COMBINED WITH CISCO DAILY NEWS AND CISCO AMERICAN AND ROUND-UP, NOVEMBER 1, 1937

In an area of benevolent climate, blessed with an abundance of the purest lake water, possessing the best in recreational facilities, situated on the Bankhead, all-weather route, with three railroads and many highways, Cisco is the best place in Texas to live and to work.

CISCO, TEXAS, FRIDAY, SEPTEMBER 26, 1941

NUMBER 19

## GOVERNOR STEVENSON CISCO VISITOR TODAY

### 9,949 PEOPLE IN TEXAS PROFITING MONTHLY FROM OLD-AGE INSURANCE PLAN

ABILENE, Sept. 26.—At the end of the first 18 months of operation of the federal old-age and survivors insurance plan of monthly payments, 9,949 individuals in Texas were receiving checks for a total amounting to \$161,064 last month, it was announced today by William O. King, manager of the Social Security board field office at Abilene.

Beneficiaries include retired persons over age 65, aged widows, and aged widows, dependent children and dependent parents.

Benefit rolls are growing monthly as more workers retire, King said.

According to the type of beneficiary, the following payments are being made as of June 30, 1941:

Number	Amounts
Widowers over 65	4,239 \$87,137
Widows (widows of retired workers who are over 65)	883 9,528
Widows of deceased wage earners who are over 65	146 2,891
Widows' current allowances under 65 with dependent children of deceased wage earners (in their care)	1,306 23,914
Dependent children	3,338 37,260
Dependent parents	38 424

The above figures do not include the share of persons who were claiming insurance payments during some part of the year which was discontinued due to their return to covered employment by retired workers, earnings received by other beneficiaries, marriage of widows, young people, and attainment of age 18 by dependent children. It was pointed out by King that the share of insured workers may receive insurance benefits regardless of age while they have dependent children under age 18.

Dependent children also receive benefits in case the insured worker either dies or retires. The widow's benefit is three-fourths of the wage earner's, and the child's benefit is one-half. The monthly payment to wives of dependent parents is one-half of that of the wage earner's insurance payments. Dependent parents receive payments only in case the wage earner is dead and leaves no widow or dependent children under age 18, King stated.

### PREBYTERIANS HAVE SPECIAL SERVICE SUNDAY

There will be special services at the First Presbyterian church Sunday. At the morning service, Robert Purroy will be installed as an elder. At the evening service there will be a "Loyalty Day" program. This program is being held throughout the church. There will be no sermon. The program will be rendered by the men and women of the church and every member is urged to attend, says the pastor, Dr. Gary Smith.

### NYA WILL FIND 450,000 MORE STUDENT JOBS

WASHINGTON, Sept. 26.—The parade of students who have marched through high schools and colleges during the past six years with the help of money earned on part-time jobs provided by the National Youth Administration is expected to reach the 2,000,000 mark by the end of the current academic year.

Since inception of the NYA in 1935, approximately 1,750,000 students have been able to continue their education because the NYA gave them jobs that helped "make ends meet."

This year, another 450,000 students in 1,700 non-profit making colleges and universities, and 28,000 non-profit making high schools will get similar jobs.

Students between the ages of 16 and 24, inclusive, who need jobs to remain in school will be employed. Young men and women enrolled in secondary schools may earn between \$3 and \$6 a month, while those enrolled as college undergraduates may make from \$10 to \$20 a month. Graduate students may earn from \$20 to \$30 a month.

### OIL COMPACT MEET BE HELD OCT. 15 AND 16

FT. WORTH, Sept. 26.—The quarterly meeting of the Interstate Oil Compact Commission, comprising nine oil producing states, will be held in Fort Worth Oct. 15-16.

Governor Phillips of Oklahoma is chairman and Charles L. Orr of the same city, is secretary. It is announced that Secretary of Interior Ickes, petroleum coordinator, has been invited to address the meeting on Oct. 16.

An invitation also has been extended to two officials of the co-ordinator's office, Robert E. Allen, director of production, and E. L. DeGolyer, director of conservation. None of the three had replied Friday.

Joseph Rucker was in Cisco today hunting sacks for his penants, he stated. They are the finest he has ever grown, he states, and with the good price being quoted, and the prices for cotton and cotton seed, he thinks the farmers should be sitting on Easy street.

Most farmers have some cattle of some nature. Either sheep, goats, cows or hogs.

And all of these are at high levels. Wool and mohair have commanded high prices all the year.

Cattle have been steadily advancing and hogs have been breaking records for the past few weeks.

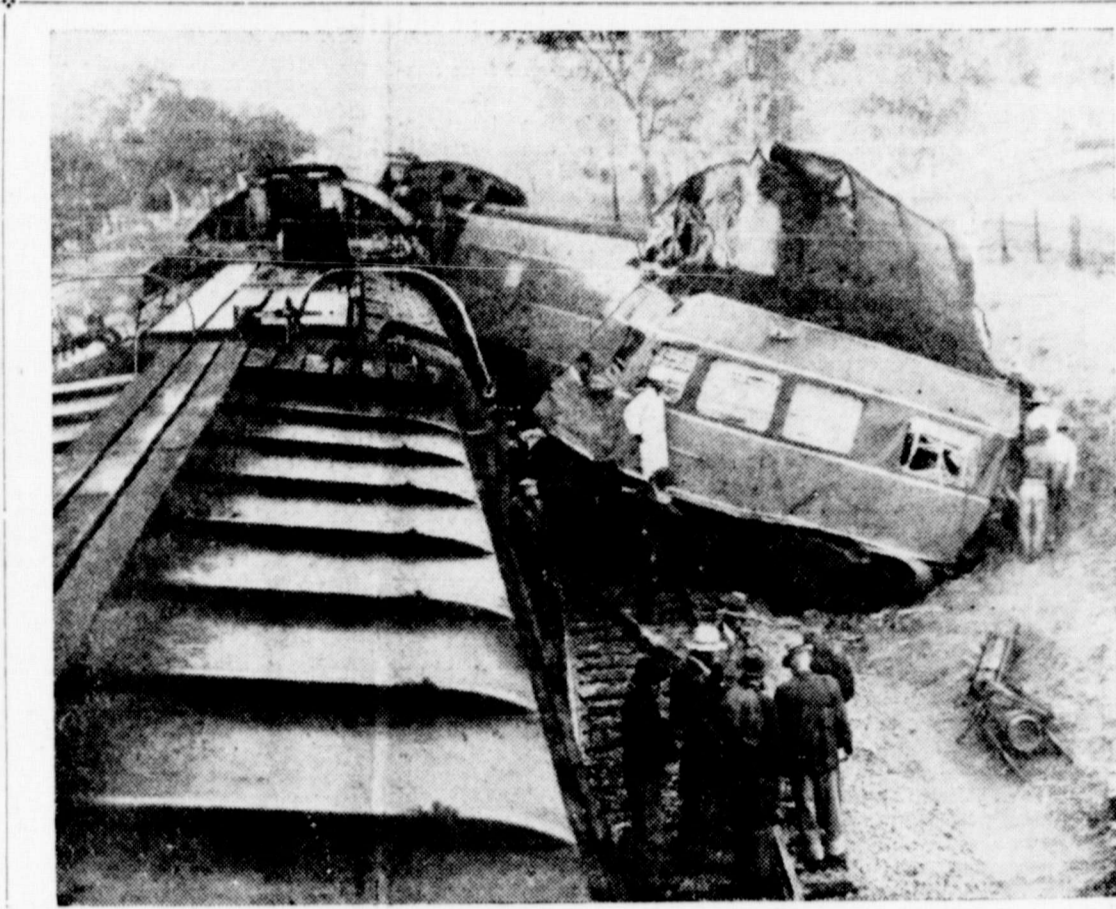

Verily, the farmer should be on the way to prosperity! Most farmers have been receiving bonuses for farm-crop cooperation, which fact has given them government money, either for ranch soil conservation, for building tanks or for cutting acreage or otherwise cooperating with farm programs.

Rehabilitation of rent houses has enabled them to get such buildings in good repair without going in debt for such items.

The farm programs which have paid farmers to plant soil-building crops and then allowing them to graze them off, have also helped in a large measure.

The farmer is going to be worth cultivating for his buying power. He has developed expensive desires, the same as his town brother.

His wife and daughters patronize beauty shops and ready-to-wear stores, and all the family recreate at the picture shows, while they all use gasoline and kindred products to the full extent of their ability to spend. They no longer depend upon the family smoke house, garden or cow for their food. They carry out more paper sacks on Saturdays than do their town cousins.

STALLED TAXI CAUSED THIS—Here is part of the wreckage caused when a fast freight train struck the rear of the passenger train near Lark, Calif. Stalled taxi had disrupted block signals, hence brakes were applied too late and long freight skidded into streamliner ahead.

### RESTORATION OF LAKE M'CARTY DAM, AT ALBANY, IS NOW UNDER WAY; WPA LABOR IS BEING USED

### MARKET STEADY

FT. WORTH, Sept. 26.—Prices were generally steady on the moderate supply of cattle and calves at the Ft. Worth livestock yards Friday with trading largely a cleanup affair. Quality was mostly medium and low grades.

Medium to good steers and yearlings brought \$8.50 to \$10.50, a load of heifers at the latter price. Occasional choice yearlings sold up to \$11. Common slaughter steers and yearlings bulked at \$6 to \$7.50.

Fat cows cashed mostly at \$7 to \$7.75, butcher cows at \$6.50 to \$7 and canners and cutters at \$3.75 to \$6.25. Old bulls cleared at \$6 to \$7.50.

Good fat calves cashed mostly at \$9 to \$10, a few choice heavies selling up to \$10.50. Plain and medium butcher calves sold at \$7 to \$9 and culls down to \$6.

Stockers were scarce in the fresh supply. Choice steer calves were quotable from \$12 down, heifer calves 50 cents to \$1 under similar grades of steer calves. Common to medium stocker calves sold at \$6.50 to \$9 and odd lots of stocker steers and yearlings at \$6.50 to \$9.50.

Hogs were mostly steady with Thursday's average, topping at \$11.35. Good and choice 180 to 280-pound weights moved at \$11.25 to \$11.35. Good and choice 150 to 175-pound averages brought \$10.50 to \$11.20. Packing sows were steady to 25 cents higher, selling at \$9.75 and \$10. Stocker pigs cleared from \$10 down or at 50 cents lower rates.

Killing classes of sheep and lambs ruled steady. Feeders were scarce. A few spring lambs sold at \$10.50 down, good yearlings at \$9.50, two-year-old wethers at \$8 and aged wethers at \$6.50 down.

### BOY KIDNAPED.

PASADENA, Cal., Sept. 26.—Nearly 24 hours after he disappeared, supposedly in the company of a strange woman, 4-year-old David McElwin, son of a Pasadena aircraft worker was still missing Friday, and police were convinced the child had been kidnaped. Los Angeles police and the county sheriff's office were asked to aid Pasadena police in the search.

### DAVIS IS IMPROVED.

I. J. Davis, who lives on S. D avenue, and one of the old-timers of Cisco, was downtown today. Mr. Davis has been in ill health for several years, but can now walk some without his crutches.

Mrs. C. H. Dawson, of Dallas, is a guest in the Davis home. She is an old friend of the Davis family.

### OUT-OF-TOWN GUESTS.

Mr. and Mrs. E. W. Blount of Dallas and Mr. and Mrs. S. W. Hicks of Fort Worth will be weekend guests of Mr. and Mrs. D. G. Streeter. Mr. Hicks formerly lived in Cisco and was a student in Cisco high school.

### 19 TO 0 IN 1ST HALF

The Cisco-Eastland high school football game, at Eastland this afternoon, was a one-sided affair at the end of the first half, the score standing 19 to 0 for Cisco.

Lasater made two touchdowns, the third being made by Potter. The stands were about half filled, the Daily Press informant stated, with Eastland and Cisco being represented about 50-50.

### LARGEST TNT PLANT NOW UNDER WAY

JOLIET, Ill., Sept. 26.—Manufacture of TNT and other explosives started Friday at the \$51,000,000 Kankakee Ordnance Works, which the army described as "probably the largest plant of its kind in the world."

LT.-Col. T. C. Gerber, commanding officer of the 22,000-acre plant, announced that one TNT production line is operating. It is the first TNT plant built in the defense emergency to go into production. Construction started ten months ago.

**BIG STORE PICKETED.**  
SAN FRANCISCO, Sept. 26.—The Emporium, San Francisco's largest department store, was picketed before dawn Friday by AFL Retail Store Unions which threatened to spread their strike to 21 other major downtown stores to enforce their demands for wage increases and a union shop.

### TAX ON CRUDE OIL BE HIKED IN MISSISSIPPI

JACKSON, Miss., Sept. 25.—Gov. Paul B. Johnson will recommend that the 1942 legislature increase the state severance tax on oil production from two to five per cent, he said Thursday night.

Johnson said the present levy is bringing into the state treasury an average of \$1,080 daily from the 250 wells producing in Yazoo county's Tinsley field. Louisiana's government, said Johnson, collects from 5 to 11.5 per cent on production and "certainly Mississippi would be justified in raising our tax by three per cent."

A similar recommendation by Johnson was sidetracked by the 1940 legislature, which met when only a few wells were producing in the field.

### PRIORITIES SYSTEM IS A FAILURE

WASHINGTON, Sept. 26.—Priorities Director Donald M. Nelson today declared that the entire priorities system must be changed to avoid "national disaster" of destroying small-business men.

Nelson told the house banking committee now studying price-control legislation, that instead of issuing priority certificates, the government will find it necessary to make direct allocation of scarce materials to manufacturers.

Under the priorities system, Nelson continued, companies that are given equal priority ratings still are not assured of materials, but must scramble among themselves to obtain them.

So many priorities have been issued that the system is breaking down, Director Nelson concluded.

### PANZER UNITS MOSCOW BOUND ARE CRUSHED

The Red Army reports that the powerful Nazi Panzer offensive, heading for Moscow under Adolf Hitler's orders, has been crushed. Berlin, however, countered with the claim that 574,000 Soviet prisoners have been captured in a mop-up of the Kiev pocket.

Private courses reported to the United Press in New York that a daring band of Canadian troops, in a night landing on the coast of France recently, carried off 28 Nazi officers and important war documents.

### WAS ENROUTE PANHANDLE TO KEEP DATES

Gov. Coke Stevenson visited briefly in Cisco this morning. In company with his secretary, Ernest J. Boyett, the governor was on his way to the Texas Panhandle for a series of engagements.

He will participate in a barbecue at Borger Saturday evening honoring Dave Warren, publisher of the Borger Herald and recently elected president of the Texas Press association.

On Sunday Governor Stevenson will address a convention of labor union representatives in Amarillo, and on Monday will take part in ceremonies opening the Tri-State fair there.

The governor and his party were welcome visitors at the Daily Press office.

"It is good to get out over Texas," he said, "and that is particularly true in the fall of the year. I wish I had time to accept all of the invitations that I receive, but it is physically impossible. I am, however, making as many visits as I can."

With Tom Stark as pilot, the distinguished visitor -- who is hale and hearty and easy to greet -- met as many local people as possible during his brief stop-over in Cisco.

### IS STILL A CISCOAN.

"The article in your paper concerning my employment at Sweetwater," said B. A. Butler over the telephone today, "was unauthorized and left the wrong impression. Please state that I have no intention of removing from Cisco."

### IDLE TANK CARS.

WASHINGTON, Sept. 26.—Secretary Ickes, the petroleum coordinator, said Friday a "factual inventory" had found a net surplus of only 5,192 rail tank cars available to haul petroleum to the Atlantic seaboard. This finding sharply disagreed with a contention of J. J. Pelley, president of American Railroads that 20,000 idle tank cars were available for operation in the oil emergency. The survey Ickes quoted was made by the east coast transportation committee of the oil industry.

(From Files of Cisco Daily News, September, 1928.)

The first rounds in all flights of the Cisco Country club championship golf tournament have been played and several of the dark horses of the championship flight have developed into real contenders by eliminating a few of the favorites.

Championship Flight

T. J. Duncan defeated J. W. Leve one up. A. H. Becker defeated M. C. Williamson two up and one. J. R. Almond defeated Jack Kelly four up and three.

Second Flight

C. C. Moore defeated W. W. Brown one up on the 18th. Garland Shepherd defeated J. E. Tichenor one up.

Third Flight

W. W. Wallace defeated W. B. Statham eight up and seven. Nick Miller defeated F. D. McMahon five up and four.

Fourth Flight

Homer Slicker won from Lawrence Keough by default. In the first flight, Duncan, Simpson and Graham had a hard time defeating their men, all three matches being won on the last hole.

Pairings for the second rounds in all flights, which must be played by 7 o'clock Thursday afternoon, follow:

Championship Flight

T. J. Duncan vs. A. H. Becker. J. R. Almond vs. Gay Dabney. G. M. Simpson vs. B. C. Boney. W. T. Graham vs. M. E. Grasty.

Second Flight

C. C. Moore vs. Garland Shepherd.

Third Flight

J. E. Tichenor vs. J. A. Lash. W. W. Wallace vs. Nick Miller. W. W. Moore vs. Homer Slicker.

Quite a number of Cisco people heard the address of Mrs. Clara Driscoll Sevier, Democratic national committeewoman, who spoke in the city hall at Eastland Tuesday evening. The auditorium was comfortably filled and those who heard her were particularly pleased with the address.

I am getting lots of letters from my friends down by the sea who have blithely slipped their letters and are patronizing me. They are dipping in the ocean, they are dancing every night, and they somehow have a notion they are in exactly right. But I do not need the pity that their postcards always tell. For I like it here in Cisco in the summer very well.

O'DANIEL SAYS NO ONE MUST BE DENIED WORK BECAUSE OF UNIONISM

WASHINGTON, Sept. 25.—Senator W. Lee O'Daniel (Dem.) of Texas Thursday introduced in the senate a resolution proposing an amendment to the Constitution providing that no person shall be denied employment because of membership in or affiliation with or resignation from a labor union, or because he had refused to join or to become affiliated with such a union.

"It is that blood-sucking, money-minded labor leader racketeer that I am talking about—the fellow who tries to make the laborer think he is his friend, when in reality he is the laborer's worst enemy in disguise. And it is my opinion that the laboring men and women of this nation are realizing that fact more each day. They are getting tired of paying exorbitant fees, then being led into strikes and suffering deprivation of the necessities of life for themselves and their families, in order to pay tribute to their big racketeer leaders who desire to rule or ruin.

"In my opinion it is a disgrace to the American people that we have a government in Washington which permits what it has apparently permitted in the shipbuilding yards in New Jersey. Governmental agencies have taken the position that if a man is a member of a labor union and does not pay his dues, he should lose his job. Under such a condition, no matter what racketeering element might get control of the labor union, no matter how much the membership of the labor union might disapprove such action, they still would be required each month to pay their dues."
