FIVE-DAY RUBBER HUNT YIELDS 91 1-2 TONS

LABOR SECRETARY BLASTS JNO. SMITH FOR HIS ANTI-STRIKE BILL; SMITH REPLY INTERESTING

Berry Acreman, secretary of the Federation of Labor, has a good salary from his job because of his ability in branding as a union laborer. "All state leaders, or aspirants to state leadership, do not accept union membership and the closed shop as a condition of employment."

YOUNG PEOPLE IN CAMP

The pioneer conference for the Presbytery of Fort Worth will be held at the Presbyterian campgrounds at Lake Cisco starting Monday and continuing till Saturday.

This is for young people between the ages of 12 and 15 years and more than 100 are expected.

Rev. Clifford Williams of Haskell will be the director of the camp, assisted by Miss Ruby McDurmon of Cisco as religious education director.

With these there will be a specially trained corps of teachers and workers. The activities will consist of worship periods, class work, athletics and swimming.

Rev. Gary L. Smith is the business manager and E. P. Crawford the treasurer.

The following week the encampment for senior young people — 15 through 17 years — will be held at the same place. Last year there were 80 young people here in this group.

Senator Smith said, Berry Acreman has blackened my name because I sponsored a strike bill in the last session of the legislature.

Senator Acreman's opponent, State Senator John Lee of Throckmorton, candidate for lieutenant governor, in the following manner:

Smith has been anti-labor since he was in the senate last year.

Smith's Answer.

DIRECTOR KLEINER PRAISES BOY SCOUTS AND OPERATORS OF SERVICE STATIONS; LOTS MORE YET

Returns compiled by John H. Kleiner, who is directing the Eastland county Scrap Rubber Hunt, reveals that 91 1-2 tons of the precious substance has been corralled for the United States government in this county during the 5-day search by patriotic operators of filling stations and enthusiastic Boy Scouts.

Of the local filling station operators, J. B. Pratt, Cisco agent for the Magnolia company, is the blue-eyed boy at this moment, having checked in 14,524 pounds of scrap early Saturday morning. Pratt's closest competitor is the Humble Oil company.

The hunt will continue through June 30 and Director Kleiner is confident that the final total will be far and away in excess of the amount checked in Saturday morning.

"Scouts and filling station men are working hard," said Kleiner, who has sidetracked his oil business to shake the rubber tree, "and deserve praise for their efforts. Little scrap has been brought in from the rural areas yet, because farmers are busy in their fields."

THIRD STAND PIPE

The foundation for the erection of another standpipe to augment Cisco's water storage facilities is under construction on College Hill, just southwest of the boys' dormitory of Cisco Junior College.

According to Mayor G. P. Mitcham the new unit will have a capacity of 50,000 gallons of water.

Sheet iron salvaged from the standpipe that formerly stood on what was once known as Calhoun Hill, overlooking the business district, will be used in constructing the new standpipe. This is in good condition, Mr. Mitcham says, although some reinforcements may be necessary for the lower rounds of the big water container.

The new standpipe will be used as an emergency storage, in case something should happen to the present two-storage plants — one in the southern section of the city, near Humbletown, and the other in the southwestern area of Cisco. At the same time the new tank will increase the water pressure now existing.

As soon as the tank is completed, which will probably be about the middle of July, the two other tanks will be emptied, one at a time, and cleaned and repaired. The new tank will then be used only to stimulate pressure and in emergencies, the mayor explained.

SINK JAP SHIPS

LONDON, June 20.—British submarines have sunk three large Japanese ships in the Straits of Malacca, the admiralty announced Saturday.

LARGE NUMBER SIGN

In compliance with the request of Judge Cyrus B. Frost, Eastland county chairman of the Federal War Bond drive, R. L. Ponsler, Cisco city chairman, opened an office in the Reynolds Building Annex Saturday for the convenience of those of the Cisco area who wanted to voluntarily comply with the request of the government that all sign monthly or weekly pledge cards for the duration of the war.

A large number of people came in response to the announcement carried in the Cisco Daily Press of Friday and made substantial pledges for the year.

Mr. Ponsler stated that many people would have to be seen personally in order that Cisco's quota might come up to expectations and its total reach the amount necessary for Eastland county to go over the top.

SWEET WATER MINISTER IN MEETING HERE

L. N. Moody, Sweetwater minister, is doing the preaching at the gospel services now in progress at the Church of Christ. The visitor is a plain, practical speaker and is very interesting, says J. A. Kriess, one of the church deacons.

Services are now being held only in the evening, at 8:30, but day services may be introduced later.

Mr. Kriess, speaking for the church, extends a cordial invitation to the Cisco public to hear the visiting minister.

FATHER OF 14 KILLED

LOWELL, Mass., June 20.—On the eve of Father's Day, Barney J. Dussault, 48, father of 14 children, died Saturday of automobile injuries.

FOURTH OF JULY WILL BE BIG DAY AT LAKE CISCO; ARMY MAY SEND BAND, MEN FROM BOWIE

Carrying out desires expressed at a recent chamber of commerce meeting that Cisco continue its annual custom of a Fourth of July celebration at Lake Cisco, Mayor G. P. Mitcham and P. R. Warwick, secretary of the organization, visited army officials at Camp Bowie Friday pursuant to securing a military program for National Independence Day.

The Cisco officials were very courteously received and their request given consideration. Officials stated they would be glad to cooperate and said it was very probable that sections of infantry, machine guns and batteries would be sent, and that they would be glad to lead in a parade through Cisco preceding the day's activities.

Letters have accordingly been directed to headquarters of the VIII Army Corps, asking for this cooperation.

It is barely possible said military band will accompany the army group, a probability that would add much to Cisco's program for July 4, if realized.

Meanwhile, plans are maturing for the usual celebration for that day, and interesting features will be provided to entertain the usual large crowd that comes to Cisco's recreational center because of its natural facilities for boating, fishing, swimming and other forms of entertainment.

RRITES FOR MRS. ALLEN TODAY PUEBLO CH'RGH

Mrs. J. D. Allen, 78, died at her home northwest of Cisco Saturday afternoon at 2:30 o'clock. Funeral services will be held this afternoon at 3:30 o'clock at the Pueblo Baptist church, with burial in the old Dennis cemetery, south of Moran.

Mrs. Allen had lived in the community where she passed away since 1905, and is survived by her husband and eleven children and numerous grandchildren. Among the survivors are Mrs. J. E. Burnam, a daughter, and Mrs. R. B. Lane, granddaughter, both of Cisco.

FLOURNOY AND FAMILY MOVE TO AMARILLO

The Cisco Daily Press is authorized to announce the withdrawal of James L. Flournoy from the race for county commissioner, precinct four. This will leave the race open to Arch Birt, candidate for re-election.

In announcing his withdrawal, Mr. Flournoy made the following statement:

"Because of an attractive business offer on a government project at Amarillo, my family and I will take up residence in that city at once. For this reason I am withdrawing from the race for county commissioner.

"At this time I desire to sincerely thank my many friends for their pledges of support. I leave the race with real regret, feeling that had I been elected I would have been able to serve the taxpayers of this precinct in a thoroughly satisfactory manner. However, I would be doing myself and family a grave injustice did I not accept the unusual offer mentioned above.

"Thanking you again and with best wishes, I am,
 Respectfully yours,
 JIM FLOURNOY."

Mr. and Mrs. Flournoy and their 18-year-old son, James, will be missed by many close friends here. Mr. Flournoy came here in 1918, while Mrs. Flournoy—daughter of Mr. and Mrs. F. M. Hooks—has lived in Cisco since early girlhood. The son was born here. They are members of the First Christian church and have been prominent in business and social circles.

GOVERNOR NAMES REGENTS

AUSTIN, June 20.—Governor Stevenson Saturday appointed W. Scott Schreiner, Kerrville merchant, and D. F. Strickland, Mission attorney, to the University of Texas board of regents. Schreiner will fill the unexpired term of Fred C. Branson of Galveston, who died recently, while Strickland will replace former State Senator E. J. Blackett, whose resignation the governor has received.

DONHAM AND HILL INJURED

News has been received in Cisco that Second Lieut. R. D. Donham and Marcus Lee Hill Jr. have been released from the base hospital at Williams Field, Chandler, Ariz. The young men are bomber instructors and were injured recently in a plane accident.

On Sunday, June 7, Donham and Hill were flying in formation in a routine training flight near Coolidge, Ariz., when Donham "peeled off" a little too soon and crashed into Hill's plane.

Donham and the enlisted man riding with him bailed out, but Donham, because of a broken parachute strap, narrowly escaped death. He landed on his head and was completely out of action and suffered severe friction burns in the bends of his knees.

The enlisted man with Lieutenant Hill was killed. Hill remained in his plane for a time while trying to land his companion, but bailed out when he found his ship was completely disabled. Hill suffered minor cuts and bruises.

The third plane of the formation was uninjured. Lieutenant Hill is the son of Mrs. Minnie L. Hill of Cisco, while Lieutenant Donham is a son of Mr. and Mrs. W. T. Donham, who reside near Cisco.

NEGROES OF TEXAS PLEDGE FULL WAR AID

AUSTIN, June 20.— Full cooperation in the nation's war effort was pledged Friday by Texas negroes, during Emancipation Day ceremonies in Austin.

A resolution adopted by members of the Texas negro citizens committee declared "we want to defeat Hitler because Nazi slavery threatens our onward march to full freedom."

SADLER MAKES UP HIS MIND SOME MORE

AUSTIN, June 20.—Jerry Sadler, political playboy, was back in the news again Saturday, with the announcement that now he is going to be railroad commissioner again.

Sadler, who is now a lieutenant in the army, several weeks ago set off a political furor when he announced after Governor Stevenson had refused to accept his resignation that he was "vacating" the office.

In a letter to Stevenson, which the governor made public Saturday, Sadler said that when he first tendered his resignation that "I sincerely desired to be released from the burdens of that office" to devote all his time to his army duties.

However, Sadler said, his resignation "is withdrawn and I shall continue to serve out my full term as Railroad Commissioner of Texas."

The letter was signed "Jerry Sadler, Railroad Commissioner of Texas."

Vacancy Exists.

DALLAS, June 20.—The state Democratic executive committee will stand on its position that a vacancy exists in the State Railroad Commission place from which Jerry Sadler resigned then withdrew his resignation, Chairman E. B. Germany said Saturday.

PRACTICAL PRIMING PAYS

Quite aside from any patriotic urge to collect one thing and another for public purposes, tidiness alone ought to be an adequate incentive for such a general cleaning up as this rather slovenly land has never seen.

It isn't near so bad as it was two or three generations ago, when Charles Dickens looked us over and gave us the Dickens for our frowziness and unsightliness, but it's bad enough. Almost any of the foreign countries our people like to roam around in are neater, if not sweeter.

Canada, right next door and easily accessible, is a good object-lesson. Nearly all the streams in southern Ontario, even those running through cities, are clean enough to drink out of. As for throwing rubbish into them, any resident would have his head nearly jerked off for such pollution and unsightliness as Americans create and endure.

Why can't this country be as neat, or more so, not only publicly but privately? Maybe one-fourth or one-third of our people are orderly, but how about a wave of missionary work among the others?

And no better place could be found to launch such a movement than right here at home, since Cisco will have to do a lot of "brushing up" before it can lay claim to the record once held by being "one of the cleanest and most sightly cities in Texas."

A large number of sidewalks in the business area, for instance, have been taken over by weeds and grass and no one appears to think much about it. Just across the street from our truly handsome, well-kept post office is a humiliating example of what we have in mind.

It is very true that the city has little or no money to spend, for this and many other things the commission would most certainly like to do. However, appearances are still important in this chaotic world and the Daily Press feels some way should be found by civic and service clubs and other public-spirited citizens to at least clean up what might be termed our "front yards."

JAP WEAKNESS

One of the most important things about any army is its morale. In the case of the Japanese, morale is linked with a psychology very different from that of American soldiers. Close observers report that while the Jap troops fight very well under familiar conditions, they do not adapt themselves readily to new situations. This defect may be fatal.

They may have been trained to do certain things in certain ways. And if the American commanders and fighters would only be so kind as to do likewise, everything would be fine for the Japs. But when American maneuvers are executed in an unexpected way, when enemy troops improvise their own tactics on the battlefield, when American fighters facing Japanese soldiers or sailors or flyers fail to fight according to Japanese Hoyle, the Japs are baffled. This is said to occur often in air fighting. The Japs' mental confusion makes it easy for quick-thinking and improvising Americans to get the best of them. Even commanders may suffer from this defect as well as private soldiers and aviators.

So "the best-laid plans of mice and men gang aft agley." Such failure of simple, one-track minds is like the trouble that scientists have found with rats and mice. Trained to follow a certain procedure, and then having the conditions suddenly changed for them, the animals often suffer nervous breakdowns.

DAVIS AND THE NEWS

Seldom has there been such universal approval of an appointment as in the case of Elmer Davis to handle the office of war information. People who listen habitually to news broadcasts are often heard to say that they got

as much from Elmer's three-minute broadcasts as from others several times as long. His judgment of which items are of greatest importance, his clear grasp of the whole global scene, the simplicity and clarity of his reporting leave an impression of first-class newspapering with every listener.

Less fumbling of the news by government agencies, clearer and better explaining to the citizenry, have been badly needed. With Elmer Davis in charge of these matters, great improvements may be looked for.

The patriotic glow a fellow gets from clearing his old tires and tubes out of the garage is something grand. Texans, it appears, will hang up a nice record in the "hunt for scrap to bounce a Jap."

GLORIOUS PAGES

Midway joins with the Coral Sea as another glorious page in American history. The last war added to the book the names of Chateau-Thierry, St. Mihiel and the Argonne—land battles all. Though our present triumphs are naval, those of the future will not necessarily be so. Land action is looming up in this war, and in it our soldiers will play a large part. Though no one as yet knows where, it is not a bad guess that Brest, St. Nazaire and other towns on the French coast will soon be American household words.

Among new war-time discoveries are those unused muscles in the back that you find when stooping over in victory gardens.

LONG BRANCH

J. W. Martin is improving after a severe spell of pneumonia. Mr. and Mrs. Virgil Ghormley and children and Mr. and Mrs. John Foley drove to Abilene Sunday, where they visited in the home of Mr. Foley's sister, Mrs. Joe Davis, and family.

Mrs. Ed Whatley and her daughter and son-in-law, Mr. and Mrs. Harrel Bozeman, from Coleman visited in the homes of Mr. and Mrs. Joel Reed, Mr. and Mrs. Perry Whitner and Mr. and Mrs. George Stowe this week.

The home of Morgan Standlee and his sister, Mrs. Louella Miller, was a place of festive activity last Sunday noon, when a group of relatives and Corporal H. B. Johnson, from Abilene, met for a few hours. As the women prepared the table with lots of fried chicken and all the good things that go with it, including a big freezer of rich ice cream, the men folk pitched washers and engaged in target practice. Those present were: Corporal Johnson, Corporal James McCracken, Mrs. and Miss Elizabeth McCracken, Mr. and Mrs. Standlee McCracken of Cisco, Mr. and Mrs. C. L. Bigby and James Bigby, Eastland; Mrs. Harold Kelly and children, Larry and Barbara Lou, Colorado Springs; Mr. and Mrs. George Stowe, and the hosts.

Mrs. Clinton Milford has been suffering from mumps.

Henry Harris returned a few days ago from Dallas, where he had taken his son, Dale II, to be fitted with an artificial limb. About four years ago the child was severely burned by a gasoline ignition, and in the meantime he has had several amputations due to the injury.

D. B. (Brad) Woods has made application for a place in the navy, it is reported, and he expects to move his family to some point in Oklahoma before taking up his work for Uncle Sam.

The birthdays of Mike Morgan and L. M. Cawley were celebrated jointly with a picnic dinner on the Cawley ranch Sunday. As the

older folk enjoyed a round-table talk, the youngsters had rollicking rides on ponies. Present were: Mrs. J. P. Morgan, Mr. and Mrs. Mike Morgan and sons, Roy, Charles and John, and Mrs. Ross Laird, Okma; Mr. and Mrs. H. E. Reed, Melba Ruth, Frona Harris, Long Branch; Mr. and Mrs. W. M. McCauley, Romney; Mr. and Mrs. Babe Louis and Joe Wayne, Eastland; Jo Frances and Neil and Thomas Milford, Long Branch, and Mr. and L. M. Cawley and son, Max.

Many companies paint the working and non-working parts of a machine different colors, to set off dangerous areas. Tests show that the idea not only reduces errors and accidents, but steps up output as well.

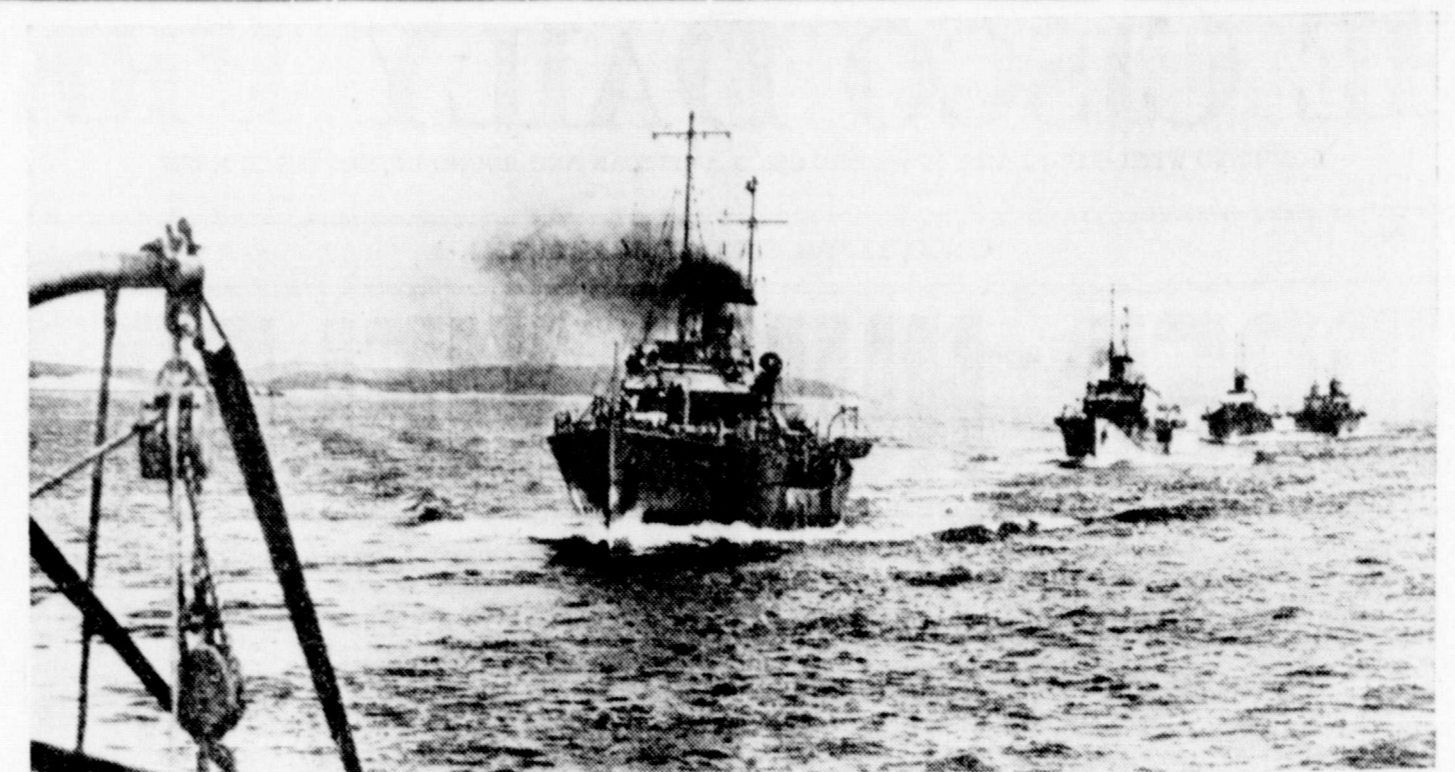

What You Buy With WAR BONDS

Gas masks which came into use in warfare for the first time when the Germans used poison and mustard gas in World War I, are much improved today over those used then. The Chemical Warfare Branch of the War Department issues these gas masks to every man in the service. We are taking no chances.

The type pictured here is the "can" and "elephant nose" mask and costs about \$9.25 each. The headgear is transparent, made of material resembling cellophane and does not cloud with the breath. You can buy two of these gas masks with the purchase of an \$18.75 War Bond. We need thousands of them. Don't fail to give at least ten percent of your income every pay day for War Bonds. Buy them at your bank or postoffice, regularly.

U. S. PLANES ALASKA READY RAID AREAS FOR ANYTHING IN BLACK SEA THE JAPS HAVE

LONDON, June 20.—German and German-controlled radios reported persistently today that a big force of U. S. army air corps planes had crossed Turkey for a second raid in the northern Black Sea coastal area. Berlin and Oslo, Norway, radios broadcast a German Official News Agency dispatch from Ankara that 13 or 14 U. S. planes had flown over Turkey toward the north and that Turkish anti-aircraft batteries had fired at them. These reports said the U. S. planes made the flight across Turkey Friday night. The Vichy Radio put the number of planes at 15.

SPY SIGNALS NAZI SUBS FROM A HOTEL

The Atlantic County judge said he had seen the signals reflected from hotels in Atlantic City and other shore resorts. "The flashing of lights from top-floor windows was visible for miles," he told the twenty-third annual convention of the New Jersey Department, Disabled American War Veterans. "A stop was put to it—I guess it is safe to say that—but whether it is going on elsewhere I am not in a position to say," he added.

ALASKA READY FOR ANYTHING THE JAPS HAVE

SPOKANE, Wash., June 20.—Asserting the "purpose of the air force" is to keep the war from coming to the shores of America, Maj. Gen. Robert A. Olds says the United States "is ready to meet anything the Japs can throw at Alaska, and they know it." "If the air forces do their job properly our land forces need never meet the enemy on our shores, nor need our navy come in contact with the enemy. "I give you the Coral Sea and Midway Island," the general added illustrating his point to the banquet of the Pacific Northwest aviation planning council here Friday night. "We already have had fliers here from Alaska with Japanese planes to their credit. Soon we will be flying great quantities of planes and equipment to Alaska. We are already flying great quantities there. "We are ready to meet anything the Japs can throw at Alaska and they know it."

CATTLE MARKET

Light supplies of cattle and calves sold at steady prices on the Fort Worth stock yards Saturday. Hogs were steady with Friday's average prices, packers paying the day's top of \$14. Sheep receipts were largely made up of canner ewes which cashed at \$2.50 or steady.

active member of the Lobo football team. He also attended Cisco Junior College and was graduated with the 1941 class.

The young couple will temporarily reside near Phoenix at the U. S. flying field.

Before going to John Tarleton college she was rated as an excellent student of Cisco high school, from which she graduated with the 1940 class.

Great interest is being manifested in the Vacation Bible school which begins at Twelfth-street Methodist church at 9 o'clock Monday morning, says the pastor of that church, Rev. Seba Kirkpatrick.

All boys and girls are invited to participate, said the minister, and competent instructors will be in charge.

Complimenting her granddaughter, Patsy Lynn Wagoner, of Odessa, Mrs. Howard D'Spain chaperoned some young friends on a swimming party and wiener roast which was held at Lake Cisco Thursday evening.

After meeting at the D'Spain home the group went to Lake Cisco about 6 o'clock and enjoyed swimming for an hour. They then roasted the wieners, which were served with a picnic lunch on the tables in the park. The group enjoyed the attractions at the lake during the remainder of the evening.

Those included in the party were Misses Patsy Lynn Wagoner and Diane Pierce, Odessa; Carolyn Ducker, Ranger; Bobby Wilson, Bob Donohoe, Miss Ethel Mae Wilson and Mrs. D'Spain.

A quiet wedding of interest to friends in Cisco took place at Phoenix, Ariz., last Sunday, June 14, when Miss Helen Louise Greyrolds became the bride of Lieut. R. D. Donham in a single ring ceremony, at which the pastor of the Baptist church in Phoenix officiated. The bride was attractively attired in a tailored summer blue suit with white accessories; she wore a becoming off-face white hat and white shoes.

Both Lieutenant and Mrs. Donham attended Cisco high school, where they made splendid records. Lieut. Donham was noted as an

MOTOR CAR MAKER TO PLACE GIANT FLYING BOAT IN MASS PRODUCTION

This mammoth sea-going flying boat, the long range of which is a military secret, will transport military supplies to the far-flung war theatres of the United Nations. It will be manufactured on a mass production basis by Nash-Kelvinator, former auto and household appliance manufacturing company, which rapidly is becoming an important unit in the wartime aircraft industry. The famous Vought-Sikorsky airplane works have made two such four-motored flying boats to date by the hand-made method, and Nash-Kelvinator engineers have just finished production plans to make the plane on a mass production basis.

AMERICAN RED CROSS FIRST AID SCHOOL

The American Red Cross First Aid school, which starts next Tuesday night, will be taught two nights each week—Tuesday and Thursday—for a period of 20 hours, with a certificate of completion to be given at the close to those who qualify, says E. L. Jackson, chairman for the area. There will be no cost except for the manual, Mr. Jackson added. The course will be taught by W. C. Dreinhof, who holds instructor's certificates from the American Red Cross and the School of Mines. The course of instruction is open to men and women alike, above the ages of 17. Mr. Jackson said. The class will be limited to 60 persons. If more than that number apply for the course, a second class will be formed. The lessons will begin promptly at 8 o'clock and close at 10. For further particulars, one should contact Mr. Jackson or Edward Lee, Cisco Red Cross chairman.

CITY HEALTH OFFICER REQUESTS RESIDENTS TO TAKE MORE PAINS AS TO CLEANLINESS AND HEALTH

Dr. W. P. Lee, city health officer, has been working very zealously that the city might come up to every standard of being a clean and healthful community, with no flies or mosquitoes to mar the pleasure of living here, nor to endanger health of our families. He finds some have become lax in efforts to keep their premises up to standard, and he takes this occasion to remind all citizens to do their part to keep the city a clean and healthful place. **His Statement.** "I would like to impress upon every one the importance of keeping our town free from filth, un-

usual grass and weed growth, and from the unsanitary conditions often found with reference to garbage disposal.

"Many persons are trying to combine their wet and dry garbage, often trying to burn the wet garbage along with the dry. Again, large oil barrels are used which are too heavy and unwieldy to be handled by the gatherers of garbage. "If wet garbage is placed where dry should be put, it often becomes a breeding place for flies and mosquitoes. Flies love filth and are the greatest menace to health during the summer. "Again, many places have grown

up in weeds, not only the lots, which should be kept from the standpoint of sanitation and for the pride of our city, which is known far and wide as a clean town, but the premises many occupied homes have allowed to grow up in weeds and grass.

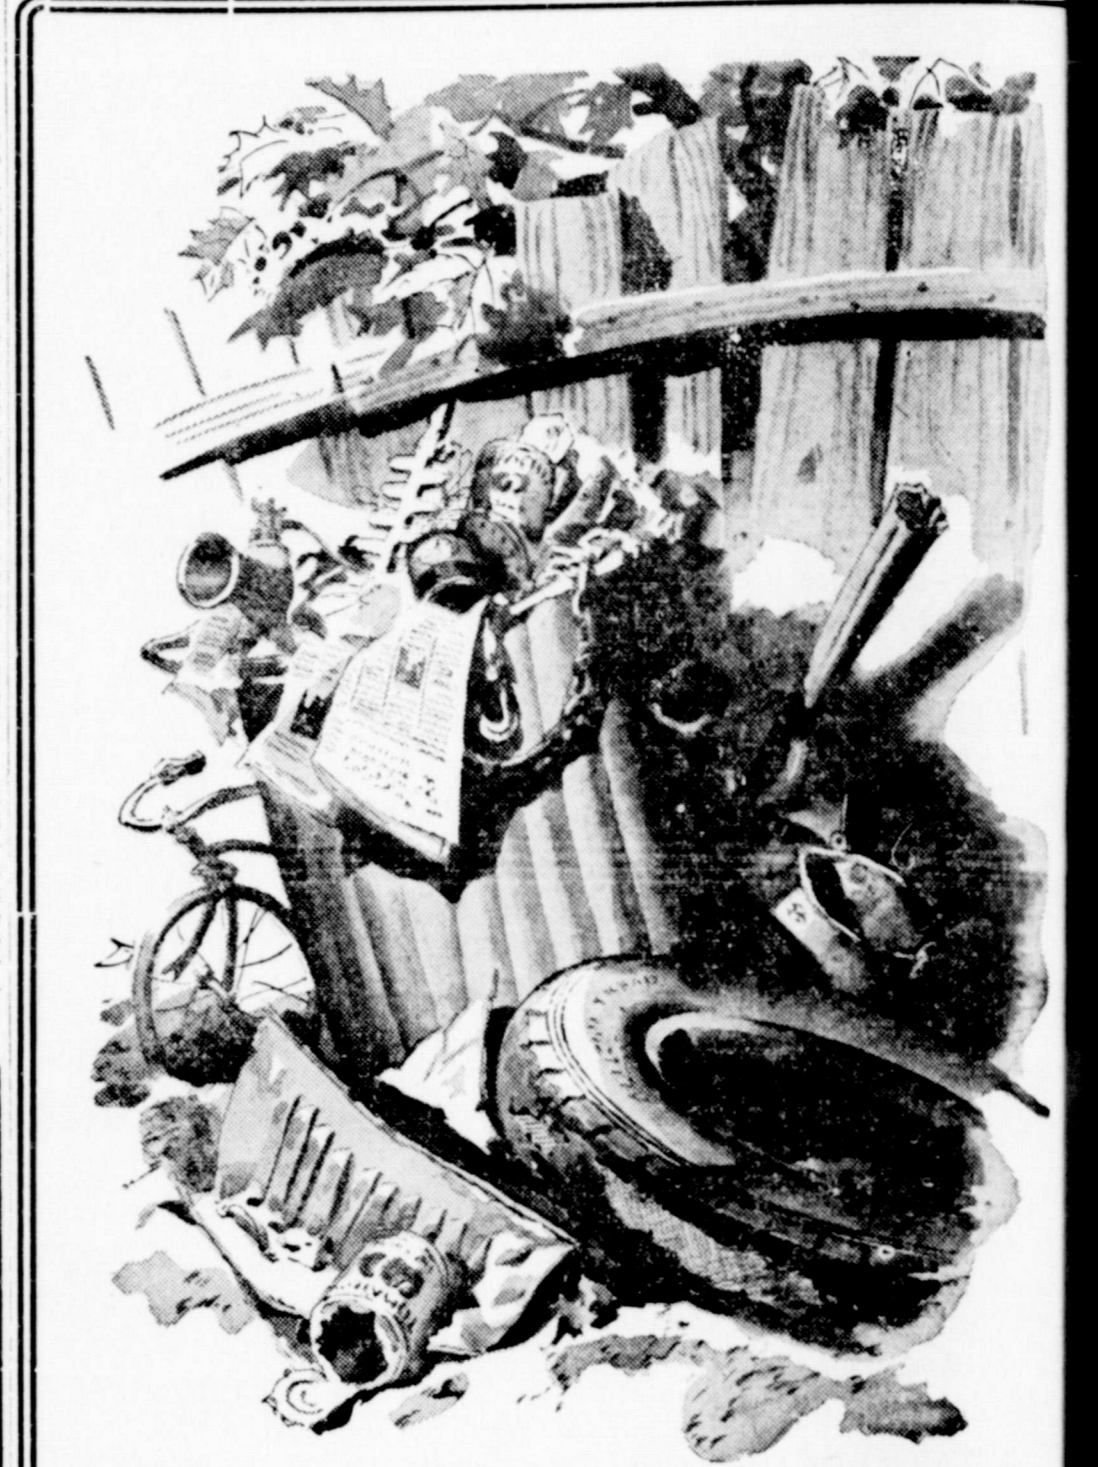

"Let every citizen do his toward keeping the town both from the viewpoint of age and for pride's sake.

"Please remember to keep wet garbage in a small container apart from the dry, and the filth and trash that can be destroyed.

"Yours for a clean and healthy city. DR. W. P. LEE

LET'S GATHER OLD RUBBER

In the old pile of trash in the alley or backyard there may be much valuable old rubber --- just going to waste. And Uncle Sam needs it very badly --- If Texas and other states are to escape gasoline rationing there must be found plenty of scrap rubber for army use.

Service stations and many other agencies are acting as agents for Uncle Sam to gather this old rubber. They will pay you 1 cent per pound if you care to sell it. If you wish to donate you may do so.

Boy Scouts of Cisco and other towns of Eastland county are acting as gatherers for scrap rubber. You may notify your local scoutmaster and his troop will be glad to call and get your old tires, tubes, broken garden hose, rubber overshoes or rubber mats --- anything about the place that contains rubber.

Let's help Texas go over the top with scrap rubber, like she did with scrap tin, aluminum, iron and waste paper.

Buy War Stamps and Bonds to help keep the soldiers armed and supplied with needed materials for Victory.
