GREATEST TANK BATTLE IS RAGING IN RUSSIA

"I therefore believe it is my duty to my Country, to love it, to uphold its Constitution, to obey its laws, to respect its Flag and to defend it against ALL enemies."

NAZIS HAVE CROSSED THE DON RIVER, BUT ARE PAYING AN EXORBITANT PRICE IN LOSS OF MEN

MOSCOW, July 10. -- Units of the German Fourth Panzer army have crossed the Don river, near Voronezh, and bitter fighting now is raging on the east bank, front-line dispatches to the Soviet army organ Red Star said today.

These dispatches reported that a strong German spearhead had reached the key railroad junction of Rossosh, 110 miles south of Voronezh.

At this point, the Germans were only 200 miles from Rostov, key to the Caucasus where a Russian victory turned the tide last fall, and the same distance from the Stalingrad war industry center.

The Soviet noon communique, reporting heavy fighting on the Kalinin front, northwest of Moscow, said fighting raged throughout the night west of Voronezh.

Red Star said the Germans were paying an exorbitant price for each step of advance, and that Marshal Semyon Timoshenko had counter-attacked on a neighboring sector, diverting considerable forces preparing to pour in the break-through across the Don.

Nevertheless, "bitter fighting is proceeding which may seriously affect our position near Voronezh," Red Star said.

The Germans, in probably the biggest tank battle in history, had pounded incessantly at Russia's Don-river defenses for six days, trying to get across, take Voronezh and cut the vital Moscow-Rostov railway.

A new German spearhead thrusting forward around Rossosh, 110 miles south of Voronezh, raised still another threat to the Don Basin.

The Soviet noon communique reported that Russian forces had killed 4,000 Germans and destroyed 27 tanks and five armored cars on the Kalinin front in three days, indicating that the Germans were opening an offensive in that northern sector.

The Germans had thrown 2,000 tanks, hundreds of planes and guns and hundreds of thousands of men against the Russians on the Don river front.

(The Exchange Telegraph Agency said in a dispatch from Moscow that the Germans forced the Don in two places yesterday and hurled 100 tanks on a settlement. A fierce counter-attack stopped the Germans, who tried to throw their main forces across the river with a complete disdain of losses, the dispatch said.)

(The dispatch said the Red army stubbornly was holding positions west of Voronezh and simultaneously fighting enemy tanks and motorized infantry.)

(Exchange Telegraph reported that the Germans continually were bringing up reinforcements of tanks, planes and motorized infantry and that tank battles and dog fights raged night and day.)

The government newspaper Izvestia said: "Mountains of enemy corpses are rotting on the fields under a blazing sun. Dozens of trains are taking the (German) wounded to rear areas."

NELSON SPEAKS TONIGHT

Donald M. Nelson, chief of the War Production Board, will be heard in a nation-wide address over KGKO at 9 o'clock tonight. He will deliver the main address at the annual meeting in Detroit of the Automotive Council for War Production, an organization of 300 leading automotive manufacturing companies formed to expedite the war production effort.

SOME HIGHER LEARNING—Up out of the trenches and onto the roof-tops go these British troops of the Eastern command as they train to take ruins or other obstacles in their stride. This procedure is valuable for mopping up operations of enemy positions.

UNION HEADS GET READY TO START TROUBLE

LOS ANGELES, July 10. — The Congress of Industrial Organizations and American Federation of Labor presented joint demands for greatly increased wages in the aircraft industry to a government-sponsored Labor-Management Stabilization Conference and the CIO-United Automobile Workers simultaneously issued this statement.

"If the results of this conference do not provide the necessary relief then the UAW-CIO views will alarm the reaction of the aircraft workers."

O'DANIEL HERE TOMORROW FOR 1 HOUR VISIT

SEYMOUR, July 10. — Senator W. Lee O'Daniel said Thursday he was glad to have opposition in this campaign because it gave him an opportunity to travel over the state and see "Texas folks again."

The senator reiterated his statement that American democracy is being lost when a man has to pay "\$25 to \$200 for the privilege of working."

This money, he declared, goes to a fund established for Communism and to defeat men who oppose "labor racketeering."

HERE TOMORROW

Senator O'Daniel will be in Cisco tomorrow for one hour from 12 o'clock noon until 1 o'clock. His truck will be stationed in front of the park adjacent to the Cisco postoffice.

ENDLESS LINE OF OIL TANKS MOVING EAST

WASHINGTON, July 10. — Thousands of additional raft tank cars have been made available for long haul service in moving oil and refined products to the East Coast as a result of the order of the Office of Defense Transportation restricting the use of such equipment in hauls of less than 100 miles.

The effect of the order has been to divert products normally carried in tank cars to tank trucks for the shorter hauls, the ODT said, after a survey had revealed that during May 125,000,000 gallons of petroleum products had been moved by tank truck to destinations served in the preceding month by tank cars. This represents approximately 14,200 car loads, the ODT explained, and on the basis of a monthly average of three and one-half hauls of 100 miles or less for tank cars, this volume of traffic would have required the use of 4,000 rail tank cars.

An analysis of subsequent tank car movements, now under way, indicates a far greater diversion of tank car traffic to tank trucks during June than in May, ODT said.

The cars released have been put to hauling petroleum and products into the Atlantic seaboard area and other essential services, according to ODT.

This does not mean, ODT added, that the threat of a fuel oil shortage this winter is removed or that the current shortage of crude oil at eastern refineries is likely to end immediately. It does mean, however, ODT said, that tank cars have been made available to move a large volume of both these commodities into the East.

DR. CARLYON SPEAKS HERE TONIGHT ONLY

With his message tonight on the Book of Revelation Dr. James T. Carlyon, instructor in the school of theology at Southern Methodist university, will bring to a close the deeply interesting and highly informative series of Bible studies he has been giving each evening on the cool lawn of First Methodist church.

Unusual interest has been manifested in all the services, says the pastor, Rev. Leslie Seymour, but there is even greater interest in the sermon tonight on the book which has been given so many widely differing interpretations.

The music for the week has been under the direction of John T. Elliott as leader and Mrs. W. B. Statham as organist.

BARB'R BREAKS RIBS, BUT HE IS SEEING VOTERS

John C. Barber, one of three making the race for sheriff of Eastland county, sustained three broken ribs and painful cuts and bruises in a fall from a ladder recently. However, his injuries only kept him confined at home a few days.

HOGS AT \$14.45

Very light supplies of salable cattle and calves that reached Fort Worth stockyards for Friday's trade found a market about in line with the week's declines.

Most good butcher hogs sold 10c to 20c above Thursday's price with the top of \$14.45 paid by all interests. Packing sows and pigs ruled steady.

In the sheep department Spring lambs were strong with other offerings steady.

One package of choice yearling cattle averaging 970 pounds cashed at \$14. Good fed steers and yearlings ranged from \$12 to \$12.50 and included one load at the top figure. There were 13 loads of fed steers delivered on recent contracts. These were medium to good quality and included three loads at \$11.25, three loads at \$11.50, two loads at \$11.65, and five loads averaging 1,224 pounds that came from Oklahoma and sold at \$12.50. Common grasser cattle sold from \$8 to \$9.50.

Good beef cows brought \$9 to \$9.50; common to medium butcher cows at \$7.25 to \$8.50, and canners and cutters mostly \$4 to \$7. Bull prices ranged from \$7.25 to \$9.75.

Good fat calves sold mostly at \$11 to \$12 with a few choice calves higher. Common to medium butcher calves turned at \$8.50 to \$10.50 and culls at \$7 to \$8.25.

LOTS OF SUGAR IN THE OLD GOURD NOW

DALLAS, July 10.—War Ration Stamp No. 7, starting today, is good for an extra two pounds of sugar, the Office of War Information announces.

This will be in addition to the amounts already authorized for Stamps Nos. 5 and 6, the office said, because sugar shipments from off-shore producing areas have been higher than anticipated.

Stamp No. 5, which became valid on June 28 for the purchase of two pounds of sugar, expires at midnight July 25, and Stamp No. 6, also good for two pounds, extends from July 26 for four weeks.

5 MILES LARGE DIAM. STEEL PIPE DAILY

PITTSBURGH, July 10. — Almost five miles daily of large-diameter steel pipe for the 350-mile petroleum conduit from Longview, Texas, to a point near Salem, Ill., is being produced at the Lorain, Ohio, plant of the National Tube company.

B. F. Harris, president of the tube company, a United States Steel Corporation subsidiary, predicted today that the 137,500-ton government order would be completed in approximately four months.

MONEY IN CIRCULATION IS UP \$2.18 PERSON

WASHINGTON, July 10. — Despite the government's efforts to prevent inflation, money in circulation jumped another \$300,000,000—equivalent to \$2.18 per person—in June.

The treasury said today that coin and currency in circulation outside of the treasury and federal reserve banks totaled \$12,377,119,781, equal to \$92.04 for every man, woman and child in the nation.

Resulting primarily from the huge war spending program of the government, this figure has climbed steadily from \$9,612,375,332 which was \$72.16 per person, a year ago.

Previous records of money in circulation were smashed many months ago, and currently, a new high has been set every month.

YANK BOMBERS ARE BUSY IN ALAMEIN AREA

CAIRO, July 10.—British Imperial mobile columns attacked Axis forces at the southern end of the Alamein line and forced them to move northward toward the coast, a middle eastern command communique announced today. U. S. army air corps heavy bombers, operating in conjunction with British and South African air forces in a devastating offensive, shot down two enemy planes which challenged them, the communique said.

TARRANT CO.'S LAST CONFEDERATE SOLDIER

FORT WORTH, July 10.—R. H. Jones, sole surviving Confederate veteran in Tarrant county, died Wednesday after an illness of more than three years.

Jones, who was born in Hanover county, Virginia, was a member of the Third Richmond Howitzers, Virginia Artillery, during the Civil War. He is believed to have been the last soldier to leave Richmond when it was evacuated and he was with Lee at the surrender at Appomattox.

In 1884 Jones came to Alvarado from Tennessee. He moved to Fort Worth in 1904.

Jones was an active member of the Robert E. Lee Camp Confederate Veterans. He was elected commander of the organization in 1935.

Survivors are a daughter, Mrs. John Sparks, with whom he lived; two sisters, Miss I. Jones and Miss Carrie Jones, both of Richmond, Va., and a granddaughter.

Funeral services were held at the residence this afternoon.

SPINACH KING DEAD.

SAN ANTONIO, July 10.—William Edward Wroe, dead here at the age of 72, was credited with having established the spinach-growing industry in the Texas Winter Garden district and with having been the first producer of ship winter spinach in carlots from that section. Wroe, who lived at Asherton, was a Chicago paper dealer before he moved to Texas.

POLICING THE WORLD

After the last war, the American people were definitely sick and tired of militarism and all that it involved. Working on the theory that "the war of wars" had been finally fought and won, the American people and their government proceeded to scrap their military power with astonishing speed.

The American people seem to think in very different terms today. They, and their leaders in both parties, are coming to realize the immense obligations which our world leadership will impose on us after, as well as during the war.

No one regards this prospect with any particular pleasure. Instead, it is regarded as a matter of sheer necessity, whether we like it or not. And there is the amazing unanimity of opinion as to what must be done.

It will cost a great deal of money to police and to rehabilitate the world. It will require the maintenance of a gigantic air force, and of a very large navy and army.

There are skeptics who doubt all this can be done. Even its zealous advocates admit that it is a colossal undertaking. It will be a journey of economic and social exploration for which there are neither charts or precedents.

A LUMP OF COAL

Take a lump of coal in your hand. It certainly isn't pretty. It doesn't even look useful. But coal is one of those extraordinary products which will revolutionize the world of the future.

Out of coal comes one kind of synthetic rubber—and America's highly-developed coal industry will be an important factor in eventually solving the grave rubber problem.

\$1,000,000,000 A MONTH!

Even in these days, \$1,000,000,000 is a lot of money. One billion a month is a larger sum than the human can visualize. But the people of America must buy a minimum of \$1,000,000,000 a month worth of war stamps and bonds so long as the war lasts.

A release by the institute of distribution, which represents national retail distributors operating 16,000 outlets, gives an idea of the magnitude of the effort. These distributors alone have 185 miles of windows dressed to popularize bonds and stamps.

PRIZE HOARDER

Rumors continue to float around about this woman and that, who is said by somebody who heard it from somebody else's sister-in-law to have been hoarding sugar.

Real hoarding appears in a New Jersey case, now under consideration by federal authorities. This woman had 450 pounds of sugar, 1,000 individual tea bags, 175 pairs of silk stockings and a gross of safety razor blades.

January, 1934

A great concourse of mourning relatives, friends and acquaintances gathered at the First Baptist church here yesterday as funeral rites were said for Robert Lee Poe, 64, Cisco civic leader and pioneer agriculturist, who died Wednesday afternoon after a two weeks battle against peritonitis.

time neighbors and friends of the Poe family, gathered to pay their final tribute to Mr. Poe before his body was buried. There was a brief service there. The Rev. Mr. Skiles was in charge of the burial services. The Rev. Mr. James spoke briefly. "Immortality" was the theme of the Rev. O'Brien's sermon here.

Cisco today lost the county headquarters of the CWA to Eastland. Trucks early today began moving furniture, records and other office equipment from the suites of rooms which the relief agencies occupied in the Judia building as the various departments made ready to transfer their activities to the Slices building at the county seat.

Mary Ellen Noell, daughter of Mr. and Mrs. E. B. Noell and granddaughter of Mr. and Mrs. N. W. Noell, of this city, died this morning at 4:30 after an illness of almost a year. She was a sister of Miss Marjorie Noell, society editor of the Daily News.

Judge J. D. Barker, attorney here for the past 15 years, today moved his law office to Sweetwater where he will establish himself as a practicing attorney. Judge Barker, associated here for several years with Clayton Orr in the firm of Barker and Orr, came to this city from Roby, Texas, in 1918.

Mrs. J. A. Bearman returned yesterday from a visit in Tulsa, Okla. She was accompanied by Tulsa by her daughter, Miss Agnes Bearman, who is a student at the University of Texas.

J. T. Morris, of Goldthwaite, alleged driver of a small coupe which plunged through the wall of the Tickner filling station south of Cisco last night, this morning pleaded guilty to a charge of careless driving in Justice Wilson's court and paid a fine of \$5 and costs. The station is located on a curve on highway 23, about two miles south of Cisco.

J. B. Pratt, vice president of the club, presided at the Lions luncheon today, where talks were made by Joe Farr, manager of the Laguna hotel; Walter Ray, ranchman from north of Cisco; Rev. Frank Turner, who was also introduced as a Lion member; and Dr. David Tyndall.

committee announced today. The program for the banquet has not been completed, but the committee announced that one of the Southeast conference football coaches will be secured for the principal speaker. Sale of tickets is in charge of H. L. Dyer and Jack Anderson. Preparation of the program is in the hands of a committee composed of F. D. Wright, J. A. Bearman and J. J. Collins. Members of the 1933 Lobos football squad and Coach Shelley and Hodges will be the guests of the club members and other business men at this banquet.

their accounts in shape before that time. The City Utilities carries an adv. on page four in this edition of The Record calling attention to the matter. The city council has no other alternative, according to the Mayor, since utility bills come under federal price regulations as "Charge Accounts," and must be handled in the same manner as charge account by any mercantile establishment. Mayor Sneathly believes that the rest of this month should be plenty of notice for everyone to get their utility accounts in shape and states that he would greatly regret to have anyone cut off.

ARMY WAR SHOW DISPLAYS MODERN PARAPHERNALIA

THE LARGE AND THE SMALL OF IT IN FOOTWEAR.

A vivid and dramatic story of the manner in which the Quartermaster's Corps of the United States Army is solving the tremendous task of clothing, feeding, housing and furnishing transport for our great army of freedom is being told in the Quartermaster's Exhibit which is part of the mammoth Army War Show, currently on a five-month nationwide tour to acquaint Mr. and Mrs. America with the modern doughboy and the manner in which he is equipped and cared for, be it in tropical climes or in the far north. On display are a variety of uniforms, field kitchens, living tents, trucks, jeeps, saddlery and other samples of the 323,000,000 items which went to equip Uncle Sam's warriors in 1941. The exhibit has been prepared primarily to tell a reassuring story to the parents and relatives of young men who have gone suddenly from sheltered homes into an army fighting on distant terrains. Here is a cross-section of the exhibit.

CROSS PLAINS

Callahan County

Cross Plains' 61st annual picnic, the oldest celebration of its kind in Texas, will be officially opened Thursday morning of next week, July 16, with an elaborate street parade at 10 o'clock. Members of the local volunteer fire department, sponsors for this year's celebration, say that crowds may be somewhat smaller this year because of tire rationing and other war measures, but the picnic is expected to possess, nevertheless, a well-rounded program of entertainment. Cash prizes are also to be given to winners of the various phases of the parade. Divisions are to be made thusly: Best float, \$5; best team, \$3; best kid pony, \$1.50; second best kid pony, \$1; best decorated bicycle, \$1.50; most novel entry, \$1.50.

Word has been received here that Max Lovett, son-in-law of Mr. and Mrs. J. C. Billingsly, has been elevated to the rank of captain. He is stationed in Australia and is a member of General MacArthur's staff. Lovett and Miss Mildred Billingsly, formerly of Cross Plains, had been married slightly more than a year when the war broke out and he volunteered his services to the engineer corps and ranked as a first lieutenant. Lovett is a graduate of Texas A. and M. college and held a reserve commission. In civil life he was an architect and maintained offices at San Angelo and Brownwood.

Mrs. Charles Neeb sustained a broken leg when she fell at her home in the southwest part of town early Sunday evening. She is in the Coleman Overall hospital at Coleman, where everything possible toward her recovery is being done. Reports yesterday were to the effect that she was resting comfortably. Mrs. Neeb fell as she stooped to remove a pan of water from beneath an ice box. She was unable to rise and no one else was in the house at the time. Mr. and Mrs. R. L. Mitchell, who have rooms at Mrs. Neeb's returned home from church about 11 o'clock and discovered her plight.

J. E. (Jack) Noel, 72, who died at Big Spring Saturday morning, July fourth, of heart attack, was laid to final rest in an Abilene cemetery Sunday afternoon. Private services were conducted from the Elliott Funeral home, with Rev. Willis P. Gerhart, pastor of the Heavenly Rest Episcopal church, officiating. Burial was made beside the grave of Mrs. Noel, who preceded her husband in death by five years.

Miss Lynette Womack of this city and Staff Sgt. Kelsy Starks of Camp Bowie were united in marriage at Rising Star, Saturday morning, July fourth, with the pastor of the Baptist church officiating for the single ring ceremony. Present for the rites were Misses Nadine Copeland and Gracie Lou Helms of Cross Plains and two of the groom's friends from Camp Bowie. The bride is the daughter of Mr. and Mrs. Jesse Womack of Cross Plains.

JEHOVAH FAKIR IS NOW FACING PRISON TERM

DALLAS, July 10.—Lee Bowden Mangum, Jr., 23, member of Jehovah's witness religious sect, today faced a four-year prison sentence for failure to report to his selective service board.

Mangum told Federal Judge T. Whitfield Davidson that he could not report for military service, but breaking his "contract with combatant or noncombatant, without."

Judge Davidson replied that, if all "Americans followed your example, slavery would be the part of our people. It is hardly reasonable that you wouldn't protect yourself under these circumstances."
