## Schools Enrollment Is Good, But All Between Six and 18 Are Needed

Cisco public schools enrollment has and will lose some scholastics this year as compared with that of last year, but there appears no alarming loss according to the census "to date," said Supt. R. N. Cluck in discussing figures as they appear now.

Enrollment for last year in the district proper was about 1480 and at present, with work not completed, there is already above 1,000 scholastics between the ages of 6 and 18, inclusive, listed for the next school year.

Mr. Cluck wants to emphasize the fact that any child who will be 6 on or before September 1 of this year is entitled to draw school money. Also, those who are not over 18 years of age, regardless of whether they are in school or not, are entitled to draw money for the Cisco district.

If there are any in the district who have not enrolled in these ages, they should do so at once because each person enrolled will draw \$32.50 for the schools from the state school fund.

Last year, according to Mr. Cluck, there were only 104 children 6 years of age enrolled as scholastics. However, there were 138 who attended school. This leads him to believe a number did not realize they should enroll the 6-year-olds for state money.

If there are any under the above conditions of 6 to 18 who have not enrolled, their parents will do themselves a favor by telephoning the school, the school board office or Mr. Cluck in person, immediately.

They should not wait, as delay might make the schools lose the money they should receive, Mr. Cluck emphasized.

## BE GLOVER, LOYD LYNCH TO SONORA

Assistant County Agent Joe Glover and County Agent Floyd Lynch, with other county agricultural agents from the sheep and goat area, are attending today session on mohair, wool and beef production problems at Sonora agricultural experiment station.

Another consideration was the USDA war board's call for increased production of wool, mutton and for increased marketing of beef. Internal and external parasites, stock diseases and poisonous plants are the principle subjects for discussion here. Many of the agents brought animals for showing and specimens of plants found to have caused livestock losses on ranges in their counties.

R. Nisbet, sheep and goat specialist of Texas A. and M. college extension service, is in charge of the program and is being assisted by the personnel of the Sonoran station.

The county agricultural agents are expected to pass on the information learned at the meeting to producers in their locality and to undertake a continuing program in cooperation with the producers.

## PAGE ISSUES RULES RELATIVE TO DEFERMENT OF FEDERAL EMPLOYEES FROM MILITARY SERVICE

Rules which will govern action of government departments in requesting deferment of federal employees from military service on occupational grounds were today announced to Texas local boards by state selective service director, Gen. J. Watt Page.

The president, Page said, emphasizing the necessity of following an equitable and uniform practice in applying the provisions of the selective service act to officers and employees in the federal service, has issued a memorandum to the heads of all government departments and establishments outlining the following policy and regulations to govern their actions on all such requests:

1. Request for the deferment from service under the selective training and service act, approved September 16, 1940, as amended, of any officer or employee of the United States government shall be made only by the head of the appropriate department, independent establishment or other agency, or by a person designated by such head to take such action. Such request must be made on the form or forms prescribed by the selective service system.

2. No such request for deferment shall be made except when the head of the appropriate agency, or a person designated by him, shall certify that (a) the officer or employee is in a position, the duties of which are clearly related to the war effort or to essential supporting activities, and that (b) the officer or employee is in a type of position listed by the selective service system as one in which it is difficult to obtain replacements, or a type of position in which he cannot be readily replaced except by the training of a successor through work experience for a period of at least six months.

3. The initial request for deferment will, in accordance with selective service regulations, be for a period of not to exceed six months. If the duties of the position occupied by the officer or employee are of a type which requires work experience of less than two years to attain a reasonable competence in their performance, the appropriate agency will take immediate steps to train a successor.

4. Request for deferment beyond the initial six-months period will not be made except when the head of the department shall certify that one of the following conditions exists: (a) That to attain reasonable competence in the performance of the duties of the position occupied by the officer or employee requires work experience of two years or more. (b) That a replacement has been secured but that a further period of training is required before the trainee is qualified to assume the responsibilities of the position.

(c) That the selective service system has found that a shortage of persons with the qualifications required in the position exists and it has been impossible to secure a replacement.

5. The heads of all departments, independent establishments and other federal agencies will immediately make an inventory of officers and employees who, in all probability, will be placed in Class 1-A and, where necessary, recruit and begin the training of persons who, when the officers

or employees now holding the positions are inducted into the military service, will be ready to assume the duties and responsibilities of the positions thus made vacant.

Page pointed out that selective service agencies have been directed to consider the contents of this memorandum purely as establishing the basis on which government departments may request deferments. The memorandum does not affect the application of the selective service law or regulations on occupational deferment matters, he said.

## JIM J. LONG OF CALLAHAN WAS CISCO SHOPPER

James J. Long, who lives just over the line in Callahan county, southwest of Cisco, shopped in Cisco Thursday and brought in about 40 dozen eggs for the markets. A few less than 200 hens are on the job, he stated, and are doing right nicely for him now. With a little butter sold each week he and his family are getting along fairly well, he said.

But when wife and the three daughters come to town to dress up for Easter, he says a big hole comes into the pocketbook. "But, then," he grinned, "who would want the women folks if they didn't dress up now and then."

## MEN FRIENDS GIVE PRINCE RING AS GIFT

Rev. Judson Prince, who recently resigned as pastor of the First Baptist church, effective April 12, after serving the local organization more than four years, was the recipient last night of a beautiful yellow gold ring which bears a Masonic emblem.

The ring was presented at a meeting of Cisco Lodge No. 556, A. F. & A. M., by Floyd Shepard, as a gift from the lodge and men of his church.

Mr. Prince is a member of 556, having joined the order after locating in this city. Quite naturally, the minister is very proud of being remembered in this nice way by lodge and church friends.

## TEAMSTERS IN STRIKE STOP FRUIT SUPPLY

DETROIT, March 27.—The movement of 70 per cent of Detroit's supply of fresh fruits and vegetables from wholesale houses to retail outlets was halted Friday when 200 AFL teamsters failed to report for work in an effort to press their demands for wage increases.

Affected were 46 wholesale produce houses at two large markets which supply food to small grocery stores as well as to hospitals and other large purchasers, including the naval training station at the Ford Motor company.

## HOMER SMITH IN RACE FOR SCHOOL SUPT.

This issue of the Cisco Daily Press carries the official announcement of Homer Smith, candidate for superintendent of schools of Eastland county.

Mr. Smith, now serving his fourth year as principal of Rising Star ward school, was reared in the Bedford community, near

HOMER SMITH

Eastland, and taught in the Cook and Pioneer schools before locating at Rising Star.

Smith's Statement. To the citizens of Eastland county: "I have entered the race for the office of county school superintendent and I hereby solicit your support solely upon my reputation as a life-long citizen and my qualifications as a teacher in your public schools.

"I am 34 years of age and was born and reared in Eastland county. My education began in a rural school and I later attended Eastland high school. The expense of attending college and securing my degree was earned through my own efforts.

"My ten years teaching experience has been in the rural and city schools of Eastland county and I believe I know and understand the problems of our schools and if elected I pledge to devote all of my energy and ability to further the improvement of our school system.

"It is my purpose to make an active campaign beginning with the expiration of the present school term and in the meantime any interest manifested in my candidacy will be deeply appreciated."

## STOCKS OF OILS DOWN

WASHINGTON, March 27.—The Bureau of Mines today reported a 2,252,000 barrel decrease during January in total stocks of all oils.

Supplies amounted to 553,291,000 barrels on Jan. 31 compared with 555,543,000 on Dec. 31. January stocks were 4,662,000 fewer than for the same month last year.

Domestic production increased from 134,698,000 barrels in December to 135,958,000 in January and was 20,114,000 barrels higher than during the previous January.

January 31 stocks of crude petroleum refinable in the United States totaled 253,531,000 barrels compared with 246,884,000 on Dec. 31, and 263,251,000 Jan. 31, 1941.

The bureau estimated January motor fuel stocks at 98,291,000 barrels compared with 90,434,000 on Dec. 31, and 88,800,000 Jan. 31, 1941. Domestic motor fuel production for January totaled 60,140,000 barrels.

## AVIATION GAS PLANT PLANS MADE IN 1938

WASHINGTON, March 27.—Assistant Attorney General Thurman W. Arnold said today that the German subsidiary of Standard Oil of New Jersey developed plans in 1938 for an aviation gas plant which was said to be a "definite contribution" to the Nazi program of German self-sufficiency.

## HOLY WEEK SERVICES AT FIRST METHODIST CHURCH, STARTING SUNDAY; MUSIC BE A FEATURE

Holy Week services, centering around the theme, "The Saviour of the World," will be held at First Methodist church beginning next Sunday, which is Palm Sunday, and continuing each night during the week, closing with the two special services on Easter Sunday.

The pastor, Rev. Leslie Seymour states that these services of worship are in keeping with a growing trend over the nation which recognizes the present need for a new and genuine interest in matters of religion. He asserts that there is no other time quite so favorable for this emphasis as the week during which we commemorate the sufferings and death of the Saviour of the world, and celebrate his triumph over death with the coming of the Easter morning.

In addition to the sermons which are to be brought by the pastor there are several matters of special interest in the various services.

**MUSIC A FEATURE** Sunday morning the entire Sunday school will sit in departmental groups at the preaching hour. The junior department will have a designated responsibility in assisting the pastor in the order of worship. The intermediate boys will have charge of the ushering and taking of the offering. Rose Ann Woods, representing the young people, will play a violin offertory. At the close of the service the pastor will receive a class of boys and girls into the membership of the church, these having met with him during the week for study and instruction.

Monday night at 8 o'clock Miss Wilda Drago and her violin ensemble will be present to provide a period of devotional music at the beginning of the service of worship.

Tuesday night the Cecilia singers, with Hjalmar Bergh directing, will afford a devotional program of choral numbers appropriate to the pre-Easter season.

Wednesday night the choir of First Methodist church, under the direction of Miss Ella Andres, will bring the special period of worship in music preceding the sermon.

Thursday night the pastor, assisted by other ministers, will direct a candle light communion service in most pastures. Plenty of stock water so far as he knows, but cattle range can fail mighty fast if it should continue dry, he stated.

When a dollar-a-year man prevents war because it would hurt his business after the war, and nobody suggests hanging him, it is still a phony war.

## SO FAR ENEMY DRIVE IS SHY OF RESULTS

Japan's war machine went all-out today in an attempt to break American defenses in the Philippines and the Allied lines in Burma.

At last reports the enemy had made no important progress.

In the Philippines there were sharp clashes on land and steady, relentless Jap bomber attacks on United States positions.

In Burma the Japs are throwing more planes and troops into the offensive in the Toungoo area, but veteran Chinese forces trapped there were still counter-attacking after 48 hours' heavy fighting.

In the Bay of Bengal, Allied air patrols sighted Jap ships — a cruiser and "a few" destroyers — at Andaman islands, which was captured this week after British withdrawals. The Axis also reported Jap warships anchored in Rangoon.

American and Allied bombers attacked the enemy base of Koepang, on Timor island, but bad weather obscured results.

Several Jap bombers again raided Port Moresby, but new American fighters there quickly brought down one Jap bomber.

**RUSSIA — Soviet forces, using a new type of sub, reportedly sank 10 German transports on the Arctic coast, where Red army forces landed behind German lines, inflicting heavy casualties.** Pierce fighting on the Leningrad and Central fronts pushed the enemy back and Russians report gains on the Stalino sector to the south.

**LONDON — RAF pressed big aerial offensive against Ruhr industries; 13 British planes lost.** **LIBYA — British patrols dashed 40 miles into enemy's desert territory in a successful raid between Mekili and Tnimi.**

OUR TWO ARMIES

We have two armies in this country, one military and the other industrial.

The military army is under orders. It has its job assigned to it by the federal government, under presidential authority.

The industrial army is free to choose jobs and go where it pleases and, broadly speaking, control its own hours.

Britain, which has been in this war longer than we have, and is nearer to the main peril, has been tightening up its industrial life.

The compulsion of events is toward such strict regimentation almost everywhere now.

PLAGUE

The terrible spotted typhus, known for some time to be in Poland and working westward, is now coming into Morocco.

There is one enemy of typhus—a preventive. It is cleanliness, thorough and absolute. This means soap, hot water, effort.

NAZIS AND YUGOSLAVS

The growing German difficulties in Yugoslavia are not the least of their troubles. For one thing, the German maps show the Yugoslav territories as occupied.

Meanwhile revolt continues in the mountain districts. Pavelitch, the Croatian Quisling whom Hitler has put in charge, tries to put down the insurrection.

COAL TO BURN

The war has now reached still another continent—Australia. Now that North and South American countries have joined in declarations of war, only one continent remains untouched: Antarctica.

With only four days remaining for the enumeration of children in the school census, indications are that the final count for the Cross Plains district will be in the neighborhood of 600.

RISING STAR

At the annual meeting here Monday night officers and directors for Philpeco County club were elected for the ensuing year as follows: J. F. Robertson, president; Eddie Baum, vice-president; Claud Hammett, secretary.

Mrs. Virge Foster, who underwent a major operation at five man a few weeks ago, was able to return home early this week.

### Shower Honors Miss Noma King Bride-Elect

A personal shower, honoring Miss Noma King, bride-elect of W. W. Wallace, Jr., was given by Mrs. Weldon Isenhower and Miss Inka Sherman Thursday night in the home of Mrs. K. E. Sherman.

The honoree was presented with a corsage as the initial gift of the evening. Each guest then signed a wedding card which was later to be inserted in the bride's book.

White plum blossoms were used in decorating the house. The guests were served coffee or iced tea, green minis and individual cakes, which were iced in yellow, with the names "Noma and Bill" written in green icing on each cake. The centerpiece, in a love amber bowl, consisted of white and yellow snapdragon, yellow calendulas and fern; green, yellow and white being the honoree's chosen colors. Green tapers flanked the centerpiece, which were in turn flanked by the amber serving dishes. Miss Mary Louise Poe presided at the table while Mrs. F. E. Allyn poured coffee.

After the refreshments were served, a comic poem was read, which effectively introduced a number of beautiful gifts to the bride-to-be.

Those present were Misses Virginia Carter, Marie Hunterman, Catherine Draganis, Mary Louise Poe, Anne Buckley, Jane Moore, Anna Jo Tableman, Mary Elizabeth Wright, Elizabeth Coleman, Nancy Lee Sherman, Louella Mae Downie, and Mmes. Jack Lauderdale, Blake Stephens, J. C. King, W. W. Wallace, F. E. Allyn, G. W. Downie, K. E. Sherman, the honoree and the co-hostesses.

### YWA Group Met Tuesday Night In Cole Home

The Young women's auxiliary of the First Baptist WMS was entertained in the home of Mr. and Mrs. C. P. Cole Tuesday evening with Mrs. Lucy Abel as hostess. After the meeting was opened with prayer, there was a discussion of a counselor to fill the place caused

by the resignation of Mrs. M. B. Osburn.

Miss Miriam Ghormley, program chairman, directed an interesting program on home missions. Those taking parts were Lucy Abel, Freda Grist and Miriam Ghormley. The session was closed with prayer.

A social hour followed during which knitting for the Red Cross was the main diversion. Refreshments of sandwiches, cookies and punch were passed to Misses Norma Jean Jones, Loyce Coats, Freda Grist, Miriam Ghormley, Bobby Shirley, Dorothy Nell Isenhower and Mary Caldwell.

### Mrs. Prickett Entertained Club Thursday

Decorations of lilacs and potted plants gave a festive appearance when the N&T club met Thursday afternoon in the home of Mrs. T. R. Prickett, with Mrs. M. W. Robbins presiding. Roll call responses were descriptions of Biblical characters followed by the query, "Who Am I?" New officers for the ensuing term were elected. Those chosen were president, Mrs. Jas. Huddleston; vice president, Mrs. A. L. Clark; secretary, Mrs. S. B. Parks; reporter, Mrs. J. E. Whisenant; historian, Mrs. T. R. Prickett.

An Easter egg hunt was planned for the little folk at the next meeting which will be held in the home of Mr. and Mrs. E. C. McClelland on route one. An exchange of gifts was held; the remainder of the afternoon was spent in knitting or sewing.

The hostess was assisted in serving refreshments of custard pie and coffee to the guests by her sister, Miss Stina Fields and her small daughter, Malla Quay Prickett. Favors of white bunny rabbits were given.

Those present were Mrs. R. D. Jones, Mrs. J. E. Whisenant, Mrs. J. A. Smith, Mrs. S. B. Parks, Mrs. Jas. Huddleston, Mrs. E. C. McClelland, Mrs. H. R. Garrett, Mrs. Sim Letford, Mrs. A. L. Clark, Mrs. M. B. Robbins, and the following visitors, Misses Stina Fields and Mary Frances Whisenant; Robert Dale Whisenant, Robert Asher, Romy Huddleston, Larry Joe and Malla Quay Prickett and the hostess, Mrs. Prickett.

## For Lunch . . . GOOD HOT SOUP, please

by Dorothy Greig

Hungry Man's Choice is a rich nourishing soup for lunch.

**FOR** rush and workaday meals, let's remember our best friend, soup.

We mean heavy, nourishing soup that recharges energy and spreads a comforting glow . . . the kind that demands a big generous bowl because you are going to make it the main dish of the meal.

Such a soup is thick with tender pieces of meat or chicken, deep with vegetables, in a rich stock of long simmered meat or chicken. It satisfies . . . sends us on our busy way content.

Sometimes we whisk open an old favorite such as condensed chicken, vegetable or beef, simmer with an equal quantity of water and serve.

Other times, for a change, we combine two fine luscious soups on this order:

**Hungry Man's Choice**  
1 can condensed ox tail soup  
1 can condensed vegetable-beef soup  
2 cans water

Combine the soups. Add water and heat to boiling. Simmer 3-5 minutes. Serves 5-7.

**Tomato Scotch Soup**  
1 can condensed tomato soup  
1 can condensed Scotch broth  
2 cans water

Combine the tomato and Scotch broth soups. Then add two cans of water, using the soup can for a measure. Heat to the boiling point and simmer 3-4 minutes. Serves 5-7 portions.

### Blue Bonnet Club Honored Two Thursday

A turkey luncheon was held Thursday in the home of Mrs. B. E. Morehart by members of the Blue Bonnet Birthday club. The affair celebrated the birthdays of Mrs. C. E. Moore and Mrs. Morehart. Floral decorations of pink amaryllis and other potted plants in blossom were placed attractively about the room; a beautiful arrangement of sweet peas centered the large dining table where

places were marked for members. The meal was served family style with dessert of ice cream and cake.

Following luncheon, friendly conversation entertained the group in the early afternoon.

Those present were Mrs. J. C. King, Mrs. J. J. Tableman, Mrs. G. C. Rosenthal, Mrs. Ray Wilbanks, Mrs. H. C. Henderson, Mrs. Ray Haley, Mrs. W. H. Hayes, Mrs. C. E. Moore and Mrs. Morehart.

### Social to Honor Prince and Family

A social honoring Rev. and Mrs. Judson Prince and small

sons, will be held Tuesday night in the basement of the First Baptist church. An appropriate program will be carried out and refreshments served. All members are urged to be present and pay honor to this splendid family.

### McNUTT WOULD WIDEN SCOPE OLD-AGE INS

AUSTIN, March 27.—If congress acts favorably upon recent recommendations made by Paul V. McNutt, federal security administrator, few states would benefit more than Texas, it is pointed out by J. S. Murchison, executive director of the state department of public welfare.

In transmitting the annual report of the Social Security Board to congress on March 3, Mr. McNutt recommended that old-age and survivors insurance protection should be extended to farm laborers, domestic servants and all other excluded groups of workers, including public employees, employees of charitable, religious, educational and other nonprofit organizations, and the "self-employed" farmers and farm laborers, dependent upon the gamble of rainfall, crop pests and fluctuating markets, have nothing to fall back upon in their old age, if they lose out financially, but dependency upon their children or public assistance. If they, along with other earners now uncovered, can be included in the old age insurance plan, old age assistance

may eventually be replaced by insurance payments based on a vested claim built up by these workers during their earning years.

The federal board points out that administrative obstacles to coverage of agricultural and domestic workers do not seem insuperable and that the use of a stamp system to maintain the wage records of such workers would be practical. These stamps, to record contributions, could be sold by post offices and rural mail carriers.

The most urgent need for revision of social security legislation, the federal board indicates, arises from war-born changes. Workers entering the armed forces are now losing their federal insurance protection. Attention was also directed to the need of safeguarding the insurance rights of persons who take civil defense jobs with the federal government and thereby endanger their insurance rights under the federal old-age and survivors insurance system, which does not now cover government employment.

The federal board suggested to congress that the insurance rights of those who join the army or navy could be protected in one of several ways. One method would "freeze" their insurance status upon the date of their enlistment or induction, with no contributions or benefits payable during the period of their service but with the re-

sumption of such status at the time they leave the armed forces. Another would extend the coverage of the old-age and survivors insurance system to include employment with the armed forces. The latter method, it was suggested, would seem to be the more satisfactory, provided that "coordination could be effected with programs set up for persons in the regular armed forces and with the special programs for veterans' benefits."

## Psychological Tests Fit British Soldiers to Right Task

AT HIS OLD JOB JUST BEFORE HE WENT TO WAR.

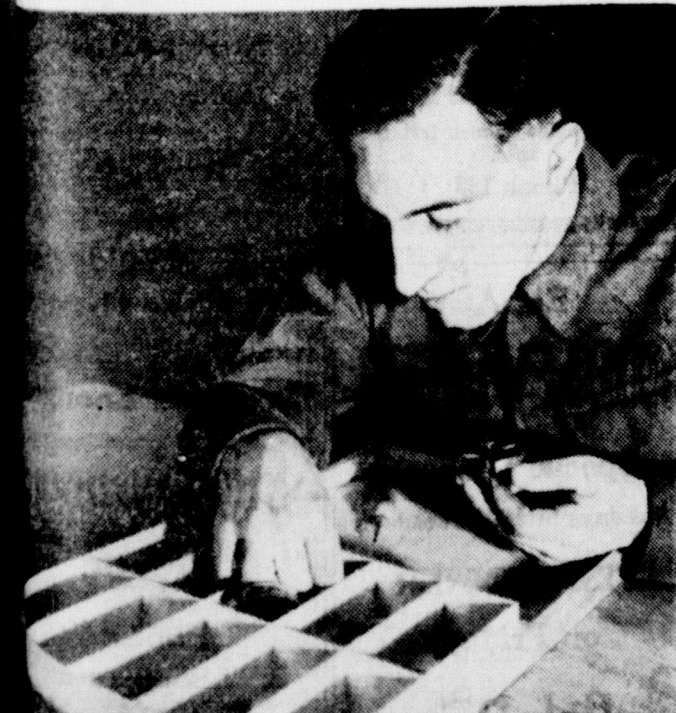

GUN-AIMING TEST AN IMPORTANT PHASE.

Yesterday's method of assigning troops at random to the various duties involved in the prosecution of war has fallen victim to science in England. Today psychological tests are conducted with utmost care to make certain that each member of the armed forces is placed in a branch of service best suited to his particular ability. Already this procedure has been found to be one of the most important means of discovering the standard of efficiency in units. Later it enables the properly placed recruit to perform his various tasks with a minimum of fatigue and boredom.

**HIERHOLZER, BEAUMONT EVANGELIST, CLOSED SUCCESSFUL SIX-WEEK REVIVAL WEDNESDAY**

E. J. Hierholzer, known as the Beaumont evangelist, who has been conducting an unusually successful church revival in the Chesley building on Ninth street for the past six weeks, closed the meeting Wednesday night and left for his home in Beaumont.

The evangelist submitted the following statement concerning the meeting.

**Highly Successful.** "The revival was considered a grand success, especially considering the auto tire problem and the cool weather. The pastors, Brother and Sister Blackwell, from the Seventeenth-street Pentecostal church, were faithful laborers in this revival and have been rewarded with a large number of new members to their church."

"There were 34 souls at the altar on closing night and 25 were baptized in the two nights of water baptism."

"The revival was still growing to such an extent that the last five nights drew record crowds, with visitors nightly from all over this part of Texas; some coming from other states, traveling as far as 450 miles."

"The evangelist and pastors from this part of the country wish to thank everybody who helped make the meeting a success. We especially want to thank the Cisco Daily Press for the many courtesies shown in the way of news

reports. We can highly recommend this paper to our many friends. "E. J. HIERHOLZER."

**CATTLE MARKET**

Cattle and calves of all classes found a fully steady and active market at Fort Worth Friday.

Hogs were steady to mostly 10c above Thursday's average levels at an extreme top of \$13.45, although packers stopped at \$13.35.

Clipped lambs were steady to 15c higher and other woolled lambs were steady.

Four loads of heavy steers featured the trading in the beef division, bringing even \$12. Other good and choice fed steers and yearlings in a range of \$10.50 to \$12.25 included a short load of steer yearlings at \$12.05; one load of steer yearlings at \$11.75, and three loads of fed heifers at \$11.

\$11.40 and \$11.75. Common to medium steers and yearlings cashed at mostly \$7.50 to \$9.50.

Good beef cows brought \$8.25 to \$8.75; butcher cows at \$7.25 to \$8 included one load of cows from New Mexico at \$8; and canners and cutters ranged from \$4.75 to \$7. Bull prices ranged from \$7.25 to \$9.25.

Good to choice fat calves sold at \$10.50 to \$12.50 with occasional values higher. Common to medium butcher calves ranged from \$8.25 to \$10. Cull sorts brought \$7 to \$8.

Stocker steer calves sold at \$12.50 down and heifer calves at \$11.50 down. Other stockers were too few to test the market.

Most of the good and choice butcher hogs sold at \$13.35, while good and choice 160 to 175 pound averages ranged from \$12.65 to \$13.25. Stocker pigs ruled steady at \$10.50 down.

In the sheep yards Spring lambs sold at \$12 down but choice grades were absent. Medium grade woolled lambs brought \$10.50 and medium to choice clipped lambs sold at \$8.25 to \$9. Other classes were scarce.

We are still too soft to survive while labor bosses can keep new plants idle, for any reason whatsoever and nobody dares to slap them down.

**REPAIR FARM MACHINERY AT ONCE; SAFER**

Farmers are still being warned about the seriousness of waiting until their farm machinery repairs are needed. Some farmers are already running into difficulties getting repair materials, and there are likely to be more delays later on, said an Eastland county official while in Cisco today.

Allotments of steel to agriculture were made before December 7, and these allotments are subject to reduction at any time. Right now the plants are still set to take orders for farm machinery repair parts; later they may be busy on armament production.

See your local dealer now and place your order for any parts that you are going to need. This will justify the dealer in asking the manufacturer for more materials to take care of these needs.

**TEXAS LEADS IN NUMBER OF DIVORCES**

WASHINGTON, March 27.—Not Nevada with its famous Reno, but Texas, was the leading state for shipwrecked marriages in 1940, Census Bureau figures revealed Friday.

Texas, with less than 5 per cent of the Nation's population, accounted for more than 10 per cent of the country's divorces in that year. The total for the United States hit an all-time high of 264,000.

Leading all other states by a substantial margin, the courts of Texas granted 27,500 divorces in 1940. California was runner-up with 24,200, followed by Ohio with 17,100, Illinois with 12,700, Michigan with 12,054, Missouri with 12,000, Florida with 11,186 and New York with 11,300.

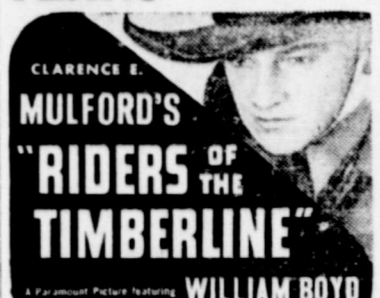

Nevada, whose city Reno is

synonymous with broken romances, granted but 5,189 divorces during the year. In proportion to its population, however, Nevada had eight times as many divorces within its borders as any other state.

Let's stop fooling ourselves with patriotic words. The Union is

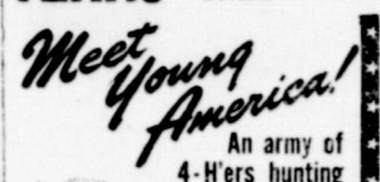

doomed if the welfare of unions comes first.
