Roosevelt and Rayburn Criticised For Effort to Take Over a State System

AUSTIN, March 25.—Chairman Claude Williams of the Texas Unemployment Compensation Commission says the states have won the initial battle, temporarily defeating federal attempts to "take over" state compensation systems. But, he adds, the fight is not over.

"The thing we have to guard against is a six-line amendment to some appropriation bill in Washington that will have the effect of federalizing the systems," Williams asserts. The young chairman of the Texas commission minces no words as he spurs one from President Roosevelt to the Texas speaker of the house, Sam Rayburn, in a narrative of what he terms federal "take over."

The president, Williams says, "stepped into talking over the employment services by their chair-bureaucrats." He said:

"Every governor and administrator in this country violated from one to half a dozen of its state laws to comply with the president's request." Pressure was brought on the federal commission by the federal security board, Williams said.

"They made it plain to us that we do not pay their telephone and telegraph expenses and buy supplies for them, there will be no grant for administrative expenses in connection with operation of state unemployment compensation commissions," Williams said.

"The board was not satisfied with taking over the state employment services, they took over all claim-taking agencies and claim-taking personnel over our vigorous protest. If you give them an inch they will take an ell."

Speaker Rayburn was pretty much about our interference," Williams said when executive commission members of the state services demanded that a bill to compensate wartime displacement should be sent to a committee for hearing.

"I course the folks back here and particularly in Sam's district found out about him wanting to transfer the bill to them they did a little telephoning and wiring and Sam CHANGED HIS MIND."

When it got there," Williams said, "it was kind of like an inmate child at a family reunion—no one would have any to do with it—it had no one so it just lay there on the floor where it died."

When the president finally requested the chairman of the committee to take a bill and have hearings "but to make them brief as possible."

State employment services were taken over, formerly operated as a division of the unemployment compensation commission. His duty is to find employment as quickly as possible for employed persons and thus keep the payment of unemployment benefits.

It also has a compensation trust fund amounting to \$41,000 and some of the industrial states like Michigan have more than \$100,000,000.

CANDIDATES MUST FILE WITH STATE

Effective now is a statute passed by the 47th legislature requiring all candidates for public office to file with the secretary of state an affidavit of his loyalty to the United States, its form of government and that of the state of Texas, which he must swear to support and defend; to resist any effort to subvert or destroy any part thereof.

R. V. Galloway, county clerk, is in receipt of a number of blank forms for this affidavit, but as the secretary of state informs the county clerks that it will be impractical to furnish forms for all candidates, the press is requested to pass this information to the candidates. Following is the form of oath prepared by the attorney general's department.

PRIVATE UTILITIES FAVORED BY U. S. ARMY

VINITA, Okla., March 25.—General Manager Douglas Wright of the Grand River Dam Authority charges the army has consistently rejected the authority's bids for supplying electric power to defense projects in favor of private utility companies which charge higher rates.

Wright asserted in an interview Tuesday night that the Oklahoma Gas and Electric company was given a contract a few weeks ago to supply power to the Briggs, Okla., army cantonment, while the GRDA bid was five mills.

Several months ago, he added, the GRDA offered to serve the Tulsa bombing plane assembly plant at 4.5 mills but the Public Service company of Oklahoma got the contract on a bid of six mills.

Wright, who became manager of the big Grand River project when President Roosevelt issued an executive order taking it from the State of Oklahoma, asserted that "it's a hell of a note that the government won't buy its own power on its own project."

"I have done my best to accomplish what was to make Grand river to do. That was to make Grand river power work for national defense. Apparently, it can't be done. It is impossible for me to get a contract with the army."

TEX OIL FLOW CUT

AUSTIN, March 25.—An acute shortage of transportation facilities Wednesday led the Texas Railroad Commission to order Texas oil production cut to the lowest level since 1934.

During April, Commissioner Jerry Sadler announced, all except a few Texas fields will be allowed to produce fewer days than they are shut in; there will be 12 producing days, 18 nonproducing days in order to bring the net production of crude oil, condensate and natural gasoline down to the level ordered by the Office of Petroleum Co-ordinator.

The formal order will be issued Thursday, he said. It will call for an estimated April 1 production of 1,036,512 barrels which, with 96,000 barrels of condensate and natural gasoline, will bring the net output to 1,132,512 barrels.

In 25 fields, only nine shutdown days will apply. The crude output of these fields goes to aviation gasoline or other essential war uses. Added to the list established earlier this month when the tanker situation became most acute, was Conroe, in the Gulf coast, and Odem, in Southwest Texas. Dropped were Rincon, Hoffman and Magnet, because the crude was not being utilized for aviation gasoline.

Sadler emphasized that some operators did not seem to realize there was a transportation shortage, had asked why they had to be cut. The cut, he said, was due solely to the shortage of facilities to get the oil to the East, and reiterated that in his opinion the "only salvation" was the suggestion he made some weeks ago that unused West Texas lines be re-laid to the Eastern markets.

DISLOYAL FOREIGN-BORN

FIRST MEETING OF THE BAPTIST BROTHERHOOD HEARD STIRRING ADDRESS BY ARMY CHAPLAIN

A rousing he-man talk by Chaplain J. W. Kilburn of Camp Bowie and a mixed musical and reading program featured the first regular meeting of the First Baptist church Brotherhood last night, with Vice-President W. W. Fewell in charge of the program.

Closing the meeting, President E. L. Jackson climaxed the patriotic theme of the hour by introducing the flag borne by Boy Scouts, while taps was sounded by another Scout stationed in the hallway.

Scouts bearing the flag were Eddie Jackson, O. W. Ford, Joe Tom Poe and Robert Shaw. Trumpeter was Ray Clark.

Chili, pies and coffee were served preceding the program by members of the younger men's class, the pies being made by the Women's Missionary Society.

Ernest Hittson, A. E. McNeely and Mrs. Ben Krauskopf composed a violin orchestra with Miss Billye Cole at the piano.

Miss Helen June Terry of Cisco Junior College gave a reading and responded to an encore. A number of patriotic and sacred songs were led by W. Frank Walker.

The meeting was opened by President Jackson, and following the invocation by Rev. Judson Prince, the meal was served.

W. W. Fewell introduced the speaker with explanations which led up to his selection, saying that he was state evangelist for the Baptist denomination in Arkansas before his induction into the army.

Chaplain Kilburn said that he had been requested to make a he-man talk and he then launched into the subject in an aggressive and enthusiastic manner.

He declared that man's first duty was to take care of the body that God gave him, and he said that one of the greatest curses was the liquor evil.

CLEANUP WEEK SET

During the meeting of the city commission last night, Mayor G. P. Mitcham was given instructions to arrange for a clean-up week beginning March 29 and ending April 4, in cooperation with the proclamation of Gov. With these instructions the authority was also given to put on as many trucks and men as were necessary to haul away rubbish when it shall have been gathered by citizens.

Mayor Mitcham said today that he would like for the people to use about two days to gather their rubbish conveniently and then trucks would take it away.

Judges and assistants to hold the city election the first Tuesday in April, were appointed at the commission meeting last night. They are: judge, Fred Grist; assistants, W. B. Statham, Yancy McCreia, Doc Cabaness, Mrs. R. B. Carswell and Mrs. L. A. Harrison.

NEW ATTACKS ON BATAAN BY THE ENEMY

American warships have dumped high explosives on Jap island based only 1,000 miles from Tokyo in preparation for eventual United Nations' offensive in the Southwest Pacific.

Two naval plows by United States forces and a furious battle between Chinese and Japs in Central Burma was disclosed in Allied communications. The Japs had by-passed Toungoo, enroute to Mandalay and the situation was reported to be "serious."

British communique at New Delhi disclosed that the Japs had occupied Andaman island, 180 miles south of Burma in the Bay of Bengal and on the approaches to India. The islands have not been defendable since Malaya fell and British troops and civilians were evacuated.

American navy, in surprise attacks on Japan's Marcus island and on Jap-occupied Wake island, smashed installations, sank two patrol boats and knocked out three seaplanes.

Twelve tons of bombs were dropped on Marcus, which is only 990 miles from Tokyo and Yokohama, and a "crushing blow" was struck at the enemy on Wake island in raids in late February and early March.

RUSSIA — Red army reported hammering into the suburbs of a big Ukraine town believed to be Kharkov or Stalino and a dozen more villages were reported captured on the Smolensk front.

NEW GUINEA — Jap planes made another but weaker raid on Port Moresby, which has suffered a score of enemy bombing attacks. Enemy planes were over Katherine, 175 miles inside Australia on the railroad to Darwin.

PHILIPPINES — Japs renewed heavy attacks on the American defenders of Bataan province, sending over 27 bombers and smaller craft in an effort to break the defense lines. Infantry reinforcements were moved into the battle fronts.

REMAINING CIVILIZED

A general danger in times like these is that such qualities as sensitivity, decency, order, kindness, humanity, respect for law, may be blunted by disease and horror. What the civilized nations are obliged to do, in order to save themselves, naturally tends to toughen their souls and harden their procedure. But they must not harden their hearts. They must fight fire with fire, without letting themselves be burned by the fire. The deencies must be preserved as far as possible during the struggle, with full return of law, order and all the humanities as soon as possible.

We must not level ourselves with the Japs and the Hitlerites in barbarism. No warfare in these ugly times can be pleasant or polite or very considerate of other people's rights; but there is a vast difference between war as it is waged by the Germans and Japs today and war as Americans can wage it without losing military effectiveness. Some chivalries are possible even in these times of bombed cities, mass slaughter and submarine horror. We should preserve what we can in the way of military decency, not because our enemies deserve it but for our own sake. It will pay us poorly to win at the cost of losing our own souls. There must be sternness, hardness, resistless driving power, but we must crush barbarism without making ourselves barbarous.

WASTING TIME

Columnist Ernie Pyle tells of Pershing Square, in Los Angeles, as one of the funniest places in America. People come there just to argue. And they seem to do it not to settle great truths or criticize national policies or anything like that, but just for the joy of the argument. The square is all dotted, as you might say, with dotty people, and nobody seems to know what he is talking about. They used to have a place like that in Cleveland, when the famous Tom Johnson was mayor. For many years it was the most argumentative piece of ground on this continent. But now that's greatly changed. People there don't argue at all. They're too busy rushing to and from work. The example is recommended to Los Angeles.

MILITARY LEADERS

This war has produced three military leaders of the first rank—General MacArthur of the United States, Marshal Timoshenko of the Soviet Union, and Generalissimo Chiang Kai Chek of China. The last has a particular distinction, in that he is head of his government, as well as its active commander in military affairs. It is significant that all of these commanders believe in the offensive, and pursue the offensive. MacArthur, of course, is carrying on what is essentially a defensive action—but he continually takes the battle to the enemy. Timoshenko has won immense victories, which have cost the Germans millions of men, by use of the most daring offensive tactics. And Chiang Kai Chek, for five years, has flung his superbly brave, ill-equipped armies against the Jap and kept him out of the heart of China. It is for that reason that recent changes in the commands of the United States Army and Navy should encourage the country. Some "super conservatives" have been eased out. And younger, aggressive men are coming in to top positions.

BURLESQUE ON FREEDOM

The Memphis Commercial-Appeal recently published a letter by a World War veteran whose only son is now serving in the Marines. In part, it says: "How can fathers and mothers of boys who are in the danger zone and who are being called upon to sacrifice their lives, feel any 'surge' of unity when the president and congress permit a bunch of shipbuilders and munitions workers to quit when they get good and ready? "Do our boys at the front get

CONGRESS MUST ACT.

The cost of war has come home to many an American for the first time. The income taxes due in mid-March were the highest in our history. A new tax bill is being debated which will double the tax load. It has been necessary to raise the debt limit past the \$100,000,000 point.

Every American, no matter how small his income, must and will help pay for war in one fashion or another. Congress must do more than raise taxes. It must take two definite steps to protect the people and the national economy.

First, something drastic must be done to pare non-defense spending.

So far, there has been much talk and practically no action.

Abnormal peacetime extravagance goes on "as usual." Congress must be told that the American people DEMAND maximum RETRENCHMENT in EVERY NON-DEFENSE FIELD.

This should save a minimum of \$2,000,000,000 a year.

Second, there must be an end to the idea that the government can pay for everything and finance everything.

Government financial agencies' proper job is to pay for military necessities which are outside the sphere of private enterprise. Only the government can build barracks, buy ships, planes, munitions and pay for the maintenance of troops.

In other fields, private banking and other financial institutions can do the job. They have the money. They have the personnel. They are preparing to go the limit.

Yet government, AT THE EXPENSE OF ALL THE PEOPLE, has usurped a hundred and one fields of banking activity which properly belong in the field of private, self-sustaining enterprise.

The government will act in these matters when, and only when, the people DEMAND IT.

And there's no time to waste in making the demand.

ANNULMENT OF DIVORCE AFTER 21 YRS. SOUGHT

This is jury week in the 88th district court, and an interesting case was called Monday in which a decree of divorce, granted in 1920, is sought to be set aside and held for naught.

The style of the case when filed was C. G. Dunham vs. Adda Dunham. After the decree was granted in 1920 both parties remarried. There was a child born to the divorced couple previous to the 1920 divorce, and after their remarriage a child was born to defendant and her husband.

In the meantime the husband of the second wife had amassed quite a fortune in oil properties, and later died. In the present trial both children and the widow have been made parties to the suit. In the will of the deceased husband half of the community property was bequeathed to "my lawful wife, and the community interests of the wife were bequeathed to my children."

The plaintiff alleges in her petition to set aside the 1920 decree that it was obtained upon false allegation, inasmuch as immoral conduct was alleged, and this action is brought to clear her name of these false allegations, and to declare the lawful wife of testator.

If the jury declares plaintiff the "lawful wife" of testator she, and not the second wife, would be the beneficiary, and be declared the surviving widow, and entitled to the survivor's half of the property the divorced husband had accumulated after the divorce was granted.

Plaintiff is represented by W. C. Austin, of Fort Worth, while the defendant is represented by Gordon Simpson of Tyler and Frank Sparks of Eastland.

The jury selected to decide this complicated case is composed of E. N. Marsh, Carbon; M. O. Hazard, Eastland; Odie Brightwell, Desdemona; C. L. Carmichael, Nimrod; V. E. McClaren, C. F. Dendy, Cisco; J. C. Claborn, J. H. Nunnally, J. W. Joyce, Joe McAdams, Rising Star; Ernest Calvert, Ranger, and R. M. Earp, Okra.

Other orders handed down by Judge B. W. Patterson were as follows: C. C. Ledford et al vs. Maurer-Krebs Oil Co., assigned for hearing April 2.

Baked Chopped Steak and Onion Dumplings

By Dorothy Greig

A DISH like this is balm to the spirit of any woman. It looks so completely dressed up—yet it's a thrift dish from start to finish. The luxury-seeming climax is the Savory Mushroom Sauce, so smooth, and rich and crowded with tender mushroom slices.

First start with this biscuit dough: 2 cups sifted flour, 4 teaspoons baking powder, 1/2 teaspoon salt, 6 tablespoons shortening, 1 cup (approximately) milk, 1 1/2 cups sautéed onions. Sift together the flour, baking powder and salt; cut in the shortening until well mixed. Add milk, stirring until a soft, but not sticky, dough is formed. Turn out on floured board and knead enough to shape into a smooth ball, roll lightly 1/4 inch thick. Cut into 6 squares, about 6 inches square. Put a spoonful of sautéed onions on top of the

square then place a partially cooked chopped steak on top of the onions. Fold the corners of the biscuit dough over the top of the chopped steak. Put into a very hot oven (450°) and bake 12-15 minutes. Serve Savory Mushroom Sauce over the top.

Chopped Steak for Dumplings: 1 pound ground beef, 2 tablespoons ground nut or cream, 1/2 cup soft bread crumbs, 1/2 teaspoon salt, 1/2 teaspoon pepper. Mix together and shape into 6 cakes. Brown and partially cook the steaks.

Savory Mushroom Sauce: 1 can condensed cream of mushroom soup, 1/2 cup condensed consommé. Empty the cream of mushroom soup into a pan and stir well. Then add the consommé. Heat and serve over the "Baked Chopped Steak and Onion Dumplings."

W. W. Wallace, Miss Ella Andres, Miss Pearl Donoway, Mrs. Elizabeth Hughes, Mrs. A. E. Jamison, Mrs. Leon Maner, Mrs. J. S. Mobley, Mrs. W. B. Statham, Mrs. O. L. Stamey, Mrs. J. J. Tableman, Director Hjalmar Bergh and the hosts, Mr. and Mrs. J. E. Spencer.

BEHIND THE SCENES WITH EASTER BUNNY'S HELPERS

GARDENIAS ARE PICKED WITH CARE IN GREENHOUSE.

CHOICE BLOOMS ARE SPRAYED BEFORE PACKING.

Greenhouses in America today are a bee-hive of activity as florists attempt to cope with the annual demand for Easter blooms. War or no war, Easter is the festival day when everyone is flower-conscious and, thanks to the efforts of domestic growers, fragrant blossoms will decorate homes and churches throughout the nation. Most of the spring flowers will be available for Easter gifts, although the traditional Easter lilies will be very scarce due to the shutting off of imports of Japanese bulbs. Corsages will do their bit for feminine morale, while florists have designed dozens of special fresh flower arrangements for men in the service to wire to the "girls they left behind." American ingenuity has come to the fore again in the form of improved methods of breeding and picking that has doubled the life of most flowers. Blooming is controlled at holiday time by water and temperatures, and once picked the flowers are kept at 42 degrees until they take their places in shop windows. Here is a photographic cross section of florist activities.
