CISCO, TEXAS, TUESDAY, MAY 26, 1942

NUMBER 189

U. S. COURT OKED CISCO BOND SETTLEMENT

CISCO IS CERTAIN TO HAVE AN OFFICIAL BLACKOUT SOME TIME SOON, M. L. PERDUE PREDICTS

Homer Ferguson, chief air raid warden for Cisco, presided at a meeting of wardens and their assistants at the city hall last night. Those present included W. R. Huestis, W. E. Dean, Con Collins, H. R. Garrett, Homer Bible, R. L. Ponsler, J. A. Caffrey, George Boyd, James (Red) Moore, Red Miller, W. W. Wallace, Joe Britain, Paul Culp, J. D. Lauderdale and A. L. Perdue.

Mr. Perdue, who has attended a number of air warden meetings in adjoining cities, was asked to set forth some of the objectives of the organization. He responded by going into the subject at length in a most interesting manner. He explained that while there might never be an air raid on this city, yet our ability and willingness to "black out" quickly if requested to do so by the U. S. army, might mean saving the lives of a large number of soldiers at nearby military camps like Brownwood, Abilene or Mineral Wells; that Cisco could be used by enemy planes as a guide post to reach army camps of this area.

Mr. Perdue also stated that a practice blackout might be called by army officials at ANY TIME now, and emphasized the need of citizens studying the instructions carefully. The Daily Press was requested to print a set of air raid instructions compiled by the federal government. These can be found on page two of this issue. The instructions will also be printed in pamphlet form and distributed.

15 MINUTE SUSPENSION OF BUSINESS

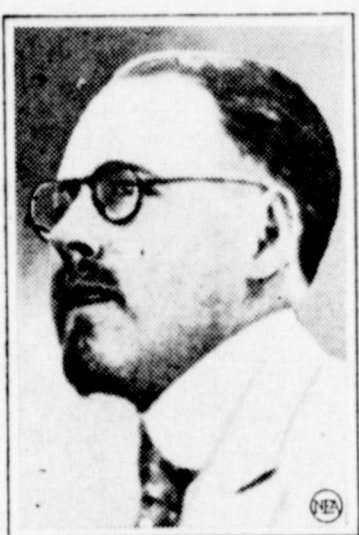

Secretary P. R. Warwick of the chamber of commerce is in receipt of the following communication from Benjamin H. Mann, chairman of the retail advisory committee, U. S. treasury department, Washington:

"All retailers are being asked to cooperate in nation wide tribute to America's war effort on July first at twelve noon by suspending all sales of merchandise for 15 minutes and devoting this brief period to sale of War Savings Stamps and Bonds. We are counting upon your personal cooperation so that we may report one hundred per cent unity in this vital program to launch nationwide July campaign of retailers for Victory."

"Will you advise how many of your local retailers will participate? Please wire as soon as possible, so that I may advise Secretary Morgenthau and President Roosevelt on Monday morning."

TORNADO LOSSES
SAN ANTONIO, May 26.—A survey showed extensive damage to crops and farm buildings in the wake of a tornado, accompanied by hail and heavy rainfall, that whipped through Eastern Bexar and Southwestern Guadalupe counties Monday afternoon. Farmers reported losses of corn and cotton crops and some livestock after the twister struck Sunday night.

DOOLITTLE IN AMARILLO.
AMARILLO, May 26.—Gen. George C. Marshall, chief of staff of the United States army, and Brig. Gen. James Doolittle, No. 1 hero of the United States bombing raids on Tokyo, left Amarillo early Tuesday for an unannounced destination. They spent the night in Amarillo after arriving from San Francisco.

DR. BRINKLEY, FIGHTING SPECIALIST, DEAD

SAN ANTONIO, May 26.—Dr. John R. Brinkley, who made a fortune as a gland specialist, died in his sleep early today in a San Antonio hospital, after a long illness. The 57-year-old goateed former Milford, Kan., gland specialist, who made his money by promising to rejuvenate old men, suffered a heart attack last Friday. It was another in a series of such attacks that had beset Brinkley during the last two years. His condition was believed improved over the week-end, but shortly after midnight today he took a turn for the worse and failed to rally. At his bedside when he died were his wife and son, John Richard Brinkley III.

Brinkley's last years were marked by anything but the fortune which came with his radio messages to old men and his resultant flourishing business at Milford.

In 1938 the empire he built on goat glands began to crack when he lost a libel action against the American Medical association.

Last spring bankruptcy proceedings were brought against him and in Del Rio federal court he listed assets of \$300,000 with which to meet debts and claims totaling \$1,600,000. Part of those assets were four limousines and his Mexican villa. Two private yachts were gone.

Last fall Brinkley underwent surgery in Kansas City for amputation of his left leg, made necessary by a blood clot.

Brinkley's career ran the gamut from medicine to politics. Twice he made strong races for governor of Kansas, and once entered a Texas senatorial campaign.

He got his credentials to practice medicine from a Kansas City college and pyramided his knowledge into two hospitals, a palatial private home with pipe organ and \$60,000 swimming pool, yachts and an airplane.

In the prosperous 1920's his income averaged \$30,000 a week. A mail fraud charge against him alleged he had treated 16,000 persons at an average of \$750—a total of \$12,000,000.

Many Kansans believed Brinkley once was elected governor of their state. He filed too late to get his name on the ballot but still polled 180,000 votes in a write-in campaign. Enough ballots were ruled out because of improper writing of his name to have possibly elected him had they all been counted.

80 TO EASTLAND

Top-coating the brick and shoulders of highway 80 between Cisco and Eastland this morning, and traffic is being detoured over the Breckenridge highway out of Cisco to the Y about seven miles north, thence along the Eastland-Breckenridge highway to Morton Valley, from which traffic will branch to either Eastland or Ranger, as the case may be.

It will require about five days to complete pouring the asphalt on the road, which is a new departure in road building — top-coating brick to make it smoother and more lasting.

By this coating the highway will become a solid 24-foot roadbed instead of a 18-foot road with 3-foot shoulders on each side, as heretofore.

Since any traffic will interfere with pouring the hot asphalt, all traffic is being detoured by signs and a flagman at D avenue and the highway crossing, at the western approach to the overpass.

BINT AND C. OF C. COMMITTEE MET

County Commissioner Arch Bint and a Cisco chamber of commerce committee met in a short session Monday afternoon and discussed the rights-of-way angle in the proposed widening and straightening of highway 80 from Cisco west to the Callahan county line.

It seems to be the opinion that Eastland county, or the Cisco precinct, will probably have to stand the rights-of-way cost of approximately \$3,000, but at the meeting yesterday it was decided that Commissioner Bint would make another effort to have the federal government stand that cost.

Present at the session in addition to Mr. Bint were the following: J. D. Lauderdale, A. D. Anderson, George Boyd, H. S. Drumwright, J. L. Thornton, Edward Lee, S. H. Nance and Chamber of Commerce Secretary P. R. Warwick.

SAULS KILLED BOBCAT NEAR CITY LIMITS

J. M. Sauls, living on the B. W. Martin place just beyond the city limits on the Breckenridge road, killed a giant bobcat last night and had him on display here today. He measured 4 feet and 7 inches in length and weighed nearly 24 pounds.

Sauls said the cat came to his place just before dark, mewing like a common housecat, except much louder. Being down wind from Sauls, the cat did not scent him and was within perhaps 22 feet when shot with a 22 rifle.

As Sauls has young goats, it is presumed the cat was searching for this kind of prey, since these wildcats do much damage to young stock, even killing very young calves, as well as kids, lambs and chickens.

CHRISTIE MAKING GOOD

Col. D. C. Pearson, superintendent of the New Mexico Military Institute, Roswell, N. M., writes the Cisco Daily Press as follows concerning a Cisco boy — Robert Hugh Christie:

"Robert Hugh Christie, son of Mr. and Mrs. George Christie of 1400 Bliss avenue, Cisco, will be graduated from New Mexico Military Institute on Tuesday, June 2, 1942.

"Christie has been enrolled in the Junior College of New Mexico Military Institute for two years, and has done well. He was admitted upon certificate from the Cisco high school. He is completing the basic course in the senior cavalry unit of the R. O. T. C. His athletic participation has been in intramural track and tennis.

"Robert Christie is the second member of his family to become a graduate of New Mexico Military Institute. His uncle, Charles B. Christie, Jr., of Wichita Falls, was graduated with the class of 1939.

"Young Christie is among the one hundred forty-two graduates who will receive diplomas from Gov. John E. Miles of New Mexico. Twenty-one states, Hawaii and Mexico are represented in the class of 1942. Thirty-seven members of the graduating class are from Texas.

"Enrollment at New Mexico Military Institute, Roswell, is limited to 620 cadets. Of this number, one hundred thirty-eight are from Texas."

U. S. AIR MEN TO AID RAF

LONDON, May 26.—Britain has been assured that United States planes, ammunition and fuel are in readiness for a huge American air expeditionary force which will join the RAF's offensive against the Continent, it was understood today.

Leaders of an American military mission that includes air and tank experts were understood today to have conferred with Prime Minister Winston Churchill in a whirlwind series of conferences believed to be a prelude to the first American blow—possibly by air—directly against Germany.

Problems of forcing Hitler to fight on a second European front, of participation by American Air Forces in raids on German war centers and in Commando attacks on the Continent were said to be foremost in the discussions, in which Britain's Commando leader, Lord Mountbatten, was to participate.

The talks were described as representing a "super combined command" among active leaders of American and British naval, army and air forces, upon whom rest the responsibility for seizing the initiative from the Axis.

Churchill was understood to have talked with Lieut. Gen. Henry H. Arnold, chief of the U. S. army air corps, and Rear Admiral John H. Towers, chief of the U. S. Navy Bureau of Aeronautics, Admiral Harold R. Stark, commander of U. S. naval forces in European waters, and Maj. Gen. James E. Chaney, AEF commander, were also taking part in the talks.

It was reported also that Russia might offer the Allies bases in Siberia from which to bomb Tokyo.

\$32,000 PER YEAR WILL PAY CITY'S LONG STANDING DEBT; MAYOR SAYS IT CAN BE MET

The Cisco bonded indebtedness suit, which has been pending in United States court, was settled at Dallas Monday, according to Mayor G. P. Mitcham, Attorney Forrest D. Wright, Commissioner Charles J. Kleiner and City Secretary George W. Downie, who attended the session.

Judge T. W. Davidson entered his final approval of the settlement, there being no objections among 70 per cent of the bondholders represented, nor by others.

In speaking of the settlement, Mayor G. P. Mitcham seemed well pleased with the outcome and said this settlement was one Cisco could easily meet if all citizens would pay their taxes promptly each year when due, and would start liquidating any past-due taxes now.

The mayor said this would restore Cisco's credit abroad and would make it easier to ask for government aid for some of the projects that are so badly needed for Cisco's economic life and future.

"Cisco is now paying her bills and has some money in the treasury," the mayor added.

Terms of Settlement
Under the settlement approved by the court, two issues aggregating \$726,000 will be made.

One issue for \$484,000, will be paid from the water revenues and is secured by a lien on the lake and waterworks system.

The other issue of \$242,000 will be payable from taxes.

The net amount required for debt service to provide for the water bonds will aggregate \$21,000 and the amount necessary to service the revenue bonds will amount to \$12,000 per year. Or, a total of \$32,000 to be paid yearly by the city of Cisco under this agreement.

Several witnesses testified that it was to the best interest of both the city of Cisco and the bondholders that the readjustment be made.

Settlement Is Final.

The settlement affected the disposition of the suit and all pleas of intervention which have been pending in the United States Court, Abilene division, since 1938.

In this suit plaintiff and numerous intervenors sought recovery on several hundred thousand dollars in bonds of the re-issue of 1934, aggregating approximately \$1,600,000.

They alleged that by reason of the failure of the city to pay the interest on the refunding issue, the bondholders were entitled to be reinvested with all rights held by them under the old bonds, aggregating approximately \$4,800,000.

In the federal suit pending at Abilene, the court had previously issued its writ of mandamus required Cisco city officials to at once enforce the collection of taxes and water bills, and restraining them from paying out any monies from the sinking fund without an order from that court.

RELIEF GRANTED
The commissioners court appropriated the sum of \$36 for transportation and treatment for J. M. Cantrell. He was formerly operator of a service station in Eastland until his health and eyesight failed some time ago. It was understood he went to Fort Worth for eye treatment.

GALLANT FAMILY

Speaking of "gallantry in action" there's the Lucky Thirteen family in West Texas that has gone to war, and doesn't want publicity.

Dad, who is an advertising man on a newspaper, thought it over, and talked it over with his wife, who said if he wanted to fight again for his country it was all right with her.

"You can't have much fun if you send all your base pay home," remarked the reporter.

RESPIRE FOR JAPS

MOTHER'S LUCK

There is often strain and sorrow in this war, and always uncertainty, but sometimes a soldier's family gets a wonderful break.

Walter Fitzgerald, 19-year-old Oklahoma youth, was given eight years in the state penitentiary at Huntsville for his assault upon E. P. (Pack) Kilborn, Eastland jailer, on May 26, during which Kilborn was struck over the head three times with a "billy" when the officer went to the cell to feed Fitzgerald and other prisoners.

That's all! And the personal glory embarrases him. He says "We" by that word he doesn't mean what Lindbergh meant, "the plane and I." He means his comrades and himself. You'd think he merely tagged along.

But people are not fooled. There is greatness inside of a lad like that.

EQUAL SACRIFICE

Philip Murray, now the biggest labor leader in America, asks "equality of sacrifice." It is a noble and memorable phrase, and the spirit in which his followers are accepting it is one of the most reassuring signs of the time.

This vast war demands sacrifice of everybody, regardless of class or occupation or worldly wealth or age or sex or culture or religion or anything else.

UNDER THE AXIS

Now the great Goering, Hitler's choice as his successor, is said to be in disfavor. Irked by the comparative failure of the German air force in Russia, the Fuehrer has, according to the story, replaced the fat Goering by Field Marshal Erhard Milch.

PLAINTIFF IN DIVORCE GETS CHILD SUPPORT

In granting a divorce decree in the case of Wandalee Dossey vs. Doak Dossey, the plaintiff was given the custody of the minor child. It was also the judgment of the court that defendant should pay \$5 per month to plaintiff, or to the district clerk, for support and maintenance of said minor.

AIR RAID INSTRUCTIONS

IN CASE OF AIR RAID WITHOUT WARNING.

- 1. Keep calm. 2. IF AT HOME, turn OFF ALL lights immediately and stay inside. 3. IF IN A CAR, stop immediately at curb being sure not to block any driveway or fire plug; if at night turn off motor and car lights; seek nearest shelter one floor above ground or lie down flat in the open.

IN CASE OF AIR RAID WITH WARNING.

- 1. Head for home if you can get there within ten minutes (10 Min.) easily, safely and without undue rush. Otherwise stop car at curb, turn off lights and seek shelter. All traffic, whether on highway or within the city will be stopped after 10 minutes. 2. Don't use the phone, lines must be kept clear for emergencies.

GENERAL INSTRUCTIONS.

- 1. Appoint one member of the family to be chief of operations. Mother is usually the most reliable. Detail the various members of the family to perform specific duties when the emergency comes. This will save time and confusion. 2. Reasons for a blackout room, rather than turning off lights, (a) It is for the protection of you and YOUR FAMILY. (b) Remember that an air raid may last for some time. (c) It affords greater protection against flying glass from shattered windows. (d) It provides for better morale. A family together lessens fear, makes for greater comfort, and avoids any separation or loss of the different members in case of emergency.

Announcement of the approaching marriage of Miss Doris Jean Jaco, daughter of Mr. and Mrs. J. Shepard, Cisco, is secretary of Matthews Memorial Methodist church where her fiancé, Nick H. Kupferle, Jr., is assistant pastor. The marriage will take place June 27 in Matthews Memorial church. Two hundred guests were in attendance at the tea.

Receiving the guests were Mrs. Jaco, Miss Jaco, Mrs. Nick H. Kupferle, Sr., Miss Betty Wilcox and Mrs. Frank A. Brook. WHEN YOU BUY A POPPY, YOU AID A SOLDIER

Approximately 50,000 buddy poppies are being made each week by disabled ex-service men, patients in U. S. veterans' hospitals throughout the country, in preparation for the twenty-first buddy poppy sale of the Veterans of Foreign Wars, according to W. L. Phippen of Post No. 3359, who is in charge of arrangements for the local sale, to be held next Saturday.

Nominal wages are paid the disabled veterans who assembled the V. F. W. buddy poppies. Such money represents, in most cases, the only money these men are able to earn throughout the year. Each flower carries a copyrighted green label which guarantees to the public that the poppy was fashioned by a disabled veteran.

With the nation at war, a part of the buddy poppy proceeds will be used for welfare activities among men in active military service, and their families.

We don't exactly find fault with our own religion, but we have noticed that it is more active during the stormy season.

From where I sit ...
by Joe Marsh

Every Friday night a bunch of us fellows get together over at Bill Webster's place. We wouldn't miss those weekly get-togethers for anything.

There are seven in the group—Bill Webster, Judge Cunningham, Pete Swanson, Old Doc McGinnis the dentist, and young Doc Mitchell the M.D., the government man Bob Newcomb, and myself.

We don't play cards. We don't sing or carry on.

We just sit quietly and talk—and drink a glass or two of beer.

I guess we discuss just about everything under the sun—politics, business, family affairs, music, farming, hunting, fishing, and what not.

But mostly we like to chew the fat about life's experience and a man's philosophy in these times.

To sort of help out the conversation, we've found mellow beer particularly relaxing. Every one of us likes the tangy taste of beer... and now and then Judge Cunningham insists on ale for everybody.

You mightn't think that just settin' and talkin' would be so much fun. But it is. Particularly when a man begins to get around to the age of reason. Like us.

And it's wonderful how a few glasses of good beer help bring out good talk and good sense when men get together. There's something peaceful and friendly and human about beer that brings out the best in a man.

They call beer the "beverage of moderation." That "moderation" idea is good philosophy... maybe that's why good beer and good fellowship go together so well.

Seems to me there ought to be more of this quiet talk over a glass of beer. It sure straightens out a man in his thinking.

Anyhow, men ought to get together and be friends. That's the way we were made. Why not try it more often—all of you?
