## COMMITTEE CERTIFIES CANDIDATES' NAMES

### Cisco Young Man Writes Another Human-Interest Letter From Australia

With excerpts from letters of Melvin Lawson, Ciscoan, in the signal corps in Australia, his parents, Mr. and Mrs. Lawson, 511 W. Ninth street, are a surprising number of American-made cars over here. Chevrolets, Hudsons, Buicks are the rest. However, since the rationing has gone into the most popular cars are all English makes.

They have quite a large number of Standard, Morris' British-made Ford. Engines are from one-third half the horsepower of the American-made Fords and Chevros.

Some of the cars have charcoal pull on a trailer. The charcoal generates a gas fed into the manifold and like gasoline. It is not as good as gasoline and, even the best of filters, particles get into the motor. On the cylinders have to be re-oiled every 10,000 to 20,000 miles. Engines are started on "peas" they call gasoline, and switched over to the charcoal.

They have told us, our winter here and it beats any variability. The days are dreary, wet and children have rashes, just like Houston in January.

Australians and the Americans getting along VERY well. With a frontier back to the same. However, the Australians are about 93 per cent British descent. Very few other nationalities here. They were worried because we have full-blooded Germans, Italians and Poles in the army over here.

It gave them quite a surprise such names as Wynona, Albatti, Cizewski, Jones and all lined up together. The first time we sent a man to the laundry they had to send a man to the laundry to get the names of the poor and girls.

One of my thinking: I am a geologist, geophysicist, military drillers and rough-rotary drilling contractor, highway engineer and a executive for the DeSota in the army over here. I been thinking that after we could organize a committee for oil and, after finding out in a refinery and what is a perfect set-up, it would be oil here.

Remember the two Arlington called home from Sunday good months back? Jones and I. They got into the army and were evacuated down when things got too hot. I them a few days ago, went to A. & M. and we had been talking over old times. I school and on maneuvers. I met one fellow I liked with while with the in Louisiana—Mike Ma. I will not be a bit surprised Victor (his brother) step boat one of these days. I, anyway.

I am enjoying it here, help but want to be back to Cisco. With the jobs have about got over ever since, but in your letter occasionally find a little mention of you all around on a rainy night, I am sure.

It makes me not been writing as much had—have been extremely I have not even been out into the country. After whole batch of us came to fight a war and the we take off the quicker will be over and we will be home.

### PLANES STRIKE AGAIN

WASHINGTON, June 16.—A third great naval-air battle in the Pacific within six weeks is in progress today off the Aleutian Islands.

American airmen—both Army and Navy—already have damaged at least six Japanese vessels, maybe seven, and sunk another. One of the damaged vessels was an aircraft carrier.

The battle apparently has been going on intermittently since Japanese bombers attacked the naval base at Dutch Harbor on June 3. Admiral Ernest J. King said on June 7 that a battle was going on in that area but that the situation was obscure. Last week the Japanese landed on one of the Aleutian Islands.

Only fragmentary reports on the Aleutian area have been released and they are confused now because of different versions by the Army and Navy of the damage inflicted on the enemy.

The Navy version—Army and Navy airmen have damaged at least three cruisers, one destroyer, one gunboat and one transport, "some of them severely."

The Army version—Lieut. Gen. Henry H. Arnold, Air Corps chief, said in a telegram to the Glenn L. Martin Co., aircraft manufacturer, that Army medium bombers attacked the Japanese task force in the Aleutians three times, sinking a cruiser and scoring three torpedo hits on an aircraft carrier.

### INTEREST FROM SCHOOL FUND IS DISTRIBUTED

T. C. Williams, county superintendent of schools, reports the distribution of 45 cents per scholastic to the common schools of the county, proceeds from the permanent fund, as interest accrues.

Williams says there is yet coming up an additional 5 cents per scholastic, which will be distributed in the near future.

One thing I have noticed especially is their tendency to pronounce "A" as "I" as in railroad; they usually say "rileroad" and sale and sail will be pronounced as "sile."

I have bought an Eastman camera and will send you pictures occasionally. Of course, will have to send ones the censor will pass.

### NAZIS IN SUPREME EFFORT SEVASTOPOL

MOSCOW, June 16.—Germany hurled seven artillery regiments and her famed "Big Berthas" against Russian defenses before beleaguered Sevastopol today while other Soviet forces awaited a new enemy push by at least 500,000 men on the Kharkov front.

### BUSTER DOYLE IN SERVICE AT ABERDEEN, MD.

Sergeant Buster Doyle, son of Mrs. L. V. Doyle, 604 E. Eighth street, writes he is getting along nicely at Aberdeen, Md., where he is attached to Company C, seventh battalion. He hopes to get home to Cisco on a brief furlough some time next month.

He joined the army May 27, 1941, as a volunteer and was first located at Fort Sill, Okla.

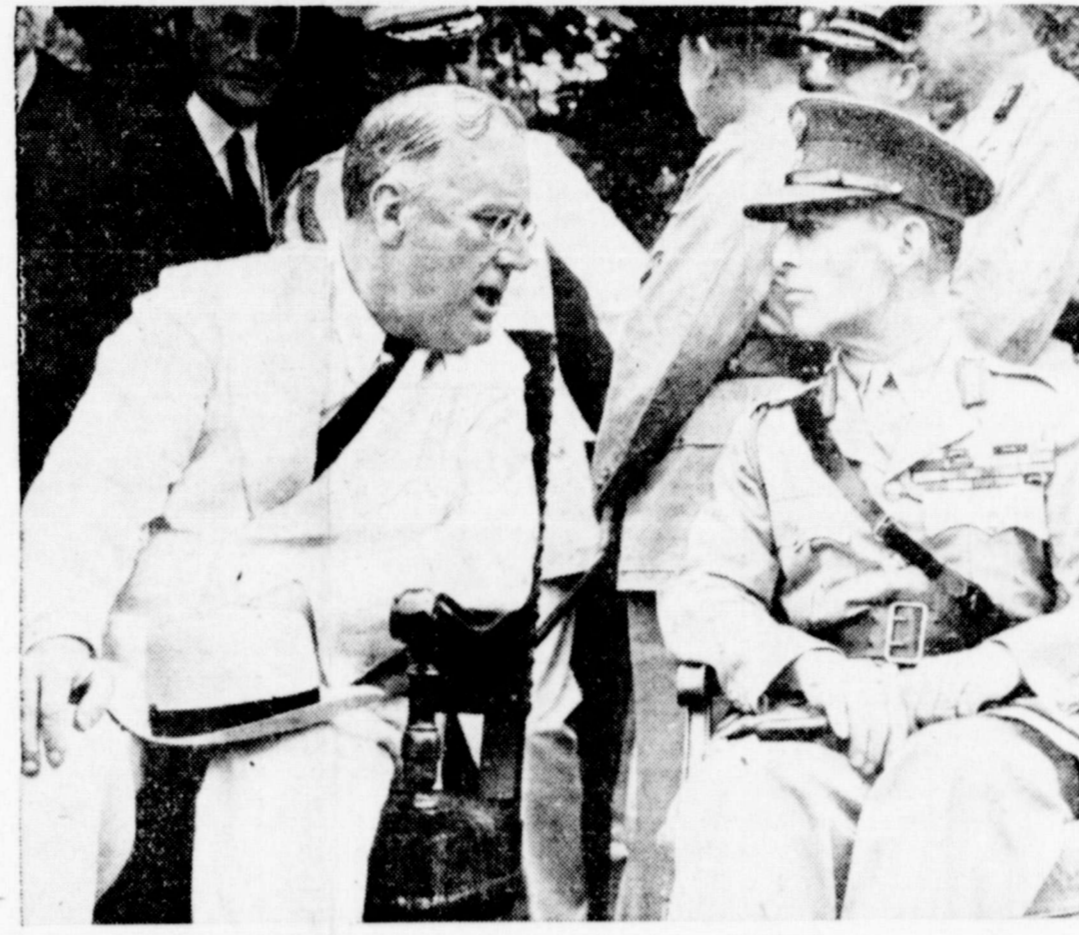

### TWELFTH-ST. VACATION BIBLE SCHOOL

The Twelfth-street Methodist church Vacation Bible school will begin June 22, says Rev. Seba Kirkpatrick, pastor of the church.

### PRATT BOUGHT 5,000 POUNDS RUBBER MON.

J. B. Pratt, local agent for the Magnolia Petroleum company, purchased approximately 5,000 pounds of scrap rubber Monday, the first day of the drive.

The scrap consisted mostly of old tires and tubes, rubber floor mats, hot water bottles, rubber shoe heels and the like.

F. D. R. AND ROYAL VISITOR—President Franklin D. Roosevelt and King George II chat together following the arrival of the exiled Greek monarch in Washington, where he was greeted with full military honors. The King declared his countrymen "are in the fight to stay."

### Invitation Golf Tournament That Ended Sunday Afternoon Was Best Yet

### HI-WAY WORK IS SLOW

The Cisco Invitation golf tournament, closing with the finals Sunday afternoon, was the most successful tournament ever held in Cisco, according to reports from golf committeemen of the Country club.

### 1ST AID COURSE JUNE 23

An American Red Cross first aid course will be started in Cisco Tuesday night, June 23, at the local fire station, Edward Lee, city chairman, announced this morning.

Bill Dreinhof of Eastland, accredited Red Cross first aid instructor, will direct the course.

Classes will be held twice a week—Tuesday and Thursday nights—for two hours, with a total of 20 hours to complete the course.

The class will be limited in the number of students taken, and only a second class will be formed should that be necessary. Those who expect to take the course may get in touch with Edward Lee or E. L. Jackson, at once.

Any boy or girl, 17 years of age or over, is eligible, said Mr. Lee.

Directors and members of the Cisco chamber of commerce again enjoyed 7 o'clock breakfast together atop the Laguna hotel. The meal was served in the open air and the ever-present early morning breeze added to the pleasure of the gathering. A vote taken to ascertain the wishes of directors as to the meeting hour revealed that all prefer the present arrangement. Because of business developments the president, J. D. Lauderdale, was unable to attend, but he sent his regrets.

Minutes of last meeting were read and approved.

Motion adopted that the secretary write to congressmen and senators protesting proposed mandatory joint income tax returns.

E. P. Crawford, chairman of the highway committee, reported on the progress of widening and straightening highway 80, west of Cisco. The preliminary work seems to be unnecessary slow, but there is some progress being made.

Motion adopted that Mayor G. P. Mitcham and Secretary P. R. Warwick contact the camp commander at Camp Bowie relative to a military demonstration at Lake Cisco on July 4, and that President Lauderdale appoint a committee to secure an outstanding speaker for the occasion.

Players from the Oil Belt and other sections added to the interest of the whole affair and re-emphasized the importance of this tournament in this section of the state. Visitors were loud in their praise of the fine hospitality and sportsmanship shown by Cisco hosts during the event.

The condition of the course and greens will cause many of these visitors to return for future play.

Prizes this year were war stamps. Maturity value of stamps for the champion was \$25, while \$10 books of stamps went to each flight winner.

Flight winners. First flight—T. J. Bailey, Abilene, 3-1; Spec Smith, Brownwood, runner-up.

Consolation champion—Dick Feagan, Hamlin, 2-1; Jimmy Gardner, Stephenville, runner-up.

### PLACES ON PRIMARY BALLOT ASSIGNED NEXT MONDAY; ASSESSMENT TOTAL IS \$3,150

With Oscar Lyerla, county chairman, presiding, the Eastland county Democratic executive committee met Monday afternoon in the district court room and certified names of candidates who had applied for places on the Democratic primary ballot—election July 25—and also assessed the candidates for the various offices for their pro rata part in defraying election expenses.

Total of assessments, \$3,150. The candidates did not draw for places on the ballot at this meeting, due to a mix-up in certifying names by the state committee for the office of state railroad commissioner, and the drawing for places on the ballot was postponed until next Monday, when a committee appointed yesterday will meet and take care of that detail.

All candidates have until midnight, June 20, to pay their assessments.

No Group Meetings. In an effort to conserve rubber, the candidates voted to hold no political rallies, or accept any invitations to community suppers or the like for speaking dates—as a GROUP—during the campaign. It will be noticed that the decision not to hold rallies, with the customary debates, pertains only to the candidates as a group. Individually, they may carry on as they deem best.

Candidates also agreed not to distribute printed matter on election day.

Candidates and Their Assessments. Following is a list of those who made application for places on the ballot, together with their assessments:

Congress, 17th congressional district, Sam Russell, Otis Miller. Associate justice of the court of appeals, 11th judicial district, Clyde Grissom.

Representative, 107th flatorial district, Omar Burkett, Eastland county; Cleve Callaway, Callahan county.

Representative, 106th district (Eastland county), L. H. Flewelling, W. O. Coffey, June K. Hendricks.

District clerk, John White, Claud Maynard; assessed \$175 each. District attorney, Earl Conner, Jr., Allen D. Dabney, Jr.; \$275 each.

Tax collector, Clyde S. Karkalis, \$275. County treasurer, Mrs. Ruth Branton, \$75. County judge, W. S. Adamson, P. L. (Lewis) Crossley, \$175 each. County school superintendent, Homer Smith, C. S. Eldridge, T. C. Williams, \$150 each.

County clerk, R. V. Galloway, \$300. Sheriff, John C. Barber, John S. Hart, Loss Woods, \$150 each. Commissioner, precinct 1, H. V. Davenport, \$100. Commissioner, precinct 2, A. M. Thurman, T. G. Moore, L. D. Hardin, Lon D. Tankersley, \$2.50 each. Justice of the peace, precinct 3, J. T. Chapman, \$5. Constable precinct 3, J. B. Williams, J. W. Clark, \$5 each. Justice of the peace, precinct 6, W. E. (Bill) Brown, \$5. Constable, precinct 6, J. J.

### REAMES IS SAFE, SOUND

Raymond Reames, son of Mr. and Mrs. F. T. Reames, who was on the Aircraft Carrier Lexington when it was sunk in the Coral Sea battle, escaped injury and is now in San Diego, Calif., a message to his parents says.

He expects to secure a furlough soon and if he does it will be spent in the old home town—Cisco.

The Lexington was not sunk by the Japs, it is asserted, but—suffering from two direct bomb hits, and ablaze from stem to stern—was sent to its watery grave by U. S. torpedoes in a gallant salute for its brilliant achievements.

It is revealed that the Lexington knocked down 23 or more Japanese planes even after there were two torpedo hits in its heavily armored side and after two enemy bomb hits.

Raymond Reames, who will be 21 years of age on July 23, joined the navy two years ago. He was born in Cisco and graduated from Cisco high school in 1940. The young man captained the Cisco Fighting Lobos during his last school year.

MORE GREEKS EXECUTED. LONDON, June 16.—The Greek government—in exile declared Tuesday that hundreds of Greeks recently have been executed by German, Bulgarian and Italian occupation forces in an attempt to curb persistent sabotage and attacks on foreign soldiers.

THE MIDWAY VICTORY

That Midway naval battle still grows in magnitude and importance as its full scope is revealed. It was so vast in extent, so long continued and in some ways unprecedented, that even yet it is hard to grasp.

Technically it seems to have been a masterpiece of planning and execution. Humanly it was an amazing display of courage and resourcefulness in unprecedented situations. It was won against greatly superior forces by free men capable of quick, decisive thought and action.

The historic effects must be immense. It seems to have been the turning point of the Battle of the Pacific. If that is true, it may also prove to have been a turning point in this present World War. It was more decisive than the Battle of Jutland in the last war. It may rank eventually with the British defeat of the Spanish Armada, which clinched Britain's sea power, or the ancient Greeks' defeat of the Persians at Salamis, which gave Greece control of the Mediterranean.

There is still a great deal to do and endure in the Japanese War and the other wars linked with it; but this nation has been tried with fire and not found wanting, and is now ready for anything.

HORSEBACK SUMMER

This should be a great year for the dude ranches of the West and for the other holiday resorts which offer riding as part of the pleasure. One can go to Yellowstone National Park on the train and take one of the regular tours through its many wonders, with only a dollar or two of government tax added to the normal cost of the tour. Side trips will not be taken by motor, but on horseback, and at some of the hotels--both those in the park and resort hotels elsewhere over the country--strings of saddle horses are already being assembled for the use of guests.

With the feeling ever present that motoring as a pastime is due to disappear for several years, interest rises in the older forms of transportation. After all, people realize, this country was built up to greatness before anyone thought of using gas engines. The pioneers used horses, and went where they pleased, with or without roads or trails. The moderns, surely, can do no less than show their own powers of horseback endurance.

For the most part, however, hard work and persistence in the face of dire fatigue will not be called for by civilian riders. They will be out for a good time, and if they learn to take good care of their horses, they will have it.

Half the work and thought used in this war could make the world an Eden, in normal times.

A FUTURE WORLD

World reorganization has now for the first time become possible. This is the view of H. G. Wells, who is not only one of the foremost of British novelists but one of today's major prophets. In his new book, "Phoenix," not yet out but expected shortly, he says that three conditions must be fulfilled if, after the war, the world is to avoid disaster.

Federal control of transportation, affecting the whole world and general disarmament are the first necessary conditions. Then there must be federal control, likewise covering the world, of raw materials. Finally there must be a world declaration of human rights, such as those enumerated in the Declaration of Independence and in the first ten amendments to our constitution.

This presupposes a world federation, a sort of United States on a larger scale. And just as a new city charter, reforming the frame of government, has often succeeded only when backed up by a militant group of public-spirited citizens, so this world federation must be supported by a group of men and women who will actively work to defeat war and establish world progress on a lasting basis.

DON'T SIT UNDER THE RUBBER TREE -- SHAKE IT!

The greatest hunt of all time now begins. It is the search for old, scrap rubber in the jungles of American garages, barns, basements and coat closets.

The quantity stored and largely forgotten in such places is estimated as somewhere between 800,000 and 10,000,000 tons.

Although it sounds improbable, there might be enough forgotten rubber, when assembled and renovated and added to the artificial rubber now produced in growing quantities, to see us through a war as short as we hope this war will be.

It is easily seen that this statement is just "figuring." There can be no doubt, however, that immense quantities of old rubber are lying around almost everywhere in this easy-going country, and that it is time to collect them and turn them in. Every old tire will help to shorten the war; every forgotten pair of rubber boots will make another Allied victory easier.

So there is to be a grand shaking of the rubber tree, an overhauling of junk yards and a national searching of public and private storage places for old rubber-bearing tires, tubes, hot water bottles, rubber raincoats, rubber shoe heels, rubber gloves, rubber pipes, rubber doorknobs, rubber washers, rubber caps and a hundred other forms of this precious substance.

Anyone who takes a fresh look around may be astonished at the riches lying unnoticed everywhere in this wasteful land.

And it is only fair to give Franklin D. full credit for the thoroughly sensible rubber hunt he has personally ordered. All his lieutenants could think of was the INDIRECT thing -- such as rationing gasoline in areas where there is more gasoline than we know what to do with -- thus choking and locking the wheels of one of our greatest and most essential industries and thereby creating confusion, doubt and fear and more unnecessary idleness.

We have an idea that our busy, heavily burdened world war president is beginning to do even more of his own thinking; that he is scrutinizing his aides and their ideas a bit more carefully than in the past; that, in short, some of the impractical, hard-boiled minds that have drifted to his side may soon be retired to private life and given an opportunity to volunteer for physical war effort rather than lol in cushioned chairs and conjure up assinine suggestions for the winning of the war.

From now on--in this and everything else pertaining to the war--let's back our commander-in-chief, the president of the United States, 100 percent in the terrific battle that is being waged against Hitler and Hirhito. Don't sit under the rubber tree--shake it!

Campaigns Against Liquor and Racing

HAL H. COLLINS of Mineral Wells has opened his campaign for the office of governor of Texas on a platform which opposes the return of race track gambling and favors more stringent control of the sale of whisky and beer in the state. Collins, a Mineral Wells hotel man, is touring the state in company of Senator W. Lee O'Daniel, to save rubber and gasoline.

YOUR RUBBER SCRAP WILL BOUNCE A JAP

HOUSTON, June 16. -- More than 1,000 Humble service stations and dealer outlets in Texas opened their doors Monday morning to receive scrap rubber in co-operation with the nation-wide rubber salvage campaign announced by President Roosevelt on Friday, June 12, and undertaken by the nation's petroleum industry.

One cent a pound is being paid for any and all scrap rubber brought to the stations. Reclaimable rubber which is acceptable include all kinds of rubber except battery boxes and parts thereof, and tire beads. All metal, wood and leather should be removed from such articles as leather shoes and baby buggy tires.

The scrap rubber will be sold to the government for \$25 a ton and the profit of \$5 a ton, as well as the entire proceeds from scrap rubber donated will be divided equally between USO, Red Cross

and army and navy relief funds. Humble last Friday organized its entire field forces into a coordinated scrap rubber gathering force. Each of its five sales districts in Texas has been divided, with the district manager handling half and his assistant handling the other half. All bulk agents are supplying trucks to haul the scrap rubber from the service stations to central dumps.

The company will hang a large banner at each of its outlets to remind passersby that the station is a receiving center and to urge that scrap rubber be brought in for sale. A special portion of the company's regular advertising in daily and weekly newspapers will also carry the message under the heading: "Your Rubber Scrap Will Bounce a Jap."

Cooperation with civic clubs and other organizations in every community is being sought during the two-week drive to gather every available pound of rubber in an effort to "recover the miles in scrap rubber piles."

FATHER'S DAY June 21 GIVE DAD Gifts That He'll Enjoy On His DAY

June 21 is more than just an ordinary holiday. It is the one day of the year that has been set aside to honor "Dad"! It is your chance to do something for him. Take him out to dinner. Take him to enjoy a show. Give him a book he's been wanting to read. Give him gifts that he likes. Wearing apparel; shirts, ties, hose, handkerchiefs, lounge robe, sport jacket. Luxury items; pipes, cigars, cigarettes, pipe rack, electric shaver, military set, hair tonic.

And there are many other items that Dad would like mighty well to receive. The above mentioned items are standard items. Owing to his particular taste, there should be hundreds of other items that you may see advertised that will give you an idea of how to bring happiness to Dad.

It may be that he is a fisherman --- then that will open up a wide avenue of possibilities. It may be that he enjoys working with tools, in his shop or in his garden . . . The hardware store or the tool shop will give you ideas.

Dad likes things in the home. He loves little furniture items that add to the comfort of home and his hours of relaxation after work hours . . . See the furniture lists. Watch the ads.

What about his golf sticks? You could have his car washed and lubricated or the battery recharged.

Perhaps the motor needs tuning up or the carburetor adjusted. What about his radio? Does that give you a thought?

And there are many jewelry items that will appeal to Father. How about his watch? a new one --- or the wrist band for it?

Watch the Cisco Daily Press for Father's Day suggestions for Sunday, June 21.

## SOCIETY and CLUBS

### THE NOTEBOOK

Wednesday  
Special prayer service will be held in First Baptist church parlors for U. S. enlisted men, at 4 p.m.

### Vacation B. S. Enrollment Is Much Increased

The daily vacation Bible school began Monday at the First Baptist church with an enrollment of 58; today the report shows an enrollment of 94 pupils. Mrs. D. Ball is instructing a class of girls in knitting, and Sim Ledford is giving handcraft instruction to a class of boys. Mrs. W. W. Fewell, superintendent, is well pleased with the way the school has started and appreciates the cooperation she has been given.

Other instructors are Miss Eugenia Jackson, Mrs. J. R. Burnett, Mrs. Mack Reed, Mrs. G. B. Langston, Mrs. Otis Skiles, Mrs. Paul M. Culp, and the secretary, Mrs. Chas. Farquhar.

### Picnic at Lake Friday Honored Pvt. Dick Spoon

A picnic was held at Lake Cisco Friday evening by relatives and close friends, honoring Dick Spoon, who left Saturday morning for Orlando, Fla., where he is stationed with the U. S. air base. He had spent the past week with his parents, Mr. and Mrs. W. C. Spoon, and other relatives. A basket picnic lunch consisting of many delicious viands, was spread on the park tables near the lake.

Skating and swimming entertained members of the party during the evening, while conversation held the attention of others.

Enjoying the picnic together were Private Dick Spoon, Mr. and Mrs. W. C. Spoon, Marvin Spoon, Cisco; Mr. and Mrs. Jack Johnston, Goldsmith; Miss Opal Fenley, Albany; Mr. and Mrs. S. T. Bains and sons, Randolph and Earl; Mr. and Mrs. W. G. Gentry, Mrs. Delma Gentry, all of Harpersville.

### Legion and Auxiliary Have Fine Picnic

A most enjoyable picnic was held on the lawn of the Chas. Roberts' home Monday evening when members of the American Legion local post and auxiliary unit members met on the brilliantly-lighted lawn and spread picnic lunches.

Following the meal, the picnickers held the opening period of their meetings on the lawn. Rev. J. R. Wright led the prayer, after which the salute and pledge to the flag was given. A program was presented by three boy scouts, Bill Morrison, Joe Tom Poe and Edwin Jackson, in which each one told something about our flag. Joe Tom Poe then gave a reading "The Unfurling of the Flag."

Members of the auxiliary then went into the house for their business meeting, while legion members held their meeting on the lawn.

Legion members attending were J. T. Eggen, W. R. Huestis, Sim Ledford, Rev. J. R. Wright, H. N. Lyle, Leon McPherson and Chas. Roberts; auxiliary members present were Mrs. J. J. Tableman, Mrs. D. L. Langston, Mrs. D. J. Gorman, Mrs. H. N. Lyle, Mrs. W. R. Huestis, Mrs. J. R. Wright, Mrs. Leon McPherson, Mrs. D. J. Gorman, Mrs. N. M. Phillips, Misses Letha Estes, Fern Huestis, Betty Jean Phillips, Betty Jean Gorman and Mrs. Roberts.

### MRS. THOMAS TO PRESENT PIANO PUPILS

Mrs. A. L. Thomas will present her piano pupils in recital at the First Baptist church next Friday night, 8:30 o'clock.

They are Louise Norris, Verna Doyle, Margie Lavender, Roy Lee George, Patsy Agnew, Wilma Lee Thomas, Jane Huston, Dorris Lee Hall and Juarice Jones.

### Request Is Made By Co-Chairman

All finished garments must be turned into the Red Cross workroom Wednesday, stated Mrs. W. W. Wallace, co-chairman of Eastland county, today. The garments will be taken to Eastland Wednesday afternoon as request has been made for them. Response of Red Cross workers has been greatly appreciated and much has been accomplished by the local unit.

## APPLESAUCE MUFFINS

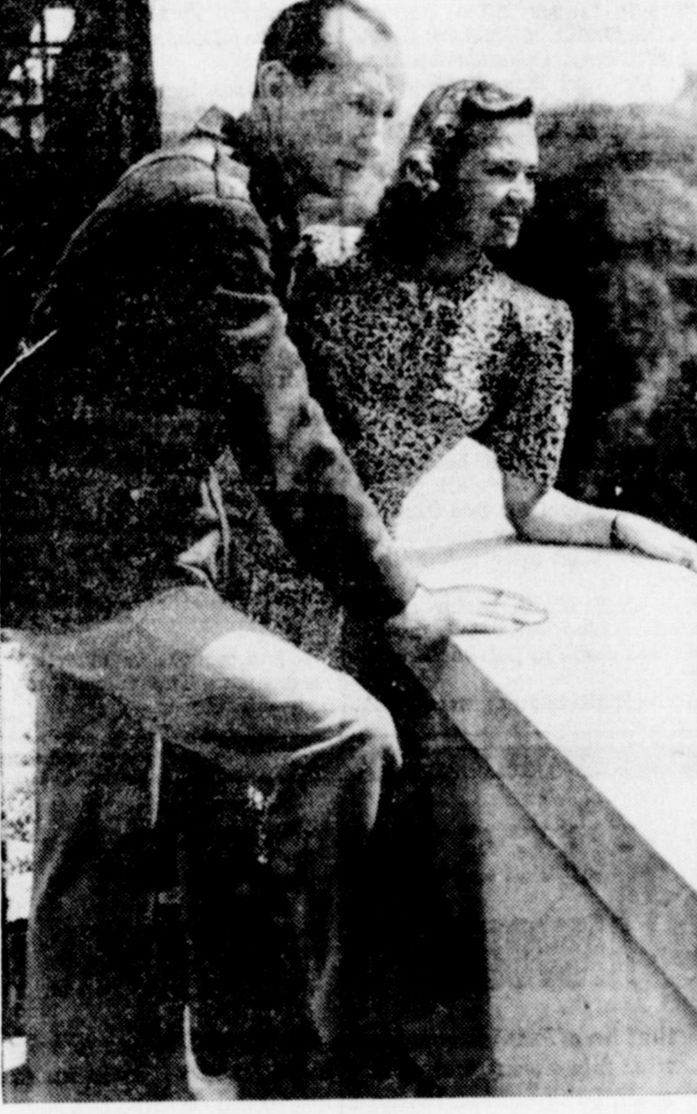

APPLESAUCE Muffins, split while they are smoking hot from the oven and spread generously with butter or fortified margarine bring all the blush-pink fragrance of new apples to the table. Lagging summer appetites will welcome them served with crinkly green salads crisp from the refrigerator for lazy-day lunches.

For more elegant meals or for just comfortable porch suppers, the kind for which every member of the family prisms despite the humidity, Applesauce Muffins make a delicious dessert. Fruit muffins make a bee-line to dessert position on the menu, but they go easy on the family's precious sugar ration.

Enough sugar to make the applesauce for these muffins is no problem with corn sirup or clover honey on the homemaker's shelf. For a tempting muffin, the kind with a refreshing, not-too-sweet and not-too-tart flavor, the applesauce should be sweetened with a sparing hand.

Yield: 2 1/2 dozen small muffins.

CUPID SPANS AN OCEAN—She's English and he's American, but Cupid didn't care about that and consequently Major Walter Currie, U.S.A., of Greenwich, Conn., will soon be wed to Miss Gabrielle Brune, British actress. They announced engagement in London.

How much is it worth, Mister? No matter how large or small the amount of scrap rubber you can gather, operators of more than 1,000 Humble service stations and dealer outlets in Texas will weigh it and pay one cent a pound cash for it. This is being done in cooperation with the scrap rubber reclamation campaign now being carried on by the petroleum industry all over the nation.

## T. AND P. MAN TAKES ON AN IMPORTANT JOB

W. T. Long, Jr., superintendent transportation of the Texas and Pacific railway, has been appointed deputy associate director, office of defense transportation, effective Friday, June 12.

The office of defense transportation was created by executive order of President Roosevelt on December 18, 1941, with the Hon. Joseph B. Eastman, chairman of interstate commerce commission as director. The office was created to assure maximum utilization of the domestic transportation facilities of the nation for the successful prosecution of the war.

W. T. LONG, JR.

Further, it is set up to coordinate the transportation policies and activities of the several federal agencies and private transportation groups in effecting such adjustments in the domestic transportation systems of the nation as may be necessary.

The office of defense transportation will maintain close liaison with the armed forces in order to insure prompt and proper movements of troops and supplies.

Within the office is a division of railway transport, of which Mr. Long will be deputy associate director. It will be his duty to cooperate with the various railroads throughout the southwestern area, and with the army, navy, and marine corps and their respective air forces in the efficient handling of their transportation problems. He will also assist in coordination of rail-truck transportation.

The penalty of paternalistic government is that in time of crisis the people leave everything to papa.

## JESSE PENN ANNOUNCES ONCE MORE

that he offers his services to the United States to help win this awful war that we are in now. It is up to us and the United Nations to win out in the end.

**Jimmy Doolittle, the Aviator, Once in Cisco.**

Jimmy Doolittle who bombed Japan's capital was in Cisco one time, just before my son, Dump Penn was killed, and after an examination passed Dump as O. K. He told Dump that he might put him on the air with him most any time. If my dear boy was alive now he would be with Mr. Doolittle right now.

I can run a plane very well. I might be able to help give Japan one good healthy bombing.

**I WILL GO ANYWHERE OUR GOVERNMENT CAN USE ME** if they will take care of my daughter, Sally Bell, the rest of her life if I am killed and while I am gone.

I have already done some service. I turned down some applicants for jobs in New Jersey ammunition plants, who had given my name as reference. They did not look good to me because we must be mighty careful, since we might get blown up.

Yours truly,

## WEBB OF CISCO TO DANCE IN RELIEF SHOW

News from Camp Wolters is to the effect that Private Stanley W. Webb of Cisco has been chosen to dance in the chorus of "Life Begins at 5:30." Camp Wolters soldier-produced army emergency relief show soon to tour Texas cities.

Private Webb is assigned to Company B of the 62nd battalion. Cisco friends knew Webb could sing, but say he has been holding out on them as to his dancing ability.

## CATTLE MARKET

The cattle and calf market at Fort Worth Tuesday was unevenly steady to higher. Good and choice fed steers and yearlings sold strong to 25c higher. Cows were fully steady. Bulls held firm. Slaughter calves were fully steady with a few sales of choice heavy calves strong to 25c higher in sympathy with the improved yearling market. Good to choice stockers continued fully steady to strong. However, grassy steers and yearlings on the stocker order were dull.

Hogs were mostly steady with Monday at an extreme top of \$14.10 while packers paid up to \$14. Packing sows were steady to 25c lower.

The few sales reported early in the sheep yards were unchanged. Good to choice fed steers and yearlings ranged from \$11.50 to \$13.50. Sales included one load of mixed yearlings at \$13.50 and two loads of steer yearlings at \$12.25. Medium grade grassy and short red steers and yearlings cashed at \$9 to \$11 with common grassers at \$7.50 to \$8.50.

Good beef cows brought \$9 to \$9.75 with butcher sorts at \$7.75 to \$8.75 and canners and cutters mostly \$5 to \$7.50. Good heavy bulls turned at \$9 to \$9.75 with one load at \$9.50. Medium grade, medium weight bulls cashed at \$8 to \$8.75. Common lightweight bulls sold at \$7.25 to \$7.75.

Good to choice fat calves ranged from \$11 to \$12.50; common to medium slaughter calves at \$8.75 to \$10.75; and culls at \$7 to \$8.25. Good to choice stocker steer

calves sold mostly at \$11.50 to \$14. However some extremely light steer calves sold with cows at prices upward to \$16. Good and choice heifer calves cashed at \$13 down.

## AXIS CLAIMS 20 BRITISH SHIPS SUNK

LONDON, June 16.—The Axis today claimed to have sunk or damaged between 20 and 30 British warships and merchantmen and admitted loss of three Italian warships sunk or damaged in a great Mediterranean battle "in

which United States probably participated. Two Allied convoys—moving west from Alexandria and east from Gibraltar—were attacked by Axis warships, submarines and airplanes in a day battle ending Monday night, according to the Berlin radio. British sources issued comment except London radio recalled that naval claims "always have well wide of the mark."

"The convoy on route to Alexandria to Malta consisting of freighters convoyed by 43 vessels, probably including United States battleships, cruisers and other naval vessels, was reported to have been sunk or damaged in the Berlin radio said, according to the Trans-Ocean Agency from Rome.
