### Cisco Christmas Activities Opened With Carols and Lighting of Business Area

Ushering in the first event of the merchants' Christmas trade expansion campaign, the Cecilian singers, directed by Hjalmar Bergh, sang carols around the Christmas tree on the lawn of the First Methodist church last night preceding and after the lights were turned on the tree and in the business district.

Edward Lee, master of ceremonies, announced the various events to be sponsored during the month of December by Cisco merchants.

John Smith had charge of the public address system furnished by A. G. Motor company.

Pete A. Gator was in charge of program arrangements.

Charles Sandler arranged the stage.

Several hundred people witnessed the program, which was pronounced quite satisfactory. The carols by the Cecilian singers and the organ accompaniment by Mr. Bergh showed much talent and training.

Following the program at the tree, cars drove to the main business section to view the two lighted trees at the west approach of the overpass on Highway 80, and to inspect the windows of merchants who had arranged Christmas merchandising displays.

Members of the Cecilian Singers are: Miss Ella Andres, Miss Elizabeth Coleman, Mrs. R. N. Cluck, Miss Pearl Donaway, Miss Marian Jacobs, Miss Mary Louise Poe, Mrs. A. E. Jamison, Mrs. W. D. Johnston, Miss Noma King, Mrs. Leon Maner, Mrs. W. C. McDaniel, Mrs. James Mobley, Mrs. Lonnie Shockey, Mrs. O. L. Stamey, Mrs. W. B. Statham, Mrs. J. J. Tableman, Mrs. J. E. Walters, Mrs. W. W. Wallace, Mrs. L. E. Richardson, and Miss Elizabeth Hughes. Hjalmar Bergh is the conductor.

### TRANSITE PIPE IS INTRODUCED HERE BY C. G. S.

Local gas pipe lines that have sprung leaks caused by acid corrosion are being replaced by the Cisco Gas Corporation with transite pipe. This non-metal pipe is manufactured by the Johns-Manville Co. and is something new, here and elsewhere, says R. L. Ponsler, president of the corporation.

The pipe will stand a high pressure test of 600 pounds and is impervious to either electrolysis or corrosion due to acid conditions of the soil.

Twenty-five men are working on a pipe replacement job adjoining the Daily Press office.

### SANTA CLAUS MAIL.

For convenience of children's Santa Claus letters a U. S. mail box has been erected especially for this mail. As many of them as possible will be printed in the Cisco Daily Press.

A 2-cent stamp will be necessary to deliver them to Old Santa.

The box, located in front of the Daily Press, is painted red, so that it will not be confused with other mail boxes.

Mail your letters to Santa Claus day or night.

### YEGGS BLOW SAFE

Deputy Sheriff Steele Hill, in a telephone conversation with the Cisco Daily Press this afternoon, said officers had no clues to those who robbed the Eastland Drug company early Tuesday by dynamiting the safe.

The robbery, discovered about 7 a. m. today, when Manager Alvie E. Herring opened the establishment, was apparently directed by old hands at the game, since the explosion that tore out the combination of the safe was not heard.

Currency to the amount of \$300 and about \$150 in silver was taken.

In addition, narcotics valued at \$80 are missing.

### CATTLE MARKET

All classes of cattle and calves found an active market at Fort Worth Tuesday with prices fully steady with last week's close on all offerings. Cows were strong to slightly higher than on Monday. Bulk of the supply was made up of medium and low grades in all classes.

The hog market opened steady to 10 cents higher than on Monday at a top of \$10.45. Later sales were 15 to 25 cents lower than Monday with the late top \$10.20.

Fat lambs were steady to strong and other classes of sheep and lambs ruled steady.

Common to medium grades of steers and yearlings ranged from \$6 to \$9.50, sales including load lots at \$8.50 and \$8.75. Good to choice fed steers and yearlings brought \$10 to \$11.10, including one load of good fed heifers at \$10.75 and a short load of steers at \$10.60.

Good fat cows sold at \$6.50 to \$7.50 with butcher cows at \$5.50 to \$6.25 and canners and cutters at \$3.50 to \$5.50. Bull prices ranged from \$5.75 to \$7.50, including one load at \$7.

Good to choice fat calves sold at \$8.50 to \$10 with plain and medium butcher calves at \$6.50 to \$8.50 and culls at \$5.25 to \$6.25.

Good to choice stocker steers calves ranged from \$9 to \$11.50 with stocker heifer calves generally \$1 below the steers. Common to medium stocker calves went out at \$6 to \$8.50. Medium to good stocker steers and yearlings sold at \$8 to \$9.50 with two loads of steer yearlings at \$8.75, and a package of stocker yearlings at \$9.

### CITY RESCINDS FORMER ACTION ON C. & N. E.

In a special meeting of the Cisco chamber of commerce this morning that body passed a resolution rescinding former action in which it had protested abandonment of the C. & N. E. railroad.

This road, 65.85 miles in length and extending from Cisco to Throckmorton, has been a losing venture for the past several years and practically all the towns along the line, recognizing that traffic over the road does not justify its continued operation, have now withdrawn their objections and have notified the railroad commission of Texas to ignore former protests.

Following meetings of the city commission and chamber of commerce, the following joint telegram was dispatched to the railroad commission at Austin: Railroad Commission of Texas, Austin, Texas.

Cisco has withdrawn its opposition to the application of the Cisco and Northeastern to abandon its railroad between Cisco and Throckmorton, and it is our desire that you make no protest in our behalf.

J. D. LAUDERDALE,  
V. P. Cisco C. of C.  
GEORGE BOYD,  
Mayor Pro-Tem.

Present at the chamber of commerce meeting this morning were the following directors and members:

Directors—E. P. Crawford, Sutton Crofts, J. D. Lauderdale, Nick Miller and H. H. Monk.

Members—A. G. Tuttle, A. V. Clark, George Boyd, F. D. Wright and Jack Anderson.

### JACK HAYWARD, MORAN PIONEER DIED STURDAY

MORAN, Dec. 2.—Death Saturday ended the career of J. A. (Jack) Hayward, 87, who came to Shackelford county in 1883 to experiment with Norman horses, and remained the rest of his life as stock farmer, general store operator and postmaster.

Hayward died at 1:30 Saturday afternoon at his home. He had been in failing health for months, and his condition had been critical for three weeks. Most of his children were present when death came.

The funeral held at 3:30 Sunday at the home here, was conducted by the Rev. W. P. Gerhart of the Heavenly Rest Episcopal church in Abilene. Hayward was a member of the Episcopal church.

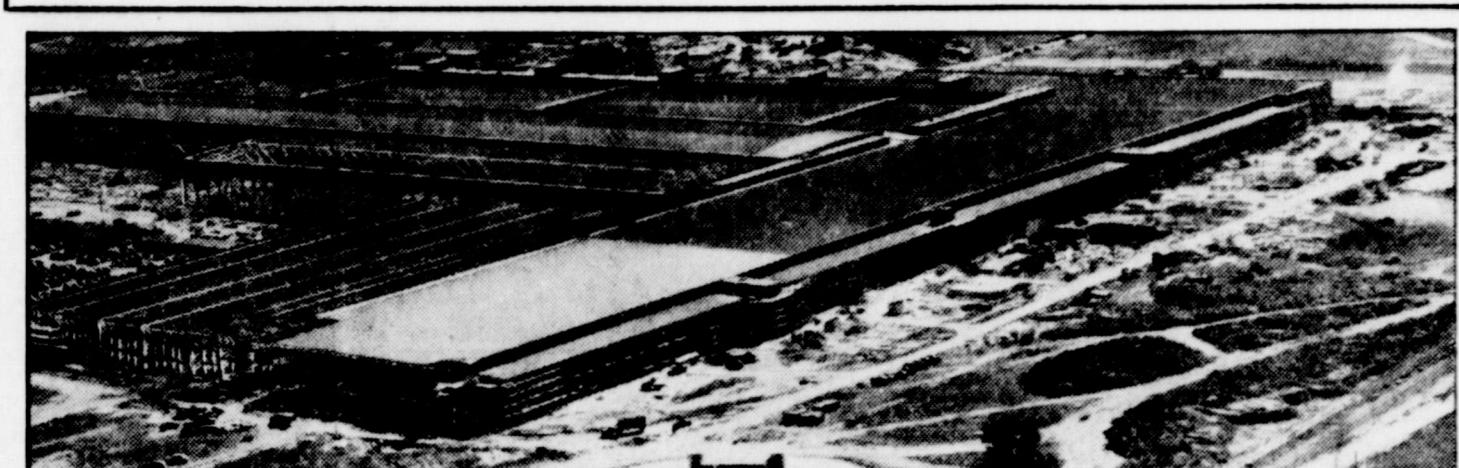

Eight children survive. They are Mrs. S. E. Jones, Hamilton; Mrs. Thomas Hood Simpson, Abilene; H. E. Hayward, Longview; G. H. Hayward, Big Spring; J. C. Hayward, Hollywood, Calif.; J. A. Hayward, Jr., Longview; Mrs. W. R. Woolsey, Fort Worth; and Ralph Hayward, Dallas. Mrs. Hayward died in Moran in 1921.

Born on Bermuda island, Hayward became a sailor, but in 1883 brought from Illinois to West Texas some Norman horses. The breed did not thrive here, a son of Hayward recalled, but this failure did not keep the pioneer from remaining in Shackelford county.

His stockkeeper-postmaster experience spanned the period from 1897 to 1913. He had not been active in business for several years.

Mr. and Mrs. Shaffer Horn of Albany spent Sunday with friends in Cisco.

### Huge Ford Bomber Plant in Michigan Takes Form

THIS AERIAL PHOTO shows the huge \$47,000,000 bomber plant the Ford Motor Company is building at Willow Run, near Ypsilanti, Mich. In the foreground is the nearly completed manufacturing section, which forms the lower part of the "L" shaped plant. Only half of the actual length of the assembly building is shown in the photo. Ford will produce giant four-engine Consolidated B-24 bombers in the Willow Run plant. Construction work has advanced so rapidly a tool room already is in production in the new structure.

### R.R. MEN CALL OFF STRIKE

WASHINGTON, Dec. 2.—The threat of a strike was lifted Tuesday from the nation's railroads, simplifying the problems of traffic chiefs who must accommodate the heaviest holiday business in two decades on lines already jammed with defense freight.

Settlement of the dispute over wages and vacations was announced Monday night by Wayne L. Morse, chairman of an emergency board appointed by President Roosevelt.

Morse withheld exact terms of the peace agreement until it could be submitted to Roosevelt Tuesday, but other sources declared the pact would add from \$300,000,000 to \$325,000,000 a year to the carriers' pay rolls.

The walkout had been set for next Sunday, and hundreds of thousands of soldiers, due for Christmas furloughs, had been wondering how they were to get home from camp.

According to best available information, the terms finally agreed upon call for a 7 1/2 per cent retroactive increase for the operating men from Sept. 1 to Dec. 1 of this year, replaced on the latter date by an increase of 9 1/2 cents an hour.

The same sources, outside the board, said the nonoperating employees were to receive increases of 9 cents an hour for the Sept. 1-Dec. 1 period, and additional 1-cent-an-hour increases thereafter.

### TO SUPPORT LEACH.

Cisco lodge No. 556, A. F. & A. M., is well represented at the Grand Lodge meeting at Waco. A group left this morning for the meeting, others are reported to be going tomorrow, while others whose membership is in Cisco were already attending the grand chapter. Those who left this morning included O. L. Duckett, Frank Leach, R. L. Wilson, R. H. Walker, Fred Grist, G. R. Kilpatrick and J. M. Witten. Cisco Masons will support Frank Leach for deputy district grand master.

### BROWN'S GUESTS.

Guests of their parents, Judge and Mrs. W. E. Brown, for the Thanksgiving holidays, were Mr. and Mrs. A. D. Starling and daughter, Jean, of Ballinger, Mrs. J. D. Stanton and two daughters, Jerry and Jo Ann, of Temple, and Arnold Brown of Ft. Worth. Mrs. Stanton will be remembered as the former Miss Lucille Brown.

### ATTEND FUNERAL.

Mrs. W. L. Jones and her daughter, Mrs. Sam R. McInnes, left today for Hamilton, where they will attend the funeral of Mrs. Blackshear of that place, Wednesday at 11 a. m. They will return to Cisco Wednesday afternoon.

### CISCO JUNIOR COLLEGE NIGHT WAS FINE SUCCESS; INSPIRATIONAL SERMON BY J. R. WRIGHT

Cisco Junior College night was observed in a very successful manner at First Christian church Sunday night. Almost the entire center section of pews was occupied by the faculty and student body of the college and chairs had to be placed in the auditorium to care for the crowd attending the service.

The college male quartet, composed of Jack Chambliss, Edward King, Troy Carroway and Wilburn Ghormley, accompanied at the piano by Miss Wilda Drago, rendered two pleasing numbers. Miss Rose Ann Woods played a beautiful violin solo, accompanied by Miss Drago. Miss Marion Jacobs pleased the audience with her vocal solo, "Why Should He Love Me So," accompanied at the piano by Mrs. Troy Powell.

The pastor of the church, Rev. J. R. Wright, delivered an interesting and truly inspirational sermon on "Counting the Cost."

He brought out the idea that if one desired to live nobly he must be willing to pay the price in effort and sacrifice to achieve a noble end, that if one chose to live ignobly he must be willing to pay the price of loss of esteem of friends, loss of self-respect, and of dwelling in unhappiness to achieve ignoble ends. He showed that, all things considered, it cost considerably more to live an ignoble life than it did to live nobly.

It was a sermon the young people of the college will long remember.

### ROOSEVELT BE 60 YEARS OLD ON JANUARY 30

WASHINGTON, Dec. 2.—Plans for the annual nationwide celebration of President Roosevelt's birthday and the drive for funds for the National Foundation for Infantile Paralysis will be outlined by more than 100 state and local chairmen.

Basil O'Connor of New York City, president of the national foundation, has designated the celebration on Jan. 30 as the "diamond jubilee." The president will be 60 years old.

The day's meeting is to be climaxed by a dinner presided over by Keith Morgan of New York City, national chairman of the foundation, with high government officials and foreign representatives attending.

Because of the international situation the president will not attend but may receive the group of chairmen at the White House during the afternoon.

Among guests scheduled to attend are Jesse H. Jones, secretary of commerce, and Frank C. Walker, postmaster general.

### U. S. A. WANTS REPLY

WASHINGTON, Dec. 2.—The United States is understood to have asked Japan today for an early answer to last week's statement of basic American principles, and to have renewed its inquiries regarding the movement of Japanese troops into French Indo-China.

The request was said to have been made by Undersecretary of State Sumner Welles, who called to his office for a 35-minute conference two Japanese diplomats who have been conducting conversations with the United States.

The situation in the Far East meanwhile, continued tense and an analysis of troop and naval movements led military strategists here to the conclusion that the so-called ABCD powers already had made their decision to fight if and when Japan invades the now-threatened kingdom of Thailand.

The ABCD powers—America, Britain, China and the Dutch East Indies—are known to be in full accord with the position the United States has taken in the negotiations with Japan, and the ABCD members of the anti-aggression front were kept completely informed on all developments in the diplomatic discussions.

### U. S. MARINES DEPART FROM SHANGHAI

MANILA, Dec. 2.—All United States marines have been evacuated from Shanghai on President Roosevelt's orders, the navy announced Tuesday.

Along with civilians, the marines crossed in two contingents on the liners President Madison and President Harrison, which docked Tuesday several hours apart.

There was no indication whether the marines would remain here or be sent on to other posts.

### BANK ROBBED AND \$2,500 CASH TAKEN

CEMENT, Okla., Dec. 2.—Two youthful, unmasked bandits held up the First State Bank of Cement today and escaped with \$2,500 after locking Cashier G. A. Mann and his wife in the bank vault.

Mr. and Mrs. H. N. Lyle spent Sunday with friends in Abilene.

### BRITISH SAY REVERSAL BUT TEMPORARY

Both allied and Axis powers reported striking triumphs on the world's scattered battle fronts today and Prime Minister Churchill called for maximum mobilization of British manpower to assure superiority of arms by 1942.

Axis armored forces battled their way out of the British trap in the Libyan desert, recaptured Sidi Rezegh and Birel Hamed and renewed the siege of Tobruk.

Reversal of the trend of battle in Libya was described by the British as temporary, or until reinforcements are rushed into the fighting zone, but it was acknowledged that the Nazis have scored an important victory for the time being.

On the Eastern front the Red Army reported smashing triumphs on Rostov, Moscow and Leningrad fronts.

In fighting south of Moscow, official Soviet news agency said the Germans had failed in repeated attempts to break through the Tula sector and were driven back through several villages, with heavy losses.

On the Rostov front, Russian counter-offensives continued to threaten the Germans that were falling back through Taganrog sector with "disaster."

In the Far East, Japan commandeered all private Japanese shipping in China waters for movement of military forces southward, where a clash is threatened with American and British forces, which were strengthened by arrival of the new battleship Prince of Wales and other British fleet units at Singapore.

TIME TAKES A HAND.

The great British drive into vital Libya could not have come as much of a surprise to the German and Italian garrisons. It had been rumored for weeks that the campaign was brewing, and it was known that Britain had been sending tremendous quantities of supplies to Africa.

However, it is a distinct possibility that the Axis powers were surprised by the number of troops involved, and by the quality and extent of their equipment. It is probable that this is the first time in the war that Empire land troops have met Axis land troops without being definitely inferior so far as mechanized equipment is concerned.

The Libyan drive is providing a good test of American war materials. The 600,000 Empire troops engaged are largely equipped with American tanks, planes and other weapons. Trustworthy reports from the front cast great credit on American design and manufacture.

It is said the American tanks are definitely superior to German and Italian tanks of comparable size. Their armor is tougher, their fire power is as good or better, and their tracks permit going in terrain and under weather conditions which stop the Axis machines.

The American army has a general on the scene in the role of military observer, and he will be able to bring home very interesting and informative news.

Britain's purpose in shooting the works in Africa is manifold. First, it is of definite aid to Russia by placing a strain on Axis troops and resources. A new front has been opened. Germany will not be able to move troops and equipment from Africa to help on the Eastern front.

Second, the African campaign answers the Churchill government's critics, who have been demanding action. A sweeping British victory would do a great deal for Empire morale.

Third, it helps place Britain on an offensive, instead of a defensive, war basis. In other words, she apparently no longer feels she must keep all resources as intact as possible for purposes of self-protection. She now feels she can carry the war to the enemy on a major scale.

Fourth, and most important, from a military strategist's point of view, is the possible effect of the Libyan campaign in Italy. If the campaign achieves complete success, it will give the British possession of invaluable Mediterranean bases. These bases can and no doubt will be used to wage naval and air war against Italy on a terrific scale. In addition, a workable naval blockade could be established to prevent Italian shipping from leaving or entering home. Some authorities are confident that these methods would in time knock Italy completely out of the war—and force her to sue for peace.

On the Russian front, it is apparent that Hitler is getting farther behind schedule all the time. In addition, he is taking tremendous losses which may prove disastrous in the long run. The Russians claim that 5,000,000 German troops have been killed, wounded or captured. That is probably a great exaggeration. But there is no question but what casualties have been far heavier than Hitler's generals, who figured on a two-

month Russian war, anticipated. In addition, the Russians have taken or destroyed vast quantities of tanks, planes, field pieces, etc. The resistance of the Russians, soldier and civilian alike, is writing a new chapter to the military annals of history.

The Allies have certainly not won this war. But their gains in strength since the awful disaster at Dunkirk are nothing short of miraculous. Little more than a year ago it looked as if England was beaten, and that no force capable of even slowing the Nazis, much less stopping them, remained. Time has proven otherwise. And today, time works against Hitler at last.

HOLE IN YOUR SOCK.

"Hidden around this country in private purses now is the astounding total of more than \$6,000,000,000," writes Paul Mallon. "Much of it is in mattresses, socks and private safes. The evidence is clear that a hoarding era has reached suspicious proportions since the first of this year."

Many of these hoarders believe that they are protecting themselves against either inflation or a government fiscal policy which might force them to invest their money. But, as Paul F. Cadman, economist of the American Bankers' Association, points out, they have small chance of success.

"Hoarded currency is a practically useless method of protecting the holders of property against the arbitrary acts of government," says Dr. Cadman. "Early attempts to hoard money in continental Europe to avoid governmental levies during and after the first World war were met by blocking bank accounts and suspending transactions on the exchanges. Outstanding currency ceased to be legal tender or to have any validity unless it was presented to a government agency and stamped to indicate that a tax had been paid or imposed conditions had been met. The holders of currency found themselves in exactly the same position as the owners of bank deposits."

The hoarding of currency is about 100 per cent futile—and, on top of that, hidden currency is always in danger of being burned, stolen, or otherwise lost to the owner. Put your money in the bank or invest it. You will sink or swim with the rest.

The negotiations at Washington between our government and the Japanese representatives seem to have failed. If so, we are sorry. But there seemed little to hope for when the conferences began. The two nations are too far apart in international principles and ideals for a meeting of minds.

The American ideal for itself and the world is an order based on law, peace and friendly cooperation. The Japanese ideal, like that of the other Axis powers, is an order based on force, the medieval principle that "they should take who have the power and they should keep who can." One ideal is democracy, the other imperialism. One is kindly and cooperative, the other brutal and hostile except toward its own violent associates. One is Christian, the other heathen. In such situation neither minds nor hearts can meet.

It is different with present-day China. There East and West can meet. Its people and ours can understand each other and go along together.

KENTUCKY AND C'LRADO HAVE MOST OF GOLD

DENVER, Dec. 2.—Vaults deep under the Denver mint building now hold the world's second largest store of gold—more than \$5,000,000,000 worth of it in neat little piles of bricks.

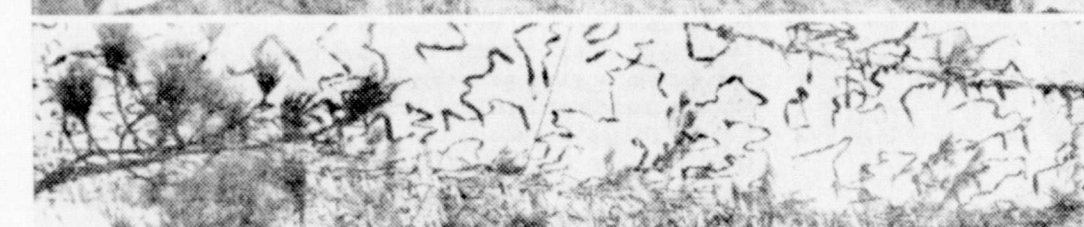

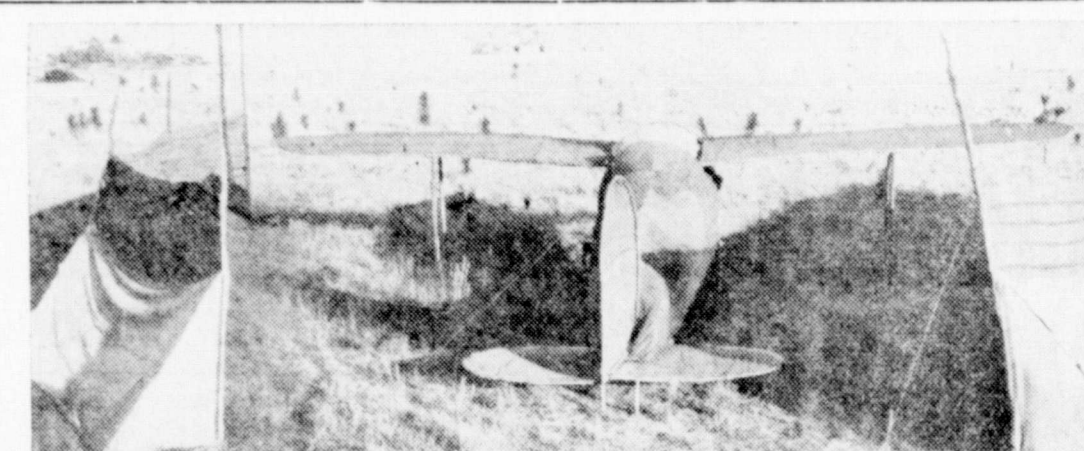

The Denver vaults climbed into second place close behind the gold store at Fort Knox, Ky., with a recent shipment of \$650,000,000 worth of gold from the mint at San Francisco.

The new gold, shipped a few

Safety Assured for Tiny Tourists

Tiny tourists sometimes grow restless on long motor trips and their limitless energy and curiosity require double checking to insure that every safety precaution is being taken by their parents. With the entire rear compartment of the family Chevrolet as his personal playground, this youngster assumes a favorite perch that ordinarily would be dangerous. However, a simple adjustment, easily made by Chevrolet mechanics, converted the rear door handle to a safety action handle, which "free wheels" and does not open the door. After the lock is adjusted to safety position, as indicated in the inset, the lock button is depressed and the inside handle then will not open the door, rendering it "child-proof." Release of the lock button enables the driver to open the door as usual.

DECOY AND MC COY—The enemy forces may have their dive bombers, but the defending forces in today's warfare have means of deception to harass these aerial vultures. Typical of these means is this dummy plane, upper, staked out in the open, while the real fighting planes are carefully concealed under a ceiling of camouflage in Catolinas on "front lines."

hundred thousand dollars worth at a time in specially guarded railroad baggage cars, raised the total amount of gold stored in the Denver vaults to 5,100 million dollars worth, mint officials said. Elaborate precautions are taken to insure the safety of the Denver gold hoard. The mint teems with armed guards. Behind double locked doors is a bullet-proof cage in which sits a man 24 hours a day guarding all entrances with tear gas and machine guns.

The vaults are deep underground and are constructed of special torch-resisting steel. The mint is in constant touch with Denver police headquarters by radio. And at the nearby army posts of Fort Logan and Lowry Field, soldiers stand by for an emergency call.

HERE FROM DUBLIN. Warren T. Embry, masseur, has opened an office at 104 W. Fourth street, across from Laguna hotel, and will make Cisco his home. He came here from Dublin, where he is well known, having lived there for the past seven years. Mrs. Embry will join her husband within a short while. Their Dublin residence property has been placed on the market and they expect to buy a home in Cisco.

There was a lot of bitterness over Uncle Henry's will, due to the fact that he divided up his property equally and fairly.

GRAND JURY 91ST COURT EMPANELED

Geo. L. Davenport, Judge.

December Term Opens.

Judge Davenport formally opened the December term of the 91st court Monday by calling the docket and empanelling the grand jury. The court named A. D. Anderson, foreman, and the body immediately began its investigation of infractions of criminal laws in Eastland county.

Fred Davenport was appointed door bailiff, and the following constables of the justice precincts were named riding bailiffs: Hugh M. Carlton, Eastland; Will Niver, Ranger; Jake Honea, Cisco; J. S. Hulien, Rising Star; Bill Williams, Gorman, and W. A. Saint, Desdemona.

Grand Jury Personnel.

Following is the personnel of the grand jury: A. D. Anderson, foreman, Cisco; C. C. Erwin, Rising Star; C. L. Carmichael, Ben Williams, Nimrod; F. E. Ferrell, Lee Mitchell, Ranger; F. S. Crawley, Frank Hightower, T. E. Warden, Waverly Hague, Eastland; W. M. Morgan, Okra; Elzo Ben, Long Branch.

New Cases Filed.

The following new cases are on file for hearing in the 91st court: George William Tankersley vs. Junitta Tankersley, divorce. R. H. Phelps vs. Bessie Phelps, divorce. State of Texas vs. Bill Johnson, injunction.

Judgments and Orders.

Pearl Couch vs. W. H. Couch, divorce. It was made known to the court that judgment had been rendered in a previous hearing of this cause, but was not recorded, so the court ordered a judgment recorded in which plaintiff was given judgment annulling her marriage with defendant, awarding her the family Plymouth automobile, household and kitchen furniture, wearing apparel and \$50 attorney's fee.

State of Texas vs. Absher Hartsfield et al, injunction. Dismissed on motion of the state.

State of Texas vs. Bill Johnson, injunction. It was the order of the court that defendant be cited to appear before the bar of the court Wednesday, Dec. 3, and show cause why a temporary injunction should not be entered against him.

Lorane Bramble vs. McKinley Bramble, divorce. Judgment for plaintiff annulling her marriage, restoration of former name of Lorane Hawkins and for \$50 attorney's fee.

LETTERS TO SANTA

Dear Santa Claus: I have been a good little girl all year and I want you to remember me on Christmas. Please bring me a Sweetheart bracelet, a football

IT'S "WATCHFUL WAITING" FOR AUSSIES AT THE JUNGLE OUTPOSTS IN MALAYA.

The "war of waiting" now going on in the Straits Settlements, where England is holding strong forces, awaiting Japan's next move in the Pacific, is putting very little hardship on the occupational forces. Typical of these Pacific outpost garrisons are those in Malaya, where hardy Australians man Britain's defenses. With about 50 per cent of their number hailing from "cattle-country," where during round-ups or while riding long distances they have had to rough it and depend on their own ingenuity, the Aussies have found their early training of inestimable value in current life in the Malayan jungle country.

These photos, taken on Malaya's east coast, show how the Aussies have "taken in stride," their enforced sojourn on the peninsula while routine duties keep them hard as nails for their role in modern warfare, if and when the "little brown men," decide to carry out the threatened Japanese expansion program in the Pacific's theater of war.

'QUAKE SEER SETS DEC. 15 FOR NEXT ONE

VANCOUVER, B. C., Dec. 2.—Edgar C. Thrupp, British Columbia's foremost prophet of earthquakes and other "acts of God," emerged from a pile of figures today with more bad news for countries susceptible to earthquakes.

Thrupp, who never was hit on the head by an apple, but disputes Newton's law of gravitation anyway, predicted that there would be three periods of risk of destructive earth tremors during the next year—Dec. 15, 1941, to Jan. 19, 1942; Feb. 22 to March 10; and from March 10 to April 5.

Thrupp, who is a retired civil engineer, arrives at his forecasts by a complicated system of measuring the "gravitational pull of the planets" that clashes with Newton's law of gravitation.

Thrupp claims that he can predict the time of the day the earthquakes might come, but has not yet found a way to forecast exactly where they will come.

In a statement accompanying his 1942 schedule for earthquakes, Thrupp declares that the view that it is impossible to predict quakes and magnetic storms was "now simply absurd."

"The objects of making these predictions was to give the residents in countries subject to destructive quakes the benefit of the knowledge as to the periods of risk and to provide incontestible evidence of the accuracy of the writer's new law of gravitation."

suit on life policy. Settled and dismissed by agreement of parties that defendant should pay the plaintiffs \$1,250, which agreement was incorporated in the judgment in favor of plaintiffs, and confirmed by the court.

Judge Patterson excused the jury summoned for Monday, subject to call, as cases assigned for trial were settled by agreement. The case of King-Ball Motor Co. was reset for Dec. 15.

Thrupp blames Newton for starting all the confusion in modern physical science.

"All the troubles are due to the fact that Newton made several inconsistent statements and the astronomers and physicists accepted the wrong ones."
