VOLUME XXII

CISCO, TEXAS, FRIDAY, FEBRUARY 6, 1942

NUMBER 112

JAP EMPLACEMENTS SMASHED

CISCO GUARD IS DEVELOPING FORM

With Capt. O. L. Stamey, First Lieut. Sim Ledford and Second Lieut. Wyatt Jacobs on deck promptly, the Cisco Defense Guard of 40 in number met at the high school gym last night and spent a profitable, pleasurable evening. They met at 7, played volley ball until 7:30 and then drilled until 8:30. Several new volunteers were present and drill masters report decided improvement in drill form by those who have attended regularly. So far no non-commissioned officers have been appointed, but this will probably be done soon. The meeting next week will be held at the same place and at the same hour—Thursday night.

HOME FROM HAWAII—Pretty Sylvia Gray, school teacher, phones friends of arrival in San Diego from Pearl Harbor, Hawaii. She was driving station wagon at time of attack and was wounded in shoulder and hip.

FEB. 16 A BUSY DAY

Haywood Cabaness, chief registrar, announces his list of aides for February 16, when all men between the ages of 29 and 44—inclusive—are required to register. The registration will be held in the former B. S. Huey building and the hours are 7 to 9 o'clock. If you find yourself out of the city or out of Eastland county on February 16, look up an officially designated registration booth and comply with the government's instruction — REGISTER.

\$10,000 COUNTERFEIT HAUL—Raids at two New York City hideouts resulted in arrest of three men and seizure of \$10,000 in bogus coins, along with completely equipped counterfeit plants. Secret Service agent looks over the haul after raid which was conducted by Treasury Department.

WARN OF GAS ATTACKS

WASHINGTON, Feb. 6.—The house appropriations committee today warned congress that wholly inadequate provisions have been made for protection of the people of American cities against the possibility of gas attacks. Admonition was made in reporting to the house a \$169,-390,611 deficiency appropriation bill which carried \$100,-000,000 for civilian defense, the maximum permitted under existing legislation. The committee reported, however, that \$29,893,894 of the bill would be available for gas masks and gas-mask production facilities.

BIG GUNS OF CORREGIDOR SPIT DEATH

Defense lines of the United Nations held stubbornly against Japan in the Far East today and heavy blows were struck at the Axis forces threatening Tobruk in Libya and on the Russian front. On all three fronts, the dispatches said, attacks and counter attacks were building up toward decisive engagements that may influence the trend of fighting on world-wide battle lines. In the Far East American big guns at Corregidor broke up Jap assault preparations by destroying enemy gun emplacements on Manila Bay, while British heavy artillery resumed pounding in attacks on enemy reinforcements on the Johore coast, despite heavy Jap aerial attacks. In Burma, 11 more Jap planes were reported destroyed and 10 more damaged during an attack on the Rangoon area. The British are still holding the Salween river line. In North Africa British airplanes strongly attacked Axis armored columns that had pushed eastward along the Libyan coast from Derna, in an effort to reach Tobruk, inflicting extensive casualties and damage. In Russia the Red army reported slow but continued advances in which thousands of casualties were inflicted on the Germans. The Jap threat to Singapore continues extremely grave, with additional enemy troops massing across the strait in the Johore-Bahru sector, despite heavy bombardment by British guns. The Japs still maintained a strong measure of aerial superiority, although some British fighters were in the air and several enemy planes were shot down or damaged today.

SUBS TORPEDO TANKER; 26 LIKELY LOST

Atlantic City, Feb. 6.—A 3,27-ton tanker, Indian Arrow, was torpedoed and sunk by a submarine Wednesday night off the New Jersey coast, the fourth naval district announced Friday. Twenty-six members of the crew were reported missing.

FARMERS WILL STRESS FOODS FOR SOLDIERS

"We farmers are going to do our best to comply with the slogan, Feed the Soldier Boys," said N. L. Barnes, farmer from southwest of Cisco, who sold about 20 dozen eggs today to grocers in Cisco.

CECIL EDWARDS TO ENTER ARMY AIR SERVICE

Mr. and Mrs. Cecil Edwards of Dallas are spending a few days in Cisco with Mr. Edward's parents. Edwards has signed up with the army air corps and expects to be called within the next thirty days.

AROUND 6,497 PAY POLL TAX; 61 EXEMPTIONS

Based on reports already received in his office, County Tax Assessor-Collector Clyde Karkalits estimates that a total of 6,497 poll taxes and 61 exemptions have been issued to Eastland county citizens for the present year.

U. S. FLYERS AT BURMA ROAD CALLED BEST

LOS ANGELES, Feb. 6.—Lieut. Albert Cruz, United States Army Air Corps, lauds American volunteer fliers fighting the Japs over Burma as the greatest aviators in the world. "They're flying rings around the RAF there and if Singapore just had some of them they'd blast the Japs right out of the sky," he said as he arrived from Burma for a short visit. He's a native of Sisseton, S. D.

SYPHILIS IS MENACE TO THE NATION

WASHINGTON, Feb. 6.—Surgeon Gen. Thomas J. Parran listed social disease Friday as still the greatest cause of non-effectiveness in the army, and declared that toleration of commercial prostitution "has been traditional in the South, the Southwest and the West Coast."

USE YOUR OWN GLUE; STAMPS WILL STICK

DALLAS, Feb. 6.—The glue on new auto tax stamps was never meant to adhere to glass or metal, internal revenue officers said unofficially when it was reported many of the stamps were dropping off windshields after a few days' exposure to sunlight. The revenue men suggested that car owners use good commercial glue to attach the stamps to their cars.

EASTLAND C. FOOD SALES UP \$10,012

Increase of \$10,012 in food sales during January, 1942, due to the food stamp program in Eastland county was pointed out today by Charles L. Howell, area supervisor, office surplus marketing administration. This amount represents blue food stamps issued last month.

EASTLAND C. FAIR DATES SET FOR SEPT. 25-26

EASTLAND, Feb. 6.—Officers and directors of the Eastland county fair, in a meeting this week tentatively set the dates for the coming fair as September 25 and 26. H. F. Tanner, secretary of the association, went to Dallas Thursday to attend the annual meeting of the Texas Association of Fairs.

IF MONEY'LL DO IT, IT'S GOOD AS DONE

WASHINGTON, Feb. 6.—The present session of Congress—to fight this country's foes—has shoveled out appropriations or contract authorizations at the rate of \$14,566 every second since it convened a month ago.

YOU MAY LOOK AND ADMIRE BUT CAN'T BUY

The A-G Motor company has just received its first 1942 Victory model Chevrolet cars. One, a sedan, will be on display but, under agreement with the government, cannot be sold until next year.

FBI CORRALS MORE WEST COAST JAPS

VALLEJO, Cal., Feb. 6.—Raids by federal agents in areas adjacent to two big West Coast navy yards have led to the arrest of nearly two score Axis aliens, mostly Japanese, and seizure of navy signal flags, maps, weapons, cameras and radios.

Laura Whatly H. A. Schaefer wed Thursday

Friends here were advised this morning of the marriage of Henry A. Schaefer and Miss Laura Whatly, which occurred at Wichita Falls Thursday. The couple left here Thursday morning for Wichita Falls where the service was performed by a former Eastland county minister. The bride is a daughter of Mr. and Mrs. Henry Whatly, who live on the Lake Bernie road, and for the past year has been associated with the Schaefer radio shop as bookkeeper. Mr. Schaefer is the owner and manager of the radio shop, a business he established a few years ago. He was reared on the farm of his parents a few miles south of Cisco. It is not known when they will return here, but it was stated they would probably enjoy a wedding trip first.

PRODUCTION BE SPURRED BY OIL HIKE

WASHINGTON, Feb. 6.—A committee of oil industry leaders said Friday an increase in the posted price of crude oil was necessary to stimulate production for war needs and to halt the abandonment of marginal wells. This was contained in a report to Harold L. Ickles, petroleum coordinator, and made public by his office. The committee was appointed on Jan. 7 by William R. Boyd, chairman of the National Petroleum Council formed under direction of the co-ordinator.

WOMEN'S MOTOR CORPS

GAINSVILLE, Feb. 6.—Twenty-nine women have enlisted in the Women's Motor Corps, a civilian defense unit here. A goal of 65 members has been set. Mrs. S. G. Stanforth is temporary chairman.

TSCW ENROLLMENT 2,167

DENTON, Feb. 6.—Enrollment at Texas State College for Women for the second semester, under way this week, totals 2,167 students. Of this number 169 are new students.

AXIS AGENTS BANNED

BUENOS AIRES, Feb. 6.—Reliable sources reported Friday from Asuncion that the government of Paraguay has permanently banned three Axis news agencies, Transocean, Stefani and Domei, and has ordered newspapers and the radio not to give any news from the agencies.

LITTLE ROCK HOUSES RAZED BY TORNADO

LITTLE ROCK, Ark., Feb. 6.—One of the worst tornadoes to strike Little Rock and Central Arkansas in years Friday left one person dead, more than 20 others injured and property damage running in excess of \$100,000. The fatality was Mrs. Manila Raney, 80, killed when her home collapsed and buried her beneath the debris. Fifty houses were demolished in Little Rock suburbs and downtown Little Rock suffered its first tornado damage in history.

WOMEN'S MOTOR CORPS

GAINSVILLE, Feb. 6.—Twenty-nine women have enlisted in the Women's Motor Corps, a civilian defense unit here. A goal of 65 members has been set. Mrs. S. G. Stanforth is temporary chairman.

"FACE"

Upton Close, news broadcaster, who knows the Orient, says that the greatest danger to the white race today is the danger of "losing face." The Orient is observing western civilization with a keen and appraising eye.

The very boldness of this challenge has aroused intense interest among the colored races. They wonder whether Mother Asia, for 2,000 years held inferior to Mother Europe and her children is really so—whether they may not regain their old supremacy.

WHAT WE'D STAND FOR

This country is not governed by the Gallup Poll, or by any other pool except the kind we have on election day. But such methods of "sampling public opinion" are useful if not used too often, and have proved to be, next to formal elections, the best means we have of learning what the nation as a whole is thinking.

What are we thinking now? According to the aforesaid poll, reported last Sunday, our people agree by a majority of more than six to one, that in time of war the government should have power to tell factory owners and business men what products they can make and what prices they can charge.

GREAT WORDS

This war is rich not only in brave deeds but in notable phrases. Hardly a week passes that doesn't bring a new example. We have had a good training lately in commercial slogans, but that doesn't account for our facility in this line. There is a natural gift for it, sharpened by the present focussing of attention on new and stirring events.

HOME ECONOMICS IN WAR TIME

"Home economics" used to be a course that a few women took in high school or college. Today, with half of our national income

about to be devoted to the needs of war, home economics must play a role in the life of every family in the land.

We are just beginning to feel the war pinch. Prices of many articles have gone up, and will undoubtedly go higher still. Commodities that used to be cheap and abundant, have grown scarce or have disappeared entirely.

The stores are pledged to furnish the public with supplies at the lowest possible cost. They are advising consumers on the use of substitutes. They are fighting hoarding, speculation and scarce advertising.

ARMY "Q-MEN" FACE HARD JOB IN ICELAND

WITH U. S. QUARTERMASTER CORPS IN ICELAND, Feb. 6.—The army's combined housekeeper, nurse and handyman is wrestling with one of its hardest tasks in this inhospitable land. The Quartermaster Corps, nick-named the "Q-Men," must see that many thousand American boys are fed and clothed.

Scattered over the wintry Icelandic landscape are cold storage plants to provide the soldiers with fresh meat. Stacks of beef, lamb and pork chops are packed away behind walls filled with rock wool.

During mid-winter the "Q-men" could preserve their meat much of the time without elaborate freezing equipment, but most of the year the Icelandic climate is too warm to leave the refrigerator doors open.

Water for mixing concrete in the winter winds is brought steaming in oil drums from nearby hot springs. The quartermaster corps is charged with furnishing the army all its supplies except ammunition and technical materials.

Canadian Navy Seizes Japanese Fishing Boats To be Manned by White Fishermen for Duration

A FEW HOURS AFTER CANADA WENT TO WAR with Japan the Canadian Navy was rounding up all Pacific Coast fishing boats operated by persons of Japanese origin.

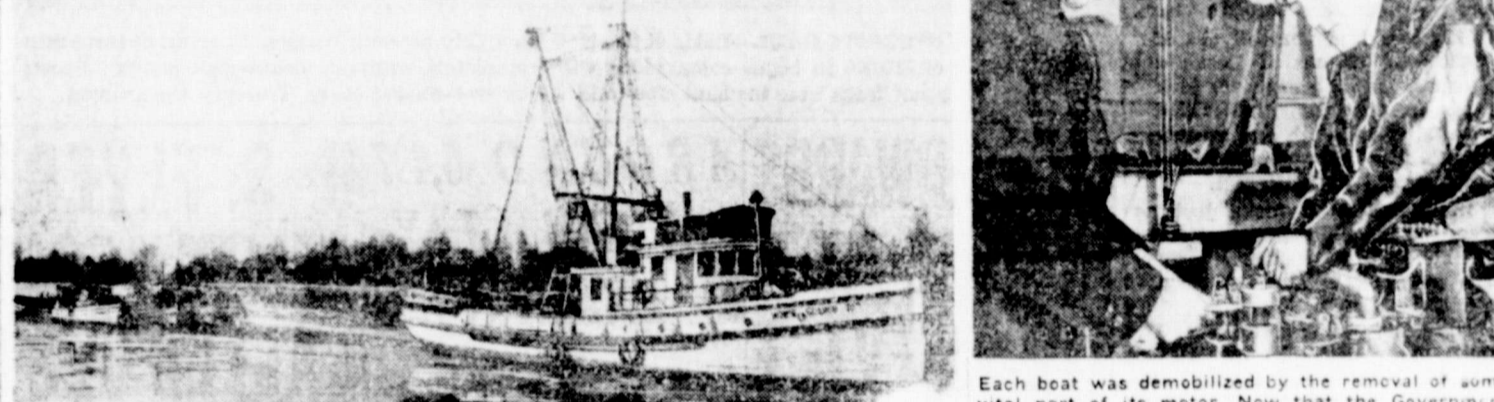

A Japanese housewife explains to a Canadian naval officer that her husband is at sea with his fishing boat.

The Union Jack goes up on one of the Japanese fishing vessels immobilized by the Canadian Navy.

A naval patrol vessel tows a batch of Japanese fishing boats. Owned by Japanese Canadian citizens, the boats were seized as a purely precautionary measure.

Each boat was demobilized by the removal of some vital part of its motor. Now that the Government has decided to allow the owners to lease or sell their boats to white fishermen, these carefully tagged and stored parts will be replaced.

CHANGES AHEAD

BAEBSON PARK, Fla., Feb. 6.—All of us are slaves of habit, custom, and style. It's awful hard for us to change our personal purchases; but we simply must do so if this war lasts more than eighteen months longer.

There will be no scarcity of wheat, corn, cotton, sugar, most vegetables, and fruits. This also applies to beef, chicken, and certain other meats. But cheese, butter, milk, eggs, and pork are wanted badly abroad.

Although there now is plenty of sugar and most things other than rubber, metals, and chemicals; yet sugar, woolen blankets, certain wearing apparel, stockings, shoes, spice products, refrigerators, washing machines, vacuum cleaners, and other certain things may be rationed.

It is true that these millions will not need pleasure cars and tuxedo suits, but on account of them the army will need more cars, more tires, more clothing, more shoes, and more food.

KANSAS SAGE 73; REMAINS ACTIVE EDITOR

EMPORIA, Kas., Feb. 6.—William Allen White, famed Kansas publisher of the Emporia Gazette and staunch Republican party leader, celebrates his 73rd birthday Feb. 10, still active despite his recently repeated wish to stay home and "run a country newspaper."

White expressed this wish about a year ago when he resigned from the chairmanship of the Committee to Defend America by Aiding the Allies.

At that time he said in an editorial in his paper that he resigned because the job was too strenuous.

"The job was too big a one for me," he said, "and after all I had my own life to live, and again after all I wanted to celebrate my seventy-third birthday in peace and devote the year or two or three that may be left to me to writing some books and helping with some chores around the house here in Emporia and Kansas."

Dreads Day of Senility.

Since resigning from the committee, White has devoted his time chiefly to his editorial work with

Auxiliary Firemen Learn The "Ropes" In San Francisco

A HOOK AND LADDER TRUCK COMES IN FOR SOME CLOSE INSPECTION.

As America makes rapid strides in training her civilians for their respective roles in current fight for freedom, symbolic scenes in San Francisco show actual training of some of more than 5,000 male residents who have already offered services as auxiliary firemen. A far cry from yesterday when volunteers had almost primitive equipment at their disposal, today's war-born "vamps," are provided with every device known to science in the combat against flame and death. Training is being given at all fire stations under the direction of skilled regulars and with all things taken into consideration, officials estimate that a man should be ready for active duty in about 15 hours of engine, ladder and procedure drills. Auxiliary force in San Francisco, typical of our principle cities, will eventually number about 28,000. This force will augment the regular fire department if bombers wreak havoc in environs.
