

CISCO—A home city a delightful place in which to live; oil fields, rich agricultural lands, cattle, sheep, goats, hogs, turkeys, egg producing hens, feed crops, grain, truck farming and fruits.

THE CISCO DAILY PRESS

COMBINED WITH CISCO DAILY NEWS AND CISCO AMERICAN AND ROUND-UP, NOVEMBER 1, 1937

An area of wonderful climate, blessed with an abundance of the purest lake water, possessing the best in recreational facilities, situated on the Bankhead, all-weather route, with three railroads and many highways, Cisco is the best place in Texas to live and to work.

VOLUME XXII.

CISCO, TEXAS, THURSDAY, JANUARY 1, 1942

NUMBER 86

U.S. AND FILIPINOS HOLD JAP HORDES AT BAY

No Use to Get Panicky, But Purchase of Auto Tires Be Strict Indeed After Jan. 5

Texas has been allotted more tires for sale during January than any other state, with 36,680 earmarked for its vehicles during the first month of tire regulation, L. L. Sisk, of the office of production management in Dallas announced Wednesday.

At the same time Sisk announced that rationing boards will be named for all Texas counties by Gov. Coke Stevenson by January 5. The rationing boards will be without authority to alter strict tire rationing regulations, which are printed in full below.

Function of each local board, he said, will be to follow the regulations and advise persons who have eligible demands, how to get tires. In borderline cases, an interpretive board has been set up at Washington to which the local rationing boards or citizens may apply for rulings.

Official announcements of the plan in Washington, Sisk said, indicate that some counties will have only one tire to sell during a month. In Texas, for instance, 2,530 tires and 10,488 tubes for passenger cars have been allocated while 24,150 truck tires and 20,189 tubes have been given. Total sales in the United States and possessions will be limited to about 357,000 tires in January. This is contrasted with a normal consumption in the same area estimated at 4,000,000 monthly.

Purchase Regulations.

Purchase of new tires under the rationing plan that goes into effect January 5 will be restricted to clearly-defined "eligibles," and those users who qualify as eligible will have to meet rigid conditions before being allowed to purchase new tires, under orders issued by the priorities division of OPM.

The program for national tire rationing has been delegated to the office of price administration by priorities division orders, countersigned by President Roosevelt.

Administration of the program will be under state control, working through the local rationing boards designated and authorized by the governor and his state defense committee.

The number of new tires which may be sold in any state or county (or parish) will be limited by quotas established each month. Tire users on the "eligible" list will have to meet certain conditions and fill out applications to be provided, before tires may be purchased.

Applicants then will have to have the approval of a tire inspector authorized by the local rationing board, who will certify that a new tire is necessary, after finding that the tire or tires which the applicant desires to replace are unsafe, cannot be replaced, repaired or retreaded. After such inspection, the application will be subject to review by the local board to determine if the applicant comes within the eligible list.

Eligibility List.

No tire purchase certificate shall be issued unless the applicant is to mount the tire on:

A. On a vehicle which is operated by a physician, surgeon, visiting nurse or a veterinary, and which is used principally for professional services.

B. On an ambulance.

C. On a vehicle used exclusively for one or more of the following purposes:

1.—To maintain fire fighting services.

2.—To maintain necessary public police services.

3.—To enforce such laws as relate specifically to the protection of public health and safety.

4.—To maintain garbage disposal and other sanitation services.

5.—To maintain mail services.

project, except when public transportation facilities are readily available.

E. On a truck operated exclusively for one or more of the purposes stated in the preceding sections or for one or more of the following purposes:

1.—Transportation of ice and fuel.

2.—Transportation of material and equipment for the building and maintenance of public roads.

3.—Transportation of material and equipment for the construction and maintenance of public utilities.

4.—Transportation of material and equipment for the construction and maintenance of production facilities.

5.—Transportation of material and equipment for the construction of defense housing facilities and military and naval establishments.

6.—Transportation essential to render roofing, plumbing, heating and electrical repair services.

7.—Transportation of any common carrier.

8.—Transportation of waste and scrap materials.

9.—Transportation of raw materials, semi-manufactured goods, and finished products, including farm products and foods, provided that no certificate shall be issued for a new tire, casing or tube to be mounted on a truck used (a) for the transportation of commodities to the ultimate consumer for personal, family or household use, or (b) for transportation of materials for construction and maintenance except to the extent specifically provided by sub-sections 2, 3, 4, 5 and 6 of this section.

F. On farm tractors or other farm implements, other than automobiles or trucks, for the operation of which rubber tires, casings or tubes are essential.

G. On industrial, mining and construction equipment, other than automobiles or trucks, for the operation of which rubber tires, casings or tubes are essential.

Rationing Conditions.

A certified eligible purchaser of new tires must meet the following conditions:

1.—That the vehicle on which the new tire casing or tube is to be mounted constitutes an "eligible" vehicle.

2.—That the vehicle cannot be replaced by one owned, operated or subject to the control of the applicant, which is equipped with serviceable tires and tubes and which is not fully employed for a use specified in one or more of the listed eligible categories.

3.—That the tire, casing or tube is to be mounted at once to replace a tire, casing or tube no longer serviceable.

4.—That the tire, casing or tube, when added to all other tires, casings and tubes in the applicant's possession, whether unmounted or mounted on a vehicle, and when that total is applied only to eligible vehicles, does not add up to more than one spare tire, casing or tube of a given size for each eligible vehicle.

5.—That the existing tire, casing or tube cannot be recapped, re-treaded or repaired for safe use at speeds which the applicant may reasonably be expected to operate, or that such recapping, re-treading or repairing cannot be obtained without inordinate delay.

6.—That the applicant agrees to trade in replaced tires, casings and tubes on new tires, casings and tubes purchased under this order, or to dispose of replaced tires, casings and tubes as may otherwise be directed by the office of price administration.

PEGGY O'NEIL FINED.

LONDON, Jan. 1.—Peggy O'Neil, British actress who was educated at a convent in Niagara Falls, N. Y., and made her first appearance in Chicago in 1910, was fined \$80 and assessed \$40 costs Thursday on a charge of stealing biscuits and chocolate spread valued at 50 cents from a London store. She pleaded innocent. The magistrate said "the seriousness of the crime could not be measured by the value of the goods stolen."

CISCO IS \$77.46 SHORT

E. E. Freyschlag, chairman of the Eastland county chapter of the American Red Cross, makes the announcement that the county is about \$400 short of the \$5,000 quota.

Eastland has topped its quota of \$1,250 by \$29.

Ranger has reached its \$1,250 quota and Rising Star, Gorman, Alameda, Morton Valley, Scranton, Kokomo and Flatwoods have also topped the quota line.

Pioneer and Oiden are lagging some.

Cisco, James McCracken of the First National Bank said this morning, lacks \$77.46 of its \$1,250 assignment.

MIKE RAY DIED WEDNESDAY; BURIAL HERE

Mike H. Ray, 65, died in Ranger Wednesday afternoon. He had been ill for some time and a paralytic stroke hastened the end.

Mr. Ray had been a resident of Cisco for more than twenty years and was well known here. His wife died February 12, 1940, and is buried in Oakwood cemetery.

He was a member of the First Baptist church.

The body is in charge of the Neil Lane Funeral Parlor and will be laid to rest in Oakwood. However, funeral and interment arrangements had not been made this morning, word being awaited from his sons, who live at distant points.

Mr. Ray is survived by five sons, as follows: Irwin Ray, San Francisco; Gilbert Ray, Cisco; Guy Ray, Indianapolis; O. C. Ray, Denver; Cleo Ray, Tyler.

Deceased was born in Ashland, Ala., December 5, 1876. He was married to Miss Mary Elizabeth Whitehorn in 1898 and came to Texas the same year.

WAR DEPARTMENT

The Adjutant General's Office, Washington, Col. Stanley H. Koch, Cav. Headquarters, Eighth Corps Area, Fort Sam Houston, Texas.

Dear Colonel Koch: Disregard any previous remark and clear the decks. Get set for the biggest recruiting job we have had yet. The announcement that recruiting would cease in favor of Selective Service is erroneous.

Rather than suspend it, we are about to enter upon a greatly enlarged recruiting campaign for enlistments in the army of the United States and for aviation cadets.

Please notify all of your personnel accordingly to allay any apprehensions. Recruiting is not washed-up and will not be for a long time to come, according to the latest up-to-the-minute official information. "KEEP 'EM FLYING!"

(Signed) H. N. GILBERT, Lt. Col., A. G. D.

ALASKAN EVACUEES—These happy-faced youngsters display plenty of confidence in Uncle Sam as they arrive in Seattle, Wash., aboard U. S. Navy transport, after being evacuated from strategic points liable to Jap attacks, at U. S. Alaskan outpost. The transport, guarded by a destroyer, carried 724 evacuees.

DEADLY BOFORS ANTI-AIR RIFLE TRAPPED NAZIS DUTCH MORE IS NOW POURING OFF CHRYSLER AWAIT BRITISH DEADLY AS ASSEMBLY LINES IN 3 PLANTS KNOCK OUT ANGER GROWS

DETROIT, Dec. 31.—Chrysler has plunged into mass production of the Swedish Bofors gun, the powerful, rapid-fire anti-aircraft cannon which the British used so effectively against attacking German dive bombers.

Chrysler started from scratch on the project eleven months ago by re-designing foreign drawings of the gun into American specifications and dimensions. That job alone took nearly three months. In eleven more weeks Chrysler delivered the first two guns to the army for testing purposes.

The cannon, being built for both the army and the navy, comprises 500 parts ranging from tiny springs weighing a fraction of an ounce to its eight-foot barrel weighing 250 pounds. Approximately 900 machine tools, 500 of them designed especially for the project at a cost of approximately \$2,000,000, are building the parts in Chrysler plants in Michigan, Indiana and Ohio.

Six hundred thousand square feet of floor space have been set aside in the various plants for production and assembly operations, letter of which are centered in Chrysler's Lynch Road plant, built by Dodge brothers in Detroit during the last war.

Improve Swedish Design. K. T. Keller, president of Chrysler, said that by invoking mass production methods developed by the automobile industry and by improving the design of the Bofors gun, "we believe we have greatly reduced the time required to manufacture these guns."

Two Chrysler innovations in building the gun, Keller said, were substitution of American steels for those used in production abroad and elimination of many machining processes through greater use of forgings.

Chrysler also is turning out 32-ton tanks on a mass production basis at its sprawling \$20,000,000 arsenal at Centerline, Mich. The plant soon will be expanded to double capacity by providing six instead of three assembly lines.

Other Chrysler defense contributions include building fuselage sections for Martin Medium bombers and supplying aluminum alloy forgings for them and turning out trucks, scout cars and blitz buggies for the army. As of December 15 the company's truck and vehicle deliveries to the army exceeded 75,000 units, Keller disclosed.

Defense activities of the automobile industry, most of which is centered in Detroit and Michigan, are carried out in plants from Ohio to Colorado, according to the Automobile Manufacturers' association. The industry has defense plants in 67 cities embracing 17 states. Michigan has automobile defense plants in eleven cities and towns; Ohio, nine; Indiana, seven; Wisconsin, five; Illinois, four; Missouri, two, and Colorado, one.

"LIFE, LIBERTY AND PURSUIT OF THE JAPS"

Bobby Joe Carrothers, son of Mr. and Mrs. Rex Carrothers, and Paul Harlan Woods, son of Dr. and Mrs. Paul Woods, are new local publishers. Carrothers is editor and Woods is business manager and advertising director.

The first issue appeared yesterday and consisted of a page spread carrying the following wording: "Our motto is 'Life, liberty and pursuit of the Japs.'"

The new publication followed Carrothers' receipt of a printing press as a Christmas present.

The young men visited the Daily Press office today, displayed a copy of their first issue and sized up the mechanical department very painstakingly.

HARD FREEZE IS PROBABLE HERE TONIGHT

FT. WORTH, Jan. 1.—Whistling winds ushered the year 1942 into Fort Worth, sent the temperature down to 24 degrees at 9 a. m. and were expected to provide a hard freeze, with temperatures 15 to 20 degrees Thursday night.

The weather bureau, forecasting a top temperature of 25 degrees Thursday, warned residents of this area to protect livestock, plumbing and automobiles. Continued cold Friday with a top of 25 degrees and continued strong northerly winds were predicted.

The 24-degree mark was the lowest reached by the mercury this winter. The drop was from a high of 58 degrees Wednesday. The weather bureau warned residents to be prepared for several days of cold weather. Shortage of plumbers because of the war emergency is expected to be felt here for the first time.

30 TAKE NAVY OATH.

DALLAS, Jan. 1.—Between halves of the Cotton Bowl game today 30 college men, 14 of whom started in athletics, will be sworn into the navy's air arm. Three of the men are members of the football team playing in the Cotton Bowl game; Martin Ruby and Sam Porter of Texas A. & M., and Paul Spencer of Alabama.

ATLANTIC BUYS.

DALLAS, Jan. 1.—The News says oil circles reported Thursday the Atlantic Refining company increased its East Texas holdings in a \$500,000 cash purchase of the properties of Reprim Oil corporation.

CAIRO, Egypt, Jan. 1.—British imperialists are battling to knock out the German and Italian forces trapped near Agedabia, 90 miles south of Benghazi.

They are maintaining their steady pressure against the enemy, although there has been some reduction in the intensity of the fighting, the British reported.

IOWA LED ALL STATES GROSS VAL. PRODUCTS

WASHINGTON, Jan. 1.—Iowa, with a total of \$561,836,688, led all the states in the gross value of farm products sold, traded or consumed in the decade from 1929 to 1939.

The census bureau reports its 1940 inventory listed Texas second with \$509,730,065, California third with \$465,429,323 and Illinois fourth with \$434,583,861.

The report said California was first in the value of sales per farm with \$3,658, Nevada second with \$3,628 and Wyoming third with \$3,405, reflecting the larger land areas per farm in the ranch States.

STOCK SALES 1941 SMALLEST IN 23 YEARS

NEW YORK, Jan. 1.—Sales of stocks on the New York Stock Exchange in 1941 were the smallest in 23 years but turnover in bonds was the best since 1937.

Total stock sales were 170,534,363 shares, compared with 207,605,359 in 1940 and 262,015,799 in 1939. The year's total was the lowest since 143,278,900 shares changed hands in 1918.

Bond sales on the Stock Exchange in 1941 amounted to \$2,114,098,550, par value, compared with \$1,671,598,875 in 1940 and \$2,048,237,875 in 1939. The total was the best since \$2,792,531,000 in 1937.

MORE GASOLINE.

GLADEWATER, Jan. 1.—The number of East Texas recycling and repressuring plants increased from 16 to 18 during November, the Texas Railroad Commission reported Thursday, and output of natural gasoline was boosted 1,647 barrels daily, from 16,086 barrels in October to 17,760 barrels in November.

CASH FOR ACREAGE.

GRAHAM, Jan. 1.—The Royal Petroleum Corporation of Dallas, paid total of \$17,600 cash for acreage in the east central part of Young county. The Royal company paid \$20 an acre for 840 acres of leases comprised of all of block 1902, the east half of block 1906 and the west half of block 1486, TE&L survey, with the leases for 10 years. The company also purchased the north 230 acres of block 285 and the east half of block 633, all in TE&L survey, at \$12.50 an acre for 10-year leases.

NEW YORK, Jan. 1.—The British radio, heard here by the United Press listening post, reported four more Japanese transports had been sunk by Dutch navy planes.

PRISON FARM FIRE CAUSES RIOT, DEATH

BRIDGEWATER, Mass., Jan. 1.—Two guards at the Bridgewater state farm were killed by rioting inmates who fired the building housing some 300 defective delinquents.

The inmates raced through the building with improvised torches. State police mobilized aid for evacuation and police from twenty surrounding communities were called.

ROOSEVELT, CHURCHILL PRAY HELP

WASHINGTON, Jan. 1.—President Roosevelt and Prime Minister Winston Churchill sat together in George Washington's old church pew at nearby Alexandria, Va., today and asked God to stretch forth "Thy mighty arm and strengthen and protect the armed forces of the Allied nations."

TOKYO BROADCASTS SAID THE JAPS BELIEVED THE PHILIPPINE GOVERNMENT HAD GONE TO PORT DARWIN, AUSTRALIA.

JAPS CLAIM TO BE WITHIN 150 MI. SINGAPORE

BERLIN, Jan. 1.—(Official DNE broadcast reported by United Press in London)—The Japanese Domei news agency says the Japs in Western Malaya have crossed the border of Perak-Selangor provinces and are pushing to within 150 miles of Singapore.

MEN CALLED BACK.

FT. WORTH, Jan. 1.—Fort Worth men released from army ranks because of the 28-year-old rule were packing up Thursday to go back to active duty. They were being recalled by letters sent out by Capt. E. J. Ward, assistant adjutant general of the Eighth Corps Area, Fort Sam Houston, pursuant to War Department orders of Dec. 23.

STIMSON PAYS FINE TRIBUTE TO M'ARTHUR

WASHINGTON, Jan. 1.—Overwhelmingly outnumbered, American and Filipino defenders of Luzon are in strong positions and are inflicting "heavy losses" on the Japanese in a major battle raging north of Manila, Secretary of War Stimson said today.

Paying tribute to the "masterful" command of Gen. Douglas MacArthur, Mr. Stimson said Americans must nevertheless face the fact that the Japs are well-disciplined, well-equipped fighters.

Stimson gave few details of the battle on the northern Luzon front and did not mention the southern sector.

The secretary said the department had not given MacArthur any orders to leave the Philippines in the event of collapse of Manila defenses.

Stimson also said that the American defenders had done no running away, thus indicating that retreats to new positions have been orderly and according to plan.

Tokyo broadcasts said the Japs believed the Philippine government had gone to Port Darwin, Australia.

JAPS CLAIM TO BE WITHIN 150 MI. SINGAPORE

BERLIN, Jan. 1.—(Official DNE broadcast reported by United Press in London)—The Japanese Domei news agency says the Japs in Western Malaya have crossed the border of Perak-Selangor provinces and are pushing to within 150 miles of Singapore.

The Cisco Daily Press

(Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937.)

Entered as Second Class Matter December 11, 1934, at the post office at Cisco, Texas, under the Act of March 3, 1879.

A. B. O'FLAHERTY, Publisher and General Manager. W. H. LARQUETTE, Advertising Manager.

Published daily except Saturday and Monday at Cisco, Eastland county, Texas, by the Free Press Publishing Corporation, incorporated under the laws of the state of Texas. Editorial and publication offices at 204-206 D Ave., Cisco, Texas. Telephone 608.

National advertising representatives, Texas Daily Press League, Dallas, Texas.

SUBSCRIPTION RATES: \$2 per year by mail (outside of Cisco) in Eastland, Stephens, Shackelford, Callahan, Brown and Comanche counties, Texas; outside the above-mentioned counties, \$2.50; \$4.75 in U. S. outside of Texas.

For week, by carrier boy.....30c For year, in advance.....\$5.00

RELIGION.

Religion (the religion of Jesus Christ) is what the world needs most today. Through it we can rebuild civilization, have a better world, better legislation, better trade, better industry, better labor conditions, better race conditions and a better people.

TIGHTEN BOTH BELTS.

In these days, with the public gaze fastened on war outside our continental borders, it may seem prosaic and uninteresting to talk of taxation, debt and governmental fiscal policy.

A new tax bill is now being planned. And, after all possible sources of new tax revenue have been tapped to the limit, many believe that a system of forced savings will be the next inevitable step.

As the people tighten their belts, so must government tighten its belt. According to authorities, the non-defense cost of government could be cut about \$2,000,000,000 a year without eliminating any essential function.

War has two phases—a strong military power at the front, and a sound economic system at home.

It takes Germany a pitifully long time to learn that war as a business doesn't pay.

Many will challenge such a characterization of the national struggles in which Germany has been engaged, but the record of the three big wars launched by Germany in the last three-quarters of a century seems clear.

The Russian war of 1870-71 was deliberately launched by Bismarck for profit, although he tricked the French government into declaring war first.

The World War launched in 1914, as our generation knows, was a greater effort for expansion and domination.

The present thrust under Hitler is an incredibly bold effort to conquer and loot the world, using modern technology and military power to make all nations work for the Fatherland.

Of these three consecutive efforts the first succeeded, the second failed, and the fate of the last now hangs in the balance, with the United States apparently destined to play a dominant role.

It will fail, too, leaving the misguided German people poor and hopeless, with millions of dead and wounded, their world trade gone, their resources exhausted, their treasury bankrupt, their former friends alienated. What's the use?

As far as those two little islands, St. Pierre and Miquelon, are concerned, up near Newfoundland, we wouldn't give a nickel's worth of ideology for either of 'em.

The idea that a fixed farm price ceiling can be imposed without a wage ceiling, is ridiculous.

There were six Jeffersonians among the senators who helped to acquit Mr. Justice Chase. They objected to his political views undoubtably, but they held, contrary to their leader, that a judge could be impeached only for crime, and they voted for acquittal because the offenses of Mr. Justice Chase did not constitute a crime.

It has been tried again, of course, and in recent years. The point is that these later impeachments have all alleged corruption in the low sense. But, as Representative Summers has argued, the mere crookedness of judges seems to be a question peculiarly within the scope of judicial, as against senatorial, determination.

Obviously the new form of trial would in no way impair the senate's power to judge in proceedings which for whatever special reason, it was still felt appropriate to bring before that body.

Attention is also called to the fact that it will be necessary to summon a very large venire for the second trial and this, of course, will require considerable time.

The best information obtainable in regard to the second trial of the case is that it will probably be called for the second week in August, about the sixth or eighth of that month.

ISLAND TROUBLE.

As far as those two little islands, St. Pierre and Miquelon, are concerned, up near Newfoundland, we wouldn't give a nickel's worth of ideology for either of 'em.

The idea that a fixed farm price ceiling can be imposed without a wage ceiling, is ridiculous.

There were six Jeffersonians among the senators who helped to acquit Mr. Justice Chase. They objected to his political views undoubtably, but they held, contrary to their leader, that a judge could be impeached only for crime, and they voted for acquittal because the offenses of Mr. Justice Chase did not constitute a crime.

It has been tried again, of course, and in recent years. The point is that these later impeachments have all alleged corruption in the low sense. But, as Representative Summers has argued, the mere crookedness of judges seems to be a question peculiarly within the scope of judicial, as against senatorial, determination.

Obviously the new form of trial would in no way impair the senate's power to judge in proceedings which for whatever special reason, it was still felt appropriate to bring before that body.

Attention is also called to the fact that it will be necessary to summon a very large venire for the second trial and this, of course, will require considerable time.

The best information obtainable in regard to the second trial of the case is that it will probably be called for the second week in August, about the sixth or eighth of that month.

Judge Davenport is taking a vacation, else the case might have been reopened by the state immediately.

What you do determines your value here and hereafter.—Jane Tudor.

FIRST GRADE LOGIC.

The secretary of the National Milk Producers' Federation recently said that workable agricultural price ceilings should be based on two factors—the cost of production on the farm, and the wages of urban workers.

These facts are inescapable. The farmer cannot sell at a loss and survive. The people cannot survive without the farmer. The purchasing power of the public and the cost of the supplies the farmer buys, are both largely determined by industrial wages.

The idea that a fixed farm price ceiling can be imposed without a wage ceiling, is ridiculous.

There were six Jeffersonians among the senators who helped to acquit Mr. Justice Chase. They objected to his political views undoubtably, but they held, contrary to their leader, that a judge could be impeached only for crime, and they voted for acquittal because the offenses of Mr. Justice Chase did not constitute a crime.

It has been tried again, of course, and in recent years. The point is that these later impeachments have all alleged corruption in the low sense. But, as Representative Summers has argued, the mere crookedness of judges seems to be a question peculiarly within the scope of judicial, as against senatorial, determination.

Obviously the new form of trial would in no way impair the senate's power to judge in proceedings which for whatever special reason, it was still felt appropriate to bring before that body.

Attention is also called to the fact that it will be necessary to summon a very large venire for the second trial and this, of course, will require considerable time.

The best information obtainable in regard to the second trial of the case is that it will probably be called for the second week in August, about the sixth or eighth of that month.

OTHER EDITORS

The Summers Bill. Baltimore Sun: An associate justice of the supreme court and the attorney general of the United States have now testified in behalf of the Summers bill to permit the trial of crooked federal judges in a special federal circuit court.

The bill would provide a method alternative to the impeachment trial in the senate, which is now the sole way of removing federal judges for lack of good behavior.

It has already passed the house. A major reason advanced for the Summers bill is that it would relieve the senate of an onerous duty for which, in the press of its modern business, it has not adequate time.

Historically, the Summers bill is interesting, as it bears on an early misunderstanding of the scope of the impeachment power. For Thomas Jefferson, among others, thought that the impeachment procedure set out in the constitution was aimed not so much at corruption in the low sense as at ideological misbehavior by judges.

It was pretty clearly on political or ideological grounds, for instance, that Mr. Justice Chase of Maryland was impeached by the Jeffersonian party in the house in 1805.

Justice Chase was not a venal or a corrupt man in the low sense. But his conduct of the trial of John Fries and others showed him to be a passionate and a partisan man.

There were six Jeffersonians among the senators who helped to acquit Mr. Justice Chase. They objected to his political views undoubtably, but they held, contrary to their leader, that a judge could be impeached only for crime, and they voted for acquittal because the offenses of Mr. Justice Chase did not constitute a crime.

It has been tried again, of course, and in recent years. The point is that these later impeachments have all alleged corruption in the low sense. But, as Representative Summers has argued, the mere crookedness of judges seems to be a question peculiarly within the scope of judicial, as against senatorial, determination.

Obviously the new form of trial would in no way impair the senate's power to judge in proceedings which for whatever special reason, it was still felt appropriate to bring before that body.

Attention is also called to the fact that it will be necessary to summon a very large venire for the second trial and this, of course, will require considerable time.

The best information obtainable in regard to the second trial of the case is that it will probably be called for the second week in August, about the sixth or eighth of that month.

DO YOU REMEMBER?

(Cisco American, July 5, 1923.)

After being out 78 hours, the jury in the case of the state versus L. J. Starkey, charged with the murder of Pet Brown, esteemed Cisco business man and road contractor, reported to Judge George Davenport Tuesday night that they could not reach an agreement and asked to be discharged. Judge Davenport complied with the request.

J. E. Hart, of Cisco, one of the jurors, stated to the Cisco American that the first ballot after the case had gone to the jury of twelve men stood ten for conviction and two for acquittal.

The two voting for acquittal were B. F. Speegle, of Nimrod, and A. E. Garza, of Ranger.

S. C. Clay, farmer, Eastland. W. A. Welch, farmer, Pleasant Hill.

Ross Penn, farmer, Cisco. R. H. Abell, teamster, Desdemona.

B. F. Speegle, farmer, Nimrod. Mr. Speegle was foreman of the jury.

The best information obtainable in regard to the second trial of the case is that it will probably be called for the second week in August, about the sixth or eighth of that month.

Judge Davenport is taking a vacation, else the case might have been reopened by the state immediately.

SOCIETY and CLUBS

Mrs. W. C. Clements Entertains Circle

Mrs. W. C. Clements was hostess to circle five of the First Baptist missionary society Tuesday afternoon. The meeting was opened with prayer by Mrs. J. R. Burnett, after which Mrs. Davis Fields presided at a brief business session.

The Bible lesson, from the prophecies of Ezekiel, was made

quite interesting by the teacher, Mrs. J. R. Burnett. The meeting was closed with prayer.

During the social hour the hostess served refreshments to Mrs. Davis Fields, Mrs. A. B. Cooper, Mrs. M. C. Stivers, Mrs. O. J. Russell, Mrs. L. A. Harrison, Mrs. J. R. Burnett and Mrs. O. G. Lawson.

"Progressive" Dinner Enjoyed By Students

A group of college girls were entertained with a progressive dinner Monday evening as a part of their holiday activities. The group had the cocktail course in the home of Miss Eugenia Jackson. From there they proceeded to the home of Miss Margaret Key who was hostess for the soup course. The main course was served in the home of Miss Billie Cole. The table was laid with white linen cloth and centered with a bowl of large red and yellow chrysanthemums and lighted by red candles in crystal holders at each table end.

The dessert course was served in the home of Miss Polly Porter, marking the birthday of Miss Porter. The table held as a centerpiece a large cake, topped with small lighted candles. Colorful balloons extended from the lights. Dessert was followed by coffee in the living room. The remainder of the evening was spent in singing and relating college experiences. Those attending were Misses Eugenia Jackson, Henryetta Moss, Kathryn Langston, Polly Porter, Billie Cole and Margaret Key.

New Year's Eve Dance Held On Laguna Roof

A New Year's Eve dance, sponsored by the MM club, was held in the roof garden of Laguna hotel, which was attended by 100 young people from Cisco, Eastland and Ranger. The old year was watched out and the New Year welcomed by the youthful group and their sponsors.

Members of the MM club include Misses Wanda June Bond, Dorothy Jean Anderson, Peggy Jean Gallagher, Jacqueline Ruppert, Cathryn Shepard, Gloria Graham, Rose Ann Woods, Betty Sticker, Miss Wynema Bond is club sponsor.

THE NOTEBOOK

Thursday.

The Word Home Demonstration club will meet at 3:30 in the home of Mrs. Edwin Wende in the Lutheran community.

Local Church Sponsors Well-Attended Meet

A New Year's Eve watch meeting was held at the First Baptist church and was well attended. The evening program started at 7:30 o'clock with the singing of a number of hymns, after which the Sunday school superintendent, F. E. Shepard, gave an interesting talk on the work of the organization and objectives for the New Year. Talks were made by Mrs. Paul Culp, Mrs. G. B. Langston, Mrs. Davis Fields and Mrs. E. J. Poe. Reports were given by the secretaries of the various departments. M. F. Underwood conducted a sing-song, which was enjoyed by all.

Refreshments of spiced tea and cookies were then served by Misses Underwood, Anderson and Stephens.

Mr. and Mrs. W. W. Fewell conducted a Bible quiz which was interesting and instructive. Mrs. W. D. Brecheen directed a comical stunt program in which all were induced to take part, including the children.

W. W. Fewell was requested to give a talk on "Outlook of the New Year" in the absence of the named speaker. He complied and gave some very timely remarks concerning conditions now, and those which we may expect to face during the incoming year.

The evening entertainment was well planned and the diversions caused the last hours of the Old Year to pass quickly away.

The final number was a devotional period conducted by the pastor, Rev. Judson Prince. He gave a brief talk which was followed by scripture quotations by the group after which a number of prayers were offered for the year ahead and for the leaders of our nation.

OUT-OF-TOWN GUESTS.

Mr. and Mrs. M. D. Bailey had as their guests during the holidays their son, M. D. Bailey, Jr., who is taking his second course in flying at Grand Prairie; their daughter, Miss Carolyn Bailey, who is teaching near Rising Star; Lieut. and Mrs. Carroll Smith, Camp Walters; Eld. Wm. H. Price, Texas City; Luciene Gracey and LeRoy Jergen, Camp Bowie; O. B. Livingston, Midland; Mr. and Mrs. J. B. Gardner, Nimrod; Mr. and Mrs. C. C. Lewis, Big Spring.

HAVE YOU HEARD?

ALL good that ever was written, taught, or wrought comes from God and human faith in the right. —Mary Baker Eddy.

FRENCH PEOPLE AT LOWEST EBB SINCE YEAR '71

VICHY, Jan. 1. — Eighteen months after the most crushing defeat in her history France—once the richest country of Europe, the proud possessor of the world's second largest gold pile—is virtually prostrate, poverty-stricken, a prisoner bound hands and feet by her conquerors.

The past year was the saddest in French history, a succession of concessions which brought very little relief to a hungry, needy, unhappy population and only demands for further concessions from the land-hungry, food-hun-

gry, power-hungry conquering Axis powers.

The dawn of 1942 finds France at her lowest ebb since the 1871 defeat and siege of Paris by the Germans. Politically France is tied to the wheel of a chariot which is leading her to places she never expected to find herself. Politically France is bound to a policy of continental collaboration and a European new deal which, even the most optimistic member of the cabinet could not imagine receiving the approbation of one Frenchman in four.

Materially, France is flat on her back. Her great stocks have gone, those tremendous stocks of wool, rubber, coal, copper, iron as well as the vast reserves of wine, coffee, fats and oils. She lives from hand to mouth, and the hand like the mouth is frequently bare. Her industries have nothing left; she is fed by Germany with the iron, steel, coke and coal she needs. Even Germany cannot furnish the rubber, wool, cotton, copper, al-

by her needs to do what she is told. Completely deprived of political independence of action, France heeds the hand which feeds her. In exchange for coal, coke, iron and steel to keep her factory wheels turning and her workers employed, France has to align her policies in the direction of the European "new deal."

Not a single Frenchman of the forty millions in continental France eats to his hunger today. The average Frenchman in the street has not one-tenth of the liberties of his father. He is governed by a regime in which he has not an echo of a voice.

One reason for this is the fact that 1,200,000 Frenchmen are still prisoners of war in German prison camps and jails. They are hungry and unclothed; their families are without support in most cases.

CATTLE STEADY.

The Fort Worth market was fully steady on all classes of cattle, calves, hogs and sheep as the New Year got under way at the stock yards Thursday.

Good to choice fed steers and yearlings ranged from \$10.50 to \$12 and included three loads of steers that averaged 877 pounds and cashed at \$10.50; two loads of steers at \$10.75; one load of steer yearlings at \$11.25; and one package of steer yearlings at \$12. Common to medium steers and yearlings turned at \$6.50 to \$9.50.

Good beef cows sold at \$7.50

to \$8; butcher cows at \$6.50 to \$7.25; and canners and cutters at \$4.50 to \$6.50. Bull prices ranged from \$6.25 to \$8.25.

Good to choice fat calves sold at \$9.50 to \$11; common to medium slaughter calves at \$7.50 to \$9; and cull calves from \$6.50 to \$7.25. Too few stockers were on the yards to test the market.

Hogs were steady with Wednesday's average levels at a top of \$11.10. Good and choice 180 to 280-pound weights cashed at \$11 or \$11.10 while good 150 to 170-pound weights brought \$10.25 to \$10.90. Packing sows sold at \$10 down and stocker pigs at \$8.50 down.

Sheep and lambs were steady on the limited receipts. A few slaughter lambs cashed at \$10.50, some yearlings at \$9.50; two-year-old wethers at \$8.50; and aged wethers at \$6.50.

A man will not usually be the better because he had a well-born father, if he himself is nought. But true high-birth is in the mind; it was never in the flesh.—King Alfred.

where'd you GET your gun?"

FROM the supply sergeant, of course. He got it from the Ordnance Department—and they got it from a factory. It's the finest Army rifle in the world.

But before one factory wheel could turn—for the first model or the finished job—there had to be power—and most of it is electric. Electric power helped put your Garand in your hands, Johnny.

It takes a tremendous lot of power to make all the guns, tanks, planes and ships we need—but America has a lot. Power reserves, built up in advance by the business men who manage America's electric companies, have been able to meet almost every defense demand overnight.

Requirements keep increasing, of course—and the electric companies are working day and night to keep ahead of the nation's needs. In 1941, they built and installed almost 2,000,000 more horsepower in Democracy's busy arsenal!

You have the hardest part of the job, Johnny, but we're glad we can help by doing our share. We're glad to pledge our co-operation with you, the government, and other industries—to make America so strong it can remain forever free and unafraid.
