## GREATEST BATTLE OF ALL TIME AT ROSTOV

### RED ARMY MAKES LAST-DITCH STAND AT GATES OF THE CITY; FLYING FORTRESSES TAKE PART

The Red Army, aided by American-made Flying Fortresses, began a last-ditch stand in defense of the Caucasus and the Volga valley today, slugging back at enemy assault units in a big battle at Rostov and fighting from more favorable positions along the Don river west of Stalingrad.

"We can and must hold the enemy and inflict cruel losses on him," the Army newspaper Red Star declared in disclosing that Soviet Marshal Semyon Timoshenko's withdrawal to new defenses, presumably on the lower Don as far east as the bend opposite Stalingrad, had been completed.

It was acknowledged, however, that the German advances to Novocherkassk and Tsimlyansk and eastward into the Don river bend, which twists to within 35 miles of Stalingrad, had created an increasingly grave situation and it was feared that the Russians would be unable to hold the gateway city of Rostov.

Dispatches from Moscow said that the enemy advance had encircled Rostov on three sides in addition to pushing another column east of the Donets river to the lower Don at a point half way between Rostov and Stalingrad and a third column into the river bend.

The German communique reported a breakthrough the heavily-mined Russian defenses before Rostov and said that Axis troops were fighting in the outskirts of the city, while Nazi air squadrons attacked nearby communications lines. The Russians did not officially acknowledge any enemy forces closer than Novocherkassk, 32 miles to the northeast on the railroad, but gave the impression that Timoshenko might not attempt to hold the city of 500,000 population against a long siege.

Rostov obviously will be strongly defended to make the enemy pay the biggest possible price, but it lies on the north bank of the Don and all indications were that the Russians would do most of their fighting south of the river.

The first effects of the new Russian stand were reported by the Red Star, which said the enemy had been slowed down as a result of steady, large-scale attacks by the Russian air force, which is using big American-made Boeing and Douglas bombers to blast German tank concentrations in the forward area and to range far behind the lines in raids on communications centers.

The period of Russian withdrawal appeared to be ended for the most part, especially on the lower Don east of Rostov, and fighting continued in the Voronezh sector, on the German left flank some 300 miles to the north.

The Red army at Voronezh reported that it had seized another important point from the enemy, killed 8000 Germans, knocked out 30 more tanks and at some points driven the enemy back into the Don river in bloody battles now raging on both banks.

The possibility of a second front continued to arouse speculation and controversy in London, but Sir Stafford Cripps, speaking for the government, sharply refused any information to questioners in the House of Commons on the grounds that conversations were of the highest military secrecy, coast to coast.

### FRIENDS AND RELATIVES AT UNION OF BAKER FAMILY; ONE 90; YOUNGEST 71 YEARS OLD

Union was held at the home of Mrs. D. E. Mitchell, 1212 Twelfth street, Sunday in afternoon of four members of the family who met for the first time in 40 years.

The oldest of the clan is 90 years of age and the youngest is 71. They are J. W. Baker, Nimrod H. Baker, Pioneer; Mrs. W. H. Baker, Pioneer; Mrs. W. H. Baker, Pioneer; Mrs. N. E. Baker, Pioneer; Mrs. N. E. Baker, Pioneer.

### LAND NEW INVASION FORCE IN NEW GUINEA; BIGGEST THREAT TO AUSTRALIAN CONTINENT

GENERAL MACARTHUR'S HEADQUARTERS, Australia, July 23.—The Japanese have landed an invasion force of about 2500 men in New Guinea in their biggest move so far to the Allied island of Port Moresby and, potentially, the Australian continent, it was announced today.

Small enemy convoys landed troops under heavy and damaging attacks by Allied planes at Buna, on the north coast of New Guinea, 110 miles from Port Moresby, and 420 miles from Australia.

Attacks on the convoys and the area where they landed the Allied planes sank one transport and an invasion force and inflicted heavy casualties on disembarking troops, with machine-gun fire, a tank was shot down, and two fighters were lost.

Their new move, which put them in a stronger position both offensively and defensively, the Japanese advanced their invasion 125 miles down the north coast of New Guinea, and for the first time had invaded the northern part of the island of New Guinea, which makes up the eastern part of the island.

The Japanese have previously, in the Salamaua area, in the Australian-ruled northeastern New Guinea, their new landing point, the Japanese were directly across New Guinea from the Allied advanced base at Port Moresby.

### FIRE BELL STARTS RACE

Fire Marshal Gustafson, who by the way works at his job early and late and who always finds time to lend a hand when he can be of service to city or citizen, respectfully asks the public to be more thoughtful of the fire department following fire alarms.

There is an old saying to the effect that people in small cities usually have one of two habits—they either congregate at the depot when the train comes in or rush pell-mell to fires when the bell rings. The latter seems to have always been the habit of a considerable portion of the Cisco public.

In the recent fire at the Tompkins broom factory, the firemen were again handicapped and life endangered by the rush of thoughtless people to the scene.

### COLOSSAL TAX BILL URGED BY MORGENTHAU

WASHINGTON, July 23.—Termining the tax bill a "decisive battle," Secretary of the Treasury Morgenthau Thursday urged the senate to adopt the administration's recommendations, calling for \$8,700,000,000 additional in war revenues.

Morgenthau appeared as the first witness before the senate finance committee as that group began deliberations on the bill, \$2,400,000,000 short of treasury recommendations in the house-passed form.

He pointed to ever-mounting war spending as the reason for the measure—designed to increase federal revenues to \$25,000,000,000 a year.

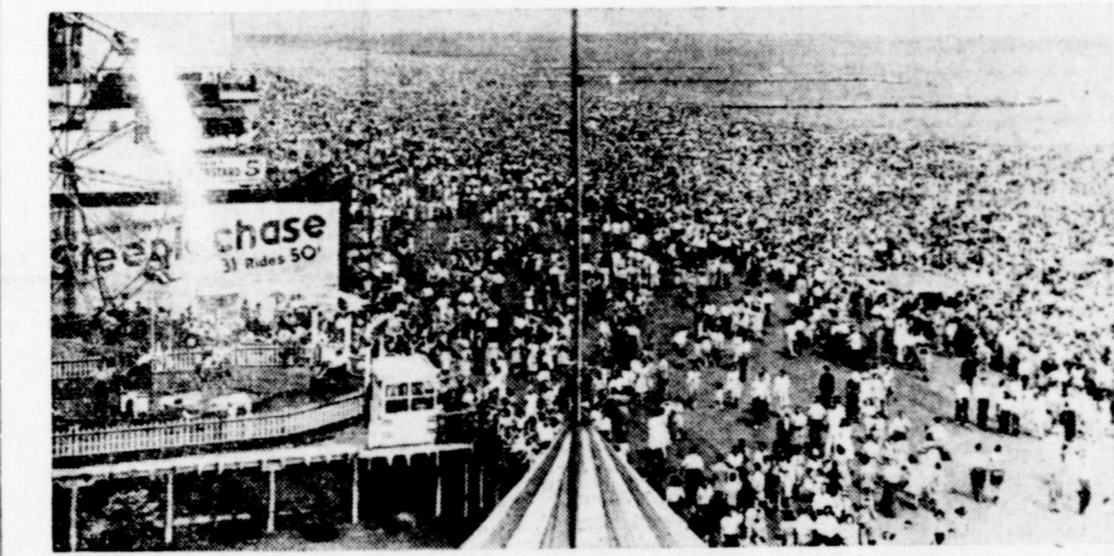

"If our expenditures this year reach \$77,000,000,000," he asserted, "our receipts in revenue from the people must bear some reasonable relationship to that colossal figure."

**U. S. BOMBERS STRIKE.**  
CHUNGKING, July 23.—United States bombers set docks and warehouses aflame and scored three direct hits upon the rail three station at the Yangtze river port of Kukiang in addition to sinking two Japanese ships as previously reported, Lieut. Gen. Joseph W. Stilwell's headquarters announced Thursday.

**U. S. CONTACTS NAZI.**  
LONDON, July 23.—Rear Admiral Robert C. Griffin, commander of a United States naval task force with the British fleet, disclosed Thursday the force had been in action against enemy aircraft.

IN THE PARK AFTER DARK—Among the thousands of New Yorkers who took to the open to escape the sweltering heat, this family trio enjoys the comparative coolness of Central Park where it's getting some much needed sleep after darkness had descended on the metropolis.

IT WAS HOT—With the thermometer in the nineties, millions of New Yorkers sought relief at nearby beaches. Here's throng dotting the beach at Coney Island as old Sol beams down. Crowd extended the full several miles of ocean front, many remaining there far into the night.

### HULL TO SPEAK AT 8:30

Cordell Hull, secretary of state, will speak over WFAA and KGKO at 8:30 tonight.

This will be one of the most important speeches the popular Tennesseean has probably ever made and large numbers of Cisco folk are preparing to hear him.

**HAUPTMANN JUDGE DEAD.**  
TRENTON, N. J., July 23.—Thomas W. Trenchard, 78, who capped a long career on the New Jersey Supreme Court by presiding over the trial of Bruno Richard Hauptmann and sentencing the carpenter to death for the Lindbergh baby murder, died today.

**BRITISH STRIKE HARD.**  
CAIRO, July 23.—Gen. Sir Claude Auchinleck's army of the Nile, attacking simultaneously on all sectors of the El Alamein front for the first time, was reported Thursday to have driven back the Axis center in violent fighting mounting steadily in intensity.

### GLORIA GRAHAM DELIGHTED ROTARIANS TODAY

Dr. E. L. Graham brought the program to the Rotary club today and instead of making a talk, as was expected, presented his daughter, Miss Gloria Graham, in one of her matchless violin numbers, which was encored into three numbers and from the heartiness with which the Rotarians clapped they would have listened to her music indefinitely.

**TRENTON, N. J., July 23.**—Thomas W. Trenchard, 78, who capped a long career on the New Jersey Supreme Court by presiding over the trial of Bruno Richard Hauptmann and sentencing the carpenter to death for the Lindbergh baby murder, died today.

**PROTEST CAUSES CHANGE.**  
Because of protests of citizens, the Ruppert lot on Seventh street will not be used for temporary storage of scrap metal so badly needed by the United States government.

### PROTEST CAUSES CHANGE

Instead, the Norvell lot on Ninth street, near the First Baptist church, has been secured and will be used, said John H. Kleiner, city chairman, this morning.

Metal placed on this lot will be considered as donated to the Red Cross and the local organization will receive the proceeds when it has been weighed and sold to the junk dealer.

**BUTLER ILL.**  
B. A. Butler, well known citizen and editor of the Eastland Record, is ill at his home on Bullard avenue, where he has been confined for several days. Mr. Butler has not been in good health for several months and many friends join the Daily Press in the hope that rest and medical attention will soon round him into his old-time physical form.

**ROUND UP 28.**

### TELLER OF TALES

A writer who has delighted thousands of readers in many countries for a hundred years, has something. Such a writer is Alexandre Dumas, author of "The Three Musketeers" and "The Count of Monte Cristo," who was born in 1802 and whose birthday will be celebrated July 24.

As long as people read adventure stories, so long will they read these tales of Dumas.

For such a popular writer, it is odd but probably true that no one on earth has read all his books. Over 1,200 bear his name. Many of them were written by others under his general direction, some not even getting that. He left plenty of books that people do and will read.

The man himself was as interesting as his books. He wrote plays, served under the Italian patriot Garibaldi, and built himself a fairy castle with every luxury that his mind could conceive. He made and spent fortunes, and was not always particular where he got them. Once he advanced a theory that would just suit Hitler. "All human phenomena," he said, "are public property. The man of genius does not steal, he only conquers. Every one arrives in his turn at his hour; seizes what his ancestors have left, and puts it into new shapes and combinations."

Whatever he took from others, the whole civilized world is today his debtor.

A friend says this looks like a final show-down between God and the Devil. Well, we know which side we're on.

### UNNECESSARY JABBER

Another thing wrong nowadays is too much talk. Especially telephone talk. The mayor of a Texas city tackles that problem by a court order to all city employes to "strip telephone conversations of all pleasantries and colloquial matters." His formula is: "Discuss your business briefly, hang up and give somebody else a chance to use the line." Which of course is always a sign of intelligence and good breeding.

The mayor is not concerned merely with the expedition of public business locally. He observes the "congestion on long-distance calls is occurring, and seriously hampering the army and navy departments."

It should be obvious that reform in the use of the telephone is called for in private life no less than public life. With such an immense amount of abnormal business that has to be transacted by telephone nowadays, there should be fewer private calls made, and the private conversations should be shorter.

In the last war, you remember, the Germans wore themselves out winning victories, then they were mopped up.

### WASH THE FRUIT

The time of year approaches when the dread poliomyelitis begins to show up with a high number of cases. Some years the situation verges on epidemic. The more physicians study this disease, the more they are inclined to advise people to wash off all fruit skins carefully before the fruits are eaten. It is just possible, they say, that the cause of the disease—be it germ, virus, wild yeast or whatever—lives or is carried on the skins of fruits.

### WHERE DO WE EAT?

The restaurant man is not having a happy time these days. His help has left him to work in a war factory. The price of his materials is rising. His clientele is increasing rapidly, which in other times would be cause for satisfaction. But with fewer cooks and waitresses, he doesn't know how to get along.

He breaks in new waitresses to the point where they take only twice as long to take care of a customer as the experienced girls he used to have—and then they go, too.

Ray Fling, executive secretary of the Michigan Restaurant and Caterers association, says about five per cent of the Detroit restaurant owners have simply closed their doors and walked off. The rest devise makeshifts as best they can. They install serve-self systems, or they shorten the hours during which they serve meals. They really do not know what to do. Yet more people need to eat than in normal times, because so many women have to do war production work.

Some places which used to serve food and liquor have stopped serving food. This doesn't help the community much, nor the war effort, either. A good solution to the problem as a whole does not yet appear.

Customers can help, says Fling, by ordering quickly, leaving as soon as they are through and by being as patient as possible. "Patience, lovely virtue!"

### HAS TIME TO LOOK

The old wagon rocks as it rolls along. And the night birds join in the driver's song: With his living friends (not gas) he gives not a thought to the speed per hour.

As the soft breezes kiss the tree-tops high. And the stars play games in a cloudless sky. He thanks Uncle Sam's rubber rationing. For the chance to look and listen and sing.

—R. L. SCARBOROUGH.

Mr. and Mrs. Noel Simmons of Colony visited Mrs. H. W. Sublett and children Monday. The Dothan Sunday school enjoyed a picnic Monday.

Success is built on small margins. The fastest runner in the world can't run five per cent faster than ordinary runners.

Fit the pan to the can! Don't pour contents of a small can into a big pan for heating. You waste fuel—since the area to heat is larger—and, besides, you add to your own dishwashing time.

The smallest economies are important these days when Uncle Sam needs money. Ten percent of your household budget each week should go toward War Bonds.

### CATTLE MARKET

Cattle and calves were in fairly active demand at Fort Worth Thursday with prices fully steady. Hogs were fully steady with Wednesday's market at an extreme top of \$14.60 while packers paid up to \$14.50. In the sheep yards cull and common ewes were strong to 25 cents higher and other classes fully steady.

Medium to good steers and yearlings ranged from \$10 to \$12.50 with a few choice yearlings held around and above \$13. Common grass steers and yearlings sold at \$7.50 to \$9. Good fat cows ranged from \$7.25 to \$9.25, and canners and cutters from \$7.50 to \$7. Good to choice fat calves sold at \$11 to \$12.50, common to medium butcher calves at \$8.50 to \$10.50, and culls at \$7.25 to \$8.25. Good to choice stocker steer calves cashed at \$11 to \$13 with heifers mostly at \$12 down. Common to medium stocker calves brought \$8 to \$10.50. Stocker steer yearlings sold mostly at \$8 to \$11.50 with some strictly choice feeder yearlings up to \$12.50. Stocker cows went back to the range at \$6 to \$9. Most of the good and choice 180 to 200-pound butcher hogs sold at \$14.50, with good and choice 150 to 175-pound averages at \$13.75 to \$14.45. Packing sows and stocker pigs were unchanged at \$13.50 down.

Sales in the sheep yards included choice Spring lambs at \$12.75, with mixed grade springers, which made up most of the supply at \$11.25 down. Yearlings ranged from \$9.50 to \$11, two-year-old wethers brought \$7.50, aged wethers sold at \$6.25 down, slaughter ewes at \$3.50 to \$5.50 and feeder lambs at mostly \$8 down.

**Wondering Out Loud.** Editor Daily Press: I have often wondered why it is that though the doctor is the first person we call for in time of sickness, distress or trouble, he is too often the last one to be paid?

We pay other bills promptly, but put the doctor off—or forget him entirely—never seeming to realize he spent years of his young manhood in college and as interne, without pay, so that he could equip himself to help us.

Let's try and remember that the doctor has to live, support a family and meet his obligations. So, when his bill is due, why not pay him first—even though we have to do without a few things? A READER.

**Presbyterian Circle Met in Church Tues.**  
Circle three of the First Presbyterian auxiliary met Tuesday afternoon at 4 o'clock in the church parlor. Miss Willie Word, chairman, opened the meeting and prayer was given by Mrs. J. E. Caffrey. During the business session routine matters were transacted. The circle voted to meet hereafter in the home of members. The Bible lesson, taught by Mrs. W. W. Wallace, was a study of the Galilean ministry of Jesus as recorded by Luke. The meeting was closed with a chain of prayers. Those present were Mrs. Frank Bond, Mrs. R. B. Carswell, Mrs. J. E. Caffrey, Mrs. G. C. Rosenthal, Mrs. J. G. Rupp, Mrs. W. W. Wallace and Miss Willie Ford.

**SEIZE GERMAN STUDENT?**  
NEWARK, N. J., July 23.—Pressing its campaign against known Axis sympathizers, the government Thursday seized a German student at Princeton university who admitted being a member of several Nazi groups. The student is Theodore H. von Laue, son of Max von Laue, Berlin theoretical physicist who won the Nobel prize in 1914. FBI agents said that Von Laue, who was graduated from Princeton in 1939, admitted membership in the German labor front, the German navy, the National Socialist student movement, and the German storm troopers. His home is in Zehlendorf, a suburb of Berlin.

**VOTE FOR W. S. ADAMSON FOR COUNTY JUDGE**  
In offering myself as a candidate for re-election to the office of county judge I want to thank each and every voter for the support they have given me in the past, for which I am deeply grateful.  
On account of urgent county business in my office and the rationing of tires and campaign to conserve rubber, it has been impossible for me to see each voter personally and I hope you will take this message as a personal solicitation for your vote.  
Our nation is in a horrible war, the next two years will probably be the most critical in county affairs that Eastland county has ever experienced. you should have a county judge of experience and mature judgment to meet the difficult and perplexing problems that will arise, one has proven himself qualified in the handling of county affairs.  
As your county judge I have reduced the tax rate .20 on the \$100 valuation, saving the tax payers of Eastland county \$40,000.00 a year. I have assisted in securing W. P. A. projects that have brought into Eastland county approximately \$400,000.00 a year. I was instrumental in securing the Food Stamp Plan for Eastland county and since it's installation \$225,117.00 in free blue stamps have been issued to the needy citizens of Eastland county and has increased the business of the merchants of Eastland county this amount.  
Eastland county has never had a county judge who has been more faithful or diligent in looking after the county's business than your present county judge.  
No one will appreciate your vote more than I, and if re-elected I promise you that same faithful, honest and dependable service that I have given you in the past.  
Very sincerely,  
W. S. ADAMSON.

### Old Glory Waves Out New Challenge on Bonds

## LET'S KEEP THE FLAG FLYING ● WE CAN WE WILL -- WE MUST!

To millions throughout the world, Old Glory is the symbol of Liberty and the Fight for Freedom. Our supreme duty -- every one of us -- is to keep it flying. We are the unarmed forces of the United States. No one of us is without responsibility -- or duty to his flag. And that means duty to the boys out on the firing line. That means giving them the planes--the tanks--the bullets -- the ships -- the guns. And that means money -- your money -- at least a dime out of every dollar -- every payday -- and much extra in between as you can possibly spare. Dig down brother, Dig down deep.

Let's keep that flag aloft. Let's keep it flying.
