CISCO, TEXAS, WEDNESDAY, JANUARY 7, 1942

NUMBER 90

BIGGEST BUDGET OF ALL TIME

T. J. McCARTY, NEW DISTRICT HEAD FOR WTU, HAS BEEN WITH COMPANY SINCE OCTOBER, 1925

T. J. McCARTY.

T. J. McCarty, who succeeds the late H. H. Monk as district superintendent of District B of the West Texas Utilities company, with headquarters in Cisco, is living at the Laguna hotel for the present. Mrs. McCarty is with him. They came here from Childress, where he had been temporarily assigned as assistant district superintendent.

Mr. McCarty, a son of the late J. T. McCarty, who was in the furniture business here for a number of years, has many friends in Cisco, but within the near future the new superintendent will make a personal canvass of the city and become still better acquainted with local business heads and others, said N. C. Huston, local manager, today.

McCarty began work with the company's engineering department on October 5, 1925, following graduation from Texas A. & M. college. He was on leave of absence for a year during the depression, helping the West Texas chamber of commerce in obtaining federal projects for many West Texas communities.

More recently he has been closely associated with the company's long-time program to induce industries to settle in this region.

Wide experience, both an engineer and in civic affairs, has earned him many friends throughout the district. He was a member of the group that recently made several trips to Washington in an attempt to secure a munitions plant for the Cisco area.

C. OF C. ADVOCATES INCREASE IN PRICE OF CRUDE OIL: CERTIFY 14 NAMES TO CITY COMMISSION

Cisco chamber of commerce directors certified 14 names to the city commission at the regular chamber meeting last night for the selection of seven new members to replace the seven retiring members and two additional names from which the commission is to elect one member to take the place on the directorate made vacant by the death of H. H. Monk.

The chamber directorate is composed of 15 members who are elected by the city commission at their next regular meeting following the certification of nominations made by the chamber at their first meeting of each new year. Eight directors are elected one year and seven the next year. The commission can only elect directors from the list of nominees furnished by the chamber. Two names are furnished for each vacancy.

Following the election of new directors the chamber will organize and elect new officers for the year.

Directors whose terms expire are J. J. Collins, E. P. Crawford, Dr. Charles Hale, Ed Huestis, Nick Miller, Paul Poe and J. L. Thornton. Holdovers are B. A. Butler, J. D. Lauderdale, H. S. Drumwright, A. D. Anderson, Jack Elkins, R. N. Cluck and Sutton Crofts.

Proposals for the establishment of a turkey and chicken dressing plant in Cisco met with enthusiastic favor, and plans were begun looking to the establishment of such a plant.

A resolution by the Oil and Gas committee, with R. L. Ponsler as chairman, advocating increases in the price of crude oil, was read and approved. Copies have been sent to Leon Henderson and Harold L. Ikes at Washington, D. C.

Directors present were R. N. Cluck, J. J. Collins, E. P. Crawford, Dr. Charles Hale, J. D. Lauderdale, Nick Miller, J. L. Thornton, and Secretary P. R. Warwick; members present were W. H. LaRoque, Charles Kleiner, A. V. Clark, T. J. McCarty and Geo. Boyd.

MARCH OF JAPS COSTLY

Allied armed forces took heavy toll of the Japs as they pressed sweeping land and sea offensives against the East Indies and Singapore today.

British land and sea forces again raided the Nazi-held Norwegian coast and the Red army drove forward on three sectors of the Eastern front.

Intensity of the enemy pincers offensive down the Malay peninsula and through the Pacific islands—aimed at Borneo, Celebes and Sumatra—appeared to be increasing, but so was the cost to the advancing Japs.

In Malaya, Japanese mechanized forces stabbed into British lines in the zone 150 to 200 miles north of Singapore, but they paid a "terrible price" in casualties, Singapore dispatches said.

In the Philippine sector, the Japanese-controlled radio at Saigon said a United States battleship had been sunk and another damaged and a number of Japanese destroyers damaged. Washington, however, indicated the reports were groundless.

On Luzon land fronts, Jap troops and bombers increased attacks on the American-Filipino defense lines in Bataan province and again raided Corregidor island.

MRS. W. J. BIGGERSTAFF DIED MONDAY NIGHT

Mrs. W. J. Biggerstaff, a resident of the Cisco Country for many years, died at her ranch home near Putnam Monday night.

The funeral was held at the First Methodist church, Putnam, Monday afternoon, with the Rev. Mr. Bailey of Mineral Wells, former Putnam pastor, conducting the service. The body was taken to El Paso for interment beside her husband.

Deceased is survived by her son, Bill Biggerstaff, with whom she made her home, and three daughters—Mrs. Johnson of El Paso, Mrs. J. L. Jenkins of Seagraves and Mrs. Dell Lambray of El Paso. Also surviving are her grandchildren, Louis Jenkins of Seagraves; Louise Lambray, El Paso; Louise Mae and Billy Joe Jenkins, Putnam.

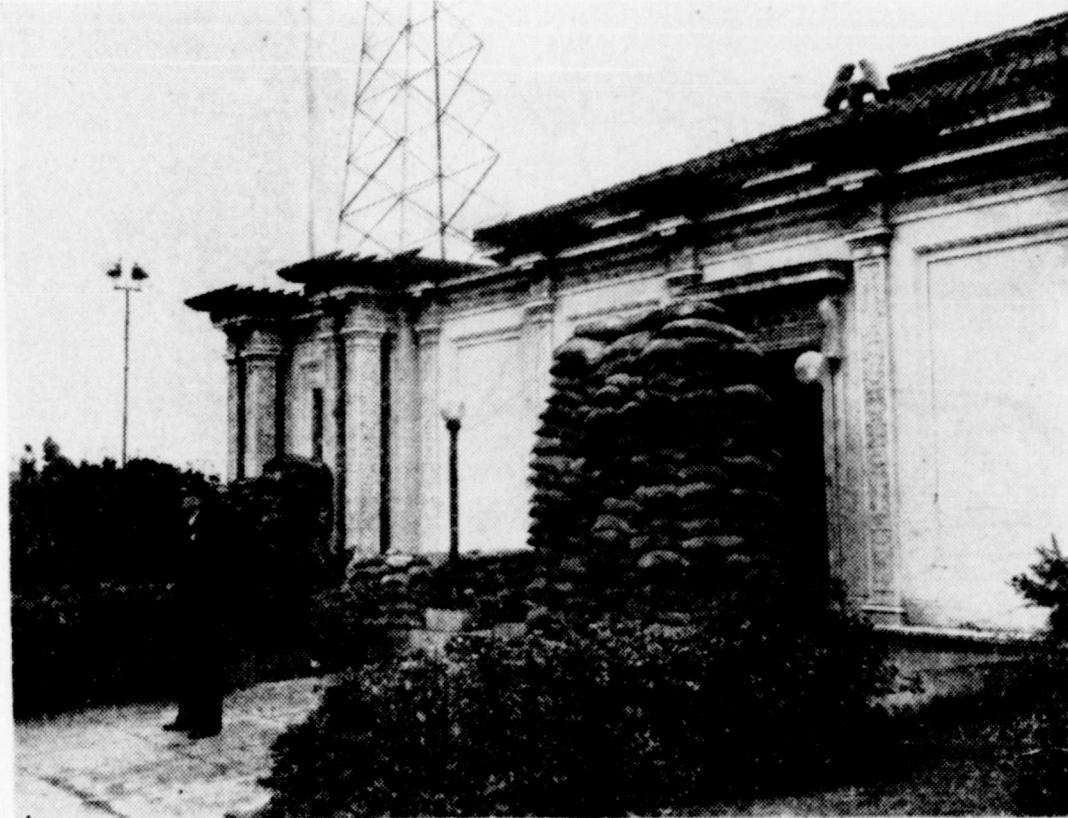

Cisco friends attending the funeral were Mrs. O. W. Hampton and daughter, Miss Dorothy Hampton; Mr. and Mrs. W. R. Francisco and Mrs. J. W. Slaughter.

TEMPLE TO GET ARMY HOSPITAL OF \$2,500,000

TEMPLE, Jan. 7.—Representative W. R. Poage reported Tuesday night from Washington that a general army base hospital costing \$2,500,000 will be built at Temple.

It will be a 1,500-bed unit, but plans already have been drawn to double that size if necessary.

Most of the land for the site already has been optioned by the city. A bond election to purchase the land will be called as soon as the formal order is issued, probably in a few days.

SAFEGUARDING COAST COMMUNICATIONS—Against the day when enemy bombs fall on San Francisco, another of the city's vital communications centers, the Central fire alarm station, is all set to withstand aerial onslaught. Sandbagging is well under way around its walls.

PAN-AMERICAN CONFERENCES AT RIO DE JANEIRO, JAN. 15, ARE IMPORTANT; TEN DECLARE WAR

By LAWRENCE S. HAAS, U. P. Latin American Editor.

Government administrations and other official agencies took important steps of varied nature during the past fortnight, indicating hurried preparation for the conference of foreign ministers of the American republics, opening at Rio de Janeiro, January 15.

Argentina recalled Ricardo Olivera, its ambassador to Germany, to report to his government, and this was followed by the announcement that Baron Edmund von Thiermann, the German ambassador to Argentina, also had been recalled.

The Venezuelan government broke off diplomatic relations with Germany, Italy and Japan.

The Terra committee of the Uruguayan chamber of deputies, investigating anti-Uruguayan activities, spurred itself into action, and a series of raids revealed a widespread South American fascist storm troop organization, set up by the committee members and judicial authorities said.

Bolivia, Cuba Cooperate.

President Getulio Vargas, of Brazil, reiterated his nation's firm intention to defend democratic institutions.

Cuban authorities continued to round up Axis espionage suspects, and Gen. Lazaro Cardenas, former president of Mexico, and commander of the Pacific coast forces, gave assurance that defense measures on the west coast were being carried out with thoroughness and despatch.

The Argentine government's decision to recall Olivera, followed by Von Thiermann's announcement of his own recall, appeared to be part of a formula that would remove any hint that the German envoy ousted from Argentina by anti-Axis demands of a strong bloc in the Argentine congress.

Von Thiermann was expected to leave his embassy organization, which has a large staff, functioning as usual in his absence.

It was recalled that the chamber of deputies last September adopted a resolution censuring Von Thiermann for abusing his diplomatic privileges, and it was accompanied by strong demands that he be expelled by the government.

Acting President Ramon D. Sastillo and the foreign office rebuked the congressmen for so-called "interference" in the conduct of the nation's international relations, and asserted that such function was reserved exclusively for executive power. Public opinion, however, seemed to favor Von Thiermann's recall, and there is some

YOUNG PEOPLE HELD MEET AT CARBON MONDAY

The Oil Belt Union of Methodist young people held its regular meeting at Carbon Monday night, the Cisco young people having charge of the program.

At this meeting it was decided to hold future assemblies quarterly instead of monthly, because of the need for conserving automobile tires during the national emergency.

Attending from Cisco were Dorothy Huestis, Gail Bailey, Rosemary Huestis, Dick Bacon, Billie Beth Bacon, Miss Lela Latch, Miss Joyce Rainbolt, Mrs. J. E. Rainbolt, Mrs. W. Z. Latch and Rev. Leslie Seymour.

CATTLE MARKET

The Fort Worth market on cattle and calves was active and strong Wednesday on all classes with slaughter calves in particularly lively demand with spots 25c or 30c up for the week.

Good to choice fat calves ranged from \$10 to \$11.50, with plain to medium butcher calves at \$7.75 to \$9.50; and culls at \$6.50 to \$7.50. Good to choice fed steers and yearlings sold at \$11 to \$12, this range including two loads of good fed steers at \$11.40. Medium to good fed steers and yearlings at \$9 to \$10.50 included one load of steers at \$9.10 and one load of steers at \$10.50. Common slaughter steers and yearlings ranged from \$7 to \$8 and included one load of Mexican cattle at \$7.75.

Good beef cows sold at \$8 to \$8.75; butcher cows at \$7 to \$7.95; and canners and cutters at \$4.50 to \$7. Bull prices ranged from \$6.50 to \$8.50.

Stockers were very scarce but the few offered sold at prices, indicating a fully steady market.

Hogs sold steady to 10c below Tuesday's average levels with the practical top of \$11.40 paid by all interests while a few head cashed at \$11.50. The good and choice 180 to 296-pound butchers sold mostly at \$11.40 while good 150 to 175-pound averages turned at \$10.60 to \$11.30. Packing sows and pigs were steady. Packing sows brought \$10 or \$10.25 and stocker pigs \$9 down.

All classes of sheep and lambs sold steady to strong. Sales included woolled lambs at \$11 to \$12; shorn lambs at \$9.50; fat yearlings at \$9 to \$9.50 aged wethers at \$6 to \$6.50; and feeder lambs at \$9.50 down.

PROGRAM CALLS FOR GREATEST PRODUCTION JOB IN HISTORY OF WORLD; SALES TAX LIKELY

WASHINGTON, Jan. 7. — President Roosevelt presented congress today with the biggest budget, tax and deficit program of all time, calling for an expenditure during the next 18 months of \$77,000,000,000, largely for arms and munitions to smash the Axis forces.

Approximately \$18,000,000,000 will be spent the first six months of this year, with \$59,000,000,000 budgeted for the new fiscal year.

Taxes will be raised to increase treasury revenue 50 per cent in the 1943 fiscal year, which begins July 1.

During that 12-month period, Mr. Roosevelt proposes to spend approximately \$59,000,000,000, collect \$27,000,000,000 taxes and raise the national debt to \$110,400,000,000.

Of the budget expenditures, \$53,000,000,000 would be for war in that one year. That includes \$7,500,000,000 for lend-lease aid to United Nations.

Non-war expenditures were budgeted at more than \$6,000,000,000 — \$437,000,000 less than this year.

His proposals for new revenue levies aggregated \$9,000,000,000. He intimated the government might temporarily resort to a general excise or sales tax.

Corporate and individual income taxes and estate and gift levies on wealth apparently will be increased steeply.

There is nothing in any fiscal history to which the 1943 United States budget is comparable. Mr. Roosevelt reminded that it was the biggest budget in the history of any nation, any time.

He said it confronted the nation with the biggest production job in the world's history.

HUGHES A VISITOR.

F. B. Hughes, who lives four miles west of Rising Star, was in Cisco today and called at the Daily Press office. Mr. Hughes is an ex-service man and served 14 months across the water during the first World War. He was stationed in France, England and Ireland at various times. He was on the Tuscania when that ship was bombed and sank off the Irish coast.

RETURNS FROM VISIT.

Mrs. Wm. Tanner has returned from Mineral Wells where she visited her son, Sgt. Maner Tanner. She stated that her son says the boys at Camp Wolters are enthusiastic and very patriotic. When war was declared Sergeant Tanner was away on furlough and immediately called his superior officer who told him to remain until his furlough expired. Sergeant Tanner enjoys reading the Cisco Daily Press, his mother stated.

Personally, we are not good at pronouncing the names of Russian towns but we like to read about them lately.

**WAR HAS GIVEN
 PUBLIC BETTER
 GRADE FLOUR**

Since January 1 the standards for enriched flour have become effective under the food, drug and cosmetic act and all grocers are now featuring this enriched product, says Grady Pipkin, chairman of the Eastland county food industry committee.

White flour and bread now marked "enriched" means they contain a higher vitamin and mineral content than plain flour and bread. To be called "enriched" they must contain certain amounts of thiamin chloride (vitamin B1), nicotinic acid (pellagra preventive factor), and iron. Two other ingredients may be found in certain "enriched" flours and bread, calcium and riboflavin.

Pipkin explained that the following facts regarding enriched flour and bread are based on a study made by the U. S. bureau of home economics: "The new flour cannot be distinguished by taste from the ordinary flour. In, looks, flour that has been enriched by addition of vitamin and mineral concentrates after it has been milled resembles plain white flour. White flour enriched by modification of the milling process, retaining the vitamins and minerals, will be light and creamy.

Enriched flour is plainly labeled by manufacturers and it will contain at least the minimum amounts of thiamin chloride, nicotinic acid and iron set by the standard.

"Enriched flour is filling the same place in diets it always has filled, but with new qualifications. Bread and flour are cereal products that supply energy inexpensively. As part of a well-balanced diet, they should be used along with other well-selected foods from other food groups—fruits, vegetables, milk, eggs, meat, fats, sweets and water. It is low-cost diets that the new bread and flour will make their greatest contribution to. For those diets are the ones that are usually high in cereals, and most likely to be low in vitamins and minerals that the new enriched bread and flour supply," Pipkin added.

For the 31-day period beginning December 3 and ending January 2, Dupuy made an average gain of 12.4 pounds per lamb with his lamb feeding demonstration. He is feeding his lambs unground shelled corn and one-third pound of cake per lamb each day. One-half of this is fed in the morning and the other half in the afternoon. Plenty of hay is kept before the lambs in a hay rack at all times and Dupuy also sees that

What hurts is not the cost of living, but the cost of supporting all the people who handle the living before it reaches you.

Babies are always reaching for something they shouldn't have, just as we grown people are.

Check Your Hot Water Service

One very practical and effective way all of us can help to win the war is not to waste time, materials or food. In streamlining your home so that no time will be wasted a modern gas automatic water heater can help. It supplies hot water when and where you need it to speed all the home's cleaning jobs along. Thus you are given the time you want for activities outside the home such as Red Cross Work. The cost is surprisingly little when measured by the benefits you'll enjoy. Investigate.

Dependability IS WHAT PUTS VALUE IN A GAS SERVICE

A LOFTY CHAT—This was strictly an "upper-atmosphere" conversation as Jack Earl, El Paso, Texas, giant and former circus tall man, talks of things aeronautical at Randolph Field.

Don't expect too much of a good friend. He wants to give you his friendship only, and not his money.

Beware Coughs from common colds That Hang On

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.
