U. S. SUB SANK 3 JAP VESSELS

RUSSIAN SAYS SECOND SUB BEAT HITLER IN THE FIELD

WASHINGTON, April 11. -- A United States submarine, stalking the enemy in its own waters, has sunk a 7,000-ton Jap merchant ship and a submarine chaser and probably sunk a 4,000-ton enemy freighter, a navy communique announced today.

The communique also clarified a previous navy announcement concerning exploits of another submarine in the Southwest Pacific and the Indian ocean. This submarine, the navy now relates, sank a light cruiser, a destroyer and a transport. It also damaged four other craft, including two more cruisers.

The revision added the sinking of one large transport and one destroyer to the score of this United States submarine.

Nurses, Soldiers Swim to Corregidor

CORREGIDOR FORTRESS, April 9. (Delayed) -- Nurses and soldiers of Bataan, dazed with the shock of battle, sought rest and sleep Thursday within the walls of Corregidor fortress, itself battered by Japanese bombs.

They came Wednesday night, brave refugees from the long battle that was gloriously lost, swimming through shark-infested waters of the channel between Bataan and this Manila Bay fortress, or rowing pitifully small boats through bombs and vicious machine-gun blasts from enemy planes.

Nurses, fatigued after days and nights of service in Bataan's hospitals under constant fire, stumbled ashore from boats, so weary they could hardly walk. Civilians, too, any who dared to risk the trip from stricken Bataan, were among the arrivals.

Those who swam were picked up in mid-channel by other small craft, saved from the sharks, but still harassed by the machine-gun fire of diving enemy planes.

DON ARCHER WAS PROMOTED TO SERGEANT

Mr. and Mrs. Claude Archer of route 4, Cisco, have just been notified of the promotion of their son, Corp. Donald Archer, to the rank of sergeant.

Sergeant Archer, a former Cisco public school student, is stationed at Riverside, Cal., with Company C, tank battalion.

He volunteered in March, 1941, and was first stationed at Ft. Knox, Ky. In June of last year he was sent to California, where he has since been stationed.

Young Archer visited his parents on furlough last November.

TWO TEXANS KILLED

TWENTY NINE PALMS, Cal., April 11. -- Collision in midair of their gliders brought death Friday to two pilots receiving training at Cordor Field, army glider base.

Killed were: Second Lieut. Earl W. Helm of Franklin, Ky., home base, Foster Field, Victoria, Texas. Second Lieut. Alexander Konchis, home base Goodfellow Field, San Angelo, Texas.

CLAIM MANY TANKS

BERLIN (From German Broadcasts), April 11. -- The German high command announced Saturday the Russians had lost 72 tanks and that 29 others were put out of action in the recent Red army attack on the Kerch peninsula in the Crimea.

TEXAS HORSE PRAISED

LEXINGTON, Ky., April 11. -- The Kentucky Derby has another threat from deep in the heart of Texas. He is Emerson F. Woodward's big, mud-running colt Valdina Orphan, which came from behind to beat nine other derby eligibles over six furlongs at Keeneland track Friday.

BATTLE RAGES ON

The battle for the Philippines still rages, despite the surrender of exhausted forces on Bataan, and the United Nations are fighting to strengthen their positions along the eastern front.

Collapse of resistance at Bataan followed 15 days and nights of furious fighting in which the American and Filipino troops battled until overcome by fatigue, hunger and disease.

But the guns of Corregidor still blazed at enemy bombers Saturday and fighting continued on the islands of Mindanao, Visayan and Cebu. At the island of Cebu heavy casualties were inflicted on 12,000 Jap troops when they attempted to fight their way inland.

In India negotiations for an independence agreement collapsed, but Sir Stafford Cripps appealed to the Indian people to join wholeheartedly in total war against Japan or face threat of conquest and slavery.

BURMA -- Jap squadrons, ruling the air over central Burma, bomb various towns after losing 23 planes to American volunteer air pilots in 72 hours of fighting near the China border. The British have fallen back at a point 60 miles north of Prome, while the Chinese are holding against enemy thrusts north of Toungoo.

AUSTRALIA -- American and Australian planes start big fires in new raid on Koepang, the Jap-held Timor base. The press warns of the massing of 200,000 Jap troops north of Australia.

KUIBYSHEV -- Heavy German reinforcements are reported rushing by special trains from occupied Europe to the Russian front today, but the Red army continued pounding into central and northern fronts, further relieving the siege of Leningrad.

OUR SKY PLOTS and plane pilots are different, though their jobs are similar. One fights the Devil and the other his agents.

DEFENDER OF THE PHILIPPINES -- Gen. Douglas MacArthur, Commander of United Nations Armies in the Southwest Pacific, is regarded as the outstanding military leader of anti-Axis forces.

KEEPS THE FAITH -- Gen. George C. Marshall, Chief of the General Staff, Army of the United States.

CHIEF OF STAFF -- Gen. George C. Marshall, Chief of the General Staff, Army of the United States.

CITIZENS ARE CREATING A GUARD FUND

George Boyd, Cisco Defense Guard finance officer, furnished the Daily Press with the following list of contributors to the company general expense fund:

G. P. Mitcham, F. D. Wright, Daily Press, Charles J. Kleiner, R. L. Ponsler, Connie Davis, T. F. O'Brien, Mrs. Emma Chesley, J. T. Anderson, J. J. Calloway and Dr. F. M. Oldham.

Mr. Boyd suggests that all who wish to subscribe to this fund should contact Edward Lee, treasurer of the defense advisory committee.

As has been explained in these columns before, the money will be expended for uniforms, caps, drill manuals, light lunches and the like.

"CLEAN TOWN" CAMPAIGN NOW NEARING END

"Trucks will begin to take up rubbish that has been gathered through the clean-up campaign that has been waged during the past week," said Mrs. Eugene Lankford, president of the Federated clubs, sponsoring the movement.

"Already the city is taking on a cleaner appearance as a result of the efficient work by the citizens, themselves directed by the different chairmen for the various street organizations," Mrs. Lankford added.

Mrs. Yancy McCrea is general chairman, with a number of ladies and men acting for the various civic clubs of the city. Work is expected to end early this week, and if anyone who has accumulated rubbish, she should call either Mrs. McCrea or the city hall, said Mrs. Lankford.

TRUCK DRIVER KILLED BY T. AND P. TRAIN

T. L. Dossey, 40, driver for W. W. Alexander, trucking contractor for Octane gasoline company at Baird, was crushed to death in a collision with the east bound Sunshine T. & P. train Saturday morning, demolishing the truck and setting the crude oil in the train engine on fire. The train ran about one mile before it could be stopped on account of the fire, it was stated.

Mr. Dossey had lived in Baird about a year and had three children. He was a widower, it was stated.

An observer said he saw the train approaching the crossing as the truck came on and wondered if they were going to stop. They did not, evidently not seeing each other. Burial will probably be in Baird today, but no arrangements had been completed at a late hour Saturday.

NAZIS CLAIM 12 SHIPS

BERLIN (From German Broadcasts), April 11. -- A special announcement said Saturday that since a report of April 8, German U-boats had sunk 12 merchant ships, including four large tankers, off the east coast of America. The high command said the ships totaled 94,000 tons.

CENTURY IN 9.9

FT. WORTH, April 11. -- Howard Pope, senior dashman, raced the century in 9.9 Friday afternoon as the TCU track team defeated the Baylor Bears, 72 1/2 to 54 1/2. The event was held on the Purple track. Pope was high point man for the day with 17 1/2. He also took the 200 and the broad jump. Darrell Palmer, southpaw weightman, won the discus throw at 130 feet.

ITALIAN LOSSES

ROME (From Italian Broadcasts), April 11. -- A casualty list of 21,163 killed, wounded and missing, including losses for March and others not previously reported, was announced by the Rome radio Friday.

CISCO SCHOOL OF AERONAUTICS BECAME A REALITY FRIDAY WHEN ALL FOLLOWED INSPECTOR OK

The reception room for transient soldiers that is being established in the Harry Reynolds building at the corner of Fifth street and D avenue will be open Saturdays and Sundays only for awhile, said Mrs. Philip Pettit, general chairman, yesterday. If the need arises, said the chairman, the quarters will be opened often.

Mrs. Pettit wants to make it clear that the USO auxiliary is depending entirely upon the public to furnish the quarters in a way that will afford comfort to the soldiers who from time to time may use them.

A large number of articles are needed at once, such as a day bed, piano, mirror, rocking chairs, writing paper and envelopes, pens and ink.

Many chairs, tables and games were donated and installed Saturday and were being used by soldier visitors. Temporary signs welcoming all service men were placed in the windows of the quarters. A victrola and records was also brought in. The building has been thoroughly cleaned, this work being given by two colored citizens.

Mrs. Charles S. Sandler is equipment chairman and those who wish to loan needed articles such as those mentioned above may contact her by phoning 661.

It is stated that the room will be locked when not in use and every effort made to take good care of all articles loaned the USO organization.

Mrs. Homer Slicker is co-chairman with Mrs. Pettit and Mrs. B. E. Morehart is secretary-treasurer.

PUBLIC ASKED TO FURNISH LOUNGE ROOM

The practice began Saturday according to Reg Robb, building contractor and operator of the school, sponsored by the Aviation Association. Mr. Cabanes as chairman, R. Warwick, coordinator, and inspection included a going to a minute examination of the 20 young men who had been and qualified for the preliminary instructions in the local field, which includes flying, after the completion of each will be given a pilot's certificate and all be immediately transferred to Kelly Field, San Antonio.

During their training there students will be transferred to Randolph Field, also at San Antonio, where they will complete second lieutenants in the aviation corps as the squadron, Mr. Cabanes

is a roster of the students composing the Cisco flying school.

Lee Brock, Robert Zed Coe, Claude Edmondson, Philip Grazier, Jerry Warman, Marvin Leslie Ivin, John Johnson, Frank Crane, Luna Gerald Lisenbeck, Gilbert Mashburn, Charles McDonald, Wilbur E. Norton, Douglas Bell, Olin Otis Odum, Jr., Edward Crane, Richard Paul, Louis Desmond Springer, Leroy Thomas, Claude Tucker, Charles Edward

and all Methodist parsonages of children's workers of the district will be held at First street church in Eastland Friday afternoon at 2 o'clock. K. Kent of Waxahachie will direct the discussion of children's work. Dr. R. A. Langston, superintendent, will lead ministers in matters of general interest.

A night during the week classes will be taught for school workers at Eastland. C. W. Kent will have a "Teaching Children in the School." Rev. J. D. Barron will give a course in "The Art of the Church" and Rev. Seymour will teach, "Serving People's Work."

A school is open to workers of denominations.

ASSES IN BURCH WORK EASTLAND

Today begins the "Help China" week according to the proclamation of Mayor G. P. Mitcham, cooperating with Gov. Coke Stevenson and other executives of the United States.

The brave struggle of these unfortunate people during the past five or six years against tyrannical invaders, who seek to impose their enslaving yoke upon these people who boast the oldest civilization in the world, has enlisted the sympathy of all Christian, freedom-loving nations.

Mrs. George P. Fee, who has been made coordinator for this area, says that while no house to house canvass will be made, she hopes to reach every one in the community and give them an opportunity to aid in this cause of humanity, and do their bit in relieving the thousands who are actually starving, homeless, and with no place to call their homes.

There is indeed a "scorched earth," and made so through no fault of their own, said Mrs. Fee. A little aid from each family in this area will go far, when coupled with donations from others of Texas and the United States, toward giving some relief from those intolerable conditions.

THOMAS JEFFERSON

Sometimes we think we haven't in these United States that unity and sweet reasonableness which would make everybody happy while fighting this war. But if the ghost of Thomas Jefferson ever wanders through the White House it must be uttering words of great reassurance to the present occupant. For Thomas Jefferson was born April 13, 1743, almost two centuries ago. His lifetime saw the Constitution established through as bitter a series of fights as this nation has experienced. He fought for the rights of the common man, and won many of them. He stood fast for what he thought was right for the young nation, through abuse, vilification and turmoil. He stands now as one of the few really great American statesmen. Life was never easy for him, and the outcome of the struggle sometimes hung in the balance long and doubtfully.

But the fruits of that great life still stand. The Bill of Rights might have been lost without him. There is the University of Virginia, with its beauty of architecture and its great tradition of academic freedom. And what would American businessmen do without his invention of the swivel chair?

When modern American life looks dark and complex, it might be well to pick up one of the good biographies of Jefferson. There is one by A. J. Nock, one by James Truslow Adams and one by Gilbert Chinard. "Jefferson and Hamilton" by Claude G. Bowers is interesting. "The Tree of Liberty," a novel by Elizabeth Page, shows in an easy-reading manner some of the forces at work.

SARTORIAL MEDITATION

Observing the government's insistence on reducing and simplifying men's clothing, and on the whole approving of it, nevertheless we're worried. We have long observed that any governmental trend once established tends to continue.

We may find, therefore, as the emergency continues emerging that doing without our vests and trouser suits is not enough. We may be deprived of our hats. The young fellows probably wouldn't mind that, because they thought of it first themselves, but it will take all the patriotism of middle-aged and elderly men to bring them into line. And some of the old codgers, if they can't wear their hats in public, will insist on wearing 'em in the house just to preserve their independence.

As the irresistible and irrevocable trend continues, still worse privations may be in store for us. Socks will go of course. And the vestiges of underwear that are still left us. As for shirts, aren't they've lost 'em already? And the end may find us like Kipling's Gunga Din, with "nothing much more before, and rather less than half of that behind."

LONGER HOURS, LESS PAY

The Dairyman's League News of New York, recently had this to say of the farmer in war time: "Instead of striking for shorter hours and higher pay, he and his family have been for some time working longer hours, cutting out the movies, going without new clothes and many other things in an earnest patriotic effort to keep their heads above water and to do the best job they can possibly do for Uncle Sam. In the interest of national defense and victory for democracy—are they getting a fair break?"

The rises that have occurred in farm prices have obscured the fact that the cost of everything the farmer must have—labor, feed, machinery, supplies, taxes—has risen fast. Many a farmer is actually getting less net return now than in the days of lower prices.

In our war effort some conspicuous talent is still wasted. Why not appoint columnist Westbrook Pegler a one-man committee to tell the world what we think of the Axis crowd?

Defense Bonds bought today will save tomorrow's sorrow.

GRIM DAYS ARE AHEAD.

At the present time there are slightly more than 2,000,000 men in the American army. There are 1,000,000 more men in the navy, and about 500,000 in the air force. That marks an immense change from a few years ago, when the army was down to around 150,000 men, and the other military branches were also negligible so far as numbers are concerned. But the change that will take place in the future, according to current plans, will be infinitely greater—and will have an infinitely greater effect on the normal ways of the nation.

Top military men believe that the army will have to be increased to 8,000,000 men and perhaps still more—that the navy will have a personnel of around 2,000,000—and that the air force will reach the 2,000,000 mark. In short, if this war continues, between 12,000,000 and 13,000,000 men will be required for military service.

Not all of these men, by any means, will be combat troops. A major army is a world of its own, requiring every kind of skill, talent, craft and profession. For each man in the fighting lines, there must be several men behind the lines in the departments of supply, communication, transport, etc. The same thing is true of the navy and air force. But all of these men, whether they serve with guns or with tools, will be wearing uniforms, and all of them will be out of civilian life.

The reasons for planning so vast a military establishment are obvious. We must figure on a long war whose end will be the actual land invasion of Axis countries. All hope that will not be necessary and that Germany and Japan will collapse. But it would be the height of folly to plan on that. We must, instead, plan on doing it the hard way.

What will be the effect of this demand for manpower for the military services?

First, it can be stated categorically that every man under forty without dependents, and without a job which is considered absolutely vital to the war effort, will be inducted, and soon. Men who are physically unfit, of course, will be exceptions—but men with relatively minor physical disabilities will be taken, and placed in non-combat work.

Second, congress will probably pass a measure providing for government support of men's dependents. There will be considerable debate over this, and a great deal of argument concerning how much money should be provided. But it is thought certain that a law will eventually be approved. Then the millions of men in the 3-A classification will gradually be reclassifying men with wives who are self-supporting, changing them to the 1-A bracket.

Third, the registration of older men (up to 64) will give the government exhaustive information concerning a reservoir of manpower which is too old for actual combat, but which can be called upon for other necessary duties. These men, for example, could be used for farm labor, and for work in war industries. They could release younger men for the fighting forces. If this war goes on long enough, it is considered inevitable that the government will decide where, when and for how much pay you will work.

Fourth, it is a definite possibility that the government will eventually classify and conscript womanpower.

A great many serious-minded Americans do not believe this will be necessary, or that such a course would add strength to the armed forces; they insist it would be un-American and unwise for many reasons; that, for instance, the soldier boys in the army would resent "conscripting" of their mothers, sisters and sweethearts. In short, that it would be a direct blow at the American way of life, at the homes of America.

On the other hand, many women of the pronounced Amazon type are doing everything they can to bring about the general conscription of womanhood. Will they be permitted to have their way? Can't the average American home builder be depended upon to do her full duty without being conscripted and donning a uniform?

the North Texas Agricultural college. . . . Russell Krapf left Saturday for San Francisco to resume his duties in the U. S. Navy. He had been here three weeks, visiting his parents, Mr. and Mrs. R. J. Krapf. His many friends and former school mates regretted that his visit could not be longer. He will receive his discharge from the navy in a few weeks after which he will go to work in San Francisco.—Desdemona Letter.

DID THIS EVER HAPPEN TO YOU?

The Seller convinced the Buyer that the title was good. The sale was made without an abstract. Later on, a second sale was attempted, the prospective Buyer demanded an abstract, and the title proved to be worthless. The story ends here, but not the expense and troubles of the poor fellow who bought hurriedly without being sure of his title. MORAL: Get the abstract first and buy later!

CHURCHES

Christian Science. "Are Sin, Disease, and Death Real?" is the subject lesson-sermon which will be read in all Churches of Christ, Scientists, on Sunday, April 21, 1942. The golden text is: "The prayer of faith shall save the sick, and the Lord shall raise him up; and if he have committed sins, they shall be forgiven him" (James 5:15). Among the citations which comprise the lesson-sermon is the following from the Bible: "Touching the Almighty, we cannot find him out; he is excellent in power, and in judgment, and in plenty of justice; he will not afflict" (Job 37:23). The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "In the gospel of John, it is declared that all things were made through the word of God, and without Him (the logos, or word) was not anything made that was made." Everything good or worthy, God made. Whatever is valueless or baneful, He did not make,—hence its unreality" (page 525).

First Methodist. The stewards of the church are sponsoring the attendance for the morning worship today with high hopes for an unusually good congregation. The pastor's sermon subject will be, "The Man Against the Sky." Sunday school at 9:45 for all ages. We are dismissing our evening worship in deference to the farewell services for the pastor of First Baptist church. District training school for all church workers each night this week at 8 o'clock at First Methodist church in Eastland. LESLIE SEYMOUR, Minister.

First Christian. Sunday school at 10 a. m., with classes for all age groups and a warm welcome for all who attend. Morning worship at 11 a. m., with a sermon by the minister. A most cordial invitation is extended the public to worship with us. There will be no evening service at this church. — JAMES R. WRIGHT, Minister.

Presbyterian Church. 9:45 a. m., church school; 11 a. m., sermon by the pastor, subject: "Symbol of Sacrifice." Quarterly communion, special music. 6:30 p. m., Young People's League. In the evening we will join in the

farewell service at First Baptist church, honoring the retiring pastor, Rev. Judson Prince.—GARY SMITH, Pastor.

LONG BRANCH

J. T. Kinard was re-elected to serve on the school board when the election was held last Saturday with Mrs. Della Reed, Mrs. Eunice Kinard and Miss Lucille Furr in charge. The other two board members are Ace Howard and Henry Reed.

Charles and Kenneth Driver have been suffering with the mumps the past week.

Mr. and Mrs. I. Atkinson and son, Leamon were in Carbon Saturday.

Mr. and Mrs. Jack Gage have moved to Comanche where Mr. Gage is pastor of a Pentecostal church.

Rev. Willie Hazel preached at his regular appointments Saturday night and Sunday delivering a splendid sermon on "Influence," at the last service.

A crowd of youngsters were entertained with an Easter egg hunt at the home of Mr. and Mrs. Britt Dudley at five o'clock Sunday evening. Among those present were Clifford and Curtis Brasher, Patsy Howard, Dorothy and Uvone Driver, Melba Ruth Reed, and Charlotte and Dolores Thietford.

Mr. and Mrs. Kirby Thietford and their children visited Mr. Thietford's mother last week-end at her home on west Twelfth street in Cisco. The aged lady was suffering from severe burns she had received early in the week when her clothes caught fire from a gas heater as she was busy putting a quilt in the frame for quilting. Her screams attracted the attention of a daughter-in-law, Mrs. Evelyn Thietford, who smothered out the blaze and summoned a physician. The condition of the elderly woman is considered dangerous.

Mrs. J. P. Morgan of Okra, spent a happy Easter as her children and grand-children gathered with her at the ranch home of one of her daughters, Mrs. L. M. Cawley near Long Branch. A picnic lunch was spread and the younger set enjoyed an Easter egg roll in the pasture. Those present were Mrs. J. P. Morgan, Mr. and Mrs. W. M. Morgan and sons Ray and John and Charles; Mrs. W. R. Laird and Jewel Jones of Okra; Mr. and Mrs. Henry Reed and Melba Ruth of Long Branch, and Mr. and Mrs. L. M. Cawley and son Max and Mr. and Mrs. G. B. Lanier and son Jo Wayne of Eastland.

A crowd from Long Branch attended a baptismal service at the Eastside Baptist church in Cisco Sunday. Besides Rev. Willie Hazel, others at the service were Mr. and Mrs. Tom Poe, Mr. and Mrs. Britt Dudley and John Edward, Mr. and Mrs. G. W. Stowe, Mrs. Sallie Earp, Mrs. Lillian Howard, Ace Howard and Miss Lucille Furr.

Despite the inclement weather some two hundred people from over Eastland, Stephens and Shackelford counties gathered for the monthly meeting of the Baptist Workers' conference Tuesday.

There was also a group who drove up from Brownwood to assist in the day's program.

Rev. Seth Hughes had charge of the devotional service, after which Rev. Jasper Massagee delivered a message on "The Christian's Obligation to His Church." Rev. Judson Prince held the undivided attention of the group as he talked for twenty minutes on "The Churches' Obligation to the

World." Rev. Levi Price and Ewell Bone who were to have had parts on the program were engaged elsewhere and unable to attend the meeting. Neither was Rev. Henry Littleton able to be on hand as he had planned and discuss the "Ministers' Retirement Plan." Rev. H. D. Blair, acting as moderator for the day, had charge of the business service, when Mrs. Pat Crawford gave a report on the last meeting of this Cisco association. Udel Smith then rendered a solo, accompanied at the piano by Miss Joyce Garrison. A splendid sermon was preached by Rev. W. A. Todd from

Howard Payne College, when he took for his text, "For I Am Not Ashamed of the Gospel of Christ." At the noon hour a basket lunch was served in the school house near the church. Then as the men assembled at the school building for a board meeting, Mrs. Crawford conducted a business meeting of the W. M. U. at the church. A group of student volunteers from Howard Payne put on an inspirational program in the afternoon, telling of their work as a band in Brownwood and at other places, and giving a resume of the work of missionaries that had gone out from their

college. In this group were Armstrong, Pauline Kay, Lena Faye Welford, Brunnel, Lorraine Wade, Carwile, G. L. St. John, G. Gillian, Udel Smith and Garrison.

The machine age has made its climax; now we are back to the chemical age, it all started.

The war hasn't changed reality. Those who worry are were already worrying everything else.

Once upon a time there was a very weary Housewife . . .

Cooking, washing, cleaning, looking after the children—she didn't complain, but it was a pretty hard life and it kept her going from morning till night. She would dearly have loved to improve the meals she served her family . . . she knew that food should be cooked so that every possible vitamin and mineral is saved . . . but somehow there just wasn't time enough to give to these things.

One day her range broke down. She rushed down to the dealer to get a replacement for the broken part. While he examined it, she looked around and saw a breath-taking display of modern new gas ranges. The dealer looked up. "How old is your range?" he asked.

"Well, let me think," she said. "Mother handed it down to us when we were married ten years ago—and at that time."

"Do you know what you should do?" the dealer queried.

"I'm beginning to think I do," she said with a longing note in her voice. "But aren't these beautiful new gas ranges? You have here pretty expensive!" She sounded a little sad.

"You'd be surprised how inexpensive they are!" he answered. "They're Magic Chef gas ranges. There's no better quality and they come in models to fit every purse. Let me show you."

He showed her . . . And that was all he had to do because it was so clear that a new Magic Chef gas range would give her a glorious new cooking freedom and save fuel and food and money, too.

P.S. She lived happily ever after. P.P.S. Why don't you let us show you? Come in today!
