HOUSE ROAD BOND BILL GETS SENATE OK

HUSBAND, 95; WIFE, 78, PARTICIPATED IN PERDUE FAMILY REUNION SUNDAY

Honoring Mr. and Mrs. D. B. Perdue, Sr., 512 E. Seventh street, reunion of the Perdue family was held Sunday at Lake Cisco, with 77 present. The husband is 95 years of age; the wife, 78. The members spent the day participating with each other and eating a picnic dinner.

GEORGE W. TRUETT STARTED HIS 45TH YEAR IN DALLAS CHURCH WITH SERMON TO VAST AUDIENCE

DALLAS, Sept. 16.—In the quiet, somber dignity of a packed auditorium, freshly repainted for the occasion and filled to overflowing with reverently respectful followers, Dr. George W. Truett, modern-day Baptist apostle, Sunday morning began his forty-fifth year as pastor of the First Baptist church, a congregation that grew from 715 to more than 8,000 persons under his leadership.

or chaos, the Kingdom of God of world revolution. "We're facing that now," he said, emphasizing his point with a nod of his massive, leonine head. "The primary purpose of a preacher is to be the true shepherd of souls."

Homes Make Churches. "The primary function of the home and parents is to be a supreme ally of the church. "Poor homes make peer churches and poor, unraveled countries," he said.

Reviews Pastorate. Against the background of a choir in crisp white vestments, the silver-haired, soberly dressed orator of God reminisced briefly over his forty-four years with the congregation and expressed his gratitude to God for the blessings received during that time, and asked forgiveness for any mistakes and slight of duty.

CISCO WELFARE GROUP PLANS TRUCKLOAD OF CATTLE SOLD BY DR. CLARK

On call of the new chairman, Neil Lane, the Cisco Welfare board met at 9:30 a. m. today, at which time it was agreed that urgent request be made of all cooperating organizations that they at once select their official representatives for the year just beginning, and that those representatives be present for the next meeting, to be held next Tuesday at 9:30 a. m.

Evangelistic Theme. He made a passage, he said, which disclosed Paul's message and method as a worker for Christ, the central note of all evangelistic preaching.

Spindletop

STARTED IT!

Forty years ago an oil gusher roared in on a low hill south of Beaumont to open a new industrial era for Texas.

That discovery at Spindletop started our modern Texas petroleum industry and made Texas the nation's leading oil state.

In the forty years since Spindletop blew in, nearly 200,000 wells have been drilled throughout Texas. Over 500 separate fields are now producing in all parts of the State. Today Texas supplies over one-third of the Nation's oil and has over half of its petroleum reserves.

Our industry, by refining almost all of this oil in Texas, has created our largest manufacturing enterprise. By furnishing cheap fuel it has laid the foundation for many other Texas industries.

From a handful of Texans forty years ago, this industry has grown until now, directly or indirectly, it supports almost one million of our people. Its expenditures reach into every section of the State and benefit every Texan.

The discovery of America's first gusher oil field at Spindletop has turned out to be one of the most important events in the history of our state.

Today all of Texas salutes Spindletop!

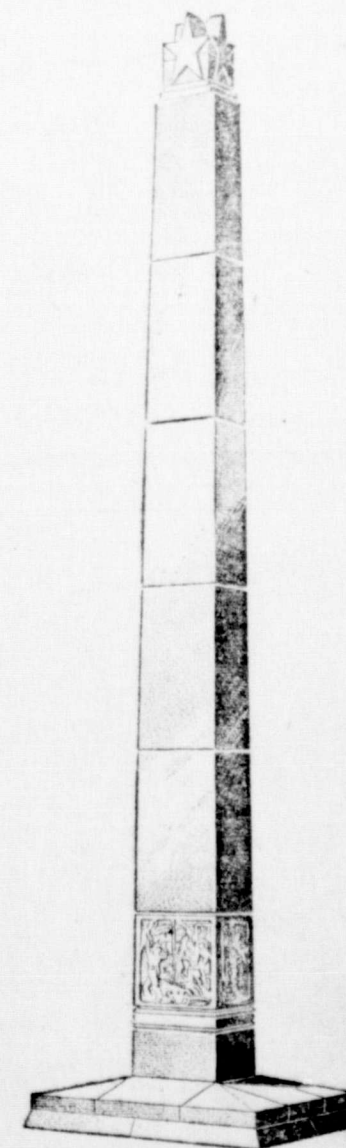

On October 9, 10 and 11, during its annual convention at Beaumont, the Texas Mid-Continent Oil & Gas Association will dedicate a monument to Spindletop.

Inscribed in ageless Texas granite will be the story of oil:

"Petroleum has revolutionized industry and transportation; it has created untold wealth, built cities, furnished employment for hundreds of thousands, and contributed billions of dollars in taxes to support institutions of government. In a brief span of years, it has altered man's way of life throughout the world."

This is more than a monument to petroleum. It is a tribute to Texas enterprise and initiative which in forty years have built a great industry in our State . . . an industry in which you and every other Texan share.

Face Injuries High In Auto Smashups

ST. LOUIS, Sept. 16.—The damage Dolbin did to his driver when he ran away with the buggy was slight compared to the havoc wrought when a modern high-speed vehicle piles up. Hence, according to Dr. John J. Shea, Memphis surgeon, the modern doctor has had to become expert at treating emergency cases involving complicated fractures of the facial bones. Most often, Dr. Shea told members of St. Louis clinics, the unhappy driver of an automobile takes the large end of the shock with his face.

A CLEAN RANGE IS NEW LONGER

SINCE housewives have been advised by the government to take extra care of the appliances they possess because some time may elapse before new equipment can be produced on a large scale, it will be easier if a daily or weekly routine of cleaning is worked out; then this can be followed without too much additional effort.

Take your modern gas range—purchased this year, last year, or even a few years before that—as an example. While a gas range lasts practically a lifetime and always gives good service, its usefulness can be prolonged indefinitely with reasonable cleanliness and care. Besides, it should be a matter of great satisfaction to every housewife to know she is cooking on a clean appliance, rather than one she has permitted to get dirty.
By far the most effective daily "wiper upper" for the range is a large piece paper towel, for this absorbs moisture and grease quickly, not to mention the almost microscopic particles of dust and grime in the atmosphere which sift onto all surfaces in the kitchen.
A paper towel comes in handy to wipe off top burners after they have been used and are cool; also the edges of the burner grates should be wiped free of any accumulated moisture or grease; spots and splatters of liquids such as milk, vinegar, lemon and tomato juices should be wiped from the enamel of the range at once to avoid stains.

DR. AND MRS. G. M. STEPHENSON ENTERTAIN FRIENDS AT RANCH HOME IN HONOR CLYDE GARRETT

A half-hundred men, women and children, including Dr. and Mrs. G. M. Stephenson from Cisco and Eastland, entertained Monday evening at their beautiful ranch home near Cisco at a friendly dinner and served on tables in the yard, which is arranged to accommodate an event of this nature these hosts like nothing better than to assemble their guests at a gathering and feed them.

The occasion for the dinner, which consisted of delicious baked ham, squirrel stew, ranch style hot and sour dishes served with black coffee—was to honor Congressman Clyde L. Garrett, who was home for a few days to allow him the opportunity to meet some of his many friends from Cisco and Eastland.

Dr. Butler was toastmaster, conducted the program in a most easy manner, calling upon every person present to say a few words, at least. These sessions praising Dr. and Mrs. Stephenson as the perfect hosts, and most cases climaxed with expressions of regard for Garrett, whom many had known for practically the life of his long life with many of those

present and expressed his delight to thus renew those friendships made during the past years of his career in Eastland county.

The meeting was opened by a short welcome by Dr. Stephenson and Mrs. Stephenson expressing their love for their friends and their delight in thus having them as guests along with their visiting friend, Clyde Garrett. The invocation was by Rev. Judson Prince, pastor of the First Baptist church of Cisco.

PENSIONS FOR TEACHERS BE OUT SEPT. 30

AUSTIN, Sept. 16.—Possibly 500 public school teachers in Texas, denied the benefits of pensions under federal social security, will for the first time in history Sept. 30 be mailed payments under the state teacher retirement system.

From the little red schoolhouse to magnificent big-city systems, many teachers the past four years have been contributing five per cent of their salaries toward retirement, but only recently did the legislature make benefits possible by matching those funds with state tax money.

The people of Texas long ago had voted to create the system but cash was lacking. Last May the state's lawmakers approved a multi-leveled tax law which made matching money available as of Sept. 1. The benefits will be paid monthly at the end of each month throughout the year.

John S. Rudd, Jr., acting director of the system, said today it was impossible to determine at this time the average amount of the checks since numerous factors in individual cases had to be taken into account.

"They could range from as low as possibly \$10 monthly to a maximum of \$90," he explained, "but we will not know until the teachers actually qualify. We estimate 2,400 are eligible but many of them prefer to continue working. Retirement is voluntary, although some school systems are making it mandatory at the age of 70. The law provides they may retire at 60 under certain conditions."

To supervise the burning of the note, George Boyd, chairman of the church's finance committee, J. M. Williamson, one of the original signers of the note, and Mrs. George Winston, whose late husband also signed it, were called to the church altar and a match set to the note.

Special music was rendered by Miss Wilda Drago and her octet of violinists.

PARDON PLEA OF JAN VALTIN UP FOR ACTION

SACRAMENTO, Cal., Sept. 16.—The California state advisory pardon board at its September meeting will consider the pardon application of Richard Krebs, better known as Jan Valtin, author of "Out of the Night."

Executive clemency for the 36-year-old former German seaman may prevent his deportation to the Reich. He told Gov. Culbert L. Olson of California a pardon would assist in his efforts to obtain passage of a bill in congress directing the attorney general to record lawful admission for his permanent residence.

A pardon, Krebs said, not only would help him establish an American home for his American wife and son but "it would also frustrate Nazi and Communist efforts to deliver me to Hitler's headmen for having become an implacable foe of totalitarian methods of government."

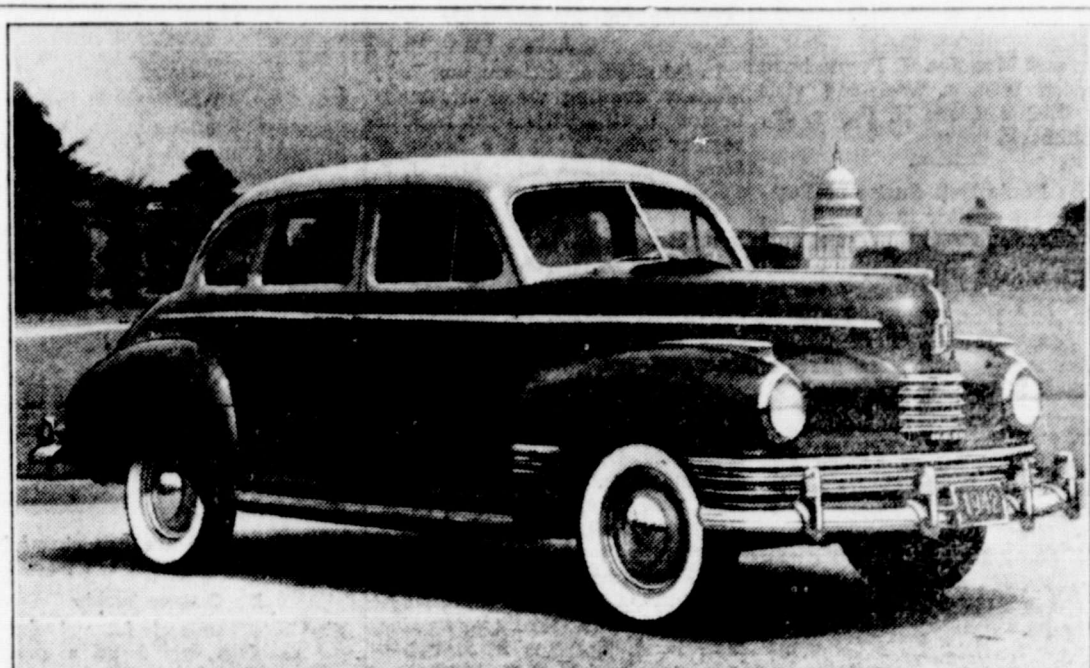

The author wrote the California governor that "my deportation to Germany would result in a certain death sentence or death by torture at the hands of Nazi authorities."

Krebs, who achieved recognition for his book, was convicted on an assault charge in Los Angeles in 1926. He served five years in San Quentin prison. Four years after his parole he said he was arrested by the German Gestapo in 1933.

A Nazi special tribunal at Hamburg convicted Krebs in 1934 on charges of high treason against the Nazi government. He served 40 months in prison before escaping to the United States.

Krebs lives in Danbury, Conn. One of the principal advocates of executive clemency for him is William Allen White, Emporia, Kan., editor. White said Krebs' book "has stirred more people to the realization of the dangers of the dynamic philosophy of Communism than any other one book

"Gas Saver" Car Features Nash '42 Line

Even a world war couldn't stop it. Four years ago Nash decided to enter the Chevrolet-Ford-Plymouth mass market with a new kind of low-priced car. They planned this big, six-passenger automobile, bought millions of dollars worth of machinery to build it before the national defense emergency set in, and so it is available to motorists this year. It offers 25 to 30 miles to a gallon of fuel, is a big car, built like a bridge of all-welded steel girders, will last longer, and maintain maximum performance longer. Nash now is concerned mostly with producing every \$100,000,000 worth of defense orders, but the government will permit them to build a sizable quota of these economical cars.

Others who have urged clemency for the author include Francis Frothingham, Boston; I. W. Traxler, Vernon, Tex., dairyman; Dr. S. D. Schwartz, executive director of Sinai Temple, Chicago; the Rev. J. Albert Steele of the Vernon, Tex., Presbyterian church; Lewis Waldman, former Socialist candidate for governor of New York; Dr. George S. Counts of Columbia University, national president of the National Federation of Teachers; Eugene Lyons, editor of the American Mercury; and L. M. Birkhead, national director of the Friends of Democracy, Inc.

He declared he was under 21 years at the time of commission of the Los Angeles crime. He pointed to his good prison record and his observance of all parole regulations.

"I have, since reentering America, actively, by written and spoken word, supported and defended American institutions, and have also consistently exposed Nazism and Communism wherever I have been afforded an opportunity to do so," he said in his application.

Olson assured White every consideration would be given to Krebs' application. In his application which he

EYES, TOO, HUNGER FOR RIGHT FOOD

Pictured here are two cheerful dining rooms. Larger view shows result of installing a modern center fixture. Smaller picture shows how old fixture can be modernized today at very low cost.

By Carlene Waldo

DINNER on early fall and winter evenings would be a pretty sorry affair without lighting which is in good taste—for eyes.

I might almost go a step further and say that dining improves... as lighting improves. As a matter of fact, the kind of lighting served has a lot to do with the enjoyment of meals.

Fortunately, it can be such a simple matter to improve the dining room lighting.

In a number of homes now new fixtures are being installed, certainly not a bad idea considering that the new ones are such a great improvement both in appearance and in light output.

For the informal dining room, where the table may be used for studying and games, as well as for meals, a suspension-type fixture, as pictured (left), is an excellent idea. Lighting emphasis is thus secured on the table where it is wanted. This particular fixture is an example of the many inexpensive, well-designed ones available to the home-on-a-budget.

The drop cord (right) found in dinettes and dining rooms in some homes can be modernized in a jiffy with a screw-in adaptor, the kind with inner diffusing bowl to suit out glare and with 100-watt bulb to give more generous lighting.

There is no end, of course, to the dramatic lighting effects that can be secured in the dining room when cost is not a first consideration. Streamlined fixtures for the new fluorescent, non-fluorescent bulbs, spot lights trained on the table from concealed locations in the ceiling, and a glow of light from window cornices, are a few examples.

But whether the aim be dramatic or simple... the result is sure to increase the charm of atmosphere and to lend greater enjoyment to meals... when the new lighting principles are followed.

HOG PRICES SAG; CATTLE ARE STEADY

FT. WORTH, Sept. 16.—Hog prices at Ft. Worth Tuesday opened steady to be lower, but late sales were mostly 15c below Monday's average. All classes of cuttle and calves ruled steady. In the sheep yards, yearlings and wethers were 25c higher.

Good to choice steers and yearlings were priced at \$10 to \$11.75. Sales included a package of feed heifers at the top figure, one load of 912-pound steer yearlings at \$11.50, two loads of mature f-d steers at \$11 and one load of steers at \$10. Common to medium grasser steers and yearlings sold at \$6.50 to \$9.50, the latter price being paid for two loads of Brahman steers.

Good to choice fat calves brought \$7 to \$8, butcher cows \$6.25 to \$7 and canners and cutters \$3.50 to \$6.25. Bull prices ranged from \$6 to \$7.75.

Good to choice fat calves sold at \$9 to \$10.60, plain and medium butcher calves at \$7 to \$9 and cull calves downward to \$6.

Good to choice stocker steer calves ranged from \$9 to \$12.50, with similar grades of heifer calves at \$7 to \$9. Good to choice stocker steers... yearlings... ranged from \$9 to \$10.50. Common to medium stocker steers and yearlings brought \$6.50 to \$8.50. Stocker cows were carried back to the grass at \$5.50 to \$8.50.

Early sales in the hog yards were steady to 5 cents lower but later sales were mostly 15 cents below Monday's average levels. The Tuesday top was \$12. Good to choice butcher hogs sold as follows: 180 to 280 pound averages at \$11.85 to \$12; 160 to 175 pound weights at \$10.50 to \$11.15. Packing sows were steady to weak, mostly \$10.25 to \$10.50, a few at \$10.75. Pigs were steady, mostly \$10.25 to \$11.

Spring lambs were scarce in the sheep department, but a few sales carried steady prices. Yearlings and wethers were strong to 25 cents higher with some 2-year-olds up more. Feeder lambs were strong. Sales included medium to good spring lambs at \$9 to \$10.50; yearlings at \$9 to \$9.50; 2-year-olds at \$8 to \$8.50.

A. H. LOCKHART SAYS ROMNEY IN GOOD SHAPE

"Crops are looking fine in my community," says A. H. Lockhart, who lives at Romney, about six miles out on the Rising Star highway.

"Not only are the feed crops fine, but general conditions were seldom better. There is plenty of moisture in the ground, and a bumper peanut crop is practically certain. While we have had a bit too much rain for the peanuts, I hardly believe there has been enough to cause the matured ones to sprout. The farmers are not yet ready to harvest the peanut crop, so there is no call to worry until harvest time about saving the peanut hay. We will hope for the best and postpone our worrying about the rainfall until the harvest.

"Feed crops generally are looking fine, the grass is rank and green, and cattle are fat," Mr. Lockhart said.

"Eastland county farmers will be in much better shape this fall than was indicated earlier in the summer. Those who have cattle and hogs will realize more for their livestock than has been the case in several years. Peanuts, being the major crop this year, are higher than in previous years, which is not hurting the farmers any," he said.

FAMILY IN DIRE NEED AIDED BY WELFARE ASS'N

Here is a human interest story about a family in Cisco. In the family there are the father, the mother, three school children and a seven months old baby. The father has been on W. P. A. work but because of sickness has been laid off. The three older children have just started to school. The infant has been critically ill with a "strep" throat and some fear had been expressed it might be diphtheria.

Cisco people, realizing the urgent need of the family, would like to do something to help. And they are helping though they do not even know who the family is. And here is how they are helping.

Through our City Welfare Association, with Mrs. B. S. Huey as executive secretary, the three school children have been supplied with clothes, most of which were contributed by families whose children had outgrown them. Medicine is being provided for the sick baby and also the special diet prescribed by the doctor. The mother and father have sought and are receiving

Draft Calls For 40,491 Trainees

AUSTIN, Sept. 16.—One of Texas' largest draft calls was issued Monday, hiking to 40,491 the number of men provided for military training since the federal program was instituted.

Gen. J. Watt Page, state selective service director who issued two calls, said local draft boards had been asked to furnish 4,289 men between Oct. 6 and 21.

Even before defense expansion, the steel works and rolling mills in the U. S. constituted a three-billion dollar industry in terms of factory value of annual production and give employment to more than 400,000 persons, states the Census Bureau. Wages amounted to \$569,000,000.
