## PLANS ARE NOW BUT 55 MILES FROM MORESBY

SAVE THIS CHART

### Needed for War

Follow this chart and save it as a basis for collecting waste materials in your house and on your premises.

#### SCRAP IRON AND STEEL

Old stoves, radiators, bathtubs, boilers, toys, plumbing, tools, crank handles, lawn mowers, tire chains, furnace grates, bedsteads, flat irons, ash cans, outdoor steel furniture, muskets, golf clubs, sleds, bicycles, rakes, garden implements, bed-springs, all kinds of pipe, refrigerators, garbage pails, iron stakes and fencing, iron wheels and doorstops.

#### HELPS MAKE

Shells, guns, cargo ships, aircraft carriers, tanks, armored cars, submarines, range finders—all machines and arms of warfare. About 50% of every tank, ship and gun is made of scrap iron and steel.

#### OTHER METALS ... RUBBER ... RAGS ... MANILA ROPE ... BURLAP BAGS

Old batteries, lighting fixtures, cooking utensils, automobile and bicycle tires and tubes, garden hose, rubbers, clothing, dust cloths, rags, draperies, rugs, carpets. Manila rope in any condition; burlap bags.

#### HELPS MAKE

Bombs, fuses, binoculars, compasses, planes; tires for trucks, jeeps; gas masks, barrage balloons; parachute flares; insulation for electric wiring.

#### HOW TO TURN IN YOUR JUNK

Sell it to a Junk dealer  
Give it to a charity  
Take it yourself to nearest collection point

If you live on a farm and have as yet no method of disposing of scrap, phone or write your County War Board or consult your farm implement dealer.

Or consult your Local Salvage Committee. Phone: 314

#### OTHER VITAL MATERIALS NEEDED AND HOW TO DISPOSE OF THEM

**Waste Fats**—To help relieve shortage of fats and oils. Needed for glycerine to make explosives. Save pan and boiler drippings and deep fats after you've got all the cooking good from them. Strain into wide-mouthed tin can, that is spot-easy clean. Keep in refrigerator or cool, dark place until you have collected a pound or more. Then sell to your meat dealer.

**TIN TUBES**—Tooth paste, cosmetic and shaving cream tubes. Turn in at drug store when you purchase new supply.

**WASTE PAPER**—Needed only when announced by Local Salvage Committee.

**TIN CANS**—Wanted only in certain areas accessible to detinning plants, as announced locally.

**NOT NEEDED** (at this time)—Razor blades and glass.

We are facing a crisis in our war production program. Unless we salvage at least 6,000,000 additional tons of scrap iron and steel promptly, and great quantities of rubber and other materials, our boys may not get all the fighting weapons they need—in time...

**Throw YOUR scrap into the fight!**

The Junk which you collect is bought by industry from scrap dealers at established, government-controlled prices.

This message approved by Conservation Division  
**WAR PRODUCTION BOARD**  
This advertisement paid for by the American Industries Salvage Committee (representing and with funds provided by groups of leading industrial concerns).

**SCRAP METAL DRIVE SHOULD INTEREST ALL**

drive is that the proceeds from all metal placed on the Norvell lot at Ninth and E avenue is a donation to the Cisco Red Cross and will be spent to provide necessities for U. S. soldiers and sailors.

It is suggested that those having tin cans, scrap iron or other metals, and who have no way of transporting same to the Norvell property, may telephone Mrs. W. W. Wallace at 435 or John H. Kleiner at 314.

However, local junk dealers will buy your scrap metal or tin if you wish to sell it.

Miss Attie Stevens has returned from a pleasant visit with her sister and other relatives in Dallas.

**CAUDLE IS NOW A MEMBER OF THE U. S. ARMY**

board passed a resolution granting him leave of absence for the duration of the war, saying his job would be waiting for him on his return, providing his connections with the school might be resumed at the beginning of any term following his return to private life.

The resolutions were made because of the fact that Mr. Caudle has entered the service of Uncle Sam.

Mr. Caudle, who is held in high personal esteem by a large number of Cisco people, came here in 1934. He was born and reared at Stephenville and is 35 years of age.

**'RED' COLDWELL IS LIEUTENANT NAVAL RESERVE**

Charles Hatton Coldwell, 32, son of Mr. and Mrs. W. P. Coldwell, who joined the naval reserves July 4, is stationed at the Great Lakes training school, Chicago. He is Lieutenant Coldwell now and writes the family that everything is ok.

"Red" Coldwell as he was known among his schoolmates here, is a native of Cisco, was a Lobo football star and graduated from Cisco high with the class of '29. Later he attended and graduated from the College of Mines at El Paso and became a geologist for the Sun Oil company, San Antonio. He played various football positions during his college career, but was especially noted for his good work at right end.

Andrew Forga Coldwell, 36, brother of Lieutenant Coldwell, joined up June 9 and is in training at Sheppard Field, mechanical division of the air corps. He also is a native Ciscoan and a graduate of Cisco high. He was an employee of the Nance Motor company before he entered the service.

**10 ARMY TANKS HERE**

Ten M-4 light army tanks from Camp Bowie, with Capt. J. F. Holliday in charge, will spend four hours at Lake Cisco Thursday between the hours of 10 and 2 o'clock. About 50 men will accompany the tanks here.

First Sgt. Walter Hayden and Lieut. E. C. Burnett, who called at the Daily Press office Monday, made this announcement. They stated the public is cordially invited to visit the temporary camp at Lake Cisco and inspect the equipment.

Hayden's home is Baltimore, Md., while Burnett is a native of Spartanburg, S. C.

**MRS. PRIDDY, SISTER MRS. MASON, DIES**

Mrs. John Priddy, of Priddy, Tex., 73, died in Memorial hospital, Brownwood, Sunday afternoon at 7 o'clock.

Mrs. Priddy, a sister of Mrs. O. L. Mason of Cisco, was Miss Melie Cunningham, daughter of W. H. (Billy) Cunningham of Newburg, south of Comanche, where the Cunninghams, early Indian fighters, settled in pioneer days. She was married January 9, 1890, to John Priddy, son of T. J. Priddy, first postmaster at Priddy, and for whom the little town was named. The elder Priddy settled there in the early seventies.

Seven children were born, five of whom are living—all boys. They are: Arthur, Bangs; Hobart, Mullin; Wright, Comanche; Jim, Los Angeles, and Ray of Priddy.

The funeral was held in the Baptist church at Priddy, Monday afternoon, where the many friends of the family paid their last respects to this fine woman.

Mr. and Mrs. O. L. Mason and daughter, Mrs. Roy Camfield, were present at the services.

**FIGHTING FOR LIFE**

MOSCOW, July 28.—In an article entitled "The Fate of Russia," the army paper Red Star Tuesday called on every woman and child to take up axes and stones to attack the German invaders upon our generation, it said. "If the German conquer us, the generation now 5 to 10 years old will spit upon us when it is grown up."

**28 PUT TO DEATH**

VICHY, July 28.—The Germans announced Tuesday the execution of 28 persons at Lille on conviction of a series of offenses, including sabotage, possession of weapons and communistic activity. At the same time French courts at Douai, a suburb of Lille, sentenced two persons to life in prison for stealing ration cards, and 28 others to a total of 40 years in prison. Most of them also were miners.

**ALLIED PATROLS CLASH WITH ENEMY AT VILLAGE OF OVI, 5 MILES FROM KOKODA, MID-NEW GUINEA**

GENERAL MacARTHUR'S HEADQUARTERS, Australia, July 28. — Japanese patrols advanced today through interior New Guinea, apparently intent on establishing a base only 55 air-line miles from the great Allied advance base at Port Moresby on the south coast opposite Australia.

A communique issued at Gen. Douglas MacArthur's headquarters revealed that Allied patrols had clashed with enemy forces at the native village of Ovi, only five miles from Kokoda in mid-New Guinea.

Kokoda, on a plateau at the eastern base of the formidable Owen Stanley mountain range which forms the backbone of that Papuan end of New Guinea, is 55 miles from Port Moresby.

In one day, since the first clash between the Allied jungle patrols and the Japanese from the new Buna-Gona base on the north coast, the enemy forces had advanced about 30 miles.

Anxiety over the new enemy activity increased throughout Australia.

Though no immediate threat was foreseen to Port Moresby, the Japanese had again seized the initiative in ground fighting and they had suddenly intensified their aerial activities.

Darwin, the big Allied north Australian coast base, was raided twice last night by small enemy plane forces.

General MacArthur's planes struck a new, hard blow at the enemy's Buna-Gona base when dive bombers, first put into action last week, blew up an ammunition dump, while other planes made two strong night raids on the Japanese base in the Koepang area of Timor Island, in the north-western Australian zone, and started fires with direct hits on airdrome buildings, barracks and other installations.

In their advance from their new Buna-Gona base in New Guinea, the Japanese so far had had the advantage of easy terrain on which they could use bicycles.

But beyond Kokoda they faced the Owen Stanley mountains which separate them from the Port Moresby side and they will meet increasing forces of specially trained Allied jungle patrols operating now all the way to the Japanese-occupied north coast.

**NAZI BODIES LITTER DON BATTLE FRONT**

Nazi units previously reported trapped on the five-mile strip formed by junction of the Voronezh and Don rivers. These reinforced troops counter-attacked, but Russian forces gained two more footholds on the west bank of the Don south of Voronezh.

At last reports the Germans were digging in and fortifying their remaining positions on the east bank.

A fierce battle occurred Monday on the outskirts of a forest northwest of Voronezh. It was here, according to Pravda, that enormous German casualties were recorded.

Soviet troops broke through the defense of one important town held by Nazi forces besieging Voronezh from the south.

Reinforcements are being rushed to the Hungarian troops holding the town but the Red army continues to advance.

All new German attacks in the Don river elbow have been repulsed, the Soviet high command announced, and extremely heavy fighting is now under way in the vicinity of Voronezh, on the northern Don river front, and around Tsimlyansk, 125 miles northeast of Rostov.

The Germans succeeded in reinforcing with their 323rd division Mr. and Mrs. B. F. Thomas and small daughter of Vernon visited here briefly with her parents, Mr. and Mrs. Bob McCrary, Monday while on a business trip to Albany.

## 28 MEN PER MO. FOR SEA

Enough men to equal the crew of a destroyer now building will be enlisted from the Abilene navy recruiting district each month during August and September. Chief C. L. White, recruiter in charge of this district, announced today. The district includes Callahan, Callahan, Comanche, Eastland, Fisher, Haskell, Jones, Mills, Nolan, Shackelford, Stonewall and Taylor counties.

Sponsoring the campaign to enlist at least 251 men from this district each month will be American Legion Posts and civic organizations in each county. Committees have been organized and supplied with navy recruiting literature. Individual members will be designated "Volunteer Navy Recruiter."

A monthly quota of volunteer enlistments for naval service has been assigned each county, based on population. Exact figures on complements of naval vessels are secret, Chief White said, but certain figures may be used for recruiting purposes. In the Houston navy recruiting district, comprising the southern half of Texas, a recent slogan was "Wanted, 1,000 Volunteers for Replacement of the Cruiser Houston."

Eastland county, with a population of 30,245, is asked to furnish 28 volunteers each of the two months. The recruiting slogan for this county is "Eastland County Navy Enlistments Shall Equal Four Torpedo Tube Crews."

Taylor county, with a population of 44,147 and a quota of 42 men per month, will have for a recruiting slogan: "Taylor County Navy Enlistments Shall Equal Enough Men to Man Four Guns." Other counties will have appropriate recruiting slogans based on their monthly quota.

Navy enlistment ages are from 17 to 30 years. Unskilled men have opportunity to attend navy trade schools. Qualified men may be enlisted as petty officers with monthly pay ranging from \$78 to \$128.

## DALLAS NEWS WASHINGTON CORRESPONDENT SAYS ADMINISTRATION WILL GIVE ALLRED HEAVY PRESSURE

(John E. King in Dallas News)

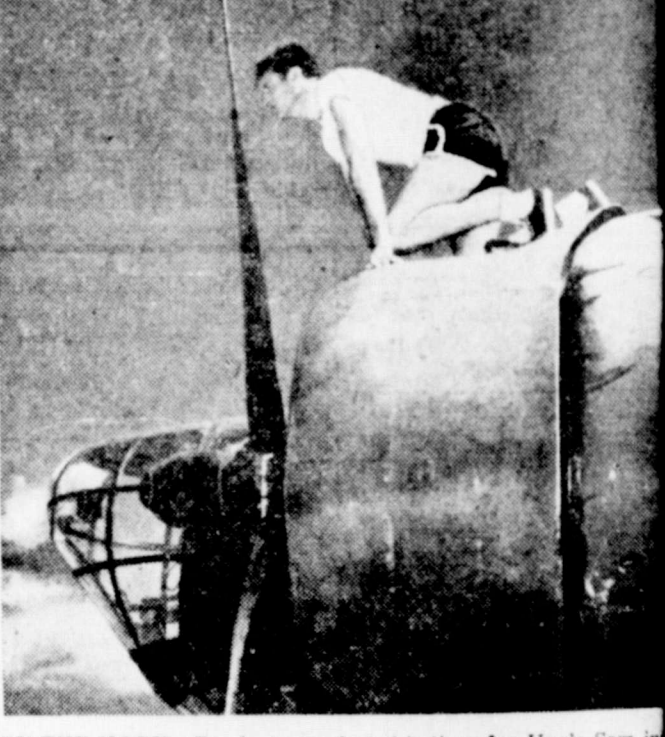

WASHINGTON, July 28.—With it all assured that James V. Allred, recognized the administration candidate for the democratic nomination for senator from Texas in the primary election held Saturday, will be in a run with Senator W. Lee O'Daniel, it was understood yesterday that administration forces preparing to turn the heat on the four-way campaign that will precede the second election in Texas.

While no official announcement has come from the White House or any administration spokesman, talk has been general during the campaign that preceded the first primary election that the administration would maintain a hands-off policy until the runoff campaign. Administration leaders had advised that too much administration activity in the first primary campaign might work to the disadvantage of the administration candidate.

The administration is known to wish most ardently that Senator O'Daniel be defeated, but since either Moody or Allred would be acceptable to the White House, it was considered wise strategy to remain inactive during the first primary campaign and to lay plans for the runoff. The administration took no part openly in the campaign just closed, although considerable work is known to have been done, in Texas as well as in Washington.

All the strength the administration can muster is now expected to be thrown to Allred.

Political observers here point out that the vast military activity in Texas and the unusually large number of federal contracts that state will open the way to considerable pressure being brought to bear in an effort to secure Allred's nomination. Some observers point to a special election last year in which Senator O'Daniel just barely defeated Representative Lynn Johnston of Johnson City, who received the blessing of the White House before making his announcement. Administration forces were unusually active in Texas at that time, and others predict that there will be greater activity in the forthcoming campaign on the part of administration leaders.

**Keep Long Distance VOICEWAYS clear for VICTORY!**

The weight of war on the long distance telephone lines grows heavier every day. We can't build new lines to carry it because materials aren't available. We've got to make the most of the service we now have.

To keep our lines free for calls essential to fighting the war, we need your help and sympathetic understanding.

In general, of course, we are able to handle fairly easily calls over shorter distances. But remember always that if your call goes to a large city where war work is under way, or must pass through such cities, it may add to an already dangerous congestion. This is especially true in the rush hours from 9 to 12 in the morning, 2 to 5 in the afternoon, 7 to 9 at night.

On calls to more distant points during those hours, we are sure you will feel that your personal interests must give way to official messages that constantly are flooding our lines.

By thoughtful use of telephone service civilians can help to win the war. And we know you're glad to help.
