good ranges for turkeys. Almost every year these lands are more or less infested with an abundance of hoppers and bugs, which provide good forage for young turkeys.

The only trouble turkeys give their owners is that of keeping them from growing wild and taking up a new home with some distant neighbor.

Wolves wrought havoc with turkeys several years ago, but hunters and trappers have made them rather scarce now.

Turkeys, together with stock farming, should bring much money to farmers in the Cisco Country.

### STRIKERS ARE WORSE MENACE THAN A. HITLER

WASHINGTON, August 14.—A war department calculation showed Wednesday that 30 strikes were holding up production of army equipment as of Tuesday, a situation which prompted officials to express "grave concern" over the increase in work stoppage.

Since early June, they said, the number of men made idle by strikes in industries holding army orders had averaged about 14,000 daily, whereas the Tuesday figure was 23,400. Some of the walk-outs affected the output of planes, tanks, machine tools and chemical equipment.

While the war department was taking stock, a strike threat developed in the Bell System's installation department which, if carried out, would shut down long distance communication installations in military camps, government buildings and defense industries.

Leaders of the union involved said in New York that if other employees throughout the Bell System decided not to cross picket lines or do anything that fellow union members might regard as strike-breaking activity, the result undoubtedly would be an almost complete tie-up of the Bell company's vast telephone system.

Mr. and Mrs. H. R. Garrett and family have returned from a vacation trip which they spent with relatives in Birmingham, Ala., points in Tennessee and New Orleans where Mr. Garrett attended the Lions convention.

Mr. and Mrs. Young stopped in Cisco Wednesday for a short visit with Mr. and Mrs. Tanner while enroute to South Texas on their honeymoon. They will make their home in Mineral Wells, where Mr. Young has extensive real estate interests.

W. M. Tanner is a conductor on the C. and N. E. railroad and well known in Cisco.

#### Bob Montgomery in New Uniform

Lieut. Robert Montgomery, screen star and one time ambulance driver in France, strides down London street in his post as assistant naval attaché at American embassy. A U. S. naval reserve officer, he flew Atlantic in a bomber.

### LUTHER PRYOR LEAVES CISCO AFTER 14 YRS.

Rev. Luther Pryor, pastor of the Nazarene church, has resigned his pastorate here after serving the local church 14 years.

Mr. Pryor has accepted a call to the church at Berger and will leave for his new home about September 1.

Under his leadership the Cisco organization has grown steadily in membership, the church and parsonage have been moved to a new location on W. Seventh street and all church indebtedness has been wiped out.

The completion of this three-year expansion program, and especially during the worst part of the depression, is considered unusually fine work and co-workers of the departing minister are strong in their commendations of his efforts.

The Pryors have many close friends in Cisco and surrounding territory, all of whom wish them happiness as they go to their new home.

### CISCO WOMAN WEDS MINERAL WELLS MAN

Mr. and Mrs. W. M. Turner, who live at the Mobley Hotel, announce the marriage of their daughter, Mrs. Marion Wright, to James Young of Mineral Wells. The wedding was performed Wednesday morning, August 13, at Mineral Wells.

Mr. and Mrs. Young stopped in Cisco Wednesday for a short visit with Mr. and Mrs. Tanner while enroute to South Texas on their honeymoon. They will make their home in Mineral Wells, where Mr. Young has extensive real estate interests.

W. M. Tanner is a conductor on the C. and N. E. railroad and well known in Cisco.

### LEADERS IN CONGRESS OK WAR AIMS

WASHINGTON, August 14.—Administration congressional leaders today publicly and heartily approved the joint declaration of war aims as proposed by President Roosevelt and Premier Churchill.

The senate completed congressional action on the bill extending military service of selectees 18 months beyond the original terms.

### GOV. FARLEY BE ROTARY GUEST HERE

President Edward Lee presided at today's meeting of the Cisco Rotary club, with Rotarian Sutton Crofts making a classification talk.

Mr. Crofts, well known Aberdeen-Angus cattle rancher, gave many interesting facts relative to the advent of registered cattle in America. Hereford cattle still lead in point of numbers in Texas, but statistics show a steady advance by the Aberdeen-Angus.

It was announced that District Governor Farley would meet with Cisco Rotarians on August 28.

New members present for the first time were Floyd Shepard of the Commercial Printing company and A. E. McNeely, local Katy railroad agent.

Members present included Edward Lee, Leon Shockley, A. I. Skiles, E. Hooks, Ernest Hittson, R. N. Cluck, J. C. McAfee, Sutton Crofts, R. L. Ponsler, O. J. Russell, Pete Nance, W. W. Fewell, Floyd Shepard, E. P. Crawford, A. E. McNeely and A. B. O'Flaherty.

### URANIUM ATOM WOULD SPREAD DEATH 100 MI.

FALLS VILLAGE, Conn., August 13.—John F. O'Neill, president of the National Association of Science Writers, charged Wednesday that the government had clapped a censorship on laboratories developing an element which if contained in a 10-pound bomb would blast a hole 25 miles in diameter and wreck every structure within 100 miles.

O'Neill, science editor of the New York Herald Tribune, asserted in a prepared address at the Housatonic Valley conference that the administration is staging a totalitarian revolution against the American people.

He said scientists recently had discovered a method of releasing energy from the uranium atom, and after attributing terrific destructive power to a 10-pound missile of uranium 235, he asked: "Can we trust our politicians and warmakers with a weapon like that? The answer is no. Nevertheless our politicians have taken over the control of the scientists who have been working on the application and control of this discovery and are driving them to develop it for war uses."

"They have clapped a censorship in the scientific laboratories where this work is being done and no scientist dares to discuss what he is doing."

#### New Naval Bases for the Nazis?

Nazi naval bases in Africa may result from new "collaboration" of Vichy France with Germany following conferences of Marshal Petain and his war aides. Map shows possible locations of these bases, within striking range of British shipping lanes.

### HAYLEYS, 100 CLARK ROBERTS STRONG, IN GETS TRANSFER REUNION HERE TO FLYING FIELD

Charles C. Hayley, of the "Hayley Family of America," is completing arrangements today for a family reunion to be held at Lake Cisco park, Saturday and Sunday, August 16 and 17.

The Hayley family has members in many towns in Texas, and it is expected there will be at least 100 in attendance here this year in their second annual reunion. That number attended the first annual reunion held here last year.

Larkin A. Haley, known as Contractor or Contractor Haley, lived in Cisco from the date of the 1893 cyclone until the children were grown. He and his wife died while living in oManra and were buried in the oManra cemetery.

The following members of the Cisco branch have been heard from and will be here for the reunion: C. C. Hayley, Sr., and family, Dallas; Dr. C. C. Hayley, Jr., Electric; Neva Hayley Patton and family, Dallas; Wm. D. Hayley and family, Abilene.

All friends of the family will be welcome at the gathering here, Charles Hayley said.

### SEPT. 23-30 U. S. TO CALL FOR 2,571 TEXANS

State selective service headquarters announce the army's twenty-third and twenty-fourth calls on Texas' 351 local boards for 2,571 trainees.

On the twenty-third call 2,227 white trainees will be sent to induction stations during the period September 23 through September 30. On September 22, to fill the twenty-fourth call, 344 colored trainees will report for induction.

According to Gen. J. Watt Page, state selective service director, Texas has been called upon to furnish 36,202 trainees since the first call last November. The total number called, he said, has been pro-rated among the white and colored registrants on a basis of total registration as follows: 30,505 white trainees and 5,697 colored trainees.

### DISARM AXIS AFTER WAR IS SLOGAN

WASHINGTON, Aug. 14.—Roosevelt and Churchill's proclamation of an 8-point program for permanent world peace "after Nazi tyranny has been destroyed," set in motion machinery that will speed up the flow of American munitions to Britain and Russia.

In a historic meeting on the high seas, these two leaders proposed "complete disarmament" of all Axis powers after the war, with freedom of the seas, freedom from "fear and want" for all the people of the world.

Lord Beaverbrook arrived in Washington only a few hours after the news conference had been flashed from Washington and Britain.

President Roosevelt is expected to land in New England tomorrow.

Britons believe the conference answered the "peace offensive" Hitler is expected to launch soon.

Germany claims to have dealt the Russian army a blow so decisive "it will never recover."

Moscow, however, says the third Nazi offensive has been halted everywhere and denied that Odessa, important seaport, has been encircled.

Big Russian armies have been isolated by German thrusts to the Black Sea near Bug river, Berlin claims, and face annihilation.

Moscow says 29 enemy divisions were routed or destroyed, in addition to many partly destroyed. The Reds described German claims as exaggerated or false.

Lewis Starr went to Ft. Worth today. He was accompanied on the trip by his daughter, Hope Starr.

the first business session in the presence of the chairman, Mrs. L. A. White.  
The meeting was then turned to the Bible teacher, Mrs. J. R. Barnett, who taught the lesson from the book of Isaiah.  
A social hour followed during which the hostess served refreshments. Those attending were Mrs. W. H. Hayes, Barron Abbott, Jay Warren, J. B. Barnett, Jay Morrison, R. E. Shepard and G. Lawson.

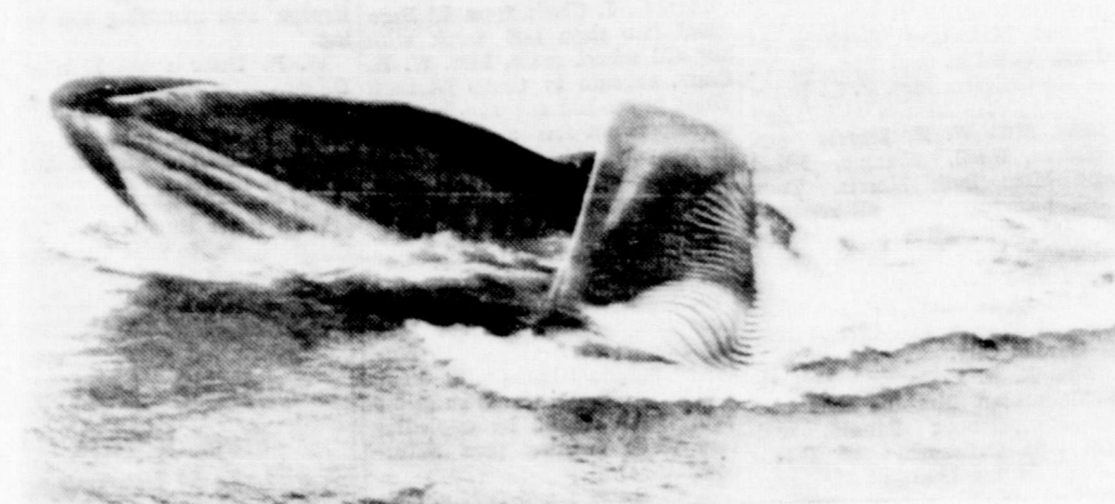

#### Mrs. McClelland Entertains in Country Home

The Needle and Thread club accepted an invitation to the party given by Mrs. J. R. Barnett for the regular meeting which was held Wednesday at 8 o'clock. Decorations of red flowers were in evidence along the rooms and on the porch, where the guests were given seats at small tables.

The hostess brought the meeting in order and the roll was called by the secretary, Mrs. T. R. Prickett, responses were given from the column, "Think It Over," after which the minutes of previous meeting were read and approved. Plans were made for a luncheon in the home of Mrs. Prickett next week, honoring the birthday of Mrs. J. A. Smith. EDSON'S WASHINGTON COLUMN

Defense Drive May Curtail Credit Buying If Congress Blocks Out Installment Buying

BY PETER EDSON NEA Service Washington Correspondent

WASHINGTON—Things will have come to a pretty pass if the government takes away the inalienable right of a man and his family to go clear up to their hips in debt, but don't be surprised that an idea of this kind has been peeped out of the corrugated brows of the price-control boys planning your life and hard times during the defense boom. And if Congress makes it into a law, you won't be able to buy anything on time until the war is over. The theory is simple this:

Automobiles, refrigerators, washing machines, furniture and all such durable goods are manufactured in factories that might be used to make defense articles. As these are the articles most commonly bought on time, one way to stop their production is by preventing their purchase on the installment plan.

Second, because more people will be making more money in defense industries, they will be wanting more of these durable goods and, feeling there are no hard times in sight for a few years, they'll be willing to go deeper into debt to buy what they want. To curb this defense boom demand, the idea is to prevent purchase by the installment plan.

Third, it would be just too bad to have this defense effort end some recent day, only to find all the good people head over heels in debt. It will be bad enough just having the government that way, but with all the people that way too, there won't be anybody to pay the government's debts. Hence, to keep the populace solvent, there is this idea to prevent installment buying.

You may figure that if they pass a law making it illegal for you to go into a store and "charge it," you will be able to outsmart them by stopping in at the loan company on your way to shop and borrowing the money there, but that's being thought of too. There may be no limitation on activities of lenders at first, but if such loans start rising too much, there may be an effort to stop such borrowing by simply having the federal reserve banks stop advancing funds to the personal finance companies, the industrial banking companies, the commercial banks and the credit unions.

The domestic distribution committee of the United States Chamber of Commerce has gone over the subject and issued a report saying that any curtailment of installment buying is unnecessary. According to this report, although retail sales reached \$47 billion in 1940, only 10 per cent of them were installment sales, and only 10 per cent of the 1,450,000 retail establishments in the country sold on time.

THE basic idea of limiting installment buying is not new. Installment buying has been condemned as an inflationary influence, but it has been used extensively in New Deal reform to encourage home building, rural electrification, home modernization, housing and re-employment. If low down-payment buying is to be stopped in gross business, the government likewise would be forced to revoke its policies.

So far, no one has come forward with any ideas for denying a man his God-given right to look his watch. Trying to regulate the pawn shop would be just too much.

After spending a few days in the boys probably got the idea of home of their son-in-law and carrying crazy things in their daughter, Mr. and Mrs. J. D. Laur-

Hugging and clinging, these days, are just as different as two peas in a pod.

Latvia Becomes Mixed Up In Newest European Fight

STANDING desolate between two abysses of destruction, Latvia finds herself caught again by war. Like other European nations, Latvia had little chance when the Russo-German war began but to yield to the stronger adversary and permit troops to move across her territory.

Nor did she have any great reason to offer Russia much protection against the Nazi menace since it was Russia that moved in and aggressively seized all three Baltic states shortly after World War II began.

The above stamp was issued in 1938, when Latvians were still enjoying peaceful lives. It is a view of Loholai, and was issued to commemorate the 20th anniversary of the Latvian republic.

Latvia lies her neighbors—Lithuania and Estonia—was set up independent after World War I. Like so many other small European nations, Latvia tried to maintain an attitude of neutrality toward World War II, but this policy was short-lived. Not long after the Nazis divided Poland with Russia, Joseph Stalin sent his troops into the Baltic states to take over as a "protective" measure.
