120-BBL. WELL AT PUTNAM

What appears to be a very nice oil well was brought in about 7 o'clock Thursday night on the old John L. Woods property, three miles east and a half mile north of Putnam.

The property now belongs to W. A. Ramsey, of Putnam. The well is flowing by heads and is making approximately 120 barrels of oil each 24 hours, with an estimated million feet of gas.

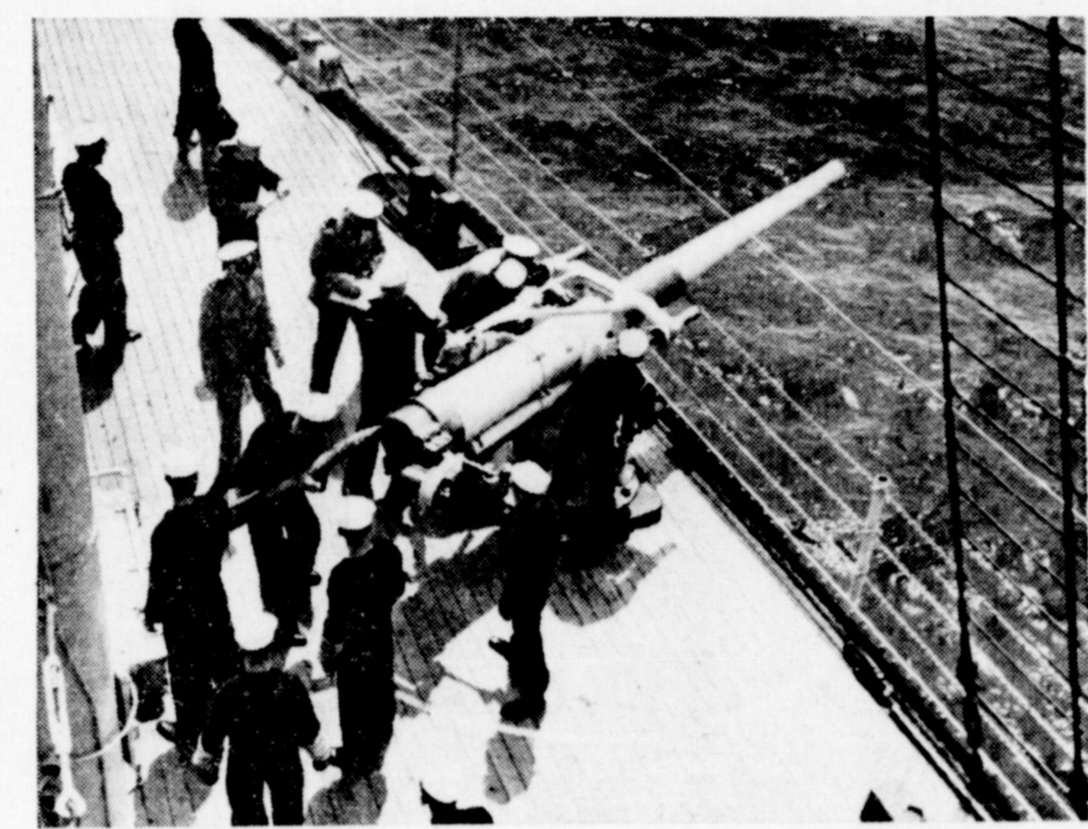

Depth of the well is given as 3,233 feet. It was the intention to go to the 3,400 ft. sand, but Driller Ben Dansby, Jr., of Midland, and W. T. Graham, formerly of Cisco, who assembled the block of land, decided to let well enough alone -- for the time being at least.

Four other wells will probably be drilled in this immediate area, it is said.

CONNALLY IS UNLIKELY TO SUCCEED HULL

WASHINGTON, May 22.—For whatever it is worth, if anything, the rumor has been printed here that Senator Tom Connally of Texas, chairman of the Foreign Relations committee, might be the next secretary of state.

But objective observers believe that Cordell Hull, whose record as No. 1 man in the cabinet is universally admired and respected, will remain secretary of state as long as he wants to. And, if it should happen that he would retire, then the probabilities are that Undersecretary of State Sumner Welles, upon whom the president often relies, would be advanced to the secretaryship.

NAVAL GUNNERS FOR MERCHANT SHIPS—Bad news for enemy submarines is the U. S. Navy Gunnery School on Lake Michigan where the Navy is training gunners for anti-submarine guns aboard American merchant ships. Guns they'll man are rapidly being installed on all U. S. merchant ships.

70 Cisco Hi Seniors To Be Guests of First Baptist Women at 8:30 Tonight

In keeping with long established tradition, women of the W. M. U. of the First Baptist church will entertain the senior class of Cisco high school—about 70 in number—tonight at the church, 8:30, with a buffet supper and program, as a part of which Dr. W. A. Todd of Howard-Payne college will speak and a girls' trio of the college will sing.

Mrs. M. F. Underwood, as president of the women's organization of the church, has charge of all the arrangements, details of which have been carried out by committees appointed for the duties.

Speakers and members of the program will be seated with the officers at long tables arranged at the front, while members of the senior class will be seated in quartets at small tables arranged about the room. All tables will be centered with decorations of red and white roses, carrying out the class color scheme. Junior girls will assist in serving the supper.

The men of First Methodist church will have a picnic this evening in the park below Lake Cisco, the Good Fellows class, of which J. J. Porter is president, serving as hosts for the occasion.

J. E. Hickman, chairman of the committee on arrangements, announces that barbecued chicken will be the main item on the menu. The hour set for the meeting is 7:30. In case of rain the dinner will be served in the basement room of the church.

Not only the members of the Good Fellows class, but all men who are in any way connected with the church are cordially invited to be present for the festivities, according to Rev. Leslie Seymour, pastor.

A. L. Osborn is teacher of this group of men.

MEXICO WILL DECLARE WAR VERY SOON

MEXICO CITY, May 22.—Mexico appeared on the verge of a declaration of war against Germany, Italy and Japan today, independent about their refusal to accept a sharply-worded protest over the torpedoing of a Mexican ship by an Axis submarine last week.

LOCAL FLYING TRAINEES DOING NICELY; RECRUITING OFFICERS SCHEDULED TO BE HERE JUNE 14

Doc Cabaness, chairman of the Cisco Aviation Development association, had a letter today from Ed Nilson, superintendent of civilian pilot training, region 4, Fort Worth, enclosing a clipping from the New York Times of May 17. The article compliments the civil aeronautics administration's civilian pilot training program, mentioning numerous Texas cities like Cisco, Tyler, Odessa and McAllen, which have adopted the plan and have classes in training.

Cabaness, one of the many Ciscoans contributing to the better than \$2,000 fund for local flying grounds and student training, is enthusiastic about the future of the 20 flyers now in training here.

A mobile recruiting unit will arrive in Cisco on June 14, says Cabaness, at which time those who have met federal requirements will be inducted into a commissioned reserve of army aviation and continue their training as a unit and be known as the CISCO FLYING LOBOES.

Cabaness said the name CISCO FLYING LOBOES was not his idea altogether, but the idea of a number of Cisco followers of the renowned Lobo football team.

And it is in line with names chosen by other Texas and Oklahoma towns, such as Tyler Terrors, McAllen Marauders and Tulsa Tigers -- all of whom, as units, will be taking a swing at Jap, German and Italian fliers and bases soon, it is hoped.

AMERICAN SUBSANK 3 JAP SHIPS, CLAIM

MELBOURNE, May 22.—Allied naval forces, in their first action since the battle of the Coral Sea, have sunk a 7,100-ton 8-inch gun Japanese cruiser and two supply ships totaling 15,000 tons, Gen. Douglas MacArthur announced today.

Indicating that American submarines did the job, MacArthur said the enemy ships, a cruiser of the Koko class, with 604 officers and men, a 9,000-ton cargo vessel and a 6,000-ton cargo vessel, were sunk "in an underwater action."

MacArthur announced also that United States and Australian planes, flying through almost impossible weather, had destroyed or damaged eight Japanese planes in one of their most ferocious raids on the Japanese invasion base at Lae, New Guinea.

He revealed, too, that in their raid Wednesday on Koepang, in Timor Island, the Allied planes had destroyed three enemy planes and damaged three.

Although no details were given of the Allied naval success, it was understood that a submarine had returned to base after sinking the three enemy ships.

FREE 102 JAPS
BERLIN, May 22.—A Tokio dispatch said Friday that Japanese marines landed May 17 on Palawan, westernmost of the Philippine islands, off north Borneo, occupying the wireless station and other military establishments and freeing 102 interned Japanese.

CAPT'N THINKS FIFTH COLUMN IS RESPONSIBLE

NEW ORLEANS, La., May 22.—Fifth columnists may have supplied sailing information to a submarine which torpedoed and sank a medium-sized U. S. merchant vessel in the Gulf of Mexico May 16, with 21 men missing, Capt. A. Henry Rowe said today.

The ship sank in 90 seconds. Capt. Rowe, whose home is at Alden, Pa., based his conclusion that fifth columnists tipped the U-boat on the fact that after the sinking the sub did not rise to the surface and follow the usual practice of questioning survivors about the vessel's identity, cargo and destination.

"The sub never did appear," he said in the Marine hospital at Galveston, Texas, according to announcement by the Eighth Naval District. "That leads me to believe that someone tipped them off as to our sailing date. They knew the name of the ship, came after us and got us."

Rowe was one of five injured survivors taken to Galveston hospital. He was still on the bridge, shouting rescue orders, when the ship went under. Third Mate John T. Chalmers, 25, of Cheltenham, Pa., seized him when he popped out of the water and hauled him aboard a life raft.

DAGO CLAIMS
ROME, May 22.—The Italian high command said in a special communique Friday its submarine Barbarigo sank a United States battleship of the Maryland class with two torpedoes hits off the Brazilian coast Wednesday. There was no confirmation from any source to beat out the Italian claim. The communique said that escorting vessels of the United States naval formation did not reply to the attack.

MRS. DAN J. SMITH DIED EARLY TODAY

Mrs. Betty Smith, 85, widow of the late Dan J. Smith and a resident of Cisco since 1884, was found dead in her bed early this morning by her daughter, Mrs. W. E. Spencer. The coroner attributed the death was from natural causes and probably took place about 5 a. m.

Funeral will be at the Spencer home, 504 I avenue, Saturday afternoon at 4 o'clock. Interment in Oakwood cemetery. Rev. Judson Prince of Odessa will conduct the funeral rites and the remains will be in charge of Green's funeral parlor.

FORMER CISCO BOY MISSING IN THE PACIFIC

Mrs. C. A. Farquhar has received news that her nephew, A. W. Belfanz, of Abilene, is listed among those missing following the Battle of Manila.

GOOD FELLOWS OF METHODIST CH. TO PICNIC

The men of First Methodist church will have a picnic this evening in the park below Lake Cisco, the Good Fellows class, of which J. J. Porter is president, serving as hosts for the occasion.

J. E. Hickman, chairman of the committee on arrangements, announces that barbecued chicken will be the main item on the menu. The hour set for the meeting is 7:30. In case of rain the dinner will be served in the basement room of the church.

Not only the members of the Good Fellows class, but all men who are in any way connected with the church are cordially invited to be present for the festivities, according to Rev. Leslie Seymour, pastor.

WASH. JOINER WINS

DALLAS, May 22.—C. M. (Dad) Joiner, discoverer of the East Texas oil field, has won a legal victory over the Security Exchange commission. The SEC sought an injunction order in federal court before Judge Atwell, alleging in the petition that Joiner and associates were offering securities not listed with the commission and that misrepresentations had been made. The restraining order was denied by Judge Atwell.

But objective observers believe that Cordell Hull, whose record as No. 1 man in the cabinet is universally admired and respected, will remain secretary of state as long as he wants to. And, if it should happen that he would retire, then the probabilities are that Undersecretary of State Sumner Welles, upon whom the president often relies, would be advanced to the secretaryship.

WASHINGTON, May 22.—President Roosevelt reiterated Friday an opinion that the war would be a long one and cautioned against over-optimism one week and over-pessimism the next. The war, public opinion and the news go up and down with things that appear big at the moment, he told a press conference, but the more that can be done to prevent this, the better it is for the war effort.

The fluctuations, he said, are caused by a tendency toward overstatement on the part of the American people. Another Washingtonian made this statement: "Nobody has the slightest idea of how long the war will last, so why indulge in idle speculation?"

LUXURY COFFEE

Your ration of sugar will give you a spoonful for each of fourteen cups of coffee a week—and some more things.

But ships are being sunk with coffee and other things. The famous Pan-American Highway is long, not finished in every section, some of it still very rough.

The coffee has been grown and is ready, but Axis submarines are in the sea. Sugar, coffee, tea, cocoa, spices are all being cut down.

A mid-western naval ordnance plant gave a prize for the best slogan. The winner is good advice for all of us: "Today, not tomorrow."

LINE OF TALK

Every line of work has its own language, unintelligible to an outsider. This thought came from looking at the financial page of the newspaper and noticing a bulletin of the Boston wool market.

Texans of the wool-producing counties know what this means, but it recalls the German who prided himself on his knowledge of all the European languages, and especially of English. He was floored when asked to translate a baseball story.

Is Uncle Sam humping himself? Well, he'll soon be producing a complete airplane every eight minutes.

THE KILLERS

In the case of both the Nazis and Japanese, it is often hard to tell whether they kill people for military reasons or just for the sake of killing.

Indiscriminate killing is probably easier for the Japanese than for the Germans, because they are so different from Europeans in their racial attitude and their respect for human life.

Glider Commander BOGGS BRINGS NEW CABBAGE TO THE MARKET

B. H. Boggs, who lives one mile north of Cisco, just off the Lake Cisco road adjacent to the old airport, was in Cisco today selling some fresh cabbage grown on his truck farm, which shows what a man can do here with no kind of irrigation save the barrels of water he hauled when he set out some of his plants before the spring rains began.

Mr. Boggs has no crops which could be termed standard crops, unless it is corn. He depends entirely on his truck patches, chickens, hogs, jersey cows, and some daily wages picked up here and there by doing plowing and odd jobs for Cisconians between times when his crops are not demanding his attention.

He uses the pasture belonging to the Boggs estate, but his own holdings might be said to be the 35 acres which he farms intensively with vegetable crops from

Okla., company advertising manager. "The new service," Mr. Morgan stated, "will be announced to the public in a series of advertisements to start this week in the Cisco Daily Press."

"Knowing that regular inspection and proper lubrication are absolutely vital to the long-life of cars now operating, dealers in Conoco products throughout the country are organizing Once-A-Week clubs among motorists, with the idea of making thorough checks of each car on regularly specified days every week. Conoco dealers will keep careful records of the serial numbers, grease and oil change periods, and all information necessary to the proper servicing of the car. They will remind motorists when lubrication and other services are needed, and will do everything possible to help the motorists get the maximum life from their cars at the least possible cost and trouble," Morgan said.

All Conoco dealers in this territory are cooperating in the plan, it was announced.

We aren't really trying yet. We still add war to our peacetime setup instead of making war our only concern.

which he cans their living at home. A small orchard of peaches, plums, apricots, apples and berries do their part in adding to the family pantry and providing the cash money needed to keep the family going.

Three pretty young girls will be used as brood sows, while one or two other hogs will provide the meat for the family. A big pile of ashes will be used to aid in curing some of the hams and other choice cuts for special eating. These cuts will be sacked and buried in the ashes to sweeten as special cures.

The Boggs family have about 30 hens and 90 little chickens in a big chicken yard. This is placed well away from the 7-acre hog pasture.

A big patch of sweet corn adjacent to another patch of pinto beans are a part of the crops growing now. In another block about one-fourth acre of fall onions (planted in October) are getting ready to head up for harvest. Much of these patches will be marketed. Tomatoes are a big crop with Boggs. Every where something is taken up, tomatoes take its place. He already has about one-half acre of these plants growing nicely, some of which are blooming.

English peas, beets and carrots are ready to be used now. About 14,000 onion plants were set on some new land just taken into cultivation this year and these are looking fine for early summer use. The cabbage patch (1,100 plants) was set early and are now forming nice heads for present market. These were planted on the same new land, and Boggs said these were the plants for which

he had to haul water before the spring rains began.

Much of these vegetables will be canned for winter use for the family. The pinto beans will be allowed to get dry and will be sacked for use this winter. Many of the blackeye peas will also be used as dry peas this winter.

Berries are being gathered now, and some will be used in the home. Other quantities will be sold in town or to those who might come to the farm. The potato patch, also planted on new land, is being used daily, and the yield seems to be very good. Much of these will go on the market.

Three jersey cows furnish butter to sell above the farm use. A big patch of water melons and cantaloupes bids fair to produce an abundance in later months. Mr. Boggs remarked that he would guard these patches with a shot gun and if necessary, get a machine gun if Uncle Sam has any left. Since he was a machine gunner in the first war, his aim should be true.

NAZIS ADMIT LOSS

LONDON, May 22. — Reuters recorded a German broadcast Friday which said the Russians had broken through "the main German fighting line" over an eight-mile front southeast of Lake Ilmen, after heavy artillery preparation in an assault with tank and plane support. The German broadcast was quoted as saying that the breakthrough was only temporary and that the Russian attacks "collapsed in the face of stubborn German resistance," but did not specify whether the Nazi line had been re-established. The German high command's communique dis-

missed the Lake Ilmen sector thus: "Southeast of Lake Ilmen the enemy continued his ineffective attacks."

But discipline is silly if it keeps underlings silent when they know their superiors are acting dumb.

Beta Upsilon Held Last Meeting Of the Year

Saturday afternoon at Laguna hotel, Beta Upsilon chapter of Delta Kappa Gamma held its last meeting of the year. The main feature of the business meeting was a report from the state meeting at Austin given by the chapter's official representative, Miss Marion Chambliss, president, and by Mrs. O. L. Stamey and Miss Elizabeth Daniel. Following this, Mrs. J. E. Crawford was initiated as honorary member. The meeting then adjourned to the roof, where guests were greeted, the occasion being a seated tea. The program consisted of a brief pageant, directed by Mrs. Stamey in honor of the society's founders, a poem of her own composition read by Miss Doris Jo Pyle and delightful music given by Miss Wilda Drago and her pupils. Their program was as follows:

Who Is Sylvia? — Schubert
Steal Away — Negro Spiritual
Thanks Be to God. — Dickson-Lucas
Harmony Girls.

Surprise Symphony — Haydn
Poem — Fiebig
The World is Watching for the Sunrise — Seitz

Violin Octet
I Love Life — Mona-Zucca
When Day Is Done — Katscher
Harmony Girls.

The Swan — Saint Saens
Harmony Girls and Violinists.
Ice cream, cookies and iced tea were served to the members and guests, who inscribed their names in the guest-book presided over by Mrs. T. W. Briscoe.

Those present were Meses. R. N. Cluck, Leslie Seymour, B. E. Morehart, John Shertzer, C. H. Fee, W. R. Winston, Yancy McCrea, Sidney Fay, L. C. Cash, Ralph W. Mrs. W. D. Brecheen Was Circle Hostess

Blanche Rose Walker circle of First Baptist missionary society met in the Harvesters' class room in the church Tuesday afternoon with Mrs. W. D. Brecheen hostess. Mrs. W. D. Hazel presided and opened the meeting with prayer. A short business session was held in which menu for the senior supper was discussed and parts assigned. Routine business followed. The Bible lesson was taught by Mrs. C. N. Clifton from Matthew and Mark. The session was closed with prayer.

Refreshments were passed to Mrs. W. D. Hazel, Mrs. W. F. Walker, Mrs. Fred Grist, Mrs. C. N. Clifton and the hostess, Mrs. Brecheen.

Mrs. S. Ledford Entertained Club Thursday

Mrs. Sim Ledford entertained the Needle and Thread club in her home at 3 o'clock Thursday afternoon. Mrs. James Huddleston presided over the business period; minutes were read by Mrs. S. B. Parks and approved by the club. "Thank You" cards from a sick and an absent member were read. The menu for the Service Men's club for next week-end was passed out and accepted by members.

The quilt top which was begun some time ago was finished and will now be presented to the local Red Cross unit. The afternoon was spent in sewing and various kinds of needlework.

Refreshments of ice cream and cookies were served to Mrs. James Huddleston, Mrs. I. W. Robinson, Mrs. R. D. Jones, Mrs. S. B. Parks, Mrs. C. E. Turknett, Mrs. J. W. Hammond, Mrs. E. C. McClelland, Mrs. T. R. Prickett and the hostess, Mrs. Ledford.

Mrs. McPherson Honored With Club Luncheon

The Double Octet anniversary club met in the home of Mrs. Leon McPherson for covered dish luncheon Thursday, celebrating the birthday of the hostess. Following the custom of the club, luncheon was served buffet style, with guests seated at two dining tables while partaking of the meal. Mrs. J. R. Burnett gave the invocation. The "Happy Birthday" song was sung honoring Mrs. McPherson.

A business session, at which Mrs. W. D. Brecheen presided, was held following the luncheon. A number of games were then played after which needlework of various kinds held the attention of the group. Members present were Mrs. Leon McPherson, Mrs. J. R. Burnett, Mrs. W. I. Gormley, Miss Miriam Gormley, Mrs. W. D. Hazel, Mrs. W. F. Walker, Mrs. W. D. Brecheen, Mrs. F. E. Shepard, Mrs. Algine Skiles, Mrs. Mack Stephens, Mrs. Barton Philpott, Miss Willie Frank Walker, Mrs. H. L. Kunkel, Mrs. Willie Bogan Dunne and three visitors, Mrs. E. C. McClelland, Mrs. M. C. Stivers and Mrs. C. P. Cole.

HOT CASSEROLE to take on a picnic

by Dorothy Greig

EVEN though we all work like fury from now to the end of the war, we'll still have free time now and then to sniff the flowers, laze in the sun and go on picnics.

Hot Spaghetti Casserole makes hit as picnic main dish.

And when we picnic, whether in our own backyard or far afield, we can have really appetizing food. Hot food, such as the dish we describe below, hot coffee or soup to be carried along in the thermos bottle. Sandwiches made right on the spot—it's simple to pack a fresh loaf, butter and several spreads for these. Then, too, waxed paper cups are just made for salads—to be eaten right out of the container.

In other words, a picnic meal can be as nourishing, well balanced and inviting as any other meal. It just takes a bit of managing. Now for the hot casserole. The trick here is to cook it at home. Then slip it, hot from the oven, into thicknesses of heavy paper. Wrapped quickly and thickly this way, the dish stays hot for several hours. Or, if you have baked it in an electric cooker take it along right in the cooker.

Spaghetti Casserole
1 clove garlic, chopped fine
1 medium size onion, chopped
2 tablespoons cooking oil
4 ounces beef, ground
1 can condensed tomato soup
1 can condensed consommé
1 package (9 oz.) spaghetti, cooked
6 tablespoons sharp cheese, grated
Salt and pepper
Cook garlic and onions in the oil until lightly brown. Add ground beef and cook until browned. Then add the tomato soup, consommé, salt, pepper and 3 tablespoons grated sharp cheese. Mix the cooked spaghetti with the tomato-meat sauce and put into a casserole dish. Sprinkle 3 tablespoons grated cheese on top, cover, and put into a moderate (350°) oven for 30-40 minutes to get casserole and spaghetti thoroughly heated. Serves 6-7.

Mrs. A. W. White Was Hostess to Reapers' Class

The Reapers class of East Cisco Baptist Sunday school met Thursday afternoon in the home of Mrs. A. W. White, 1700 D avenue. Mrs. Willie Thetford presided over the business period where routine business of the class was transacted.

A social hour followed and at the conclusion refreshments were passed to Mrs. C. Nelson, Mrs. Willie Thetford, Mrs. H. V. Bosworth, Mrs. Russell Dennis, Mrs. C. McClelland, Mrs. M. C. Stivers and Mrs. C. P. Cole.

ron, Mrs. Doyle Gilmore, Mrs. Carlton Holder, Mrs. Glenn Garrett, Mrs. Guy Abbott, Mrs. John Whisenant, Mrs. E. E. Green and Mrs. White.

Mrs. C. R. West Was Hostess to Group

Mrs. C. R. West was hostess to First Christian council group four, which met Tuesday afternoon in her home, 1010 W. Sixth street. Mrs. John Elkins brought a splendid devotional on "The Lord's Prayer." Mrs. Troy Powell then directed the missionary lesson after which Mrs. L. D. Wilson offered prayer. The brief business session was in charge of Mrs.

Sam Kimmell, group chairman. The meeting was closed with sentence prayers. Those present were Mrs. Sam Kimmell, Mrs. G. W. Troxell, Mrs. James Haynie, Mrs. L. D. Wilson, Mrs. Troy Powell, Mrs. John Elkins, Mrs. W. C. Hogue and Mrs. C. R. West.

PRESENTS PUPILS

Miss Ora Howell will present her piano pupils in recital on Sunday afternoon at 4 o'clock in the auditorium of the First Baptist church.

OUT OF STATE VISITORS.
Mr. and Mrs. R. L. Saunders and son, Kenneth Saunders, of Canton, N. C., arrived Monday for a visit with his aunt and uncle, Mr. and Mrs. James I. Taylor and other relatives in Cisco and vicinity. A family reunion is being planned for next Sunday at Lake Cisco. The visitors and their hosts visited relatives in Moran Thursday. This is the first trip Mr. and Mrs. Saunders and their son have made to Texas and they express themselves favorably impressed with Cisco and other parts of the state they have seen.

The British have at last decided to let one command control army, navy and air force. Must we, too, learn the hard way?

"Equality of sacrifice" seems to mean sacrifice of everything but the nondefense spending that keeps voters in line.

POLICE AND FBI AS UNIT

The Federal Bureau of Investigation has announced another conference for police officers in this area under the Law Enforcement Officers' Mobilization Plan for National Defense. Investigations have been issued to all police and sheriff's departments and other officers engaged in law enforcement, according to the announcement made today by A. P. Kitchin, special agent in charge of the Dallas division of the FBI.

The conference called is another in the series of quarterly conferences begun subsequent to the declaration of emergency. The president of the United States issued a directive in September, 1939, instructing the FBI to act as the coordinating agency for all espionage, sabotage, and subversive activities, and called upon all local law enforcement organizations to cooperate in this work so

important to the national defense. Responding to this directive, a close cooperation and coordination of law enforcement officers was perfected. Meetings were held in key cities and smaller localities all over the United States, and the FBI law enforcement officers' mobilization plan for national defense was launched. The plan calls for the coordination of national defense information, with the FBI as a central depository. It has for its purpose not only the unified efforts of police officers, but also the bringing to attention of the public the importance of transmitting all information to the proper authorities.

Nearly every instance of law violation is known to a responsible citizen who should report the information to authorities for appropriate action according to Mr. Kitchin. This is especially true and of great importance in a time of national emergency such as that we have entered. Information that cannot be immediately reported by the citizen to the FBI should be reported to local officers. The handling of such local matters can thereby be quickly and effectively undertaken or immediately transmitted to the nearest office of the FBI if it embraces more than a purely local character.

Mr. Kitchin announced that now, as never before, local enforcement officers would be called upon to shoulder greater responsibilities in work of internal defense. Only by meeting together and discussing mutual problems can duplication of effort be avoided by the several

agencies. The FBI as coordinating agency will continue to bring to these conferences new and vital information on the activities of foreign agents in the United States. It is contemplated that all officers attending will receive the details on current espionage activity, with suggestions on combating such activities. The work of saboteurs in defense industries will be discussed, and a new motion picture on war activity will be shown as an instructive feature of the program.

The quarterly conferences offer a medium for exchange of ideas between officers, which is so vitally necessary while the nation is at war and officers are primarily engaged in activities relating to war and national defense. All officers are urged to attend, and citizens in the communities they represent should make it their duty to encourage the attendance

of representatives of their local law enforcement bodies.

These conferences will begin at 2 p. m. and will be held in accordance with the following schedule:

- June 9, 1942, at Tyler.
- June 10, 1942, at Texarkana.
- June 11, 1942, at Sherman.
- June 12, 1942, at Dallas.
- June 15, 1942, at Wichita Falls.
- June 16, 1942, at Amarillo.
- June 17, 1942, at Lubbock.
- June 18, 1942, at San Angelo.
- June 19, 1942, at Abilene.
- June 22, 1942, at Fort Worth.

CATTLE MARKET

All classes of cattle and calves were generally steady on the Fort Worth stock yards Friday. Some medium and low-grade steers and yearlings seemed slower than earlier in the week while cows and calves were on the strong side.

Hogs opened strong and turned upward later, topping at \$14.20 to packers or a gain for the day of 10c to 20c.

Spring lambs and shorn lambs were about steady while other classes of sheep were scarce. In the cattle yards, good to choice steers and yearlings ranged from \$11 to \$13. Sales included one load of strictly choice yearlings at \$13 that weighed 665 pounds; one load of mature steers at \$11.10 and one load of mature steers at \$12.50. Common to medium grade steers and yearlings sold mostly at \$8.50 to \$10.50, with one load of heavy fed heifers containing some on the cow order at \$10.50.

Good beef cows brought \$8.50 to \$9.50; butcher cows at \$7.50 to \$8.25; cutter cows at \$6.50 to \$7.50; and canner cows at \$5 to \$6.50. Good heavy bulls cashed at \$9 to \$9.75; medium grade, medium

weight bulls at \$8 to \$8.75; and common light weight bulls around \$7.50.

Good to choice fat calves sold at \$11 to \$14 with the latter price paid for occasional veals. Common to medium butcher calves brought \$9 to \$10.50. Cull calves sold at \$7.50 to \$8.50. Stockers were scarce with prices

nominally unchanged, traders quoting steer calves at \$8.50 to \$14; heifers at \$13 down; and steer yearlings at \$8 to \$12.50. Stocker cows sold at \$9.25 down.

Note on Congress: "Never before have so many owed so much to a few"—and we don't mean orcs.

WE CHEERED, too, when Uncle Sam called on industry to work 24 hours a day, seven days a week, until the war is won. Continuous production, you see, is nothing new to us. We've always worked that way. It's one big reason why we were prepared to serve the army training camps, the flying schools, and the new war plants in West Texas—all in addition to serving your home and business.

We are proud that our service to you has not suffered despite the unforeseen problems created by the war. We believe that it is a credit to the American way of doing things... a tribute to the American system of free initiative and free enterprise.

The electric industry throughout the nation is providing power where it's needed, when it's needed... more than the combined total of all the enemy nations! This is in contrast to claims by proponents of socialization who, many months ago, predicted an immediate and disastrous shortage of electric power—and calling for political management rather than business management. Hundreds of millions of tax dollars were diverted from useful production to subsidize political projects in competition with electric systems already owned by the public (through millions of small stockholders) and regulated by the government.

Countless thousands of tons of strategic materials were wasted in building unnecessary socialized plants and transmission lines that duplicated existing systems adequately serving the public.

Here are the results of this long conflict between two theories—free enterprise as against tax-free competition built with tax dollars:

- Today, in time of America's greatest need, the country's electric operating companies are supplying over 90 per cent of all the power commercially generated;
- Last year they paid \$510,000,000 in taxes, enough money to equip 2,400,000 soldiers or build 9,273 fighting planes;
- The average home now gets over twice as much electricity for its money as it did 15 years ago.

It represents American genius at its best. In little more than two generations, an "experiment," at which wisecracks scoffed, has become indispensable in American homes and in America's war effort. It has been possible simply because America's electric companies have been built and operated the American way—by good business management.
