## LIVESTOCK AUCTION SALES TOTALLED \$3,400 THIS WEEK; PAUL BOOTH SAYS RAIN WOULD HELP

Buying and selling at the Cisco livestock auction barns on South D avenue shows considerable fluctuation during the past few weeks. Sales are up and down.

This week's business totaled \$3,400 and was in keeping with usual business at this season.

A good rain to revive pastures might boost sales, thought Paul Booth, secretary for the management.

### FOOT EM AT SUNRISE

STADT, Ill., March 26.—Louis Logner has been divorced for the first time in 16 years. The couple were married in 1923 and the first divorce in 1926. The second operation twice, and their third divorce March 26.

## THIRTY KILLED IN DYNAMITE BLAST TODAY

EASTON, Pa., March 26.—A disastrous premature dynamite explosion killed at least 30 men Thursday in a limestone quarry at the plant of the Lehigh Portland Cement company.

Rescuers expressed belief the total dead may reach 40.

Fourteen school children from a school a mile north of the quarry were brought to an Easton hospital.

The blast, which occurred about 9:45 a. m., was heard for miles and was so severe that doors were jarred open in Allentown, 18 miles away.

Many buildings and homes in the area were damaged.

G. C. Bachman, timekeeper for the company, said preparations were being made for a major blast and that 10 to 12 men normally were used in such an operation.

He said all men in or around the quarry were killed or injured.

The plant, located approximately five miles north of Easton, employs about 200 workers. No plant buildings are near the quarry, however, Bachman said.

James Gish, superintendent of the company which operates the quarry, said three planes circled the area before the blast.

## MIDNIGHT IS LATE ENOUGH CITIZENS SAY

DALLAS, March 26.—Request for a midnight curfew on taverns and dance halls in Dallas was before the city council Thursday and temperance workers who filed the petition said county officials would be asked to establish a similar closing time.

"Other businesses close early, so why shouldn't road houses, honky-tonks and other similar places," the petitioners asked.

The city councilmen were non-committal in their reply, only saying they would "consider" it.

## TEXAS CROPS FAIRLY GOOD EXPERTS SAY

AUSTIN, March 26.—The United States Agricultural Marketing Service and Texas Agricultural Extension Service report that Texas crop conditions at the start of the new season are on the favorable side, as a whole.

Subsoil moisture is satisfactory in all but small portions of the state while surface moisture conditions are spotty. Spring work is progressing in all except the driest portions of Central Texas and a wet southeastern portion.

Wheat is making good growth. In all north Texas, however, damage by green bugs is severe, amounting to almost total loss of crops in some northern blacklands. The insects are reported turning upon wheat and barley. Infestation and damage is apparent down into parts of Central Texas.

A large portion of corn acreage has been planted, early cotton is ready for chopping and rice ground is being prepared. A good rain would help snap beans, potatoes and tomatoes in the lower valley.

Oilmen are making favorable progress and tomatoes in East Texas are mostly in cold frames, but later than usual.

Livestock are coming through the winter in fair to good condition and goat-shearing is under way in the Edwards Plateau area. Lambing is well along but death losses are higher than usual.

A FAIR EXCHANGE—Pennies for a bundle from heaven is what August R. Baekle (right) has been saving for all these years. When he had 6885 of them, his wife (left) presented him with a baby, and he quickly paid his Philadelphia hospital bill.

## GOSPEL SONGS AT CONVENTION HERE SUNDAY

The regular fifth Sunday singing convention will meet at 1:30 o'clock next Sabbath at the East Cisco Baptist church. It is announced by Don Rupe, quartet from Abilene, Brownwood, Eastland and Ranger are to be present.

This convention was organized in 1939, says Mr. Rupe, and is still growing in interest and attendance, bringing many out-of-town visitors to each gathering.

The public is extended a cordial invitation to attend and help in singing good gospel songs.

## CATTLE MARKET

All classes of cattle and calves found an active and fully steady market at Fort Worth Thursday.

Hogs were mostly 10c to 12c above Tuesday's levels, with the top \$13.35, although packers stopped at \$13.25.

Spring lambs were fully 25c lower and some clipped lambs were weak to lower.

Good to choice fed steers and yearlings sold mostly at \$10.50 to \$12, with occasional fancy yearlings higher. Common and medium grade slaughter steers and yearlings cashed at \$7.50 to \$9.50.

Good to choice fat calves brought \$10.50 to \$13, the latter price being paid for light weights. Plain and medium calves cashed at \$8.50 to \$10 and cull sorts brought \$7 to \$8.25.

Good to choice stocker steer calves went out at \$10.50 to \$13, three loads of light weight South Texas calves making top figure.

Heifer calves generally brought \$12 down. Common to medium stocker calves ranged from \$7.50 to \$10.75. Stocker yearlings brought \$12 down and stocker cows \$9 down.

In the hog yards most of the good to choice 180 to 280 pound butchers cashed at \$13.25 to \$13.35, with the good 160 to 175 pound averages at \$12.60 to \$13.15. Packing sows were steady at \$11.75 to \$12. Stocker pigs ruled unchanged at \$10.50 down.

Choice milk-fed lambs sold at \$12.50, with other sales of milk-fed lambs cashed at prices up to \$11.50. Other wooled lambs cashed at \$11 down to \$10 which bought medium grades. Most shorn lambs sold at \$8.25 to \$8.90, although a few leads were ordered in at \$9. Good wooled ewes were reported at \$6.50. Yearlings, wethers and feeders were scarce.

## 6 YANKS AND RAF BATTLE 100 JAP SHIPS

MAYMBO, Burma, March 26.—Six Yankee pilots of the American Volunteer Group, with the help of the RAF, harassed about 100 Japanese bombers and fighters last Saturday in the enemy's big raid of an AVG-RAF field in Central Burma.

The Japanese, attacking in three waves, confronted the defenders with the heaviest numerical odds thus far encountered in Burma.

Parker Dupont, a lean, wiry former United States army flyer who came from Sheekonk, Mass., destroyed one Japanese navy zero fighter, his engine blowing up like a firecracker, he said, 17,000 feet above the jungle.

With seven other Japanese hunting for shots at him, Dupont broke off the action and returned to the field to reload his empty guns.

One bullet penetrated Dupont's cockpit, but lead fragments had only scratched his right arm. He and one other American flyer named Jerstedt had pointedly attacked a wave of 27 Japanese bombers at 13,000 feet.

Jerstedt's face was cut by his bullet-shattered windshield and he signed off in the fight against the bombers. He was not with Dupont in the battle with the navy zeros.

## MOTHER WHO DESERTED BABE BEING SOUGHT

FT. WORTH, March 26.—A 10-month-old boy, deserted here Monday by his mother was being cared for by a community chest agency institution while city and county authorities made a search for the young mother.

The mother, 19, left the baby in the waiting room at the salvation army and left under the pretext that she had a letter to mail.

Salvation army workers took care of the baby and waited for the mother to return. When the mother failed to put in her appearance late in the afternoon, Mrs. R. McNeill, wife of Adjutant McNeill, called Mrs. W. H. Davidson, supervisor of the children's bureau of the city health and welfare department.

While in the waiting room the mother told the workers that the baby was recovering from measles and a severe cold. She said also that she had hitchhiked from Haslet with the baby.

## JIM FLOURNOY CANDIDATE CO. COMMISSIONER

James J. Flournoy, resident of Cisco since 1918, most of which time he was in the oil and real estate business, has authorized the Cisco Daily Press to announce his candidacy for county commissioner, precinct four.

Mr. Flournoy is out of the city this week on business and will submit an official statement later.

## GAS TAX FOR MARCH SHOWS BIG DECLINE

AUSTIN, March 26.—For the first time in years collection of state gasoline tax is declining on a month-by-month basis.

The comptroller's office reported collections from March 1 to March 24, at \$4,197,725, were \$101,163 less than in the same period last March.

There is also a decline on a month-to-month basis. February collections this year were below those of January—but this is an anticipated seasonal decline and does not indicate a trend toward less gasoline consumption this year compared with last.

In fact, total collections this year through March 24 are \$761,694 in excess of those for the same period last year.

## STRAWN SAND POOL ALBANY AREA SPREAD

The Strawn sand pool of Shackelford county, six miles south of Albany, on the J. H. and R. B. Elliott ranch has been assured another gas-oil well with the R. H. Roark No. 1-C Elliott, section 9, L. A. L. survey, making 9,500,000 cubic feet of gas daily, with a spray of oil from 2,794 feet to 2,821 feet.

Northwest of the area, the Kittery oil company and Jones & Stansney No. 1 Elliott, also in section 9, LAL survey was drilling below 2,200 feet.

On the Nail Ranch, the Hickok & Reynolds and Jones & Stansney No. 19 Nail, section 133, E. T. survey, was drilling below 1,000 feet.

Roeser & Pendleton, Inc., and Continental Oil company No. 7-A Cook estate, section 118, E. T. survey, extended the Hope sand production north with a 92-barrel pumping potential in 24 hours from the 1,600-foot horizon.

## CIO AND A.F. OF L. WARN

WASHINGTON, March 26.—William Green, head of the American Federation of Labor, and Philip Murray, CIO big chief jointly advised congress today against passing labor legislation which might start an "undeclared war among ourselves" and divide the nation into groups fighting each other.

In statements prepared for presentation before the house naval committee, they assailed a bill to suspend the closed shop and extra pay for overtime in war plants and said it was dictated by labor's enemies.

"I charge that the sponsors and supporters of this bill are now waging an undeclared war against President Roosevelt and against the workers of America who believe in the policies of his administration," said Green in his statement.

Murray declared the Naval committee had the responsibility of "correcting misinformation that has been sponsored and fostered by antilabor groups and of rebuking once and for all those in public life and in private life who are attempting to disrupt and divide our Nation into groups."

The American Federation of Labor head told the committee that "we can not afford in the nation's crisis to take time out to fight another and undeclared war among ourselves here in America."

Said Murray: "This is not the time for any patriotic American citizen to malign or spread misinformation about labor or to divide this nation into groups fighting each other instead of our common Axis enemies."

Organized labor has started its own wire-your-congressman campaign to counter the flood of mail and telegrams for suspension of the 40-hour week, senators reported.

Chairman Van Nuys of Indiana of the Senate Judiciary Committee before which several labor bills are pending, told reporters he received 50 telegrams from CIO unions in his State in one day. All urged him to vote against any changes in present labor laws, he said.

One upshot of the labor controversy was a statement by Attorney General Biddle calling down Thurman Arnold, assistant attorney general, for accusing organized labor of "injuring and destroying" independent business. At a press conference Wednesday, Biddle said Arnold's remarks, before a House Judiciary committee hearing Saturday, were "unfortunate at this time" and did not represent the views of the justice department.

## BACON SAYS NICE RAIN SOUTH TOWN

Billy Bacon said a nice rain fell Tuesday morning along the course of the Sabano creek south of town. Water ran on the hard land while a mile or two north toward Cisco there was a bare sprinkle.

Farmers are becoming alarmed about moisture in some sections. The cool northers, which seem to drive away every rain prospect, looks like some of the dry years of the past. Other farmers say they have enough moisture for present use and think plenty of rain will come in due time.

Speed isn't new. The iron ship that saved the Union was built in three months and 21 days, and went into action 22 days later.

## CHURCHILL ADMITS ATLANTIC STATUS WORSE

Gen. Douglas MacArthur met renewed Jap offensives in the Philippines and in Central Burma today with a pledge that "we shall win or die" in a mighty crusade against the Axis.

The promise of the supreme commander of the Southwest Pacific sector was made at Australia's parliament house.

In the Philippines, enemy bombers again bombed the Corregidor fortress for six hours, losing four planes. It was the third straight day of intensified attack.

Fifty-four bombers participated in the effort to break the defense of American and Filipino troops who had scorned a Jap ultimatum to surrender.

In Central Burma, the Japs are using paratroops and increasing numbers of infantry and planes in two main drives toward the Prome oil fields and Mandalay.

On the Prome front the Japs advanced to within about thirty miles of their objective, passing Kyangin, and are believed to be massing for a thrust at the oil fields. Chinese fighting in the Toungoo area, on the railroad leading from Rangoon to Mandalay, are trapped by strong enemy flanking units, but are putting up a bitter fight to break the Jap encirclement.

LONDON — British renewed daylight raids on German-held European coast, after a battering night attack by probably 300 bombers ranging over northern Italy and southern Germany's production centers.

RUSSIA — Fighting on land and in the air has been intensified all along the front by both sides. A big German air attack on Murmansk was smashed. The Red army intensified its attack south of Leningrad, the Germans counter-attacking in bitter fighting on the Central and Donets Basin fronts. Russians attack in Crimea.

BRITAIN — Premier Winston Churchill acknowledges that the Atlantic battle has taken a turn for the worse.

VAST MAN-POWER

Better health and longer life play an important but invisible part in our military situation. The longer the average life term, the more military service may be obtained from a given population, because their potential service period is longer than it used to be.

Thus, with legal provision for registering young men at 18, and with the top level for military registration raised to 64, it is possible in theory, at least, for citizens to be eligible for service over a period of nearly half a century.

Such official extension of service time or eligibility would matter little if only a few men were living to the age of 50 or beyond, a situation which prevailed not many generations ago. But with life expectancy now said to have risen above 60 years, the effect on military figures is evident.

Of course such figures are merely theoretical. The highest estimates of men now expected to serve in this war run about 10,000,000. But the additional numbers available for collateral use are reassuring.

YOUNG PATRIOT

She's only 12, but she takes her war work seriously. She's digging a Victory Garden in the back yard—six weeks ahead of gardeners in her state. She carries a dingy wad of knitting around in the back pocket of her overalls. She has just embarked upon the project of making model airplanes for the Navy Department.

BRETT OF THE AIR

The appointment of Lieutenant-General Brett as commander of the allied air force in the Pacific is another tribute to the worth of our fighting men. General Brett, the son of one of the noted librarians of the country, comes naturally by his organizing ability.

IN THE UKRAINE

Ukrainian resistance to the Nazis is playing an important part in the German difficulties on this front. It is the result of the prudent policy that the Soviets have pursued there in the last 20 years. Under the czars Russification was the government watchword. The Ukrainians were to be turned into Russians, whether they liked it or not.

Naturally the Ukrainians take kindly to this treatment. When they contrast it with the German theory of the "master race," and the practice of slavery for all who do not belong to it, no wonder they have chosen the free side.

They are proving strong allies to the Russians and a Nazi stumbling-block.

"One picture is worth a thousand words." This saying, attributed to the Chinese, must have been in the mind of a Western man who was filling out his income tax blank. When it came to "Exemptions," he wrote down nothing whatsoever. He merely added the picture of his wife and ten children.

Some of the nicest looking houses in this town are Sherwin-Williams SWP House Paint jobs—and we're proud of them. We sold the paint and recommended the painter. You can't beat the combination of SWP and a rattling good painter if you're out to buy in at our store for a color card. Ask us, too, about the new SWP Undercoater that seals, 'blanks', smooths out roughest surfaces!"

**Friday.**  
The XXth Century club will meet in the Library club room at 3 p. m.

**Initiation Was Held Tuesday By FIHT Class**

The senior class of the future home makers of Texas met Tuesday evening at 8 o'clock in the home economics department for initiation of new members. The first period of the evening was used in an impressive candle light ceremony, when freshmen classes became official club members.

Officers of the club gave short, instructive talks to the incoming class. The first talk, given by Dorothy Jean Anderson, the presi-

dent, discussed "Doing Our Best to Uncle Sam"; a talk on "Health" was made by the vice president, Vida Faye Ramsower; "Sincerity" was discussed by the secretary-treasurer, Kathryn Johnson; "Honesty" by the reporter, JoAnn Harris.

Dorothy Jean Anderson read the Home-makers' Creed which was repeated by the freshmen candidates. Pledge to the flag followed, after which all joined in singing "Star Spangled Banner." Thirty new members were initiated. Light refreshments were served to approximately 75 members.

**Baptist G. A. Group Met Tuesday Night**

The girls' auxiliary of the First Baptist church met in the church parlor Tuesday evening in regular session. The meeting was opened with prayer by Jeanette Burnam. Minutes were read and approved after which the Annie W. Armstrong offering for home missions was taken and given to the treasurer, Shirley Parker. A new member, Dorothy Westfall, was welcomed.

**BELLE OF THE FORT**—Margaret Mollenkoph, stenographer at Fort Knox, Ky., is a nice change of pace for Signal Corps photographers who are used to snapping tanks and guns.

**Council Group Two With Mrs. Streater**

First Christian church council group two met in regular session Tuesday with Mrs. D. G. Streater in her home at 1213 W. Ninth street. Mrs. H. H. Tompkins, chairman, opened the meeting and presided at the business period, at which time discussion was made of the all-church federation meeting next Tuesday. First Christian church council will be host church on that occasion.

Mrs. J. F. Benedict brought a devotional from Luke 22nd chapter, using verses 15-27. A refreshment plate with coffee was passed at the conclusion of the meeting.

**EX - HUSSAR IS 106; SAYS A. HITLER DOOMED**

CHICAGO, March 26.—Arpad Sabados, who concluded his 44 years of military service with the Hungarian Hussars over half a century ago, greeted his 106th birthday today by master-minding a modern war from his chair by the radio.

Veteran of three wars, Sabados offers to stake his reputation—and throw in that of his warlike Magyar forebears—on his belief that the Nazi invasion of Russia will prove the key to Hitler's undoing. "But for this folly Hitler could have been the master of Europe," he declares.

A vigorous outdoor life coupled with "plenty of wine, whiskey and cigars" is Sabados' formula for staying young. His regime includes drinking and smoking without restriction, and he eschews all vegetables for a diet consisting almost entirely of meat.

**Soldier at 12**

Over six feet tall and scaling 256 pounds, the burly ex-Hussar never has known a serious illness. His thick shock of snow-white hair and bristling eyebrows top a pair of piercing blue eyes, still vision perfect. Of his own teeth but three are missing—pulled out by his own hand with a pair of pliers.

"I don't believe in doctors," he explains, chuckling. "Why spend money when you can do it yourself?"

First as a soldier, then as a farmer, he has contrived to be out in the sun most of his 106 years.

Born at Losoncz, Hungary, he was the youngest of four brothers. Made a soldier at the age of 12 when the Hungarian revolution of 1848 put an abrupt end to a projected military school career, he still feels the effects of a wound received in that conflict.

By 1877 and the Russo-Turkish war of that year he had worked his way to the rank of captain in the Hussars. He received his second wound in that war, a slash in the arm from a Turkish bayonet. Asked if the Turk escaped Sabados thunders a lusty denial:

"Impossible! I slaughtered him! I cut him down with my saber!"

Likes His Whisky.  
Sabados first came to America in 1862 and tried his hand at farming in Maryland. Since that time he has returned to Hungary many times. If the war ends soon enough, he says, he would like to cross the water once more.

He has owned 22 farms and cattle ranches throughout the middle west, selling the last when he retired on reaching the century mark six years ago.

Children, he has outlived all his relatives, including his wife, Mary, who died ten years ago at the age of 84. Since his retirement he has lived with a friend in Chicago.

The old zest for life persists, however. Much of his time is spent in his little grape arbor where he insists on making his own wine, and no day is complete without a visit from one of a host of friends.

**MANY NEVER SUSPECT CAUSE OF BACKACHES**

**This Old Treatment Often Brings Happy Relief**

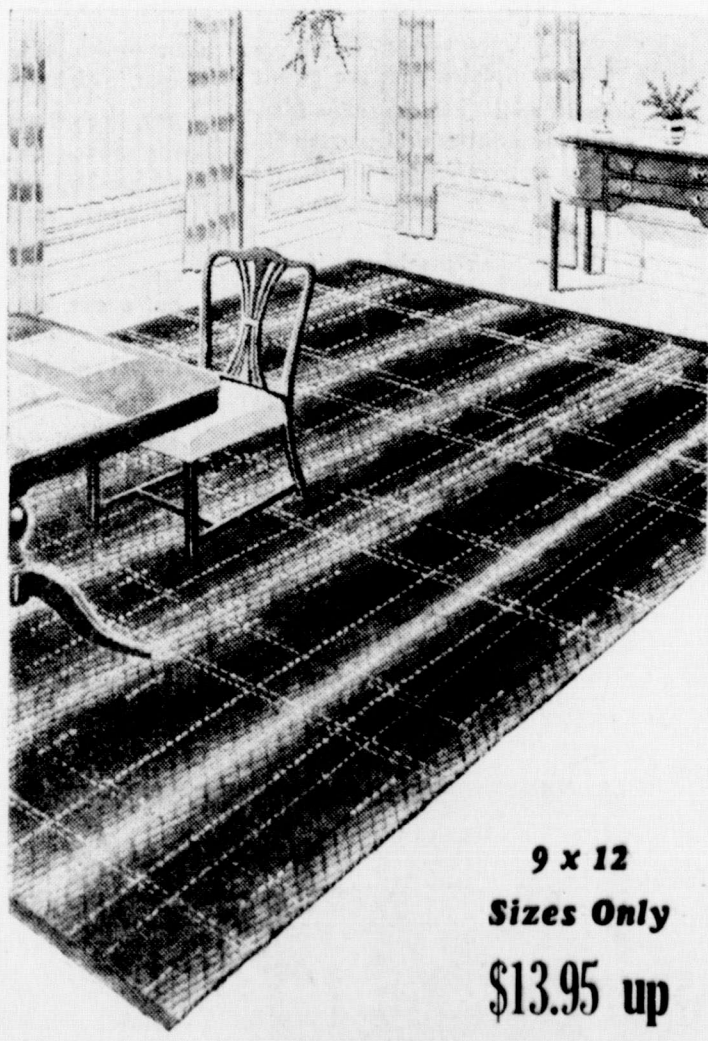

Many sufferers relieve nagging backaches quickly, once they discover that the real cause of their trouble may be tired kidneys.  
The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.  
Don't wait! Ask your druggist for Don's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 million of kidney troubles that are not poisonous waste from your blood. Get Don's Pills.

**Mrs. W. W. Fewell Cisco Music Club Hostess**

The Cisco Music Study club met with Mrs. W. W. Fewell in her home Wednesday morning with Mrs. Ben Krauskopf presiding. During the business period it was decided to send the Lions club a note of thanks for bringing the artist, Rubinoff, to Cisco.

The topic of the morning program was "Youth and Music." Those taking parts were Mrs. W. W. Fewell, who discussed "Youth Overcomes a Handicap," and Mrs. A. R. Purifoy, who told of "A Star Enters Her Teens." Report was made of members absent because of illness.  
Those present were Mrs. Alex Spears, Mrs. John E. Walter, Mrs. John Jensen, Mrs. A. R. Purifoy, Mrs. Ben Krauskopf, Mrs. S. E. Hitson and Mrs. W. W. Fewell.

# WAR!

... after 10 years of perpetual e-motion

WASHINGTON officialdom complains that the public does not realize that the nation is engaged in war. A critical war. An all-out war. Washington chides the citizenry for its lethargy, its complacency.

Thus read the opening lines of an editorial in the official magazine of the United States Chamber of Commerce suggesting that the average citizen feels that the bureaucrats in Washington "are not taking the war seriously."

The average man, it is said, "has become impervious to 'emergency.' He has been exposed for ten years to perpetual emotion. It is natural that he ask his leaders for something more

than words. He needs examples, actions, in high places."

But, it continues, "As far as the citizen can see, not one of the 150-odd peace-time bureaus, commissions and authorities has made any sacrifice. Not one. Rather, not a one but has found the war an excuse for expanding its personnel and 'services.'"

The average man knows that wars are not won with words, piddling policies, or boondoggling. Wars are won with deeds, with production, and with the full cooperation of government, labor, industry, and of ALL the people.

He knows that to win the war there must be an end to petty politics while the battle rages. He knows that his

country has no need for bogus reformers, hampering and reviling industry at a time when our greatest need is planes, tanks, ships—not ideologies.

The practical business men who built up and manage America's electric companies today are providing electric power where it's needed, when it's needed!

Despite the millions of millions of dollars spent for political power projects, business-operated companies are furnishing over 90 per cent of the nation's electric supply in the present emergency. Last year, they installed over 2 1/2 million more horsepower! We now have in the U. S. more electric power than all the enemy nations together.

Careful, efficient and economical production of electric power will continue, lighting air fields, army camps, industries, your home and business. The war will be won, not with words of abuse but by wholehearted cooperation!
