Do You Remember?

(From Files of The Cisco Daily News, April, 1927.)

James Polk Montgomery, affectionately known as "Uncle Jimmy" to most of the permanent population of Cisco, was instantly killed at 9 o'clock Sunday night when he was run over by an automobile driven by Ernest Swank of Abilene. He received an injury to the head and a broken arm, and died almost immediately. He had just stepped from the curb in front of the Church of the Nazarene on A avenue as two cars were meeting at this point. He avoided one car, but in doing so got in front of that driven by Mr. Swank, and was run down. Police said the accident was unavoidable. Mr. Swank remained here several hours after the accident. "Uncle Jimmy" had been a resident of Cisco for more than fifty years, coming here in 1873 following the Civil war. He was born in Alabama February 13, 1840, and had only recently celebrated his 87th birthday. He served in the Confederate army during the war, going first into the infantry where he was slightly wounded. He was then transferred to the cavalry and then sent to the scouts, attaining the rank of captain under Gen. Joseph E. Johnston in the latter's Georgia campaign. When he came to Cisco, the only city here was a pioneer settlement known as "Red Gap," located west of the present town. In his earlier years he was a ranchman, and at one time owned a vast amount of land and cattle in this section. He was in excellent health despite his advanced years, and always took an active part in local affairs. "Uncle Jimmy" had been married twice, rearing two sets of children. He is survived by several and several children, who are as follows: Will Montgomery, Trinidad, Colo.; Mrs. C. D. Johnson, Oklahoma City; Mrs. J. T. Abbott, Kennan, N. M.; Mrs. Burt Robinson, Cisco; Mrs. A. L. Buford, Brownwood; Lay Montgomery, Albany, and Bee Montgomery, Cisco. Funeral services are to be held from the First Presbyterian church at 3 o'clock Tuesday afternoon.

The newly-elected Cisco school board, including the holdover members, met for the first time since the recent election and organized Tuesday night. F. D. Wright, former vice president, was made president, and Dr. C. C. Jones, former secretary, was advanced in vice president. Henry Drumwright, new member, was made secretary. The general con-

HOME AND HAPPINESS

Curling smoke from a chimney low, And only a few more steps to go. Faces press at a window pane, Watching for someone to come again, And I am the someone they wait to see— These are the joys that life gives to me.

What has my neighbor excelling this— A good wife's love and a baby's kiss? What if his chimneys tower higher? Peace is found at our humble fire. What if his silver and gold are more? Rest is ours when the day is o'er.

Strive for fortune and slave for fame, The joy men struggle for stays the same. Rich and poor men dream and pray For a home where laughter shall ever stay, And the wheels go 'round and men spend might For the few glad hours they claim at night.

Home, where the kettle shall gaily sing, Is all that matters with serf or king; Gold and silver and laureled fame Are only sweet when the hearth's aflame With a cheerful fire and the loved ones there Are unafraid of the wolves of care.

So let me come home at night to rest With those who know I have done my best; Let the wife rejoice and the children smile, And I'll know by their love that I'm worth while. For this is conquest and world success— A HOME where abideth HAPPINESS.

Monday that indications are 2,500 broilers will be handled by the association this week. Culling of hens has about been completed, and a "swat the rooster" campaign will be begun within a short time. Mr. Chandler said, getting ready for production of strictly infertile eggs during the coming summer.

It's not right that we should expect our foremen to ruin their clothes and otherwise make sacrifices at every fire, and then not give them some reimbursement," declared M. D. Paschall, Sr., Friday as he came to the Daily News office and contributed his check for \$5 to the fund. "Those boys do their best to protect our homes from fire and otherwise help the town, and I am glad to make my small contribution to the fund, and think all other citizens should do likewise."

The Mothers' club will hold a flower show next fall, it was announced Friday by Mrs. J. V. Heyser, who said the club had recently voted for such a show at a meeting. She urged all club women of Cisco to enter the Cisco Daily News city beautiful contest, both as a means of beautifying the city and also as a means of insuring success of the flower show in the fall. "I should like to see every home in Cisco in the contest," she said. "That will insure both a beautiful Cisco and a real flower show in the fall."

Mayor J. M. Williamson and Secretary J. E. T. Peters, of the chamber of commerce returned home Thursday night from Austin where they attended a hearing on proposed increase of fire insurance rates in Texas. Mayor Williamson said much illuminating information regarding insurance writing in Texas was brought out at the meeting, and gave it as his opinion that the state insurance commission will not allow as radical a change in insurance rates as had been asked.

ROAD BOND SURPLUS TO BE WORKED OUT

AUSTIN, Aug. 29.—In spite of the continued opposition of County Judge Merritt H. Gibson of Longview to compromises proposed by Gov. Coke Stevenson and Senator Allan Shivers in the disposition of the \$2,000,000 road bond surplus, Stevenson Thursday still was optimistic and expressed the opinion that something would be worked out in time for a special session to be convened on September 9.

Governor Stevenson refused to answer Gibson's recent statements on the subject, declaring that would only make the situation more difficult. "We are getting along fine," asserted Stevenson, "and from conversations with members of the legislature I think we are going to get somewhere. They are showing a wonderful spirit and a desire to work out the problem before us."

Gibson has sent a mimeographed letter to county judges and commissioners of Texas fairly bristling with urgings to stay hatched and do no surrendering. Gibson's belligerency Thursday brought from Representative Lonnie Alsop of Carthage, in Austin to attend a legislative rural ad committee session, the declaration: "Judge Gibson lost the ball when he said he'd favor a step that would cause \$4,500,000 in taxes to be levied on the farms and ranches unless he could dictate the disposition of the surplus."

"I voted for giving the surplus to the counties and still am strongly in favor of doing it. But I certainly am not in favor of per-

mitting that issue to defeat the \$9,500,000 allocation to pay primary obligations already assumed, for to do that would be to lay an additional and unnecessary \$4,500,000 of taxes on the farmers and ranchmen of Texas." Alsop's idea is that the \$9,500,000 appropriation should be quickly made and then discussion begun on the disposition of the \$2,000,000 surplus.

Bailey Ragsdale, president of the Dirt Farmers congress, Thursday presented Stevenson with a resolution recently adopted at a board meeting here urging the governor to call a special session to appropriate funds for servicing assumed bonds. "Those farm and ranch organizations of Texas affiliated in the Dirt Farmer congress are not so much concerned with whether the commissioners courts or the highway department spend any surpluses as they are concerned

with the primarily important question of immediate appropriations to the board of county district road indebtedness," Ragsdale said. "If this is not done we will be in the ridiculous and unwarranted position of having a dead fund from the 1c gasoline tax and providing a similar amount of funds from us in increased ad valorem taxes."

Haiti Gains Importance As U. S. Defense Link THE Republic of Haiti is the most African-like land off the shores of the Americas. Fifty per cent of the population is Negro, more than 80 per cent illiterate. War has given Haiti a strategic importance as part of three sister republics—Cuba, Haiti and Santo Domingo—forming part of a protective link for the Panama Canal between southern Florida and the tip of South America.

The island has a stormy history. It was the first place in the New World where settlement was attempted. Columbus landed here in the Santa Maria. Haiti was Spanish from 1492 to 1677 when it became French. It gained independence in 1804. Between 1910 and 1915 the country had five presidents and the United States finally intervened to maintain order. President Roosevelt ended American occupation in 1934 and withdrew U. S. Marines. The stamp above was issued in 1939 to honor Pierre de Coubertin, organizer of the modern Olympic games. The surtax was used to build a Sport Stadium in Port-au-Prince, capital of Haiti.

A heavy rain, approaching a ground-soaker, fell here Friday, washing the fields pretty bad, leaving deep gullies where water never ran before. A few days of sunshine would be beneficial to the peanut crop. The crop is most promising with a bumper yield of nuts and hay if the farmers can get it harvested promptly. Mrs. J. W. Brawley spent the day with her niece, Mrs. Alvey Bible, Wednesday of last week while Mr. Bible and daughter Ruth, were in Rising Star. Others coming in the afternoon were her parents Mr. and Mrs. Dan Curtis, Mrs. Wilburn Curtis and son J. B., and Mrs. D. W. Curtis of Brownwood. Billy Sweeney spent Saturday night and Sunday with his little friend Wayne McCorkle, of Nimrod. J. V. Heyser of Cisco, visited Mr. and Mrs. Owen Sweeney of the Heyser farm, Saturday of last week. Bob cats are preying upon the goats of Owen Sweeney and J. V. Heyser to such an extent that they are encouraging hunters to bring their hounds from Cross Plains and elsewhere to rid the community of these predatory beasts. Some lively and exciting chases have been run. Thursday night a number of local boys joined the hunters and chased a big cat three hours. The animal was treed twice, but finally escaped. The cats are so bold that they slip out and get a fat kid when they think there are no dogs to molest them. The drillers are having a rather tough fishing job in the Stewart Oil Co. Oscar Schaefer No. 1 test at around the 1,600 foot level. Up to this time the tools are still in the hole. W. D. Brecheen and son Roger, were out at the farm Sunday. He was highly pleased with the prospects of a splendid peanut crop, and the big herd of hogs consumed the mast that can be had. Clifton Brawley had just listed and harvested the young orchard that gave promise of plenty of fruit in future seasons. O. D. Vossell and son-in-law John McFarlin, and Frank Marsh attended the auction sale at the Livestock Exchange in Cisco Tuesday. Mr. and Mrs. A. V. Netragas and children spent Wednesday night with her parents, Mr. and Mrs. O. E. Pierce. Mr. and Mrs. Frank Marsh and children spent Thursday night of
